			Jaime Garcia	I strongly encourage the County of Los Angeles to undertake an analysis on the economic impact unfunded mandates have on safety-net providers who continue to be on the frontlines of this pandemic. As such, the County of Los Angeles should include language in this motion for advocacy at the federal level to support safety-net hospitals – to help them mitigate the economic hardship. It should not be limited to small and mid-size employers. This extension compounds other investments/benefits that have and continue to be made in the health care workforce – at a time when labor shortages are increasing due to the latest variant.
