Agenda #	Relate To	Position	Name	Comments
Public Comment		Favor	Akunna Uka	Given the concerning number of people with mental health issues who have been assaulted or killed by police officers, I support 40-H and its call for conducting a study to learn how Los Angeles County residents may use an alternative to 911 for acute mental health emergencies.
			Antonio LeMons	The County & City need to commit to their own respective shares of the 15,000 goal. The County of Los Angeles should contribute at least \$350 Million in new funding towards the 15,000 person goal for the first year of the plan, using federal CARES Act funding.
			Erica Vasquez	Keep School police in schools to protect our children!
			Hugh Schurtz	The State needs a Special Ombudsman to accept & review grievances from County Residents. This might help resolve ongoing corruption by Supervisors to Minorities who have been denied justice or had it delayed due to fraud and deception by County Officials. This help the harmed from years of fraud get justice. This allows reparation to decades of abuse & discrimination. Until it is done County Residents should vote out all elected officials protest until they resign & demand firing of all employees. Mary Wickham & County Counsel are a rubber stamp to corruption so the State or DOJ must oversee this.
			Jed R Goldstein	The time to provide more housing opportunities to our fellow citizens experiencing homelessness was yesterday. A year ago. A decade ago. TODAY is our chance to act. More housing, less policing NOW.
			Jet Doye	The County & City need to commit to their own respective shares of the 15,000 goal. The County of Los Angeles should contribute at least \$350 Million in new funding towards the 15,000 person goal for the first year of the plan, using federal CARES Act funding.
			john a weber	it would be a wise move during the current political environment to em-place more controls on the use of deadly force by law enforcement . it would be better at this level , for instance suspects who are running and havent fired a weapon should not be back shot.just becuae u can dont mean u should
			Lyndsay R Smith	In reference to Agenda Item a-4, The County & City need to commit to their own respective shares of the 15,000 goal. The County of Los Angeles should contribute at least \$350 Million in new funding towards the 15,000 person goal for the first year of the plan, using federal CARES Act funding.
			Marie G Adabache

Agenda #	Relate To	Position	Comments
Public Comment		Favor	<p>Nidia E Diaz</p> <p>As a former homeless veteran, I've seen more people on the street due to health problems than for behavior issues. We need a change in the way we treat the issue of homelessness and mental health. These people need help, and they don't have the resources to help themselves. "Pick them up by their bootstraps"- with what boots? Treat them like patients, not as criminals.</p> <p>We need safe long term housing for 15,000 homeless people in L.A. These people are vulnerable to the pandemic. How can they follow "stay at home" orders without shelter? L.A must contribute funding for housing goals through the federal CARES act. Both COVID-19 and homelessness will continue to increase if L.A county fails to do its part in funding for housing.</p>
			<p>Sari Knight</p> <p>I am Hermosa Beach resident and in favor of the 8 Can't Wait program. Please support this program. We need to act NOW.</p>
			<p>Seth Z Nagel</p> <p>With Covid-19 continuing to be a daily urgent and dangerous matter for the most in need, the County and the City must commit to their own respective shares of the 15,000 goal. The city has already committed to this endeavor. We need The County of Los Angeles to contribute at least \$350 million in new funding towards the 15,000 person goal for the first year of the plan, using federal CARES Act funding. This is a matter of life and death and of the upmost urgency. Thanks you for your time and consideration</p>

Public Comment		Favor	Wendy Wang	<p>Dear Los Angeles County Board of Supervisors,</p> <p>This morning, Hathaway-Sycamores is writing to support the creation of a Homelessness Recovery Roadmap for the individuals who have been temporarily housed as part of Project Roomkey. As Los Angeles County continues to plan for a post COVID-19 recovery, we believe that the Project Roomkey individuals should be transitioned to more stable and permanent housing, thereby not pushing them back into homelessness once Project Roomkey funding runs out. While we anticipate additional funding from the Governor and Legislature to help counties and cities address homelessness, the allocation for LA County will likely be insufficient. Therefore, we are joining with other community-based organizations and homelessness advocates to urge you to set aside a total of \$350 million (across multiple funding streams including federal CARES Act) to fund Los Angeles County's portion of the transition of the 15,000 Project Roomkey individuals to stable housing and necessary supportive services.</p> <p>While the immediate focus of Project Roomkey on housing homeless adults is understandable, the recent release of the 2020 Homeless Count results, lessons learned from the last recession, and anecdotal data from young adults highlight the importance of not forgetting about the needs of homeless young adults. According to LAHSA, the percentage of Transition Age Youth homelessness rose 19% from 2019 to 2020 in LA County. California's unemployment rate is at approximately 15.5%, the uncertainty of the economic recession remains and the possibility of another COVID-19 resurgence is in the foreseeable future. Before the public health pandemic, many young people were faced with unemployment or underemployment. Furthermore, they may not have had access to resources or support to help with their job security, employment prospects, or improve their education to improve their financial security. Then, COVID-19 hit and the stay-at-home order exacerbated many young people's anxiety about finances and their most basic needs (i.e. food and housing) and ushered in new feelings of isolation or fears. As data from the last economic recession show, youth unemployment jumped to approximately 20%, and the rates were even higher for young adult men from communities of color. For all these reasons, we urge the Board of Supervisors to recognize the needs of homeless young adults during this time and dedicate necessary resources to support them, as you continue to move forward with a post COVID-19 recovery plan.</p> <p>Thank you for your consideration of our comments</p>

Agenda #	Relate To	Position	Name	Comments
Public Comment		Oppose	Angela Perez	My name is Angela Perez, I work as the lobby attendant at the SLS Beverly Hills. I oppose the reopening of the economy because my hotel like many other companies do not have any concerns about our health and wellbeing. I am only working because I want to make a living for myself and my family. I have seen guest without mask and using our swimming pool during the height of the pandemic. I am responsible for cleaning the public areas of the hotel including the pool and there is so much work and not enough time to clean it all. I wonder if it is all worth it? Is my health worth getting sick? Does the hotel really care about me or do they only care about the money they get from the guest? I want my voice heard! I am an essential worker. We can not reopen the economy yet it is dangerous and it puts my life at risk.
			Barbara A Petersmeyer	Agenda #37 06/23/20 Pls consider saving as many historic buildings, or parts of the buildings, as possible while also allowing for new construction. Pls do not allow demolition until funding is secured and building permits are issued. Pls monitor so there is no excessive demolition within this historic campus. Thank you.
			Bethsabe Alvarez	Estoy preocupada por la reapertura de hoteles soy una trabajafora de hotel y ha habido contagios y estoy preocupada por mi salud y de mi familia
			Cathy Janacua	Please save Rancho Los Amigos! There is no reason why new development must destroy California's history!
			Dora Altamirano	My name is Dora Altamirano, I oppose the reopening of the economy because I have been putting my health at risk every day I go into work. I am a housekeeper at the Sofitel in Beverly Hills for more than 10 years. We have been cleaning rooms of doctors and nurses at Cedar Sinai and the rooms are so extremely dirty, I am putting my body at risk and my health. I have no idea if these doctors and nurses have covid-19 or if they carried something in. What if I get Covid-19 or injured or worst, both? Who is going to care for my family? I can not believe that the economy wants to reopening with out my input! After hearing my stories, you should believe that we put ourselves at risk. Not only have we become essential workers, our voices are essential to reopening the economy. The economy is not ready to reopen, listen to our input before opening prematurely.
			Elena Estrada	Mandatory face mask. Where is the reputable science for requiring healthy people to wear masks and to physically distance? Show us the data to support continued restrictions, specifically with school guidance as required by HSC Div.105, Part 1, Chapter 3, Section 120175.5, which requires the health officers to make this evidence available.

			The following individuals submitted comments on agenda item:	
Public Comment		Oppose	Fabiola Vicenta	<p>Opposing the reopening of the economy: I am Fabiola Vicenta I am a housekeeper at the Sofitel Hotel in Beverly Hills for 15 years. I am an essential worker during this pandemic and I can tell you first hand that my input must be considered before the opening of the economy.</p> <p>In the past couple of months, the hotel has made a contract with the hospital across the street. We are cleaning rooms of doctors and nurses that are caring for Covid-19 patients. I have had many encounters with hospital workers while cleaning their rooms. They do not leave the rooms when I have to clean them. This makes me feel unsafe while working in the rooms. Many of these rooms have not been maintained for 3-5 days and when we finally attend it, it is filthy! I have photos to prove how messy these rooms are. When I clean these rooms I wonder if the hotel genuinely cares about my health and wellbeing. Is my life worth becoming ill from Covid-19? How will my family survive without my income if I die? I want my input in the opening the economy. It is not safe to go back.</p>
			Gloria D Cox	<p>Work Place Job AYS Operator 12 years. I oppose of the Hotel having a full opening. I have noticed customers refusing to wear masks in public. There are co-workers who are positive with the Corona Virus. There are first responders staying there. Public areas are not being cleaned after each guest/coworkers.</p> <p>How can the hotel protect the staff and guests from asymmetrical spreaders? Temper check is the only tool the hotel is providing.</p> <p>I fear I will catch the virus as being a high risk person with upper respiratory issues. I fear I will bring it home to my loved ones.</p> <p>Please let's take our time with this reopening. Let's have more contact tracers in place. Let's some how enforce masks and social distancing.</p>
			Henry Fung	<p>Why is the County moving COVID-19 press conferences to once a week, even while the pandemic continues to grow and the number of cases rises? This is absolutely not the best move. Three times a week is sufficient, as it doesn't conflict with Board meetings, but once a week is not enough, especially when there are many press questions which are not answered at the three times a week press conferences due to time constraints.</p>
			Jenna Thomas	<p>June 23, 2020</p> <p>I oppose the demolition of Rancho Los Amigos, Agenda #37</p>

			The following individuals submitted comments on agenda item:	
Public Comment		Oppose	Jorge Seperak	My name is Jorge Seperak, I am concern about the reopening of the economy. I work at the SLS Beverly Hills for more than 10 years and after working one day during the first months of the pandemic, I refused to go back to work because I did not feel safe to return to work. My workplace stayed open during the pandemic and there has been hardly any measures for the guest during their stay. Los Angeles is an epic center and hotels and the economy are literally dying to get back to business. I refused to be that death toll number. The economy is not worth my dead body or any of my co-workers. We demand input before the reopening of the economy. Do the responsible thing and save lives.
			Martha E Hernandez	Trabajando en la industria de la hoteleria como Recamarera estoy muy preocupada a los riesgos a que expongo a mi familia dia con día ya que el hotel está interesado en su negocio y dinero más que en mi salud y seguridad de mi familia ya que no me siento segura con sus medidas inseguras de trabajar estoy muy preocupada ya que tengo un nieto pequeño y me preocupa poner en riesgo a toda mi familia durante esta pandemia y por eso pido reconsideren la reapertura de los hoteles y piensen en nuestro bienestar
			Max E Chavez	Do NOT approve the final EIR for Rancho Los Amigos so we can save the site for future preservation and reuse (agenda #37, meeting date June 23rd, 2020). This is a crucially important piece of Los Angeles and Downey heritage and history--its loss would be one of the most galling instances of destruction in the history of our city. Save and reuse the site, institute protections that bar any sort of demolition or destruction of the grounds until project is funded and permits are issued, and dedicate resources and attention back to local communities that need our attention most.
			Meridith McNeill	PLEASE protect our people rather than those in power. Our system was built to oppress and we have elected our officials to be our voice. Please be on the right side of history. Please fight for the people rather than power.
			NONI FRANK	Ritz Carlton, Los Angeles Front Desk, 5 year length of service The hotels should not be reopened on the basis that statewide a huge spike in COVID19 cases happened. The total death cases have increased significantly in the State of California. The hotel industry involves a lot of face to face contact regarding food and beverage, front desk, laundry, housekeeping etc. These points of contact are putting several employees at an extreme health risk. Ritz-Carlton, Los Angeles has refused to shut down amidst the California Governor's order to lock down and stay inside orders, which was unlawful. Hotel employees were forced to continue to work, as no sanitation or preventative measures to protect workers from vulnerability to COVID19. The workplace and hotel rooms were not sanitized and business went on as usual.

	corporation.
Ruby Vega	<p>I am expressing objection and concerns regarding LA County's proposal to permanently place the Florence Library on the 2nd floor of the Florence-Firestone Constituent Service Center located at 7807 Compton Ave. This location has been deemed as unsafe and inaccessible for many of the community members. Putting the Florence Library on the 2nd floor is an uncommon model for libraries. The community believes that the library deserves a home of its own. It is not fair nor equitable that other libraries in the county have modern independently-housed libraries – such as Maywood's, Bell's, South Gate's, Compton's, and East LA's (to name a few).</p> <p>The Florence-Firestone community has expressed and pleaded that the Florence Library must remain on Florence Avenue. Florence Avenue is a principal corridor of the community and very accessible via walking, metro bus, and the blue line Florence station. In comparison, the Constituent Service Center is not visible nor accessible. The intersecting Nadeau Street is not a thorough street for it only expands about 1.5 miles. It isn't as walkable nor has as many public transportation options.</p> <p>It is appalling that LA County continues to push to house the Florence Library at the Constituent Service Center despite community members already objecting this plan. Community members are disappointed and believe that their concerns are not being taken into consideration. On behalf of myself, and many members of the Florence-Firestone community, we ask that you do not move forward with this proposal.</p>
Sara M Ruiz	Do not continue to relocate public libraries in places where the people do not feel safe or just simply are saying "no!" too.
Sophie Zarate	My name is Sophie Zarate i am a unite here local 11 member Ive worked at the Westin Bonaventure for over 10 years, the hotel remained open thru the pandemic and the guests walk around the lobby without face masks and I'm scared to continue working because the hotel can't guarantee my safety or the safety of other guests, hotels can't operate during this pandemic.
Teri J Bennett	Please don't tear down Rancho Los Amigos. It is a beautiful building and I am sure it could be used for something significant. It would be sad to see a piece of California history being torn down.
Yesenia Delgado	I'm a worker from the Westin Bonaventure in downtown Los Angeles and the hotel has remained open during the pandemic, the hotel has not taken the necessary steps to keep my coworkers and I safe, I'm scared to come home to my two young daughters because of my employers lack of readiness in dealing with this pandemic, we still don't have the proper PPE and I feel it's too soon to accept leisure guests and reopen.
Yvonne M Eisner	<p>June 22, 2020 To: Los Angeles County Board of Supervisors: I am submitting this document in response to the continued mandating of mask wearing and an act known as "social distancing" Background information 1. of mortality and morbidity based on pneumonia symptoms does not make a pandemic.

3. The Governor failed to provide adequate testing to confirm or deny the presence or absence of "a novel corona virus" and, based on recent reports from incarcerated persons, it would appear that positive tests COULD NOT have been based on community transmission as 96% of confined persons have tested positive according to Reuters.

4. No effort has been made by the Governor or regional health authorities to overturn the established science published in JAMA that facemasks should not be worn by healthy individuals (jamanetwork.com/journals/jama...) and that social distancing that involves the confinement of healthy individuals has neither been tested nor validated with any science whatsoever.

Supporting information:

Please see my points below and thank you in advance for your time.

1. Cloth masks are ineffective at preventing viral transmission.
ncbi.nlm.nih.gov/pmc/articles/PMC4420971/

"The rates of all infection outcomes were highest in the cloth mask arm"

" An analysis by mask use showed ILI and laboratory-confirmed virus were significantly higher in the cloth masks group compared with the medical masks group. Penetration of cloth masks by particles was almost 97% and medical masks 44%."

2. Moisture retention, reuse of cloth masks and poor filtration may result in increased risk of infection.

bmjopen.bmj.com/content/bmjopen/5/4/e006577.full.pdf

"The virus may survive on the surface of the facemasks, and modelling studies have quantified the contamination levels of masks. Self-contamination through repeated use and improper doffing is possible. For example, a contaminated cloth mask may transfer pathogen from the mask to the bare hands of the wearer. We also showed that filtration was extremely poor (almost 0%) for the cloth masks. Observations during SARS suggested double-masking and other practices increased the risk of infection because of moisture, liquid diffusion and pathogen retention. These effects may be associated with cloth masks."

"This study is the first RCT of cloth masks, and the results caution against the use of cloth masks. This is an important finding to inform occupational health and safety. Moisture retention, reuse of cloth masks and poor filtration may result in increased risk of infection. Further research is needed to inform the widespread use of cloth masks globally. However, as a precautionary measure, cloth masks should not be recommended for HCWs, particularly in high-risk situations, and guidelines need to be updated."

3. If asymptomatic transmission is showing low/weak, masks aren't very necessary.
pubmed.ncbi.nlm.nih.gov/32405162/

"Conclusion: In summary, all the 455 contacts were excluded from SARS-CoV-2 infection and we conclude that the infectivity of some asymptomatic SARS-CoV-2 carriers might be weak."

4. Wearing a mask outside health care facilities offers little, if any, protection from infection.

nejm.org/doi/full/10.1056/NEJMp2006372

From the New England Journal of Medicine on May 21, 2020: " Public health authorities define a significant exposure to Covid-19 as face-to-face contact within 6 feet with a patient with symptomatic Covid-19 that is sustained for at least a few minutes (and some say more than 10 minutes or even 30 minutes). The chance of catching Covid-19 from a passing interaction in a public space is therefore minimal. In many cases, the desire for widespread masking is a reflexive reaction to anxiety over the pandemic."

Article One, Section 9, clause 2, which states that "The privilege of the writ of habeas corpus (a recourse in law challenging the reasons or conditions of a person's confinement) shall not be suspended, unless when in cases of rebellion or invasion the public safety may require it." On March 4, 2020, California Governor Gavin Newsome appears to have violated the law of the State of California by issuing Executive Order N-33-20 based on the "threat of COVID-19" with no evidence that such threat existed as confirmed by serology or confirmed immunologic evidence. The Government Code sections cited in the Order (Government Code sections 8567, 8627, and 8665) require that criteria be met which do not include the "threat" of any condition but evidence of said condition. At that time, neither the CDC nor the WHO had sufficient testing in place to:

a) confirm and isolate "a novel corona virus" from other corona viruses;
b) California did not have pathology data to suggest that an epidemic was imminent; and, c) the rest of the United States was equally incapable of making any such assessment as a result of the aforementioned conspiring parties actions. Governor Newsome's Executive Order, followed by numerous other similar orders, are all based on the threat of a thing that may or may not exist. THERE IS NO CLINICAL DATA SHOWING THAT THE RESTRAINT OF HEALTHY INDIVIDUALS HAS ANY EMPRICAL DATA SUPPORTING ITS USE. NO EVIDENCE SUPPORTING EMERGENCY DECLARATIONS HAVE BEEN OFFERED WITH THE EXECPTION OF STATEMENTS MADE BY COLLUDING PARTIES SEEKING TO BENEFIT FROM VACCINATIONS, TESTING OR THE COMBINATION – NEITHER OF WHICH CAN BE REASONABLY EXPECTED GIVEN PATENTS GRANTED TO AND HELD BY COLLUDING PARTIE

Beware of the white coats for hire. Pseudo junk science are not medical advice.
forbes.com/sites/victoriaforster/2020/05/17/no-wearing-a-mask-to-protect-against-covid-19-coronavirus-will-not-weaken-your-immune-system/

forbes.com/sites/victoriaforster/2020/05/12/wearing-a-mask-to-reduce-the-spread-of-coronavirus-will-not-give-you-carbon-dioxide-poisoning/

There are several articles floating around the internet lately, for example, from FORBES.com. One titled, "Wearing A Mask To Reduce The Spread Of Corona virus Will Not Give You Carbon Dioxide Poisoning" and another titled, "Wearing A Mask To Protect Against Covid-19 "Corona virus" Will Not Weaken Your Immune System."

Both sounds like some sound medical advice from the experts that perhaps we should listen to. Both articles are written by a Victoria Foster. From her own site victoria-forster-sbta.squarespace.com/contact, she states : "I AM NOT A MEDICAL DOCTOR AND CANNOT GIVE MEDICAL ADVICE. If your inquiry is regarding a topic that I've covered for Forbes Health as a REPORTER, for example, if you are interested in enrolling in clinical trials for new treatments, I recommend contacting the study authors or trial coordinators directly." So she is NOT a doctor, she is a paid PR

Consent can be as easily revoked as it can be granted.</p> <p>Legal Action: In the United States, the doctrine of bodily autonomy comes from the right to life, which is written in the Constitution. This is furthered by section one of the 14th Amendment where it reinforces that the state cannot deprive any person of life, liberty, or property without due process.</p> <p>You DO NOT have my consent to force me to wear a mask on my face and you DO NOT have the right to deny my right to liberty. Say NO to a mask mandate. Please join Orange County to not requiring face covering for citizens "because government is instituted among men to secure our God given rights.</p>
Other	Abraham Forman-Greenwald	<p>I am writing about my despair over the increasing numbers of unhoused Angelenos, a moral crisis. I am not blaming this entirely on public officials, all of us are complicit in allowing this failed public crisis to continue and worsen. But when construction on unaffordable apartments is literally displacing vulnerable members of the community during a pandemic, it just fills me with despair. I would like to see action, including gusing funding from the federal CARES act to house the 15,000 most vulnerable among us. That, to me, is the bare minimum and I will be watching to see if it happens. Enough talk, we need action.</p>
	Alexa Fifield	<p>I urge you to VOTE NO on Campaign Zero in order to truly keep our community safe the county must adopt a CARE FIRST budget that significantly defunds law enforcement agencies and invest in community-based care and alternatives to incarceration and policing. Eighteen-year-old Andres Guardado was gunned down by the LA Sheriff's Department last week while he was working at a second job. Please protect the lives of children and defund the LA Sheriff's Department. Funneling more money into law enforcement is not an effective response to the public outcry for real fundamental change in public safety.</p> <p>I urge you to extend eviction protections to protect tenants. Please keep them protected. Although businesses are opening up, many people have been without income for multiple months. The county must continue its role in protecting tenants by extending the eviction protections until three months after the emergency instead of reassessing every month. Tenants need to know that they will be protected instead of stressing each month about the County's decision.</p>
	Alicia M Quiros	<p>Please stop the reopening of hotels. I am a member of Unite Here! Local 11 and I oppose the reopening of hotels because the hotels are not keeping us safe and they are putting their profits over our health and our lives. It is not fair to workers and our families. I have worked in the industry for 8 years.</p>
	Alma Tejeda	<p>I don't want my hotel open because it is soon I'm a single mom and I don't want my family get infected with the covid 19 so we need more control from my hotel before they open</p>

Ana Cortez	I am a housekeeper at the Beverly Hilton and union leader for decades. I am very scared to return to work. I don't think our hotel will be prepared to reopen anytime soon. I am afraid that our health and safety will not be prioritized. Our voices need to be heard.
Ana Melendez	I am a housekeeper at the Hotel 1 in West Hollywood. I am asking you to pause the re-openings. Our safety, as well as the safety of our guests should be front and center in this process. Thank you.
Ana Ramirez	I am a housekeeper at the 1 Hotel in West Hollywood. I am very concerned over the re-opening of the hotels. I do not want to go back to work without the hotels prioritizing our safety as well as the guests. I implore you to re-asses the re-opening and pause until we are taken into consideration.
Ana B Sanchez	I work at the Sheraton Gateway LAX as PBX Operator for 18 years. The hotel should not be reopened and we demand that our voices be heard in this process. I live with both my parents, my dad is 94 and my mom is 85 years of age. I am their primary care taker. I myself am asthmatic and fear that I can get them sick if I were to get sick.
Andrehy Valladares	I am a housekeeper at the 1 hotel in West Hollywood. I want you to pause the re-opening of the hotels. we do not feel safe returning to work especially without us having any input in the new cleaning standards. Just as you take into consideration the hotel owners, we want you to also take us the workers into consideration. Thank you.
Anne Van Genderen	I am a registered nurse practitioner who thoroughly valued my years at Rancho in the 1970s and 80s. Why the County is investing funding in a massive expansion of operations during this time when other pressing community needs are great and resources are scarce. Where is the accountability? It was a beautiful campus and safeguards to ensure demolition doesn't occur unnecessarily and require a condition that demolition can only proceed once the project is funded and building permits are issued
Arturo Huevo	Me siento temerosoDe contraer COVID-19 .por mi salud soy diabético y las compañías solo ven profit pero no se preocupan por sus empleados
Carmen Vega	rabajo como Housekeeping en el Hotel Westin Bonaventure por 36 años. Las condiciones de nosotros en el trabajo son horribles, los cuartos no se limpian durante una a 6 semanas. La basura está toda tirada en los cuartos, sábanas orinadas, los toilets sucios. Las toallas estan duras de no limpiarse. Cada vez que entramos a los cuartos nos dan ganas de llorar. Los managers nos presionan todo el día para terminar 14 cuartos, pero es imposible en esas condiciones. Les pido que no abran el hotel en esas condiciones hasta que traigan más trabajadores a limpiar y desinfectar
Cristina Navarro	I am a housekeeper and union shop steward at the Beverly Hilton. I am very scared to return to work. I am extremely cautious to not contract the coronavirus. I don't think our hotel is currently following all the safety standards. Some of my coworkers are being overworked and not disinfecting rooms as they should because they are stressed to finish. I am afraid that our health and safety will not be prioritized. Our voices need to be heard.
David McNayr	Hello - My name is David, I'm a resident of the 1st District in LA County. I'm calling for

			<p>Agenda item #27, 40-G + 40-H as well as Supervisor Ridley-Thomas' emergency item regarding the case of Andres Guardado. These sheriffs have to be reined in. I find it deplorable that the Sheriffs continue to flaunt civilian oversight, including the Sheriffs recent statement after he was asked to appear before the Oversight Review Board to testify about COVID in county jails saying "I will not be adhering to any subpoena". I think this statement is indicative of why we cannot use surface level reforms such as listed in Item 27 as a band-aid to a much deeper problem inherent in police culture and the way they see their power in relation to the community. Measure R was passed with overwhelming public support, and if there's questions of its legality we need to see this case in court to see if it will be upheld, because if it won't we need to explore other measures, including a Constitutional Amendment if necessary. Re: Andres Guardado case: we cannot trust the Sheriffs to complete this investigation on their own and demand the BOS support our Congressional Maxine Waters & Nanette Barragan representatives calls to involve the State Attorney General. I appreciate Ridley-Thomas' leadership so far in this case — being the only member of the BOS that I've heard speak out on this matter, however the back-and-forth finger-pointing with the Sheriff regarding who's most responsible for the bureaucratic foot dragging to put body cams on these Sheriffs deputies is embarrassing. It's June 2020, this has been a topic of national discussion for at least 6 years, so at this point none of you are blameless for the fact that this basic reform has not yet been implemented. The family and the community are demanding answers. Why were the Sheriffs there in the first place? What are the names of the deputies that pulled the trigger? Why are the sheriffs placing a security hold on the autopsy? Why was pepper bullets and tear gas used on peaceful protestors at Saturday's protest, including shooting a veteran of the Marine Corps in the face with rubber bullet? Why do calls to end police abuse continue to engender more police abuse against our community? I understand that LAPD and the city reps have been getting most of the heat so far from our local activist groups, but these Sheriffs are just as bad if not worse. End qualified immunity. Defund the police. Los Banditos No Más.</p>
		e loring	<p>Don't waste the opportunity of the covid crisis to make headway on Los Angeles' crisis of homelessness. The County & City need to commit to their own respective shares of the 15,000 goal. The County of Los Angeles must commit at least \$350 Million in new funding towards the 15,000 person goal for the first year of the plan, using federal CARES Act funding.</p>

JANICE HAHN
KATHRYN BARGER

Correspondence Received

This decision was made following a Request for Application (RFA) process that did not fully assess all the bidding agencies. DPH has stated, in conversations with various provider agencies that they lacked the time to either prepare a full Request for Proposal (RFP) or to request that current contracts be extended. DPH has communicated that 18 months is required for a more extensive RFP process while six (6) months are necessary to request extensions of the CalWORKs contracts.

DPH addressed this perceived lack of sufficient time by releasing an RFA by which DVSS providers were chosen without the extensive procedures that the Board has used throughout the 22 years of this initiative. Community Senior Citizen Services and the Department of Public Social Services, the two departments that previously administered the DVSS initiative, employed strenuous application processes that forced applicants to detail their extensive experience in serving the DV community. DPH's RFA merely employed check marks and a one-page summary of an applicant's case management and/or legal services program. Any new providers that DPH chose to recommend for funding did not have to go through the extensive process to confirm the extensive qualifications required.

This was insufficient information to determine what agencies are and are not truly qualified to assist a population that by definition faces some of the most complex challenges imaginable. A population made up significantly of women and people of color who have the additional barriers of being very low income who on average have lower education levels and functioning abilities. Given these extreme challenges, the Board has required that the DVSS administrators employ a stringent process to select the agencies contracted under this initiative. For this RFA, however, DPH used an RFA process that was not scored and only used a pass/fail analysis. This RFA process did not have the qualitative review that previous application processes contained given the complexity that the DV services require.

DPH has chosen, during one of the most challenging times in the history of this planet, to redistribute funding away from proven providers with extensive experience in favor of funding new providers that may or may not lack the proven expertise that the undersigned providers have. We feel that during this global pandemic, which has significantly increased the incidents of DV, is not the time to experiment with the County's proven and effective funding practices. It is impossible to meet or be expected to meet the increasing needs of DV survivors without funding, and we cannot run effective agencies without advanced notice of funding shortfalls. In this case, we did not receive either.

In addition to the devastating loss in funding, it is very troubling to all of us that DPH has exhibited a lack of effective communications and/or understanding. We learned of the reductions through our grant award letters that were emailed to us just a little over three (3) weeks prior to the contract start date. In some cases, these letters were received the day before the Letters of Intent were due. There was no communication from DPH to expect any devastating slashes in funding, ranging between 30-50%, during a global pandemic that has brought all of society to a standstill.

	<p>Therefore, we are requesting the Board of Supervisors:</p> <ol style="list-style-type: none">1. Maintain 2019/20 funding levels for all DVSS service providers for 2020/21.2. Carefully review DPH's recommendation to the Board and only approve funds to programs that are defined according to California Evidence Code Section §1037.1(b).3. If DPH funding recommendation is approved by the Board as presented, the Board must assist us in finding other funding to support the shortfall faced by domestic violence service providers. <p>We appreciate the many ways the DV field is supported by the Board of Supervisors. We look forward to working with you to address these critical issues so that we may continue to provide the much-needed and proven supportive services to the many victims we serve.</p>
Elizabeth Eastlund	<p>We are writing to request that the Board of Supervisors deny the Department of Public Health's (DPH) funding recommendations for the Domestic Violence Shelter-Program Program (DVSBP) grants that have resulted in a significant decrease in funding to current DVSBP service providers. The DVSBP is funded through marriage license fees and court fees. In many cases, these devastating cuts will lead to numerous layoffs to staff, during the Covid-19 pandemic, who have dedicated their careers to assisting DV survivors to achieve stability and employment in their lives.</p> <p>DVSBP-funded agencies received notice last week in a letter that stated, in part:</p> <p>"As you are aware, funding for these contracts come from the Presley Fund (marriage license fees and court fees). Because the deposits into the Presley Fund has been decreasing annually, and due to the impact of COVID-19, as well as a decrease in reserves, contract allocations have been reduced. We understand this is a particularly difficult time for a decrease in shelter funding."</p> <p>The undersigned providers were in fact not aware that the Presley Funds had been decreasing annually. If DPH knew of this development, they did not share this information so that shelter-based providers could at least attempt to prepare for it. Beyond the loss of significant funding, what is also troubling to the under-signed service providers is the lack of communication and understanding from DPH. While other County departments have been providing warnings about the potential reduction in funding during these uncertain economic times, there was absolutely no communication from DPH regarding this possibility. It is impossible to meet or be expected to meet the increasing needs of DV survivors without funding, and we cannot run effective agencies without advanced notice of funding shortfalls. In this case, we did not receive either.</p> <p>For these reasons, we are requesting that the County Board of Supervisors please:</p> <ol style="list-style-type: none">1. Identify other sources of funding to support the critical programs provided by domestic violence service shelter-based organizations to address the shortfall of DVSBP funds.2. Request a full and complete accounting of the Marriage License Fee and Domestic Violence Probationer Fee that fund the DVSBP program.

	<p>a. How much are the current reserves? b. How much of the fund was used for DPH's administrative costs?</p> <p>We appreciate the many ways the DV field is supported by the Board of Supervisors. We look forward to working with you to address these critical issues so that we may continue to provide the much-needed supportive services to the many victims we serve.</p>
Erika Rogers	<p>Agenda item A-4: Community Clinic Association of Los Angeles County (CCALAC) recommend the need for the City and County to fully fund their respective shares of the plan to house people experiencing homelessness who are most vulnerable to the COVID-19 pandemic. The County of Los Angeles should maximize the use of federal funds and contribute at least \$350 million in CARES Act funding towards the 15,000 person goal for the first year of the plan.</p>
Gabriela Lemus	<p>I am a room attendant at the Hotel 1 in West Hollywood. I am asking you today to put a pause on the re-opening of the county. We are still in the middle of a pandemic and our safety as well as the public must be taken into consideration. We the workers want safety and our input in the new safety protocols. Thank you.</p>
George Buzzetti	<p>Public Comment</p> <p>It is time for these organizations, both the BOS and agencies under their control, to be held accountable for your crimes against George Buzzetti, and the public in general. For years you have broken the Brown and Bagley-Keene Acts as is shown by CS-1. This must be a response to my filing against you with the LADA as it is their responsibility to enforce that law.</p> <p>Presently, your DPSS illegally for the 4th time in 6 years have taken my social security without notice and left me this month with only about \$250.00 to live on. Can you live on that? I only receive \$720/month as you certainly know. How do I make more than \$1,495/month which is the limit for Medical? I sent them the required information multiple times by certified mail long before the again illegally took my income again on purpose at the same time I am being refused doctors by Regal and Aetna Insurance companies for serious health conditions which during this Corona Virus are life threatening if I get the virus. I now have Non-Tubercular Mycobacterium untreated on purpose now for 2 years. This is torture. This is Elder Abuse and that is a Felony with 4 years in prison for all of you responsible. Since I have the document from Silverlake stating the BOS being personally responsible for me being in the mental hospital and since you run that trash pit from hell you are the ones who ordered them to poison me first with a serious lung infection to lower the ability of my immune system to fight off the NTM. NTM can only get a grip in a compromised health condition which allows the NTM to take charge. Now it is a years long treatment if not for a lifetime with potential serious side effects from the drugs which can include losing your eyesight and hearing. This is all thanks to the total corruption of this political system which I have well documented over a long period of time a much sent to the DOJ. Do you see the arrests at City Hall? They are not an accident. Go to fraudbuster.org, DOJ Submissions to have a glimpse of what they now hold on all of you with so much more coming to them and the public. Have fun in your closed sessions while you contemplate going to prison for you proven crimes</p>

	<p>against me and humanity.</p> <p>You are finally going to have to respond to your criminal actions. You have no right to break the law and to put a persons life in danger to protect your criminal actions especially over a period of 6 years by continuous illegal prosecutions using perjury and preventing my exculpatory evidence guaranteed by law.</p> <p>Apparently the BOS, General Counsel, Superior Courts, LADA, Public Defender's Office, County Health, and the Mental Health Dept. could care less about the law and are only concerned with protecting their criminal activities such as Section 271 of the 2009 L.A. City Charter and DOJ Agreement 2003-HS-WX-K040. Now all of you are going to be held accountable. You should have killed me long ago and have failed. Now accountability will happen no matter what you do as you are in too far. Study the "Art of War" and Machievelli. You might have read them but certainly did not understand what they were saying about humanity and its frailties such as you all have which is a total lack of morals and ethics.</p> <p>George Buzzetti</p> <p>Former Director of Policy for CORE-CA and Chairman of AAEE</p>
<p>Grace OHara</p>	<p>I demand justice for Andres Guardado who was killed but the LA County Sheriff's Department on June 18th while doing his job as a security guard at an auto-body shop. According to the manager, Andrés was on his knees with his hands up when he was shot 7 times. He was 18 years old. I am writing to demand a proper investigation into Andrés murder and release of the footage.</p> <p>Secondly, I demand Supervisor Ridley-Thomas amend the contract with the Sheriff's Department Union. This contract is not in service of the people. It prevents fast disciplinary action against police officers, limits transparency of any past of ongoing investigations, and limits the power of Civilian Oversight Commission. This contract also requires county tax payer dollars to pay for court time, fees and liability settlements of any police misconduct. This is unacceptable and has to change.</p>
<p>Guadalupe Flores</p>	<p>I am a housekeeper at the 1 hotel in West Hollywood. I am very concerned about the re-opening and am asking you to put it on pause. We are still in the middle of the pandemic and our input as workers needs to be taken into consideration now more than ever. We want safety for us, our families, and the county of Los Angeles. Thank you.</p>
<p>Ingrid Rodriguez</p>	<p>I am a housekeeper at the Hotel 1 in West Hollywood. We are very concerned with the way the re-openings are happening. We implore you to pause the openings until our safety is taken as a priority. Our voices should be taken in just as much consideration as the hotel ownership. Thank you.</p>

Sent this also to, (before the eyes of heaven) unto LAHSA.org - LA Homeless Services agency (on their website) & Governor Newsom as well.

Please DON'T email me INSTEAD at: jeffreydavidmorris@yahoo.com < as my Yahoo is being support worked on right now, SO you can (forget what i said elsewhere) email me here for the time being, THIS email provider being my backup secondary.

Me, entered into the "Project Roomkey" project Friday, 6/5/2020 (so the end of my 3 month's would be about I think end of August 2020, & currently / presenting staying at: "Baymont Hotel", 14814 Hawthorne Blvd, Room # 315, Lawndale, CA 90260 & am still HERE as of THIS date: Friday, 6/19/2020, 4:55 pm.

I no care what any of you wanna / choose to call it as or deny that 'it' is anything except what it's been for over 20 year's & STILL exhibitedly is: 'in-direct genocide for other's (of local - state & federal public, misc else office, misc else, public or private, misc).

Over 20 year's (LA County), & exhibited = 'in-direct genocide, for \$ profit reaping sake', Mob mentality / kiss Caesar's ring, ugh, else = \$ corrupt, & huh, just HERE are the so-called local - state & federal justice's?

How many more innocent (have to?) senselessly die? Becoming just another dead homeless, misc statistic in the morgue?

Project Roomkey - 3 month's & over \$23,1840 . . . to where what? Be shown a cot in some homeless shelter? Huh, I'm NOT gonna play this game with you, misc else no matter (as I no care) what your SELF chosen mentality & deemed standing decision, misc status is, I use to have a nice, decent Section 8 home life until (mid 2000's) I was awakened unto exhibitedly what I had signed up for & just who I was doing business with < & not just the slumlord but as well as with the past - to date history of these housing authorities, corrupt code enforcement agencies (siding with slumlord's re: violation's), this & that else, NOT what I signed up for.

And 9 year's later, still homeless, when I shouldn't have ever been, I mean HUH, I look at this Project Roomkey hotel room & think, well hell, majority of my few thing's in self storage would fit nicely in here.

But, I know where I wanna be & live BUT then we already know the real estate industry itself (ETC else) are \$ corrupt & there is / are no justice's truly willing to make thing's right.

Past - to date, USA - global various & vast media source's, whether in print, TV, radio, all seem to have acknowledged of us homeless > 'left for dead', given a death

	<p>1. Police reform and restructuring: 27, 40-H, 40-G, and 2. Budget Policing and public services: ? 27, Sup. Hahn/Ridley-Thomas, Responsible Policing and Use of Force Reform: "Favor" but with very serious doubts! ? 40-H, Supp. p.7, Sup. Hahn: Alternatives to Law Enforcement for Crisis Response: "Favor," but this is just one of many reassignable functions ? 40-G, Supp. pp.6-7, Sups. Hahn/Solis: Reassessing Assembly Bill 109 Community Corrections Funding "Favor" (1) Item 27's reforms are good BUT what has impaired implementation of such reforms in the past? High stress on police and community from inequality, "mistraining," lack of appropriate preventive and interventive services, background of disinvestment in communities, police being "spoiled" by untransparency, near immunity, equipped for war, a punitive rather than safety-based sentencing system, with extreme overuse of custody; bail system causing tension in people concerned about police decisions costing them jobs and long pre-trial time. There's lots more. You Supervisors have given us a start on some of those changes in ATI, ODR, and PRIT, and now more coming in YJ WG. More good responses are in this week's 40-G and 40-H, and in the JusticeLA budget proposal. Where to start: Collect what is known from data about the community's daily needs, and the community's crisis needs (40-H). Then consider how those are best served, Then talk about money and personnel. (My hunch is that many in law enforcement will be eager for training and service in a more productive system of community well- being).</p> <p>Budget issues: When will the public see the proposed budget? Is it still the Board's intention to act on that June 29? The Preliminary (May) budget was not publically posted until the day you acted on it! Some parts of this final budget were presented to cluster meetings last week, but not posted. Public comment without a chance for public review of an item that underlies so much that is at issue this year! Four of you have been in legislatures which have budget committees, even several of those, dealing openly and with public comment through the budget development process. You can create that here.</p>
Joseph S Rosenthal	<p>We tried getting a Covid-19 test for my wife who has symptoms, was asked by her doctor to be tested, and also has had Asthma all her life, and she is 81 years old. Filling our information on-line resulted in no time for an appointment. She finally called 211 to get an appointment. She had to re-answer all of the questions we filled out on-line again. Then she was told that the only appointment was in Redondo Beach, El Segundo, or LA. Since we live in Bellflower which has a testing site, this is ridiculous. Why is it so hard to be tested? The web site is terrible. I feel sorry for all the people trying to get tested who have to go through this tortuous route to get a test that might save their life or those who they come in contact with.</p>
Joy Johnson	<p>Hotels should not be reopened yet. Workers' voices like mine must be heard and prioritized in this process. I want to feel safe when I go back to work. My hotel only</p>

	has one service elevator and we normally have 15-20 room attendants inside. There are so many daily tasks like this that must be reconsidered and done safely with the new reality of COVID. How do I know that a room I enter is safe? Each room should be inspected and certified as healthy for me to work in. The County must do whatever it takes to make everyone take this as seriously as it should be.
Judy Woo	Our community's leadership has undermined the trust and confidence of our residents and survivors of domestic violence when they public posted the home addresses of victims on the Internet. Our community can no longer effectively work with Kern County, other counties, or other cities across the State of California while our mayor, city manager, city attorney, and city council are under investigation for serious crimes trying to cover up these violations. They have violated our code of ethics, our values, and our laws. Where's the accountability? I am signing the petition calling for the resignation of Karen Goh, Christian Clegg, and Virginia Gennaro. They cannot effectively represent our community and work with leaders across the state. Please help us end this long nightmare for our community so our city can work with other cities and counties for positive change across the state. Thank you.
Kathleen Haywood	Need to have the property taxes re-assessed.
Keely Crum	The criminal nature of the Sheriffs Department has gone unchecked for too long. Villanueva is a ghoul. Deputies are trained to hunt citizens, and the only protecting they are doing is of themselves against taxpayers. When Robert Fuller was found dead, Sheriffs tried to close the case instantly, only pulling video footage after 5 days at the urging of the public, which is too late. However when some paranoid LAPD stooge found a "tampon" in his Starbucks, (no, it wasn't a tampon, and no one was out to get him,) the Sheriffs Dept was the first one in the door to grab camera footage. Ridiculous, but this barely scratches the surface of how upside-down we have allowed law enforcement to become. Now it the time to take control and start over-- LASD as it is now cannot stand. We would all be better served to defund. Please be bold leaders and make this happen. Thank you.
Kristen Studard	I encourage you to listen to our neighbors begging for the cease of hotel re-opening due to employee health concerns. No one should have to risk their life to work at a hotel.
Lesli Kraut	The County and the City need to commit to their own respective shares of the 15,000 goal. The city has already committed to this endeavor. We need The County of Los Angeles to contribute at least \$350 million in new funding towards the 15,000 person goal for the first year of the plan, using federal CARES Act funding.
Lilia Sotelo	I work at the Sheraton Gateway LAX as a Housekeeper for 17 years. The hotels should not be reopening and our voices should be heard during this process. I fear for my health as I have a medical condition that puts me at risk of getting really sick, there are also many of my co-workers that are high risk.
Liliana Hernandez	He trabajado en el hotel Fairmont por 8 años los hoteles no deben reabrir aún por q la pandemia no ha terminado y los hoteles están preocupados por sus ingresos pero no por los empleados. Queremos q escuchen las voces de los trabajadores en este proceso . Gracias
Margarita Rubio	I am a housekeeper at the Beverly Wilshire. I am very scared to return to work. I don't think our hotel will be prepared to reopen anytime soon. I am afraid that our health and safety will not be prioritized. Our voices need to be heard.

Maria Mora	Tengo tres anos trabajando como recamenera en el Hotel Indigo. Los hoteles no deban estar abiertos porque necesitan tomar los trabajadores mas en cuenta. En mi hotel las recameneras no tienen tiempo suficiente a limpiar cado cuarto. Hay medicos que estan quedando en mi hotel y no siento que la compania esta protegiendo a nosotros.
Marian D Tell-Coffield	LACOE has local control of Inglewood Unified. Why was a school (Warren Lane Elementary) allowed to be closed suddenly, without prior knowledge of the community? Why was this allowed without following any of the CDE guidelines for school closures? They are not even providing transportation to other school sites. This creates a hardship for many people in the community. There have been community meetings held by people in the community and many constituents are concerned. We simply want to be treated fairly and with respect.
Marie G Adabache	
Maritza Morales	I am a housekeeper at the Beverly Wilshire for over 20 years. I believe hotels should not be reopened yet and our voices need to be heard in this process. Hotel companies are not guaranteeing healthcare coverage for us. I am concerned since I am my 80 year old mother's caretaker. I am afraid that companies will try to overwork us and skip over safety standards. We are already seeing this happen at other hotels that remained open. Please delay the reopening.
Mark Alcalá	Good morning LA county supervisors, I am disappointed that I'm public comments weren't included in today's agenda. I'm writing to express this because I am a hotel worker in the industry since 1988 to present, just to give an insight, it's located in the San Fernando valley, and the Sportsmens Lodge hotel is a local franchise. I am a father of two girls, and when all this began, the authorities ordered that we all stay home. I view that order as a positive one as it provides safety. But as everyone knows, the county is reopening once again and that includes the hotel industry. To me as to thousands of workers, I don't feel it's the right moment to reopen because cases are rapidly rising once again. I am worried that if I return to work, I will contract Covid and spread it to my loved ones. As my county supervisors, I believe you can play a big role in postponing the hotel industry to reopen, in particular in roles where we have to interact with each other. I've seen a couple examples of where some hotels already opened and management hasn't enforced cdc guidelines. I would like my voice to be heard as well as that of many other Angelenos. Thank you, Mark Alcalá
Mark Alcalá	I am concerned about the reopening of the hotels. It is still to soon for many of the most vulnerable. Many people have elderly in their household and it's not a right idea. Thank you.
Maya Ewart	I strongly urge you to combat systemic racism by defunding the LAPD. Reinvest instead in rent cancellation, public housing, education, and public health, specifically COVID-19 relief efforts. The Black community is disproportionately affected by COVID-19. Divest from the police, who actively discriminate against, profile, harass, and murder Black people and instead support community-building initiatives that

	support the Black community.
Michael Chang	<p>Defund LAPD and end the partnership between LAUSD and LAPD. Cops do not need military grade weapons nor are they needed to keep schools secure. Instead, we should be increasing teachers' pay, providing more resources to students, helping parents who work, feeding school kids healthy meals every day, and more. It has only become more clear after the abuses by cops during the recent protests that police departments aren't necessary to keeping cities safe. In fact, they are the main source of terror and danger for many people trying to live peacefully in LA county.</p> <p>It's ridiculous that LAPD takes up over half of the city's annual budget, and even with the recent cuts, which are minuscule, there is much more that can be done and many other departments that desperately need funding and support from the city. I'm really disappointed in how little mayor Garcetti and the city council has done these past four years to address the housing crisis and homelessness, public education, infrastructure, public transportation, public health, and police brutality. This is your last chance to rectify the willful negligence.</p>
Mike Gardner	<p>Please consider opening skateparks and taking them off the list of recreational activities that are closed. They are different than playground equipment and organized sports that happen at parks in that skateboarders don't touch anything to do their activity. There is no shared item like a ball and they don't climb on ladders and slides that everyone touches. In fact, skateboarders go out of their way to keep distance from one another. When kids skate in a "bowl", they don't do it together, it's a one at a time activity. Same with street features. Skateboards have to have some distance between them in order to do a run or a trick. Please think of skateboarding more like riding a bike. You are on something with wheels that is self propelled. Here in Malibu, after a ten year wait, we just opened our skatepark and are waiting for the go ahead from the board of supervisors to open. All our summer programs have been cancelled and we need a place for our kids to expend energy. Please make an exception for skateboard parks.</p>
Monisha Parker	<p>First, why can the Board of Supervisors adopt a new technology that gives you COVID-19 Data Hub, COVID-19 Leading through change with Date, Global daily tracker , Economy data track, Global Economy Data Track, Government Data Track, Healthcare Data Track, B-Well Together, Leading Through Change, Salesforce Care, Trailhead Resources, AppExchange Resources, and MuleSoft Resources. The name of the website is Tableau. The New York State uses this website to collect the data with this COVID-19 crisis. I wish that the Board of Supervisors can adopt Juneteenth to make it a holiday day. The people across the county want to see facts and data during the briefing on a PowerPoint slide because the people across the county are sick and tired hearing Dr. Barbara Ferrer reading the daily report. The people across the global watch Gov. Andrew M. Cuomo in New York State every single day during the briefing because he gives us facts and data every single day because the number is decreasing in New York State. The people feel like that Dr. Barbara Ferrer needs to step up her game or resign as Director of the Department of Public Health. The people want to see the number decreasing just like New York State. Dr. Barbara Ferrer fail the people across the county in her job performance. I don't understand why the Board of Supervisors are trying to keep Dr. Barbara Ferrer as Director of Department of Public Health. Thank You for your time.</p>

I live with a family member in the high risk group and do not want to expose them to covid-19. I implore you to not re-open the county and hospitality industry until we are ready and safety is a priority.
Noni Frank	<p>Ritz Carlton, Los Angeles Front Desk, 5 year length of service</p> <p>The hotels should not be reopened and all hotels should shut down until further notice on the basis that statewide a huge spike in COVID19 cases happened. The total death cases as a result of COVID19 have increased significantly in the State of California.</p> <p>The hotel industry involves a lot of face to face contact regarding food and beverage, front desk, laundry, housekeeping etc.</p> <p>These points of contact are putting several employees at an extreme health risk. Ritz-Carlton, Los Angeles has refused to shut down amidst the California Governor's order to lock down and stay inside orders, which was unlawful.</p> <p>Hotel employees were forced to continue to work, as no sanitation or preventative measures to protect workers from vulnerability to COVID19. The workplace and hotel rooms were not sanitized and business went on as usual.</p> <p>Guests and transients are walking throughout the hotel refusing to wear masks, coughing and sneezing in the hotel lobby without covering their mouths, touching credit cards and money is a surface-based way to quickly transfer the virus to employees. No N-95 masks are provided to employees, yet the COVID19 response team are staying on property. Hotel employees are not provided protective gear while in direct contact with health workers who work in close proximity to COVID19 patients. Hospital workers are notified when there are COVID19 positive patients within the hospitals. Healthcare workers are given the option to move to hospital where no cases are affected, yet hotel workers are completely exposed, put in harms way and not given any options to protect themselves or families at home.</p> <p>As a result, a coworker has tested positive for COVID19 while working on property.</p> <p>The company only sent out an email to notify us, downplayed the severity and told us to continue to work as usual. Employees who worked closely with the employee who tested positive were not given the opportunity to self-quarantine and take proper preventative health measures to protect themselves. 	<p>be vulnerable to this terrible health crisis.</p> <p>The entire hotel needs to be fully sanitized and quarantined before continuing any business.</p> <p>This is a global health crisis and the hotel industry has not shown any preventative or safety measures according to the CDC health regulations, California OSHA regulations: Title 8 California Code of Regulations (CCR) §5199, which protects employees in health care and other higher risk environments. This standard also has a subsection that addresses biological hazards in laboratories.</p> <ul style="list-style-type: none"> • Aerosol Transmissible Diseases – Zoonotic2 (Zoonotic ATD Standard), 8 CCR §5199.1, which protects employees from diseases spread to humans by animals, and in violation of several State of California Public Health and Safety Codes.
<p style="text-align: center;">Pamela Inaba</p>	<p>LA County Board of Supervisors Meeting June 23, 2020, General Public Comment on the LA County Department of Mental Health 3-Year 2020-2023 Plan</p> <p>Hello, Supervisors. My Name is Pamela Inaba. I live in LA County, in Supervisor Mark Ridley Thomas' District. I am Chair Emeritus and Resiliency Chair of the LA County Client Coalition, Inc. and an LA County ACCESS Ambassador for State of California CalVoices Organization. I have been a Mental Health Client/Consumer for 33 years. I live in SALT 5. I have Physical and Mental Health Challenges. I am a member of the Underserved Cultural Committee of Physical and Mental Health Disabilities.</p> <p>The MHSA 3-Year Plan 2020 – 2023 is not Americans with Disabilities Act, or ADA, Compliant for the following reasons:</p> <p>#1. Parts on many pages are difficult to read because the typos written in longhand were badly misspelled. I have a Bachelors Degree and went to Graduate School and I had problems reading names and terms that were misspelled.</p> <p>#2. Terms were hard to understand because they were not written in language easy enough for lay-people who had little knowledge of Department of Mental Health (DMH) programs and policies.</p> <p>#3. This document is 271 pages long! Many of us had less than 2 weeks to read the entire Plan and that is not enough time to finish reading the more-than-50 programs. We need more time to comprehend the terms and absorb the plans.</p> <p>This document needs to be simplified, typos corrected and converted to layman's terms. We appreciate DMH's effort and know people worked hard on this plan, but we have a long way to go before we feel the document is in its best format. We, as stakeholders, need desperately to feel included in this endeavor. We know it can be better and I know we can all do better than this. 	<p>the Healthy LA Coalition, we are writing to urge your support for the Healthy LA platform that helps protect tenants and prevent displacement, especially in light of the anticipated wave of evictions that may happen when this crisis ends. As providers of affordable housing and advocates for equitable development, working alongside the communities of South Central LA, we have seen how low-income communities and Black, Indigenous, and people of color communities have borne the brunt of this pandemic's economic fallout. Most significantly, we have seen the huge loss of jobs that have put people on the brink of becoming homeless, struggling to find money & being forced into false choices of either using it to stay in their home or putting food on the table or accessing medical care or any other number of basic needs.</p> <p>Knowing what we are seeing, we are worried that this health crisis will become a long-term eviction and economic crisis. Therefore, we urge you to defend every Angeleno's right to a healthy, safe home. Extend the eviction moratorium through the emergency period and for 3 months after the emergency. As we have already mentioned, there is going to be a wave of evictions once the protections are lifted. In order to truly protect people, we need to fully fund affordable housing production and preservation and develop a strong eviction defense program including legal counsel, as well as foreclosure prevention programs.</p> <p>The people most affected by COVID-19 should not have to be worried about keeping their housing as we try to get back on our feet as the economy opens back up. Every person has a right to live a healthy and safe life, with adequate food and access to healthy, affordable housing. That is why we are writing to you today. This fear and worry does not need to be the lived reality. You have the power to make a difference to ensure it is not so.</p> <p>Thank you for your leadership on these issues. Rabeya</p> <p>Rabeya Sen Director of Policy Esperanza Community Housing Corporation</p>
RAUL ROSALES	Now I am working 4 days a week at the westin Bonaventure Hotel as Houseman of Housekeeping for about 40 year. The condition of the hotel is terrible no body cling or disinfecting the ares, the trash is left on the floors for days or weeks and the during linen is in the same situation. The linen is not washing because the laundry is closing 4 days a week. Please dont let them open hotel until they bring enoung workers to clean and disinfect the hostel
Reyna Gutierrez	Tengo tres anos trabajando como recamerera en el Hotel Indigo. Los hoteles no deban estar abiertos porque necesitan tomar los trabajadores mas en cuenta. En mi hotel las recamereras no tienen tiempo suficiente a limpiar cado cuarto. Hay medicos que estan quedando en mi hotel y no siento que la compania esta protegiendo a nosotros.
Roxanna Garrido	I am a housekeeper at the Hotel 1 in West Hollywood. I am very concerned over the re-openings especially since we are still in the middle of Covid-19. I am asking you to

	consistent and continued funding for our programs at their prior levels, DV victims will face the devastating choice of either staying with their batterers or risking their (and their children's health) through increased exposure in their search for a safe place to be.
Vanessa Olivas	Police should be removed from school and instead allocate those for counselors.
Vicky Beza	My name is Vicky Beza I'm a proud member of unite here local 11 I've worked at the Westin Bonaventure for 7 years and I don't think hotels should reopen, my coworkers have said how unsafe it is and I'm scared to put my high risk family members in danger
Victor Rodriguez	I work for June Hotel as an Engineer for 12 years. The hotel should not reopen as they are not equipped properly for the safety of it's workers, and our concerns should be heard in this process. I have Diabetes and am at risk to get sick. I can't risk my life and the lives of my family.
Victoria Santos	I work at Westin LAX as a Housekeeper for 15 years. Hotels should not be reopened yet and we demand that our voices be heard. I am a cancer survivor and I have diabetes, my defenses are low and I fear for my health.
Vivian Burgos	I am a housekeeper of over 20 years of the Hyatt Andaz in West Hollywood. Our hotel is about to re-open this week and I have a lot of concerns for the safety of my co-workers and myself. We want to work, but also be safe and have transparency in possible Covid-19 cases. I ask you today to take the safety of the workers into consideration when deciding to re-open the county.
Xiomara Quintero	I am a housekeeper at the 1 Hotel in West Hollywood. We implore you to put a pause on the re-opening of the county. The safety of workers, our families and the guests should be a priority and it currently is not. We need to be a part of the discussions and planning of new safely implementation. Thank you.
Yesenia Reyes	I work at Hyatt Regency LAX as a Room Attendant for 5 years. The hotel should not reopen, they are not well equipped in PPE for us to work in safe conditions, we demand that our voices be heard in the process. I fear for the well being of my three young children. My 16 year old daughter has Diabetes Type 1 and I am scared to get her sick.
Yvonne Eisner	June 22, 2020 To: Los Angeles County Board of Supervisors: I am submitting this document in response to the continued mandating of mask wearing and an act known as "social distancing" Background information 1. The Governor of California could not have known that there was a virulent outbreak caused by a single pathogen (reportedly SARS CoV-2) when declaring the State of Emergency; 2. No scientific evidence has been offered justifying the declaration – mere reporting of mortality and morbidity based on pneumonia symptoms does not make a pandemic. 3. The Governor failed to provide adequate testing to confirm or deny the presence or absence of "a novel corona virus" and, based on recent reports from incarcerated persons, it would appear that positive tests COULD NOT have been based on community transmission as 96% of confined persons have tested positive according to Reuters.

quantified the contamination levels of masks. Self-contamination through repeated use and improper doffing is possible. For example, a contaminated cloth mask may transfer pathogen from the mask to the bare hands of the wearer. We also showed that filtration was extremely poor (almost 0%) for the cloth masks. Observations during SARS suggested double-masking and other practices increased the risk of infection because of moisture, liquid diffusion and pathogen retention. These effects may be associated with cloth masks."

"This study is the first RCT of cloth masks, and the results caution against the use of cloth masks. This is an important finding to inform occupational health and safety. Moisture retention, reuse of cloth masks and poor filtration may result in increased risk of infection. Further research is needed to inform the widespread use of cloth masks globally. However, as a precautionary measure, cloth masks should not be recommended for HCWs, particularly in high-risk situations, and guidelines need to be updated."

3. If asymptomatic transmission is showing low/weak, masks aren't very necessary.

"Conclusion: In summary, all the 455 contacts were excluded from SARS-CoV-2 infection and we conclude that the infectivity of some asymptomatic SARS-CoV-2 carriers might be weak."

4. Wearing a mask outside health care facilities offers little, if any, protection from infection.

From the New England Journal of Medicine on May 21, 2020: " Public health authorities define a significant exposure to Covid-19 as face-to-face contact within 6 feet with a patient with symptomatic Covid-19 that is sustained for at least a few minutes (and some say more than 10 minutes or even 30 minutes). The chance of catching Covid-19 from a passing interaction in a public space is therefore minimal. In many cases, the desire for widespread masking is a reflexive reaction to anxiety over the pandemic."

			<p>Article One, Section 9, clause 2, which states that "The privilege of the writ of habeas corpus (a recourse in law challenging the reasons or conditions of a person's confinement) shall not be suspended, unless when in cases of rebellion or invasion the public safety may require it." On March 4, 2020, California Governor Gavin Newsome appears to have violated the law of the State of California by issuing Executive Order N-33-20 based on the "threat of COVID-19" with no evidence that such threat existed as confirmed by serology or confirmed immunologic evidence. The Government Code sections cited in the Order (Government Code sections 8567, 8627, and 8665) require that criteria be met which do not include the "threat" of any condition but evidence of said condition. At that time, neither the CDC nor the WHO had sufficient testing in place to:</p> <p>a) confirm and isolate "a novel corona virus" from other corona viruses; b) California did not have pathology data to suggest that an epidemic was imminent; and, c) the rest of the United States was equally incapable of making any such assessment as a result of the aforementioned conspiring parties actions. Governor Newsome's Executive Order, followed by numerous other similar orders, are all based on the threat of a thing that may or may not exist. THERE IS NO CLINICAL DATA SHOWING THAT THE RESTRAINT OF HEALTHY INDIVIDU</p>
		Zuleyka L Silver	<p>Board of Supervisors! Sheriff Villanueva has been fighting for the body-worn cameras since 2018 when he entered office, and yet you have not supported his efforts. The animosity between Villanueva and Mr. Mark Ridley-Thomas is elementary. Get the officers body-worn cameras NOW! Our tax paying dollars are demanding that body cameras are implemented effective immediately. We do not need another useless 6-month study. WE SEE YOU, Board OF Supervisors. If we are to hold peace officers accountable and if you want to rebuild trust in the community, it starts with body-worn cameras on all patrol and field officers! We ARE WATCHING YOU! What is taking so long?</p>
