III. PRESENTATIONS

5. Update by Policy Ad-Committee on the impact of cutback and freezes in funding for services to people with profound physical, medical and developmental disabilities within Los Angeles County. (Continued from the meeting of 12/16/15) (15-4472)

Commissioner Miller provided an overview about the impact of cutback and freezes in funding for services to people with profound physical, medical and developmental disabilities.

George Stevens, Director of North Los Angeles County Regional Center and Dr. Ron Cohen, CEO of United Cerebral Palsy for Ventura, Santa Barbara and Los Angeles County that service the San Fernando, Antelope Valley and north area of Mulholland drive, presented before the Commission on the impact of cutbacks and freezes in funding for services to people with profound physical, medical and developmental disabilities within Los Angeles County. He highlighted on network services that have lost 107 providers. The displacements have impacted over 1800 individuals. Over the last year and a half, we've lost 17 homes primary to business cost. Over the last 12 years rates received from the State have remained consistent. The cost of doing business has gone up. Housing is a big issue and providing staff to support the continuing issue.

Dr. Ron Cohen, CEO of United Cerebral Palsy, service anything that could be classified as a developmental disability by law. They employ around 1000 employees and have programs throughout Los Angeles County represent 600 individuals and more if you count their families. They are on track to lose \$4.2 million that include housing tenant care and their needs.

During discussion, Commissioners Neal and Caracoza noted the need for quality and consistency in services.

Commissioner Chun Chang questioned what would be the role of the Department of Rehabilitation Services.

Dr. Cohen responded by asking..."What is at stake?" The Department will never close because it is part of the State. It will be the individual organizations that will have to close due to the cuts.

In closing, Commissioner Miller reiterated the need for the Commission to continue to visit the loss of funding issues for individual business and the disabled community without housing. He encouraged the Commission to help them support their projects.

President Carlos Benavides thanked Mr. George Stevens and Dr. Ron Cohen for their informative presentation.

After discussion, by Common Consent, there being no objection, this item was received and filed.
