**ADOPTED**

BOARD OF SUPERVISORS  
COUNTY OF LOS ANGELES

LORI GLASGOW  
EXECUTIVE OFFICER

## **PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION**

The purpose of the recommended actions is to allow the Los Angeles County Waterworks Districts to continue to collect approximately \$1,900,000 in standby charges during Fiscal Year 2016-17 to fund water system capital improvement projects. There is no change in the rates for the Water Service Availability Standby Charges from Fiscal Year 2015-16 to Fiscal Year 2016-17.

## **Implementation of Strategic Plan Goals**

The Countywide Strategic Plan directs the provision of Operational Effectiveness/Fiscal Sustainability (Goal 1) because these Water Service Availability Standby Charges provide sufficient funds for the construction of water system improvements and maintaining our water facilities provides residents with fire protection and a reliable potable water supply.

## **FISCAL IMPACT/FINANCING**

There will be no impact to the County General Fund.

This action will allow the Waterworks Districts to collect approximately \$1,900,000 in revenue in order to partially fund the Waterworks Districts' Fiscal Year 2016-17 budget as set forth in the enclosed Exhibits A through K. The funds will be collected through property tax bills issued by the Treasurer and Tax Collector.

## **FACTS AND PROVISIONS/LEGAL REQUIREMENTS**

Section 55501.5 of the State Water Code authorizes the collection of Water Service Availability Standby Charges on each parcel within the Waterworks Districts. There is no change in the rates for the Water Service Availability Standby Charges from Fiscal Year 2015-16 to Fiscal Year 2016-17.

The water service standby or immediate availability charge is an assessment that is charged to every parcel within the Waterworks Districts whether the water service is used or not. The standby charge is used to partially finance maintenance and operation expenses and water system capital improvement projects within the Waterworks Districts. The standby charge is calculated based on the size of the parcel and its distance from and frontage along, if applicable, the nearest water main. Depending on these factors, the standby charge can vary from a flat fee of \$5 per parcel to a fee of \$30 per acre. The number of assessed parcels and standby charges collected per Waterworks District is shown on the enclosed table (Exhibit L).

## **ENVIRONMENTAL DOCUMENTATION**

This action does not constitute a project and is, therefore, exempt from the requirements of the California Environmental Quality Act.

## **IMPACT ON CURRENT SERVICES (OR PROJECTS)**

There will be no negative impact on current County services or projects during the performance of the recommended services.

**CONCLUSION**

Please return two adopted copies of this letter to the Department of Public Works, Waterworks Division.

Respectfully submitted,
