ADOPTED

BOARD OF SUPERVISORS
COUNTY OF LOS ANGELES

36 April 16, 2019

CELIA ZAVALA
EXECUTIVE OFFICER

April 16, 2019

The Honorable Board of Supervisors
County of Los Angeles
383 Kenneth Hahn Hall of Administration
500 West Temple Street
Los Angeles, California 90012

Dear Supervisors:

**TRANSPORTATION CORE SERVICE AREA
ROAD REPAIR AND ACCOUNTABILITY ACT OF 2017
ROAD MAINTENANCE AND REHABILITATION ACCOUNT
APPROVE FISCAL YEAR 2019-20 ROAD CONSTRUCTION PROJECT LIST
(ALL SUPERVISORIAL DISTRICTS)
(3 VOTES)**

SUBJECT

This action is to approve the proposed project list for the Road Repair and Accountability Act of 2017, Road Maintenance and Rehabilitation Account so that Public Works can receive funds for the projects.

IT IS RECOMMENDED THAT THE BOARD:

1. Find that the proposed action is not a project pursuant to the California Environmental Quality Act for the reasons stated in this letter and the record.
2. Approve the list of proposed road improvement projects to be financed with State of California Road Repair and Accountability Act of 2017 funds for submission to the California Transportation Commission in Fiscal Year 2019-20 under the Road Maintenance and Rehabilitation Account.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

The purpose of the recommended actions is to obtain the Board's approval of the list of proposed projects to be constructed in each Supervisorial District using the Road Maintenance and Rehabilitation Account (RMRA) funds. This action is required by the California Transportation Commission (CTC) and will enable Public Works to receive the funds and proceed with implementation of the proposed road improvement projects.

Implementation of Strategic Plan Goals

The County Strategic Plan directs the provisions of Strategy II.2, Support the Wellness of our Communities, Strategy II.3, Make Environmental Sustainability Our Daily Reality, and Strategy III.3, Pursue Operational Effectiveness, Fiscal Responsibility, and Accountability. The recommended actions support the Strategic Plan by enhancing roadway conditions and safety in our communities, incorporating environmentally sustainable pavement treatments, such as recycled asphalt, and maximizing revenue for transportation projects.

FISCAL IMPACT/FINANCING

There will be no impact to the County General Fund.

The funds appropriated from the RMRA are made available to the State Controller for allocation to the County monthly. The estimated allocation of \$101.2 million to be received in RMRA funds in Fiscal Year (FY) 2019-20 will be deposited in the Road Fund. Funding from the RMRA is included in the Road Fund FY 2019-20 Budget. As construction contracts for projects identified on the enclosed project list are planned for award in future years, the designated funds will be appropriated in the annual budget process.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

Senate Bill 1 (SB 1), the Road Repair and Accountability Act of 2017 was passed by the California State Legislature and signed by the Governor on April 28, 2017. It creates new transportation funding streams to address State and local road maintenance/repair, transit, and transportation infrastructure needs.

Portions of this funding are deposited into the newly created RMRA. A percentage of this new RMRA funding will be apportioned by formula to eligible cities and counties for basic road maintenance, rehabilitation, and critical safety projects on the local streets and roads system. The RMRA list is compiled through ongoing assessment of the safety needs of County roadways.

The County is projected to receive \$101.2 million in RMRA funds in FY 2019-20. Under SB 1, the County is also projected to receive approximately \$51.5 million in additional unrestricted Highway User Tax Account funds for a total of \$152.7 million in FY 2019-20.

The RMRA guidelines require that prior to receiving an apportionment of RMRA funds from the State Controller in a fiscal year, the county must submit to the CTC a list of projects proposed to be funded

with these funds pursuant to a resolution adopted or amended by the county's governing body at a regular public meeting. SB 1 requires that the adopted project list must include the description and location of each proposed project, a proposed schedule for the project's completion, and the estimated useful life of the proposed improvement. This will provide the required accountability over RMRA funds by ensuring that these funds are only for use on eligible transportation projects.

The project list consists of \$286.7 million in proposed projects. While this amount exceeds the estimated \$101.2 million to be received in FY 2019-20, the CTC does not require the local agencies' project list to conform to the estimated annual allocation. The project list represents the menu of projects that Public Works expects to deliver over the next 6 years and will be updated annually. Public Works will continue to collaborate with each Supervisorial District to identify the highest priority projects to deliver given the FY 2019-20 allocation.

Upon adoption, Public Works will forward the project list along with support documentation to CTC for approval. The CTC will review the information submitted and transmit the list of eligible counties to the State Controller, who will then apportion funds accordingly. Pursuant to SB 1, the Board's adoption of the project list shall not limit the flexibility to add or delete projects based on adjusted needs and priorities so long as the projects meet the eligibility criteria pursuant to Section 2030(b) of the Streets and Highways Code.

ENVIRONMENTAL DOCUMENTATION

The recommended actions are not subject to the California Environmental Quality Act because they are activities that are excluded from the definition of a project by Sections 15378(b)(4) and 15378(b)(5) of the State California Environmental Quality Act Guidelines. The adoption of the project list and acceptance of RMRA proceeds are administrative activities of government and creation of a government funding mechanism that will not result in direct or indirect physical changes in the environment.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

The funding from SB 1 will help the County maintain and rehabilitate streets. Upon completion of the projects, residents will be provided with safe, smooth, and aesthetically pleasing roadways.

CONCLUSION

Please return one adopted copy of this letter to Public Works, Transportation Planning and Programs Division.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Mark Pestrella". The signature is fluid and cursive, with the first name "Mark" written in a larger, more prominent script than the last name "Pestrella".
