II. PRESENTATION

3. Presentation by Elaine Palaiologos, Chief Deputy and Brian Elias, Operations Chief of the Los Angeles County Department of Medical Examiner - Coroner, on its responsibilities and/or direct services that substantially impact the lives of people with disabilities, as requested by the Commission. (17-1315)

Elaine Palaiologos, Chief Deputy and Brian Elias, Operations Chief of the Los Angeles County Department of Medical Examiner – Coroner (DMEC), were present to provide a PowerPoint presentation before the Commission. Ms. Palaiologos reported DMCE has been seeking to fill the Medical Examiner position for over a year. Christopher Rogers, M.D. has been the Acting Medical Examiner Coroner who is also the Chief of the Forensic Medicine Division. She stated their mandate is to investigate and determine the cause of death albeit sudden, violent, and unattended deaths for Los Angeles County's 11 million people, with only 231 coroner staff members.

Brian Elias reported there are 500 forensic pathologists in the United States, 50 are in Los Angeles County and due to DMEC staff retirements they have a fellowship program at University of Southern California and other Universities for outreach. The caseloads are heavy, there is a high backlog, and the pathologists are the only ones conducting investigations. This can include phone conversations a full investigation, testifying in court and/or a field response autopsy. He added this is a challenge because the case load tends to increase as the population increases.

Brian Elias concluded the presentation by speaking about the accessible accommodations to the DMEC Administrative building. This includes additional signage, accessible entrances, directions for individuals with service animals and personal assistance for clients to accommodate

their needs. There are also buttons to push to open the doors with directions on where to go in the building. He reported DMEC has braille signage on many of the entry ways and the elevators as well.

Ms. Palaiologos added the location of historical building disabled parking lot is closer to the ramp and automatic door takes visitors to the lower floor from the backside of the building. Leading up to the building are curb cuts with raised dots for the sight impaired. The painted curbs were redone to ensure that are properly angled or sloped for wheelchairs. Mr. Elias stated DMEC is in the process of upgrading their website to make it more accessible. Also, if the person offsite has special needs, their investigators/staff at the scene spends additional time and make phone calls to ensure resources are provided.

A question was posed by Commissioners Peggie Reyna.

President Carlos Benavides thanked the presenter for their informative presentation.

After discussion, by Common Consent, and there being no objection, this item was received and filed.

Also discussed at the Committee meeting was Assembly Bill (AB) 279, legislation that addresses the minimum wage discrepancy for the developmental disabilities service providers.
