July 10, 2018

MAKING STRIDES AGAINST BREAST CANCER LOS ANGELES EVENT

The 2018 *Making Strides Against Breast Cancer Los Angeles* event is a non-competitive outdoor walk to support breast cancer research and provide comprehensive support for breast cancer patients and families, as well as early detection, education, and prevention efforts. The annual Making Strides LA walk, hosted by the American Cancer Society, is an opportunity for people to improve their health by participating in a variety of fitness activities, as well as raise funds to help in the fight against breast cancer. In Los Angeles County, breast cancer is the second-leading cause of premature death among women, and it is expected that more than 6,000 cases of breast cancer will be diagnosed this year.

Making Strides LA walk will be held this year on Saturday, October 13, 2018, at Grand Park in Los Angeles. There is no registration fee for this event. The Los Angeles County Department of Public Health Office of Women's Health is coordinating an LA County Making Strides team for the fourth year. Several County departments will

join this year's event and County departments' wellness coordinators will be asked to disseminate information and encourage colleagues to support and participate in this event.

I, THEREFORE MOVE that the Board of Supervisors take the following actions:

1. Direct every County department to support the *Making Strides Against Breast Cancer Los Angeles* event on Saturday, October 13, 2018, by registering and supporting fundraising efforts;
2. Direct the County Departments' Public Information Officers to promote and distribute materials related to *Making Strides Against Breast Cancer Los Angeles* event;
3. Direct all County Departments' wellness coordinators to promote the 2018 *Making Strides Against Breast Cancer Los Angeles* event and encourage colleagues to participate and support it; and
4. Proclaim the month of October as "Breast Cancer Awareness Month" to encourage women to follow recommended guidelines for breast cancer screening and follow-up; know their family history of breast cancer; maintain a healthy weight; eat a healthy diet rich in vegetables, fruits, and whole grains; make time to be physically active every day with their children, partner, pet, friends, or on their own; and limit alcohol consumption.
