7.		Favor	Chris Martin	<p>November 16, 2021</p> <p>RE: COMMENTS ON AGENDA ITEM #7 - CRITICAL INCIDENT IN NORWALK</p> <p>Members of the LA County Board of Supervisors:</p> <p>I write as a member of the Reimagine Child Safety Coalition in support of Agenda Item #7 and to urge the County to take bolder action to protect families from the surveillance and overreach of the so-called "foster care system."</p> <p>In My work as a lawyer representing parents in the foster care system, I have personally seen DCFS unnecessarily ruin the lives of countless families. Some parents have gotten their kids taken away because they smoke Marijuana, others because they are victims yes victims of domestic violence. The Reimagine Child Safety Coalition—a group of advocates, organizations, and impacted families united to raise awareness about the harms of the family regulation system — aims to break down the family regulation policies in Los Angeles that target and harm Black and Indigenous families, as well as low-income and other families of color. We believe all communities and families deserve the resources and support they need to thrive, regardless of economic status or race.</p> <p>The family regulation system—still perceived by many to function to protect children—typically has the opposite impact as evidenced by the tragedy in Norwalk that left a 4-year-old child in a beaten-induced coma while in the care of DCFS. Instead of increasing child safety, removing children from their families often produces devastating outcomes, including poor health outcomes and high rates of physical and sexual violence experienced while in foster care. The family regulation system is rooted in centuries of violence, white supremacy, and attempted cultural genocide.</p> <p>We call upon the Board to reimagine child safety by reviewing our coalition's list of demands, revise its policies, and take action relating to the Los Angeles Department of Children and Family Services and associated agencies accordingly.</p> <p>Sincerely,</p> <p>Chris Martin, Esq.</p>

	<p>DCFS also has a hand in Family Court cases where there are two biological parents. DCFS plays a role in severing one biological parent from the child's life which is usually safe protective mothers. Instead of providing services to ensure mothers are reunified with their children they do every thing in their power to prevent reunification from happening.</p> <p>We call upon the Board to reimagine child safety by reviewing our coalition's list of demands, revise its policies, and take action relating to the Los Angeles Department of Children and Family Services and associated agencies accordingly.</p>
Maria I Anaya	
Odilia Romero	<p>On behalf of Comunidades Indígenas en liderazgo (CIELO), the Indigenous women-led non-profit in South Central that works jointly with Central and South American Indigenous communities here in Los Angeles, I write in support in of investigating the abuse of the young Indigenous Guatemalan child in Norwalk.</p> <p>One of CIELO's main priorities is increasing language access for Indigenous families, many of whom don't speak Spanish, and are therefore denied access to services and other necessities.</p> <p>Based on the regular lack of awareness DCFS has shown toward the existence of Indigenous people and their needs for translation services, we at CIELO are deeply concerned about the potential role that language barriers may have played in the separation of this boy from his biological family and the abuse he suffered.</p> <p>We call on the County to fully investigate this matter, and to expand translation services at major health care and social services. Thank you.</p>
Rosa Bernales Martinez	
Sarah O Clifton	<p>My name is Sarah O. Clifton, I am an attorney, a citizen in the County of L.A., and a member of the Reimagine Child Safety Coalition. I previously worked as a parents' attorney for Los Angeles Dependency Lawyers, and I was forced to bear witness to the destruction of families of color on an almost daily basis. In my current position, I work with older youth transitioning out of foster care, and I see the negative impact that the Family Regulation System has had on their entire young lives. It is long past time to reimagine child safety.</p>

		<p>Los Angeles tears apart families at one of the highest rates among America's largest metropolitan areas. With over 33,000 children under its surveillance, Los Angeles County's Department of Children and Family Services proclaims itself the nation's largest public child welfare agency. Yet, while Black children are only 7.5% of Los Angeles County's population, they make up 27.8% of those young people in the custody of DCFS. Moreover, recent data indicates that a staggering 58% of Black children in Los Angeles will be subjects of a DCFS investigation before they are 18.</p> <p>LA County itself has recognized that anti-Blackness is present in the child welfare system, and because of this, Black families and communities are being irreparably damaged. Removing children from their families is not protecting them; it is traumatizing them. We demand that the Los Angeles County Board of Supervisors take immediate action to prevent children and families from becoming involved with the system and end the practice of family separation by:</p> <p>1) getting LAPD and LASD out of CPS; 2) putting a moratorium on detentions related to general neglect, domestic violence, and positive drug tests; 3) providing parents with full due process, including the right to remain silent and not have it held against them; 4) permitting parents to record all interviews and conversations with DCFS to ensure accuracy and transparency; 5) requiring DCFS to identify and pay for all available services for parents, including services specifically available to veterans and incarcerated persons and ensure consistent communication and visitation for incarcerated parents; 6) prioritizing relative/kinship foster care placements and removing any and all barriers preventing such placements; 7) eliminating drug testing by DCFS and hospital staff for pregnant, laboring, and postnatal people and infants in hospitals; 8) establishing an independent, civilian oversight commission led by parents/people with lived experience; and 9) by supporting guaranteed basic income for all families rather than tearing apart families due to poverty.</p> <p>The power is in your hands, please stop the destruction of families, and help us to reimagine child safety for a brighter future for all.</p>
	Susan Schofield	Item 7. My son Bodhi has gone to these Hubs. He never had toe fungus until he was taken DCFS in March 2019. I did not get a trial? My Due Process Rights were violated under the California Rules of Court 5.674 which states courts may not consider documents without the preparer, in my case the social worker being present for cross-examination and this led to the social worker making false statements that were taken as truth? I learned that the term they use is a "Legal Fact" and it has no basis in an actual fact. I never waived my rights to Due Process, yet they were taken anyway. How is this okay?

What we believe...

1. the so-called child welfare system is operating exactly as it was designed, which is as a racist family policing system;
2. children, especially Black and Indigenous children, are being needlessly ripped from their families and harmed by a system that claims to exist to protect them, but in fact creates worse outcomes for children;
3. the family policing system creates intergenerational trauma that undermines the fabric of entire communities;
4. the family policing system is irreparably rooted in white supremacy;
5. the family policing system conspires with other fundamentally white supremacist systems including the criminal legal system, education, healthcare, housing, and others;
6. we must build a network of community-based resources accessible to families wholly apart from the family policing system;
7. we must center the voices of families and communities with lived experience and expertise in our work;
8. we must fundamentally reimagine child safety.

Our Vision

We envision a world in which all communities and families have the resources and support that they need to thrive; a world in which the safety of children is not determined by the economic status of their families, and parents are not deemed “unsafe” or “unfit” based on the color of their skin. In our reimagined world:

- Children's inalienable rights to their parents are not stripped from them. In our current world, that is most likely to happen to Black and Indigenous children.
- Financial and other resources are equitably distributed to communities so that those who are systematically disadvantaged by institutionalized racism receive the greatest investments and are able to determine for themselves the allocation of those resources.
- Families that have been ripped apart by the current racist family policing system receive reparations for the harm caused and resources for ongoing support to address the trauma and irreparable damage they've suffered.

Our Demands

We are reimagining child safety, and our plan for sustainable, systemic change starts with demanding that the Los Angeles County Board of Supervisors take immediate action to prevent children and families from becoming involved with the system and end the practice of family separation by:

1. Ending law enforcement “partnerships” with social workers, including but not limited to placing a moratorium on Multi Agency Response Teams (MART) and enhancing proper protocols with emergency response social workers. Law enforcement should halt the practice of referring children to DCFS because their parent or guardian has experienced domestic violence.
2. Placing a moratorium on detentions related to:
 - a. general neglect as defined by DCFS
 - b. children whose parent or guardian has experienced domestic violence
 - c. children or parents who test positive for drugs during pregnancy or at birth
3. Providing counsel to parents at the beginning of any DCFS investigation.

Demands Cont'd

4. Granting parents the right to record all interviews and conversations to ensure accuracy and integrity of the information gathered and presented in their cases.
5. Mandating that social workers advise parents of the above rights (demands #3 and 4) at first interaction with DCFS. Evidence taken in violation of these rights may not be used in court.
6. Identifying all available services, and informing and connecting all parents, including veterans, incarcerated parents and others, to these services. DCFS must pay for all court-ordered services.
7. Prioritizing relative/kinship foster care placements and removing any and all barriers for family members who want to care for children who have been removed from their parents. This includes updating policies and legislative priorities related to denial of potential kinship caregivers with criminal backgrounds (including anyone who has been included in the gang database) or who do not meet rules about space requirements. Utilize county funds or child specific placements to assist families who do not meet Resource Family Approval requirements.

Demands Cont'd

8. Eliminating drug testing by DCFS and by hospital staff for pregnant, laboring, and postnatal people, and infants in hospitals.
9. Establishing an independent civilian oversight committee led by parents/people with lived experience. The oversight committee shall have authority to allocate funding to community-based-and-run family preservation-oriented programs that support parents' ability to best care for their own families and avoid involvement in the system (including raising awareness about Prevention and Aftercare Networks, connecting them to housing, legal aid, employment opportunities, and economic resources).
10. Upholding the rights of incarcerated parents and their children in foster care by ensuring consistent communication and visitation; providing education and resources to parents on their rights; and addressing issues faced by incarcerated parents who miss key deadlines when they are transferred to new facilities.
11. Guaranteeing basic income for all families.

Reimagine Child Safety Coalition Demands to LA County Board of Supervisors

On any given day, there are over 400,000 children in the US child welfare system.¹ Nationally, Black and Indigenous children are overrepresented in the foster care system, with Black children accounting for one-quarter of all children in foster care, and Indigenous children being nearly three times as likely as their White peers to enter the foster care system.²

With over 33,000 children under its surveillance, Los Angeles County's "Department of Children and Family Services is the nation's largest public child welfare agency."³ While only 7.5% of Los Angeles County's population,⁴ Black children are 27.8%⁵ of those young people in the custody of the Department of Children & Family Services (DCFS). Moreover, recent data indicates that over 58% of Black children in Los Angeles will be subjects of a DCFS investigation before they are 18.^{6,7}

DCFS works in direct partnership with the Los Angeles Police Department (LAPD) and the Los Angeles Sheriff Department (LASD); they are complicit in the police state that terrorizes and devastates Black families. LA County itself has recognized that anti-Blackness is present in the child welfare system,^{8,9,10} and because of this, Black families and communities are being irreparably damaged. Removing children from their families is not protecting them; it is traumatizing them. We demand that the Los Angeles County Board of Supervisors take immediate action to prevent children and families from becoming involved with the system and end the practice of family separation by:

01

Ending law enforcement "partnerships" with social workers, including but not limited to placing a moratorium on Multi Agency Response Teams (MART) and enhancing proper protocols with emergency response social workers. Law enforcement should halt the practice of referring children to DCFS because their parent or guardian has experienced domestic violence.

02

Placing a moratorium on detentions related to:

- general neglect as defined by DCFS
- children whose parent or guardian has experienced domestic violence
- children or parents who test positive for drugs during pregnancy or at birth

03

Providing counsel to parents at the beginning of any DCFS investigation.

04

Granting parents the right to record all interviews and conversations to ensure accuracy and integrity of the information gathered and presented in their cases.

COALITION DEMANDS BOARD OF SUPERVISORS END OPPRESSIVE FAMILY POLICING, REIMAGINE CHILD SAFETY

Los Angeles County runs a massive family policing operation that “destroys children in the name of saving them,” and the Board of Supervisors needs to put a stop to it, according to a coalition of three dozen local, state and national organizations.

The #ReimagineChildSafety coalition released a [set of demands](#) Monday that would replace what it called the “family regulation system” with genuine support for families. In a statement accompanying the demands, the Coalition explained that “the so-called child welfare system is operating exactly as it was designed, which is as a racist family policing system.”

“Los Angeles County tears apart families at the second highest rate among the nation’s ten largest metropolitan areas, even when rates of child poverty are considered,” said Chris Martin, Esq., Black Lives Matter-Los Angeles Legal Team Director and co-lead of the #ReimagineChildSafety coalition. “But that’s only the beginning. Thousands more children are traumatized by needless investigations and stripsearches, and their families put under almost incomprehensible stress by constant demands and surveillance from the Los Angeles County Department of Children and Family Services.”

“As with every other form of policing, family policing comes down hardest on families of color. For Black children in Los Angeles County, enduring all the trauma of an investigation is not the exception – it’s the rule,” said Charity Chandler-Cole, CEO of CASA Los Angeles. “It will happen to well over half the Black children in Los Angeles before they turn 18.”

[One such family Kayla Love, Khari Jones and their newborn daughter Fari Love Jones were forced to endure that trauma during some of the most important hours of Fari’s life – her first.](#)

“Our daughter was born by an emergency homebirth; I was fortunate that her father was there to assist,” Kayla Love said. “We went to the hospital to ensure her and my health – which everyone said was fine – what we received instead of good medical care was racial profiling and terror. After declining blood tests and exercising our right to take our new baby to our private physician, the LA County USC medical staff called the Department of Children and Family Services claiming they were concerned for Fari’s health and safety,” Love explained.

“We were surprised and scared for our lives when a social worker showed up to our home and decided that she needed 10 plus officers with her to check on the wellness of my child. You can imagine the trauma we endured when we had cops pointing guns at us for a so-called wellness check only hours after our baby was born,” she continued. “There are many unethical ways children are being pushed through the pipeline from the medical system to the foster care system. The LAC USC medical staff, DPSS, DCFS and LAPD were all involved in the racist terror of this unethical wellness check and attempted medical kidnapping; we have to hold them all accountable.”

“The trauma is compounded, of course, if the child is torn away from everyone loving and familiar and thrown into foster care,” Tina Rios, mother and coalition member said. “The trauma endured by a child in LA is every bit as great as what was endured by children 129 miles south at the US-Mexico border. We can end that trauma – our demands are the first steps in the right direction.”

“We know what those who want to continue this massive oppression of families – especially families of color – will say to try to excuse the harm they do: They’ll cite the horror stories of child abuse deaths,” said Rachel Ewing, Law Firm Director of Los Angeles Dependency Lawyers, Incorporated.

“Those tragedies are serious and real – they also are a tiny fraction of the cases social workers see. Vastly more common are cases in which family poverty is confused with neglect – and that overload is why those very rare cases of serious harm are often overlooked.”

“What’s also overlooked is how often children are harmed because they are ripped from their families and placed in the system.” Franco Vega, Founder and Executive Director of The RightWay Foundation, said. “Hundreds of thousands of children are abused and traumatized by the very system that claims to exist to protect them, and yet we continue to invest in and trust this system with our most precious gifts - our babies. If we take a look at the young people who emancipate from the system, it’s obvious that most are worse off having been in foster care. If we care about the safety and wellbeing of these children, we should make investments to preserve and strengthen their families by providing them with the resources and support they need to thrive.”

We say: We can do better if we reimagine child safety.

###

#ReimagineChildSafety: Get Cops Out of Child Protective Services

To: Los Angeles County Board of Supervisors

We demand that the Los Angeles County Board of Supervisors end DCFS's partnership with law enforcement.

Why is this important?

The child welfare system traumatizes children and rips families apart. Far from helping, law enforcement only makes things worse. Their partnership must end now. Los Angeles County is home to the largest locally-run foster care system in the country, run by the Department of Children & Family Services (DCFS). The system disproportionately targets Black, Brown, and Indigenous children for surveillance and removal, actions that, even when well-intentioned, terrorize and traumatize families of color.

While Black children are 10% of LA County's population, they represent 40% of the young people in the child welfare system. DCFS works in direct partnership with the Los Angeles Police Department (LAPD) and LA Sheriff's Department (LASD). Approximately 25% of DCFS referrals come from law enforcement. DCFS and law enforcement agencies work together to enter homes and remove children. Police presence during DCFS investigations further traumatizes children and escalates the situation. Removing law enforcement from the child welfare system is the first step to curb the racist practices that break up families of color.

We must demand an end to systems that separate families instead of supporting them.

The REIMAGINE CHILD SAFETY campaign is supported by: Black Lives Matter LA; ACLU of Southern California; Alliance for Children's Rights; Black Los Angeles Young Democrats; Dignity & Power Now; JusticeLA; La Defensa; Los Angeles Dependency Lawyers; Movement for Family Power; National Coalition for Child Protection Reform; Public Counsel; The RightWay Foundation; Trans Lifeline; and White People 4 Black Lives.

RE: Public Comment on Agenda Item #7 – Critical Incident in Norwalk

To the Honorable Members of the LA County Board of Supervisors:

The American Civil Liberties Union of Southern California (ACLU) writes as a member of the Reimagine Child Safety Coalition in support of Agenda Item #7 and to urge the County to take bolder action to protect families from the surveillance and overreach of the so-called “foster care system.”

The ACLU is a nonprofit, nonpartisan organization dedicated to furthering the principles of liberty and equality embodied in the United States Constitution and this Nation’s civil rights laws. The ACLU recognizes that the family regulation system in the United States is rooted in centuries of violence, white supremacy, and attempted cultural genocide. As such, the ACLU seeks to advance the civil rights of parents, guardians, and children who are Black, Indigenous, immigrants, LGBTQ, and people with disabilities as they navigate the family regulation system and stands with the Reimagine Child Safety Coalition.

The Reimagine Child Safety Coalition—a group of advocates, organizations, and impacted families united to raise awareness about the harms of the family regulation system — aims to break down the family regulation policies in Los Angeles that target and harm Black and Indigenous families, as well as low-income and other families of color. We believe all communities and families deserve the resources and support they need to thrive, regardless of economic status or race.

The family regulation system—still perceived by many to function to protect children—typically has the opposite impact as evidenced by the tragedy in Norwalk that left a 4-year-old child in a beaten-induced coma while in the care of DCFS. Instead of increasing child safety, removing children from their families often produces devastating outcomes, including poor health outcomes and high rates of physical and sexual violence experienced while in foster care.

We call upon the Board to reimagine child safety by reviewing our coalition’s list of demands, revise its policies, and take action relating to the Los Angeles Department of Children and Family Services and associated agencies accordingly.

Sincerely,

Ariana Rodriguez, Policy Counsel

Reimagine Child Safety Coalition Demands to LA County Board of Supervisors

On any given day, there are over 400,000 children in the US child welfare system.¹ Nationally, Black and Indigenous children are overrepresented in the foster care system, with Black children accounting for one-quarter of all children in foster care, and Indigenous children being nearly three times as likely as their White peers to enter the foster care system.²

With over 33,000 children under its surveillance, Los Angeles County's "Department of Children and Family Services is the nation's largest public child welfare agency."³ While only 7.5% of Los Angeles County's population,⁴ Black children are 27.8%⁵ of those young people in the custody of the Department of Children & Family Services (DCFS). Moreover, recent data indicates that over 58% of Black children in Los Angeles will be subjects of a DCFS investigation before they are 18.^{6,7}

DCFS works in direct partnership with the Los Angeles Police Department (LAPD) and the Los Angeles Sheriff Department (LASD); they are complicit in the police state that terrorizes and devastates Black families. LA County itself has recognized that anti-Blackness is present in the child welfare system,^{8,9,10} and because of this, Black families and communities are being irreparably damaged. Removing children from their families is not protecting them; it is traumatizing them. We demand that the Los Angeles County Board of Supervisors take immediate action to prevent children and families from becoming involved with the system and end the practice of family separation by:

01

Ending law enforcement "partnerships" with social workers, including but not limited to placing a moratorium on Multi Agency Response Teams (MART) and enhancing proper protocols with emergency response social workers. Law enforcement should halt the practice of referring children to DCFS because their parent or guardian has experienced domestic violence.

02

Placing a moratorium on detentions related to:

- general neglect as defined by DCFS
- children whose parent or guardian has experienced domestic violence
- children or parents who test positive for drugs during pregnancy or at birth

03

Providing counsel to parents at the beginning of any DCFS investigation.

04

Granting parents the right to record all interviews and conversations to ensure accuracy and integrity of the information gathered and presented in their cases.

Reimagine Child Safety Coalition Demands to LA County Board of Supervisors

05

Mandating that social workers advise parents of the above rights (demands #3 and 4) at first interaction with DCFS. Evidence taken in violation of these rights may not be used in court.

06

Identifying all available services, and informing and connecting all parents, including veterans, incarcerated parents and others, to these services. DCFS must pay for all court-ordered services.

07

Prioritizing relative/kinship foster care placements and removing any and all barriers for family members who want to care for children who have been removed from their parents. This includes updating policies and legislative priorities related to denial of potential kinship caregivers with criminal backgrounds (including anyone who has been included in the gang database) or who do not meet rules about space requirements. Utilize county funds or child specific placements to assist families who do not meet Resource Family Approval requirements.

08

Eliminating drug testing by DCFS and by hospital staff for pregnant, laboring, and postnatal people, and infants in hospitals.¹¹

09

Establishing an independent civilian oversight committee led by parents/people with lived experience. The oversight committee shall have authority to allocate funding to community-based-and-run family preservation-oriented programs that support parents' ability to best care for their own families and avoid involvement in the system (including raising awareness about Prevention and Aftercare Networks, connecting them to housing, legal aid, employment opportunities and economic resources).

10

Upholding the rights of incarcerated parents and their children in foster care by ensuring consistent communication and visitation; providing education and resources to parents on their rights; and addressing issues faced by incarcerated parents who miss key deadlines when they are transferred to new facilities.

11

Guaranteeing basic income for all families.

11. See New York model: <https://imprintnews.org/child-welfare-2/new-york-city-limit-drug-testing-women-foster/49557>

BOS Written Public Comment – 11/16/21 Meeting – Agenda Item #7

My name is Sarah O. Clifton, I am an attorney, a citizen in the County of L.A., and a member of the Reimagine Child Safety Coalition. I previously worked as a parents' attorney for Los Angeles Dependency Lawyers, and I was forced to bear witness to the destruction of families of color on an almost daily basis. In my current position, I work with older youth transitioning out of foster care, and I see the negative impact that the Family Regulation System has had on their entire young lives. It is long past time to reimagine child safety.

Los Angeles tears apart families at one of the highest rates among America's largest metropolitan areas. With over 33,000 children under its surveillance, Los Angeles County's Department of Children and Family Services proclaims itself the nation's largest public child welfare agency. Yet, while Black children are only 7.5% of Los Angeles County's population, they make up 27.8% of those young people in the custody of DCFS. Moreover, recent data indicates that a staggering 58% of Black children in Los Angeles will be subjects of a DCFS investigation before they are 18.

LA County itself has recognized that anti-Blackness is present in the child welfare system, and because of this, Black families and communities are being irreparably damaged. Removing children from their families is not protecting them; it is traumatizing them. We demand that the Los Angeles County Board of Supervisors take immediate action to prevent children and families from becoming involved with the system and end the practice of family separation by:

1) getting LAPD and LASD out of CPS; 2) putting a moratorium on detentions related to general neglect, domestic violence, and positive drug tests; 3) providing parents with full due process, including the right to remain silent and not have it held against them; 4) permitting parents to record all interviews and conversations with DCFS to ensure accuracy and transparency; 5) requiring DCFS to identify and pay for all available services for parents, including services specifically available to veterans and incarcerated persons and ensure consistent communication and visitation for incarcerated parents; 6) prioritizing relative/kinship foster care placements and removing any and all barriers preventing such placements; 7) eliminating drug testing by DCFS and hospital staff for pregnant, laboring, and postnatal people and infants in hospitals; 8) establishing an independent, civilian oversight commission led by parents/people with lived experience; and 9) by supporting guaranteed basic income for all families rather than tearing apart families due to poverty.

The power is in your hands, please stop the destruction of families, and help us to reimagine child safety for a brighter future for all.

November 16, 2021

RE: COMMENTS ON AGENDA ITEM #7 - CRITICAL INCIDENT IN NORWALK

Members of the LA County Board of Supervisors:

BreastfeedLA writes as a member of the Reimagine Child Safety Coalition in support of Agenda Item #7 and to urge the County to take bolder action to protect families from the surveillance and overreach of the so-called “foster care system.”

BreastfeedLA’s work is grounded in diversity, equity and inclusion. As such, we analyze power structures that lead to inequities within perinatal care and infant feeding practices. We aspire to operationalize anti-racism and radical inclusion both in our organization and in the healthcare systems we work with. We advocate for families, communities, and each other through a reproductive justice framework by centering those most marginalized. The Reimagine Child Safety Coalition—a group of advocates, organizations, and impacted families united to raise awareness about the harms of the family regulation system — aims to break down the family regulation policies in Los Angeles that target and harm Black and Indigenous families, as well as low-income and other families of color. We believe all communities and families deserve the resources and support they need to thrive, regardless of economic status or race.

The family regulation system—still perceived by many to function to protect children—typically has the opposite impact as evidenced by the tragedy in Norwalk that left a 4-year-old child in a beaten-induced coma while in the care of DCFS. Instead of increasing child safety, removing children from their families often produces devastating outcomes, including poor health outcomes and high rates of physical and sexual violence experienced while in foster care. The family regulation system is rooted in centuries of violence, white supremacy, and attempted cultural genocide.

We call upon the Board to reimagine child safety by reviewing our coalition’s list of demands, revise its policies, and take action relating to the Los Angeles Department of Children and Family Services and associated agencies accordingly.

Sincerely,

Arissa Palmer, Executive Director
BreastfeedLA
