PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

The purpose of the recommended action is to advertise a maintenance contract for bids for the cleaning, video inspection, lining, replacement of existing storm drains, and the performance of other appurtenant work.

Implementation of Strategic Plan Goals

The Countywide Strategic Plan directs the provisions of Service Excellence (Goal 1) and Community Services (Goal 6). The recommended actions will help meet these goals by restoring the structural integrity and function of these storm drain systems.

There will be no impact to the County General Fund.

The estimated construction cost to complete this project is in the range of \$305,000 to \$360,000.

Sufficient funds for this project are included in the Fiscal Year 2008-09 Flood Control District Budget.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

This project, to contract for the cleaning, video inspection, lining, and replacement of existing storm drains, is part of the Department of Public Works (Public Works') ongoing program for the repair and rehabilitation of flood control facilities. It will be advertised in accordance with Section 20991 of the Public Contract Code.

This project is to be completed in 55 working days. It is estimated the work will start in May and be completed in July 2009.

The contract agreement will be in the form previously reviewed and approved by County Counsel.

The project specifications contain provisions requiring the contractor to comply with terms and conditions supporting your Board's ordinances, policies, and programs, including but not limited to: County's Greater Avenues for Independence and General Relief Opportunities for Work Programs (GAIN and GROW), Board Policy No. 5.050; Contract Language to Assist in Placement of Displaced County Workers, Board Policy No. 5.110; Reporting of Improper Solicitations, Board Policy No. 5.060; Notice to Contract Employees of Newborn Abandonment Law (Safely Surrendered Baby Law), Board Policy No. 5.135; Contractor Employee Jury Service Program, Los Angeles County Code, Chapter 2.203; Notice to Employees Regarding the Federal Earned Income Credit (Federal Income Tax Law, Internal Revenue Service Notice 1015); Contractor Responsibility and Debarment, Los Angeles County Code Chapter 2.202; and the Los Angeles County's Child Support Compliance Program, Los Angeles County Code, Chapter 2.200; and the standard Board-directed clauses that provide for contract termination or renegotiation.

The State Public Contract Code requires the County to award construction contracts to the lowest responsive and responsible bidder, which is defined as the firm that; (1) submits the bid with the lowest cost; (2) is deemed by the County to be responsive to specific criteria under the solicitation, including, but not limited to licensure, bonding, and insurance requirements; and (3) is determined by the County to be a responsible bidder by exhibiting the capability, capacity, experience, trustworthiness, and financial wherewithal to perform the work required under the bid solicitation.

To ensure that the contract is awarded to the lowest responsible contractor with a satisfactory history of performance, bidders are required to report violations of the False Claims Act, criminal convictions, civil litigation, defaulted contracts with the County, complaints filed with the Contractor's State License Board, labor law/payroll violations, and debarment actions. As provided for in Board Policy No. 5.140, the information reported by the contractor will be considered before making a recommendation to award.

The plans and specifications include the contractual provisions, methods, and material requirements necessary for this project and are on file with Public Works.

ENVIRONMENTAL DOCUMENTATION

This project is categorically exempt pursuant to Section 15301(b) of the California Environmental Quality Act Guidelines and Class 1, Subsection (e), of the revised County Environmental Document Reporting Procedures and Guidelines adopted by your Board on November 17, 1987. This class pertains to the maintenance and repair of existing flood control facilities.

CONTRACTING PROCESS

This project will be contracted on an open competitive bid basis. The contract will be awarded to the lowest responsible bidder meeting the criteria established by your Board and the California Public Contract Code.

To increase contractor awareness of our program to contract work to the private sector, this project will be listed on the County website for upcoming bids.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

When the project is completed, it will have a positive impact by restoring the structural integrity and function of these storm drain systems.
