**SOUTH COAST AIR QUALITY MANAGEMENT DISTRICT RULE 2202 RIDESHARE
 GOAL ACHIEVEMENT**

This memorandum is in response to Supervisor Antonovich's request from the September 2, 2003 Board meeting concerning the County's compliance with the management rules of the South Coast Air Quality Management District (SCAQMD). The County of Los Angeles, among 1,500 employers in Southern California, is required under the SCAQMD's Rule 2202 to make a good faith effort to annually achieve regional rideshare goals. Average Vehicle Ridership (AVR) compliance is not currently required but encouraged. As one of the largest employers in the basin, the County of Los Angeles currently has 64 worksites with over 250 employees. These worksites are subject, individually, to SCAQMD Rule 2202.

Annually, the Chief Administrative Office centrally coordinates a Countywide rideshare survey for approximately 40,000 employees. This survey provides the base data for annual reports to the SCAQMD on worksite rideshare goal achievement. The County's 2003 Rideshare Survey is currently in process, with a scheduled completion date of October 30. Therefore, the requested status report on rideshare achievement at regulated worksites is based on the County's 2002 survey data. The attached report documents 15 County worksites currently in full compliance with Rule 2202 and 49 worksites that range from a 1.0 AVR to 1.49, in a 1.5 AVR zone. Ridership achievement in a 1.5 AVR zone equates to three riders for every two cars.

A recent Countywide Rideshare Coordinator Network meeting was conducted by my office. Representatives from each County department met to discuss rideshare strategies and challenges faced by employees in worksites that have inadequate public transportation services or rideshare options. A number of rideshare strategies and workplace programs were explored as rideshare enhancing strategies. These strategies included:

"To Enrich Lives Through Effective And Caring Service"

Each Supervisor
September 9, 2003
Page 2

1. Expand telecommuting;
2. Expand 9/80 workweeks;
3. Expand ride-matching services;
4. Expand carpooling and vanpooling;
5. Expand use of public transportation;
6. Expand "cluster worksites" (create new cluster worksite groups that partner worksites within a 5-10 mile radius);
7. Explore County rideshare subsidies;
8. Explore County shuttle services in public transit isolated areas;
9. Promote enhanced awareness of ridesharing benefits; and
10. Assist worksites with a 1.4 and above AVR in achieving 1.5.

County Rideshare Coordinators were also briefed on enhanced efficiencies to be used in conducting this year's rideshare survey. Following the collection and processing of survey data in late October, new rideshare data will be available. This data will be used to prepare the County's annual SCAQMD Rule 2202 reports due December 1, 2003 and will be used to provide the Board with an updated Rideshare Status Report by November 30, 2003.

The SCAQMD has conducted a number of public hearings with employers regarding proposed Rule 2202 changes. These proposed changes, if approved by the SCAQMD Governing Board, would require regulated employer worksites to meet regional rideshare goals in 2004. As the County's scheduled filing date is December 1, the County could be required to achieve rideshare goals at all regulated worksites by December 1, 2004.

The fiscal impact of SCAQMD Rule 2202 proposed changes on the County will be assessed by November 30, 2003, based on the 2003 survey data. Following this assessment, priority rideshare strategies will be identified and promoted as viable options essential to the achievement of rideshare goals at all regulated worksites. If additional information is required, please contact Evelyn Gutierrez, Director of Workplace Programs at (213) 974-2495.

Note 1: Worksites with 1.40 or above are top priority rideshare promotion sites (8)

Note 2: Worksites ranging from 1.30 to 1.40 are second priority sites (13)

Note 3: Worksites at 1.29 or below represent the highest difficulty factor (28)

Additional Information:

This data is based on the Sept./Oct. 2002 annual rideshare survey.

2003 rideshare surveys are currently in process. Results to be tabulated by November.

Proposed SCAQMD Rule 2202 changes will impact the County **December 2004**, if approved by the SCAQMD Governing Board, as planned by November 2003.

Over 1,500 South Coast basin employers have been notified of the proposed changes.
