The Honorable Board of Supervisors
County of Los Angeles

Los Angeles, CA 90012

Dear Supervisors:

APPROVAL OF AMENDMENT TO AGREEMENT FOR TURNKEY HEALTHCARE INFORMATION SYSTEMS (ALL SUPERVISORIAL DISTRICTS) (3 VOTES)

CIO RECOMMENDATION: APPROVE (X) APPROVE WITH MODIFICATION ( ) DISAPPROVE ( )

SUBJECT

Request approval to amend an existing Turnkey Healthcare Information Systems (HIS) Agreement for Harbor-UCLA Medical Center (HUMC), Olive View-UCLA Medical Center (OVUMC), and LAC+USC Medical Center (LAC+USCMC).

IT IS RECOMMENDED THAT YOUR BOARD:

Authorize the Interim Director of Health Services, or his designee, to execute Amendment Number Eight to Agreement Number 72190 with QuadraMed Affinity Corporation (Compucare) and QuadraMed Corporation (collectively QMDC), effective upon Board approval; to transfer an existing $1,000,000 from LAC+USCMC's Communications Network Pool Dollars to its Standard Pool Dollars available for County-requested professional services and goods; and to increase LAC+USCMC's Standard Pool Dollars by $600,000 for a revised total Contract Sum of $105,134,483 for the entire Agreement term.

PURPOSE/JUSTIFICATION OF THE RECOMMENDED ACTION

Under the current Agreement, QMDC has been installing, developing identified modifications for, and maintaining Turnkey HIS for each of HUMC, OVUMC, and LAC+USCMC. A provision in this Agreement

allows each facility to use up to a maximum amount of facility specific Standard Pool Dollars for County-requested professional services and goods. An increase in a facility's Standard Pool Dollars or transfers from one category of Pool Dollars to another category requires Board approval.

Approval of the recommendation will allow the Interim Director to execute an Amendment, substantially similar to Exhibit 1, to transfer an existing $1,000,000 from LAC+USCMC's Communications Network Pool Dollars to the facility's Standard Pool Dollars and further increase the Standard Pool Dollars by an additional $600,000 for a total increase in LAC+USCMC's Standard Pool Dollars of $1,600,000. This increase in Standard Pool Dollars will be used for the replacement of some of LAC+USCMC's existing System Hardware and Operating Software, on which the HIS currently operates, that is reaching the end of its equipment life cycle.

Implementation of Strategic Plan Goals

The recommended action supports Goal 4, Health and Mental Health, of the County's Strategic Plan.

FISCAL IMPACT/FINANCING

The recommended Amendment will increase the Contract Sum by $600,000, for a revised total Contract Sum of $105,134,483 for the entire Agreement term of June 30, 1999 through December 31, 2009. The term of the Agreement remains unchanged. The $1,000,000 transfer is a reposition of funding from one account to another and does not impact the maximum Contract Sum.

Funding is included in the 2009-10 Adopted Budget.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

On August 23, 1989, the Purchasing Agent approved County Agreement Number A51549 with The Compucare Company (Compucare changed its name to QuadraMed Affinity Corporation in 2002) for the acquisition and maintenance of Turnkey HIS, including, but not limited to, clinical modules and hardware, for each of HUMC and OVUMC. This Agreement was modified on 19 occasions by amendments.

On May 7, 1992, the Purchasing Agent approved County Agreement Number A53813 with Compucare for the acquisition and maintenance of Turnkey HIS, including, but not limited to, clinical modules and hardware for LAC+USCMC. This Agreement was modified on 11 occasions by amendments.

On June 29, 1999, your Board approved the addition of QuadraMed Corporation, the parent corporation of Compucare, as a contractor along with Compucare, under Amendment Number 19 to County Agreement Number A51549 and under Amendment

Number 11 to County Agreement Number A53813, in order to hold both QuadraMed Corporation and Compucare jointly and severally liable and responsible for any and all of the obligations, responsibilities, and liabilities of Compucare under those Agreements.

Also on June 29, 1999, your Board approved successor County Agreement Number 72190, effective June 30, 1999, with Compucare and QuadraMed Corporation (collectively QMDC) for Turnkey HIS consolidating the two existing Agreements into a single Agreement which includes HUMC, OVUMC , and LAC+USCMC.

On December 4, 2001, your Board approved Amendment Number One to continue the Communications Network work to support the ongoing operations of Turnkey HIS currently in use at all three facilities; to provide functional requirements for two Application Software modules; to change certain Third Party Software; to change certain acceptance testing; and to transfer funds among certain pools of funds for professional services and goods.

On March 26, 2003, your Board approved Amendment Number Two to add County standard contract terms regarding the Health Insurance Portability and Accountability Act (HIPAA) of 1996.

On December 9, 2003, your Board approved Amendment Number Three to extend the term of the Agreement through December 31, 2005; to upgrade certain System Hardware and System Software; to extend existing Communications Network rates; to approve a new subcontractor; to add a $50 million limitation on QMDC's liability to County and exclusions for certain damages; to increase Standard Pool Dollars for HUMC and LAC+USCMC for professional services and goods; to continue implementation of certain Application Software modules; and to increase rates for maintenance services and professional services.

On April 20, 2005, your Board approved Amendment Number Four to revise the County standard contract terms regarding HIPAA.

On December 6, 2005, your Board approved Amendment Number Five to acquire additional Application Software modules, Operating Software and System Hardware, and related installation and maintenance services for all three facilities.

On July 18, 2006, your Board approved Amendment Number Six to acquire additional System Hardware and System Software for all three facilities; to increase Standard Pool Dollars for County-requested professional services and goods; to add two new Phases VIII and IX; and to add a new pricing method for County-requested professional services on a fixed price basis using Standard Pool Dollars, which is in addition to the existing time and materials pricing method based on hourly labor rates.

On December 12, 2006, your Board approved Amendment Number Seven to extend the term of the Agreement through December 31, 2009; to increase Standard Pool Dollars for County-requested professional services and goods; to increase labor rates for County-requested professional services; to increase Communications Network rates; to increase Communications Network Pool Dollars for County-requested Communications Network goods and services; to increase maintenance service rates; to add two new Phases X and XI; to add provisions whereby QMDC's liability is limited for its performance of County-requested editing of patient records in the live HIS production environment; and to increase the Contract Sum by $31,606,684 to a total of $104,534,483.

This Agreement expires December 31, 2009. DHS plans to continue the ongoing, strategic partnership with QMDC beyond that date by returning to your Board to extend this Agreement. QMDC is highly rated and has effective Turnkey HIS applications.

County Counsel has approved Exhibit 1 as to form and the County's Acting Chief Information Officer recommends approval of this Amendment (see attached analysis).

CONTRACTING PROCESS

Not applicable.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

Board approval of the recommended Amendment will mitigate the risk of reduced system performance at LAC+USCMC.

Section II.

1. Account Workflow (Unreleased Affinity Product):

- Multi-sort of Patient lists by Patient Service Rep.
- Patient Demographic View.
- Patient Insurance View.
- Primary Guarantor Information View.
- Access to Admit Procedures in Registration.
- Access to Insurance Verification procedures.
- Access to Patient Edit procedures.

2. Chart View:

- Automatic generation of patient lists via the user's patient assignment or unit census.
- Multi-select capability from the patient list.
- Ability to view and update sections of the patient's chart (available in phases): vital signs, intake and output, weight, charting and assessment notations, clinical conditions, face sheet and visit history information, cumulative results, and transcribed reports. Supporting Affinity applications to provide the information is required.
- Ability to chart activities as performed with automatic branching to associated Affinity charting applications.

3. Multi-Campus/Multi-Facility (Unreleased Affinity Product):

The ability to support, in a single database, the following definitions:

- Facility or Entity - A business undertaking identified by the characteristics of having a Balance Sheet and a unique Federal Tax ID. The terms Facility or Entity are used interchangeably.
- Campus - a grouping of business activities within a Facility. Typically grouped by physical location within a unique address. A Facility may have multiple associated campuses.
- Department - A functional/responsible area within a Campus or Facility. The Department typically has characteristics of Revenue and Expense reporting with a unique Department Number in the G/L Chart of Accounts.
- Location - Where the test or service is performed. The physical location within a Department of a Campus or Facility. The most finite level of definition.

Ongoing enhancements to improve single database usage for multiple facilities will be accomplished through a phased approach over several release cycles.

Phase 1: Multi-Campus/Multi-Facility Affinity Releases 6.0, 6.1 and 6.2, the ability to identify multiple "Campuses" within a Facility database was implemented. This phase of development focused on creation of the "Campus" identifier and provided the ability to sort and select Registration and Patient Accounting reports by Campus. In addition, it provided the ability to limit Registration staff to only those allowable patient service and bed assignments per campus.

Phase 2: The scope of Multi-Campus/Multi-Facility Affinity Release 7.0 is to further expand Campus functionality into Medical Records, Patient Accounting Billing and Collections, and Order Control.

Phase 3: Further ability to better support multiple facilities and multiple campuses within a single database will come in future Multi-Campus/Multi-Facility Affinity Releases.

Project/Contract Description:

The Department of Health Services (DHS) is requesting approval to amend existing agreement (Agreement 72190) with QuadraMed Affinity Corp. and QuadraMed Corp (collectively QMDC) relative to its Turnkey Healthcare Information Systems (HIS) at the Harbor-UCLA Medical Center (HUMC), Olive View-UCLA Medical Center (OVUMC), and Los Angeles County-University of Southern California Medical Center (LAC+USCMC).

This Amendment will transfer $1,000,000 from LAC+USCMC's Communications Network Pool Dollars to its Standard Pool Dollars available for County-requested professional services and goods and increase the LAC+USCMC Standard Pool Dollars by $600,000, which, added to the above-mentioned $1,000,000 transfer, would result in an additional $1,600,000 in Standard Pool Dollars.

Background:

The HIS is the core system at these facilities that maintains patient information and supports administrative/business and clinical care management. On August 23, 1989, DHS acquired the Turnkey Healthcare Information System (HIS) from The Compucare Company, which included clinical modules, hardware and professional services, for the HUMC and OVUMC. Between August 23, 1989 and June 29, 1999, there were 20 amendments to the initial agreement (Agreement Number A51549).

On May 7, 1992, DHS entered into a similar agreement with Compucare (Agreement Number A53813) for the acquisition and maintenance of Turnkey HIS for LAC+USCMC. That agreement was modified on 11 occasions between May 7, 1992 and June 29, 1999.

On June 29, 1999, QuadraMed Corporation was added as a contractor to the above two agreements following the acquisition of Compucare by QuadraMed Corporation on March 3, 1999.

On June 30, 1999, these two agreements were consolidated into Agreement Number 72190 to cover all three DHS facilities -- HUMC, OVUMC and LAC+USCMC. In 2002, Compucare changed its name to QuadraMed Affinity Corporation. Subsequently, your Board has approved seven Amendments to this Agreement.

This Amendment will:

- Increase the maximum Contract Sum by $600,000 through December 31, 2009 (no change to the base contract term), with those funds being designated for use as LAC+USCMC Standard Pool Dollars; and

- Transfer $1,000,000 from LAC+USCMC's Communications Network Pool Dollars to LAC+USCMC's Standard Pool Dollars (this action merely repositions funding from one account to another and does not impact the maximum contract sum).

Project Justification/Benefits:

Approval of this Amendment will result in a total increase in LAC+USCMC's Standard Pool Dollars of $1,600,000, which will be used for the replacement of some of LAC+USCMC's existing System Hardware (and attendant Operating Software) that is reaching the end of its equipment life cycle.

Project Metrics:

DHS will continue to work closely with QMDC to ensure that the County is receiving maximum value for the dollars it is spending under this agreement. The hardware and software upgrade should result in a marked improvement in performance of the HIS at LAC+USCMC.

Impact on Service Delivery or Department Operations, if Proposal Is Not Approved:

If this Amendment is not approved, this outdated equipment and software could potentially cause failures in the HIS at LAC+USCMC that may have negative impacts on patient care.

Alternatives Considered:

There are no other alternatives available to DHS since the QMDC HIS system is a proprietary product of QMDC and all work performed on that system must be done by QMDC.

Project Risks:

No significant project risks have been identified.

Risk Mitigation Measures:

None required.

Financial Analysis:

The recommended Amendment will increase the total Standard Pool Dollars as well as the maximum Contract Sum by $600,000, for a revised total maximum Contract Sum of $105,134,483 through the end of the current agreement term (December 31, 2009).

Funding is included in the DHS FY 2009-10 Adopted Budget.

CIO Concerns:

None.

CIO Recommendations:

The CIO recommends approval of this Amendment.
