Agenda #	Relate To	Position	Name	Comments
Public Comment		Favor	Aaron Smart	Please end this dining restriction. Cases are not being spread at restaurants
			Abigail Arnold-Ochs	I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. The housing and treatment provided by ODR have been crucial in reducing the spread of COVID-19 among the county's most vulnerable populations. Individuals who are experiencing mental health and substance use disorder-related issues need to have access to ongoing treatment in order to maintain safety. Someone who is experiencing acute symptoms in the community is less likely to have the stability needed to be able to follow COVID-19 related protocols. They are less likely to recognize the need for or remember to wear a mask, wash their hands, or isolate to the degree that is needed for their safety as well as the safety of those around them. This is why funding ODR is essential to the county's COVID-19 response. The pandemic is only continuing to intensify and services must intensify to meet it. ODR has a proven track record of supporting the safety and health of justice-impacted individuals with mental health and substance use treatment needs. The success of their programs indicates the need for expansion and as COVID-19 continues to impact LA County at alarming rates, the expansion of services must follow in order to ensure safety for everyone.
			Abigail Mack	While we consider the lives of our community members across LA County, let's not forget our brothers, sisters, and loved ones who are incarcerated, thousands of whom are eligible for diversion and are currently at heightened risk of COVID infection due to incarceration.  I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. The housing and treatment provided by ODR have been crucial in reducing the spread of COVID-19 among the county's most vulnerable populations. Individuals who are experiencing mental health and substance use disorder-related issues need to have access to ongoing treatment in order to maintain safety. Someone who is experiencing acute symptoms in the community is less likely to have the stability needed to be able to follow COVID-19 related protocols. They are less likely to recognize the need for or remember to wear a mask, wash their hands, or isolate to the degree that is needed for their safety as well as the safety of those around them. 			Adriana Tchalian	I don't agree with this LA County ban on outdoor dining. Many restaurants have spent a great deal of money trying to comply with state and county standards. I don't care if you're Left, Right or Center, at this point in the game, these selective rules are doing more collective harm than good. If you're uncomfortable w/ COVID (despite the 99.4-8% survival rate), you're free to isolate/social distance all you want. But don't destroy businesses that have been a part of our community for generations! It's almost as if they WANT to destroy the economy to usher in more/bigger government in our lives. Meanwhile, Gavin Newsom is caught dining at the exclusive French Laundry with 12 others. Thanksgiving for me but not for thee?
			Adrienne M Park	I oppose the prohibition of both outdoor and indoor dining. Open all restaurants immediately.

Agenda #	Relate To	Position	Name	Comments
Public Comment		Favor	Ali Garcia	<p>I support items 26 and 36 because workers who speak out about their employer's noncompliance with health protocols need protections. We've already begun to see a significant spike in COVID19 cases in recent weeks. We've already lost over 6,000 Angelenas working essential jobs. Black, indigenous, and people of color make up around three-fourths of the residents living in Los Angeles County and account for 87% of confirmed COVID cases and 77% of confirmed COVID deaths. It is therefore imperative that our workplaces comply with County Health Officer orders.</p> <p>Given that they are on the front-lines, workers have the specific knowledge of their workplace and job expertise to protect themselves and others. By encouraging workers to report public health violations without fear of retaliation, this ordinance promotes public health and increases the effectiveness of public health requirements. We urge you to pass the anti-retaliation ordinance to empower workers and save lives.</p>

			Alyson Gherardi	We have seen the damage & we know by now what we need to do (wear a mask, wash our hands, physical distance)we are adults and should be "allowed" to make our own decisions about our own health. Our Covid hospital numbers are low, so is our death rate since March and our cases don't mean anything as we will continue to test. (The first lockdown didn't help, why would this one?)  NEVER in history has there been a time when you quarantine the healthy (that would be considered tyranny). For over the past 6 months we have followed the "rules" & so many of us feel that the unhealthy should be quarantined so that the healthy can go and help stimulate our economy and live our lives (we are capable), otherwise we won't have one to come back to.

This is why funding ODR is essential to the county's COVID-19 response. The pandemic is only continuing to intensify and services must intensify to meet it. ODR has a proven track record of supporting the safety and health of justice-impacted individuals with mental health and substance use treatment needs. The success of their programs indicates the need for expansion and as COVID-19 continues to impact LA County at alarming rates, the expansion of services must follow in order to ensure safety for everyone.
			Andrew Gerson	I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. The housing and treatment provided by ODR have been crucial in reducing the spread of COVID-19 among the county's most vulnerable populations. Individuals who are experiencing mental health and substance use disorder-related issues need to have access to ongoing treatment in order to maintain safety. Someone who is experiencing acute symptoms in the community is less likely to have the stability needed to be able to follow COVID-19 related protocols. They are less likely to recognize the need for or remember to wear a mask, wash their hands, or isolate to the degree that is needed for their safety as well as the safety of those around them. This is why funding ODR is essential to the county's COVID-19 response. The pandemic is only continuing to intensify and services must intensify to meet it. ODR has a proven track record of supporting the safety and health of justice-impacted individuals with mental health and substance use treatment needs. The success of their programs indicates the need for expansion and as COVID-19 continues to impact LA County at alarming rates, the expansion of services must follow in order to ensure safety for everyone.

Agenda #	Relate To	Position	Name	Comments
Public Comment		Favor	Andy Garcia	<p>My name is Andy and I am a member of KIWA. This is a comment for items 26 and 36.</p> <p>I support items 26 and 36 because workers who speak out about their employer's noncompliance with health protocols need protections. We've already begun to see a significant spike in COVID19 cases in recent weeks. We've already lost over 6,000 Angelenas working essential jobs. Black, indigenous, and people of color make up around three-fourths of the residents living in Los Angeles County and account for 87% of confirmed COVID cases and 77% of confirmed COVID deaths. It is therefore imperative that our workplaces comply with County Health Officer orders.</p> <p>Given that they are on the front-lines, workers have the specific knowledge of their workplace and job expertise to protect themselves and others. By encouraging workers to report public health violations without fear of retaliation, this ordinance promotes public health and increases the effectiveness of public health requirements. We urge you to pass the anti-retaliation ordinance to empower workers and save lives.</p>
			Angela Huang	<p>I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. The housing and treatment provided by ODR have been crucial in reducing the spread of COVID-19 among the county's most vulnerable populations. 			Becca von Behren	I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. The housing and treatment provided by ODR have been crucial in reducing the spread of COVID-19 among the county's most vulnerable populations. Individuals who are experiencing mental health and substance use disorder-related issues need to have access to ongoing treatment in order to maintain safety. Someone who is experiencing acute symptoms in the community is less likely to have the stability needed to be able to follow COVID-19 related protocols. They are less likely to recognize the need for or remember to wear a mask, wash their hands, or isolate to the degree that is needed for their safety as well as the safety of those around them. This is why funding ODR is essential to the county's COVID-19 response. The pandemic is only continuing to intensify and services must intensify to meet it. ODR has a proven track record of supporting the safety and health of justice-impacted individuals with mental health and substance use treatment needs. The success of their programs indicates the need for expansion and as COVID-19 continues to impact LA County at alarming rates, the expansion of services must follow in order to ensure safety for everyone.

Public Comment		Favor	Bianca P Gallegos	A flyer is circulating for a Town Hall with Supervisor Barger scheduled for December 3rd, 2020 at 3:30PM. The flyer was not translated into Spanish. I would appreciate it if the Latin population is taken into account next time. My colleague, Wendy Cabil and Nekeya Fields is tired of seeing black people getting lynched. I'm am tired of the sloppy job local level politicians are doing about abolishing child sex trafficking. Even pedophiles are tired of being pedophiles. The victims don't have shame and want to put an end to this cycle. Make fixing child sex-trafficking a transparent process. Looking forward to December 3rd, 2020. Don't be sloppy. Provide translation every step of the way. Thank you for reading.

Public Comment		Favor	Bruce Matsen	The closure of restaurants once again is uncalled for. Where is the scientific evidence that relates the spread of COVID-19 to out door dining? It seems that you and Barbara Ferrer arbitrarily decided these issues with no evidence. All of us have been more than patient in dealing with this for the last nine months. I think you should all come up with a plan that works and stop reacting to what the public health officer dictates. She needs to resign and let some who knows how to deal with this take the reins. Enough is enough. You are ruining thousands of small businesses.You need to fix this.
			Bryne R Rasmussen	I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. Agenda #	Relate To	Position	Name	Comments
Public Comment		Favor	Celia Johnson	I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. The housing and treatment provided by ODR have been crucial in reducing the spread of COVID-19 among the county's most vulnerable populations. Individuals who are experiencing mental health and substance use disorder-related issues need to have access to ongoing treatment in order to maintain safety. Someone who is experiencing acute symptoms in the community is less likely to have the stability needed to be able to follow COVID-19 related protocols. They are less likely to recognize the need for or remember to wear a mask, wash their hands, or isolate to the degree that is needed for their safety as well as the safety of those around them. This is why funding ODR is essential to the county's COVID-19 response. The pandemic is only continuing to intensify and services must intensify to meet it. ODR has a proven track record of supporting the safety and health of justice-impacted individuals with mental health and substance use treatment needs. The success of their programs indicates the need for expansion and as COVID-19 continues to impact LA County at alarming rates, the expansion of services must follow in order to ensure safety for everyone.
			Celina Elizarraz	
			Charlene Nemo	Closing restaurants. My cousins and his friends were constantly getting parties and get together. So were his friends in large gatherings. It's better when the restaraunt was one.
			Charles Jensen	I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. The housing and treatment provided by ODR have been crucial in reducing the spread of COVID-19 among the county's most vulnerable populations. Individuals who are experiencing mental health and substance use disorder-related issues need to have access to ongoing treatment in order to maintain safety. Public Comment		Favor	Charles Southey	You seem like reasonable people but how can you support the outdoor restaurant ban? It is madness. Please cite one, just one piece of evidence that shows Covid has been caught at an outdoor dining facility. All this will do is push holiday dinners into homes where transmission will increase. You will also put 1000s if wait staff on the street and kill 50% of the restaurants that have made it this far. You want to increase the homeless population the. Keep hurting small business. LACounty health department reports to you. They have lost the plot! Get them back on task. Evidence shows that outdoor dining is safe and children should be in schools. Get it together or your going to get voted out. Recall Newsom!
			Charles G Carey	I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. Public Comment		Favor	Christina Hang	<p>In order to fully implement the groundbreaking recommendations developed by system-involved young people, and truly address racial inequality, the county must conduct transparent data collection that includes youth. Thank you Supervisors Kuehl and Ridley-Thomas for recognizing the urgency of this gap. By including Juvenile Data in the Criminal Justice Data Sharing Initiative, the County is recognizing that racial equity efforts must include our young people.</p> <p>I believe transparency and accountability are essential to youth justice reform because realizing other alternatives to incarceration will require knowing the extent in which our youth are affected by it now. Not knowing has allowed for our local government and the community at large to simply assume that this is a system that works and one that we must uphold. Why not have the data to either back that up, or show us how much it is not working?</p> <p>LA County has the largest population of young people in the country, and the largest youth probation department. The disproportionate impact of the criminal justice system on Black, brown, and low income communities extends to our youth. I urge the Board to continue their commitment to the Care First vision by expanding on their courageous decision to make information about the County's use of incarceration regularly accessible. Addressing the root causes of harm in our communities by centering young people and community-based services will create a safer, stronger Los Angeles for all of us.</p>
			Christina Marquis	<p>I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. Agenda #	Relate To	Position	Name	Comments
Public Comment		Favor	Christopher Boyer	Please reopen schools and universities. The cdc says that the health risk for kids under 25 is statistically less than prior childhood diseases like measles and chicken pox. There are better and more creative ways to mitigate risk for those that are at risk, older persons at schools including teachers and administrators, without closing schools. The data is strongly supportive of schools being open. Kids need to be back in school.

The success of their programs indicates the need for expansion and as COVID-19 continues to impact LA County at alarming rates, the expansion of services must follow in order to ensure safety for everyone.
			Dana Lurie	I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. The housing and treatment provided by ODR have been crucial in reducing the spread of COVID-19 among the county's most vulnerable populations. Individuals who are experiencing mental health and substance use disorder-related issues need to have access to ongoing treatment in order to maintain safety. Someone who is experiencing acute symptoms in the community is less likely to have the stability needed to be able to follow COVID-19 related protocols. They are less likely to recognize the need for or remember to wear a mask, wash their hands, or isolate to the degree that is needed for their safety as well as the safety of those around them. This is why funding ODR is essential to the county's COVID-19 response. The pandemic is only continuing to intensify and services must intensify to meet it. ODR has a proven track record of supporting the safety and health of justice-impacted individuals with mental health and substance use treatment needs. The success of their programs indicates the need for expansion and as COVID-19 continues to impact LA County at alarming rates, the expansion of services must follow in order to ensure safety for everyone.
			Daniel Kramer	Keep outdoor dining open or provide evidence that it's contributing to the spread of coronavirus.

Agenda #	Relate To	Position	Name	Comments
Public Comment		Favor	DANIEL C GAINES	<p>With COVID-19 cases soaring, we desperately need the Board to take additional action in curbing the spread of the disease. We are on track to enter the worst period of the pandemic for the County, both in terms of case numbers and hospitalizations, and are about to enter the holiday season which, if previous holidays in the County this year are any guide, are sure to lead to an even greater increase. The governor's new limited stay at home order does not do nearly enough, so we need the Board to step in and temporarily close more businesses, increase COVID-19 protections in prisons and elsewhere, as well as do something more to prevent or limit the influx of cases that will likely arise from Thanksgiving, Black Friday, and more.</p> <p>For that same one, I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. The housing and treatment provided by ODR have been crucial in reducing the spread of COVID-19 among the county's most vulnerable populations. Individuals who are experiencing mental health and substance use disorder-related issues need to have access to ongoing treatment in order to maintain safety. Someone who is experiencing acute symptoms in the community is less likely to have the stability needed to be able to follow COVID-19 related protocols. Agenda #	Relate To	Position	Name	Comments
Public Comment		Favor	David Chavez	The county is moving quickly towards another Safer-at-Home order however poor and workingclass communities throughout the county are not being prioritized. Our county has a GDP of over \$700 Billion yet there has been inadequate financial support for those who have lost jobs, shutdown their small business, and those facing evictions. The county must implement a rent forgiveness program to shield individuals and families from being evicted. The county must use their power of eminent domain to commandeer property to be used for the public good by placing houseless residents into hotels and other vacant properties. Finally the county must start democratizing health services and create health councils at the local level led by residents who can start sharing vital health and service information at the neighborhood level. These are but a few ideas of the many that could save lives and protect residents. S
			David Hilton	Are youth sports allowed to remain open as long as they follow guidelines and are outdoors?
			David Mekertichyan	I support supervisor Solis' requester 30 million of cares act funding for ODR. The housing and treatment provided by ODR have been crucial in reducing the spread of Covid-19 among the county's most vulnerable populations.
			David A Greer II	Please keep our businesses open.
			Deborah DePuy	I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. The housing and treatment provided by ODR have been crucial in reducing the spread of COVID-19 among the county's most vulnerable populations. The housing and treatment provided by ODR have been crucial in reducing the spread of COVID-19 among the county's most vulnerable populations. Individuals who are experiencing mental health and substance use disorder-related issues need to have access to ongoing treatment in order to maintain safety. Someone who is experiencing acute symptoms in the community is less likely to have the stability needed to be able to follow COVID-19 related protocols. They are less likely to recognize the need for or remember to wear a mask, wash their hands, or isolate to the degree that is needed for their safety as well as the safety of those around them. This is why funding ODR is essential to the county's COVID-19 response. The pandemic is only continuing to intensify and services must intensify to meet it. ODR has a proven track record of supporting the safety and health of justice-impacted individuals with mental health and substance use treatment needs. The success of their programs indicates the need for expansion and as COVID-19 continues to impact LA County at alarming rates, the expansion of services must follow in order to ensure safety for everyone.

			Ernest Till	
			Esmeralda M Loza	<p>My name is Maria and I am a member of KIWA. This is a comment for items 26 and 36.</p> <p>I support items 26 and 36 because workers who speak out about their employer's noncompliance with health protocols need protections. We've already begun to see a significant spike in COVID19 cases in recent weeks. We've already lost over 6,000 Angelenas working essential jobs. Black, indigenous, and people of color make up around three-fourths of the residents living in Los Angeles County and account for 87% of confirmed COVID cases and 77% of confirmed COVID deaths. It is therefore imperative that our workplaces comply with County Health Officer orders.</p> <p>Given that they are on the front-lines, workers have the specific knowledge of their workplace and job expertise to protect themselves and others. By encouraging workers to report public health violations without fear of retaliation, this ordinance promotes public health and increases the effectiveness of public health requirements. We urge you to pass the anti-retaliation ordinance to empower workers and save lives.</p>

			Garry P Melonson	<p>My name is Garry Melonson and I'm with ACCE. I live in Los Angeles County.</p> <p>As we go into the holiday season, we are experiencing a terrifying surge in COVID-19 cases resulting in more closures across the state and more loss of jobs. We are worse off now than we were in the beginning of the pandemic.</p> <p>Earlier this month, the Los Angeles County Board of Supervisors approved Public Health Councils allowing workers to monitor public health orders in the workplace. While we are glad to see this new innovative approach, this program can only be successful if workers can speak up without the fear of retaliation. No one should have to choose between putting food on the table and their safety in the workplace.</p> <p>The LA County Board of Supervisors must prioritize public health by immediately passing the anti-retaliation ordinance.</p>

Agenda #	Relate To	Position	Name	Comments
Public Comment		Favor	Grace Ohara	I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. The housing and treatment provided by ODR have been crucial in reducing the spread of COVID-19 among the county's most vulnerable populations. Individuals who are experiencing mental health and substance use disorder-related issues need to have access to ongoing treatment in order to maintain safety. Someone who is experiencing acute symptoms in the community is less likely to have the stability needed to be able to follow COVID-19 related protocols. They are less likely to recognize the need for or remember to wear a mask, wash their hands, or isolate to the degree that is needed for their safety as well as the safety of those around them. This is why funding ODR is essential to the county's COVID-19 response. The pandemic is only continuing to intensify and services must intensify to meet it. ODR has a proven track record of supporting the safety and health of justice-impacted individuals with mental health and substance use treatment needs. The success of their programs indicates the need for expansion and as COVID-19 continues to impact LA County at alarming rates, the expansion of services must follow in order to ensure safety for everyone.
			Grace Rosanova	I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. The housing and treatment provided by ODR have been crucial in reducing the spread of COVID-19 among the county's most vulnerable populations. Individuals who are experiencing mental health and substance use disorder-related issues need to have access to ongoing treatment in order to maintain safety. 			Hillson Velly	Get the homeless off the streets. LA will and is unsafe for visitors and residents. Used to be a clean and beautiful place. Why should residents have to clean up after these folks. They go through the trash and then dump stuff everywhere. Halfway homes get paid to house people, and they roam through neighborhoods, stealing and committing crimes. Drugs and hookers are now getting worked in South LA
			Ilgin Korugan	I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. Agenda #	Relate To	Position	Name	Comments
Public Comment		Favor	James McCrary	<p>The recently implemented statewide policy is unduly punishing the restaurants for outdoor dining. All of the large retail stores such as Home Depot, Target, Best Buy, Walmart etc remain open. Why are these essential??? This is SO UNFAIR and devastating ruination to our small business owners in the community.</p> <p>How is Covid 19 only spread at outdoor eating venues but NOT at shopping centers? It is logical that the numbers of Covid cases have spiked b/c the testing has increased. Why does an entire locality need to be shut down completely, when most of the cases are NOT in our zip code???</p> <p>The policy is misguided, punitive and draconian. The mayors in the S Bay have enacted strict mask wearing policies and people are being fined every day for not wearing them.</p> <p>Please reverse this action immediately and allow these businesses to stay open, especially during the holiday season. These workers and business owners have no economic cushion, unlike our obtuse governor with his recent insensitive soiree at the "French Laundry".</p> <p>It seems that none of our elected officials seem to care at all about the economic devastation you have created in our county. These restaurants have spent thousands of dollars re-working their venues in order to make them outdoor dining "compliant" and now you once again change the rules and move the goal post. It is a no win situation for them....I'm sure Newsom's winery remains open with impunity!!!</p> <p>The double standard must end now.</p> <p>Please consider reversing this order and allow restaurants to continue offering OUTDOOR DINING options in the South Bay area of Los Angeles County.</p> <p>Rates by City County of LA Stats as of 11/24/2020 CITY / COMMUNITY (Rate**) City of Redondo Beach 803 ( 1169 ) City of Hermosa Beach 322 ( 1637 ) City of Manhattan Beach 488 ( 1356 )</p>

Individuals who are experiencing mental health and substance use disorder-related issues need to have access to ongoing treatment in order to maintain safety. Someone who is experiencing acute symptoms in the community is less likely to have the stability needed to be able to follow COVID-19 related protocols. They are less likely to recognize the need for or remember to wear a mask, wash their hands, or isolate to the degree that is needed for their safety as well as the safety of those around them. This is why funding ODR is essential to the county's COVID-19 response. The pandemic is only continuing to intensify and services must intensify to meet it. ODR has a proven track record of supporting the safety and health of justice-impacted individuals with mental health and substance use treatment needs. The success of their programs indicates the need for expansion and as COVID-19 continues to impact LA County at alarming rates, the expansion of services must follow in order to ensure safety for everyone.
			Jenn Murphy	I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. The housing and treatment provided by ODR have been crucial in reducing the spread of COVID-19 among the county's most vulnerable populations. Individuals who are experiencing mental health and substance use disorder-related issues need to have access to ongoing treatment in order to maintain safety. Someone who is experiencing acute symptoms in the community is less likely to have the stability needed to be able to follow COVID-19 related protocols. They are less likely to recognize the need for or remember to wear a mask, wash their hands, or isolate to the degree that is needed for their safety as well as the safety of those around them. 			Jesus Estrada	<p>My name is Jesus and I am a member of KIWA. This is a comment for items 26 and 36.</p> <p>I support items 26 and 36 because workers who speak out about their employer's noncompliance with health protocols need protections. We've already begun to see a significant spike in COVID19 cases in recent weeks. We've already lost over 6,000 Angelenas working essential jobs. Black, indigenous, and people of color make up around three-fourths of the residents living in Los Angeles County and account for 87% of confirmed COVID cases and 77% of confirmed COVID deaths. It is therefore imperative that our workplaces comply with County Health Officer orders.</p> <p>Given that they are on the front-lines, workers have the specific knowledge of their workplace and job expertise to protect themselves and others. By encouraging workers to report public health violations without fear of retaliation, this ordinance promotes public health and increases the effectiveness of public health requirements. We urge you to pass the anti-retaliation ordinance to empower workers and save lives.</p>

			JONATHAN THOMPSON	Good morning, My name is Jonathan Thompson, and I serve as Executive Director of the Good Seed. I wanted to take time this morning to thank you Supervisor Mark Ridley-Thomas for your courageous leadership over the past twelve years. In addition, I would like to thank your team members that served with you on the Board of Supervisors for supporting you as you served.  In addition, I specifically would like to thank you for your persistent and courageous leadership on expanding support to individuals experiencing homelessness, expansion of health care access to low-income communities in the County of Los Angeles, expanding social justice and equity, and leading the effort for the re-opening MLK Hospital, which has helped saved thousands of lives.  We look forward to seeing your leadership continue as you serve in the City of Los Angeles.
			Jonathan L Jacobson	Continue to allow outdoor dining at restaurants.

Individuals who are experiencing mental health and substance use disorder-related issues need to have access to ongoing treatment in order to maintain safety. Someone who is experiencing acute symptoms in the community is less likely to have the stability needed to be able to follow COVID-19 related protocols. They are less likely to recognize the need for or remember to wear a mask, wash their hands, or isolate to the degree that is needed for their safety as well as the safety of those around them. This is why funding ODR is essential to the county's COVID-19 response. The pandemic is only continuing to intensify and services must intensify to meet it. ODR has a proven track record of supporting the safety and health of justice-impacted individuals with mental health and substance use treatment needs. The success of their programs indicates the need for expansion and as COVID-19 continues to impact LA County at alarming rates, the expansion of services must follow in order to ensure safety for everyone.
			Jordan Stallings	I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. The housing and treatment provided by ODR have been crucial in reducing the spread of COVID-19 among the county's most vulnerable populations. Individuals who are experiencing mental health and substance use disorder-related issues need to have access to ongoing treatment in order to maintain safety. Someone who is experiencing acute symptoms in the community is less likely to have the stability needed to be able to follow COVID-19 related protocols. They are less likely to recognize the need for or remember to wear a mask, wash their hands, or isolate to the degree that is needed for their safety as well as the safety of those around them. 			Jorge S Seperak	<p>My name is jorge seperakand I'm with local 11. I live and work in Los Angeles County.</p> <p>As we go into the holiday season, we are experiencing a terrifying surge in COVID-19 cases resulting in more closures across the state and more loss of jobs. We are worse off now than we were in the beginning of the pandemic.</p> <p>Earlier this month, the Los Angeles County Board of Supervisors approved Public Health Councils allowing workers to monitor public health orders in the workplace. While we are glad to see this new innovative approach, this program can only be successful if workers can speak up without the fear of retaliation. No one should have to choose between putting food on the table and their safety in the workplace.</p> <p>The LA County Board of Supervisors must prioritize public health by immediately passing the anti-retaliation ordinance.</p>

Someone who is experiencing acute symptoms in the community is less likely to have the stability needed to be able to follow COVID-19 related protocols. They are less likely to recognize the need for or remember to wear a mask, wash their hands, or isolate to the degree that is needed for their safety as well as the safety of those around them. This is why funding ODR is essential to the county's COVID-19 response. The pandemic is only continuing to intensify and services must intensify to meet it. ODR has a proven track record of supporting the safety and health of justice-impacted individuals with mental health and substance use treatment needs. The success of their programs indicates the need for expansion and as COVID-19 continues to impact LA County at alarming rates, the expansion of services must follow in order to ensure safety for everyone.
			Kay Rose	I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. The housing and treatment provided by ODR have been crucial in reducing the spread of COVID-19 among the county's most vulnerable populations. Individuals who are experiencing mental health and substance use disorder-related issues need to have access to ongoing treatment in order to maintain safety. Someone who is experiencing acute symptoms in the community is less likely to have the stability needed to be able to follow COVID-19 related protocols. Agenda #	Relate To	Position	Name	Comments
Public Comment		Favor	Kenzo Sohoue	Good morning everyone my name is Kenzo Sohoue I'm a youth advocate representing the anti recidivism coalition. As a young man that was in the juvenile justice system for four years, I believe that the probation department does not benefit the youth that are constantly on school base probation . I've noticed that most of my peers were never exposed to opportunities in their childhoods that couldve molded them and encouraged them to become productive members of our communities. That is because there isn't enough money invested in community centers and youth development centers that have all the needed tools to change their perspective on bad decisions and put their all into academics. This is due to the fact that there isn't enough money to have these foundations in different schools and communities. There should be more after school programs that includes tutoring, career readiness, sports training, social skills, culinary arts, yoga for the mind and body, jobs, money management, leadership skills learning. On my behalf, i agree on changing or removing school base probation knowing that probation will disagree on our perspective and point of views on this matter but when you think about it ,is another form of incarceration without the jail cells, also if an individual wants to change they will personally change, probation won't be the reason for that. We are asking at least 75 million dollars to put these programs and foundations in our schools so Young people can be focused on moving forward in their lives and working on becoming emancipated. We will need more than this for these models to be build within our communities. Without the support is impossible to excel when you constantly have to worried about probation conditions; I lived this exact experience as a high schooler years ago. These terms gives the youth no choices but to focus on probation more than taking ownership of their own lives. I want to thank the board for listening and giving me the opportunity to share my thoughts. We look forward to you considering our proposal.

I want to flag that the Los Angeles Youth Uprising coalition sent the Board a support letter of support for the Youth Justice Work Group Report: Youth Justice Reimagined. You will see that it is signed by 64 individuals & organizations, representing at least 50,000 residents of your county, enthusiastically supporting this report. Signers include youth leaders from Anti-recidivism, Arts for Healing & Justice Network, Tia Chuchas Centro Cultural and Bookstore, Youth Justice Coalition and Coalition for Engaged Education. Youth Justice Coalition are the visionaries of the LA for Youth Campaign, 5% Campaign to redirect suppression dollars to youth development from a decade ago. Additional signers are the Urban Peace Institute, urging us to #FundPeacemakers, Community intervention workers including 2nd Call, Southern California Ceasefire Committee and Patrisse Cullors and Black Lives Matter Global Network and excellent youth development organizations, including Venice YouthBuild, New Earth, Boys & Girls Club and Woodcraft Rangers.

This report memorializes decades of groundwork and organizing.

The Board is in a historic position to end a system that does not serve youth needs and invest in one that does – one that cuts to the root of youth incarceration and provides for youth safety and wellbeing.

The Haywood Burns Institute did a great job recruiting local leaders, including system impacted young people who are directly impacted, policy experts and community organizers. The consultants helped to make sure our coalition, centering system impacted leaders were a part of the Youth Justice Work Group process in a way that represents the new model that the report speaks of and helped to eliminate barriers to access when this process moved online due to the pandemic.

LAYUP has been working to transform youth justice for over a decade. It's time to #FreeOurFuture and support #YouthJusticeReimagined.

Our action priorities for the LA Board of Supervisors are clear.

1. Create a new Department of Youth Development and transfer all duties of the juvenile probation division into that department within 5 years
2. Reallocate at least \$75 million from Probation to the new Department, and continue to reallocate Juvenile Probation's full \$500 million per year juvenile budget to fully implement Youth Justice Reimagined
3. End programs that criminalize youth, including School-Based Probation, Probation Citation Diversion, and Probation-run diversion programs
4. Continue to engage young people, formerly incarcerated youth, and community members throughout implementation.

From the Youth Statement in the report "Youth Justice Reimagined is not an attack on juvenile probation, but a challenge to all of us to do the right thing."

This is a celebration of the power of youth organizing, movement building and

Leif M Law	<p>I appreciate the opportunity to write in. It is my sincere hope that my voice will be heard and my comments legitimately considered as this is how our government is designed to operate, by and for the will of the people. The recent announcement of new shutdowns of businesses, restaurants, and continued blanket shut down of schools is unacceptable. It is unacceptable and I am opposed to in the very strongest of terms. These edicts have been handed down without input by the citizens of the county. By all accounts this is not the general will or desire of the people. You, our officials, exist in your capacity to enact the will of the people. This level of shutdown not only goes against the will and desire of the people (at least the majority) but is also NOT based on the science that we so often hear about. The cure in all these cases is worse than the disease. We know that citizens are getting sick at various levels. Reasonable precautions should be agreed upon to help combat the spread of COVID-19. These precautions should be in accordance with the will of each citizen, not handed down in a draconian manner from on high. People are losing their jobs, their businesses, their long-term livelihoods, and children are digressing in their academic growth and development. This is not acceptable. As officials you have a duty to be more creative, more resourceful, more forward thinking, and more collaborative with the people in your purview. We can do more than blindly shutting down and locking ourselves away in fear. Your inconsistency and lack of real leadership is shameful. We can operate safely with masks, some level of distancing, and businesses and restaurants can continue to operate with reasonable precautions. Please allow businesses and people to continue to make a living. Please allow children to return to school with reasonable precautions. The measures you have taken and continue to take are not consistent with what the people want, are not in accordance with a free society, and are not based on any agreed upon "science". Please prioritize families, children, and hard working business owners. This is your duty. We can live with communication and choice. We cannot live, nor will we tolerate, a lack of freedom, lack of choice, or draconian measures based on fear and</p>

	<p>defeatist propaganda. You and each individual should be free to choose what level of precaution to take. Those that want or require a higher level should be allowed to take the level of precaution they see fit. In many cases that will NOT include shutting down businesses or schools, and definitely will not include being told to do so without a voice or consideration. Each day I read the county statistics on COVID cases. In that daily notice is a sentence from Barbara Ferrer saying that, "We wish you all healing and peace as you are going through this very difficult time." This is directed to those who are suffering from the disease or the passing of loved ones from the disease. The suffering and lack of "peace" being endured by families out of work, businesses shut down, and children isolated and out of school is tenfold greater! This statement rings hollow and its embarrassing that you our officials are not seeing this and getting more resourceful and more collaborative in your approach. Do not shut us down further. Work to help our community and society thrive. Care for the sick and bolster others and businesses. The needs of the few do not outweigh the needs of the many. Respectfully, Leif Law</p>
Leo Levy	<p>I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. The housing and treatment provided by ODR have been crucial in reducing the spread of COVID-19 among the county's most vulnerable populations. Individuals who are experiencing mental health and substance use disorder-related issues need to have access to ongoing treatment in order to maintain safety. Someone who is experiencing acute symptoms in the community is less likely to have the stability needed to be able to follow COVID-19 related protocols. They are less likely to recognize the need for or remember to wear a mask, wash their hands, or isolate to the degree that is needed for their safety as well as the safety of those around them. This is why funding ODR is essential to the county's COVID-19 response. The pandemic is only continuing to intensify and services must intensify to meet it. ODR has a proven track record of supporting the safety and health of justice-impacted individuals with mental health and substance use treatment needs. The success of their programs indicates the need for expansion and as COVID-19 continues to impact LA County at alarming rates, the expansion of services must follow in order to ensure safety for everyone.</p>

Margie F Alexander	<p>I am writing to express my opposition to the prohibition of outdoor dining in Los Angeles County. Restaurants need cash. I do not see a plan from the federal governments to enforce even the face masks, so closing L.A. County restaurants in no way addresses the problem, instead simply makes it worse. You can close L.A. County completely and still have no plan. The only plan that seems to be in effect is to kill more small businesses, particularly restaurants.</p> <p>L.A. County Supervisor Kathryn Barger says she is opposed to the newly revised Public Health Order. "For me, it's about a lack of consistency," Barger said on KPCC's Take Two today. "Our own public health director has said that more than 50% of the positives being reported are the result of private social gatherings with someone who tested positive."</p> <p>She also cited illegal house parties and large private gatherings as major causes of accelerating COVID-19 numbers. She said she wants to see a more stringent crackdown on these events.</p> <p>I echo Ms. Barger in asking why the restaurant industry should have to shoulder the financial burden for something that is, "from a health standpoint, causing this virus to spread" I can only hope the Board will listen to reason and rescind the ban on outdoor dining in Los Angeles County. Thank you.</p>
Maria Ahverdyan	<p>I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. Maríel Palacio	<p>I thank Supervisors Kuehl and Ridley-Thomas for bringing the Youth Justice Reimagined motion forward and recognizing the current flaws in our probation system. For decades, LA County Juvenile Probation has spent over \$500 million per year of our money on an outdated, unaccountable and traumatizing system. LA County now spends almost \$800,000 per year to incarcerate just one young person. Over 90% of the youth who are incarcerated in LA County are Black or Brown. It's time to end L.A. County's addiction to incarceration. We ask the Board to not only create a new Department of Youth Development, but to also transfer all duties of the juvenile probation division into that department within 5 years. In addition, we urge the Board to reallocate at least \$75 million from Probation to the new Department, and continue to reallocate Juvenile Probation's full \$500 million annual budget to fully implement Youth Justice Reimagined. This requires ending programs that criminalize youth, including School-Based Probation, Probation Citation Diversion, and Probation-run diversion programs. In addition, we ask the board to support programs that continue to engage young people, formerly incarcerated youth, and community members throughout implementation.</p> <p>Almost 60% of LA County voters support investing in care over punishment. It's time to Free Our Future and realize Youth Justice Reimagined. The Board is in a historic position to end a system that does not serve youth needs and invest in one that does – one that cuts to the root of youth incarceration and provides for youth safety and wellbeing. Youth Justice Reimagined is not an attack on juvenile probation, but a challenge to all of us to do the right thing. Thank you so much for your commitment and vision for Los Angeles' youth.</p>
Marilyn Helmy	<p>Do not shut down outdoor restaurants. It is safer than people gathering in homes. Infection rate from outdoor eating is only 3%. Keep people employed and residents of LACounty satisfied. All the businesses spent money setting up outdoor facilities so unfair to close them again</p>
Mario C Batres	<p>I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. The housing and treatment provided by ODR</p>

	<p>COVID cases and 77% of confirmed COVID deaths. It is therefore imperative that our workplaces comply with County Health Officer orders.</p> <p>Given that they are on the front-lines, workers have the specific knowledge of their workplace and job expertise to protect themselves and others. By encouraging workers to report public health violations without fear of retaliation, this ordinance promotes public health and increases the effectiveness of public health requirements. We urge you to pass the anti-retaliation ordinance to empower workers and save lives.</p>
Marnie Zimmerman	<p>My name is Marnie Dobson Zimmerman, Ph.D. and I'm the Director of the Healthy Work Campaign. I live and work in Los Angeles County.</p> <p>As we go into the holiday season, we are experiencing a terrifying surge in COVID-19 cases resulting in more closures across the state and more loss of jobs. We are worse off now than we were in the beginning of the pandemic.</p> <p>Earlier this month, the Los Angeles County Board of Supervisors approved Public Health Councils allowing workers to monitor public health orders in the workplace. While we are glad to see this new innovative approach, this program can only be successful if workers can speak up without the fear of retaliation. No one should have to choose between putting food on the table and their safety in the workplace.</p> <p>The LA County Board of Supervisors must prioritize public health by immediately passing the anti-retaliation ordinance.</p>
Marsha Traylor	
Mary Ann Gallo	<p>I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. The housing and treatment provided by ODR have been crucial in reducing the spread of COVID-19 among the county's most vulnerable populations. Individuals who are experiencing mental health and substance use disorder-related issues need to have access to ongoing treatment in order to maintain safety. Someone who is experiencing acute symptoms in the community is less likely to have the stability needed to be able to follow COVID-19 related protocols. They are less likely to recognize the need for or remember to wear a mask, wash their hands, or isolate to the degree that is needed for their safety as well as the safety of those around them. This is why funding ODR is essential to the county's COVID-19 response. The pandemic is only continuing to intensify and services must intensify to meet it. ODR has a proven track record of supporting the safety and health of justice-impacted individuals with mental health and substance use treatment needs. The success of their programs indicates the need for expansion and as COVID-19 continues to impact LA County at alarming rates, the expansion of services must follow in order to ensure safety for everyone's youth.</p>
Mary C Mattingly	<p>I thank Supervisors Kuehl and Ridley-Thomas for bringing the Youth Justice Reimagined motion forward and recognizing the current flaws in our probation system. For decades, LA County Juvenile Probation has spent over \$500</p>

million per year of our money on an outdated, unaccountable and traumatizing system. LA County now spends almost \$800,000 per year to incarcerate just one young person. Over 90% of the youth who are incarcerated in LA County are Black or Brown. It's time to end L.A. County's addiction to incarceration. We ask the Board to not only create a new Department of Youth Development, but to also transfer all duties of the juvenile probation division into that department within 5 years. In addition, we urge the Board to reallocate at least \$75 million from Probation to the new Department, and continue to reallocate Juvenile Probation's full \$500 million annual budget to fully implement Youth Justice Reimagined. This requires ending programs that criminalize youth, including School-Based Probation, Probation Citation Diversion, and Probation-run diversion programs. In addition, we ask the board to support programs that continue to engage young people, formerly incarcerated youth, and community members throughout implementation.

The current system is clearly not working. It's so difficult to succeed in your adult life once you have already been thrown into the system as a child. We should know better than that.

Almost 60% of LA County voters support investing in care over punishment. It's time to Free Our Future and realize Youth Justice Reimagined. The Board is in a historic position to end a system that does not serve youth needs and invest in one that does – one that cuts to the root of youth incarceration and provides for youth safety and wellbeing. Youth Justice Reimagined is not an attack on juvenile probation, but a challenge to all of us to do the right thing. Thank you so much for your commitment and vision for Los Angeles' youth.

Marybeth Williams

I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. The housing and treatment provided by ODR have been crucial in reducing the spread of COVID-19 among the county's most vulnerable populations. Mia Viljoen	<p>In March, it was reasonable to shut down schools as no one knew how the virus would affect children or how schools contributed to the spread of COVID19. Thankfully, 8 months later we know much more, namely that open schools do not drive numbers of cases upward and that schools are the safest places for kids to be. As parents of school children, we have become the front-line workers of our children's education, while also having to be parents, friends, emotional support, and entertainment. We see their anxiety and depression levels rise at an alarming rate. As a result of Bill DiBlasio's decision to close schools again, medical experts, most notably the CDC, Johns Hopkins University and Dr. Fauci are beginning to speak out, schools are the safest place for children. The rate of infection in schools is still %0.15 schools are not to blame for the 3% of positive cases in New York. Dr Fauci said, "I think one of the things we need to do is to the best of our capability try to keep the kids in school". The Director of the CDC, Robert Redfield said this past week that K-12 schools, not just grades K-2, should remain open because they are the "among the safest" places kids can be and that closing schools amounts to "an emotional response". In California, students are becoming the most disadvantaged in the country. Schools in other states have been open but school closures are still in place. California high school students are missing academic and sports scholarships to other kids in other states who have a platform to perform. Will you let California kids continue to fall behind? Schools provide academic, emotional and physical support and in many cases, they provide a haven to at risk children. The science is pointing towards schools opening. Gavin Newsom said California will follow science in reopening, will you stand up for California kids and follow the science in opening our schools and sports programs. With cases on the rise, parents are asking the board of supervisors to keep schools open and create more opportunities for our students to be in school. The time for lockdowns has passed, our children need you to speak out for them. Please urge Gavin Newsom to open all schools.</p>
Mia Viljoen	<p>OPEN SCHOOLS NOW!!! Our current lack of appropriate, unbalanced response to this Pandemic, is guaranteed to create a pandemic our society</p>

The housing and treatment provided by ODR have been crucial in reducing the spread of COVID-19 among the county's most vulnerable populations. Individuals who are experiencing mental health and substance use disorder-related issues need to have access to ongoing treatment in order to maintain safety. Someone who is experiencing acute symptoms in the community is less likely to have the stability needed to be able to follow COVID-19 related protocols. They are less likely to recognize the need for or remember to wear a mask, wash their hands, or isolate to the degree that is needed for their safety as well as the safety of those around them. This is why funding ODR is essential to the county's COVID-19 response. The pandemic is only continuing to intensify and services must intensify to meet it. ODR has a proven track record of supporting the safety and health of justice-impacted individuals with mental health and substance use treatment needs. The success of their programs indicates the need for expansion and as COVID-19 continues to impact LA County at alarming rates, the expansion of services must follow in order to ensure safety for everyone.</p>
Nadeeka Karunaratne	<p>I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. 	everyone.
Richard S Sakacs	Dear Board of Supervisors, I am requesting that you do not decide to close down outside dining for restaurants in Los Angeles County. This pandemic has already forced too many of our business owners to close down and probably never re-open again and their employees have lost their jobs and have not been able to find new jobs. This hearing you will be having in the morning will only make matters worse for the business owners and their employees that have been able to open for the last few weeks. Thank you for your consideration. Richard Sakacs Encino, CA
Rick Rahimzadeh	Keep ALL L.A. City restaurants open.
riley berris	I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. The housing and treatment provided by ODR have been crucial in reducing the spread of COVID-19 among the county's most vulnerable populations. Individuals who are experiencing mental health and substance use disorder-related issues need to have access to ongoing treatment in order to maintain safety. Someone who is experiencing acute symptoms in the community is less likely to have the stability needed to be able to follow COVID-19 related protocols. They are less likely to recognize the need for or remember to wear a mask, wash their hands, or isolate to the degree that is needed for their safety as well as the safety of those around them. Robert C Schaefer	Leave outdoor seating open
Rocket J Garcia	Youth Justice Reimagined was created through over a year of extensive thought, care and foresight. The space was intentionally cultivated to be as inclusive as possible, and invited those with differing opinions. The result was a beautiful report with suggestions that prioritize healing and community. The Board motioned to establish the Youth Justice Workgroup because it was evident that change was needed. The current system is failing our youth and our communities. We must listen to the voices of system impacted youth and Create a new Department of Youth Development, Immediately invest at least \$75 million from Probation into Youth Justice Reimagined, and end school based probation, citation diversion and probation run diversion programs. Thank you for listening.
Rocket J Garcia	Youth Justice Reimagined was created through over a year of extensive thought, care and foresight. The space was intentionally cultivated to be as inclusive as possible, and invited those with differing opinions. The result was a beautiful report with suggestions that prioritize healing and community. The Board motioned to establish the Youth Justice Workgroup because it was evident that change was needed. The current system is failing our youth and our communities. We must listen to the voices of systems impacted youth and create a new Department of Youth Development, immediately invest at least \$75 million from Probation into Youth Justice Reimagined, and end school based probation, citation diversion, and probation run diversion programs. This workgroup did exactly what it was asked to do and this report deserves to be implemented. LA's youth deserve to have a department dedicated to their success, and LA County deserves to have successful youth. This report

	<p>is just one small example of what can happen when youth organize with community to create something great. Please vote yes on Youth Justice Reimagined. Thank you for listening.</p>
Rosa K Garcia	<p>My name is Rosa and I am a member of KIWA. This is a comment for items 26 and 36.</p> <p>I support items 26 and 36 because workers who speak out about their employer's noncompliance with health protocols need protections. We've already begun to see a significant spike in COVID19 cases in recent weeks. We've already lost over 6,000 Angelenas working essential jobs. Black, indigenous, and people of color make up around three-fourths of the residents living in Los Angeles County and account for 87% of confirmed COVID cases and 77% of confirmed COVID deaths. It is therefore imperative that our workplaces comply with County Health Officer orders.</p> <p>Given that they are on the front-lines, workers have the specific knowledge of their workplace and job expertise to protect themselves and others. By encouraging workers to report public health violations without fear of retaliation, this ordinance promotes public health and increases the effectiveness of public health requirements. We urge you to pass the anti-retaliation ordinance to empower workers and save lives.</p>
Rose Friedland	<p>I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. The housing and treatment provided by ODR have been crucial in reducing the spread of COVID-19 among the county's most vulnerable populations. Individuals who are experiencing mental health and substance use disorder-related issues need to have access to ongoing treatment in order to maintain safety. Someone who is experiencing acute symptoms in the community is less likely to have the stability needed to be able to follow COVID-19 related protocols. They are less likely to recognize the need for or remember to wear a mask, wash their hands, or isolate to the degree that is needed for their safety as well as the safety of those around them. This is why funding ODR is essential to the county's COVID-19 response. The pandemic is only continuing to intensify and services must intensify to meet it. ODR has a proven track record of supporting the safety and health of justice-impacted individuals with mental health and substance use treatment needs. The success of their programs indicates the need for expansion and as COVID-19 continues to impact LA County at alarming rates, the expansion of services must follow in order to ensure safety for everyone.</p>

HERNANDEZ	
Sandy Ross	<p>I'm calling in support of agenda item 39-H and to make general public comment.</p> <p>Good morning, my name is Sandy Ross, I am a member of California Protective Parents Association and live in El Segundo. I want to thank Supervisor Janice Hahn and Mark Ridley Thomas for their leadership in addressing child safety in LA County.</p> <p>Approximately 800 Children in the United States have been murdered in the context of divorce, separation, child custody litigation, restraining order cases by a parent or adult in their lives, from data collected by the Center for Judicial Excellence. One child met his death via a murder for hire scheme by a father. I have sat in congressmembers offices, with holding the hands of grieving parents who have had their children brutally murdered because the system would not listen to their cries.</p> <p>Many of these cases were preventable as they were on dockets in the court system, either family court or dependency court, while some did not even make it at all. This number is a conservative number because they are only cases reported in the media. I have been an unpaid volunteer and advocate on this issue for more than a decade. My engagement on this issue stems for a horrific personal situation with I found myself engaged in the family court system, then rolled into the DCFS and Dependency Court. I was in utter shock at the experience, and the result will leave a lifetime of scars. Child Safety must become the priority.</p> <p>Given my lived experience, this is why I urge the Board to pass this Reimagining Safety Health and Human Services for our Children and Families motion.</p> <p>The Consultant that will conduct the equity audit should be community-oriented and actively engage the community with lived experience at every step of the reimagining child safety process. As a member of California Protective Parents Association, I am eager to participate in the stakeholder engagement.</p> <p>Sandy Ross, Board Member California Protective Parents Association</p>

	everyone.
Scott Bengtson	I oppose the prohibition of both outdoor and indoor dining. Please open all restaurants immediately.
Scott Doyle	Finally, I support the request by my Supervisor Hilda Solis that \$30m of CARES funding be directed to ODR to provide housing and treatment for our County's most vulnerable population, one that has been hit particularly hard by Covid-19.
Sean Lacson	I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. The housing and treatment provided by ODR have been crucial in reducing the spread of COVID-19 among the county's most vulnerable populations. Individuals who are experiencing mental health and substance use disorder-related issues need to have access to ongoing treatment in order to maintain safety. Someone who is experiencing acute symptoms in the community is less likely to have the stability needed to be able to follow COVID-19 related protocols. They are less likely to recognize the need for or remember to wear a mask, wash their hands, or isolate to the degree that is needed for their safety as well as the safety of those around them. This is why funding ODR is essential to the county's COVID-19 response. The pandemic is only continuing to intensify and services must intensify to meet it. ODR has a proven track record of supporting the safety and health of justice-impacted individuals with mental health and substance use treatment needs. The success of their programs indicates the need for expansion and as COVID-19 continues to impact LA County at alarming rates, the expansion of services must follow in order to ensure safety for everyone.
Selina Ho	I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. The housing and treatment provided by ODR have been crucial in reducing the spread of COVID-19 among the county's most vulnerable populations. Individuals who are experiencing mental health and substance use disorder-related issues need to have access to ongoing treatment in order to maintain safety. sophia cristo	Good morning board of supervisors, my name is Sophia Cristo, and I am a youth advocate with the Anti-Recidivism Coalition. I am here today in support of Youth Justice Reimagined because after spending ten years incarcerated as a youth, I know that putting youth behind bars doesn't help them but makes things worst for them. I know this because I lived through those events. I shouldn't have had to serve ten years in jail, it could have been different if we had a better model. That's why I believe we need to change this system immediately and create a youth development department for all youth in this county. We need to create a department that motivates, supports, and empowers our youth. A department that provides

	<p>services that will address their problems and not be the same as probation which does the opposite. Probation is a hindrance for youth growth and transition, it sets up youth for failure considering the smallest stumble is a violation, leading youth backward. Youth don't trust probation, therefore don't feel comfortable communicating needs, or issues they may need help with. Its time we move away from this failed probation department and create a new one focused on youth development.</p> <p>I believe the recommendations from the Youth Justice Reimagined will help us get there. It will help us transform a system that has failed to provide real assistant to our youth and offer other solutions as well as alternatives that are much needed. I urge the board to pass this motion and support the youth of this county. Thank you, Sophia Cristo.</p>
Sophia Kandell	<p>I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. Individuals who are experiencing mental health and substance use disorder-related issues need to have access to ongoing treatment in order to maintain safety. Someone who is experiencing acute symptoms in the community is less likely to have the stability needed to be able to follow COVID-19 related protocols. They are less likely to recognize the need for or remember to wear a mask, wash their hands, or isolate to the degree that is needed for their safety as well as the safety of those around them. This is why funding ODR is essential to the county's COVID-19 response. The pandemic is only continuing to intensify and services must intensify to meet it. ODR has a proven track record of supporting the safety and health of justice-impacted individuals with mental health and substance use treatment needs. The success of their programs indicates the need for expansion and as COVID-19 continues to impact LA County at alarming rates, the expansion of services must follow in order to ensure safety for everyone.
Tiffany Williams	
Tiffany N Le	I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. The housing and treatment provided by ODR have been crucial in reducing the spread of COVID-19 among the county's most vulnerable populations. Individuals who are experiencing mental health and substance use disorder-related issues need to have access to ongoing treatment in order to maintain safety. Someone who is experiencing acute symptoms in the community is less likely to have the stability needed to be able to follow COVID-19 related protocols. They are less likely to recognize the need for or remember to wear a mask, wash their hands, or isolate to the degree that is needed for their safety as well as the safety of those around them. 	COVID chit is unconstitutional & we're coming to sue every single one of you personally for acting under color of law. Keep exposing yourselves as TYRANTS to be taken down & the public will happily oblige.
Tomas A Garcia	<p>My name is Tomas and I am a member of KIWA. This is a comment for items 26 and 36.</p> <p>I support items 26 and 36 because workers who speak out about their employer's noncompliance with health protocols need protections. We've already begun to see a significant spike in COVID19 cases in recent weeks. We've already lost over 6,000 Angelenas working essential jobs. Black, indigenous, and people of color make up around three-fourths of the residents living in Los Angeles County and account for 87% of confirmed COVID cases and 77% of confirmed COVID deaths. It is therefore imperative that our workplaces comply with County Health Officer orders.</p> <p>Given that they are on the front-lines, workers have the specific knowledge of their workplace and job expertise to protect themselves and others. By encouraging workers to report public health violations without fear of retaliation, this ordinance promotes public health and increases the effectiveness of public health requirements. We urge you to pass the anti-retaliation ordinance to empower workers and save lives.</p>
Tonya Szerdahelyi	
Trevor Byrne	I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. The housing and treatment provided by ODR have been crucial in reducing the spread of COVID-19 among the county's most vulnerable populations. On behalf of PATH (People Assisting The Homeless), we wanted to express our admiration and thanks to outgoing Supervisor, Mark Ridley-Thomas.</p> <p>The Supervisor has been a long-time ally in the Statewide and regional efforts to end homelessness. We owe him a debt of thanks for his leadership to write and pass Measure H, which showcased the communal desire to invest in this critically important issue.</p> <p>Supervisor Ridley-Thomas has also been an important community voice who has spoken up time and again for communities of color and advocated for greater equity in housing.</p> <p>He has also presided over the successful local implementation of the Affordable Care Act, which has ensured greater access to health care for thousands of low-income Los Angelenos.</p> <p>Supervisor Ridley-Thomas also has consistently advocated for greater resources for at-risk youth to build a more secure safety net that aims to keep them off the street and to empower them to give back to their neighborhoods.</p> <p>It would be difficult to list all of the Supervisor's accomplishments in this short time, but most of all, we want to thank him for his outstanding work here at the County. We look forward to continuing our partnership with him in his new role at the City, and welcome Supervisor-Elect Holly Mitchell to the Board.</p>

		expansion and as COVID-19 continues to impact LA County at alarming rates, the expansion of services must follow in order to ensure safety for everyone.
<b>Oppose</b>	A hickok	
	Aaron Maxwell	
	Abel Tapia	
	Abigail Coolidge	I oppose the restriction on outdoor dining. If it does need to be restricted then it should be to 50%. A lot of restaurant owners will struggle to survive if we close everything for a second time.
	Adam Waitkunas	Oppose prohibition of outdoor dining.
	Adela Mercado	
	Adrienne Park	I OPPOSE PROHIBITION OF BOTH INDOOR AND OUTDOOR DINING. OPEN ALL RESTAURANTS IMMEDIATELY
	Alex Schwartzman	
	Alexa Hobelman	The temporary restriction of outdoor (and indoor) dining
	Alexa Rizeq	
	Alexander Martinez	
	Alexandra Ramirez	Oppose outdoor dining ban
	Alexina R Villalpando	Do not mess with the lives of the Americans who pay YOUR paycheck with our tax dollars. Numbers have proven that it is rare for cases to take place in outdoor activities or dining. This is absolutely unnecessary to close restaurants when they have already paid too much to adhere to your guidelines. All jobs are essential!!
	Alexis Clift	
	Alicia Riggs	Restaurants should be able to continue outdoor seating.
	allison rekrut	
	Ally Mielnicki	
	Alyssa Barr	
	Alyssa Clark	
	Amara Feldpausch	DO NOT SHUT DOWN RESTAURANT DINING
	Amira Said	
	Amy Leavitt	Oppose
	Andrea A Ramirez	Closing Down Outdoor Dining - there is NO supporting evidence that suggests outdoor dining is a significant source of covid infections. Look at

	your own LA County Health Department data which shows restaurants as having very low covid infection rates. REVOKE THE SHUT DOWN OF OUTDOOR DINING.
Andrew Binder	Shutting down outdoor dining is an UNETHICAL decision lacking FACTUAL evidence. It is obvious by the response of local government's refusal to enforce that it is much more detrimental to the community than to allow outdoor dining following safe protocol.
Andrew Lech	
Angela Anguiano	Stop trying to decimate our small businesses!! Restaurants aren't causing this! Look at grocery stores! Look at idiots having large gathering with NO social distancing! Let restaurants continue to provide outdoor dining! More businesses will go out and more people will be out of jobs!!
Angela Jones	Oppose!!!!
ANGIE MARTINEZ	
Anna Nikitina	Following all precautions outdoor dining should stay open
Anna Zussman	I oppose the banning of indoor and outdoor dining. KEEP ALL RESTAURANTS OPEN!
Annette Baietti	
annie blakeslee	
Annie Eastwood	Please, reconsider the outdoor dining shut down. WE need to keep outdoor dining available. The percentage of cases of covid related to restaurant dining is about 10%. Even, Katryn Barger,L.A. County supervisor, supports having our industry stay open. Most restaurants in South Bay area are adhering to the strict protocols to make sure our community stays safe. The outdoor shutdown will jeopardize too many families and their livelihoods. In, addition, this second shutdown could put more independant restaurant s out of business for good. Please, reconsider the shut down, even if we go 50%, keep the jobs alive. THank you.
Anthony Bailey	Please vote against closing outdoor dining at County restaurants. Restaurants just moved to 50% OUTDOOR capacity and closing at 10 pm. Please leave them a lifeline. It is too heavy a penalty for those businesses vs a benefit vis a vis Covid when it is being spread heavily inside buildings.
Anyia Jensen	
April Symonds	Shutting down outside dining
Aren R Israel	I absolutely oppose the new order restricting outside dining at LA Restaurants. This is a horrible idea. There is little data to show that dining increases covid infections. Restaurants are already struggling to survive. Many recently invested thousands of dollars to open patios for dining and now the county is shutting them down. Very bad decision. Keep restaurants open, save our businesses and our means of supporting ourselves financially. The closure of restaurants will have the negative effect of having people

	gather at friends and families homes and they will contract the virus that way. You need better solutions.
Ash Miller	Oppose
Ashley Cocking	<p>As a customer service worker for 13 years, I'm almost begging the state to allow outdoor dining in counties across the state. I was able to put myself through college and am currently pursuing a Master's degree with my only source of income coming from bartending/serving.</p> <p>Furthermore, small businesses have allotted unnecessary funds to accommodate outdoor dining. Please do not take this from us. I graduated from a Cal State university in June and have not been able to use my degree to my financial/educational/passionate benefit. Pursuing higher education will be almost impossible without a consistent source of income.</p> <p>We all know this has become ridiculous. COVID-19 can spread via outdoor dining but not childcare facilities? Or wineries with employees in close contact?</p> <p>We are better than this. We are disregarding and disrespecting our nation by adhering to ridiculous policies that are harming hard-working citizens.</p> <p>As a former die-hard Democrat, I am almost shocked and embarrassed to say who I voted for in the current election. Myself, along with many other educators and highly educated friends/associates, are supporting politicians who oppose shutting down the livelihood from everyday citizens.</p>
Asia Biheller	Opposing the closure of outdoor dining.
Asma Awad	
Azalea Mejia	Absolutely oppose this outdoor ban! Let people choose. We are OUTSIDE and distanced!
Barbara Hunt	I oppose the closing of outdoor dining, when venues are abiding by all the rules set by Los Angeles County.
Barbara Joelson	Do not close the breweries and restaurants! You are going to kill all the businesses! Keep track of people going in and test their temperature, and keep a minimum amount of people there dinning... dont close!!!!
Barbara Tron	Shutting down restaurants - opposed.
BARBARA N SHABO RN	<p>We oppose the overly broad and arbitrary lockdown proposed by Ms.Barbara Ferrar. We are all wearing masks and keeping a safe distance. There's no need to lock everyone up as though we're living behind an iron curtain.</p> <p>1. Cities with the strictest lockdown have had the highest death rates.</p> <p>2. Indiscriminately closing small businesses will destroy them with no chance of recovery, and the resulting loss of jobs and poverty will increase mental health problems, depression and alcoholism. It will also prevent patients from</p>

	<p>seeing doctors for other serious medical care.</p> <p>3. School closures are causing permanent harm to kids, especially low-income kids, with a projected dropout of 1 million kids.</p> <p>4. Outdoor restaurants are not a major source of infection (3%). There is no need to close them all. Nail salons have about a 1.5% rate of infection. Hair salons are equally safe. Why single these businesses out for punishing closures?</p> <p>The majority of new cases occur in people aged 18 to 29 and are usually not as serious as they are in older people. Older people can avoid risky activities and use N95 masks. The repressive measures being proposed reflect a political power grab and lack common sense.</p> <p>The only supervisor who seems to possess some common sense is Kathryn Barger. We will all be in a better place if we can listen to her commonsense reasoning.</p> <p>Last but not least, a total lockdown will be a hard sell. Especially after our Governor, Gavin Newsom, had that fabulous indoor party, where no one was wearing a mask, at a \$350 a plate restaurant, while he keeps the rest of us locked down like peasants. Either he doesn't think the virus is dangerous or he's drinking magic juice that somehow makes him immune.</p> <p>The same is true for our less than competent mayor, Eric Garcetti. Who can forget the sight of him, maskless, smiling, cheek to cheek with protestors, as he promised to defund the police so we can experience more murders and robberies.</p> <p>Our elected officials are turning LA into a hellhole. Please don't dig the hole any deeper.</p>
BARRY E MALLIN	I OPPOSE THE LOCKDOWN. LIVES WILL BE DESTROYED
Beau K Maglinti	
Bennett Talsky	Do not close outdoor dining
Beth Shin	Keep outdoor dining an option! We cannot afford to lose any additional businesses.
Betsy Merryman	My family and I oppose the new outdoor dining restrictions. We understand the severity of the pandemic but we believe applying a county wide restriction doesn't consider the more localized data that shows our community, while we still need to be vigilant, is not experiencing the same spread as in other parts of the county.
Blake Gaylord	I oppose outdoor dining to be shut down! Enough is enough. Let our restaurants serve us and give locals the option to dine and support them! We need our local restaurants and want to continue eating out! Let them stay open for dining outdoors
Blanca Arambula	
Bonita Roberts	Oppose

Bonnie Briggs	Los Angeles county needs to get rid of the Pregnancy question on Covid testing regulations it is illegal and irrelevant As Covid testing is required for some production employment Covid testing is required for employment info in production and forcing female employees to answer whether or not they are pregnant is illegal and the asking of the question is irrelevant to Covid testing and employment. It is nobody's business especially the governments whether or not a woman is pregnant and whether or not she should be forced to disclose her pregnancy for a myriad of reasons that Los Angeles county should consider before requiring this question to be asked after prospective employees or citizens getting tested.
Bonnie Brown	It's not the outdoor dining that adds risk, it's the choice of people sitting at the same table that don't live in the same house. Those people will still dine together, only at home. But keeping outdoor dining open allows those that DO quarantine together to go out AND keep the restaurants from going under with no additional risk.
Brad Woomer	STOP THE LOCK DOWNS AND RE-OPEN SCHOOLS 100% YOU ARE DESTROYING THE LIVES OF MILLIONS OF CHILDREN.
Brandon Gharios	
Brandon Roman	I oppose closing out outdoor dining, this will ruin our cities restaurant business and drive unemployment rates back up again. We need to stay open to make it thru the holidays, this is heartbreaking to see restaurants spend so much money to create outdoor dining accommodations and then have it stripped away a few months in.
Bree Wainwright	
Brian J Herlihy	Closing Bar and Restaurants for outside dining again. This is NOT where the spread is coming from. Compromise on 50% capacity outside.
Bricia Lopez	Restaurant outdoor dining closure
Bridget Borman	Item S-1 specifically outdoor dining
Bridget Nelson	
Brittany Field	Strongly oppose shutdown of outdoor dining order
Bronwyn Rubin	Closing restaurants
Brooke Marston	If you are going to continue to shut down small businesses who are major tax contributors and job providers in this city, especially after making them bare the enormous financial burdens of updating all their features to seat people in a safe and appealing way in parking lots and next to busy streets, while also installing all necessary PPE health guidelines, you need to provide better relief packages for small businesses. Million dollar businesses got all the federal relief packages due to major banks fixing the game. Small, private businesses do more the the city and the community than big businesses, not to mention pay more taxes. Let's pay them back for all they have done to make LA the great foodie city that it is. And support all our workers willing to put their health at risk so people could dine out. The city and it's

	representatives owe it to your constituents.
Brooke Owen	No more lock downs, please. You are hurting so many people. We all need jobs and kids need to go to school! We did not vote you into office to take away our freedoms!
Brynn Moynihan	<p>Restaurants have invested significant sums to make sure their venues are compliant with CDC and local health requirements and shutting them down and threatening their employees' livelihoods is both ineffective in curbing the spread of COVID and wrong. Those businesses are contributing in meaningful ways to their communities, and their employees need jobs and income to survive.</p> <p>According to recent data, the large spreads of COVID have been due to group gatherings at locations that are not under the policing and scrutiny of the local health authorities. I'd suggest your efforts would be better focused on how to solve that problem, as compared to continuing to threaten local businesses and their employees.</p>
Calvin radsick	Please let outdoor dining remain with Covid guidelines. The residents and workers of Los Angeles do not receive enough financial aid to enter another lockdown. it is in the city's best interest to rethink this possible second shutdown.
camí wedbush	I am opposing the closing of outdoor dining in Los Angeles County. I feel that restaurants are working hard at making sure they follow all the guidelines. I have been so pleased with my experiences with the outdoor dining. I feel incredibly safe while dining outdoors.. thank you
CAREY C ROTH	Please allow outdoor dining with appropriate social distancing. A complete dining shutdown will cause widespread economic damage in LA County.
Carla Davidson	I do not think outdoor dining imposes any health risk of spreading Covid-19. All of these restaurants have done an I credible job expanding their outdoor space to make it safe for customers. Please do not shut down outdoor dining!!
Carol Pirsztuk	<p>Honorable Board of Supervisors and Dr. Ferrer,</p> <p>The City of El Segundo strongly opposes the proposed Los Angeles County Health Officer Order, restricting on-site dining at restaurants, breweries, wineries and bars effective Wednesday, November 25 at 10:00 p.m. to slow the spread of COVID-19 as the County experiences a surge of cases. The City respectfully requests that you reconsider the modifications that will further devastate businesses in our community to the point of no return. Our business community has expressed concern that these restrictions will hurt already struggling businesses, who have made extraordinary efforts to invest in personal protective equipment to comply with all the Health Officer Orders to keep their customers and employees safe.</p> <p>According to new data from the Los Angeles County's Department of Public Health, COVID-19 cases traced back to the County's restaurants and bars accounted for just 3.1% or 70 of the total of 2,257 confirmed cases found from 204 "outbreak" locations.</p>

	<p>Additionally, hospitals are currently not overwhelmed. L.A. County has 17,000 non-ICU beds with a surge capacity of 11,482 beds if needed. Currently, only 10% of those beds are being used by COVID-19 patients. There are 2,500 ICU beds with an additional surge capacity of 4,067. There are currently only 401 ICU patients in ICU beds. In July, hospital non-ICU beds peaked at 15% never reaching the maximum capacity. In April ICU COVID-19 patients peaked at 40%, also not reaching maximum capacity.</p> <p>We understand the need to find the right path to reducing exposure and that difficult sacrifices must be made, but let's not put this on the backs of our restaurants, breweries and bars that have shown compliance to remain open.</p> <p>The City of El Segundo urges you to take action today by reconsidering the proposed modifications and present other options that strike a balance between economic recovery and the protocols to keep the public safe. Thank you in advance for your dedication to public health and your assistance with this request.</p> <p>Sincerely, Carol Pirsztuk Carol Pirsztuk Council Member of El Segundo</p>
Carol R de la Sotta	<p>I just submitted comments and it said FAVOR rather than OPPOSE. That is an error. I definitely OPPOSE this.</p>
Carol R de la Sotta	<p>Stop killing small independently owned businesses!!! People who are not healthy can stay home, but the rest of the population is not dumb. Healthy people can make their own decisions!!! WE ARE NOT IDIOTS!! These ridiculous restrictions are absolutely KILLING the businesses that have built our neighborhoods and our local economy. So many people are out of work that these businesses employ, so you are not only destroying the businesses, you are destroying families! How do you expect people to pay their bills? To keep their families clothed and fed?? These are people's LIVES!!!! There is very little SUBSTANTIAL PROVEN SCIENTIFIC EVIDENCE that these closures have any positive effect. PLEASE get your priorities straight. Thank you.</p>
Casey Kaplan	
cathy green	<p>No more lockdowns. People have suffered enough. Losing everything they spent their lives working for. Children are suffering psychologically. You need to stop with these draconian lockdowns. Especially when those in charge don't believe the same rules apply to them.</p>
Cecilia Berger	<p>Oppose the prohibition of closing outdoor dining.</p>
Cecilia Ramirez	<p>Research shows that Juveniles experience a lower recidivism when supervised by government criminal justice entities.</p>
Chantelle Page	<p>I OPPOSE THE OUTDOOR DINING BAN</p>

Chantha San	SAVE SMALL LOCAL BUSINESSES
Charissa spach	
Chassity Doremus	I oppose the restrictions on outdoor dining.
Cheri Alexander	Oppose closing outdoor dining
Cherie Martinez	My husband and I own a small catering company, and have over 20 years of history in the food service industry. We have 4 children, and seek daily to use our combined skills to serve our clients in a safe, creative, and delicious way, while supporting our family. We love what we do, and have many skills and passions to offer out clientele. This year has presented many challenges for this industry, and we have watched many quality restaurants go under. Many others have taken on debt to safely remain open. Please do not remove the remaining lifeline of outdoor dining, that we were told was the safer option.
Chris Marino	o Agenda Item S-1, specifically the prohibition of Outdoor Dining. We'll accept a 50% reduction in restaurant capacity.
Chris Pimentel	<p>Honorable Board of Supervisors and Dr. Ferrer,</p> <p>The City of El Segundo strongly opposes the proposed Los Angeles County Health Officer Order, restricting on-site dining at restaurants, breweries, wineries and bars effective Wednesday, November 25 at 10:00 p.m. to slow the spread of COVID-19 as the County experiences a surge of cases. 	assistance with this request. Sincerely, Chris Pimentel Chris Pimentel Mayor Pro Tem of El Segundo
Chris Sznewajs	I don't know how you sleep. The people are coming for you. Your horrible. Leave restaurant and businesses alone. Let people live their life. This is America.
Christian Sorenson	S1 Please oppose restrictions on restaurants 50% acceptable, not full closures. Please support struggling establishments
Christina Holman	The restaurant industry has suffered ENOUGH! They have abided by ALL that LA County has required of them and have spent thousands of dollars doing so. Let them continue to keep their outdoor dining options available!!
Christina Turner	S1. Oppose restrictions on outdoor dining. Will accept 50 percent capacity.
Cindy Blindbury	See # 1S above.
CJ Fleming	Oppose
Coleen Kuhlman	Oppose S-1
Connie Pantin	
Corinne Flanigan	Please do not close outdoor dining. People are going to gather in homes regardless now even more than before. Our employers spent so much money on outdoor equipment and now your taking their income away.
Corrina Camou-Zuniga	"I oppose Dr. Ferrer's opinion that we should impose yet another unfair and punitive demand that restaurants close their outdoor seating due to a spike in corona virus cases for these reasons: First, data does not support this arbitrary decision as less than 15% of cases can be traced back to restaurant dining. Second, the restaurant industry has already proved above and beyond that they are capable of complying with social distancing, mask wearing, cleanliness, and any other arbitrary guideline, rule, edict or other request, suggestion, order or law that have been forced upon them. They have done it from day one and will do it moving forward. Third, there are no Federal packages this time around for workers who will have no income during the shutdown. And most importantly; there are serious effects on the mental health of the employees and the restaurant owners; there are serious effects on the emotional health of the employees and the restaurant owners, and there are serious effects on the economic health of the employees and the restaurant owners All of this and yet they are still subject to this unfair treatment that will affect 700,000 + hard-workers all in the name of "slowing the "NEW" curve"

	Please allow these people to continue to work, in order to feed their families and to pay their bills. Please do not punish them because others choose to ignore the rules so they can gather to celebrate or to protest. Don't make more lost business and homeless people Thank you for considering my request." Corrina Diana Camou-Zuniga
Cristabelle Ojukwu	
Cristina Jimenez	
Crystal M Whitcomb	I am writing here to share my opposition to S1. As a resident of South Bay, I feel like this is unfairly punishing restaurants and businesses in our area. The ramifications of this act will forever change the landscape of our cities and put thousands of people out of work, AGAIN! Please let our businesses stay open!
CW West	Let LA restaurants stay open! They are being crushed. Especially the small family owned businesses. Owners need the money. They are closing by the minute. If they keep it safe, let them stay open!
Cyndi Kirkland	
dallas king	
Dana Carson	If we eliminate outdoor dining, then people will gather indoors, and with larger groups than just 6 people. Allowing outdoor dining to continue will actually contribute less to the spread of COVID-19 than shutting down outdoor dining.
Daniel Arteaga	
Daniel Doty	
Dave Harper	Oppose outdoor dining ban. It's not effective and will kill our business and the industry
David Moody	Do not even think about shutting down our economy again. The lives already destroyed should cause alarm... but it doesn't. This is nothing more than baseless, unfounded tyranny. We will vote accordingly!!
David A Moreno	
David J Marositz	Shutdown outdoor dining
Deana Cook	
Debi Keys	Please keep the restaurants in the antelope Valley open. The owners are struggling and workers need to work. They are doing everything required to keep people safe.
Deborah Keshtkar	
Deborah K Curtis	I oppose the closing of restaurants.
Debra V Geist	It's so wrong to create another set back for restaurants! It's obvious that many have invested to create outdoor dining spaces to comply with govt health

Edward C Yates	<p>The President Elect's COVID-19 team is clearly in favor of a highly targeted approach to shutdowns. Please heed their advice and do not institute another county-wide shut down. Our small businesses have suffered enough.</p> <p>"We are not in support of a nationwide lockdown," Dr. Atul Gawande, a professor of surgery and health policy at Harvard and a Biden advisor, told ABC's "This Week" on Sunday. "You can have targeted measures building on mask wearing to include widespread testing, can include dialing up and down capacity restrictions, and those measures need to happen on a more localized basis."</p> <p>Both Gawande and Murthy pointed to New York's "micro-cluster" strategy as an example. The state has imposed tougher restrictions on specific areas depending on the level of coronavirus spread. The hardest-hit red zones would be forced to close nonessential businesses and schools for in-person learning while other surrounding areas can remain open with modifications. "On a zip code by zip code basis, you can deploy different restrictions in order to get the virus under control and it's quite effective. We do not need to go into a nationwide, shelter-in-place shutdown," Gawande said."</p>
Eileen Fielding	<p>20-4861</p> <p>? General Principle:</p> <p>? This is unaccountable government creating barriers for people trying to live their lives and keep their businesses afloat</p> <p>? We know that you our supervisors are not our enemies, but we want you to know that we're hurt by these restrictions</p> <p>? It sets a bad precedent that allows government to expand control over us indefinitely, in the long term</p> <p>? Legal:</p> <p>? Curfews violate the first amendment of the US Constitution, because they tell people when they can assemble and with how many people they can assemble.</p> <p>? Curfews may violate the fourth amendment of the US Constitution, because</p>

	times the government has messed up things for small businesses! Keep things open!
Erin carnes	As a restaurant owner trying to keep my business from closing down permanently I must express how detrimental outdoor dining closures are for our staff and our business. We have been operating out doors safely since June. We take all COVID health protocols very seriously and implement them very efficiently. There has been no proof provided that suggest that outdoor dining is a huge part of the increase in cases. We care about making sure our community, staff, and patrons are safe and adhering to all mandated rules. Closing down outdoor dining will cause my business of 10 years to be done permanently. We can not survive another closure. Please reconsider keeping outdoor dining closures. I worry about the impact that will result for our staff and the business that these closures could do.
Evan Berk	
Fellippe Esteves	
Fellippe Esteves	
Forrest Robinson	
Francesca Gareri	
Francey Marzicola	
Frank Acevedo	
G B Wedbush	I oppose the closing of the outdoor dining of our local restaurants. It will cause people to gather inside at homes if they don't have an option of celebrating with friends safely outside. It will also cause irreparable damage to the restaurants who have already spent so much money creating outdoor dining experiences for their customers. Please reconsider!
Gabe Lopez	Do to a Technicality the LAC is about to put the aviators & surrounding communities to our LAC Airports into Jeopardy. Because there has been a 6% budget cut in the LAC you all placed a hiring freeze on all departments including the aviation division that receives zero money from this budget. We are self-sustaining yet we're grouped in with the rest of the LAC just because of a technicality, we're part of the DPW. LAC plans to take over the 5 LAC airports on April 1st 2021 & man it with a 3rd staff of LAC employees. 30 years ago when the LAC ran these 5 LAC airports they knew that it had to be with a full staff as they were our 1st responders. Just as our fire department is not in this hiring freeze do to public safety nor should our airports as they are the ones that no 1st responding fire and emergency care if we have an aircraft in distress or if we have any major catastrophes like the resent fires and COVID 19 that we're experiencing now. Without a Full staff of airport employees we run the risk of confusion and or death ! We ask that you all take a simple vote and allow the aviation division to start in hiring a full staff that we all need for safety. The staff is waiting to be hired as we speak as the staff of American Airports no longer will be employed and are all trained in 1st responding and the day to day goings on on an airport.

Gabriel Gibaldi	I oppose the cancellation of outdoor dining in LA county and the city of Long Beach. What's happening to workers and small businesses is criminal. Let businesses open safely!
Gary Alonso	
Gary Wedbush	I oppose the closing of our outdoor dining for our local restaurants. Please reconsider. It will only cause people to gather indoors for the holidays instead of meeting for outdoor events at restaurants! Not to mention the damage it will do to the restaurants, having to close during the season.
Gayle Lee	I am not in favor of the closing of dining outside Looking at restaurants are being targeted when they have been complying with CDC ever since they got the approval to have outside dining. You should be targeting at the malls and retail stores and the group of people it creates and also target those flying and grouping at the airports where no social distancing is present.
Gena Calderon	
George J Dennis	thank you for keeping our restaurants OPEN in the South Bay - we need to protect small business. also, these establishments are honoring all safety protocols and as such are completely safe.
Ghada Mansur	I THINK THE PROBLEM IS BIG GATHERINGS AND PROTESTS
Gina Guarino Eskow	
Gina Spiropoulos	
Gina Turney	
Gina A Keliher	I oppose restaurants and out door dining being shut down.
Ginger Finnegan	I STRONGLY oppose the outdoor dining restrictions. You people talk about following the science but the evidence shows the restaurants who have done everything required to support safe outdoor dining are NOT even in the top ten places where people are getting COVID. Stop this madness and reverse the order. Let restaurants and their employees survive!!
Ginny Fusco	I strongly oppose the closure of restaurant outdoor dining. I will use my time, money and vote to remove any council member in the next election who votes for or supports this horrific, damaging policy. The restaurants have done their part to ensure safe eating outside. Now do your part and let them remain open and let their employees continue to work!!
Glenn P Miciano	Not favor due to short hours, not income income to support the family.
Gloria J Ainslie	Tomorrow morning, you'll have an emergency meeting regarding the rise in Covid numbers. The increase does not mean an increase in death...my 97 year old mother fell ill with Covid during the summer and recovered completely.  We're the joke of the nation!!! People in power give carte blanc for rioters to

Helen Spiridellis	I oppose shutting down outdoor dining. It will devastate our local businesses and their hardworking employees and encourage congregation inside homes where there are less precautions.
Helene McElmurray	We the people want the Constitution upheld. We do not support the government imposing Covid 19 mandates that have trashed our economy, our children's education, endangered lives through violence, depression, suicide, etc. ENOUGH!!!
Henry Wedbush	I oppose the closing of our outdoor dining for our local restaurants. Please reconsider. It will only cause people to gather indoors for the holidays instead of meeting for outdoor events at restaurants! Not to mention the damage it will do to the restaurants, having to close during the season.
henry a yost	I have 5 restaurants employing 120 that I started 50 years ago! By closing our restaurants you are not only putting me out of business but 120 employees representing 350 members of their families without any income for financial support!!! Please!
herb johnston	simply stated- only certified medical grade masks that health professionals wear in certain controlled environments, can stop a virus. Everyone know this. So, it is obvious your agenda is to be part of the new communist regime, designed to inflict pain and agony and strip united states citizens of their rights. It is obvious that you are oblivious to any concern other than your own smug elitist attitude., the quicker we suppress We The People, the better. The fact that you can sleep at night is testimony to your callous indifference and ruination of your own sacred trust to these united states of america. Remember, you WILL stand before God Almighty someday. May you dread that day to your own repentance
Hollie Brekke	In March, it was reasonable to shut down schools as no one knew how the virus would affect children or how schools contributed to the spread of COVID19. Thankfully, 8 months later we know much more, namely that open schools do not drive numbers of cases upward and that schools are the safest places for kids to be. As parents of school children, we have become the front-line workers of our children's education, while also having to be parents, friends, emotional support, and entertainment. We see their anxiety and depression levels rise at an alarming rate. As a result of Bill DiBlasio's decision to close schools again, medical experts, most notably the CDC, Johns Hopkins University and Dr. Fauci are beginning to speak out, schools are the safest place for children. The rate of infection in schools is still %0.15 schools are not to blame for the 3% of positive cases in New York. Dr Fauci said, "I think one of the things we need to do is to the best of our capability try to keep the kids in school". The Director of the CDC, Robert Redfield said this past week that K-12 schools, not just grades K-2, should remain open because they are the "among the safest" places kids can be and that closing schools amounts to "an emotional response". In California, students are becoming the most disadvantaged in the country. Schools in other states have been open but school closures are still in place. California high school students are missing academic and sports scholarships to other kids in other states who have a platform to perform. Will you let California kids continue to fall behind? Schools provide academic, emotional and physical support and in

	many cases, they provide a haven to at risk children. The science is pointing towards schools opening. Gavin Newsom said California will follow science in reopening, will you stand up for California kids and follow the science in opening our schools and sports programs. With cases on the rise, parents are asking the board of supervisors to keep schools open and create more opportunities for our students to be in school. The time for lockdowns has passed, our children need you to speak out for them. Please urge Gavin Newsom to open all schools.
Holly Hamlin	News breaking that the BOS is letting Barbara Ferrer mandate the livelihood of everyone living in the county. A shutdown - really? Her word overrides all if you? She needs to be removed immediately. Her word is God? The devastation this ONE WOMAN is causing is devastating. Restaurants are now throwing out tons of food that they have ordered to be served this week and their employee again will be without a job. This is stupidity at its highest. Do not let this happen! And if you do let Barbara Ferrer run the show, then why don't all of you quit because obviously you're not needed.
Ilya Kisin	
Isadora Quevedo Capizzi	
Jacqueline martinson	We need to save our restaurants and small businesses in Long Beach ! Stay open at 50% capacity is a fair compromise. Think of the back bone of this country and then think of how many lives have already been ruined or changed due to this extreme ordinance of shutting down the dining in or out option.
Jaime Klein	
Jaime L Whitton	Oppose restaurant outdoor dining closure in Downtown Los Angeles
Jake Smith	Any order to shut down restaurants, especially outdoor dining, is not grounded in science and will lead to more destruction than the virus.
jakleen charitan	They health department and Barbara Ferrer have no right to shut down restaurants. They have spent thousands to set up for outdoor dining which is ridiculous anyway. How dare you shut these businesses back down. People deserve to have their businesses. The heath department and the governor have no right to take the livelihood away from people. This is criminal.
James Brighton	
James Griffin	Keep our small businesses in business!
James H Ritson	Opposed to Closure of Restaurants, Breweries and Wineries
Jana Lee	Oppose decision to end on-site and outdoor dining as this will crush the already suffering food and beverage industry and all it's employees.  Please reconsider.

Janey Perle	Closure of restaurants. The closing of restaurants will NOT stop the spread of corona virus. It might deter it from spiking, but when the restaurants are open, it will spike again. Additionally, people can't take anymore closures and loss of income. We are hanging on by a shoestring while you keep you health care and salaries. Stop the madness and gives us some help.
Janice S Lucas Volk	Please reconsider the closure of outdoor dining of restaurants in Hermosa Beach. I am particularly concerned for the welfare and psyche of the restaurant workers and owners in light of the fact that it appears that a stimulus package is not in the near future in time for the Holidays. We have already heard from one beloved neighborhood diner that they are closing their doors after 35 years because of this recent order. A recent Princeton study does not indicate that outdoor restaurant dining is a vector for spread. Please reconsider this damaging order.
Jason Fairchild	
Jason Fergerstrom

Jen Ary	
Jen Meyers	Oppose closure of outdoor dining
Jenna Betten	Do not close outdoor dining
Jennifer Flaherty	Outdoor dining is absolutely safe and the restaurant owners are following the safety requirements. If you are at risk, stay home, if you feel comfortable, then get out and support these businesses.
Jennifer Graves	S-1  PLEASE KEEP OUTDOOR DINING OPEN. Restaurants have fput in a lot of work and money in order to keep their doors open, keep people employed, put food on all our tables, and not to mention it helps bring a little "normalcy" back to many people's lives, mental well-being something to look forward to now and then during these tough times. I OPPOSE SHUTTING DOWN OUTDOOR DINING.
Jennifer Morales	
Jennifer Robinson	Shutting down restaurants will mean my kids can't afford college. My friends will lose their family businesses and there is no proof that the virus is being spread by these places.
Jennifer Toomey	I oppose S-1. We accept 50% of outdoor dining but please don't close out restaurants. There will be a loss of too many restaurants that will not be able to reopen after another shutdown and so many people out of jobs.
Jennifer A Westmoreland Nelson	I have no fears in stepping foot on/at an establishment that is practicing and obeying the rules set forth to protect all individuals. Outside venues in particular is what I see the best thing in keeping our being the best it can be during these very difficult times. Being in the great outdoors gives us the

			sense of freedom and the socialism we all need in order to keep us sane. Locking up the outdoor venues, just pushes people to gather on their own - unprotected, causing what I feel is what is causing these outbreaks. The more you take the away, the more people will rebel. If the distances are kept, masks worn, and hand washed - you have a win win situation with the people's health, restoring economy, and people's jobs.
	Jennifer L Jones		We oppose the proposed closing of outside dining in the restaurants in LA County and elsewhere. The irreversible damage to these businesses and the negative effect on our economy will have lasting and devastating effects.
	Jennifer W Weigel		We cannot allow these businesses to fail.
	Jesse Boyer-Gomez		Do not lock us down. We are broke and unable to pay anything as it is. How are we going to do this to so many other people. If you are vulnerable stay home and do not have any guess. Everyone else needs to exercise common sense!
	jessica afelt		
	Jessica Barbuto		
	Jessica Miller		
	Jessica Spencer		
	Joan Flannery		
	JoAn Mack		I respectfully oppose the Covid lockdowns. People need to work and go to school. It is also unconstitutional. We cannot allow our rights to be taken away.
	Joanne K Consroe		Please vote to continue outdoor dining in a safe way! We will accept 50% capacity. It is essential for businesses and for our mental health!
	Joanne R Peressini		Oppose S1
	John Brittain		As a business owner and insurance agent for many bars and restaurants in my area... I beg that you do not close the outdoor dinning. The science shows that only 3.1% of cases can be traced back to restaurants. These people that are getting it are getting it from their friends and family that are with them at the bar/restaurant. If you close them down they will just hang out at their homes and get it... I understand the worries that you may have for the lives of our people, however it is the choice of the person that is going to the restaurant/bar... Shutting them down will NOT stop the spread... But, it will destroy the businesses that are already damaged...
	John J Land		s6
	Joni Consroe		Please vote to continue outdoor dining! I support local businesses and this will destroy them. I also feel that safe outdoor dining is critical for our mental health and having a few hours of interaction with others offers some sense of normalcy during this highly stressful time. PLEASE OPPOSE THIS ORDINANCE. Thank you, JC

Jordane ANDRIEU	No Prohibition of outdoor dining please
Josh Camacho	No
Juan Venegas	I oppose the closure of Restaurants and the stay at home order. It severely damages the small business industry.
Juleigh Piscioti	I oppose the outdoor dining ban. Please consider the 700k jobs that will be lost if this ban is approved. We can't afford this. This is an example of where the "cure" is worse than the issue.
Julie Carroll	Shutting down of outside eating at restaurants!
Julie Chobdee	Oppose Outdoor Dining Ban
Julie A Grant	Closing restaurants with the present age of covid cases that actually cause death is unacceptable. We have families starving because their Moms and Dads can't work anymore. Please be reasonable and listen to the science instead of our asine Governor!
Julie M Flood	
Kamie Hallock	Please keep outdoor dining available.
Kara Johnson	
Karen Edlefsen	
Karen K Preston	There is NO CLINICAL DATA for this action. This will cause irreparable damage to business and destroy our shopping, dining and community areas for absolutely NO REASON. This would NOT decrease Covid spread. Business owners and citizen have RIGHTS to use common sense NOT arbitrary FIAT ORDERS from LA officials without ANY LOGICAL REASONING. I OPPOSE!!
Karen L Varon	I oppose the proposal of closing outdoor dining in the South Bay and Palos Verdes Peninsula.
karen t schweter	I oppose the shut downs of outdoor dining. Dining in restaurants did not spread COVID. They are wearing masks,shields, wiping down tables, additional sanitizing have been in place. It was the Mass Celebrations in LA for the Dodgers and the Lakers. By shutting down out door dining, after so many restaurants spent thousands of dollars for heaters, build outs, etc, your putting a knife into the heart of our Hospitality Economy. More Restaurants will not be able to survive another shut, therefore placing more people out of work/Potentially homeless/getting sick from lack of funds to provide food with nutrition. These all leads to depression/mental health issues. Don't forget how the crime rate has gone up during the shut downs. Do not punish the Hospitality industry, due to the lack of sense some people have , and those same people will continue to gather , regardless of the restaurant shut downs. I urge do not shut down outdoor dining. Thank you! Karen Schweter
Karie Kurey	OPPOSE the ban on outdoor dining

Karim A Megji	NO EVIDENCE!!!!
Kat Vacharabul	I oppose the closure of outdoor dining, this will ruin the economy of restuaranteers that spent thousands of dollars building outdoor dining areas to accommodate the outdoor dining protocols. If Orange County is still open for outdoor dining than Long Beach should be open too!
Kate Harris	Keep small businesses open!!! Restaurants and salons are suffering!!!! You are killing our livelihoods!!!!!!
Kathii Adkins	Please do not shut down the restaurants . It is unfair to these people and no data supports the fact that eating outside at a restaurant is a big risk for getting COVID. I am extremely unhappy with any more shut downs of our businesses. Peoples lives are being ruined. Thank you
Kathleen M Lopez	Don't shut down restaurants! They are doing everything they can to survive. Please use common sense and allow people to guard their own health. We can choose on our own.
Katrina Wright	The more people infctected and asymptomatic is a good thing because this will create herd immunity. The arbitrary numbers from Dr. Ferrer is going on is revolting! This is a trafity for all Californians this affects. She is an activist and this mandatory order is uncalled for!!! The cases are high due to testing more! If you care about this great state you will vote against this restuarant killing of our society! The damage this will cause will be irreversible!!!
Katy Allen	I'm AGAINST the order to close the outside dining at restaurants in LACounty especially within Santa Clarita that have adhered to the ever changing rules. I have visited several restaurants and dined outside I've seen 100 percent compliance at every restaurant I've been to. Taking away the ability to dine outside is just another hit these businesses & the already struggling employees. I think we also deserve a health official who is an actual medical doctor!  Why punish all restaurants if a few rogue restaurants haven't complied .. if the belief that people have contracted the virus at restaurants I truly believe we'd be seeing more widespread from everywhere Honestly this is a knee jerk reaction imo.
Kelly Merrill	Outdoor dining
KELLY MORQUECHO	
Kelly Wedbush	I oppose the closing of our outdoor dining for our local restaurants. Please reconsider. It will only cause people to gather indoors for the holidays instead of meeting for outdoor events at restaurants! Not to mention the damage it will do to the restaurants, having to close during the season.
Kelsey Costanzo	
Kelsey Stewart	
Kelsie Bauer	OPPOSE OUTDOOR DINING BAN

Ken Miller	Closing outdoor dining
Kenneth Becerra	We need business to them from shutting down due to a financial crisis. Keep businesses open outdoors while of course still maintaining health precautions as we were
Kenneth McAuley	I oppose the closing of restaurants!!
Kerry S Underwood	Enough with destroying small business and such, keep our store and restaurants open and play by the rules, the ones that have to do with honesty and morality.
Kevin J Pluimer	I oppose the proposed restaurant closedown due to Covid concerns -- please look at the science and STOP this over-reach of government that will hurt more than it solves
Kim Orłowski	I oppose a further shut down to local businesses including restaurants, salons, etc. Stop putting unnecessary and unfair hardship on our local community.
kimberly tedder	
Kimberly A Jaffe	I oppose the mandatory shut down of outdoor dining, as well as the 10PM curfew. I work with dozens of restaurants throughout the county due to my company and as a Los Angeles Entertainment Concierge. By enacting this ordinance, hundreds of restaurants will be forced to close forever. Majority of the restaurants do not profit off of takeout and/or delivery and now they won't be able to survive. As for the 10PM curfew, that means a restaurant has to take their last reservation at 8:30PM. It would be better to enact an 11PM curfew, or all restaurants will lose thousands of dollars in lost revenue due to taking away later reservations. On average, a diner spends 90 minutes at a meal. That means everyone has to be out of a restaurant by 10PM, with the bill paid and walking out the door. Numerous studies have shown there is a very low percentage of people who contract Covid during outdoor dining. The majority of people contract the virus because of large group gatherings and not wearing a mask. It's pathetic how wearing a mask is required in West Hollywood, Santa Monica, Manhattan Beach, and Beverly Hills. But it is rarely enforced and/or ticketed. Some restaurants have spent as much as \$70,000 on parklets and now they won't be able to be utilized. How awful is it for a restaurant owner to tell their staff they are being laid off or furloughed right before the holidays. There are other ways I've dealing with the pandemic, such as enforcing masks, targeting the restaurants that are obviously not following the safety protocols, and breaking up large crowds. Perhaps you can set up a hotline where people can anonymously report parties and large group gatherings. People see them in their neighborhoods all the time and there's nowhere to report these incidents. I beg of you, as well as I know thousands of restaurant owners feel the same, to please not close outdoor dining, as well as to change the curfew to 11PM. Please do the right thing by the residents of this county. Thank you.

Kristen Butler	
Kristen Leone	<p>In March, it was reasonable to shut down schools as no one knew how the virus would affect children or how schools contributed to the spread of COVID19. Thankfully, 8 months later we know much more, namely that open schools do not drive numbers of cases upward and that schools are the safest places for kids to be. As parents of school children, we have become the front-line workers of our children's education, while also having to be parents, friends, emotional support, and entertainment. We see their anxiety and depression levels rise at an alarming rate. As a result of Bill DiBlasio's decision to close schools again, medical experts, most notably the CDC, Johns Hopkins University and Dr. Fauci are beginning to speak out, schools are the safest place for children. The rate of infection in schools is still %0.15 schools are not to blame for the 3% of positive cases in New York. Dr Fauci said, "I think one of the things we need to do is to the best of our capability try to keep the kids in school". The Director of the CDC, Robert Redfield said this past week that K-12 schools, not just grades K-2, should remain open because they are the "among the safest" places kids can be and that closing schools amounts to "an emotional response". In California, students are becoming the most disadvantaged in the country. Schools in other states have been open but school closures are still in place. California high school students are missing academic and sports scholarships to other kids in other states who have a platform to perform. Will you let California kids continue to fall behind? Schools provide academic, emotional and physical support and in many cases, they provide a haven to at risk children. The science is pointing towards schools opening. Gavin Newsom said California will follow science in reopening, will you stand up for California kids and follow the science in opening our schools and sports programs. With cases on the rise, parents are asking the board of supervisors to keep schools open and create more opportunities for our students to be in school. The time for lockdowns has passed, our children need you to speak out for them. Please urge Gavin Newsom to open all schools.</p>
Kristin Hobson	
Kristin Lopez	I oppose the ban on restaurants being allowed to remain open. That is going too far.
Kristina holm	
Kristine Jewett	Oppose
Kristine Rietze	Please don't make these businesses suffer more! Allow those who want to go out, go out. And those who want to stay home, stay home!

Lauren Lowry	Outdoor dining banning  These restaurants have invested in outdoor dining and it is safe to eat out doors. The weather change will naturally decrease dine out we don't need to put them out of biz
Lauren McFadden	Oppose" in regards to Item S-1, specifically the prohibition of Outdoor Dining.
Laurie Hadley	Oppose
Leo Corral	Save Our Restaurants, Maybe 50% but not a FULL Shutdown.
Lesha Hennessey	It is criminal to force the closure of businesses who are trying to feed their families and allow employees to earn a paycheck at ANY time much less going into the Holiday season. They are not responsible for the spread of Covid any more than you are. I am appalled at the lack of character, compassion & common sense our leaders are showing in this proposal!
Lilly Wedbush	I oppose the closing of our local restaurants for outdoor dining. It will cause irreparable damage to the restaurants and their staff during the holiday season.
Lin Marcos	Allow restaurants outside dining, please.
Linda Kavalsky	I oppose closing the outdoor restaurants and wineries. All I've been to have complied and are very careful. Parties in our neighborhood are the spreaders. They have them every weekend with tons of college age kids. This is so awful for restaurant owners...and if they don't comply close them down! Gym's are open no one is coming around closing them.
Linda A Frieden	Do NOT Stop outdoor dining in the Hollywood Riv. It is not necessary!
Lindsey Doiron	
Lindy Lekavich	
Lisa Frka	I strongly oppose the ban on outdoor dining!!
Lisa Gilbert	Lock down. I do not believe there is sufficient data to justify such drastic measures. Additionally, I believe it is unconstitutional and a violation of personal rights. I'm never out past ten but I should have the option since I live in America, Land Of The Free! If this overinflated illness were as serious as they would like us to believe, Governor Grusome wouldn't be Parting and traveling to Hawaii for a conference. He'd be stuck home doing Zoom meetings like the rest of us. Must have taken lessons from Aunt Nancy. Hypocritical elitists! This is NOT China (Yet).....
Lisa Monahan	
Lisa Nash	I oppose the outdoor dining ban. Our businesses have to be able to thrive in some manner.
Lisa Simmons	I want restaurants to be open. Everything should be open. I am against the stay at home order.

			Lora Vrastil	
			Loren Kreiss	The restriction on outdoor dining is over-broad and punitive to small business. Why not consider additional restrictions instead of shutting down these businesses? For example, 2 person max party size, tables 10ft apart minimum, no tents/open air, max dining time 1 hour. It is indoor gatherings and events being done at people's houses that is the problem. Enforce that and don't punish business. I would also hope that there is no thought being given to closing retail when companies are barely hanging on. You should be looking for ways to add restrictions to help the public instead of looking for an excuse to shut everything down. This is shameful. Show us the data about outdoor dining and retail spiking COVID. As business owners and consumers we will accept restrictions that allow businesses to safely operate but shutting businesses down is malpractice.
			Lorrie Rose	Closing small businesses that continue to meet CDC guidelines, is detrimental to our community and is not helping to slow down the spread of the virus. We urge you to not endanger another family owned business. They should not be less important than Costco, Home Depot, Vons and the countless other large corporate owned businesses that have not been shut down during this pandemic.
			LUCIA C VUJOVIC	Also let the people decide about Sheriff Villanueva as he is an elected official. We, the people will decide the next time we vote if he stays or goes. You should do your job, and let us do ours. Thanks
			M Sharp	Oppose closing restaurants. Too many people and business have already been destroyed with the shutdowns this year, and no one can afford another one. No one is forced to eat at a restaurant or to staff one, but we are grown adults who have the right to choose if we want to or not.
			Mackenzie Rouse	
			Macy Miller	
			Mandy Loughran	I oppose the public health order to close outdoor dining. I do not believe that science shows outdoor dining to be what's causing the rise in cases. People are getting together with other households and socializing as if the virus does not exist. I know there's no way for you to control what people do at their homes, but it's why the cases are increasing. My family and I do not socialize outside our household and have been following the recommendations. Outdoor eating has been something that had helped us feel normal and had helped us continue to persevere through this nightmare. Taking it away will make us feel further isolated. More importantly, I can't help thinking about all of the people who will lose their jobs and the restaurants who cannot make it through another shut down. We must stay open and with safe precautions. The problem is not the businesses who are following protocols. It's the people who refuse to listen to science and sacrifice socializing. Please reconsider this order.
			Manon Goodrich	Restaurants will accept a 50% reduction of occupants. The restaurants have been following all safety criteria and there is no reason to completely

	shutdown outdoor dining. Additionally, many people depend on their jobs at these restaurants in order to pay their bills and and be productive and beneficial members of society.
Marce Ami	
Marcelina Slota	
Marcia Neumann	Oppose closure of outdoor dining!
Marcos P Sanches	Closure of outdoor dine-in. Please review this measure. Force restaurants to get acrylic shields to place between tables and enforce health department rules. Give them a chance. People will gather in private parties instead, harder to regulate and higher spread of virus.
Margaret Dano	Please do not ban outdoor dining! Thank you
Margarita Rodriguez	
Marguerite Mahoney	
Maria Impala	Supporting restaurants and supervisor Katherine Barger in opposing closure of restaurants by L A County health.2DGPE
Mariceli Tio	I do not agree that the science justifies these un lawful closures. I understand we need to stop the spread but we need to come up with solutions that will not further devastate the finances of LA county residents.
Mariette Dean	I oppose the ban on both outdoor and indoor dining in Los Angeles County. Open all restaurants now!!!
Marissa Rubalcava	The prohibition of Outdoor Dining. Keep outdoor dining open. I have been a person who has enjoyed the pleasure of outdoor dining. I fortunately, have not gotten Covid. I know more people who have gotten sick from home gatherings than anywhere else.
Mark I Goodhart	Where is the support for the millions of people facing financial ruin due to your forced business closures? Countless small business owners and employees have followed all the rules and precautions, and spent their currently marginal funds on plexiglass barriers and other such COVID countermeasures, only to be told to close again with absolutely no financial support offered. Many businesses in LA county have been closed since March, earng zero income for eight months straight. Why have the public health departments of LA county spent those same eight months failing to improve contact tracing, testing, and healthcare infrastructure, and instead forcing closures and shifting the blame onto the honest, hardworking people of those closed businesses? Why the recent outdoor dining ban, despite outdoor dining operating since June with no contribution to an increase in COVID cases? If you are capable of seeing these struggling small business owners and their teams as people in need of aid, rather than just sacrifices whose ruin doesn't matter as long as it seems to benefit public health, despite no definitive evidence of it doing so, then please offer financial support for them.

Michael Bernier	
Michael Edwards	
Michael Friedlander	If the French Laundry restaurant in Yountville, Napa Valley, the most expensive restaurant in the country can be open and operate, why not restaurants in the Los Angeles area? In order to survive and continue business, we need to avoid further shutdown of outdoor dining.
Michael Karr	I "Oppose" ecomment in regards to Item S-1, specifically the prohibition of Outdoor Dining, but I'll accept a 50% reduction as a compromise.
MICHAEL PORTER	I am an attorney licensed to practice in California. I have been a member of the Semler wine club for many years. I know the people involved and can vouch for their character and for the fact that they have, and will continue to abide by and exceed the rules and precautions necessary to run Malibu Wine & Beer in a responsible and safe manner.
Michael Sklar	The city is imposing a senseless order to close outdoor dining when there are no statistics to support this and the city is unwilling or unable to provide statistics as to the effect of outdoor dining on the spread of Covid. In order to regain public trust I believe the city must provide these statistics before enacting the closure. For a city that supposedly supports science and reason this measure does neither and further erodes the small remainder of public trust and support in the city counsel and government of Los Angeles.

Unemployment is not enough to keep our people housed, feed, clothed, and safe. WE are already at limited capacity and taking full safety measures, there is no reason to close us down.
Michelle Clemens	Do not close restaurants and other small businesses. This is hurting everyone for years to come more than covid itself!
	Oppose

Michelle Del Guercio	
Michelle Sugi	I oppose the outdoor dining ban. With less than 10% of cases via restaurants it doesn't make sense, medically or economically.
Michelle Zak	I am against the prohibition of outdoor dining. Instead do a 50% reduction. Closing is the wrong decision for these businesses. Keep them OPEN!
Mickey Hawke	Oppose" ecomment in regards to Item S-1, specifically the prohibition of Outdoor Dining. I can accept a 50% reduction (its all compromise) but to shut it down completely is unreasonable.
Mike Bushaw	We oppose the shut down of the restaurants, et al, that will only make the businesses have to close down permanently and possibly loose they're families with no income.
Milena Albert	What happened to American Liberty? We start with control when businesses can and cannot function, kill all the business we can then make everything government owned? Is that the plan? At this rate between suicides and if we commence a civil war more people could die than because of Covid. Has anyone thought about it.
MJ J Babyak	Protocols followed , no problems. Outdoor events should be allowed.
Mondy Saidi	It is outdoor - tables are separate and people keep their space. And it's adults only so no kids running around and touching things. It is well needed. It's like a outdoor park. Please keep it open.
Monica DeMoulin	Outdoor dining should be allowed.
Monica J Richardson	You can not close out door dining again - are you insane or all so out of touch with reality - Restaurants are not even on your health lists of where out breaks are happening - 700,000 people will be out of work - you jerks have fined business while the filthy HOMELESS lay all over the west side of LA doing whatever the --- they want - I am no longer paying my property Taxes till you all get to work opening our city - if you have no generation of revenue NONE OF YOU SHOULD GET a salary - this is outrageous - I will not comply and I will be out in the fresh clean night air every night after 10 pm just like the 60k homeless breaking laws , stealing our cars and bikes. OPEN UP OUR CITY - btw the film industry is already leaving/left for RED STATES - Sincerely - Monica Richardson
Monique Dugas	This is an over reach by the governor who doesn't follow his own guidelines. Oppose closing our local businesses!!
Monique Johnson	
Morgan Wehsener	I oppose the prohibition of outdoor (and indoor) dining to all restaurants. Open immediately
Morgan C Grimes	I am opposing the shut down of outdoor seating for restaurants in LA! They should remain open!

Nickolas R Baird	
Nicole Pagel	I oppose Item S-1, specifically the prohibition of Outdoor Dining. I accept a 50% reduction.
Noel wilmarth	Oppose
Pat OKeefe	Please open outdoor dining
Patricia Sachs	Although I agree with many of the restrictions imposed upon us to stop the spread of the coronavirus, I strongly feel that the restrictions have gone too far in shutting down outdoor dining. Outdoor dining is one of the few places where we actually feel safe, and restaurants have spent a lot of time and money making sure they can provide a safe environment for their customers, and this latest blow to restaurants, especially during the holiday season, will needlessly destroy them.
patricia schofield	We opposed the outdoor dining ban in LA County! This is outrageous, not in line with science and devastating to our Restaurant owners and workers
Paul M Hawkins	See uploaded file
Pooja Pandey	
Rachel Wilkes	
Radka Gentile	I don't believe people should loose their business!
Randy Morris	Please reconsider upcoming order by fake doctor ferrer to close businesses and stay at home orders. People are sick and tired of all these fake restrictions. No science!!! If the governor can go out and those administrators go to Maui . We the people can get on with our lives. Or is it, Don't do as I do but do as I say!!!!!! What hypocrites!!! Decide this day whose side you're on!!!! I'd like to be in Maui too!!!!??????
Randy Plotkin	Opposed to closing outdoor dining outright. The economic harm far outweighs any benefit from the order.
Ravi M Sharma	Per Supervisor Barger. less than ten percent of cases are attributed to outdoor dining. This is affecting the livelihood of real Angelinos. Instead, why don't you require restaurants to take down the personal information of ALL

	diners (name, email, cell #). This would make contact tracing that much easier in the event a case is discovered related to outdoor dining. Right now there's no tracking of guests at the various establishments. Please reconsider this Health Officer order and allow these hard working people to earn a living.
Ray Gaitan	Do NOT initiate another stay at home order ! It did not work before, it will not work if tried again. It is severely damaging to a majority of people, industries and our society. Your decision will be remembered come Election Day.
Raymond Stewart	Properly spaced outdoor activities are OK. Indoor activities which are improperly spaced/ventilated.  Quit putting everyone out of business, look at Culver City, they have spaced outdoor dining in the streets and it works.
Rebecca Garcia-Prieto	To the Board of Supervisors and Mayor Garcetti, If our hospitals are not overrun, then NO LOCKDOWN! You are destroying small businesses and restaurants because of your ignorance. There are therapeutics you are withholding from the public and information. You are not following the science! Small businesses and restaurants are taking more precautions to remain open than the big corporations like Walmart, Target, Costco, etc... And really? Liquor stores can remain open? Unbelievable!! This latest order to lockdown for 3 weeks is unreasonable, Immoral and Unconstitutional. Rescind the order now!!!! In addition, schools should be open!!! You are damaging our youth, by your ignorance, and have jeopardized their physical, mental, and emotional well-being! ENOUGH IS ENOUGH!!!! Also, you need to read Alex Berenson's book, The Facts about Covid-19, Part 1 and Part 2, you may learn something. Thank you. Rebecca
Rebecca Leal	Oppose
Rebecca S Vaughan	This needs to stop! Shutting down our local restaurants, then reopening and then shutting them down AGAIN is beyond devastating and crippling to our local businesses. "Takeout" is not going to keep our restaurants afloat and alive. Not to mention most of these businesses have not even qualified for the loans that have been offered. Businesses throughout the County have invested thousands of dollars to ensure the safety for their employees and customers only to be punished for the recent surge they have done everything in their power to prevent. In fact, most of the surges can be traced to large private gatherings, not so much to restaurants that are taking the right precautions. You cannot shut businesses down right before a holiday that they have invested in to prepare for. Let people be responsible consumers and make their own decisions.
Regine Shafton	
Renee Parkhurst	I oppose the closing of outdoor (and indoor) dining, and demand this to be dropped immediately

	reverberate throughout our communities for years to come. Please reconsider your actions.
Ryan Vincent	I oppose to the outdoor dining shut down. Outdoor dining has been open since June and if it was the sole contributor to an breakout it would've happened months ago. Shutting down now will only increase the number of restaurants permanent closures, drastically increase unemployment, and give thousands of restaurant workers no chance of affording their bills, their family's, or their health care.
Ryan S Bender	Oppose
Sabrina Cundiff	
Sacha V Mederos	I oppose the closing of indoor and outdoor dining.
Sam Lee	I firmly oppose the restaurant restrictions that will take effect later this week. You are destroying the economy and people's livelihood. People will not forget this for the next election.
Sandra Kawahito	Please keep outdoor dining open!!!
Sarah Schneider	Do not shut down outdoor dining. This is not okay! None of you will have my vote if this continues.
Scott Allen	Stop the madness
Scott Marintsch	
Scott Nicol	<p>Honorable Board of Supervisors and Dr. Ferrer,</p> <p>The City of El Segundo strongly opposes the proposed Los Angeles County Health Officer Order, restricting on-site dining at restaurants, breweries, wineries and bars effective Wednesday, November 25 at 10:00 p.m. to slow the spread of COVID-19 as the County experiences a surge of cases. The City respectfully requests that you reconsider the modifications that will further devastate businesses in our community to the point of no return. Our business community has expressed concern that these restrictions will hurt already struggling businesses, who have made extraordinary efforts to invest in personal protective equipment to comply with all the Health Officer Orders to keep their customers and employees safe.</p> <p>According to new data from the Los Angeles County's Department of Public Health, COVID-19 cases traced back to the County's restaurants and bars accounted for just 3.1% or 70 of the total of 2,257 confirmed cases found from 204 "outbreak" locations.</p> <p>Additionally, hospitals are currently not overwhelmed. L.A. County has 17,000 non-ICU beds with a surge capacity of 11,482 beds if needed. Currently, only 10% of those beds are being used by COVID-19 patients. There are 2,500 ICU beds with an additional surge capacity of 4,067. There are currently only 401 ICU patients in ICU beds. In July, hospital non-ICU beds peaked at 15% never reaching the maximum capacity. In April ICU COVID-19 patients peaked at 40%, also not reaching maximum capacity.</p> <p>We understand the need to find the right path to reducing exposure and that</p>

	<p>difficult sacrifices must be made, but let's not put this on the backs of our restaurants, breweries and bars that have shown compliance to remain open.</p> <p>The City of El Segundo urges you to take action today by reconsidering the proposed modifications and present other options that strike a balance between economic recovery and the protocols to keep the public safe. Thank you in advance for your dedication to public health and your assistance with this request.</p> <p>Sincerely, Scot Nicol Scot Nicol Council Member of El Segundo</p>
SEAN M LARKIN	
Shaena Santana	The closing businesses makes "essential" businesses more Crowded. Police cannot enforce and businesses suffer.
Shanesa Fath	
Sharon Cahn	DO NOT CLOSE OUTDOOR ACTIVITIES INCLUDING EATING AND SOCIALIZING OUTDOORS. THERE IS NO SCIENCE BEHIND ANY OF THIS. AND STOP ENABLING PEOPLE TO BE LAZY AND NOT GET BACK TO WORK. THERE IS WORK OUT THERE.
Sharon Ronen	<p>This order is arbitrary and since there is no evidence that outdoor dining has caused any spikes in covid cases, it is truly nonsensical. Small businesses and Independent restaurants have suffered innumerable losses already this year. Not to mention many of them have spent thousands of dollars they don't have (possibly loans they will have to pay back) building infrastructure and purchasing heat lamps and PPE in order to meet the protocols needed for safe outdoor distance dining.</p> <p>We don't need to close outdoor dining in this city. How about instead of this silly ordinance, you have better enforcement in place for businesses not following protocols, for people gathering and having parties, for big biz stores not following the rules, and for public gatherings such as sports celebrations. That would make sense.</p> <p>We strongly oppose S1 as it is only harmful and has no upside. People would be forced to gather at home and that would actually be the cause of more spikes in cases.</p> <p>Please consider allowing restaurants to continue allowing outdoor dining, with protocols and regulations in place to ensure they are protecting customers and staff.</p> <p>Thank you for your time and particularly Kathryn Bargar for having the wherewithal and the guys to stand up against this ridiculous ordinance.</p>
Shea C	I oppose the prohibition of outdoor (and indoor) dining - open all restaurants immediately.
Sheila Price	Please don't shut down outdoor dining for restaurants, wineries and

	breweries. Why not put tighter capacity limits on them before completely shutting them down. You are putting people out of work at the absolute worse time of the year. How will these families pay their bills and feed their children. Please stop penalizing establishments that are taking all precautions and abiding by your guidelines. Shut down the offenders! Please stop making it an all or nothing situation. It's not fair to make the food and beverage industry take the brunt of Covid shut downs. Grocery stores and big box stores are filled with customers who don't social distance. You need to come up with better solutions. Start putting travel restrictions in place. Require visitors to have a negative Covid test prior to arriving. Mandate that they quarantine 14 days upon arrival. Stop making it voluntary. It's absolutely crazy to allow visitors in to the county without any restrictions. Stop the myopic solutions. Look at the big picture.
Sheridan McArthur	Ban on outdoor dining - oppose
Silva Thomas	Do not shut down. People are suffering. Businesses need to thrive.
Sophia Huynh	
Sophia Lardiere	I oppose the prohibition of outdoor dining. In July, LA had a >10% COVID-19 positivity rate. Without shutting down outdoor dining, the rate dropped to 5%. Dining is not the problem. Please let restaurants (who are following proper protocols) stay in business and continue to pay their employees.
Stacy Decker	
Stan DeWitt	The order to end outdoor dining would be devastating. Drop capacity a bit further, or make an adjustment, but closing again will be a death blow to too many businesses. Outdoor dining is safe with the appropriate protocols. Don't do this!
Stephanie Attoian	Do not close outdoor dining. The restaurants and their staff can't survive this again!
Stephanie David	I'm writing in to oppose the ban on outdoor dining without support and justification that a statistically significant portion of covid cases can be traced to outdoor restaurants. Many small businesses and restaurants are barely hanging on - this will be the final nail in the coffin for them. Restrictions need to be placed on big box stores that are completely crowded with no social distancing. Many restaurants are following every covid guideline. Looking at the publically available data - it seems that only 10-15% of cases are coming from dining in restaurants... many many more cases can be traced to manufacturing facilities that are not following the covid guidelines and continuing to operate. This data needs to be examined and released to the public.
Stephanie Durrett	
Stephanie Gonzalez	S-1
stephanie a aldrete	Oppose S1 Health Order to close outdoor dining in Los Angeles.
Stephanie A Hampl	YOU ARE ABSOLUTELY KILLING SMALL BUSINESSES AND

	RESTAURANTS!!! its unbelievable that the Public Health Department makes decisions like this without following the science and without ANY remorse, sympathy of loss of jobs, \$\$\$ relief, & restaurant business closures forever in our county! Haven't they suffered enough?! Federal Unemployment ends 12/26! What is everyone to do? Not to Mention 1000's of dollars of WASTED food restaurants purchased not only for their normal outside dining but their thanksgiving menu. and you give absolutely NO NOTICE!!! 3 days? PLEASE!!! I have no respect for your administration. YOU DONT CARE! this is arbitrary use of power not statistics!!! there is no proof of outside dining causing the spread. 3.1 % is said to be caused by restaurants!!! 31.2 is from GROCERY SHOPPING and BIG BOX STORES. 7.1% is from GOVERNMENT!!!! SAVE OUR BUSINESSES
Stephanje Kosger	We vehemently oppose closure of outdoor dining due to rise in Covid cases. There is no scientific substantiation for this ban (less the 3% of cases are traced to restaurant dining) and it will cause further and devastating damage to small restaurants and their workers. We stand with Chair Barger.
stephen c calhoun	I vigorously oppose any further lockdown of restaurants that would not allow outside dining. You are destroying businesses that employ many people that do not have the skills or education to find other work. This has been an extremely difficult year for the food service industry already, and now you will shut them down during the time of the year when their business is typically the strongest. You elected bureaucrats are so out of touch with the real world, it is unbelievable! Your paycheck and retirement is not in jeopardy regardless of what happens with the pandemic. Get on the private business side of things and see how the real world lives.
Steve Dunlap	Do not close outdoor dining. The damage to the economy and local businesses is extreme and overwrought.
Steve Smythe	Please do not impose a blanket ordinance on restaurants. Data will show that RESTAURANTS ARE NOT CAUSING THE OUTBREAK.
Steve Truex	
Sunnie Gonzalives	Closing of non-essential businesses. Financial and mental damage is being imposed on many.
Sunny Lauridsen	Our restaurants will suffer needlessly if the outdoor dining ban is imposed. Please consider the hard-working owners and employees who have navigated the various restrictions and asks over the past 8 months. Please do not pass the outdoor dining ban!
susan gallagher	I oppose full closure of outdoor dining.
Suzanne W Hahn	I would like to see businesses that have outdoor facilities stay open when they are abiding by approved covid procedures.
Tammy C Borda	Outdoor dining closure
Tara Adams-Clarke	Do not ban outdoor dining operations in LA county. These business have done everything properly to protect the public and their staff. This industry has suffered enough.

			Tara Nichols	I oppose the prohibition of outdoor (and indoor) dining - open all restaurants immediately!
			Tara Retes	I oppose the closing of indoor and outdoor dining. Open up all restaurants immediately!
			Tara Riggi	I oppose the shutdown of outdoor dining in LA county. Restaurants and it's employees are suffering and will not make it through to the end of the year. The number of cases are increasing but the number of deaths are not! No one is talking about deaths. Only cases. We are still less than 1% in the ENTIRE STATE.
			Taryn Landberg	I oppose the closing of outdoor dining at Malibu Wines and Beer Garden
			Taryn C Viole	Oppose
			Tasha Warren	Please don't close down restaurants
			Taylor S	Keep outdoor dining.
			Teresa Lugo	I oppose this order. Restaurants and bars should be allowed to stay open for indoor and outdoor dining, and adhere to the safety measures they've already put place.
			TerriL Zajec	There is no scientific evidence to support the shut down of outside dining with groups distanced 6 feet apart. If you can provide this evidence then let us see it.
			Thomas Amalfitano	
			Tiana Dafesh	Do not shut down public dinning
			Tiffani Adderly	I oppose closing outdoor dining in LA County. There is a balance between protecting the health of the community and protecting the livlihoods of its members as well. Restaurants have made changes and updates that have made outdoor dining safe and successful. If more updates are needed, fine, but closing it down entirely, leaves a large part of our population in an absolutely detrimental position. The damage that would be done to businesses and livlihoods in our community must be taken into account.
			Tiffany Olson	
			Tiffany Williams	
			Tiffany r argomaniz	
			Tim McLain	Small businesses are failing due to draconian edicts by government officials. This is the United States of America where we have personal freedoms. Let individuals make the decision on how best to protect themselves from Covid.
			Timothy Burke	I oppose outdoor dining ban.
			Timothy Sweeney	The discontinuation of outdoor dining....
			TINA BOIVIN	There has not been enough research on the effects that these radio waves have already had on human beings, and our environment. Everyone should

be made aware that the telecommunication companies and the government is pushing this forward without adequate research. Some research has been done that shows the health and environmental issues. (links to research given at the end of the letter.) I believe a government agency should set up to research the effect of radio waves upon human beings. We need to think about what's best for our children and our planet before we place any more satellites in the sky, or towers on our streets. We have to do more testing before these towers can be allowed into our communities. 5G activist has already halted 5G expansion in Netherlands, and Israel until further studies can be made

Telecommunication companies worldwide, with the support of the government, plan to roll out the fifth-generation wireless network (5G). We will have "smart" homes, "smart" businesses, "smart appliances," "smart" cars. Virtually everything we buy will contain antennas and microchips, which will be connected wirelessly to the Internet. Every person on Earth will have instant access to the super-high-speed network. But even presently in both Europe and the U.S., individuals living and working in proximity to newly installed 5G towers and antennas are already experiencing health problems such as insomnia, miscarriages, memory problems, and other neurological issues. Also, there are widespread reports of the annihilation of insect and bird populations.

Whether or not we find these claims credible and bonified, we need to have government scrutiny for safety sake. Please read some examples of research that proves that there is indeed a problem which exists NOW and then does the research yourself. Ask yourself, what side of this issue, do you want to be known for.

Are you aware in order to transmit the enormous amounts of information using 5G, it will use millimeter waves which does not transmit well through solid materials: wood, stucco, brick, etc.? So to solve this problem, in every urban area in the world, base stations will have to be installed every 100 meters where previously there were single broadcasts over a wide area. Unlike previous generations of wireless technology, in which a single antenna broadcasts over a wide area, 5G base stations and 5G devices will be forced to use many antennas that will emit laser-like beams that track each other. (Hong W, Jiang ZH, Yu C, et al. Multibeam antenna technologies for 5G wireless communications. IEEE Tr Ant Prop. 2017;65(12):6231-6249. doi: 10.1109/TAP.2017.2712819.)

National Toxicology Program released final reports on rat and mouse studies of radiofrequency radiation like that used in 2G and 3G cell phone technologies. They concluded there is clear evidence that male rats exposed to high levels of radiofrequency radiation (RFR) like that used in 2G and 3G cell phones developed cancerous heart tumor. There was also some evidence of tumors in the brain and adrenal gland of exposed male rats. Female rats and mice developed cancer when they were exposed to RFR. [nih.gov/news-events/news-releases/high-exposure-radiofrequency-radiation-linked-tumor-activity-male-rats](https://www.nih.gov/news-events/news-releases/high-exposure-radiofrequency-radiation-linked-tumor-activity-male-rats)

An article written by "Physicians for Safe Technology," written in March 2019 states that 4 students and 3 teachers were diagnosed with cancer within 3 years. Parents knew that the cause of the cancer was due to a cell tower at

			safe.
		zachary j taylor	I cannot believe this is even on the meeting agenda. 10mm people in this city and we keep issuing these blanket orders. not one person from my gyms (pre re shut down) had covid, extremely low rates where I live but more blanket shutdowns when we have been shut down this entire time. I have traveled to Florida, Texas, where it is on the opposite side of the specturm and there are not huge spikes coming from businesses with implemented protocols. please quit killing our businesses.. we do not need another lockdown, the lockdown isn't working and people are not listening to you anymore. closing the restaurants will do nothing to stop the spread but will kill more people. where are the numbers with suicides, alcoholism, poor food choices, inability to exercise. this is nuts, please do the right thing and leave the already crippled restaurant industry alone in la county. please also reopen the gyms at limited capacity and start shutting down businesses that spread.. record low hospitalizations and deaths... follow the science already
	Other	Aaron Horst	I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. The housing and treatment provided by ODR have been crucial in reducing the spread of COVID-19 among the county's most vulnerable populations. Individuals who are experiencing mental health and substance use disorder-related issues need to have access to ongoing treatment in order to maintain safety. Someone who is experiencing acute symptoms in the community is less likely to have the stability needed to be able to follow COVID-19 related protocols. They are less likely to recognize the need for or remember to wear a mask, wash their hands, or isolate to the degree that is needed for their safety as well as the safety of those around them. This is why funding ODR is essential to the county's COVID-19 response. The pandemic is only continuing to intensify and services must intensify to meet it. ODR has a proven track record of supporting the safety and health of justice-impacted individuals with mental health and substance use treatment needs. The success of their programs indicates the need for expansion and as COVID-19 continues to impact LA County at alarming rates, the expansion of services must follow in order to ensure safety for everyone.
		Ada J Steib	Our small business and restaurant owners and workers deserve a place of employment. Keep our food industry open even if at half capacity or pay for everyones salary while you shut everyone down for a virus that has 94% survival. We must learn to live with covid like we have with the flu and every other virus. Take care of the people and don't lock us down not kill our economy
		Alete Arom	Dear Board of Supervisors, Please help us to keep restaurants open. As Los Angelinos, we are so tired of being told what to do based on orders that make no sense. Give us a choice -- for those of us that are high risk, we can eat at home, or do takeout. This is so unfair to small businesses that have done to much to comply with order. How is dining outdoors after checking temps, wearing masks to the table, etc, any more dangerous than shopping shoulder to shoulder at Costco? How can

	expansion and as COVID-19 continues to impact LA County at alarming rates, the expansion of services must follow in order to ensure safety for everyone.
Anastasia A Moglan	DO NOT CLOSE RESTAURANTS
Andrew Bourque	<p>In order to fully implement the groundbreaking recommendations developed by system-involved young people, and truly address racial inequality, the county must conduct transparent data collection that includes youth. Thank you Supervisors Kuehl and Ridley-Thomas for recognizing the urgency of this gap. By including Juvenile Data in the Criminal Justice Data Sharing Initiative, the County is recognizing that racial equity efforts must include our young people.</p> <p>[I believe transparency and accountability are essential to youth justice reform because it just makes the most logical sense when considering a well built community.</p> <p>LA County has the largest population of young people in the country, and the largest youth probation department. The disproportionate impact of the criminal justice system on Black, brown, and low income communities extends to our youth. I urge the Board to continue their commitment to the Care First vision by expanding on their courageous decision to make information about the County's use of incarceration regularly accessible. Addressing the root causes of harm in our communities by centering young people and community-based services will create a safer, stronger Los Angeles for all of us.</p>
Angelica Giangregorio	<p>The collateral damage being caused by the lockdowns in the form of mental health, economy, health issues, is causing more problems in the community than the problem itself. We need to be an example for the rest of the state. We can continue to operate while at the same time maintaining the public safe.</p>
Anicia Santos	<p>I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. Brian S Griffin	This Restaurant shut down is unacceptable. Now people will still gather, they will now gather in homes.. they will first go to grocery stores, then to the homes, both very high risk activities. The restaurant outing, limits exposure because of regulations and safety protocols that the restaurants have worked hard and spent money on. Please do not enforce the shut down.. let the restaurants stay open.

Brianna Resendez	<p>Please do not issue any more stay at home orders or shut down businesses in LA County.</p> <p>Small and mid size businesses are hurting and you are financially ruining people, poverty leads to poor health outcomes.</p> <p>There is mounting evidence that lockdowns (aka stay at home / shelter in place orders) are NOT effective. Below is an article from the Toronto Star from this weekend. Dr. Strauss outlines the ineffectiveness of lockdowns and the drastic cost to society.</p> <p>COVID-19 is NOT as deadly as we thought in March or April, for those under 70 it is LESS lethal than the flu. For context the flu has caused hospitals to be overwhelmed in LA as recently as 2018 (SEE LA TIMES SOURCE BELOW).</p> <p>At the time no measures that devastated businesses, wreaked havoc on mental health and violated civil liberties were put into place.</p> <p>The people of LA County are well aware of the risks of COVID-19 and are able to adjust their personal behavior without additional punitive measures.</p> <p>The stay at home orders and business closures are causing negative effects with no proven benefit. The logic of flatten the curve was to disperse infections over time, which has happened. It is now important to stop enacting measures that cause additional harm to the public.</p> <p>Furthermore, there is a direct link between obesity and COVID-19 complications and death, especially in those under 70. I think encouraging people to get exercise outside where the risk of transmission is low would do more to reduce the # of serious cases of COVID, than stay at home orders and business closures. You could also stress the importance of a healthy diet. Beyond individual responsibility, the obesity epidemic puts a huge strain on the healthcare system.</p> <p>In summary - please consider health issues beyond COVID when enacting policies that greatly impact the citizens of LA County. Issues such as mental health, poverty (business closures push people into poverty) and obesity's connection to serious cases of COVID-19 in those under 70. The citizens of LA County DO NOT want more stay at home orders, business closures and arbitrary restrictions that are NOT proven to stop the spread of COVID.</p> <p><a href="https://www.latimes.com/local/lanow/la-me-ln-flu-demand-20180116-htmllstory.html">latimes.com/local/lanow/la-me-ln-flu-demand-20180116-htmllstory.html</a></p> <p>TORONTO STAR ARTICLE FROM THIS WEEKEND ABOUT THE INEFFECTIVENESS OF LOCKDOWNS</p> <p>Dr. Matt Strauss Queen's University</p> <p><a href="https://www.thestar.com/opinion/contributors/the-saturday-debate/2020/11/21/the-saturday-debate-are-pandemic-lockdowns-causing-more-harm-than-good.html">thestar.com/opinion/contributors/the-saturday-debate/2020/11/21/the-saturday-debate-are-pandemic-lockdowns-causing-more-harm-than-good.html</a></p> <p>Every medical treatment plan comes with potential side effects. Every physician needs to consider whether the treatments they propose could cause more harm than good. In clinical medicine, a treatment generally only becomes widely accepted when high quality clinical trials are published in trustworthy journals to prove that its benefits outweigh its potential harms.</p> <p>The benefits of lockdowns to prevent deaths from COVID-19 are far from proven. The very best paper evaluating whether lockdowns save lives was performed by researchers at the University of Toronto, Drs. Chaudry and Riaz, and published by the Lancet. They took data from 50 countries reporting COVID-19 mortality and performed statistical analyses to see</p>

whether those that enacted strict lockdowns had fewer COVID-19 deaths. They did not.

A similar analysis, by a Dr. Leffler and colleagues, used data from 200 countries and was published in the American Journal of Tropical Medicine and Hygiene. It likewise found no effect of lockdowns on COVID-19 mortality. These papers can be criticized, and perhaps better data will one day supersede them. But for now, the cold, hard fact is that lockdowns do not seem to achieve what one might hope.

This might seem counterintuitive. Surely, if we all stay home, we cannot transmit the virus to each other, and if the virus doesn't transmit, it cannot kill, right? Well, no, it's more complicated than that.

For one thing, we will never have a perfect lockdown in which absolutely everyone stays home for all the time. More importantly, COVID-19 is not an equal opportunity killer. While the overall mortality is low (a recent World Health Organization bulletin estimated a less than 0.3 per cent mortality rate), it is up to 1,000 times more likely to kill someone over 70 than someone under 30. Therefore, the total number of deaths in a COVID-19 pandemic will not depend so much on how many cases there are but rather in whom those cases occur.

It's easy to imagine situations in which a general lockdown could inadvertently expose vulnerable people to COVID-19: if universities shut down and students are sent home to their older parents, if working people can no longer afford their rent and enter multi-family living arrangements, if daycares are closed so health care workers have to involve grandparents for child care etc.

This is why I favour a focused protection plan in which we pour resources into protecting society's most vulnerable, rather than subsidizing less vulnerable people to make unnecessary sacrifices.

And such resources we had to pour! The federal government has gone \$350 billion in debt this year to pursue misguided lockdowns. For reference, \$350 billion, adjusted for inflation, is more than we spent fighting the Second World War over six years.

That \$350 billion could have built two new hospitals in every city and town in Canada! If we purport to care about our elders, we must stop and imagine what \$350 billion could have done to ameliorate the chronic understaffing and sometimes squalid physical conditions of our long-term care homes.

How many lives could that strategy have saved? We need to ask such questions before we shoot ourselves in the other foot with a second lockdown. So much for the supposed benefits, what about the harms? Evidence thereof is mounting. Three times as many Canadians were contemplating suicide this summer compared to last. In British Columbia, overdose deaths nearly tripled. I do not expect such trends to improve during a cold, dark winter of lockdowns with no Christmas.

The Globe and Mail reported a spike in violence against women back in May and a slew of missed cancer diagnoses up to October. In my own medical practice, I met only seven patients with COVID-19 over nine months, but I was admitting folks to hospital with lockdown-related illness almost every day. One woman in her 80s, living in a retirement home, relied on family members to come feed her meals. When they were disallowed from the premises, she

	<p>stopped eating. She was eventually sent to hospital for symptoms of confusion and weakness where she was found to have biochemical evidence of starvation. In Canada. In 2020. The sheer inhumanity of that scene will stick with me for a long time. I could describe many others.</p> <p>Underlying each of those statistics, and all of the clinical vignettes I could share, is an ocean of individual suffering and family grieving that is not captured in the rising COVID-19 case counts featured in daily media reports. COVID-19 is a devil of a problem, but we must be mindful not to employ unproven strategies with the potential of making the problem worse. I am very hopeful that by focusing our attention and effort where it matters most, we could see our way through this in better shape overall.</p> <p>Dr. Matt Strauss is an assistant professor of medicine at Queen's University.</p>
Brigid Dowd	<p>I strongly oppose the most recent directive to close outdoor dining at restaurants for at least three weeks. There has been NO indication that covid cases have increased d/t outdoor dining, in fact, outdoor activities have been encouraged. The restaurants have suffered enough and need to be allowed to operate even in a limited capacity. How is it okay for people to go inside at stores (including big malls) but it is not okay to sit outside at socially distanced tables?! Please allow exception in LA County to allow outdoor dining to continue... our local restaurants will not survive another lockdown and neither will the morale of our residents. Thank you for your consideration.</p>
Bryan A	<p>Why are we only shutting down restaurants outdoor dining? This isn't furthering the spread of Covid. It's people at home going to see friends and family being too relaxed. In a restaurant everything is clean, sanitary and up to standards. This is not right!</p>
Caitlin B Lyons	<p>I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. The housing and treatment provided by ODR have been crucial in reducing the spread of COVID-19 among the county's most vulnerable populations. Individuals who are experiencing mental health and substance use disorder-related issues need to have access to ongoing treatment in order to maintain safety. Someone who is experiencing acute symptoms in the community is less likely to have the stability needed to be able to follow COVID-19 related protocols. They are less likely to recognize the need for or remember to wear a mask, wash their hands, or isolate to the degree that is needed for their safety as well as the safety of those around them. This is why funding ODR is essential to the county's COVID-19 response. The pandemic is only continuing to intensify and services must intensify to meet it. ODR has a proven track record of supporting the safety and health of justice-impacted individuals with mental health and substance use treatment needs. The success of their programs indicates the need for expansion and as COVID-19 continues to impact LA County at alarming rates, the expansion of services must follow in order to ensure safety for everyone.</p>
Cali Saylor	<p>Please let us keep outdoor dining. There are many other states that allow indoor and outdoor dining and they have lower numbers than we do. The restaurants are not the issue. It's all the parties people are having and the celebrating in the streets and other things that are causing numbers to go up. Socially distanced outdoor dining is safer than shopping at the grocery store</p>

	<p>your momentous contribution in moving Los Angeles toward solving homelessness – which you have led with heart and conviction – centered on what is right and good – and perhaps most importantly, a drive toward what is possible. Five years ago you had the audacity to flip the conversation from what was feasible to what was needed – and I believe were the only person that had full confidence that the citizens of Los Angeles County would pass Measure H – which for the first time made it possible to begin to comprehensively address homelessness.</p> <p>I thank you for your vision, for your leadership – and for showing us that we must always fight for what is possible. Thank you for making Los Angeles a better place.</p>
Dawn Lenzie	
Debbie Abele	Strongly oppose closure of restaurants
Donald G Krause	Stay-at-home orders are idiotic and insane keep trying the same thing and they don't change anything. crushing the economy does worse things than covid-19. do the right thing. realize you've made mistakes in the past.
Elayne Klein	<p>My understanding is that there is talk of shutting everything down again. The restaurants that have outside dining have been closed again. These people spent a lot of money so they could stay open and survive. Our economy is already tanked from the lock down. Believe me, I am one that is really careful and have not gone to a restaurant at all but that is my choice. I have lived here all my life and I am in my sixties. I have watched this city go down hill with taxes, homeless people, etc. I am trying to think about how I can move to another state. But completely shutting down will only make things worse.</p> <p>There is already panic hoarding again. I will keep staying home safe but that is my choice. I know the health dept. is going on science but listen to the doctors too. I don't need to work but I feel so sad for people that aren't able to work due to the lock downs. I worry that California will never recover.</p>
Elisabeth Kanyer	OPEN THE RESTAURANTS NOW!!!! You're harassing us with health department officials and wasting tax payer money while there are 60k homeless and encouraged gatherings like protests and sports celebrations. SHAME ON YOU! OPEN THESE UP NOW! We have 110k signatures and counting for some serious litigation if were not heard!!!!
Elizabeth Brown	Passing the Public Health Counsel program without a retaliation provision will make it in effect, almost useless. In my 15 years of talking with low-income workers about their working conditions, I have noticed protection from retaliation is the largest factor in workers being able to make a change about their work situation. The pandemic is a moment for us to think about how society can change for the better. Put yourself in their shoes, and make sure workers do not get fired for using their voices to protect themselves, their families, and their communities.
Emily Oberhand	Why shut down restaurants all together? Do you realize how much money was spent reorganizing to meet guidelines (infrastructure for outside dining included).

	<p>Restaurants have been open for months, while the increase of cases has only been very recent. There is no correlation. In fact, shutting down public places that abide by guidelines will only encourage people to gather indoors without a mask.</p> <p>There are many things you can do before completely shutting down outdoor dining. Some examples are requiring a mask when the servers walk up, or requiring contactless menus.</p> <p>Separately, it astonished me that outdoor dining with minimal contact would be banned while indoor shopping remains allowed.</p> <p>Think about your fellow Angelenos who depend on restaurants for a source of income.</p>
Erin Johnson	<p>I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. The housing and treatment provided by ODR have been crucial in reducing the spread of COVID-19 among the county's most vulnerable populations. Individuals who are experiencing mental health and substance use disorder-related issues need to have access to ongoing treatment in order to maintain safety. Someone who is experiencing acute symptoms in the community is less likely to have the stability needed to be able to follow COVID-19 related protocols. They are less likely to recognize the need for or remember to wear a mask, wash their hands, or isolate to the degree that is needed for their safety as well as the safety of those around them. This is why funding ODR is essential to the county's COVID-19 response. The pandemic is only continuing to intensify and services must intensify to meet it. ODR has a proven track record of supporting the safety and health of justice-impacted individuals with mental health and substance use treatment needs. The success of their programs indicates the need for expansion and as COVID-19 continues to impact LA County at alarming rates, the expansion of services must follow in order to ensure safety for everyone.</p>
Ernest L Moore	<p>The victims of the Probate court are growing!! I have been reporting these crimes to this board since 2017!! We need actions now!! You need to stop these fake COVID-19 restrictions and open the county up so you can face your victims in person!!</p>
Ezekiel M Lueder	<p>Please fix up your department health and the fix up the metro buses. Bus driver are not wearing the face coverings and some buses do not plexiglass for the bus drivers</p>
Gary Bonnet	<p>Closing businesses doesn't work people can practice putting and pitching at public golf courses and stay at least 6 feet apart while wearing masks. Don't be ignorant pencil pushers and learn something</p>
Greg Bashem	<p>Do the right thing for the citizens of Los Angeles and especially for all of the essential workers both represented or not keeping this City County State and Nation running. Thank you for allowing me this opportunity to speak out on their behalf. Happy Thanksgiving! Gobble gobble</p>

Jessica LoGuercio	Ending outdoor dining the day before Thanksgiving will be the end of the existing restaurants in Los Angeles. Special equipment ie heaters and tents have been purchased. Personel and food have been acquired for the long weekend. A weekend which includes Small Business Saturday. The Public Heath Website does not have the reason/science to explain why this is happening. Why can people go to Costco, fly on an airplane but cannot eat outside? Please rethink this decision. Thank you
Jessica Waligora	I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. The housing and treatment provided by ODR have been crucial in reducing the spread of COVID-19 among the county's most vulnerable populations. The success of their programs indicates the need for expansion and as COVID-19 continues to impact LA County at alarming rates, the expansion of services must follow in order to ensure safety for everyone.
John Milliken	As a business owner w 5 restaurants in los angeles I demand evidence to support the increased regulation against restaurants and outdoor dining. Dining should be allowed not only outside, BUT ALSO inside w proper HVAC and safety measures taken. I demand evidence to prove that an uptick in covid 19 cases stems from dining in restaurants or outside of restaurants. Those taking these executive actions to further destroy our city and the heartbeat of small businesssea need to be held accountable to their actions. This is unacceptable and downright ludacris. HALF-ASS ACTIONS ARE BEING TAKEN BY ELECTED OFFICIALS TO GIVE PLAUSIBLE DENIABILITY FOR THE RESULTS. "WE CLOSED RESTAURANTS, WE DID ALL WE COULD". Reckless... Factless and just downright stupid. We demand accountability.
John Russo-Zirkel	At this point in time we need to start opening the country instead of closing it down more. I left California for two months because it felt like a prison. I worked at a busy bar in South Dakota, and not one person contracted the virus. Even my girlfriend who has a compromised immune system, diabetes, and celiac was fine. It's becoming one of the happiest holiday seasons of the year, and if this continues families will not even have a home to celebrate in. Cases may be up, but deaths have gone down. There is treatment available. We should not have to suffer this lockdown anymore.
John Q Public	Please no more lockdowns.
Jose Mena	
Joseph Maizlish	Get more of society's savings from the private hands it drains into, and spend it on all the things you know need doing, needs the programs cannot reach because of financial limitations.
Joss Tillard-Gates	On behalf of Enterprise Community Partners, Southern California and our President of Solutions Jacqueline Waggoner I'd like to thank Supervisor Mark Ridley-Thomas for his unwavering commitment to civil rights, social justice, and the people of Los Angeles County.  His leadership as County Supervisor, representing District 2, has been nothing short of extraordinary.  Specifically, Enterprise Community Partners would like to thank him for his partnerships on <ul style="list-style-type: none"> <li>• the state-of-the-art Martin Luther King Jr. Community Hospital where Enterprise invested New Market Tax Credits;</li> <li>• the ground breaking report on Black People Experiencing Homelessness led by Jacqueline Waggoner as the Chair of the Ad Hoc Committee on Black</li> </ul>

	<p>invited to the conversation, Probation seems to have failed to prioritize and commit to being involved in this year long process of discussion, planning, and co-creating. Now in their response they highlight their lack of /limited involvement. One of the core beliefs that Probation states is Accountability - and it's time for Probation to be accountable as well. Accountable to the youth they are meant to "protect" and "rehabilitate." This in itself highlights the need for change. And if we have learned one thing throughout this very challenging year – is that change is possible. Because it is happening right now, with COVID-19, our society has involuntarily and unexpectedly had to explore other options. As a society and as a community we have seen that we can reimagine...anything. At this very point in time, we have a unique opportunity to co-create alternative solutions which center the lives and voices of youth. Thank you.</p>

Please do not issue any more stay at home orders or shut down businesses in LA County.

Small and mid size businesses are hurting and you are financially ruining people, poverty leads to poor health outcomes.

There is mounting evidence that lockdowns (aka stay at home / shelter in place orders) are NOT effective. Below is an article from the Toronto Star from this weekend. Dr. Strauss outlines the ineffectiveness of lockdowns and the drastic cost to society.

COVID-19 is NOT as deadly as we thought in March or April, for those under 70 it is LESS lethal than the flu. For context the flu has caused hospitals to be overwhelmed in LA as recently as 2018 (SEE LA TIMES SOURCE BELOW). At the time no measures that devastated businesses, wreaked havoc on mental health and violated civil liberties were put into place.

The people of LA County are well aware of the risks of COVID-19 and are able to adjust their personal behavior without additional punitive measures. The stay at home orders and business closures are causing negative effects with no proven benefit. The logic of flatten the curve was to disperse infections over time, which has happened. It is now important to stop enacting measures that cause additional harm to the public.

Furthermore, there is a direct link between obesity and COVID-19 complications and death, especially in those under 70. I think encouraging people to get exercise outside where the risk of transmission is low would do more to reduce the # of serious cases of COVID, than stay at home orders and business closures. You could also stress the importance of a healthy diet. Beyond individual responsibility, the obesity epidemic puts a huge strain on the healthcare system.

In summary - please consider health issues beyond COVID when enacting policies that greatly impact the citizens of LA County. Issues such as mental health, poverty (business closures push people into poverty) and obesity's connection to serious cases of COVID-19 in those under 70. The citizens of LA County DO NOT want more stay at home orders, business closures and arbitrary restrictions that are NOT proven to stop the spread of COVID.

[latimes.com/local/lanow/la-me-ln-flu-demand-20180116-htmllstory.html](https://latimes.com/local/lanow/la-me-ln-flu-demand-20180116-htmllstory.html)

good.html

Every medical treatment plan comes with potential side effects. Every physician needs to consider whether the treatments they propose could cause more harm than good. In clinical medicine, a treatment generally only becomes widely accepted when high quality clinical trials are published in trustworthy journals to prove that its benefits outweigh its potential harms.

The benefits of lockdowns to prevent deaths from COVID-19 are far from proven. The very best paper evaluating whether lockdowns save lives was performed by researchers at the University of Toronto, Drs. Chaudry and Riaz, and published by the Lancet. They took data from 50 countries reporting COVID-19 mortality and performed statistical analyses to see whether those that enacted strict lockdowns had fewer COVID-19 deaths. They did not.

A similar analysis, by a Dr. Leffler and colleagues, used data from 200 countries and was published in the American Journal of Tropical Medicine and Hygiene. It likewise found no effect of lockdowns on COVID-19 mortality.

These papers can be criticized, and perhaps better data will one day supersede them. But for now, the cold, hard fact is that lockdowns do not seem to achieve what one might hope.

This might seem counterintuitive. Surely, if we all stay home, we cannot transmit the virus to each other, and if the virus doesn't transmit, it cannot kill, right? Well, no, it's more complicated than that.

For one thing, we will never have a perfect lockdown in which absolutely everyone stays home for all the time. More importantly, COVID-19 is not an equal opportunity killer. While the overall mortality is low (a recent World Health Organization bulletin estimated a less than 0.3 per cent mortality rate), it is up to 1,000 times more likely to kill someone over 70 than someone under 30. Therefore, the total number of deaths in a COVID-19 pandemic will not depend so much on how many cases there are but rather in whom those cases occur.

It's easy to imagine situations in which a general lockdown could inadvertently expose vulnerable people to COVID-19: if universities shut down and students are sent home to their older parents, if working people can no longer afford their rent and enter multi-family living arrangements, if daycares are closed so health care workers have to involve grandparents for child care etc.

This is why I favour a focused protection plan in which we pour resources into protecting society's most vulnerable, rather than subsidizing less vulnerable people to make unnecessary sacrifices.

And such resources we had to pour! The federal government has gone \$350

billion in debt this year to pursue misguided lockdowns. For reference, \$350 billion, adjusted for inflation, is more than we spent fighting the Second World War over six years.

That \$350 billion could have built two new hospitals in every city and town in Canada! If we purport to care about our elders, we must stop and imagine what \$350 billion could have done to ameliorate the chronic understaffing and sometimes squalid physical conditions of our long-term care homes.

How many lives could that strategy have saved? We need to ask such questions before we shoot ourselves in the other foot with a second lockdown.

So much for the supposed benefits, what about the harms? Evidence thereof is mounting. Three times as many Canadians were contemplating suicide this summer compared to last. In British Columbia, overdose deaths nearly tripled. I do not expect such trends to improve during a cold, dark winter of lockdowns with no Christmas.

The Globe and Mail reported a spike in violence against women back in May and a slew of missed cancer diagnoses up to October. In my own medical practice, I met only seven patients with COVID-19 over nine months, but I was admitting folks to hospital with lockdown-related illness almost every day.

One woman in her 80s, living in a retirement home, relied on family members to come feed her meals. When they were disallowed from the premises, she stopped eating. She was eventually sent to hospital for symptoms of confusion and weakness where she was found to have biochemical evidence of starvation. In Canada. In 2020. The sheer inhumanity of that scene will stick with me for a long time. I could describe many others.

Underlying each of those statistics, and all of the clinical vignettes I could share, is an ocean of individual suffering and family grieving that is not captured in the rising COVID-19 case counts featured in daily media reports.

COVID-19 is a devil of a problem, but we must be mindful not to employ unproven strategies with the potential of making the problem worse. I am very hopeful that by focusing our attention and effort where it matters most, we could see our way through this in better shape overall.

Dr. Matt Strauss is an assistant professor of medicine at Queen's University.

Michael Burroughs

The CRA is actively lobbying the Los Angeles County Board of Supervisors and the County Department of Public Health to remove the outdoor dining restrictions as no evidence has emerged that points to outdoor dining as a systematic source of virus spread. Additionally, if the continual closure of socially-distanced restaurants forces people to gather in private, unregulated environments, it's doubtful that such orders will have the intended effect. Closing restaurants can't be a knee-jerk reaction – we continue to oppose

manager for luxury retail brands. Up until this March, I was managing a flagship store, with a team of ten people, during the beginning of the pandemic. I'm speaking in favor of items 26 and 36 today and hope to shed some light on what retail workers are going through.

I was laid off, along with the rest of my retail department, in late March. When reopenings started in late May, my former employer started opening up stores throughout the country, without acquiring basic necessities for my former coworkers, things like gloves, masks, or cleaning supplies to properly sanitize the store, even for customers. As a manager, it is your job to protect your team and defend their rights in the workplace. That was always a part of the job that I took very seriously, but my boss often told me to look the other way for the sake of business.

Even before the pandemic, we were asked to do things that were clearly health and safety violations. We would receive deliveries of product, spread out across 50 boxes, and the only place we could store them was in front of the emergency exit door. My store teams would regularly clear out trash from fittings rooms that included coffee cups, dirty diapers, and used tissues or Band-Aids without proper disinfection procedures.

I was fortunate enough to find work outside of retail when I was laid off. I did not need to decide whether or not I wanted to go back to a workplace that was not safe. I had no reason to trust that my former employer would take the necessary steps to protect myself, my team and the customers in store from the virus. And from what I've seen and heard from former coworkers, I was correct. Over 7,000 people have died in LA County from COVID-19. We have not done enough to stop the spread.

A crucial first step in stopping the spread is protecting our essential workers, like those in malls, grocery stores and big box stores across the County. Things like public health councils can't be effective if these essential workers fear losing their jobs for speaking out. We need to ensure that these workers are protected. As a manager, I was asked to cut the hours of "difficult" employees; of course, I never did, but this is a typical remedy that upper management uses when they want to get rid of an employee without having to fire them. I anticipate that this will happen if workers are not protected against retaliation for speaking up especially during this pandemic where these essential workers have become the eyes and ears when it comes to public health and enforcement of the county public health orders. We also need to ensure that our retail and grocery workers, who make up such a large number of workers in LA County, feel safe to report these violations in their workplace.

As a former retail worker and former retail manager, I urge you to pass both items 26 and 36 to protect countless numbers of workers who are keeping our economy working during this pandemic. Thank you for your leadership on this matter.

	<p>extends to our youth. I urge the Board to continue their commitment to the Care First vision by expanding on their courageous decision to make information about the County's use of incarceration regularly accessible. Addressing the root causes of harm in our communities by centering young people and community-based services will create a safer, stronger Los Angeles for all of us.</p>
Sharon L Rapport	<p>Good morning, I'm Sharon Rapport with the Corporation for Supportive Housing.</p> <p>I am speaking today to thank Supervisor Ridley Thomas for all that he has done to decrease homelessness in our County.</p> <p>I work on state policy in California for CSH, a national non-profit working to end homelessness.</p> <p>Aside from Supervisor Ridley Thomas' significant countywide efforts, including his work on Measure H, he has been a true leader in homeless policy at the state level.</p> <p>He has brought multiple motions before the Board to generate County support for critical state policy work, including to support ongoing funding for affordable and supportive housing.</p> <p>More importantly, he is a trusted, respected voice at the state level on homelessness. After the Governor tapped Supervisor Ridley Thomas as a co-chair for the Governor's Council of Regional Homeless Advisors, I was lucky enough to work with the Supervisor on that Council. He was respectful, thoughtful, and inclusive.</p> <p>Most importantly, he and his staff have a firm grasp on what it will take to end homelessness in California, and successfully led the Council in arriving at specific recommendations for state action. I am so grateful for Supervisor Ridley Thomas and his staff strong role in advancing sound homeless policy.</p> <p>Supervisor, thank you for your dedication to ending the moral crisis of homelessness.</p>
Shelly Shepherd	<p>Please re consider shutting down the outdoor dining. The restaurants have spent money to set themselves up outside and now that is being taken away. Thousands of employees will be put out of work right before the holidays. In my opinion, people that wanted to meet friends for a drink or dinner will now be forced to meet in doors somewhere because let's be honest, they will find a way to socialize.</p>
Stacey Morgan	<p>In general society, it is frowned upon to start whispering or sidebarring in the presence of others without first excusing yourself. To go quiet/ closed session without notice or acknowledgement of the more than 126 people on the line is incredibly rude.</p> <p>The perception is that your discussion/ decision is not medically centered,</p>

	but rather politically and legally motivated!
	How dare you!
Steven Zander	I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. The housing and treatment provided by ODR have been crucial in reducing the spread of COVID-19 among the county's most vulnerable populations. Individuals who are experiencing mental health and substance use disorder-related issues need to have access to ongoing treatment in order to maintain safety. Someone who is experiencing acute symptoms in the community is less likely to have the stability needed to be able to follow COVID-19 related protocols. They are less likely to recognize the need for or remember to wear a mask, wash their hands, or isolate to the degree that is needed for their safety as well as the safety of those around them. This is why funding ODR is essential to the county's COVID-19 response. The pandemic is only continuing to intensify and services must intensify to meet it. ODR has a proven track record of supporting the safety and health of justice-impacted individuals with mental health and substance use treatment needs. The success of their programs indicates the need for expansion and as COVID-19 continues to impact LA County at alarming rates, the expansion of services must follow in order to ensure safety for everyone.
Summer Aviles	So many of our close friends who own restaurants have spent their business savings staying afloat during the pandemic. Thousands spent on ensuring outdoor dining would be safe for consumers. I beg of you to allow these businesses the chance to continue operations and enable them to support their family and the economy.
Suzanne F Boretz	I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. The housing and treatment provided by ODR have been crucial in reducing the spread of COVID-19 among the county's most vulnerable populations. Individuals who are experiencing mental health and substance use disorder-related issues need to have access to ongoing treatment in order to maintain safety. Someone who is experiencing acute symptoms in the community is less likely to have the stability needed to be able to follow COVID-19 related protocols. They are less likely to recognize the need for or remember to wear a mask, wash their hands, or isolate to the degree that is needed for their safety as well as the safety of those around them. The success of their programs indicates the need for expansion and as COVID-19 continues to impact LA County at alarming rates, the expansion of services must follow in order to ensure safety for everyone.
T Slack	I love and need my restaurant job. I help my parents with the tips. To go isn't the same. We have strict rules my boss makes us clean after every single person. It is so safe. People need something. Something safe!

tara aviel	I don't own a restaurant. But as a small business owner (in an unrelated industry) I can sympathize with the people simply trying to keep their doors open. They've already invested in patios, dividers etc. This seems arbitrary and an unfair burden on them.
Tayla Jan Schaffner	I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. The housing and treatment provided by ODR have been crucial in reducing the spread of COVID-19 among the county's most vulnerable populations. 	Tiffany McIntosh	Government buildings are responsible for more than twice the number of infections as restaurants but they are open and restaurants are closed.
	Tiffany McIntosh	The unelected bureaucrat (fake)Dr Ferrer, not medical Dr, takes many positions based on ARBITRARY metrics about this Virus without basing the decision on facts. This is Dangerous. Tweeting does NOT make anything a law.The LA B.O.S., Elected officials, have the say, the VOTE. There are proper channels to go through. Why shut down local family businesses or even chain restaurants Killing our economy and families. Why can In&Out burger stay open and I can eat Outside but not across the street at any other restaurant, outside?? People will get arrested in their homes but looters are not? Why is there room in jail for LAW abiding tax paying Americans eating with their family but CRIMINALS are set free because they MAY get the virus? People are PAINFULLY aware how inconsistent these "Mandates" are and have had ENOUGH. People are STRUGGLING and will REVOLT just to feed their family. This is NOT what Thanksgiving or our Country was built on and it's more like a witch hunt. Common Sense has left the building. WE KNOW THAT. If it was SO bad, we would shutdown now, not wait days. IF the death rate was increasing, people would be onboard but it's not. Just positive cases. So what. It's the people on ventilators and deaths that matter. Restaurants are #11 on the LA County List of how Covid is spread...

				Providing for your family IS Essential. That's why so many people come to THIS country, but not for long if this lunacy and restrictions continue. PLEASE be the common sense we have been lacking in this state and county.
			Tumara Arnett	Save Restaurant outdoor dining!!!
			Vera Calloway	I would like to congratulate outgoing LA County Supervisor, Mark Ridley Thomas, on his impactful service to the residents and organizations in the County of Los Angeles--particularly in District Two. Best wishes as Supervisor Ridley Thomas returns to the LA City Council to continue his lifetime of public service and advocacy for underserved communities. God bless you, and may God bless America and the citizens of Los Angeles County.
			Vivian Wall	I ask the Board and CEO to support Supervisor Solis' request for \$30M of CARES Act funding for ODR. The housing and treatment provided by ODR have been crucial in reducing the spread of COVID-19 among the county's most vulnerable populations. Individuals who are experiencing mental health and substance use disorder-related issues need to have access to ongoing treatment in order to maintain safety. Someone who is experiencing acute symptoms in the community is less likely to have the stability needed to be able to follow COVID-19 related protocols. The success of their programs indicates the need for expansion and as COVID-19 continues to impact LA County at alarming rates, the expansion of services must follow in order to ensure safety for everyone.
			Yvonne murphy	I would like to suggest much more research and data to be done concerning outdoor patio dining ;a Fox news research proved that less than 3% of positive Covid cases come from outdoor activities and outdoor dining the majority of cases are coming from government buildings and large indoor gatherings so before you shut down patio dining outside you should shut down City Hall!? Do the research and PROVE outdoor dining causes Covid to spike before you put people Out of business .... the cure cannot be worse than the virus itself !
			zachary frank	To my idiot supervisor: stop fighting the health order to close restaurant dine in, outdoor dining has lead to 15% of COVID. Instead, please pay the restaurants to keep their waiters at home. Take the money from the LASD so they have less resources to murder us with.
