## **INSPECTION DETAILS – ANCHORED TO SUMMARY SECTIONS 1 THROUGH 17**

Inspection Detail for #1 Booking
We learned about the booking process and the questions asked. We were surprised at the level of information that was gathered here about a person's social background, medical issues, and veterans status. It would be helpful to understand how this information is communicated to other criminal justice actors (i.e. court, defense attorney, LASD, CHS) during the person's jail stay.

Inspection Detail: EBI
EBI is not available here because people are only detained for a very limited time.
Inspection Detail: Medical
Jailer Ingersoll reported that if individuals brought into Lancaster self-report that they take any daily medications or if they are perceived by LASD as being mentally ill or with "serious" medical issues, they are not booked here. It was concerning to us that this determination was made by untrained LASD staff. Given that by LASD's own reporting that "40%" of their population has mental health issues, there is very limited screening or assessment or support for these individuals. Further, people are in cells by themselves in a state of stress and it was worrisome that people are left alone and not screened.
We were told about a program with the Lancaster/Palmdale Fire Dept called AP-11 that does allow LASD to access clinical and medical staff for newly booked individuals. LASD reported this is an excellent resource and they wished it could be expanded to
be available 24/7.  Inspection Detail: Building and Maintenance
