Subject: GROUP HOME PROGRAM MONITORING REPORT – NEW HORIZON/SYDIA GROUP HOME, INC., NEW HORIZON #1, NEW HORIZON #2  

We have completed a review of New Horizon #1 and New Horizon #2 Group Homes (Group Home or Agency) operated by the New Horizon/Sydia Group Home, Inc. Each Group Home contracts with the Department of Children and Family Services (DCFS) and the Probation Department (Probation).

New Horizon #1 Group Home is a six-bed facility, which provides care for children ages 13-17 who exhibit behavioral, social, and emotional difficulties. At the time of the monitoring visit, New Horizon #1 Group Home was providing services for six DCFS children. New Horizon #1 Group Home is located in the Fifth District.

New Horizon #2 Group Home is a six-bed facility, which provides care for children ages 15-18, who exhibit behavioral, social, and emotional difficulties. At the time of the monitoring visit, New Horizon #2 Group Home was providing services for six DCFS children. New Horizon #2 Group Home is located in the Fifth District.

Scope of Review

The purpose of the review was to determine whether the Agency was providing the services outlined in their Program Statement. Additionally, the review covered basic child safety and licensing issues, and included an evaluation of the Agency’s Program Statement, internal policies and procedures, child case records, facility inspections, and interviews with two children placed in each Group Home at the time of the review. Interviews with the residents were designed to obtain their perspectives on the program services provided by the Agency, and to ensure adherence to the Foster Youth Bill of Rights.

“To Enrich Lives Through Effective and Caring Service”
Summary of Findings

Generally, the Agency was providing the services outlined in their Program Statement. However, the Agency’s Group Home facilities are not well maintained and numerous program areas need improvement.

Horizon #1

New Horizon #1 Group Home needs to make substantial repairs to its facility; provide monthly psychiatric evaluations for all residents receiving psychotropic medications; and provide residents with at least the required weekly minimum base allowance.

Horizon #2

New Horizon #2 Group Home needs to make substantial repairs to its facility; provide residents with age appropriate and accessible recreational equipment; provide residents with a sufficient quantity of age appropriate books and reading materials; properly store food to prevent contamination and spoilage; maintain current Needs and Services Plans that have realistic, measurable, and time specific goals for all residents; provide documentation to show placement workers’ participation in the development and update of the Needs and Services Plans; provide monthly psychiatric evaluations for all residents receiving psychotropic medications; ensure there are fair and appropriate consequences for inappropriate behavior; and provide residents with regular opportunities to maintain photo albums/life books.

Attached is a detailed report of the review findings.
