Honorable Board of Commissioners  
Housing Authority of the  
County of Los Angeles  
383 Kenneth Hahn Hall of Administration  
500 West Temple Street  
Los Angeles, California 90012

Dear Commissioners:

**APPROVE HOUSING AUTHORITY SCHEDULE OF MAINTENANCE CHARGES  
(ALL DISTRICTS)  
(3 Vote)**

**IT IS RECOMMENDED THAT YOUR BOARD:**

1. Approve the Housing Authority's amended Schedule of Maintenance Charges (Maintenance Charges), which establishes the fees charged to conventional public housing residents for repairing damage to Housing Authority property caused by residents and/or their guests ("resident-caused damages"), to be effective upon Board approval.
2. Authorize the Executive Director to increase the materials charge to reflect the current, actual costs of materials used by the Housing Authority for the repair of resident-caused damage, to be effective upon Board approval; and authorize the Executive Director to update the materials charge on a yearly basis.
3. Authorize the Executive Director to increase the labor charge assessed for repair of resident-caused damage by \$5.00 per year over a three-year period, from \$14.25 per hour to \$29.25 per hour; to reflect the current, actual labor costs incurred by the Housing Authority, to be effective upon Board approval; and authorize the Executive Director, thereafter, to increase the labor charge as needed, in an amount not to exceed the actual hourly rate, including employee benefits, of Housing Authority employees performing the repair of resident-caused damages.

**PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION:**

The Housing Authority last updated its Maintenance Charges in 1991. The recommended changes are needed to reflect current actual costs incurred by the Housing Authority for the repair of resident damage.

**FISCAL IMPACT/FINANCING:**

There is no fiscal impact to the County general fund. The fees collected from the Maintenance Charges are for the reimbursement of funds expended by the Housing Authority for labor and materials costs.

**FACTS AND PROVISIONS/LEGAL REQUIREMENTS:**

Section 24 of the Code of Federal Regulations, Part 966.5 (24 CFR 966.5), authorizes housing authorities to incorporate into the Lease Agreement other charges in addition to rent. Typically included as part of this "Schedule of Other Charges" are the security deposit, repair of resident-caused damage, and a late fee for unpaid rent.

The Housing Authority applies maintenance charges for repairs to resident-caused damage beyond normal wear and tear, such as, but not limited to, holes in walls and doors, broken locksets, and disabled smoke detectors. In 1991, the Housing Authority established a uniform fee schedule comprised of a \$14.25 per hour labor charge, plus a fixed materials cost. This standardized fee schedule is no longer adequate to compensate the Housing Authority for expenses incurred in the repair of resident-caused damage.

The revised Maintenance Charges include an increase in the labor charge, from \$14.25 per hour to \$29.25 per hour, to be phased-in in \$5.00 increments over a three-year period, and a materials charge that reflects the actual cost incurred by the Housing Authority for the purchase of items related to the repair. Repairs are charged in one-half hour increments. Repair work completed within one-half hour is charged at one-half hour. However, repair work completed beyond one-half hour, but less than one hour is charged as one hour. While the price of materials does fluctuate periodically, residents can expect the materials charge to remain fairly constant. In accordance with 24 CFR 966.5, residents will have 30 days to review and respond to future proposed modifications to the maintenance charges, which the Housing Authority will consider prior to the proposed modifications becoming effective.

On May 1, 2004, the Housing Authority mailed a written notice to each resident regarding the proposed revisions and the 30-day comment period, which ran from May 10, 2004 to June 8, 2004. Residents also received Spanish and Russian translations of the notice. The Housing Authority did not receive any written comments from the residents by the close of the 30-day comment period.

Honorable Board of Commissioners  
September 7, 2004  
Page 3

On July 28, 2004, the Housing Commission recommended approval of this action.

This letter has been reviewed by County Counsel.

**IMPACT ON CURRENT PROGRAMS:**

Updating the Maintenance Charges will enable the Housing Authority to assess fees for the repair of resident-caused damages that reflect actual costs for materials and labor.

Respectfully Submitted,

CARLOS JACKSON  
Executive Director

Attachment: 1
