2. Recommendation as submitted by Supervisors Kuehl and Solis: Direct the Treasurer and Tax Collector and Director of Consumer and Business Affairs, in consultation with the Department of Community and Senior Services' Workforce Development Business Services Unit, the Community Development Commission's Economic Development and Business Services Program, the Chief Executive Officer, County Counsel, and any other appropriate Departments, to submit a proposal for Board consideration within 120 days to begin implementing a new Business Registration Program which would include all businesses in unincorporated Los Angeles County, except those already subject to the Business License Program, to include and/or reflect:
- a) An estimate of the time required to develop the new program, an implementation timeline and a recommendation on additional staff and resources needed;
 - b) A preliminary outreach plan, to be updated prior to program implementation, that would enable County Departments to uniformly communicate the benefits, including County business support and services, of registering or licensing all businesses in the unincorporated areas;
 - c) Consultation and feedback from representatives of the business community, consistent with the collaboration demonstrated in the Department of Consumer and Business Affairs' recent Small Business Initiative and business utilization programs;
 - d) A plan for the first round of program registrations, initial new business registration thereafter and annual registration renewals;
 - e) A preliminary estimate, prepared in consultation with the Auditor-Controller, of the new fee for business registration, which should, to the extent authorized by law, support cost recovery for business assistance and wage enforcement programs implemented by the Department of Consumer and Business Affairs and, if appropriate, consider the Community and Senior Services and Community Development Commission programs offering business assistance in this analysis;
 - f) A plan to develop an online registration and annual renewal system, to eliminate the need for businesses to submit "paper and pencil" applications or to travel to a County office to submit forms and though this may be a phased approach, this online portal

should ultimately be integrated with other efforts by County Departments to support online permitting and licensing so that the County's Business Registration, Business Licensing, Business Permitting and other business-assistance programs are linked and easy to find and navigate;

- g) A plan to streamline business registration with unincorporated area businesses' Local Small Business Enterprise (LSBE) certification with the Department of Consumer and Business Affairs, to minimize duplicative registration with two different County programs;
- h) An evaluation of, and recommendations on, options for early adoption fee waivers or ongoing fee waivers for small businesses or frequent users of Department of Consumer and Business Affairs, Community and Senior Services, Community Development Commission or other County business assistance programs; and
- i) A recommendation on including home-based businesses in the program;

Submit a proposal for Board consideration within 45 days to gather standardized information on businesses in both the license program and the proposed registration program, including number and occupational categories of employees, industrial classification of business, relevant County services and resources utilized and other information needed to effectively serve the business community and enforce the new Minimum Wage, including:

- a) A proposal to start information collection no later than July 1, 2016, when the Department of Consumer and Business Affairs begins its Small Business Initiative and Wage Enforcement Program; and
- b) An evaluation of options to treat this initial data collection from businesses, particularly small businesses, as a preregistration program valid until up to at least July 1, 2017; and

Submit a proposal for Board consideration within 120 days, with supporting analysis, to license a select number of new business categories and/or conduct updated fee studies for those that are known to have high rates of wage violations and/or wage theft, such as
