

we all need

for healthy, thriving and engaged communities

## create the future of your parks!

Does your family play outdoors? Like to swim? Or just want to jog or take a walk? Parks are critical for healthy, thriving communities.

We've taken stock of what we have—the existing parks, recreation facilities and open space—and what kind of shape they're in. Now we need to know what you want.

- Where do we most need recreation facilities or open space?
- Which parks need repair or expansion?
- What type of recreation is most needed?

What will make your family and your neighborhood healthy, happy and out getting physical exercise? Come to our workshop. Together, we'll create a list of park priorities for our community.
