Subject: TISSUE CONTRACT UPDATE

To Each Supervisor,

This is to provide you with updated information regarding the status of the Tissue Collection Services Agreement.

The agreement has been signed by Tissue Banks International (TBI) and returned to the County.

The Tissue Bank Partner (TBP) Agreements (individual agreements with the partnered banks, TBI and County) have all been signed with the exception of one, Pacific Coast Tissue Bank, which is currently in negotiations with TBI. The Tissue Bank Partner Agreements (attachments to the TBI-County agreement) are County created agreements which are required before partnered Banks can receive tissue under the contractor's Tissue Distribution Plan.

All final documents require review and approval by County Counsel prior to the filing of the Board Letter.

Barring any unforeseen delays, the Board letter should be filed within the next two weeks.
