Director of Public Works

BOARD MOTION OF MARCH 1, 2016, AGENDA ITEM 47-A
REINSTALLATION OF SOLAR PANELS

On March 1, 2016, the Board instructed Public Works to report back on permit and inspection requirements for the replacement of roofs on existing homes fitted with existing solar panel systems.

Our policy is to issue one permit for the roof replacement and a miscellaneous permit for the reinstallation of the existing solar panel system. Permittees may obtain this single permit by providing evidence of the existing solar panel system and paying one fee for all inspections. The final inspection of the roof installation and the reinstallation of the solar panel system will be done at the same time.

If you have any questions, please call me or your staff may contact Dennis Hunter at (626) 458-4006 or dhunter@dpw.lacounty.gov.
