REVISED

The Honorable Board of Supervisors
County of Los Angeles
383 Kenneth Hahn Hall of Administration
500 West Temple Street
Los Angeles, CA 90012

Dear Supervisors:

LARGE WATER METER MAINTENANCE PROGRAM
SUPERVISORIAL DISTRICTS 3, 4, AND 5
3 VOTES

IT IS RECOMMENDED THAT YOUR BOARD, ACTING AS THE GOVERNING BODY OF THE LOS ANGELES COUNTY WATERWORKS DISTRICTS:

1. Find that this service is exempt from the provisions of the California Environmental Quality Act (CEQA).

2. Award the contract for "Large Water Meter Maintenance Program" to Lane M. Matsuno, an individual, d.b.a., Westerly Meter Service Company, located in Compton, California. This contract will be for a period of one year commencing upon Board approval, with five 1-year renewal options, not to exceed a total of six years.

3. Delegate authority to the Director of Public Works to execute the contract and to renew the contract for each one-year option, if, in the opinion of the Director, renewal is warranted, or, if necessary, to terminate the contract.

4. Authorize the contractor to proceed with the work in accordance with the specifications, terms, conditions, and requirements.

5. Authorize Public Works to encumber $200,000 annually which represents our estimated annual cost for this service based on the rates submitted by the contractor. Funds for the first year of the contract are available from the various Los Angeles County Waterworks Districts' Fiscal Year 2003-04 funds.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

Since 1992, we have contracted for large water meter maintenance services. The purpose of this action is to continue contracting for this service in order to ensure the equitable distribution of water resources and proper assessment of charges for water consumption and use in the various waterworks districts. The work to be performed will consist of site surveys, meter testing and analysis, and meter repairs and replacements.

Implementation of Strategic Plan Goals

This action is consistent with the County's Strategic Plan Goal of Organizational Effectiveness. This contract will improve internal operations through the utilization of this contractor's expertise to effectively provide this service in a timely and responsive manner.

FISCAL IMPACT/FINANCING

This contract is for an annual amount not to exceed $200,000. This one-year contract will commence upon Board approval. With the Board's delegated authority, the Director may renew this contract from year-to-year for a total contract period not to exceed six years. In any event, this contract may be canceled or terminated at any time by the Director, without cause, upon giving of at least 30 days' written notice to the contractor.

Funds for the first year of this contract are available from the various Los Angeles County Waterworks Districts' Fiscal Year 2003-04 funds. Funds to finance the contract's renewal years will be made available through Public Works' annual budget process. There is no impact on net County cost.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

Prior to the Director executing this contract which will be substantially reflected in Enclosure A, the contractor will sign and County Counsel will review it as to form.

Public Works has evaluated and determined that the Living Wage Program (Los Angeles County Code Chapter 2.201) does not apply to this recommended contract which is for non-Proposition A services, required on a part-time and intermittent basis.

Public Works has confirmed that the Child Support Services Department has received the contractor's Principal Owner Information Form in compliance with the Los Angeles County Code Chapter 2.200 (Child Support Compliance Program).

ENVIRONMENTAL DOCUMENTATION

With respect to requirements of the CEQA, the type of services to be provided are categorically exempt as specified in Class 1(a), of the Environmental Document Reporting Procedures and Guidelines adopted by your Board on November 17, 1987, Synopsis 57.

CONTRACTING PROCESS

On June 19, 2003, Public Works solicited proposals from 68 independent contractors and community business organizations to accomplish this work. Also, notice of proposal availability was placed on the County's bid website (Enclosure B) and an advertisement was placed in the Los Angeles Times.

On July 23, 2003, two proposals were received. These proposals were first reviewed to ensure they met the mandatory requirements as outlined in the Request for Proposals (RFP). The two proposals, having met these requirements, were then evaluated by an evaluation committee consisting of Public Works' staff. The committee's evaluation was based on criteria described in the RFP, including proposer's pricing, work plan, references, and experience. Based on this evaluation, Public Works is recommending that a contract be awarded to Lane M. Matsuno, an individual, d.b.a., Westerly Meter Service Company, located in Compton, California, which was found to be the most responsive and responsible proposer.

Enclosure C reflects the proposers' minority participation. The contractor was selected upon final analysis and consideration without regard to race, creed, gender, or color.

This contract contains Board-ordered contract terms regarding current and new notification of Federal-earned income tax credit, agreement to maximize to the extent possible the use of recycled-content paper products, contractor responsibility and debarment, jury service requirements, nonpayment for services rendered after expiration or termination of the contract, and the Safely Surrendered Baby Law.

Proof of required Comprehensive General and Automobile Liability insurance policies, naming the Los Angeles County Waterworks Districts and the County as additional insured, and evidence of Workers' Compensation insurance will be obtained from the contractor before any work is assigned.

As requested by your Board, the contractor has submitted a safety record, which reflects that activities conducted by the contractor in the past have been according to reasonable standards of safety.

In accordance with the Chief Administrative Officer's June 15, 2001, instructions, this is Public Works' assurance that this contractor will not be requested to perform services which will exceed the contract's approved amount, scope of work, and/or terms.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

The award of this contract will not result in the displacement of any County employees since we have been contracting for this service with the private sector.

CONCLUSION

One approved copy of this letter is requested.

Respectfully submitted,

JAMES A. NOYES
Director of Public Works

C. Proposal Submission

1. Proposals shall be submitted with four complete copies (one original and three copies) of the Proposal and any accompanying documents. Proposals received after the closing date and time will be rejected by Public Works as nonresponsive.

2. Submit Proposals to the County of Los Angeles Department of Public Works' Lobby Cashier, 900 South Fremont Avenue, Alhambra, California 91803, in a package which clearly identifies this Request for Proposals and the name of the Proposer. Proposals will be officially received by Public Works only when accepted and time stamped by the Lobby Cashier. It is the responsibility of the Proposer to instruct delivery services, such as United Parcel Service and Federal Express, to deliver Proposals directly to the Lobby Cashier. Proposals not delivered to the Lobby Cashier may be delayed in being officially time stamped by the Lobby Cashier and may miss the Proposal submission deadline. While Proposals received at Public Works' Mail Center through the United States Postal Service will be forwarded to the Lobby Cashier as quickly as possible, the Mail Center will not time stamp proposals. Public Works will not be responsible for any delays or missed deadlines for proposals that are not delivered directly to the Lobby Cashier.

D. GAIN/GROW Program

As a threshold requirement for consideration for contract award, Proposers shall demonstrate a proven record of hiring participants in the County's Department of Public Social Services' Greater Avenue for Independence (GAIN) or General Relief Opportunity for Work (GROW) Programs or shall attest to a willingness to consider GAIN/GROW participants for any future employment opening if they meet the minimum qualifications for that opening. Additionally, Proposer shall attest to a willingness to provide employed GAIN participants access to Proposer's employee mentoring program, if available, to assist these individuals in obtaining permanent employment and/or promotional opportunities. Proposers who are unable to meet this requirement shall not be considered for contract award (see Forms List above).

E. Child Support Compliance Program

Proposers must certify in accordance with the provisions of Section 2.200.060 of the County Code that: (1) the Principal Owner Information Form (attached) has been appropriately completed and provided to the Child Support Services Department with respect to the Proposer's Principal Owners; (2) the Proposer has fully complied with all applicable State and Federal reporting requirements relating to employment reporting for its employees; and (3) the Proposer has fully complied with all lawfully served Wage and Earnings Assignment Orders and Notices of Assignments and continues to maintain compliance. Such certification must be submitted on the Child Support Compliance Program Certification (see Forms List above). Failure by the Proposer to provide the Principal Owner Information Form and the Child Support Compliance Program Certification to the Child Support Services Department will be grounds for a finding by the County that the Proposal is nonresponsive.

F. Jury Service Program

1. The resultant contract from this RFP will be subject to the requirements of the County's Contractor Employee Jury Service Ordinance ("Jury Service Program," Los Angeles County Code, Chapter 2.203). Proposers should carefully read the pertinent jury service provisions in Part II, Section 3.V. The Jury Service Program applies to both contractors and their subcontractors. Proposals that fail to comply with the requirements of the Jury Service Program will be considered nonresponsive and excluded from further consideration.

2. The Jury Service Program requires contractors and their subcontractors to have and adhere to a written policy that provides that its employees shall receive

from the contractor, on an annual basis, no less than five days of regular pay for actual jury service. The policy may provide that employees deposit any fees received for such jury service with the contractor or that the contractor deduct from the employee's regular pay the fees received for jury service. For purposes of the Jury Service Program, "employee" means any California resident who is a full-time employee of a contractor and "full-time" means 40 hours or more worked per week, or a lesser number of hours if: 1) the lesser number is a recognized industry standard as determined by the County, or 2) the contractor has a long-standing practice that defines the lesser number of hours as full-time. Therefore, the Jury Service Program applies to all of a contractor's full-time California employees, even those not working specifically on the County project.

3. There are two ways in which a contractor might not be subject to the Jury Service Program. The first is if the contractor does not fall within the Jury Service Program's definition of "contractor." The Program defines "contractor" to mean a person, partnership, corporation or other entity which has a contract with the County or a subcontract with a County contractor and has received or will receive an aggregate sum of $50,000 or more in any 12-month period under one or more County contracts or subcontracts. The second is if the contractor meets one of the two exceptions to the Jury Service Program. The first exception concerns small businesses and applies to contractors that have: 1) ten or fewer employees; and, 2) annual gross revenues in the preceding 12 months which, if added to the annual amount of this contract is less than $500,000; and, 3) is not an "affiliate or subsidiary of a business dominant in its field of operation." The second exception applies to contractors that possess a collective bargaining agreement that expressly supersedes the provisions of the Jury Service Program. The contractor is subject to any provision of the Jury Service Program not expressly superseded by the collective bargaining agreement.

4. If a contractor does not fall within the Jury Service Program's definition of "Contractor" or if it meets any of the exceptions to the Jury Service Program, then the contractor must so indicate in the Certification Form and Application for Exception (see Forms List above) and include with its submission all necessary documentation to support the claim such as tax returns or a collective bargaining agreement, if applicable. Upon reviewing the contractor's application, the County will determine, in its sole discretion, whether the contractor falls within the definition of Contractor or meets any of

the exceptions to the Jury Service Program. The County's decision will be final.

G. Local Small Business Enterprise Preference Program

In evaluating proposals, the County will give preference to businesses that are certified by the County as a Local Small Business Enterprise (Local SBE), consistent with Chapter 2.204 of the Los Angeles County Code. Proposers who wish to be considered for this preference should do so using the attachment entitled Request for Local SBE Preference Program Consideration and CBE Firm/Organization Information Form (see Forms List, Section 1.B.10, above). A Certified Local SBE is a business: 1) certified by the State of California as a small business enterprise; 2) having its principal office currently located in Los Angeles County for a period of at least the past 12 months; and 3) certified by the Office of Affirmative Action Compliance as meeting the requirements set forth in 1 and 2 above. Certified Local SBEs must request the SBE Preference in their solicitation responses and may not request the preference unless the certification process has been completed and certification affirmed. County must verify Local SBE certification prior to applying the preference. Sanctions and financial penalties may apply to a business that knowingly, and with intent to defraud, seeks to obtain or maintain certification as a certified Local SBE.

Information about the State's small business enterprise certification regulations is in the California Code of Regulations, Title 2, Subchapter 8, Section 1896 et seq., and is also available on the California Department of General Services Office of Small Business Certification and Resources Web site at http://www.pd.dgs.ca.gov/smbus/default.

You can obtain further information on certification from the County website at www.oaac.co.la.ca.us/sbemain.html or calling (213) 974-0912.

H. Vendor Registration

Proposers must register online with the County's Web-based vendor registration system to facilitate the contract award process. Registration is accessible through the "Doing Business with Us" link on the County's Internet Home Page at www.lacounty.info.

SECTION 2

Proposals received from Proposers not signed in as attending this Conference will be rejected as nonresponsive.** Proposers are encouraged to be prepared to ask questions concerning this Request for Proposals' requirements, specifications, terms, and conditions. Upon conclusion of the Proposers' Conference, Public Works will only provide further clarifications and/or answers concerning this solicitation through an addendum(s) to all who attended the conference.

B. Proposal Requirements and Conditions

Proposers are requested to review Part II, Section 2 - General Proposal Requirements and Conditions as well as the County's "Policy on Doing Business with Small Business" and the County's "Vision" statement (both attached).

C. Public Works' Contract Contact

The Contractor's contact with Public Works regarding this Contract will be Mr. Lanh Duong at (626) 458-3350.

D. Work Description

The County has developed the Large Water Meter Maintenance Program (Program) to address its need for clean water within its Waterworks Districts. Public Works' Waterworks and Sewer Maintenance Division administers this Program for the County. Large water meters will be described as those meters three inch (3") through ten inches (10") in size serving residential, commercial, industrial or agricultural customers within the County. The purpose of this Program is to ensure the equitable distribution of water resources and proper assessment of charges for water consumption and use. Additionally, this Program is designed to eliminate meters which are obsolete, improperly sized, misapplied, improperly installed or require excessive maintenance. Below are the specifications which will govern this undertaking. Exhibit C lists the steps for the Large Water Meter Testing and Maintenance Program.

E. Preparation

Exhibit D lists all County three inch (3") through ten inches (10") large water meters serving residential, commercial, industrial or agricultural accounts noting the following information:

1. Account Number
2. Account Address and City
3. Meter Size, Manufacturer, Type and Serial Number

The following information can be provided to the Contractor when the Contractor begins work under this Program.

1. Account Name
2. Phone Number (if known)
3. Age of Meter/Date of Install
4. Date of Last Testing and/or Repair
5. Record of Test/Repair History
6. Previous Twelve Month Demand Record, by Element
7. Type Business Classification
8. Applicable Water Rate for Each Meter, by Meter
9. Applicable Sewer Rate for Each Meter, by Meter
10. Water Rate Structure Noting Minimum Billing(s)
11. Additional Demand Assessment Rates (if applicable)
12. Placement of Inlet, Outlet, and Bypass Control Valves

F. Site Surveys

As required, the County will request the Contractor to perform site surveys of large water meters. A copy of the "Survey Form" to be used is included as "Exhibit A" of these Specifications. Besides the information requested on the survey form, Contractor shall take a photo of each setting to be included with the survey. Special considerations or deficiencies not indicated specifically on the form shall be noted in the remarks area provided.

Within five working days after the Contractor has performed a site survey, Contractor shall meet with the Public Works' representative to review the findings and determine what action is to be taken based on the survey findings. Surveyed meters shall be directed toward one of the categories outlined below.

DEFINITION	CATEGORY
Meter is current production model meter with proper control valves and is properly installed; schedule for testing and/or repair.	"A"
Meter is obsolete model or is maintenance intensive but can be tested; schedule meter for testing and analysis only.	"B"

Meter is improperly installed, is lacking proper control valve(s), testing provisions or some other deficiency which prevents testing; turn over to County maintenance for setting correction. "C"

Should information provided to Contractor appear to be in error (i.e., serial number, business name, size, etc.), Contractor shall advise Public Works and make such notations on survey form. Public Works' records will be updated before any further action is taken toward testing, repair, replacement, or maintenance construction.

G. Meter Testing

Large water meters serving County customers are to be tested as indicated. Testing shall be performed using a comparative type large meter test unit capable of maintaining an accuracy of ±1½ percent and have a performance range minimum of one to 3,000 gallons per minute (GPM). Subject meters will be serving residential, commercial, industrial, and business customers of the County, have operable inlet and outlet control valves and in-line test provision(s). Contractor shall comply with all points noted and supply Public Works with a schedule of testing activity. A minimum of two Contractor technicians shall be required in performance of the field testing. Contractor shall be fully equipped to conduct testing with no assistance from Public Works personnel. The Contractor's lead technician shall have a minimum of five years experience at field testing large water meters. Test crews shall operate under any applicable State of California Occupational Safety and Health Agency (CalOSHA) regulations regarding working within a confined space should meters be in a vault below grade. Public Works will assign a representative to Contractor's crew(s) to perform all valve operation, ease customer relations and inspect work being performed.

The Contractor's accuracy testing shall encompass the procedures outlined below:

1. Record customer and meter identification information.

2. Indicate meter register readings prior to and upon completion of field testing.

3. Note service pressure at meter site.

4. Determine test flows to be run for size and type subject meters as outlined in "Exhibit B" of these Specifications. No less than five tests shall be run on a Class I or Class II turbine and no less than seven tests on any compound type meter. Multiple register fire service meters shall have three test runs for each measuring element and one test at each

"changeover" point. Contractor's equipment shall have capacity to perform subject meter accuracy test without exceeding rating of test equipment.

5. Conduct field test at designated flow ranges noting quantities run on both test unit and subject meter.

6. Utilize corrected accuracy technique to improve results of test data in calculating subject meter accuracy.

7. Note any problems with valve failure or hazardous setting conditions.

If meter being tested was designated a "Category A" type meter, Contractor shall determine if subject meter requires repair and proceed under repair guidelines. If meter is running within ±3 percent of true accuracy at all flow rates (excluding changeover), Contractor shall have Public Works' representative return all control valves to their proper position and place meter back in service. A "Test Only" fee shall apply for these occasions. Any damage to the setting or surrounding during the testing process which is the result of negligence by the Contractor shall become the expense and responsibility of the Contractor to correct. Known internal or external conditions of subject meter(s) causing inaccurate test results shall be noted by the Contractor on test document. Should meter being tested have been designated a "Category B" type, Contractor shall have Public Works' representative place all control valves back in their proper position and put meter back in service. Contractor shall then take the test data and complete the evaluation of the meter as outlined under the large meter analysis section.

H. Large Meter Repairs

Any meters designated to be "Category A" type, shall meet certain guidelines established by Public Works. Meters which are not current production model meters, are maintenance intensive, are lacking in parts availability or are misapplied will not be subject to the repair phase of this Program. Additionally, those meters whose adjusted continuous demand falls below or above the minimum and maximum rating as specified by Public Works shall be referred back to the County for further review toward change in meter size or type. Continuous demand is described as the total calculated average rate of flow, in GPM, based on a 30-day month, 24-hour per day operation. Below is a list of those meters the County presently regards as "repairable" products and the associated continuous demand range for each of those meters, listed by size and manufacturer:

Public Works reserves the right to add to, delete from or modify this list of tentative repairable meters at any time with written notice to Contractor. Additionally, Public Works reserves the right to replace any of the meters noted above when it is in the best interest of Public Works. Should, from meter initial test, Contractor determine total repair expense, including all labor and parts, exceed 35 percent the cost of a newly installed product, Contractor shall refrain from completing repair and turn meter back over to Public Works for review. A "Test Only" fee shall apply on these occasions.

The Contractor shall provide all large meter repair parts.

A minimum of two Contractor technicians shall be required in performance of the field repair work. Contractor shall be fully equipped to conduct repairs with no assistance from Public Works' personnel other than the valve operation. The Contractor's lead technician shall have minimum five years experience at large meter repairs. The Contractor's crew shall operate under any applicable CalOSHA regulations regarding working within a confined space should meters be in vault below grade. The County will assign a representative to Contractor's crew(s) to operate control valves, ease customer relations and inspect work being performed.

After repair, Contractor shall calibrate meter as close to new meter accuracy as possible ±1½ percent and follow all testing guidelines as indicated in Part I, Section 2.G, "Meter Testing" of these Specifications. Contractor shall forward repaired meter test report and copy of parts sheet along with invoicing. A 12-month workmanship and performance warranty shall be supplied by Contractor on all

Contractor repaired meters. Should repaired meter fail at any time during the first 12-month after repair, Contractor shall supply all labor to correct problem(s) free of charge to the County. Problems which arise as the result of parts failure, acts of God, vandalism abuse, aggressive water conditions or any other situation beyond the control of the Contractor will not be considered under these warranty provisions.

I. Large Meter Analysis

Those meters meeting the criteria as "Category B" type, shall be subjected to a thorough analysis to determine proper meter application and sizing. All testing is to be performed according to the testing guidelines as indicated in Part I, Section 2.G, "Meter Testing" of these Specifications. Upon completion of field accuracy test, the Contractor shall develop a complete status report of the subject meter and submit it to the County. The status report shall indicate all preliminary survey information, accuracy results for subject meter(s) and using consumption and billing data provided by County, will calculate:

1. Broadscale Average Accuracy - Summation of all test percentages divided by number of tests.

2. Segmented Average Accuracy - Individual average percentage for each separate meter element within its flow range.

3. Weighted Average Accuracy - The calculated average accuracy of the meter as each element is gauged against demand.

4. Meter Balance (if applicable).

5. Present and Adjusted setting demands.

6. Applicable water and/or sewer rate (as provided by County).

7. Revenue Gain/Loss on both monthly and annual basis.

8. General remarks regarding subject meters performance and recommendation for action.

Contractor shall indicate the most cost effective solution for correcting meter deficiencies, and estimate replacement expense including meter, labor, hardware and material. County may option to replace defective meters themselves or have Contractor replace subject services as outlined in Part I, Section 2.J, "Large Meter Replacement."

J. Large Meter Replacement

Meters which have failed to qualify for the repair phase of these Specifications shall be replaced by the appropriate product as determined by the meter test and analysis phase. Public Works may direct the Contractor to complete the meter replacement or may elect to complete the replacement with its own County forces. Immediately after new meter is installed, Contractor shall perform accuracy test on new meter according to that criteria as noted in Part I, Section 2.G, "Meter Testing" of these Specifications. This is to ensure proper meter operation from original date of installation.

Only those meters which meet Public Works' specifications shall be allowed to be incorporated into the large water meter network. All turbine and compound type meters shall have an external strainer immediately upstream of the meter to prevent debris from interfering with meter performance. Fireline type meters shall also require an external strainer that is UL/FM approved for fire service application. All turbine and fire service turbine meters shall have a test spool assembly incorporated into the line that allows proper accuracy testing. A two inch test port shall be required on three inch through six inch turbine meters that is a minimum of two pipe diameters downstream of meter. This provision may also be met by two test ports of one and one-half inch opposite each other on pipe that may be less than two pipe diameters from turbine outlet. Eight inch and ten inch meters shall require a three inch test tap, two diameters downstream of meter, and all compound and fire line compound meters shall have a test tap incorporated into meter body.

Contractor shall warrant that should any Contractor provided meter fail at any time during the first 12-month cycle after installation, Contractor shall supply all labor and parts to correct problem(s) free of charge to Public Works. Problems which arise as the result of abuse, acts of God, vandalism, aggressive water conditions, or any other situation beyond the control of the Contractor will not be considered under these warranty provisions.

K. Maintenance Program

The Program is designed to eliminate obsolete, misapplied or improperly installed meters. It is Public Works' goal that all meters in the system be of current vintage and that it is essential that good meter performance be maintained. To keep the meters working efficiently, Public Works will require the Contractor to provide a continuing level of meter maintenance and surveillance. After meters have been repaired or newly installed, they are to be placed on a long-term maintenance program which has the meters tested annually and any subsequent maintenance performed. Should a meter need repair, the

Contractor shall provide Public Works with a written estimate of what the meter requires to be placed back into service. The Contractor shall supply all parts and labor to conduct annual testing and repair, if required. Contractor charges shall be inclusive of all personnel, equipment and meter parts required to bring the meters up to acceptable levels as determined by the American Water Works Association (AWWA) standards for repaired meters. All testing shall be conducted as directed in these Specifications.

L. Hours and Days of Service

Hours of services shall be primarily 7 a.m. to 5 p.m., Monday through Friday, each week, except legal holidays, at which time the service shall be done before or after such holiday. Work hours may be altered, when necessary, with the approval of the Director or designee.

The County reserves the right to award the Contract to the Proposer(s) whose Proposal provides the most beneficial program and price, with all other factors considered. The awardee(s) shall sign and return this Contract, together with copies of the required insurance certification, within 14 days after notification by Public Works of intent to recommend award of this Contract to the Board.

B. Final Contract Award by Board

Notwithstanding a recommendation of a department, agency, individual, or other, the Board retains the right to exercise its judgment concerning the selection of a proposal and the terms of any resultant agreement, and to determine which proposal best serves the interest of the County. The Board is the ultimate decision making body and makes the final determinations necessary to arrive at a decision to award, or not award, a contract.

C. Prevailing Wage

The Director of the Department of Industrial Relations, State of California, has ascertained the prevailing rate of per diem wages in dollars, based on a working day of eight hours, for each craft or type of worker or mechanic needed to execute any construction or maintenance contract which may be awarded by Public Works. The current prevailing wage rates as adopted by the Director of the Department of Industrial Relations are incorporated herein by reference and may be accessed at http://www.dir.ca.gov/.

The Contractor is required to pay the prevailing wage rate referred to above and is responsible for selecting the classification of workers which will be required to perform this service in accordance with the Contractor's method of performing the work. Pursuant to Section 1775, Labor Code (State of California), Contractor shall forfeit $50 for each calendar day, or portion thereof, for each worker paid less than the stipulated prevailing rates for any public work done under this Contract or by any subcontractor.

Contractor shall retain such documentation for all covered employees for the period prescribed by law. Contractor shall indemnify, defend, and hold harmless, the County, its officers and employees from employer sanctions and any other liability which may be assessed against Contractor or County or both in connection with any alleged violation of Federal statutes or regulations pertaining to the eligibility for employment of persons performing services under this Contract.

E. County Lobbyists

Each County lobbyist, as defined in the Los Angeles County Code Section 2.160.010, retained by Proposer submitting a response to this Request for Proposals or Contractor awarded this Contract shall be in full compliance with Chapter 2.160 of the Los Angeles County Code. The Proposer's/Contractor's signature on the Proposal/Contract is its certification that it is in full compliance with Chapter 2.160. Failure on the part of any County lobbyist retained by Proposer/Contractor to fully comply with the County Lobbyist Ordinance shall be sufficient cause for rejection of the Proposal or shall constitute a material breach of this Contract upon which the County may immediately terminate or suspend this Contract.

F. Evaluation of Proposals

All responses to this Request for Proposals become the property of the County. Upon receipt of the Proposal as specified and evaluation of Proposals in accordance with the evaluation criteria set forth below, Public Works may recommend the award of a Contract to one or more of those submitting Proposals. The proposed Contract may be submitted to the Director or Board for consideration and possible approval.

The County may require whatever evidence it deems necessary relative to the Proposer's financial stability. Proposers' financial statements and other portions of the Proposal may be reviewed by the Public Works financial staff in order to assist the evaluators.

The County reserves the sole right to judge the Proposer's written and oral representations. The County may make onsite inspections of Proposer's current jobs.

Public Works may, at its option, invite some or all of the Proposers to make a presentation and participate in an interview before a final selection is made. During the interview, qualified Proposers can demonstrate their ability to perform the work required.

G. Evaluation Criteria

The evaluation criteria to be used in the selection process will include, but are not limited to the following considerations:

1. Proposals will first be reviewed on a Pass/Fail basis. Proposals not meeting all of these requirements will be rejected as nonresponsive:

   a. Proposal was time stamped by the Cashier prior to the deadline for submission of the Proposal.

   b. Proposer's Safety Record which reflects that the Proposer has provided services in a safe manner.

   c. Proposer shows an ability to meet insurance requirements.

   d. Proposer has met the GAIN/GROW requirements.

   e. Proposer has submitted to the Child Support Services Department the Principal Owner Information and Child Support Compliance Program Forms.

   f. Proposer has submitted the Jury Service Program Certification Form and Application for Exception stating that it accepts and will comply with the program requirements or establishing its entitlement to an exception to the program.

   g. Proposer has signed all appropriate forms and Part I, Section 6, Schedule of Prices.

   h. Proposer is signed in as attending the Proposers' Conference.

2. Proposals passing the first step will be evaluated based on the following:

   a. Proposed Price (50 points)

      The proposed price should accurately reflect the Proposer's cost of providing the required services and any profit expected during the Contract term. The lowest Total Proposed Annual Price quoted in the Schedule of Prices (Part I, Section 6), will receive the full weight of this evaluated item (50 points). Other Proposals will

receive a prorated score calculated as follows: divide the lowest Total Proposed Annual Price by each other Proposers' Total Proposed Annual Price and multiply the result by the maximum possible points for this evaluation criterion (50 points). However, the Proposal with the lowest Total Proposed Annual Price may not necessarily be awarded a contract.

In addition, should one or more of the Proposers request and be granted the Local SBE Preference, the price component points will be determined as follows:

Five percent (5%) of the lowest price proposed will be calculated, which shall not exceed $50,000, and that amount will be deducted from the price submitted by all Local SBE Proposers who requested and were granted the Local SBE Preference.

b. References (15 points)

Public Works will check at least three of the Proposer's references for overall satisfaction with Proposer's services, with priority given to services provided to other County departments. One or more unfavorable references may result in rejection of the Proposal.

c. Experience (15 points)

The evaluators may award a maximum of 15 points for the quality and quantity of experience of the Proposer and its key personnel and subcontractors in providing the requested services to organizations. Greater weight will be given to services provided to agencies of similar size and nature. The evaluators may consider the Proposer's description of its capabilities, resumes of key personnel (Part I, Section 1.B.4), and any other relevant information. Significant unacceptable weakness in quality or quantity of experience may result in a low or zero score. A score of zero in this evaluation category is unacceptable and may result in rejection of the Proposal.

d. Work Plan/Approach (20 points)

Scoring of the Proposer's detailed Work Plan will be based on the extent to which it demonstrates that the Proposer is likely to fulfill the tasks and requirements of the scope of work, respond to contingencies and emergencies, render timely and responsive service to Public Works, and ensure

equitable distribution of water resources and proper assessment of charges for water consumption and use.

The evaluation committee may make this determination from all relevant information presented, which may include but is not limited to the work methodology, Proposer's Work Plan of Action (Part I, Section 1.B.5) comprised of Proposer's staffing plan and programs for personnel management, training, subcontracting, recruitment and replacement, supervision, supplies, equipment, uniforms, identification, safety, communications, and quality control.

Significant unacceptable weakness in any of the Work Plan subject areas may result in a low or zero score. A score of zero in this evaluation category is unacceptable and may result in rejection of the Proposal.

SECTION 2

GENERAL PROPOSAL REQUIREMENTS AND CONDITIONS

A. Knowledge of Work to be Done

By submitting a Proposal, Proposers will be held (1) to have carefully read the solicitation document and all attachments, (2) to have satisfied themselves as to their ability to meet all of the difficulties attending the execution of the proposed work before the delivery of their Proposal, and (3) agree that if awarded this Contract, no claim will be made against the County based on ignorance or misunderstanding of the solicitation document.

B. Withdrawal of Proposals

Proposers may withdraw their Proposal anytime before the date and hour set for submission upon presentation of a written request to the Director signed by an authorized representative of the Proposer or by the person filing the Proposal.

C. Invalid Proposals

It is the sole responsibility of the Proposer to see that its Proposal is properly received by Public Works before the submission deadline. Proposers shall bear all risks associated with private delivery services or with delays in the U.S. Mail.

Proposals submitted by telegram and those which are not clocked in at Public Works' Headquarters Lobby Cashier before the date and hour set for receipt of the same will not be considered and will be returned to the Proposer unopened.

D. Altering Solicitation Document

The wording of the solicitation document shall not be changed. Any additions, conditions, limitations, or provisions inserted by the Proposer shall render their Proposal irregular and may cause its rejection.

E. Term of Proposals

All Proposals shall be firm offers and may not be withdrawn for a period of 120 days following the last day to accept Proposals.

F. Acceptance or Rejection of Proposals

The right is reserved to reject any or all Proposals not suitable in the judgment of the Board/Director to be in the best interests of the County/Public Works. In the event of any such rejection, the County will not be liable for any costs incurred in connection with the preparation and submittal of a Proposal.

Proposals signed by an agent other than an officer of a corporation or a member of a general co-partnership, must be submitted with a power of attorney authorizing such signature; otherwise, the Proposal will be rejected as irregular and unauthorized.

No Proposal will be considered unless the Proposer submits a Proposal for all requested items. If the solicitation document contains multi-Proposal requests, no Proposal will be considered unless the Proposer submits a price on all items within each category, though the Proposer may not be required to submit a price on all the categories.

G. Qualification of Proposer

No award will be made to any Proposer who cannot give satisfactory assurance as to its ability to carry out this Contract, based both on financial strength and experience as a contractor on work of the nature contemplated in the proposed Contract. Proposers are encouraged to submit records of work of similar nature, size, or extent to that proposed under these Specifications. A reasonable inquiry to determine the responsibility of a Proposer will be conducted. The unreasonable failure of a Proposer to promptly supply information in connection with such inquiry, including, but not limited to information regarding past performance, financial stability, and ability to perform on schedule, may be grounds for a determination of nonresponsibility with respect to such Proposer. Unfamiliarity with the type of work required by Public Works may be sufficient cause for rejection of the Proposal.

H. Proposer's Safety Record

A review of the Proposer's safety record will be made before the award. Proposers are required to submit this information, with their Proposal, on the Contractor's Industrial Safety Record form provided. Nonsubmission or an adverse finding as to the Proposer's safety record may be sufficient cause for rejection of the Proposal.

I. Proposer's License Requirements

Proposers shall be properly licensed by the State of California to perform the work proposed under these Specifications. Lack of proper license at the time of submission of Proposal will be sufficient cause for rejection of the Proposal.

J. Wages, Materials, and Other Costs

It is the responsibility of the Proposer to calculate the Proposal price to take into consideration a possible escalation of wages, materials, and other costs during the contract period. The Board, County, Public Works, District, or Director do not presume what future costs may be or the rate of wages that may become necessary to pay employees of the Contractor for the work performed during the Contract period.

K. Qualifications of Subcontractors

Proposers shall list all subcontractors to be used on the List of Subcontractors form provided. The use of subcontractors shall be according to the provisions of Part II, Section 4, Paragraphs D and G. Subcontractors shall be properly licensed under the laws of the State of California for the type of work which they are to perform. Alternate subcontractors shall not be listed for the same work.

L. Opening of Proposals

Proposals will not be publicly opened.

M. Disqualification of Proposers

More than one Proposal from an individual, firm, or partnership, corporation, or association under the same or different names will not be considered. Reasonable grounds for believing that any Proposer has interest in more than one Proposal for the work contemplated will cause the rejection of all Proposals in which such Proposer has interest. If there is reason for believing that collusion exists among the Proposers, none of the participants in such collusion will be considered in this or future Proposals.

N. Proposal Prices and Agreement of Figures

If the total amount arrived at by multiplying the unit price times the quantity does not agree with the total amount entered for the item or if the total amount is not entered, the unit price and the corrected extension will be considered as representing the Proposer's intentions.

If the total amount is entered for the item, but not the unit price, the unit price will be that which is derived by dividing the total amount proposed for the item by the number of units in the item as representing the Proposer's intentions.

If the items are incorrectly totaled, the corrected total will be considered as representing the Proposer's intentions.

O. Disclosure of Contents of Proposals

All Proposals in response to the solicitation document will become the exclusive property of the County. At such time as Public Works recommends the award of this Contract to the Board and that letter appears on the Board's agenda, all Proposals will become a matter of public record and will be regarded as public records, except those parts of each Proposal which are defined by the Proposer as business or trade secrets, and plainly marked as "trade secret." Designation of all or substantial portions of the Proposal as "trade secret" or inappropriate designation of portions of the Proposal as "trade secret" may result in the Proposal being rejected as nonresponsive. The County will not in any way be liable or responsible for the disclosure of any such records, or any parts thereof, if disclosure is required or permitted under the California Public Records Act or otherwise by law.

P. Gratuities

It is improper for any County officer, employee, or agent to solicit consideration, in any form, from a Proposer with the implication, suggestion, or statement that the Proposer's provision of the consideration may secure more favorable treatment for the Proposer in the award of this Contract or that the Proposer's failure to provide such consideration may negatively affect the County's consideration of the Proposer's submission. A Proposer shall not offer or give, either directly or through an intermediary, consideration, in any form, to a County officer, employee or agent for the purpose of securing favorable treatment with respect to the award of this Contract.

A Proposer shall immediately report any attempt by a County officer, employee, or agent to solicit such improper consideration. The report shall be made either to the County manager charged with the supervision of the employee or to the County Auditor-Controller's Employee Fraud Hotline at (213) 974-0914 or (800) 544-6861. Failure to report such a solicitation may result in the Proposer's submission being eliminated from consideration. Among other items, such improper consideration may take the form of cash, discounts, service, the provision of travel or entertainment or tangible gifts.

Q. Determination of Proposer Responsibility

1. A responsible Proposer is a Proposer who has demonstrated the attribute of trustworthiness, as well as quality, fitness, capacity, and experience to satisfactorily perform the proposed contract. It is the County's policy to conduct business only with responsible contractors.

2. Proposers are hereby notified that, in accordance with Chapter 2.202 of the County Code, the County may determine whether the Proposer is responsible based on a review of the Proposer's performance on any contracts, including but not limited to County contracts. Particular attention will be given to violations of labor laws related to employee compensation and benefits, and evidence of false claims made by the Proposer against public entities. Labor law violations which are the fault of subcontractors and of which the Proposer had no knowledge shall not be the basis of a determination that the Proposer is not responsible.

3. The County may declare a Proposer to be non-responsible for purposes of this proposed Contract if the Board, in its discretion, finds that the Proposer has done any of the following: (1) committed any act or omission which negatively reflects on the Proposer's quality, fitness, or capacity to perform this proposed Contract with the County or a contract with any other public entity, or engaged in a pattern or practice which negatively reflects on same, (2) committed an act or omission which indicates a lack of business integrity or business honesty, or (3) made or submitted a false claim against the County or any other public entity.

4. If there is evidence that the highest rated Proposer may not be responsible, Public Works will notify the Proposer in writing of the evidence relating to the Proposer's responsibility, and its intention to recommend to the

Board that the Proposer be found not responsible. Public Works will provide the Proposer and/or the Proposer's representative with an opportunity to present evidence as to why the Proposer should be found to be responsible and to rebut evidence which is the basis for Public Works' recommendation. If the Proposer fails to avail itself of the opportunity to rebut Public Works' evidence, the Proposer may be deemed to have waived all rights of appeal.

5. If the Proposer presents evidence in rebuttal to Public Works, Public Works will evaluate the merits of such evidence, and based on that evaluation, make a recommendation to the Board. The final decision concerning the responsibility of the Proposer will reside with the Board.

6. These terms shall also apply to proposed subcontractors of Proposer on County contracts.

R. Proposer Debarment

1. The Proposer is hereby notified that, in accordance with Chapter 2.202 of the County Code, the County may debar the Proposer from bidding on other County contracts for a specified period of time, not to exceed 3 years, and the County may terminate any or all of the Proposer's existing contracts with County, if the Board finds, in its discretion, that the Proposer has done any of the following: (1) violated any term of a contract with the County, (2) committed any act or omission which negatively reflects on the Proposer's quality, fitness, or capacity to perform a contract with the County or any other public entity, or engaged in a pattern or practice which negatively reflects on same, (3) committed an act or offense which indicates a lack of business integrity or business honesty, or (4) made or submitted a false claim against the County or any other public entity.

2. If there is evidence that the highest rated Proposer may be subject to debarment, Public Works will notify the Proposer in writing of the evidence which is the basis for the proposed debarment, and will advise the Proposer of the scheduled date for a debarment hearing before the Contractor Hearing Board.

3. The Contractor Hearing Board will conduct a hearing where evidence on the proposed debarment is presented. The Proposer and/or the Proposer's representative shall be given an opportunity to submit evidence at that hearing.

After the hearing, the Contractor Hearing Board will prepare a proposed decision, which will contain a recommendation regarding whether the Proposer should be debarred, and, if so, the appropriate length of time of the debarment. If the Proposer fails to avail itself of the opportunity to submit evidence to the Contractor Hearing Board, the Proposer may be deemed to have waived all rights of appeal.

4. A record of the hearing, the proposed decision and any other recommendation of the Contractor Hearing Board will be presented to the Board. The Board will have the right to modify, deny or adopt the proposed decision and recommendation of the Contractor Hearing Board.

5. These terms shall also apply to proposed subcontractors of Proposer on County contracts.

L. Notice to Employees Regarding the Federal Earned Income Credit

Contractor shall notify its employees, and shall require each subcontractor to notify its employees, that they may be eligible for the Federal Earned Income Credit under the Federal income tax laws. Such notice shall be provided in accordance with the requirements set forth in Internal Revenue Service Notice 1015.

M. Consideration of Hiring County Employees Targeted for Layoffs

Should the Contractor require additional or replacement personnel after the effective date of this Contract to perform the services set forth herein, the Contractor shall give first consideration for such employment openings to qualified permanent County employees who are targeted for layoff or qualified former County employees who are on a reemployment list during the life of this Contract.

SECTION 5

TERMINATION OF CONTRACT

A. Unsatisfactory Service

Public Works reserves the right to cancel these services, upon giving 14 days' written notice, if the services are deemed unsatisfactory in the opinion of the Director.

B. Convenience

It is not the intent of the County to terminate this Contract before the completion of all items except for sound business reasons of which the County shall be the sole judge, however, and notwithstanding:

1. The County reserves the right to renegotiate the terms of this Contract to reduce the Contractor's compensation in the event such reduction is necessary, in the sole discretion of the County, to achieve County budget reductions. Nothing in this paragraph is intended to diminish the County's right to terminate this Contract as provided herein.

2. The County may at any time terminate this Contract, or any portion thereof, without liability (except as hereinafter provided) by delivering to the Contractor written notice specifying the desired termination date at least 30 days in advance thereof.

3. If this Contract is terminated, the Contractor shall, within 30 days of the Notice of Termination, complete those items of work which are in various stages of completion which the Director determines are necessary to bring the work to a timely, logical, and orderly end. Reports, samples, and other materials prepared by the Contractor under this Contract shall be delivered to the County upon request and shall become the property of the County.

C. Termination for Noncompliance with Child Support Requirements

Contractor shall maintain compliance with requirements of County's Child Support Compliance Program as certified in the Contractor's Child Support Compliance Program Certification and as set forth in this Contract. Failure of the Contractor to maintain compliance with these requirements will constitute a default under this Contract. Failure to cure such a default

within 90 days of notice by the County shall be grounds upon which the County may give notice of termination and terminate this Contract.

D. Termination Claim

If this Contract is terminated, the Contractor shall, within 60 days after the Notice of Termination, submit to the County its termination claim.

Subject to the provisions of the paragraph immediately below, the County and the Contractor shall negotiate an equitable amount to be paid the Contractor by reason of the total or partial termination of work pursuant to this clause, which amount may include a reasonable allowance for profit on services rendered, but shall not include an allowance on services terminated. The County will pay the agreed amount provided that such amount shall not exceed the total funding obligated under this Contract, and reduced by the amount of payments otherwise made, and as further reduced by this Contract price of services not terminated.

Failure of the Contractor to submit its termination claim and invoice within the time allowed, the County may determine, based on information available to the County, the amount, if any, due to the Contractor in respect to the termination, and such determination shall be final. After such determination is made, the County will pay the Contractor the amount so determined.

PART III

STANDARD TERMS AND CONDITIONS

LOS ANGELES COUNTY SERVICES CONTRACTS

A. Limitation of the County's Obligation Due to Non-appropriation of Funds

1. The County's obligation is payable only and solely from funds appropriated for the purpose of this Contract.

2. All funds for payments after June 30 of the current fiscal year are subject to the County's legislative appropriation for this purpose. Payments during subsequent fiscal periods are dependent upon the same action.

3. In the event this Contract extends into succeeding fiscal year periods, and if the governing body appropriating the funds does not allocate sufficient funds for the next succeeding fiscal year's payments, then the affected equipment and/or services shall be terminated as of June 30 of the then current fiscal year. The County shall notify the Contractor in writing of such non-allocation at the earliest possible date.

B. Nondiscrimination in Employment

The Contractor shall ensure that qualified applicants are employed, and that employees are treated during employment without regard to their race, color, religion, ancestry, national origin, age, condition of physical or mental disability, marital status, political affiliation, sexual orientation, or gender. Such action shall include, but not be limited to the following: employment, upgrading, demotion or transfer, recruitment or recruitment advertising, layoff or termination, rates of pay or other forms of compensation, and selection of training, including apprenticeship.

The Contractor shall deal with its subcontractors, bidders, or vendors without regard to, or because of, race, color, religion, ancestry, national origin, age, condition of physical or mental disability, marital status, political affiliation, sexual orientation, or gender.

The Contractor shall allow the County representative access to its employment records during regular business hours to verify compliance with the provisions of this section when so requested by the County.

If the County finds that any of the above provisions have been violated, the same shall constitute a material breach of contract upon which the County may determine to cancel, terminate, or suspend this Contract. While the County reserves the right to determine independently that the antidiscrimination provisions of this Contract have been violated, in addition, a determination by the California Fair Employment Practices Commission or the Federal Equal Employment Opportunity Commission that the Contractor has violated State or Federal antidiscrimination laws or regulations shall constitute a finding by the County that the Contractor has violated the antidiscrimination provisions of this Contract.

The parties agree that in the event the Contractor violates the antidiscrimination provisions of this Contract, the County shall, at its option, be entitled to a sum of $500 pursuant to California Civil Code Section 1671 as liquidated damages in lieu of canceling, terminating, or suspending this Contract.

C. Assignment

This Contract, or any interest therein, including any claims for monies due or to become due with respect thereto, may only be assigned upon the written consent of the Director and any prohibited assignment shall be null and void. Any payments to any assignee of any claim under this Contract, in consequence of each consent, shall be subject to set-off, recoupment, or other reduction for any claim which the County may have.

D. Assurance of Compliance with Civil Rights Laws

The Contractor hereby assures that it will comply with Subchapter VI of the Civil Rights Act of 1964, 42 USC Sections 2000e through 2000e(17), to the end that no person shall, on the grounds of race, creed, color, gender, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under this Contract or under any project, program, or activity supported by this Contract.

E. Compliance with Laws

1. The Contractor agrees to comply with all applicable Federal, State, and local laws, rules, regulations, or ordinances, and all provisions required thereby to be included herein are hereby incorporated by reference.

2. The Contractor agrees to indemnify and hold the County harmless from any loss, damage, or liability resulting from a violation on the part of the Contractor of such laws, rules, regulations, or ordinances.

F. Covenant Against Contingent Fees

1. The Contractor warrants that no person or selling agency has been employed or retained to solicit or secure this Contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the Contractor for the purpose of securing business.

2. For breach or violation of this warranty, the County shall have the right to terminate this Contract and, at its sole discretion, deduct from this Contract price or consideration, or otherwise recover, the full amount of such commission, percentage, brokerage, or contingent fee.

G. Governing Laws

This Contract shall be construed in accordance with and governed by the laws of the State of California.

H. Termination for Improper Consideration

County may, by written notice to Contractor, immediately terminate the right of the Contractor to proceed under this Contract if it is found that consideration, in any form, was offered or given by Contractor, either directly or through an intermediary, to any County officer, employee or agent with the intent of securing this Contract or securing favorable treatment with respect to the award, amendment or extension of this Contract or the making of any determinations with respect to the Contractor's performance pursuant to this Contract. In the event of such termination, County shall be entitled to pursue that same remedies against Contractor as it could pursue in the event of default by the Contractor.

Contractor shall immediately report any attempt by a County officer or employee to solicit such improper consideration. The report shall be made either to the County manager charged with the supervision of the employee or to the County Auditor-Controller's Employee Fraud Hotline at (213) 974-0914 or (800) 554-6861. Among other items, such improper consideration may take the form of cash, discounts, service, the provision of travel or entertainment or tangible gifts.

I. Notice of Delays

Except as otherwise provided herein, when either party has knowledge that any actual or potential situation is delaying or threatens to delay the timely performance of this Contract, that party shall, within five days, give notice thereof, including all relevant information with respect thereto, to the other party.

J. Record Retention and Inspection

The Contractor agrees that the County or any duly authorized representative shall have access to and the right to examine, audit, excerpt, copy, or transcribe any pertinent transaction, activity, time cards, or other records relating to this Contract. Such material, including all pertinent costs, accounting, financial records, and proprietary data, shall be kept and maintained by the Contractor, at a location in Los Angeles County, for a period of five years after completion of this Contract unless the County's written permission is given to dispose of material prior to the end of such period.

K. Validity

The invalidity in whole or in part of any provision of this Contract shall not void or affect the validity of any other provision.

L. Waiver

No waiver of a breach of any provision of this Contract by either party shall constitute a waiver of any other breach of said provision or any other provision of this Contract. Failure of either party to enforce at anytime or from time to time, any provision of this Contract shall not be construed as a waiver thereof. The remedies herein reserved shall be cumulative and additional to any other remedies in law or equity.

M. Default for Insolvency

1. The County may cancel forthwith this Contract for default in the event of the occurrence of any of the following:

   a. Insolvency of the Contractor. The Contractor shall be deemed to be insolvent if it has ceased to pay its debts in the ordinary course of business or cannot pay its debts as they become due, whether it has committed an act of bankruptcy or not, and whether insolvent within the meaning of the Federal Bankruptcy Law or not.

   b. The filing of a voluntary petition to have the Contractor declared bankrupt.

   c. The appointment of a Receiver or Trustee for the Contractor.

   d. The execution by the Contractor of an assignment for the benefits of creditors.

2. The rights and remedies of the County provided in this clause shall not be exclusive and are in addition to any other rights and remedies provided by law or under this Contract.

N. Default

1. The County may, subject to the provisions of Paragraph 3 below, by written notice of default to the Contractor, terminate the whole or any part of this Contract in any one of the following circumstances:

   a. If the Contractor fails to perform the services within the time specified herein or any extension thereof; or

   b. If the Contractor fails to perform any of the other provisions of this Contract, or so fails to make progress as to endanger performance of this Contract in accordance with its terms, and in either of these two circumstances does not cure such failure within a period of 10 calendar days (or such longer period as the County may authorize in writing) after receipt of notice from the County specifying such failure.

2. In the event the County terminates this Contract in whole or in part as provided in Paragraph "a" above, the County

may procure, upon such terms and in such manner as the County may deem appropriate, services similar to those so terminated, and the Contractor shall be liable to the County for any excess costs for such similar services, provided that the Contractor shall continue the performance of this Contract to the extent not terminated under the provisions of this clause.

3. Except with respect to defaults of subcontractors, the Contractor shall not be liable for any excess costs if the failure to perform this Contract arises out of causes beyond the control and without the fault or negligence of the Contractor.

   Such causes may include, but are not restricted to acts of God or of the public enemy, acts of the County in either its sovereign or contractual capacity, acts of the Federal or State government in its sovereign capacity, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, and unusually severe weather; but in every case, the failure to perform must be beyond the control and without the fault or negligence of the Contractor. If the failure to perform is caused by the default of a subcontractor, and if such default arises out of causes beyond the control of both the Contractor and subcontractor, and without the negligence of either of them, the Contractor shall not be liable for any excess costs for failure to perform, unless the supplies or services to be furnished by the subcontractor were obtainable from other sources in sufficient time to permit the Contractor to meet the required delivery schedule.

4. If, after Notice of Termination of this Contract under the provisions of this clause, it is determined for any reason that the Contractor was not in default under the provisions of this clause, or that the default was excusable under the provisions of this clause, the rights and obligations of the parties shall be the same as if the Notice of Termination had been issued pursuant to the Termination for Convenience of the County clause above (see Part II, Section 5).

5. The rights and remedies of the County provided in this clause shall not be exclusive and are in addition to any other rights and remedies provided by law or under this Contract.

6. As used herein, the terms "subcontractor" and "subcontractors" mean persons, companies, corporations,

or other organizations furnishings supplies, services of any nature, equipment, or materials to Contractor, at any tier, under oral or written agreement.

O. Disclosure of Information

The Contractor shall not disclose any details in connection with this Contract to any party, except as may be otherwise provided herein or required by law. However, in recognizing the Contractor's need to identify its services and related clients to sustain itself, the County shall not inhibit the Contractor from publicizing its role under this Contract within the following conditions:

1. The Contractor shall develop all publicity material in a professional manner.

2. During the course of performance of this Contract, the Contractor, its employees, agents, and subcontractors shall not publish or disseminate commercial advertisements, press releases, opinions or feature articles using the name of the County without the prior written consent of the Chief Administrative Officer and County Counsel. The County shall not unreasonably withhold written consent and approval by the County may be assured in the event no adverse comments are received in writing within two weeks after submittal.

3. The Contractor may, without prior written permission of the County, indicate in its proposals and sales materials that it has been awarded a Contract to provide these services, provided that the requirements of this Article shall apply.

P. Notification

1. Notices desired or required to be given under these Specifications, Conditions, or Terms herein or any law now or hereafter in effect may, at the option of the party giving the same, be given by enclosing the same in a sealed envelope addressed to the party for whom intended and by depositing such envelope with postage prepaid in the United States Post Office or any substation thereof, or any public box, and any such notice and the envelope containing the same shall be addressed to the Contractor at its place of business, or such other place as may be hereinafter designated in writing by the Contractor. The notices and envelopes containing the same to the County shall be addressed to:

Assistant Director
County of Los Angeles Department of Public Works
P.O. Box 1460
Alhambra, CA 91802-1460

2. In the event of suspension or termination of this Contract, notices may also be given upon personal delivery to any person whose actual knowledge of such suspension or termination would be sufficient notice to the Contractor. Actual knowledge of such suspension or termination by an individual Contractor or by a copartner, if the Contractor is a partnership; or by the president, vice president, secretary or general manager, if the Contractor is a corporation; or by the managing agent regularly in charge of the work on behalf of said Contractor shall in any case be sufficient notice.

Q. Notice to Employees Regarding the Safely Surrendered Baby Law

The Contractor shall notify and provide to its employees, and shall require each subcontractor to notify and provide to its employees, a fact sheet regarding the Safely Surrendered Baby Law, its implementation in Los Angeles County, and where and how to safely surrender a baby.
