*Excludes LB and PAS.

Pediatric Cases by Episode Date
March 1st, 2020 – October 25th, 2021

Daily Average Number of Cases

- 7-day Daily Average Cases - 0-4 Year
- 7-day Daily Average Cases - 5-11 Year
- 7-day Daily Average Cases - 12-17 Year
Vaccinating Children Aged 5-11 in LAC

How many children will be eligible?
• There are 900,000 children 5-11 years old in LAC

Is the pediatric vaccine the same as the adult vaccine?
• The Pfizer pediatric dose size different from adult/teen vaccine dose size (10mcg vs. 30mcg), but the dosing schedule is the same (2 doses, 21 days apart). Packaging for each is different.

What do children need to bring with them to get vaccinated?
• Consent form signed by an adult responsible for the child
• At some vaccination sites (including DPH sites), children <16 must be accompanied by an adult

Will we have enough vaccine for everyone?
• LAC pediatric vaccine providers receiving ~298,000 doses this week
• Doses allocated on a pro-rated basis; we do not anticipate scarcity
Criteria for Lifting Masking Requirements at Events and Establishments

Outdoor Mega Events
(>10,000 people)

LAC metrics must show:
- 3 consecutive weeks ≤ moderate transmission (<50 weekly cases/100K)
- 3 consecutive weeks of hospitalizations low and stable (<600 daily)
- 80% residents 12+ fully vaccinated
- No emerging reports of significantly circulating VOCs

Indoor Events/Establishments
(<1,000 people)

Site requirements:
- A vaccination verification process must be in place
- All employees and customers must be fully vaccinated

LAC metrics must show:
- 3 consecutive weeks ≤ moderate transmission
- 3 consecutive weeks of hospitalizations low and stable
- 80% residents 12+ fully vaccinated
- No emerging reports of significantly circulating VOCs

Indoor masking will still be mandatory on public transit and in transportation hubs, at schools, childcare, youth settings; healthcare settings; in correctional facilities; homeless/emergency shelters and heating/cooling centers; indoor mega events (1,000+).
Planning Ahead for Safe Thanksgiving Gatherings

- Get vaccinated now
- Stay local until everyone in your household is fully vaccinated
- Gather outdoors if possible
- Keep gatherings small
- Take extra precautions if gathering with high-risk people or people from other parts of the country
  - Avoid crowded spaces/places prior to holidays
  - Get tested in the days before meeting
