Subject: Response to Motion on Protecting Immigrant Residents

In response to the Board of Supervisors’ December 6, 2016 motion, the Los Angeles County Office of Education (LACOE) is pleased to respond with an analysis of the potential impact of changes in immigration laws and policies on students, families, and school employees, offering recommendations to address such impacts.

It cannot be overemphasized that the primary mission of public schools is to educate all children regardless of immigration or citizenship status. All children, including those who are undocumented, have the constitutional right to a free public K-12 education, which is recognized as vital to preserving our democracy. Existing laws and policies protect and uphold this right, and they must be preserved and protected.

We surveyed the county’s 80 district superintendents and our own LACOE school administrators and leadership to determine current and potential impacts. We found common themes and have provided these in the attached document along with our recommendations.

Please contact me if you have any questions or if additional information is necessary at (562) 922-6127. Your staff may also contact Dr. Joseph Ybarra, Executive Deputy Superintendent, at (562) 922-6130.
