Dear Supervisors:

ADOPTED

BOARD OF SUPERVISORS
COUNTY OF LOS ANGELES

35 March 12, 2019

CELIA ZAVALA
EXECUTIVE OFFICER

**ACCEPT A GRANT AWARD FROM THE JOHN D. AND CATHERINE T.
MACARTHUR FOUNDATION FOR PHASE IV OF THE SAFETY AND JUSTICE
CHALLENGE GRANT PROGRAM AND APPROVE AN APPROPRIATION
ADJUSTMENT
(ALL SUPERVISORIAL DISTRICTS) (4 VOTES)**

SUBJECT

Request Board approval authorizing the Los Angeles County Public Defender's Office (PD) to execute a Grant Award Agreement Number 18-1806-153381-CJ (Agreement) for Fiscal Years (FY) 2018-20 Phase IV Safety and Justice Challenge Grant Program (Program) from the John D. and Catherine T. MacArthur Foundation (Foundation) in the amount of \$1,200,000, and approve an Appropriation Adjustment.

IT IS RECOMMENDED THAT THE BOARD:

1. Delegate authority to the Public Defender, or his designee, as an agent for the County, to execute the attached Agreement with the Foundation, and accept grant funds in the amount of \$1,200,000 with no match requirement for the grant period from January 1, 2019 to December 31, 2020.
2. Delegate authority to the Public Defender, or his designee, as an agent for the County, to execute and submit all required grant documents, including but not limited to, agreements, modifications, extensions, and payment requests that may be necessary for completion of the Program.
3. Approve an Appropriation Adjustment to increase PD's Budget in the amount of \$300,000.

4. Delegate authority to the Public Defender, or his designee, as an agent for the County, to execute individual funding agreements to transfer Foundation grant funds to the Program participating groups or agencies, including but not limited to PD, Sheriff's Department (LASD), Department of Mental Health (DMH), Probation Department (Probation), and other non-county agencies for reimbursement of Program funds, and to execute, as necessary, all future amendments to such funding agreements.
5. Delegate authority to the Public Defender, or his designee, as an agent for the County, to apply and submit a grant application to the Foundation for the Program in future FYs, and to execute all required grant application documents, including assurances and certifications, when and if such future funding becomes available.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

During the first, second, and third phases of this continuing Program, the County committed to enhancing and expanding its criminal justice system reform efforts. In the fourth phase, the major areas of concentration include: 1) the implementation of early in-court mental health evaluations and needs assessments for misdemeanor detainees with the goal of diverting those detainees out of the criminal justice system and into mental health treatment services; 2) collaboration between county and city partners, including PD, LASD, DMH, Probation, and the Los Angeles City Attorney's Office (LACAO) to expand the use of pre-plea diversion for qualifying defendants pursuant to Assembly Bill 1810 (Mental Health Diversion); and 3) comprehensive and effective re-entry assistance for those who cycle between medical and/or mental health facilities and custody environments (with a focus on the homeless population).

Funding as a Safety and Justice Challenge partner site will enable the County to: 1) create a pilot program under which mental health experts will be embedded in busy arraignment courts to provide same-day evaluations of defendants who appear to suffer from a mental health disorder; 2) conduct a same-day needs assessment for defendants who suffer from a mental health disorder; 3) determine whether those defendants qualify for pre-plea mental health diversion as described in Assembly Bill 1810; 4) release, transport, and house qualifying defendants in community based treatment programs responsive to their needs; and 5) provide transitional enriched housing for defendants who are awaiting permanent placement in residential treatment programs.

To broaden the County's reach, PD and LACAO are collaborating with one another, and with other agencies, to quickly and efficiently implement a robust mental health diversion pilot program in Los Angeles.

Implementation of Strategic Plan Goals

This Program is consistent with the County's Strategic Plan, Goal 1.2, Enhance Our Delivery of Comprehensive Interventions, by delivering comprehensive and seamless services to those seeking assistance from the County. The continued implementation of this Program for detained misdemeanor defendants aims to reduce jail incarceration and the over-incarceration of those suffering from mental illness.

FISCAL IMPACT/FINANCING

The total cost for the Program is \$1,200,000 (Salaries and Employee Benefits; Services and Supplies). There is no match requirement.

Funding for this program will be provided by the grantor in \$600,000 yearly installments in January of each calendar year, contingent on the completion of the previous year's performance and reporting requirements. The calendar year funding periods span three County fiscal years and will be budgeted as follows:

FY 2018-19: \$300,000

FY 2019-20: \$600,000

FY 2020-21: \$300,000

Grant awards that spans County fiscal years will be kept in trust until needed.

For FY 2018-19, approval of an appropriation adjustment is requested to increase the Department's budget in the amount of \$300,000 (Salaries and Employee Benefits - \$20,000; Services and Supplies - \$280,000), funded by an increase in grant revenue.

The remaining funds of \$900,000 will be kept in trust until the appropriate fiscal year and will be incorporated into the future budgeting process.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

This will be the fourth year of funding for the Program. The term of the Agreement is from January 1, 2019, to December 31, 2020.

The attached Agreement has been approved as to form by County Counsel.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

The Offices of the Public Defender, Los Angeles City Attorney, and other partners have determined that implementation of this program using grant money provided through the Agreement will not have a significant impact on the departments' ability to provide preexisting services.

CONCLUSION

Upon your Board's approval, it is requested that the Clerk of the Board of Supervisors return two (2) adopted stamped copies of the Board letter to: Public Defender, Attention Ricardo D. García, Public Defender, 210 West Temple Street 19th Floor, Los Angeles, CA 90012.

Respectfully submitted,

ATTEMPTS TO INFLUENCE LEGISLATION BY MacARTHUR FOUNDATION GRANTEES

Under United States law, MacArthur Foundation grant monies may not be used to pay for attempts to influence legislation, unless they qualify under certain specific exceptions. (These laws do not affect how grantees may spend money received from other sources.) This paper will generally describe what activities are regarded as attempts to influence legislation and some of the exceptions available. Also, attached is a chart describing some permissible and prohibited public policy activities.

Lobbying

Attempts to influence legislation, commonly known as lobbying, may be of two types, direct or indirect:

Direct Lobbying

Direct lobbying refers to certain communications directly with government personnel who are involved in the legislative process. They may be legislators or employees of legislative bodies, or other government personnel who participate in the formulation of the legislation concerned.

A communication with these government personnel will be lobbying only if it both refers to specific legislation and indicates a view on that legislation.

Indirect Lobbying

Indirect (or "grass roots") lobbying refers to communications with members of the general public. Certain "public relations" or educational activities may constitute indirect lobbying, and others will not. Indirect lobbying communications include only communications that (1) refer to specific legislation, (2) indicate a view on the legislation, and (3) encourage the recipient of the communication to take action with respect to the legislation.

Specific Legislation

"Specific legislation" includes both legislation that has already been introduced in a legislative body and a specific legislative proposal.

Legislation

Legislation refers only to action by a legislative body -- such as a congress, senate, chamber of deputies, house of representatives, state legislature, local council or municipal chamber of representatives -- or by the public in a referendum or similar

procedure. Legislation of the United States or any other country or of any local government is included.

Legislation also includes proposed treaties required to be submitted by the President of the United States to the Senate for its advice and consent from the time the President's representative begins to negotiate its position with the prospective parties to the proposed treaties.

Action by an executive or by a judicial or administrative body does not constitute legislation, so attempts to influence such action do not constitute lobbying.

Encouraging Recipient to Take Action

A communication may encourage the recipient to take action with respect to legislation, and therefore meet the third test for indirect lobbying, in any one of the following four ways:

1. It may state that the recipient should contact a legislator (or other government official or employee who may be involved in the legislation).
2. It may state the address, telephone number, or similar information of a legislator or an employee of a legislative body.
3. It may provide a petition, tear-off postcard, or similar materials for the recipient to send to a legislator or other government official or employee.
4. It may specifically identify one or more legislators who will vote as:
 - a. opposing the communication's view with respect to the legislation,
 - b. undecided about the legislation,
 - c. the recipient's legislative representative, or
 - d. a member of the legislative committee that will consider the legislation.

Exceptions

There are a few specific exceptions from prohibited lobbying. The most important of these for MacArthur Foundation grantees are the exception for examinations and discussions of broad social, economic, and similar problems and the exception for nonpartisan analysis, study, or research.

A communication regarding broad social, economic, and similar problems will not constitute lobbying, even if the problems discussed are of a type with

2/1/99

which government would be expected to deal eventually. Accordingly, it is permissible to speak to legislators or the general public about problems that the legislature should address. These communications may not, however, discuss the merits of a specific legislative proposal or directly encourage recipients to take action with respect to the legislation.

Nonpartisan analysis, study, or research means an independent or objective exposition of a particular subject matter. It may advocate a particular position or viewpoint, so long as there is a full and fair discussion of the pertinent facts, which is sufficient to enable an individual to form an independent opinion or conclusion.

The results of nonpartisan analysis, study, or research may indicate a view on specific legislation, and they may be communicated to a legislator or government official or employee involved in the legislative process. They may not, however, be communicated to members of the general public with a direct encouragement to the recipient to take action with respect to the legislation.

A grantee may not use the nonpartisan analysis, study, or research exception, such as by omitting the direct encouragement to take action, and then later use the

communication for lobbying purposes. If it does, and if the grantee's primary purpose in preparing the original communication was for use in lobbying, the amounts spent to prepare the original communication will be treated as funds used for lobbying.

Related Issues

The use of any MacArthur Foundation grant monies to participate in any political campaign on behalf of or in opposition to any candidate for public office is also prohibited by United States law. This applies to elections both inside and outside the United States.

Also, no MacArthur Foundation grant monies may be used to make any payments that would be illegal under local law, such as to offer money to a public official to perform an official action or to omit or to delay an official action.

Questions

If you have any questions regarding the rules discussed in this memorandum, or if you would like further information please contact the Office of the General Counsel, at the John D. and Catherine T. MacArthur Foundation, 140 South Dearborn Street, Chicago, Illinois 60603-5285, U.S.A.; telephone (312) 726-8000.

2/1/99

PERMISSIBLE AND PROHIBITED ACTIVITIES

Some Permissible Public Policy Activities

1. Meetings with or letters to government officials, including legislators, about a problem needing a legislative solution, so long as there is either no reference to specific legislation or no view expressed on specific legislation.

Policy Regarding Intellectual Property Arising Out of Foundation Grants

Introduction

Foundation grants often result in tangible products, such as reports, papers, research, software, data sets, curriculum, books, film or television documentaries, or radio programs ("Grant Work Product"). This Policy articulates the principles guiding the Foundation's approach to the ownership and use of Grant Work Product. It addresses specifically the ownership, use, copyright to, distribution and licensing of the Grant Work Product arising from project grants by balancing the interests of the Foundation with the interests of the grantee and other interested parties.

Recipients of general operating support grants are expected to have policies in place reasonably consistent with the underlying philosophy and principles reflected in this Policy.

The Foundation is cognizant that fast-evolving technological advances are impacting the manner and method by which knowledge in whatever form can be protected and distributed and the Foundation will evaluate this policy in light of this understanding. The attached glossary defines certain underscored terms used in this Policy. A Guidance Memorandum that provides further detail on the Foundation's approach to specific issues accompanies this policy and will be revised from time to time as appropriate.

Policy

The Foundation's policy is to ensure that use of the Grant Work Product furthers charitable purposes and benefits the public. To that end, the Foundation seeks prompt and broad dissemination or availability of the Grant Work Product at minimal cost to the public or, when justified, at a reasonable price. Distribution at a reasonable price may be justified when integral to the business plan and sustainability of a charitable organization or when the Foundation is satisfied that net revenues derived from the distribution will be used for charitable purposes.

- Grant Work Product should, whenever feasible, be licensed under a Creative Commons license appropriate for the circumstances or other similar scheme that provides for wide distribution or access to the public.
- Software created with grant funds should be ordinarily licensed under an open source license.
- The Foundation also expects openness in research and freedom of access to research results and, when feasible, to the underlying data by persons with a serious interest in the research. This means that grant-funded impact studies should generally be registered in a field-appropriate registry, preferably before data are collected or at least before statistical analyses are performed.

The Foundation recognizes there may be circumstances where limited or delayed dissemination of Grant Work Product, delayed or non-registration of impact studies, or limited or delayed access to data may be appropriate to protect legitimate interests of the grantee, other funders, principal investigators or participants in research studies. Such circumstances will be evaluated on a case-by-case basis.

We will apply these same general principles to our contract-funded evaluation work and make the relevant information available under our Policy on Information Sharing.

Ownership of intellectual property rights (including copyright and patent rights) should not be used to limit or deny access to the Grant Work Product, to result in exclusive use of such Grant Work Product, or to create revenue that is not used substantially for charitable purposes. Copyright to or patent rights in the Grant Work Product will ordinarily remain with the grantee, but the Foundation will be granted a no-cost assignable license to use or publish the Grant Work Product consistent with this Policy. The Foundation may forego or limit the requirement of a license if the Foundation is reasonably satisfied that other appropriate arrangements will be implemented that will assure the goals of this Policy.

In all instances, the Foundation will agree to suitable terms at the time a grant is made based on the facts to ensure the objectives of the Policy are met while respecting appropriate interests of others.

This Policy was initially adopted September 18, 2008. It was last revised on September 10, 2015 and applies to grants awarded after that date.

Glossary

Creative Commons License: A license that allows creators of intellectual property to retain copyright while allowing others to copy, distribute, and make some uses of their work — at least non-commercially. <http://creativecommons.org/licenses/>

Data: All materials created during the research process including raw data and metadata required to replicate and assess the trustworthiness of reported findings in their entirety.

Impact Study: A study that investigates how an intervention affects outcomes based on a model of cause and effect. It requires a credible counterfactual (typically, a control group or a comparison group) of what those outcomes would have been in the absence of the intervention. An impact study must control for factors other than the intervention that might account for the observed change.

Open Source License: A license that allows software or other products to be used, modified, and shared under defined terms and conditions.

Registry: An access point for collaborators, other scholars, students, and the interested public that provides links to data sets, survey instruments, impact studies, and experimental protocols. The purpose is to enhance the transparency and quality of research/evaluations studies funded by foundations.

Research: The general field of disciplined investigation, covering the humanities, the sciences, jurisprudence, evaluation and so on.
