SUBJECT

This action is to authorize the Director of Public Works or her designee to conduct business with the State of California, California Integrated Waste Management Board, execute an agreement for operation of the Southern California Rubberized Asphalt Concrete Technology Center, and sign requests for reimbursement in connection with the agreement, commencing upon approval, through May 15, 2012, at a cost not to exceed \$200,000.

IT IS RECOMMENDED THAT YOUR BOARD:

1. Find that the Department of Public Works' operation of the Southern California Rubberized Technology Center is exempt from the California Environmental Quality Act.

2. Approve and authorize the Director of Public Works or her designee to conduct business with the State of California, California Integrated Waste Management Board, on any and all matters relating to the Department of Public Works' operation of the Southern California Rubberized Technology Center including executing an agreement and signing requests for reimbursement in connection with the agreement, commencing upon the Board of Supervisors' approval, through May 15, 2012, at a reimbursable cost not to exceed \$200,000.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

The purpose of the recommended action is to authorize the Director of Public Works or her designee to conduct business with the State of California, California Integrated Waste Management Board (Waste Board), enter into the attached agreement with the Waste Board for the continued operation of the Southern California Rubberized Technology Center (Technology Center), and sign requests for reimbursement in connection with the agreement.

Implementation of Strategic Plan Goals

The Countywide Strategic Plan directs the provisions of Operational Effectiveness (Goal 1) and Community and Municipal Services (Goal 3). The recommended action will help meet these goals by encouraging and facilitating the use of rubberized asphalt concrete and diverting waste tires from disposal at landfills, which will benefit the community.

FISCAL IMPACT/FINANCING

There will be no impact to the County General Fund.

The cost of the services to be provided is not to exceed \$200,000, which will be reimbursed by the Waste Board under the terms of the proposed agreement.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

Rubberized asphalt concrete incorporates crumb rubber from waste tires thus diverting waste tires from potential disposal in landfills. For many years, the Department of Public Works (Public Works) has been a leader in the use of rubberized asphalt concrete among cities and counties in the State of California and has accumulated knowledge and experience of benefit and assistance to other users and potential users.

The Honorable Board of Supervisors
July 14, 2009
Page 3

Since 1997, Public Works has operated the Technology Center under agreements approved by your Board of Supervisors with the Waste Board. The Technology Center provides information and training about the use of rubberized asphalt concrete to other government agencies and interested parties within the State of California.

The attached agreement, which is required by the Waste Board, will be reviewed by County Counsel prior to execution by the Director of Public Works.

ENVIRONMENTAL DOCUMENTATION

The operation of the Technology Center does not constitute a project as defined under Section 15378(b)(4) of the California Environmental Quality Act (CEQA) and meets the criteria set forth in Sections 15306 and 15322 of the State CEQA Guidelines. In addition, there are no cumulative impacts, unusual circumstances, or other limiting factors that would make the exemptions inapplicable.

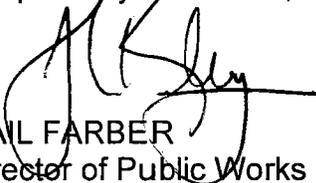

IMPACT ON CURRENT SERVICES (OR PROJECTS)

This service will encourage and reinforce the use of rubberized asphalt concrete, and help discourage the disposal of waste tires in landfills, thereby improving the quality of life for County residents.

CONCLUSION

Please return one adopted copy of this letter to Public Works, Construction Division.

Respectfully submitted,

GAIL FARBER
Director of Public Works

3. Statement of Work

INTRODUCTION/OBJECTIVES

The purpose of the Rubberized Asphalt Concrete Technology Center (RACTC) is to assist the California Integrated Waste Management Board (CIWMB) in meeting its RAC program goal of increasing the use of RAC by local governments. This Scope of Work (SOW) addresses the activities for the RACTC for the period of August 2009 through May 2012.

The Contractor shall:

- 1) Assist in RAC technology transfer and training activities for local government officials and staff as requested by the CIWMB's Contract Manager or MACTEC Engineering and Consulting, Inc. (MACTEC) or other CIWMB contractor(s).
- 2) Disseminate educational and informational materials on RAC as requested or approved by the CIWMB's Contract Manager.
- 3) Complete studies and investigations at the request of the CIWMB's Contract Manager. Evaluate for local government use, new products and/or processes that use tire rubber in pavement related applications.
- 4) Respond to telephone and e-mail inquiries.

5) Prepare and submit quarterly reports to the CIWMB.

TASKS IDENTIFIED

Task 1: Assistance in RAC Technology Transfer Activities

Consultation, technology transfer and training on RAC production, handling and construction processes will be provided for the staff of local governments through a separate CIWMB contract with MACTEC (or other contractor). The RACTC will work collaboratively with MACTEC (or other contractor) within the CIWMB’s RAC program through “Government talking to Government,” a successful, decade-old strategy in which RACTC staff share their experience and expertise in using RAC.

Task 2: Disseminate Educational/Informational Materials

This task may involve revision of existing materials, republication of existing materials or development and/or distribution of materials supplied by the CIWMB or MACTEC (or other contractor). The CIWMB’s Contract Manager must approve all new and revised materials and final drafts prior to reproduction or dissemination.

Task 3: Studies and Investigations

When the need arises, studies and investigations involving the use of RAC and/or new materials using rubber in pavement applications may be completed with this task at the request of the CIWMB’s Contract Manager. As barriers to the use of RAC with local governments are identified the CIWMB may request the Southern California RACTC to investigate possible solutions.

Task 4: Respond to Telephone and E-Mail Inquiries

RACTC staff will handle this activity and report the number of responses in the quarterly reports to the CIWMB.

Task 5: Quarterly Reports

The reports, which will provide “measurable performance” data, will include, but not be limited to, data on who was assisted and type of assistance provided (e.g., toll-free telephone inquiry, information request, consultation, training, etc.). Information will also be provided as to the number of publications and related information that are distributed as a result of Task 2. Reports are due on March 31, June 30, September 30 and December 31 of each year.
