

MOTION BY SUPERVISOR SHEILA

December 20, 2016

Fire Fleet Maintenance and Repair Services

The Prop A Analysis for the Fire Fleet Maintenance and Repair Services for Non-Emergency Vehicles, show that there is only a 5.3% or \$45,000 savings. This clearly demonstrates that this is a small benefit cost that contracting out is not the best option and we should bring these services in-house.

I, THEREFORE, MOVE that the Board of Supervisor direct the Fire Department to bring these services in-house once the initial Three-Year Term has expired.
