In response to an Access Services referral submitted to Mr. Burns by 1st Vice President Neal, he stated that the customer had appealed Access' decision to deny services to her daughter. As a result of the appeal, Access reversed the decision making the customer eligible to receive transportation. Mr. Burns recognized the inconvenience to the customer and will suggest to Access to reconsider the purpose of the appeal process.

Mr. Burns further stated that Access may test their mobile application "Where's My Ride" at Rancho Los Amigos National Rehabilitation Center with plans to make available to the public by the end of 2016.

Dr. Genevieve Clavreul, member of the public, addressed the Commission.

III. PRESENTATION

- 9. Presentation by Connie Chung, Los Angeles County Regional Planning Department, on the Department’s responsibilities and direct services that substantially impact the lives of people with disabilities. (16-5239)**

Connie Chung, Supervising Regional Planner, Los Angeles County Regional Planning Department (RPD), provided a brief overview on the Department functions.

Ms. Chung reported the main functions of RPD are permitting/land use approvals, zoning enforcement unit; mapping/Global Information System (GIS) for Los Angeles County’s 260,000 square miles and; long range planning. The main tools to guide growth countywide in the unincorporated areas are the general plan, a long range vision plan, and Los Angeles County (County) Code Titles 21 and 22. She also mentioned various housing types and how RPD includes criteria in their zoning

regulations that allow diversity of housing types to meet the needs of people with disabilities.

In 2011, Ms. Chung stated that the Board of Supervisors approved the Reasonable Accommodation Ordinance that established administrative services to evaluate procedures when zoning codes are perceived as barriers for individuals with disabilities. She further stated each request for reasonable accommodations in a home is evaluated individually along with RPD staff at no charge. There is also no fee from zoning to put a ramp in a home.

Furthermore, Ms. Chung stated that the Chief Executive Office submitted 47 recommendations to the Board of Supervisors to address homelessness and housing. RPD will be responsible for four of the recommendations that focus on permanent affordable housing. Additional projects involving the County's General Plan established in 2015 and RPD included:

- 1. Partnering with Department of Public Works to implement a Complete Streets transportation policy requiring streets to be planned, designed, operated, and maintained to enable safe, convenient and comfortable travel and access for users of all ages and abilities regardless of their mode of transportation.**
- 2. Collaborating in the establishment of potential strategies and actions initiative for Vision Zero that was recently approved by the Board of Supervisors; which aims at eliminating traffic-related fatalities for the County unincorporated areas.**
- 3. Addressing the Board of Supervisors goal to reduce climate change and improve sustainability. The concepts of sustainability to combat climate change and adaptation based on the existing infrastructure requires planting more trees, constructing cooler roofs, cooler pavement and access to cooling systems such as air-conditioners for people with disabilities.**
- 4. The Board of Supervisors goal is to establish equity for all constituents residing in the County. Presently, RPD is collaborating with departments to determine how to define equity; how to ensure county departments are promoting equity; how to ensure resources are being distributed equitably and; how are we serving our most vulnerable. Presently, a score card is being designed to assist in monitoring of impartiality.**
