

DEAN C. LOGAN
Registrar-Recorder/County Clerk

Los Angeles County Registrar-Recorder/County Clerk

June 14, 2016

The Honorable Board of Supervisors
County of Los Angeles
383 Kenneth Hahn Hall of Administration
500 West Temple Street
Los Angeles, California 90012

Dear Supervisors:

ADOPTED

BOARD OF SUPERVISORS
COUNTY OF LOS ANGELES

33 June 14, 2016

LORI GLASGOW
EXECUTIVE OFFICER

**RECOMMENDATION TO APPROVE REVISED BOARD POLICY NO. 3.040, REGARDING
COUNTY RECORDS MANAGEMENT AND ARCHIVE AND CREATE NEW BOARD POLICY NO.
3.041 REGARDING THE PROTECTION OF RECORDS CONTAINING PERSONAL AND
CONFIDENTIAL INFORMATION
(ALL SUPERVISORIAL DISTRICTS) (4 VOTES)**

SUBJECT

The Los Angeles County Registrar-Recorder/County Clerk ("RR/CC") seeks approval of revised Board Policy No. 3.040 which involves the approval of the County General Records Retention Schedule and 36 Departmental Records Retention Schedules. Such approval will establish minimum retention periods for Official County records. Upon approval, these schedules will serve as the record retention schedules for each County department/agency and will supersede any other retention schedule currently in use.

IT IS RECOMMENDED THAT THE BOARD:

1. Approve revised Board Policy No. 3.040 (Attachment I) General Records Retention and Protection of Records Containing Personal and Confidential Information by changing title to "Records Management and Archive of County Records" in order to support application of the record retention schedules.
2. Approve new Board Policy No. 3.041 (Attachment II) Protection of Records Containing Personal and Confidential Information.
3. Approve the County General Records Retention Schedule ("GRRS") (Attachment III).

4. Approve the Departmental Records Retention Schedules ("DRRS") (Attachment IV) for the following departments/agencies: Agricultural Commissioner/Weights and Measures; Alternate Public Defender; Animal Care and Control; Arts Commission; Assessor; Auditor-Controller; Beaches and Harbors; Chief Executive Office; Child Support Services; Children and Family Services; Community and Senior Services; Consumer Affairs; Medical Examiner-Coroner; County Counsel; District Attorney; Executive Office of Board of Supervisors; Fire; Health Services; Human Resources; Internal Services; Mental Health; Military and Veteran Affairs; Museum of Art; Museum of Natural History; Parks and Recreation; Probation; Public Defender; Public Health; Public Library; Public Social Services; Public Works; Regional Planning; Registrar-Recorder/County Clerk; Sheriff; and Treasurer and Tax Collector (Attachment IV).

5. Approve Resolution (Attachment V) authorizing County departments to use the County record retention schedules and to destroy old, duplicate or reproduced Official Public Records.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

On October 3, 2006, your Board approved revised Policy No. 3.040 General Record Retention and Protection of Records Containing Personal and Confidential Information to establish guidelines for retaining Official Public Records, describe personal and confidential information and steps to protect such data, and mandate safeguards for the destruction of confidential records. These record retention guidelines were intended to remain in place until your Board approved the general retention schedules for common administrative Official Public Records applicable to all County departments, as well as retention schedules specific to the Official Public Records maintained by individual departments.

In April of 2013, Section 2.32.370 of the County Code was amended to direct the RR/CC to develop and administer a comprehensive county-wide records management program. As part of this directive, the RR/CC has consulted with County departments to develop a general as well as department specific record retention and disposition schedules for your Board's approval. Revised Board Policy No. 3.040, Records Management and Archive of County Records, sets forth these new record retention guidelines and how the retention schedules are to be used.

Record Retention Schedules

The GRRS relates to the retention and destruction of Official Public Records that are commonly produced county-wide. In order to produce a comprehensive general schedule, the RR/CC engaged all 36 County departments for their perspective and expertise. Through a focused and deliberative process, the RR/CC considered the feedback of all departments in authoring a schedule that provides an operationally appropriate retention period for County Official Public Record which is consistent with law.

The RR/CC has also coordinated the review and update of all Departmental Records Retention Schedules (DRRS). These schedules are meant to provide the authority for retention and disposition of Official Public Records unique to each department. Each schedule has been reviewed and approved by the respective Department Head.

These retention schedules are applicable to all Official Public Records regardless of the medium in which they are created or stored. Any future amendments to these schedules must be approved by the RR/CC under the authority provided for in Title 2, Administration, Section 2.32.370 of the County Code.

Recommended Revisions to Board Policy No. 3.040

To support the application of these retention schedules, the RR/CC recommends revisions to Board Policy No. 3.040. Additional materials are currently in development to further support, educate, and train County departments in efficient records management and archiving practices.

All proposed revisions are the culmination of a multi-departmental collaboration with the purpose of enhancing the overall effectiveness of Board Policy No. 3.040 through the formalized adoption of the County's first record retention schedules. Additionally, in concurrence with the County's Chief Information Security Officer, it is recommended that the existing Board Policy No. 3.040 be bifurcated so that the subject matter relating to the management of County records and archive be separated from those relating to the protection of personal and confidential information. Therefore, this bifurcation has resulted in the recommended creation of Board Policy No. 3.041 Protection of Records Containing Personal and Confidential Information. The substance of this policy remains identical to that encompassed in the original Board Policy No. 3.040.

Implementation of Strategic Plan Goals

This request supports the County Strategic Plan Goal No. 1: Operational Effectiveness/Fiscal Sustainability, "Maximize the effectiveness of processes, structure, operations and strong fiscal management to support timely delivery of customer-oriented and efficient public services."

Upon approval of these schedules and policy revisions, departments will be required to follow a universal standard in the discharge of their records management and archives responsibilities, including the retention and disposition of Official Public Records.

FISCAL IMPACT/FINANCING

Financial relief to the County is expected as routine disposal of redundant, obsolete Official Public Records and non-records (transitory communications) will reduce the County's physical and digital storage demands required under inconsistent and/or non-existent disposition practices in the digital age. Furthermore, enhanced/streamlined management of electronic transitory communications will also reduce the costs associated with unnecessary or excessive digital storage and maintenance.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

Pursuant to Government Code section 26202, the Board of Supervisors may, by four-fifths vote, authorize the destruction of County Official Public Records, regardless of medium, where those Official Public Records have been maintained for the minimum period of time and prepared/received pursuant to State statute or County Charter. Upon your Board's approval of the attached resolution, the record retention schedules will serve as guidelines for departments to retain their respective Official Public Records and destroy them at the appropriate time. Additionally, approval of the resolution will also authorize departments, where appropriate and permissible, to reproduce (e.g., digitize) their Official Public Records, for County or public use, with any medium that is a trusted system which accurately reproduces the original; does not permit additions, deletions, or changes to the original, and complies with Government Code section 12168.7. Properly reproduced Official Public Records may be destroyed after a trustworthy digital surrogate is created and maintained per the County's record retention schedules.

In October 2014, an Official Public Records and Trusted Systems committee comprised of key

departments was formed by the RR/CC to advocate/publish trusted system standards and establish a compliance process to certify trusted systems throughout the County.

These standards will guide individual departments who desire to reproduce their Official Public Records through a trusted system that complies with Government Code section 12168.7. Upon the Board's approval of the referenced drafted policies, this committee will continue to provide oversight of the Program and supporting the departments' efforts.

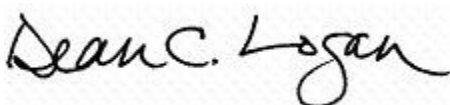

IMPACT ON CURRENT SERVICES (OR PROJECTS)

As County departments improve the organization of Official Public Records, several enhancements to County efficiency and service will result, specifically in the records management areas of information security, preservation, and customer service.

CONCLUSION

Approve revised Board Policy No. 3.040 (Attachment I) General Records Retention Approval of Attachment I - Revised Board Policy No. 3.040, Attachment II - new Board Policy No. 3.041, Attachment III - General Records Retention Schedule, Attachment IV - 36 Departmental Records Retention Schedules, and Attachment V - Resolution (Attachment V) authorizing County departments to use the County record retention schedules and to destroy old, duplicate or reproduced Official Public Records, will support the County's responsibility in the creation/receipt, use, retention, and disposition of Official County records in an efficient, cost-effective and legally compliant manner.

Respectfully submitted,

DEAN C. LOGAN

Registrar-Recorder/County Clerk

POLICY

~~County departments are to comply with the following general guidelines on records retention and specific procedures pertaining to protection of records containing personal or confidential information pending 1) Board of Supervisors' approval of the General Retention Schedules for common administrative records, which will be applicable to all County departments; and (2) Board of Supervisors' approval of the Retention Schedule specific to the records maintained by a particular department. Thereafter, each department must follow the General Retention Schedules; its specific Retention Schedule; and any policies and procedures approved by the Board of Supervisors regarding records management practices.~~

Records Retention – Generally

~~County departments shall retain records that are useful and/or are required by law (including State or Federal law) to be filed and/or preserved. However, County departments may destroy any record, paper or document that:~~

- ~~1. Is more than two years old unless it is required to be held longer pursuant to State or Federal law, County Charter or Ordinance, or Department policy;~~
- ~~2. Is of no further use to the department; and~~
- ~~3. Is not expressly required by any law (including State or Federal law) to be filed and/or preserved.~~

Protection of Records Containing Personal or Confidential Information

~~County departments shall secure and appropriately dispose of all records, papers or documents with personal or confidential information.~~

~~Confidential information is information that is sensitive, proprietary or personal to which access must be restricted and whose unauthorized disclosure could be harmful to a person, process or to an organization.~~

~~Personal information is any information maintained by a department that identifies or describes an individual including, but not limited to, his or her name, social security number, physical description, home address, telephone number, education, financial matters, and medical or employment history.~~

~~Paper documents that contain personal or confidential information such as social security numbers, health related information, or financial information must be properly stored and secured from view by unauthorized persons.~~

~~Secure measures must also be employed by all departments to safeguard personal or confidential data contained on all County information technology resources.~~

~~Departments must ensure that only authorized personnel may hold and have access to such information.~~

~~(See also Board of Supervisors Policies 6.100 Information Technology and Security, 6.101 Use of County Information Technology Resources, 6.106 Information Technology Physical Security, 6.107 Information Technology Risk Assessment, and 6.110 Protection of Information on Portable Computing Devices.)~~

Destruction of Records Containing Personal or Confidential Information:

~~When records containing personal or confidential information are ready for destruction, departments shall destroy the information completely to ensure that the information cannot be recognized or reconstructed. In addition, any personal or confidential data contained on computer media must be obliterated and/or made indecipherable before disposing of the tape, diskette, CD-ROM, zip disk, or other type of medium.~~

~~Each department must provide appropriate methods and equipment to routinely destroy personal or confidential information. The safeguards listed are in priority order with the most highly recommended safeguard listed first. At the minimum, one of the following safeguards must be implemented:~~

- ~~• Conduct due diligence and hire a document destruction contractor to dispose of material either offsite or onsite.~~
- ~~○ Require that the disposal company be certified by a recognized trade association.~~
- ~~○ Require and validate that the disposal company disk sanitizing software and/or equipment is approved by the United States Department of Defense.~~
- ~~○ Review and evaluate the disposal company's information security policies and procedures.~~
- ~~○ Review an independent audit of a disposal company's operations and/or its compliance with operations.~~
- ~~• Secure and utilize shredding equipment that performs cross-cut or confetti patterns.~~
- ~~• Secure and utilize disk sanitizing (i.e., erasing) software program approved by the United States Department of Defense.~~
- ~~• Secure and utilize disk erasing equipment (e.g., degausser) approved by the Department of Defense or the National Security Agency.~~
- ~~• Modify the information to make it unreadable, unusable or indecipherable through any means.~~

~~(See also Board of Supervisors Policy 6.112 Secure Disposition of Computing Devices.)~~

Confidential Information Incident Reporting

~~Each department must disclose to the department's management including the Departmental Information Security Officer any actual or suspected incident in which confidential information is disclosed to, or obtained by, an unauthorized person. Notification of the security incident must be made in the most prompt and expedient manner after the incident has been discovered. In addition, any such incident must be reported to the Fraud Hotline at 800.544.6861 or the Auditor Controller's Office of County Investigations website at www.lacountyfraud.org where protocols are in place to respond to the incident.~~

~~Within ten days, a letter notifying affected individuals of actual or suspected loss or disclosure of personal or confidential information must be sent by the impacted County department describing the types of information lost and recommended actions to be taken to mitigate the potential misuse of their information.~~

~~The Chief Information Security Officer must also be promptly informed of the security breach associated with electronic data in order to communicate with other County departments and identify appropriate measures and safeguards.~~

~~(See also Board of Supervisors Policy 6.109 Security Incident Reporting, and 6.111 Information Security Awareness Training.)~~

County Records Management and Archives Program

The Registrar-Recorder/County Clerk's Records Management and Archives (RMA) is responsible for developing and administering records management and archiving protocols and guidelines. The RMA shall take steps to publish and disseminate record retention schedules and other records management protocols and guidelines to assist County departments in discharging their records management and archives responsibilities.

Definition of Official Public Record

An official public record is a thing, based on its content and regardless of its medium, which constitutes an objective lasting indication of a writing, event, or other information, which is in the custody of a County officer and is kept either (1) because a law requires it to be kept or (2) because it is necessary or convenient to the discharge of the County officer's duties and was made or retained for the purpose of preserving its informational content for future reference. (64 Ops.Cal.Atty.Gen 317.)

An official public record, as defined herein, relates to record retention and destruction purposes and differs from the definition of a public record under the California Public Records Act (Govt. Code § 6250 et seq.) in that the latter is construed broadly.

The definition of official public record may include all records maintained in County and applicable County contractor offices, storage areas, electronic systems, and electronic storage devices. These storage devices include networked servers, mainframes, data warehouses, storage area networks, electronic data interchanges, imaging and document

management systems, personal computers, laptops, internal or external hard drives, magnetic tapes, optical disks, and any other system or device used to perform County business.

As a general rule, official public records are County property regardless of how or where they are stored, and they will remain the property of the County until their eventual disposition. Employees and third-party contractors shall not donate, sell, nor take sole physical control or possession of County records produced by the County. This includes records that have already met their retention period and are set for disposition. However, certain exceptions may exist. Thus, when any questions arise relating to this subject matter, County Counsel should be consulted.

The following examples are not considered to be official public records (i.e. non-records):

- 1) Duplicates of an official record made solely for convenience or reference
- 2) Working papers, notes and drafts
- 3) Transitory and informal communications used to develop an official record, unless they are specifically required to be retained by the RMA, law or regulation
- 4) Stocks of publications and blank forms
- 5) Material intended solely for reference or exhibition
- 6) Material with no requirement for retention under the RMA

Non-records have no retention period and thus may be disposed of at any time unless they are responsive to a Litigation Hold or a Public Records Request.

Record Retention and Disposition

The Board of Supervisors has authorized the RMA to develop and administer a comprehensive records management program. As part of this program, record retention schedules and disposition guidelines have been established. Record retention schedules must be initially approved by the Board of Supervisors and may be modified periodically thereafter upon approval by the RMA pursuant to County Code Section 2.32.370(B).

Record Retention

There are two types of records retention schedules— (1) General Records Retention Schedule and (2) Departmental Records Retention Schedule. Both schedules provide minimum retention periods for maintaining official County records. Once an official public record has met its minimum retention period, the process of disposition should begin.

(1) General Records Retention Schedule (GRRS)

The GRRS provides retention periods for official public records most commonly found throughout County departments. The GRRS does not cover program specific records produced by departments. The GRRS may be modified periodically by the RMA in conjunction with the affected departments, if necessary. Any subsequent modification to the GRRS must be approved by the RMA.

(2) Departmental Records Retention Schedule (DRRS)

A DRRS is issued by each individual County department and sets forth retention periods for official public records exclusive to each department. Any modification to a DRRS must be approved by the Department Head, County Counsel, and the RMA before the revised schedule goes into effect.

Records Not Included in a Retention Schedule

If a department identifies a document that may qualify as an official public record but is not found in the GRRS or a DRRS, it should consult with the RMA to determine whether that document type should be incorporated into the appropriate records retention schedule.

Record Disposition

Disposition refers to the final stage in the management of a record, where an official public record has met its retention period and may be destroyed.

Prior to the destruction of an official public record, the following criteria shall be considered:

- Is the record subject to a Litigation Hold or a Public Records Request?
- Does the record have a specific administrative or fiscal function?
- Does the record have a specific historical/archival value?

Departments are to review their official public records periodically, including those stored with County contractors, and dispose of them in adherence to the applicable schedules provided that the record is not subject to any of the considerations stated above.

Litigation Hold and Public Records Request

Departments must not destroy any official public record where a litigation hold is issued by County Counsel or the record is the subject of a Public Records Request. All inquiries regarding legal hold policies/procedures as well as Public Records Request responses should be directed to County Counsel.

Administrative and Fiscal, Value

A department may retain an official public record past its minimum retention period for operational purposes where it can demonstrate the record meets an extraordinary administrative or fiscal need.

Historical/Archival Value

Official public records with archival value are to be preserved because they contain information of continuing and enduring value to the County, provide valuable research data, or document the history and development of the County and its departments. Archival records may be in any format and media, including paper, electronic, photographs, motion pictures film, videos, and sound recordings.

Departments should appraise their official public records periodically, prior to destruction, to determine if the records possess any archival value that warrants permanent retention. Archival record guidelines shall be provided by the RMA.

Retention of Vital Records

Departments will assist the RMA in identifying Vital Records. A Vital Record is essential for the ongoing operation of county business.

Vital Records are those records that contain information critical to the operation of the County and require immediate recovery and access during or immediately following a natural disaster or other event disrupting normal operations. Such records include those that contain information protecting the County's legal/financial interests and status.

Departments should identify records specifically designated as Vital Records and include them as part of each department's disaster recovery and business continuity planning. Necessary steps should be taken to protect and safeguard those records to ensure availability.

Contracted Services that Store Official County Records and Non-Records

The County retention schedules apply to all records, regardless of medium, data and/or information that may be stored on purchased, leased, or rented electronic storage equipment and devices that are geographically located within the County, or external to the County's boundaries.

Departments will include prescriptive language in dealings/agreements with contractor(s) that maintain, process, and/or store records of the County to ensure that the data and information is appropriately destroyed in accordance with the County's record retention schedules and guidelines.

Contractor(s) must dispose of non-records as instructed by each individual department.

Policy Exceptions

There are no exceptions to this policy.

POLICY

County departments are to comply with the following general guidelines pertaining to protection of records containing personal or confidential information.

Protection of Records Containing Personal or Confidential Information

County departments shall secure and appropriately dispose of all records, papers or documents with personal or confidential information.

Confidential information is information that is sensitive, proprietary or personal to which access must be restricted and whose unauthorized disclosure could be harmful to a person, process or to an organization.

Personal information is any information maintained by a department that identifies or describes an individual including, but not limited to, his or her name, social security number, physical description, home address, telephone number, education, financial matters, and medical or employment history.

Paper documents that contain personal or confidential information such as social security numbers, health-related information, or financial information must be properly stored and secured from view by unauthorized persons.

Secure measures must also be employed by all departments to safeguard personal or confidential data contained on all County information technology resources.

Departments must ensure that only authorized personnel may hold and have access to such information.

(See also Board of Supervisors Policies 6.100 Information Technology and Security, 6.101 Use of County Information Technology Resources, 6.106 Information Technology Physical Security, 6.107 Information Technology Risk Assessment, and 6.110 Protection of Information on Portable Computing Devices.)

Destruction of Records Containing Personal or Confidential Information:

When records containing personal or confidential information are ready for destruction, departments shall destroy the information completely to ensure that the information cannot be recognized or reconstructed. In addition, any personal or confidential data contained on computer media must be obliterated and/or made indecipherable before disposing of the tape, diskette, CD-ROM, zip disk, or other type of medium.

Each department must provide appropriate methods and equipment to routinely destroy personal or confidential information. The safeguards listed are in priority order with the most highly recommended safeguard listed first. At the minimum, one of the following safeguards must be implemented:

- Conduct due diligence and hire a document destruction contractor to dispose of material either offsite or onsite.
 - Require that the disposal company be certified by a recognized trade association.
 - Require and validate that the disposal company disk sanitizing software and/or

equipment is approved by the United States Department of Defense.

- Review and evaluate the disposal company's information security policies and procedures.
- Review an independent audit of a disposal company's operations and/or its compliance with operations.
- Secure and utilize shredding equipment that performs cross-cut or confetti patterns.
- Secure and utilize disk sanitizing (i.e., erasing) software program approved by the United States Department of Defense.
- Secure and utilize disk erasing equipment (e.g., degausser) approved by the Department of Defense or the National Security Agency.
- Modify the information to make it unreadable, unusable or indecipherable through any means.

(See also Board of Supervisors Policy 6.112 Secure Disposition of Computing Devices.)

Confidential Information Incident Reporting

Each department must disclose to the department's management including the Departmental Information Security Officer any actual or suspected incident in which confidential information is disclosed to, or obtained by, an unauthorized person. Notification of the security incident must be made in the most prompt and expedient manner after the incident has been discovered. In addition, any such incident must be reported to the Fraud Hotline at 800.544.6861 or the Auditor-Controller's Office of County Investigations website at www.lacountyfraud.org where protocols are in place to respond to the incident.

Within ten days, a letter notifying affected individuals of actual or suspected loss or disclosure of personal or confidential information must be sent by the impacted County department describing the types of information lost and recommended actions to be taken to mitigate the potential misuse of their information.

The Chief Information Security Officer must also be promptly informed of the security breach associated with electronic data in order to communicate with other County departments and identify appropriate measures and safeguards.

At each sunset review of this policy, the Chief Information Security Officer shall submit a report detailing all County security breaches associated with the unauthorized release or theft of confidential information.

(See also Board of Supervisors Policy 6.109 Security Incident Reporting, and 6.111 Information Security Awareness Training.)

Policy Exceptions

There are no exceptions to this policy.

GENERAL

Records

Retention

Schedule

Records Management & Archives

General Records Retention Schedule (GRRS) - Countywide

A retention schedule is the cornerstone of an effective records management program.

Arguably, the retention schedule is the most referenced document in a program’s arsenal. Its purpose is to provide employees with direction as to how long their official records must be retained in accordance with laws, regulations, and business need.

The Los Angeles County GRRS has been developed into a function-based series. This type of organization does not list records individually, but rather groups multiple records together by function. This allows for the consolidation of similar record types that are assigned the same retention period. The function-based approach effectively reduces the overall number of records listed on the schedule and makes it easier for employees to use.

Item Series	Record Series	Pages
G.01.000.....	ADMINISTRATIVE FUNCTIONS.....	1-7

Public Health (DPH) Version 0 11/27/2013

RECORD CODE	RECORD TITLE	RECORD DESCRIPTION	RESPONSIBLE BUSINESS UNIT	RETENTION PERIOD	AUTHORITY CITATIONS	REMARKS
DPH-040	Black Infant Health System Program Records	Includes: Agreements client demographic information, non-medical data, and other system records.	Public Health-MCAH: Black Infant Health Program	3 years after the termination of agreement		Per County Counsel, determination for records retention will be based on granting requirements. As indicated in the State Policy and Procedure Manual for MCAH/BIH, records will be retained for a minimum of 3 years.
DPH-050	Body Shipment Records	Contains health letters issued for the shipment of bodies out of the country. Includes: Name of deceased, the destination, death certificate, funeral home information, and related information.	Public Health - QI/PHI	5 years		Confidential
DPH-060	California Immunization Registry (CAIR) Declination Forms	Contains CAIR declination forms for individuals who decline to have their immunization records included in the registry. Note: Confidential CAIR is maintained by the California Department of Public Health, not the Immunization Program. Electronic immunization records in CAIR are stored on a statewide server. Thus, the Immunization Program is not responsible for the maintenance of these immunization records. However, in the past, CAIR declination forms for clients vaccinated at selected DPH vaccination outreach events or in non-clinical partner sites, were sent to the Immunization Program. The Immunization Program proposes to use the same standard for maintaining these as is used for immunization records.	Public Health- CDCP/ IP	Minors: Records will be retained for at least 1 year after the minor has turned 18 years of age, with a minimum retention period of 7 years. Adults: 7 years		
DPH-070	California Medical Marijuana Identification Card Records	Contains information on the Medical Marijuana Identification Card that is electronically sent to the State. No grant requirement exceeds 5 years.
DPH-450	Transportation Services Records	Contains documents pertaining to client transportation services. Includes: Provider authorization list, application, and certification records.	Public Health- QI/PHI	5 years after certification ends		

Public Health (DPH) Version 0 11/27/2013

RECORD CODE	RECORD TITLE	RECORD DESCRIPTION	RESPONSIBLE BUSINESS UNIT	RETENTION PERIOD	AUTHORITY CITATIONS	REMARKS
DPH-460	Tuberculosis (TB) Registry Data Processing Files	Contains suspected TB cases reported to the registry. Includes: Copies of confidential HIPAA files on TB suspects, cases, contacts, and targeted testing patients.	Public Health - CDCP/TB Control Program	Permanent: MDR-TB; 20 years: NonMDR-TB		
DPH-470	Vaccine Provider Records	Includes: Vaccines for Children Program (VFC) forms; provider activity reports (CoCASA reports and QA Reviews, including documentation of storage and handling practices); documentation of provider vaccine losses (incident reports); vaccine inventory reports (only for County-purchased vaccines); and provider vaccine order forms (only for vaccines that are allocated or delivered by the LA County DPH). Note: The items listed under "Vaccine Provider Records" do not include official patient immunization records (e.g., yellow cards, California Immunization Records). However, the provider activity reports that are listed under this category do include results of assessments that are completed with participating providers to assess missed opportunities to vaccinate and invalid immunization doses. These assessments list the names and dates of birth of patients, along with the names of specific vaccines that were missed or given as invalid doses. We would appreciate you letting us know what the suggested minimum retention requirement for these would be.	Public Health - CDCP/IP	5 years after termination of service		Note: Vital. The Immunization Program suggests that the record description be modified to: 1) remove references to several items that were listed that are not provider records, but rather are policies, tools, or job aides and 2) more accurately describe the records that are included in the description.
DPH-480	X-Ray Records (excludes employee x-ray records)	Contains x-rays records for each patient. Includes: Name of patient, type of examination, the dates of exam, and technician performing the service. ATTACHMENT V
RESOLUTION

**RESOLUTION OF THE BOARD OF SUPERVISORS OF THE COUNTY OF
LOS ANGELES APPROVING THE COUNTY'S RECORD RETENTION SCHEDULES
AND AUTHORIZING THE DESTRUCTION OF COUNTY RECORDS**

WHEREAS, Los Angeles County Board of Supervisors ("Board") previously approved the County of Los Angeles' records retention/destruction policy; and

WHEREAS, the County of Los Angeles ("County") needs to insure the preservation and availability of historical documents and other official papers and artifacts of the County; and

WHEREAS, the purpose of a retention schedule is to establish a pattern for the orderly transfer, maintenance, and destruction of records on a continuing basis; and

WHEREAS, the County has an on-going obligation to maintain County records in accordance with applicable laws and regulations and accepted records management practices; and

WHEREAS, Government Code section 26200 et seq. provides the relevant procedures for destroying records that do not have to be filed or preserved; and

WHEREAS, pursuant to Government Code section 26201 the Board may authorize destruction of duplicate records, papers, or documents of originals or permanent reproductions which are on file with any officer or department of the County; and

WHEREAS, pursuant to Government Code section 26202, the Board may authorize, by a majority vote, the destruction of records after two years which are not prepared or received pursuant to State statute or County Charter; and

WHEREAS, pursuant to Government Code section 26202 the Board may authorize, by four-fifths vote, the destruction of records after two years which are prepared or

received pursuant to State statute or County Charter and the Board has determined the retention of those records are no longer necessary or required for County purposes; and

WHEREAS, pursuant to Government Code sections 26205 and 26205.1 the Board may delegate to County officers the authority to destroy any record, paper, or document if the record, paper, or document is photographed, micro photographed, microfilmed, or otherwise reproduced in accordance with Government Code section 12168.7; and

WHEREAS, the County's retention schedules will be reviewed regularly by the respective County department head, in consultation with County Counsel, and approved by the Registrar-Recorder/County Clerk ("RR/CC"); and

NOW, THEREFORE, BE IT RESOLVED, the Board of Supervisors of the County of Los Angeles approves the revised record retention/destruction policy, known as Board Policy No. 3.040 Records Management and Archive of County Records, and the County General Records Retention Schedule as well as the Department Records Retention Schedules and authorizes:

(1) County departments to destroy duplicate records, papers, or documents of originals or permanent reproductions which are on file with any office or department of the County;

(2) County departments to destroy any record, paper, or document, including originals or permanent reproductions, which do not have to be filed or preserved, once they have been retained for the total period set forth under the applicable records retention schedule, and those records are no longer necessary or required for County purposes;

(3) County departments to destroy any record, paper, or document, which is not required by law to be preserved in its original format, if the record, paper, or document is reproduced, for County or public use, with the use of photographic or micro-photographic

film, optical disks, an electronic data processing system, or any other medium that is a trusted system which accurately reproduces the original, does not permit additions, deletions, or changes to the original, and complies with Government Code section 12168.7 and Title 2 of the California Code of Regulations, sections 22620.1 through 22620.8;

(4) Department heads to amend their respective departments' record retention schedules, in consultation with County Counsel and approval by RR/CC, so long as the amendment complies with State and federal law; and

(5) The RR/CC to preserve historically valuable materials which document the origins, activities, and achievements of the County.

The foregoing resolution was on the 14th day of June 2016, adopted by the Board of Supervisors of the County of Los Angeles and ex officio the governing body of all other special assessment and taxing districts, agencies and authorities for which said Board so acts.
