Director of Public Works

GRAND AVENUE REALIGNMENT PROJECT - STATUS OF TREE REMOVAL

The trees along Grand Avenue were removed by the contractor on March 8, and 9. Three- to four-foot-high stumps were temporarily left as a safety measure to avoid tripping hazards to pedestrians. The work was performed on the weekend to minimize traffic impacts and to allow completion prior to the March 15 start of the bird breeding season.

Subject to obtaining necessary approvals from jurisdictional agencies, the contractor proposes to begin implementing traffic control measures as early as March 18, 2003. Once the contractor begins work, he will be responsible for maintaining the site in an acceptable condition. The tree stumps will be removed in conjunction with the sidewalks in preparation for construction of the new improvements.

If you have any questions, please contact me or Gary Hartley of my staff at (626) 458-4016.
