

MOTION BY SUPERVISOR HILDA L. SOLIS

June 26, 2018

Parks Make Life Better! Month Proclamation

Throughout the state of California, parks and recreation organizations will celebrate *Parks Make Life Better!* Month this July. In Los Angeles County, the Department of Parks and Recreation will celebrate serving our community with 182 beautiful parks as well as programs where the public can play, recreate, get outdoors and be more active and healthy.

The availability of parks and associated recreational programs can have important public health benefits, including increased physical activity, reduced obesity, and mitigated chronic disease.

I, **THEREFORE, MOVE** that the Board of Supervisors of the County of Los Angeles hereby proclaims the month of July 2018 as *Parks Make Life Better!* Month and commends the employees of the Los Angeles County Department of Parks and Recreation for their hard work and continuous commitment to providing quality recreational facilities and programs for all to enjoy.
