			Kate Wolf	I don't support the wide spread demolition of Rancho Los Amigos. The county must find a way to reuse and preserve the remaining buildings. This is a key part of California history that must not be erased!
			Rachelle Kim	
		<b>Oppose</b>	George Redfox	I do not agree with tearing down our history at Rancho Los Amigos. This is a beautiful site that should be restored and reused. Please save this place for future generations.  Thank you, George Redfox President, The Downey Conservancy
			Marie Paulino	We need to come up with a better plan on how to keep worker as well as quests safe
			Tim Miller	Please do not let us lose more of LA history with the planned wholesale demolition of the Rancho Los Amigos Historic District. Please reconsider and find a balance of preservation and new use of the site. Do not allow all of the historical buildings to vanish. Please vote no and work with the LA Conservancy.

		Elena I Popp		The LA County Board of Supervisors and local jurisdictions have passed an inadequate patchwork of protections that delay a 365-600K case eviction Tsunami 3-12 months after the state of emergency lifts. The Board must:  1. Impose a minimum of a 12 month repayment period of COVID-19 related rents for all LA County residents regardless of whether a local jurisdiction has passed a shorter repayment period;  2. Ensure that the eviction protection language of a local jurisdiction is as strong or

	<p>stronger as the county's Emergency Tenant Protection Measure;</p> <p>3. Ensure that self certification is a protection offered to all tenants in LA County regardless of the existence of a local ETPM;</p> <p>4. Impose a vacancy control remedy for any landlord that harasses a tenant, illegally locks out a tenant or violates your Emergency Tenant Protection measures. Landlords are motivated to engage in these abusive practices because their success results in being able to raise the rent without limits. Please remove that economic incentive from the equation;</p> <p>5. Acknowledge that rent subsidies are bad policy. The sums are inadequate. They perpetuate a broken housing system. They are little more than bread and circus and pander to the voters. What is needed is strong eviction protections with funding for Right to Counsel and funding to transfer the ownership of distressed housing to community control. It makes little sense to spend funds on rent subsidies when there are still active campaigns to #CancelRents and #CancelMortgages at the State and Federal level. AB1436 and SB1410 offer solutions that are more cost effective. Don't waste my tax dollars please.</p> <p>6. Support the State legislative agenda of the Housing Now! Coalition and in particular SB1190 (Durazo) and AB1436 (Chiu). Please call appropriate legislators to encourage them to support this agenda. AB1436 would decrease the impact of Tsunami II and II and would delay it for approximately 20 months.</p> <p>7. Support the HealthyLA People's budget. Shift funds from an agency that makes people homeless and shoots 18 year olds and put it into community programs, health and social services, and Right to Counsel.</p> <p>8. Help the Healthy LA Coalition to find State authors for what we call orphan ideas that would dissipate Tsunami II at sea: (a) vacancy control for units vacated between March 4 and 90 days after the State of Emergency lifts or for a COVID 19 evasion; (b ) shifting the burden of proof to the Plaintiff in order to level the playing field in court; (c) imposing attorney fees for filing and dismissing or filing and losing if the tenant has a COVID-19. defense.</p> <p>9. We can stop the 365-600K strong eviction Tsunami. For information on how email: elenaipop17@gmail.com.</p> <p>10. Stop calling the measures you have passed "moratoria." A moratorium is a prohibition on an activity. An eviction moratorium would be a prohibition on the filing of evictions. Evictions can be filed. There are, therefore, no moratoria. There is a patchwork of confusing Emergency Tenant Protection Measures.</p>
