Agenda #	Relate To	Position	The following individuals submitted comments on agenda item:	
			Name	Comments
18.		Favor	Adam F	It doesn't make logical sense to enforce a vaccine that doesn't stop transmission.
			Alex Salgado	
			Alina Mirakyan	
			Alison Steinberg	I vehemently disagree with vaccine mandates. It should be the the choice of the individual as to whether or not they want to get vaccinated. No government should enforce this and no one should be terminated if they have no desire to take the shot. It is evident that the shots do more harm than good and don't even prevent the spread of the virus. Knowing this, why should it be forced into anyone's body? Stop with the tyrannical overreach. Our city is falling apart and soon, we will have no one left to keep us afloat if you continue to take people's rights.
			Amanda Benson	
			Amanda Sreden	I am an LA County voter and oppose the LA County code to enhance compliance with an enforcement of the counties COVID-19 vaccination policy. With the rising crime releasing public service officers would be a disservice to LA County residence. I will be monitoring the outcome of this policy and will vote accordingly on the next election.
			Amy Hernandez	No one should be forced
			ana g benitez	
			Anastasia Brown	
			Andrea Reynolds	Please stop these mandates. If there's a risk, there should be a choice. Thank you
			Angel Blanco	
			Angela Miller	This is discriminatory. Absolutely oppose and so should everyone any rule that discriminates against others with regard to medical, vax or other status.
			Ann Mendez	
			Anna Castillo	
			Anthony N Lara	
			Arianna Ceballos	
			Ariel Gonzalez

Agenda #	Relate To	Position	
18.		Favor	<div> <div>Arutyun Ambartsumyan</div> <div>Law enforcement, medical employees, and county workers should be held to a higher standard as role models. These professions are sworn to protect and serve their communities. By not getting the vaccine they are making the decision to cause the communities they serve harm. Law enforcement, especially LASD, act like they are above the law. The prime example is how rare it is to see them in public settings with a mask on despite the mandate for them. By not issuing severe consequences, the BOS is validating them that they are above the law, furthering the divide between law enforcement and the community, and applying special treatment. Not firing all those opposed to the vaccine is a slap in the face to the thousands of us in the county who have done everything possible to help reach an endemic. Their decision to not get vaccinated but take 24 tax payer paid days off is a slap in the face to all of us.</div> </div>
			<div> <div>Asmik Darzibashians</div> <div></div> </div>
			<div> <div>Aura Bobadilla</div> <div>Enforcement of Covid-19 has gone for so long . It is time for a change and let us feel normal again. Covid-19 has been at its peak but everyone keeps working and everything is opened and the city has not done anything about it so why not give people their freedom now. If enforcement was to enhance then we should have closed everything down last month.</div> </div>
			<div> <div>Bertha Amezcua</div> <div>It's unconstitutional and illegal and it is against my God given right.</div> </div>
			<div> <div>Bertha Esparza</div> <div></div> </div>
			<div> <div>Breanne R DeMack</div> <div>DO NOT FORCE THIS EXPERIMENTAL VACCINE ON OUR FRONTLINE WORKERS. You are violating the Nuremberg code. Our county is already dangerous and we cannot risk losing any more heroes.</div> </div>
			<div> <div>Brian Knerr</div> <div></div> </div>
			<div> <div>Brittney M Melo</div> <div></div> </div>
			<div> <div>Bryan Carriger</div> <div>No one should be FORCED to do ANYTHING besides show up and get their work done to keep their job.</div> </div>
			<div> <div>Bryan Rose</div> <div></div> </div>

Agenda #	Relate To	Position	Name	Comments
18.		Favor	Byron Alvarado	Though we appreciate their work during the pre-pandemic times, these are not pre-pandemic times. Our public servant is to keep our communities safe. If they couldn't get certified or didn't meet their qualifications that they once did in the past than they wouldn't be in their current job. The same goes for not being vaccinated. It is their right not to get vaccinated but they must live with the consequence that brings. They interact with many people in their duties and if they cause someone to contract Covid due to their right I'm not being vaccinated, is that fair to the ones they are helping? Will the city be responsible for damages caused by these unvaccinated state employees? The vaccine is proven to be safe. We require other vaccines to be required and the Covid vaccine should not be any different. This pandemic will continue if those who "choose" not to be vaccinated but we shouldn't allow this for our first responders. Do not cave into the pressure and keep the restriction that they must be vaccinated. We can hire those who are vaccinated and allow others the opportunity to serve the public.
			Carla Romero	
			carlos cuba	
			Carlos Rojas	Liberty and FREEDOM for ALL!!!
			Carmen Rochelle	
			Cesar Ramos	
			Charlene D Beltran	I 100% Oppose the Mandate. We are AMERICA !! Besides the VACCINATED are the majority Spreading Omicron right now. Everyone I know that's Vaccinated had Worst Reactions to the Virus than the Non Vaccinated
			Charles Michael Goodwin	How has this happened? How has this been allowed? Why is this still an issue? All 18,000 Los Angeles County employees that have not been vaccinated, should be fired immediately. Each have been given ample time and opportunity to follow the requirements of employment with the county. Enough is enough of being intimidated by a fringe minority that have chosen to politicize the health of all Los Angeles residents. You just don't get to pick and choose which rules you get to obey...especially in the Sheriff's department. Enough is enough of this insubordination.
			Cherif Amin	Time to stop all mandates. Vaccine passports, mask mandates, and vaccine mandates for all in Los Angeles county. Especially children. If you follow science, and data that is untampered then you will see that these practices are ineffective and in fact illegal since they are truly discriminatory in nature.

Agenda #	Relate To	Position	Name	Comments
18.		Favor	Christa Bischofberger	
			christine jahng	
			Cindy Brown	
			Cindy Rafael	It has been said that our immunity is far stronger than a vaccine. If they do not work why not let the man and women whom protect regardless of what you stand for do their jobs and go on with their lives. We trusted science for two years and those that stood behind us. You all let us down and continue to do so. So with all do respect our lives matter just as much as yours. We have the right to choose.
			Concerned Citizen	Stop the mandates and do not terminate county employees. You have vaccinated employees (some who are boosted as well) who are still getting Covid and are required to quarantine the same amount of time as those who are unvaccinated with Covid. Your Sheriffs Department is already understaffed and can't keep up with the rising crime. You will do more damage to Los Angeles if you terminate employees. Stop the mask/vaccine mandates and let's move on with our lives already.
			Cris a Hofmeister	This should not be passed Covid is down and the nerve damage this stuff is causing will have lasting effects . We should have free choice.
			cristian lopez	
			Crystal Lombardi	
			D Herbert	
			Daniel Clegg	Stop all mandates! The science does not support any of it. People are getting sick because of the forced masking and vaccine shots.
			Daniel Wolanski	
			Daniel E Leist	Unconstitutional
			David Letona	The unvaccinated have no business in Public Service. The public expects better and the department heads clearly have failed the public in this matter.
			David R Zegerman	
			Deanna Swanson	You should not lose your job if you choose not to be vaccinated. Personal immunity is better and an antigen test could be offered for submission.

Agenda #	Relate To	Position	Name	Comments
18.		Favor	Dennis Clark	This attempt to undermine the authority of each departments ability to handle their own business should be seen as a tyrannical over step of authority. What would happen if the State did not agree with your decisions and voted to take your authority away in your own county. If you don't like the decisions of the Sheriff, find someone to beat him in the next election. This is how democracy works. Not a tyrannical power play!
			Diana Kashani	
			Diane Dunlap	
			Donna M Gillespie	
			Dulce Cisneros	
			Elena Ramirez Lara	
			Elizabeth F Jouvenat	We need our county professional/employees. Why fire them? Numbers are down. I'm sure they ave personal convictions, beliefs and reasons for not getting the shots. If you have to coerce/threaten there must be a transparency and science problem. Reps need to prove they have it before firing valued employees. Do what is right and humane vs. \$.
			Elle Chung	
			Emily Bertrand	
			Emily Chen	
			Emily Strawn	We have Santa Ana winds and high temps in the forecast this week, and you want to FIRE our firemen?! Who will keep us safe? These men and women are ESSENTIAL. Their vaccination status is of ZERO importance. It has no effect on how they preform their job.
			Enrique Pena	Let's end this pandemic! Vaccines work.....
			Erica Negrete	
			Erine Babanyan	
			Eyllisa Silva

18.		Favor	Gail A Grossman	<p>To LA County Board of Supervisors</p> <p>As someone who has lived in for 76 years, and worked for Los Angeles County for 15 years, I am totally in favor of the layoff of non vaccinated employees. I would not want a first responder who is not vaccinated to take care of me, I would not want to be exposed to someone who may have Covid. We have been inside our home for most of the 2+ years except to go to a doctor appointment, we do not go into stores, items are delivered or our son gets them for us. It is a shame that these employees think of themselves, what about their families. Politics has gotten in the way of Safety and we would not be in this position if people listened to doctors, scientist and followed the safety recommendation and got vaccinated they would still have a job.</p> <p>Gail Grossman martyandgail@hotmail.com</p>
			Gary Fung	
			George Atkinson	Freedom of choice comes first in America. It is rapidly becoming clear that vaccinations are dubious at best, and that covid is no more lethal then the flu.
			Giancarlo Ricci	
			Gigi Martinez	
			gloria b Duenas	WE OPPOSE L A COUNTY ENFORCING VACCINE MANDATES. IT IS UNCONSTITUTIONAL AGAINST OUR CITIZENS RIGHTS.STOP THE REDERICK. FIRE BARBARA FERER. SHE HAS NO HEALTH MINE. HILDA SAID LAST YEAR, THAT WE WOULD BE CONFORMED TO YOUR RULES.
			Guita Mesriani	
			Haylee Yelick	We need to stop the mask mandate. There is no scientific evidence it helps. Schools especially need to stop making children wear them. It is not beneficial to their health or wellbeing. Let people choose whether they want to wear a mask. That is why we live in the United States- freedom to choose!
			Heather K Ogden	
			Irene Rodriguez	Should not be mandated should be a choice. And should not be fired or suspended for not wanting to be vaccinated. It is a violation of our civil rights.
			J O	
			Jacky Cervantes	
			Jamie Sheehan	Medical freedom

Agenda #	Relate To	Position	The following individuals submitted comments on agenda item:	
			Name	Comments
18.		Favor	Jane Lee	Lynda Johnson is using her role with the Sherriff to use scare tactics and personally propel her local city campaign.
			Jason Lee	
			Jason M Casey	This tyrannical!
			Jeffery Ochoa	Do not fire the firefighters
			Jen Cobb	I oppose firing unvaccinated workers.
			Jen Delahunty	Please follow the lead of all the other states and counties that are not mandating vaccines and masking for people and especially our kids in school. Let's move forward and end this!!!
			Jen Viggiano	
			Jennifer Haroun	No vaccine mandates. This should be a matter of personal choice. Vaccination does not prevent infection or transmission. It is unconstitutional to fire people for not being vaccinated. We already have critical staff shortages and crime is on the rise. This would be devastating for public safety.
			Jennifer Macias	This is wrong to make people take drugs when you don't know long term effects.
			Jennifer Villarico	
			Jeremy Beau	I AM IN STRONG OPPOSITION
			Jesse Coria	
			Jessica Montoya	Numbers are going down. Vaccines don't work. Kids are not at risk. Remove all mandates.
			Jessica R	At this point in time, almost every employee has either been vaccinated or has had Covid 19. It is time to honor antibodies, no matter the source. Enforcing a covid 19 vaccine policy for this vaccine, which does not prevent the spread of covid 19 and does not prevent a person from getting covid 19, does not make sense and is harmful. It is also appalling to know the Board of Supervisors are willing to even consider this enforcement as the number of employees who will be affected by/ terminated is very high and LA County and its citizens will suffer enormously based on this decision. There are already staffing crises in many of your county departments and response times will be incredibly harmful to the public. Are you willing to let this happen? Covid19 now has prevention medication and treatments that have been proven to work. Mandating and enforcing a faulty vaccine is one the worst decisions that could be made for LA County.
			Jilian Harvey	
			Jocelyn Betancourt

			Name	Comments
18.		Favor	Joe Linkyen	
			Joe Mireles	
			Jones Cynthia	
			Joseph Gonzalez	
			Joy Liddell	
			Joyce E Bingham	We need to end all mandates People have many different reasons including medical and religious reasons for not taking the vaccine or booster. Please support freedom of choice and do not fire anyone regardless of vaccinations status Thank you
			Juan Garcia	
			Juan Lopez	
			Judith A Eny	
			Julia Bach	Don't you dare fire first responders who haven't taken the COVID-19 vaccines. Most of them had COVID-19 before there were vaccines, so they are already less likely to be seriously ill next time. We are lucky and should thank them every day for working at the start of the pandemic, not fire them.
			Julie Roberts	
			Karissa Glanville	Discrimination against people based on health, religion or personal choice is abhorrent. Do not pass this.
			Karla Ossandon	
			Katie Flynn	
			Katie Morris	
			Kayla Walker	
			Kellie Neufeld	
			Kelly M Caporaso	Firmly oppose this unconstitutional mandate. Forcing is ultimately wrong especially when long term side effects are unknown.
			Kimberly Johnson	
			LA County Citizen	I strongly support the termination of LA County employees who refuse vaccination. All jobs are "at will" for the employee and those who hire them. As a tax paying LA County Citizen, I do not wish to continue the employment of an employee who is unwilling to do everything they can to keep themselves and their community safe and healthy. I think dismissing these employees will go far in ridding our Sheriff's Department of the bad cops.

Agenda #	Relate To	Position	Name	Comments
18.		Favor	Larry Gorrindo	No Mandatory Vaccinations!
			LaTosha Hayden	
			Laura Giles	DO NOT FIRE OUR DEPUTIES
			Laura Morelos	
			Laura Pena	Unconstitutional, against religious freedoms, against civil rights, evil, unjust, many will suffer, medical discrimination, against the worlds Nuremberg code! No to vaccine mandates, do not fire these employees!
			Laz Gortay	
			Leslie Sarabia	
			Linda Cangelosi	I urge you to carefully consider the damage to our public safety if you decide to institute this policy. Fireman, sheriffs, healthcare workers are vital to a functioning society. The science does not support this decision. And it cannot be undone once enacted. I respectfully submit you reconsider. Thank you
			Marcia Wilson	The County has a policy of equity and continues to require its employees to practice Equity, yet the Supervisor would propose an amendment that would concentrate absolute employment power over thousands of employees and numerous departments that into the hands of three people and those three people would create overriding authority to one person, the Director of Personnel. Ultimately, a biased motion, in that the, DHR Director is involved with the creation of the amendment that would give her the ultimate power. Think of that! Where is the Supervisor's credibility? I hope it is obvious, I oppose any item 18 to Amending the Los Angeles County Code to Enhance Compliance with and Enforcement of the County's COVID-19 Vaccination Policy.
			Marco A Murillo	
			Maria A Horvath	
			Maria F Ramos Cardenas	
			Marie Hovsepian	
			Marisa Sheffield	Strongly Oppose! Mandating a vaccine that does not stop transmission is unethical and immoral.

Agenda #	Relate To	Position	Name	Comments
18.		Favor	Mary Puccio	The last thing you need is a shortage of first responders and critical employees. These heroes deserve our respect and freedom of choice. Do not shoot yourselves in the feet and fire first responders and state employees just as was done in the hospitals. They fired the nurses and healthcare workers and then found themselves understaffed and overwhelmed. Don't make the same mistake again.
			Mary L Espinosa	Oppose any county employees or any county employees being terminated for vaccine mandate
			Maryhelen Rios	
			Matthew Lindstedt	Strongly oppose amending the LA County code to enhance compliance with COVID 19 vaccination policy. This is ridiculous to try and force our community protectors or anyone person to comply with a vaccination policy.
			McKenzie Stuckman	My body my choice!
			Melanie Cruz	
			Mia Schneider	
			Michael Moore	It's truly embarrassing that those who signed up to be civil servants think they are above being mandated to. The public has a right to mandate vaccination of LA county employees just as those employees have a right to either work and serve their communities or find employment in another sector if they choose to not get vaccinated. The level of discourse is that of children throwing temper tantrums. For too long have some civil servants seen themselves as being above other citizens in norms. Law enforcement is especially guilty of this. Those that oppose the enforcement of the vaccine mandate say that we as a county would lose thousands of law enforcement officers. The same thing was said of the NYPD when New York City decided to enforce their mandate. The actual number of officers let go was under 50. If we lose officers, so be it. It will be on the county to hire new officers who will serve their community, instead of selfish children who are the embarrassment of our county.
			Michael Orefice	I am an LA County voter and oppose the LA County code to enhance compliance with an enforcement of the counties COVID-19 vaccination policy. With the rising crime releasing public service officers would be a disservice to LA County residence. I will be monitoring the outcome of this policy and will vote accordingly on the next election.

18.		Favor	Michelle Corby	I believe everyone needs to be vaccinated. We all know that the vaccines work and allowing anyone to bypass the rules is just inviting liabilities. We know unvaccinated people put the rest of us at risk and no one should be allowed to do that. We know until this goes away it will keep morphing into new variants. And it will not go away until everyone is vaccinated. I think that anyone who refuses to get vaccinated by whatever time limits you set should be fired, simple. Why are we even having this discussion? Limits were set so do what you need to do.
			Michelle Faliv	
			Michelle Sena	
			Michelle Stauffer	
			Michelle D Schumaker	
			Mihai Surd	
			Molly Theiring	
			monica arellano	America is land of free
			Monica Schuberg	
			Myriam Sage	Enough is enough!!!!!!
			Nancy Bourassa	
			Natalie Borja	
			Nia Silva	
			Nina Hirten	Vaccines do not stop transmission and the side effects are yet unknown (trials end in 2023 for adults and 2026 for children) making informed consent impossible. Therefore it is inherently immoral to continue mandating vaccines and should be stopped immediately.
			Patricia Rasmussen	My body is a sovereign state. This is segregation!!!
			Pauline Ravan	
			Pearl Lopez	Enough! Stop this madness terminating 18k employees will violate their rights, this is religious persecution. Everyone has a responsibility to themselves to make the most appropriate decision particularly when it comes to Medical decisions. NO Vax, NO masks, NO mandates....If you all were truly afraid we would not be hosting the Superbowl.

Agenda #	Relate To	Position	Name	Comments
18.		Favor	Rachel Melikian	Education is about educating people about the pro and cons of the COVID-19 vaccine and never forcing or mandating it. Otherwise, it is not an education but ridiculing one's intellect in an educational system. Teachers are there to make students think critically, research the subject, and have an opposing point of view. The teacher never penalizes the student for disagreeing with them if they have good evidence to support the paper. Likewise, educators, nurses, doctors, researchers, firefighters, and police officers oppose the COVID-19 vaccination mandate. It means they have a good reason for it, and it must be respected; otherwise, you are ridiculing their educational background and expertise. People have free will and free choice, and free conscience to make choices. Anything experimental turns humans into guinea pigs, and in the educational system, man differs from animals by his intellect. Please give respect where it's due and honor the choices of all who oppose vaccination. The US Constitution and Bill of Rights are there for a reason to protect man's equal rights and defend his humanity. Moreover, you bury the father of modern philosopher René Descartes, who famously said, "I think; therefore, I am." Therefore, we think we all oppose the vaccination of COVID-19 for good reasons.
			Rachel Peters	
			Rachelle Calzada	
			Ray Smith	
			Raymond Valadez	Vaccines have been shown with the recent omicron surge to be ineffective and therefore unnecessary. We had the highest amount of cases the past month than we've ever had and that is with a high percentage of vaccinated people in the public.
			Rebecca Buczinski	
			Rhonda Hicks	
			robert klang	
			Rosie Loprino	
			Ruth Burke	I do not support any amendment of this nature.
			Sabrena Gartland	
			Samantha Sepulveda	This is a violation of personal body autonomy and freedom. These men and women risk their lives and should not be forced to take something they don't feel is right to protect their job.

18.		Favor	Valerie Vargas	LASD consistently puts the LA County community at risk. The Sheriff's Department has frequent and consistent contact with the public, putting the health of our communities at stake because of LASD refusal to comply with County policy. Not only is LASD criminalizing, harming, and murdering LA residents, they are also exposing the public to a deadly virus with no regard for the health and safety of our communities.
			Valerie B Cripps	It is deplorable that you would seek to eliminate the people who have stood calm and present for us for years during all this chaos. How dare you take away the rights of these people. NO NO NO. WE are watching every move and we OPPOSE this vehemently!! NO.
			Vart Mirzoyan	
			Victoria Gonzales	One size does NOT fit all!! Some areas with low rates should be allowed to lift mandates. What works for LA doesn't work for the SGV!
			Victoria Sreden	I am an LA County voter and oppose the LA County code to enhance compliance with an enforcement of the counties COVID-19 vaccination policy. With the rising crime releasing public service officers would be a disservice to LA County residence. I will be monitoring the outcome of this policy and will vote accordingly on the next election.
			Wendy Coyle	I strongly oppose this vaccine mandate! It is ineffective, unnecessary, risky and morally repugnant to force any person to take a medical procedure against their will. It is barbaric, and could be considered a crime against humanity. Vote no and protect your employees and their families!
			Yvette Hitchye	
			Ziba Mansoury	Crime is at a high now and our safety is on the line. No one cares if anyone is vaccinated. This is unconstitutional and everyone should be able to pick what us injected in their body. We can't lose the people we called our hero's last year. This will be detrimental to our city.
		Oppose	A Galle	It's clear to me from seeing how Los Angeles county operates with the strictest mandates and how ineffective they are that we are being governed by those who do not understand our constitutional rights. Historically, medical tyranny has come from oppressive regimes. I oppose them
			A J	
			A Luna	Its been proved that even the fully vaccinated are able to carry and spread the virus. It should not be mandated if they provide emergency services to the community. If they are terminated you would put the safety of your constituents in the most under served neighborhoods in jeopardy. If the mayor and governor can be maskless and fully vaccinated in public. They are able to spread it..then our first responders should have a say in their medical choices.

18.		Oppose	A concerned mother in the Antelope Valley
			I strongly oppose this. If the vaccine actually kept people from getting the virus this would be a different that would be one thing, but so many people have had the vaccine and the boosters to go with it and still get the virus. Stop putting your head in the sand and bullying people to go along with your agenda. The mask mandate is being lifted. Countries around the world are moving on. The LA count board of supervisors need to stop this pissing match with the Police department. You need to unite over supporting the people you serve stop using your ELECTED positions to force your own opinions on everyone
			Aaron Escobedo
			Aaron F Rose
			In an appeal to the self interest of the BOS, being elected officials, please repeal the LA County vaccine mandates. The science will continue to prove the current Covid-19 vaccinations ineffective against current and future strains. Terminating LA County employees, including many public safety and law enforcement employees, will inevitably be used as a political weapon by your opponents during the next election season. As we see mask and vaccine mandates being lifted across the globe, those who hold fast will be held accountable by their constituents.
			Aaron M Blanton
			These men and women have worked fearlessly throughout the pandemic, we need to support them now, not take their jobs!
			Abigail Reagan
			I OPPOSE this unethical, segregationist over reach of power! Stop it now.
			Abigail Trainor
			It shouldn't be a decision between a job or a forced medical procedure
			Abraham Caballero
			Please don't fire them. They are integral members of LA County. At some point, we must move on from the pandemic and this is too little too late in my humble opinion. It was likely needed a year ago but not now. Let's move on. This feels like it's done out of malice instead of logic. It no longer benefits society more than it hurts. We cannot afford to lose them.
			Abraham Ceja
			This is still America. The BOS are overarching and abusing their powers.
			Abraham Villasenor
			Ace Esguerra
			AD KITTLER
			Adam Alt
			The vaccine does not prevent transmission. You have no right to do this to people.
			Adam Cohen
			Adam Garcia
			These people have families counting on them to support their households. Nobody should be forced to receive something they don't agree with!
			Adam Gonzalez

Agenda #	Relate To	Position	The following individuals submitted comments on agenda item:	
			Name	Comments
18.		Oppose	Adam Kilian	Overreach plan and simple
			Adam Roderick	
			Adam Toma	No one should force this vaccine on anyone!
			Adam Vargas	
			Adam P Levine	The science shows this is ridiculous. Let's catch up with the rest of the civilized world.
			Adelina Campos	
			Adolfo Trujillo	
			Adrian Camera	
			Adrian Sanchez	
			Adriana Giacoletti	While the rest of the country (and Europe) seems to be moving on, CA INSISTS on coercing people into medical decisions—enough! Where there is risk, there must be choice. True informed consent requires choice. You must allow individuals to make decisions for themselves. Bodily autonomy is of the utmost importance in a free society. This must be offered without the fear of unjust retaliation. For example, it has been popular to state that everyone is free to make a choice, but certain choices will result in the loss of livelihood and access to society at large. Is this really freedom of choice? Stop trying to control people's lives and choices. Stop trying to usurp the power and responsibility of the people. Uphold the individual's right to choose.
			Adriana Hernandez	
			Adriana Rojas	
			Adriana Tscharanyan	You people have completely lost your mind!! Are you BOS pro criminal. You are willing to fire law enforcement at a time like this. We can't even to you downtown LA cause we don't feel safe. Our family and friends don't wear jewelry or take purses with us for fear of being robbed. We have had friends' parents robbed just merely walking through the the grocery store parking lot. Covid is in the decline. The governor just lifted the mask mandate. I hope you all know what's it's like to be a victim of crime so you can appreciate what law enforcement does!
			Adrien Grbavac	
			Adrienne Shaouli	
			Adrienne Simmers	Absolutely oppose
			Agustine De La Torre

The following individuals submitted comments on agenda item:				
Agenda #	Relate To	Position	Name	Comments
18.		Oppose	Alana Smithee	Our first responders should have the choice to medical freedom and not be forced to inject an experimental gene therapy in order to keep their jobs. These first responders have been serving the community for two years during the pandemic and they should continue to do the same. Not to mention the fact that our public officials like governor Newsom and mayor Garcetti are out at sporting events maskless exposing people. What's good for the goose should also be good for the gander. Los Angeles should be following the Supreme Court ruling on vaccine mandates. Crime is going up and will only get worse if thousands of employees are forced to resign for not wanting an injection that has not been studied well enough. Finding qualified individuals to fill those positions will be difficult and put the entire city of Los Angeles at risk for crime, fire and traffic issues. The case numbers are going down in the city with Covid cases now that Omicron is here. It's also time to stop being vaccine supremacists and let businesses decide their own health policies, especially dine in restaurants. Vaccinated can still get and spread the virus and carry the same viral load of the virus. Every tax paying citizen should be able to decide for themselves.
			Albert A Sanchez	
			Alberto A Villafan	I oppose amending the Los Angeles county code to enhance compliance. Working in a public service job does not make the government a medical proxy. Making Health decisions is an individual right.
			Aldo Sanchez	
			Alejandra DeLeon	You can't force hard working people to take a vaccines that will not have the studies for until 2075. The board is voted by the people who work for the people.
			Alejandra Morataya	
			Alejandra Orozco	Enough is enough! Let us get back to our normal lives! Stop fearmongering and leave OUR CHILDREN ALONE!
			Alejandro de Armas	Critical staffing levels are already having a detrimental effect on the public's safety. With daily engines, trucks, and stations inoperable due to staffing (the public IS aware of this and will continue to be informed as staffing levels continue to drop), patients being transported in the back of engines and police cars, mass firing of the very employees who worked through the ENTIRE pandemic without inoculation - many of whom have verifiable T cell immunity- is a GRAVE threat to education, public safety AND TO PUBLIC HEALTH OUTCOMES. Any resolution that results in the mass firing of county employees can only occur with the amendment that the Board of Supervisors wholly and individually will be held accountable for the negative public health, law enforcement, and educational outcomes. As a community member, constituent, parent, and healthcare professional I vehemently OPPOSE.

			Name	Comments
18.		Oppose	Alessandra Jamgochian	
			Alex Baldwin	Scrap all mandates regarding Covid-19 as they have done far more harm than good. City is getting out of control and there is a reason so many are leaving. Don't be responsible for the chaos.
			Alex Cameron	Firing unvaccinated employees which includes 4,000 Los Angeles County Sheriff's Deputies would be detrimental to the citizens of LA County. They will suffer with incredibly long response times due to deputy shortages. The combination of ever increasing violent crime rates and a reduction of first responders will cost citizens dearly, some will even pay with their lives. Oppose Agenda Item 18 for the good of the county that you serve!
			Alex Davidson	
			Alex Ginno	This is insane. You want to fire EIGHTEEN THOUSAND PEOPLE AT ONCE? What happened to my body my choice? This madness must end!
			Alex Gomez	This is not fair for our county workers. They should have the right to choose what they want in their body. Thousand of professionals can not loose their job because of this experiment. Worry about what goes in your body, not others!
			Alex Martinez	
			Alex Orudzhyan	
			Alex Partida	
			Alex Rabin

Agenda #	Relate To	Position	The following individuals submitted comments on agenda item:	
			Name	Comments
18.		Oppose	Alexandra Branca	We do not support medical discrimination in any capacity. In addition, the fact that those vaccinated can transmit covid, there is absolutely no excuse for terminating employees choosing not to vaccinate. Medical discrimination will not be tolerated. To add, we need these employees. This agenda item is both horrific and heartbreaking. I do not care if a firefighter saving my home is vaccinated.
			Alexandra Filip	
			Alexandra Lambrakis	It is time to stop this coercion which is not legal in any manner.
			Alexandra Machado	Strongly oppose letting go of civilian personnel and deputies if they do not vaccinate. A COVID vaccine should not dictate employment status - they are already complying by wearing masks and testing. The city and county of Los Angeles can't afford to lose deputies. We have one of the highest crime rates across the country and need more protection now than ever.
			Alexandra Newland	Save the people of La county from facing additional unnecessary restricted access to resources they need by imposing unnecessary government force. This does not save lives. But rather cause more lose than that if just covid 19.
			Alexandra Ray	
			Alexandra Thompson	We do NOT want LA County employees to be fired for not getting the vaccine. This is unconstitutional. Crime has skyrocketed in LA, we CANNOT afford to lose 4,000 sheriff deputies! We don't want this!
			Alexandrea Mercuri	
			Alexandria Rios	
			Alexis Avila	Not only is this unconstitutional it is a back stab to all the officers that put their lives in danger every day to protect the County of Los Angeles. We have the right to choose what we want injected in our body. Last time I checked we are in America not in some third world fascist country.
			Alexis Bundy	
			Alexis Greenwood	Vaccinated or non- vaccinated, you can still carry the covid 19 virus. Wouldn't it be more beneficial if you're trying to stop the spread, to enforce everyone to weekly testing?
			Alexis A Beaudoin	
			Alezandria Welle	Your bickering with the Sheriff is getting tiresome.
			Alfonso Echevarria	
			Alfonso Martinez

Agenda #	Relate To	Position	Name	Comments
18.		Oppose	Alfred Benoit	Experimental injections are too dangerous and ineffective at stopping infection or transmission of current virus.
			Alfred Jaime	Adamantly Oppose!
			Alfredo Chaverra	
			Ali M Ebarb	As a 15 year veteran employee of the Los Angeles County Sheriff's Department - I am completely against this mandate that would have a detrimental affect on personnel as well as the infrastructure itself of our work force. Our freedoms and personal beliefs should NOT be at risk, especially under the knee jerk reaction to a pandemic since this isn't the first and won't be the last. The US/World has survived many pandemics without infringing on people's personal beliefs. As US citizens we have been able to have our own beliefs and religions without having them violated by politics. I adamantly oppose this Code to Enhance Compliance.
			Alice Galaz	
			Alice M Wollman	I oppose forcing people to be vaccinated for Covid-19. I believe in freedom of choice. Furthermore, my husband's public employer forced him to get the vaccine, even though he has Guillain Barre' system which is caused by vaccinations. Guillain Barre' is an inappropriate immune system response that causes paralysis and in some cases, death.
			Alicia Braxhoofden	I am against all Covid related mandates and the potential firing of those who make the decision not to get an experimental vaccine.
			Alicia Carrillo-Hernandez	
			Alicia Cozzie	
			Alicia Malone	I oppose Agenda 18. Agenda 18 is unconstitutional. It is absolutely ridiculous and makes no sense to fire employees making a personal decision that the Supreme Court has already determined mandates are unconstitutional. The thought of spending thousands of tax payers dollars hiring and training individuals just to fire them because you do not like their God given right to make a personal choice of what goes into their bodies. The majority of the individuals you want to fire are our Hero's. They put their lives on the line or they are saving us everyday. The lack of respect for the employees is pathetic and I am sure your parents would be ashamed of how you treat our Heroes. Please think long and hard of the consequences of your actions if you pass Agenda 18. We are already facing a crime surge, making Los Angeles County a very unsafe place to live.
			Alicia Urbano	This is unconstitutional.

			Name	Comments
18.		Oppose	Alicia R Lara	
			Alin Kazarian	Last time I checked, we live in a FREE country and our health choices are personal! No one should be forced to do this to keep a job! Health is a personal responsibility! Do away with masks too! We the people have had enough!!!!
			Aline Saylor	It is clear that if Los Angeles will host the Super Bowl we are no longer in a state of emergency. It is expected for at least 70k people to attend such big event. Loosing our essential workers over a medical treatment it is discriminatory at its best. La County employees were there during the beginning of the pandemic. A lot of them have natural immunity, which the CDC has admitted it is just as good if not better than the vaccine. You want to protect children, protect them by not firing 18K employees. The vaccines only protect those who take it. It does not prevent transmission nor infection. WE MUST STOP MASKING OUR children! The long term consequences of masking children 2 years of age and up will be disastrous. LA county citizens are finally waking up to the lies that we have been fed.
			Alisa Lewis	
			Alisa Wilson	MANDATES TAKE AWAY OUR FREEDOM TO CHOOSE. IT'S OUR RIGHT, NOT YOUR POWER PEROGATIVE.
			Alison Dement	
			Allan Wronski	
			Allan P Weaver	
			Allan Z Mata	
			Allen R Dollens	This should not be passed and is an overreach of power. This is not what you were elected to do.
			Alli Gents	As a mother of 2 school aged children, and the wife of a public health servant, I strongly oppose. I oppose mandatory covid tests, vaccinations, masks and all discriminatory policies intended to make life difficult for the unvaccinated, especially our children. I oppose mandatory covid tests and vaccines for small businesses, employees and employers who have been impacted by unnecessary and unscientific policies for the unvaccinated.

18.		Oppose	Amber Campana	County employees are the backbone of public safety, our medical services, mental health service, our teachers, firefighters, and everyone that works for our county. every individual that works for LA County contributes to services that help our communities, to keep services going through good times and bad times. You are supposed to be representing the best interest of the Los Angeles county residents (many of which are county employees) and you as the board of supervisors choose to take your personal opinions as law and what other department heads say as a personal attack. As The board of supervisors you are overstepping your authority in trying to control every freedom employees and department heads have. Please look at what you are supposed to represent and understand that you will ruin the lives of many including their children. Our children will grow up to be adults, do you want to be the reason they do not trust in their local government? Because you have turned your back our your county employees and residents rather than protecting them. This is not about vaccine mandates and/or mask mandates this is about control. Feb 15, 2022, changes details as to mandates, and now this becomes an item? Serve your community by bringing people together, stop separating people and threatening people. no one deserves the stress. If the board believes that these mandates are saving our communities look at the stats in our minority communities, the lack of vaccine participation has to do with the lack of trust in our local government and the history of what has been done in minority communities. If you are in favor of item 18 you will solidify the distrust and discriminatory nature of our local government because you are not sincere about taking care of your community.
			Amber Dorn	
			Amber Greene	
			Amber Karp	
			Amber Miles	
			Amber Molina	I am horrified that this is even on the agenda. We have had more vaccinated employees with covid passing it onto the unvaccinated. I've personally been exposed by a vaccinated individual. The fact that symptoms are less mild also proved to be untrue. It is so sick that you are trying to ruin hard working employees lives for your twisted agendas. Not only will you destroy thousands of lives you are also putting the public's lives at risk by potentially removing that amount of sworn personal. These are not individuals that can be easily replaced. I pray that you find it in your hearts to really consider what you are trying to do here. A lot of lives are on the line, I hope you do the right thing.

			This is absolutely insane! How could you fire the county employees for their personal choice not to get "vaccinated", when the "vaccine" doesn't stop transmission. The risks do not outweigh the reward. Do some research and look at the numbers if vaccine injuries. These people worked throughout the entire pandemic and now you want to fire them? Shame on you LA. I'm embarrassed to be a Californian
			Amber M Bissell
			Medical choice is for all Americans. This will cause families to lose their jobs and affect children.
			Amber N Brownell
			Amber N Renolds
			Amee Wilde
			This should not effect someone's employment. Especially frontline workers who have been on the job through this all and every day before that willing to put their lives on the line when no one else will. In an emergency especially, unvaccinated or vaccinated does not matter, what matters is their willingness to serve.

Agenda #	Relate To	Position	Name	Comments
18.		Oppose	Amy Allen	<p>The LA County BOS has no right to mandate an EMERGENCY USE AUTHORIZATION medical device masquerading as a vaccine. This "medical device" does not prevent the transmission of the SARS COV 2 virus or any of the variants (that have been created by this medical device), so how does the County think that it is a good thing to MANDATE a "shot" that does nothing to prevent transmission or protect others from becoming ill from this "MANMADE VIRUS"? In addition, this medical device (shot) has increased the incidents of Myocarditis in the whole population but the most disgusting part of this is that the BOS is willing to MANDATE this medical device knowing that it has caused a significant increase in MYOCARDITIS in the recipients of this medical device. (Please see attached documentation). I am actually at a loss for words at this moment but am so very disgusted with the currently leadership of Los Angeles County BOS who have not taken the time to research the COVID-19 SCAMDEMIC. Each supervisor needs to do their research when it comes to COVID-19 and preventing the spread because Ms. Ferrer's numbers are totally skewed to promote this agenda of population reduction as designed by Bill Gates (GAVI), Fauci (NIAID), which may all sound like CONSPIRACY THEORY, but if you did your research, as I am sure many employees (who now stand to be fired for not taking this deadly medical device) have you will see that there is NO reason (unless you want to suffer from a long term injury) to be MANDATED TO GET THE MEDICAL DEVICE. Shame on you Board of Supervisors! Especially SHAME ON YOU for being complicit in the deaths of thousands of Los Angeles County Residents. I have many examples that I would be happy to provide you with of friend, clients, and relatives that have DIED or become injured from this population control weapon cloaked as a vaccine. I CHALLENGE THE BOS to actually research this death shot on your own. Check your own batch number at howbadismybatch.com and I am most certain that you all received the "NON DEADLY VERSION" version of the shot. Please see attached EUA for Fulgent Genetics in which NO, current test on the market has been validated or approved to isolate the SARS COV 2 (COVID-19 or any of its variants). HR has already started suspending employees who have provided OPT outs for Fulgent and have totally disregarded the US Constitution, California Constitution and medical freedom rights. Just as an aside, several of the current BOS have received campaign donations from Pfizer (in the past). BOS is not recognizing natural immunity or other studied and proven methods to treat and prevent COVID-19 or variants, so please see attached double blind study with proven treatments and preventative actions that can be taken to reduce the risk and prevent transmission of the virus and variants. Please note that the information provided to the BOS in regard to FULGENT GENETICS sharing employee information without consent by the Sheriff is true. As an employee and a tax paying citizen of the County of Los Angeles, feel that MANDATING an EXPERIMENTAL USE AUTHORIZATION ONLY "medical device" and testing using EUA only tests (which has not been proven or validated to isolate the COVID-19 virus is over-reaching, illegal and detrimental to each and every person in residing/working in the County of Los Angeles.</p>

Agenda #	Relate To	Position	The following individuals submitted comments on agenda item:	
			Name	Comments
18.		Oppose	Amy Baik	
			Amy Cannon	
			Amy Carrasco	
			Amy Dedeaux	I oppose the termination of unvaxxed county employees. No one should be forced to comply in order to keep their job. Medical freedom is our right as a human being.
			Amy Greer	We are not in a state of emergency. Vaccine mandates should not be enforced at the cost of peoples jobs.
			Amy Hernandez	
			Amy Hill	
			Amy Holmes	NO!!! Stop trying to grab up power. DO NOT FIRE OUR HEROES in public service for their personal medical choices. END THE VACCINE MANDATES!!!
			Amy Jenkins	
			Amy Mangus	
			Amy Mann	The statistics show that the current vaccinations for COVID-19 do not prevent someone from both contracting COVID nor spreading it to others. While it may lessen severity for some, it does not protect people they come into contact with Therefore requiring this as a condition of employment is not a rational or scientifically sound measure. Terminating employees who chose not to get this vaccine for personal, religious, or medics reasons causes more harm than good. It reduces the number of seasoned emergency personnel available for responding to life threatening emergencies where response time is literally a matter of life or death for those in need of emergency assistance. Whether or not they are vaccinated does not have an impact in such situations. I would also point out that these employees have been on the front lines for nearly 2 years, through the worst and most deadly part of the pandemic. Many of whom also contracted COVID and recovered (and have natural immunity, which also has been shown to be stronger than that of the vaccine). How is it ethical to terminate them now? How does it truly help the community? How is it more constructive than destructive to the families involved and the society at large? Lastly I would like to point out that Comirnaty vaccine (which received FDA approval) is not available in the US, only the Pfizer-BioNTech vaccine, which only has EUA in the US. Therefore legally this cannot be mandated for anyone, they must be given a choice. Please take all of this to heart and truly consider the consequences of this policy being passed and put into action. Thank you.

18.		Oppose	Amy Nystrom	
			Amy Ochoa	
			Amy Penszynski	It is unconstitutional to force someone to put something in their body! No one should have to take this especially to keep their job. I strongly oppose! I support freedom of choice!
			Amy Taber	
			Amy Vivona	The vaccines do not prevent transmission or keep you from catching Covid-19. Medical decisions should be made in consultation of your Dr. The Board of Supervisors are not doctors and don't know the medical history of the employees who work for the county. They cannot in good conscious make this unilateral decision to put the employees in the situation of choosing their jobs or their health. These people have worked through the pandemic, when there was NO VACCINE (which isn't a vaccine by the way), caught covid during their time at work and got better and CAME BACK to continue to serve their community. It's a slap in the face to each and every one of them who worked despite the risks. Oppose this line item on the agenda!
			Amy Williams	
			Amy L Viger	
			Ana Babakhani	
			Ana Cadman	
			Ana Garcia	We need our nurses not fair to take there jobs that is so un kind as we all have families
			Ana Gomez	Vax and unvax can spread covid 19, no on 18
			Ana Ramirez	
			Ana Rubalcava	
			Ana Valerie	Let people choose if they want to get vaccinated or not. It is not your right to force a medical procedure on anyone. Also, it should not be a one sized fits all approach to vaccination. These vaccines are not without risk. Where there is a risk there should be a choice. Some people are not able to tolerate this vaccine and therefore should not be coerced into it, especially if there's no liability on the pharmaceutical manufacturer OR the employer who forced them. Please oppose this!
			Ana Wilson	
			Ana M De La Torre

			Anahit Karamyan	
			Analina Palmer	In your new agenda, OUR HEROS don't fit in WHY? .. These are the people who have served us during the worse time and now they are disposable because ... They have a Freedom of Speech and Freedom to Choose what is best for them. No More MANDATES... No more Mask ...No more Vaccine.. we the people have they choice to CHOOSE !
			Anastacia Gandara	
			Anastasia Brown	There should be no discipline actions taken against any employee over the vaccines. Should be completely up to the person's individual choice.
			Anay Rodriguez	
			Anayancy Acosta	
			Anayeli Santiago	
			Andjoua N Brown	
			Andre Bajanov	
			andre lua	
			Andrea Boyle	Let people choose!!
			Andrea Coco	
			Andrea De La Rosa	Oppose!
			Andrea Gil	
			Andrea Greanias	John Hopkins study reveals extreme measures are ineffective. Businesses and the public mental health is suffering. This policy is Draconian. These vaccines come with risks. There is not long term data to suggest effectiveness nor that other issues may not arise. The VAERS data demonstrates this. I have family members now disabled following vaccines and boosters.
			Andrea Jensen	
			Andrea King	firing so many would leave the county short on not only medical professionals in a pandemic. But with the high crime rate there wouldn't be enough police to keep people safe

18.		Oppose	Andrea Laurich	This is not acceptable on any level. Vaccines of any type should be completely voluntary.
			Andrea Lopez	End the mandates
			Andrea Marquez	
			Andrea Prasch	
			andrea romero	
			Andreina Ochoa	Children are at a very low risk and I oppose the current health order and all mandates on our children. It is also important to note that no child should be restricted of their right of getting educated in person; therefore, discriminating and segregating a child based on their personal medical information is unconstitutional and illegal. It has been proven that the vaccine does not prevent transmission so what is the ideology behind such tyrant mandates? Let's not forget that the manufactured companies are not held liable for any adverse reactions, injury and including death, and I doubt the State of California, politicians, Public Health Department, all School board members, schools and all educators across the State would be liable and would willingly sign a liability form for enforcing a vaccine that is still under experiment and that has no long term studies or data, and that it is not effective because it does NOT prevent transmission! Once again, I oppose all health orders and mandates on children of ALL ages. This also applies to adults and all other individuals that are being mandated because like I mentioned before, the vaccine does not prevent transmission and no one is liable for any adverse reaction, injury and death as a result of this experiment vaccine which has no long term studies or data. No one should be forced, coerced to inject themselves and everyone has the right to accept or decline any medical treatment without being discriminated or segregated because we are ALL sovereign of our health and body!
			Andres Navarro	BOS are a bunch of tyrannical Nazis who don't practice what they preach.
			Andres Saenz	End the mandates.
			Andrew Dorso	End all mandates. We have the right for freedom over our own bodies.
			Andrew Estrada	
			Andrew Hagewood	
			Andrew Jennerson	
			Andrew K	
			Andrew Lawrence	
			Andrew Marbach

Agenda #	Relate To	Position	The following individuals submitted comments on agenda item:	
			Name	Comments
18.		Oppose	Angela Espinoza	County employees are being required to obtain the vaccine that does NOT serve what the policy indicates, as the vaccines do not prevent transmission nor getting COVID-19. It does not reduce side effects, hospitalizations nor deaths as once publicly stated. As of 01/21/2022 the VAERS report lists 22,607 deaths, 121,597 hospitalizations, 11,502 heart attacks, and 40,069 permanently disabled due to the COVID-19 vaccines. The policy violates health and safety section 2331, subdivision 802, code 21 of federal regulations and section 50.23. All vaccines currently available are still under EUA use. Per the FDA under section 564(e)(1)(A)(ii) recipients have the option to accept or refuse products and of any consequence of refusing administration of product. The policy violates state and federal laws including privacy as employees religious exemptions are being outright denied for not registering into Fulgent which also violates state/federal laws including LAC Charter and LAC Employee Handbook in addition to departmental policy manuals.
			Angela Fragoso	This is ridiculous!!!! The Covid-19 virus is in the decline. Enough people have been vaccinated and have natural immunity's. Let these men and women get back to the jobs that they want to work at.
			Angela Hauser	
			Angela Leon	Un constitutional
			Angela Marabyan	I oppose this agenda as these employees were considered essential and risked their lives throughout the entire pandemic and it is unjust to not allow them the right to work for money to provide for their families. It is clear that vaccination status has no affect on HOW someone can perform their job and it is also clear that vaccination status is not something that actually stops the spread of covid. I oppose this agenda and I wish you all can see how much harm this is doing to the employees and their families and how much stress this is causing based on something that simply "lessens symptoms" and doesn't actually stop anyone from contracting the virus. The agenda is baseless
			Angela Mehtemetian	
			Angela Nichols	Do not fire these people!!!
			Angela Wenz	Vaccines should not be mandatory. People can still get covid, spread covid and die from covid if vaccinated so there is no logical reason to make it mandatory. This is a power grab. I work in the ER and have seen it first hand. I've also seen the adverse reactions from the vaccine.

			Name	Comments
18.		Oppose	Angelica Jimenez	Please, let people chose and not coerced them to do something they do not want. You are playing with peoples lives and this have consequences.
			Angelica Manrique	
			Angelica Mendoza	
			Angelica Mendoza	
			Angelica Mojica-Lopez	We need our 1st responders they are still hero's and should not be discriminated against. They should have Freedom of health choice
			Angelica UMALI	You have no business involved in anyone's personal health matters.
			Angelica Valencia	
			Angelica Viernes	
			Angelica Villegas	
			Angelica C Alvarado	
			Angelina Crowley	It is NOT the county's business to determine health decisions!! Health is not a one size fits all concept!! Vote no or suffer the consequences at the polls!
			Angelina Marquez Holguin	
			Angeline Baker	STRONGLY OPPOSE
			Angie Coloma	We should not be enforcing any medical treatment on individuals who do not want it. Most individuals have medical or religious exemptions and this is clearly removing their rights and ignoring this is deeply concerning. The vaccine has not proven to stop transmission not infection and we continue to see spikes in cases and hospitalizations in cities/countries with nearly 100% vaccination rates. We cannot give always our constitutional rights for unscientific laws and mandates. And we loose our humanity along the way. Please let's the very few people who have their religious or medical reasons keep their jobs, they risk their lives to protect their communities and we should honor their civil rights and not discriminate.
			Angie Mancillas	
			Ani Azaryan	
			Anissa Bell	Strongly oppose! This a violation of human rights!!!!!!
			Anita Belokopytova	
			Anita Nieves Brinkman

Agenda #	Relate To	Position	Name	Comments
18.		Oppose	Anna Gomez	I oppose item 18 because it is unconstitutional and not to mention probably illegal. It has devastated county workforce and caused severe shortages. As a health care worker, I have seen this first hand, we have gone from being fully staffed (which is 8 county nurses per shift) to dangerously short staff (3 county nurses with 5 travel nurses per shift). The County's COVID-19 Vaccination Policy has also divided the staff and caused a hostile work environment for those who chose not to be vaccinated for medical or religious reasons. Employees not vaccinated have been segregated and discriminated. We have a vital workforce ready to work who have been denied the ability to serve the patients. The County's COVID-19 Vaccination Policy has negatively affected employee morale and not to mention has adversely affected patient care. AS per CDC director, Rochelle Walensky, has mentioned publicly vaccinated or unvaccinated both can equally spread COVID. I do not understand after everything we know now about COVID, why are we still enforcing a vaccine that does not prevent the spread or infection of COVID. I implore you to end the County's COVID-19 Vaccination Policy, and seize to discipline and enforce this illegal policy.
			Anna Madorskaya	
			Anna Mendez	
			Anna Mkrtchyan	
			Anna Mkrtchyan	I strongly oppose LA County enforcing vaccine mandates on any persons
			Anna Movsisyan	
			Anna Nikander	I oppose this action because taking an experimental drug should be a personal choice, not a requirement to keep one's job. Enforcement of this vaccine mandate will force the resignation or firing of many city workers like police, fire fighters, and health workers. This will reduce the numbers of essential employees and will endanger our city and state. This unconstitutional mandate must be abolished.
			Anna Singer	Oppose
			Annabel Gaxiola	
			Annabel J Gaxiola	
			Annaka Telles	
			Annalise Rodriguez	My eldest daughter works for LA county. 16 years. She's already said she's put in applications for neighboring county for work if you fire or mandate these vaccines. I really hope for our LA county safety you reconsider and end this mandate. Im going to text and send this out to our neighbors and friends. This is wrong!

18.		Oppose	Anne Barbour	
			Anne Johnson	
			Anne Kent	No termination for vaccine refusal
			Anne Lee	Considering the ineffectiveness of the Covid vaccine against the omicron variant, mandating a vaccine for employees simply does not make any sense. How can you mandate a vaccine that does not stop transmission - that does not work? And how can you force adults to take a vaccine - a medication essentially - that brings with it so many possible harmful side effects? When considering sweeping policies that can deeply affect people's health and welfare, please consider a mandate that actually makes sense.
			Anne White	I oppose any mandates whatsoever as a condition of employment. The present Covid 19 vaccines do not: prevent infection, transmission to others or death, resulting from the virus. People can manage illness themselves, they do not need the government managing it for them.
			Anne M Ahten	This is America. Home of the FREE. Our rights shall not be infringed. Placing a mandate on the hard working Americans, to either comply or be fired from there job is not freedom. Do better. Love the freedom we have in America. Don't hate. Before you know it, it can all be gone.
			AnneMarie Hallman	I work in LA County and this would be devastating for Los Angeles County services especially the first responders and emergency services already short and compromised by the mandates and those moving out to live in other less restrictive states and areas. The residents and those of us who work in LA County would be put at further risks and safety would be further compromised if this is implemented. I strongly oppose this!
			Annemarie Yorck	
			Annette Hernandez	
			Annie Wypchlak	End mandates
			Annika Albadran	
			Annika Gilboy

Agenda #	Relate To	Position	The following individuals submitted comments on agenda item:	
			Name	Comments
18.		Oppose	Anonymous County Employee	I oppose the vaccination and testing mandates of County employees and any disciplinary action as a result of this policy. New data tells us that vaccinated individuals also contract and spread COVID. Follow the new data and make common sense decisions. Consider allowing previous infection as an allowed reason for a medical exemption. Over 50 countries acknowledge infection-induced immunity, yet the US is somehow stuck on vaccination as the only solution to the pandemic. The COVID-19 vaccination policy should be terminated.
			Anthony Armas	
			Anthony Delia	This is by far one of the biggest waste of tax payers dollars. How can you spend so much time coming up with these idiotic ideas? I oppose amending the code to enforce the covid 19 vaccination policy! You should be raising up your employees for the work they have done, not threatening them with losing their career. What goes inside a persons body is their choice! Not the choice of 5 people.
			Anthony Farias	
			Anthony Garcia	
			anthony ledesma	
			Anthony Levin	The vaccine is proven ineffective. Medical freedom is the right of any American. The corrupt board or their cronies don't get to determine what I do when it comes to my medical decisions. Firing county employees would be detrimental to public safety.
			anthony mendoza	
			Anthony Mendoza	
			Anthony Roman	
			Anthony Tirado	
			Anthony E Duncan	It is a disgusting abuse of power to force someone to do something to their own body, so they can maintain their job to provide for their family. Shame on the BOS
			ANTHONY R VELASCO	
			antoine michael	The fact that this is even a discussion is an absolute joke. Similarly to how you defunded the police for public appeasement then came crawling back to undo your mess, this will be the exact same policy.

			Antonia Vitanza	It's a personal choice! Period.
			Antonio Flores	This virus is not that serious! My body my choice !
			Antonio Zaragoza	
			Antonio H Porras	
			Anush Froian	
			Anush Vardanyan	
			Apollo Densing	Against sincerely held religious belief.
			Apollo Lodi	Poor choice to fire people when requirement for herd immunity has been met.
			April Gingras	
			April Hardin	Personal choice is paramount to a free and Democratic society. I strongly oppose requiring ANYONE to have to be vaccinated to keep their job. These first responders worked the entire pandemic without it and we're fine. There is no need to mandate or require it when there are alternatives
			April Peters	This is criminal! Why are you doing this to so many hard working families! We just want to work!!!
			April J Droddy	There is more of a threat of our children getting ill and being harmed from tracking in the human feces and urine that they step in and around in our city or being shot, stabbed, raped and robbed on our streets than there is of Covid. Which is another reason to stop harassing our police and firemen and women, along with our children.
			Aracely Ramirez	
			Araksya Boyadzhyan	The government should not impede people's right to free choice on decisions that effect a person's own body and health. Especially in light of the evidence that contradicts that vaccinations somehow lessen the likelihood of getting the virus. We all know that vaccination does not alter the likelihood of getting or being exposed to the virus! Therefore, the enhancement of the policy for enforcing a vaccination policy which is inefficient and ineffective is unreasonable!
			Aram Bedikian	
			Ari David	
			Ariana Zambada	Freedom of choice!! Stop with these mandates.
			Arianah Watts

			Ashley Neudauer	
			Ashley Nuriani	
			Ashley Olivia	
			Ashley Olson	
			Ashley Podgorski	
			Ashley Priestley	As a CA resident since birth (34 years), I have never been more embarrassed of this state than now. During the riots in 2020, my husband was working the front line while I sat home with my three children watching in horror. I am a Federal employee and was able to telework during COVID as I know all the you board members were as well. As a LA County Deputy, my husband has worked through the entire COVID time period. Now that is has been proven you can transmit and test positive for COVID while having been vaccinated, there is ZERO logical argument for firing and even requiring a COVID vaccine for employment. In fact, I would successfully argue that you are safer being around an unvaccinated deputy that gets tested weekly than a vaccinated deputy. Let's not make this County more unsafe that it already is. Not all of your residents live in rich, gated neighborhoods. We value our safety and our deputies and do not want valuable experience thrown away because of an illogical mandate.

18.		Oppose	Ben Song	I urge you to oppose this. It's common knowledge that Covid vaccines don't protect against infection or the spread of the omicron variant. The county's vaccination policy is now outdated, unscientific, and unhelpful. Many countries have declared Covid endemic and have lifted all Covid related restrictions (vaccines, masks, and distancing). Even the state of California recently decided to end mask mandates indoors (effective 2/15). Why is LA County not only failing to lead in following the best data available but considering doubling down on this outdated policy instead? It seems everyone is beginning to realize this except for our leaders. This is backwards and I urge you to exercise some sanity and vote "no" on this. Thank you!
			Ben O Choo	Strongly opposed to mandatory vaccinations! I'm not saying Covid deaths aren't a reality, but fear is causing us to lose our freedoms, we lose our freedoms, we lose our country.
			Benita Bodnar	
			Benjamin Armenta	
			Benjamin Gavrila	I oppose the mandate and believe everyone should have a choice on how to manage their own body and their own life. People should not be stripped of their livelihoods for making a decision they deem best for themselves. The vaccine has nothing to do with their ability to perform their jobs. It has been proven that both vaccinated and unvaccinated alike spread and contract the virus. There is no benefit to terminating or mandating a vaccine!
			Bennett Braaksma	
			Bernice Brook	This action will have unanticipated consequences that hurt the states safety, economy, and unity. Stop this proposal!!!!
			Bernice Gonzales	
			Bertha Amezcua	
			Bertha Carbajal	No one should have to lose a job over a personal medical choice!
			Beth Dennis	
			Beth Dutton	
			Betsy Reid	
			Betty Gabbaie	These individuals have sacrificed their lives for bettering our community. Vaccines are NOT stopping the spread of Covid and are a personal choice. Natural immunity is more effective at this point and people should choose what is right for them.

18.		Oppose	Betty Gallegos	The people of this county should make their own medical decisions without force or fear from politicians. The county does not want to be held accountable for vaccine health issues, if no one is taking responsibility for a vaccine that does not work but creates health issues to people.. then it should not be forced upon an individual. I OPPOSE discrimination I OPPOSE segregation I OPPOSE those against "my body my choice". I OPPOSE this mandate.
			Betty Hernandez	
			Betty J Gomes	
			Beverly Lucia	Please do not pass this. No one should be forced to take a medical injection that has been proven unsafe across the world. My son is a deputy with LASD. He came to us through foster care as an abandoned baby. We adopted him. He has overcome and has done so well. He has a heart condition though. He shouldn't feel threatened to lose the job he worked so hard to get for refusal to take an experimental injection that is for a virus that has a survival rate of over 99%. It should be the deputy's choice on what they want to do with their health. Please vote no.
			Bianca Alvarez	
			Bianca Armenta	
			Bianca Morgan-Sementilli	This is unfair and unlawful. Vaccines are not working, they do not prevent the spread of Covid or prevent deaths from Covid. That is an obvious fact looking at the last surge of Omicron. Vaccines do not work! They should be a choice. The Constitution was created in order for Americans to have their rights protected and by forcing people to get vaccinated, you are infringing on their rights to choose for themselves. You are doing this by forcing people with the threat that they will lose their jobs if they do not choose to be vaccinated. This is so wrong. Also, this forces people to be segregated. As a nation we have always tried to work towards women's rights, racial equality, the acceptance of the LGBTQ+ community...and now we want to divide the country over vaccination status?? Again, wrong in so many ways. Please stop the division and stop this amendment. Vaccinations have been proven not to work so this is unnecessarily needed. Listen to the community who need jobs and don't want to lose their freedoms in order to keep food on the table for their families.
			Bill Delaney	HELL NO.

Agenda #	Relate To	Position	The following individuals submitted comments on agenda item:	
			Name	Comments
18.		Oppose	Bill F	End the mandates. Workman's comp cases in sheriff's department do not "illustrate vaccinations' vital role in limiting the spread of Covid and thus, the urgent need to increase vaccination rates across the entire County workforce." ALL OF THE DATA SHOWS THAT VACCINATED GET COVID AND SPREAD COVID. Places with 100% compliance still have COVID. The vaccine isn't even made for these new variants. See Israel, Gibraltar, Cornell, etc. with 100% vaccination rate or Israel on 4th shot! They all still have COVID. Please we are begging you to end all mandates. People are leaving Los Angeles in droves...because we do not follow the science. Please! No mandates! It hurts the workers and it hurts everyone in Los Angeles!
			Bill James	This motion is solely based on power. The current Covid situation is improving and this last variant was a cold for 99% of those infected. and not to mention the vaccine did ABSOLUTELY nothing for the Omicron variant. The narrative is crumbling and LA county is attempting to hold on to it by a thread. The cover has been blown. I also like that you mentioned the Delta variant in your motion, which was the prominent variant over TWELVE months ago, no mention of the latest weak omicron variant and the fact that no one was safe from Covid regardless of vaccine, boosted, etc. If this mandate is still about the "science", then what is the true meaning behind the mandate if the vaccine does not prevent transmission? The workforce knows, the public knows, and I'm sure all local and state leaders know as well. This is coming down to a personal health decision for each individual. No mention of the recent CDC data also stating that natural immunity faired BETTER than just vaccination during the delta variant surge. If you're now going to dictate how county workers medically treat themselves because you believe it is "better for your health", then it would only be fair that all county workers now will be mandated to: eat healthy foods, workout for a minimum 4x a week, no smoking, no drinking, and an annual physical exam that you must pass in order to continue working. It is only fair that you make the rest of those decisions as well and we will see how much of a workforce would be left. Stop the charades. The party is over.
			bill witten	
			Bill C Mueller	
			Bill R Van Ness	
			Blake Riley	
			Blake Shellington	This will be detrimental to already exacerbated staffing issues.

18.		Oppose	Blanka Clare	Should be optional! No one should be fired.
			Bo Hart	Freedom to choose what we put in our bodies.
			Bob Reed	What do you want to do. Destroy what little of our economy we have left. And raise poverty to epic proportions.
			Bob Sager	
			Bobbie Fletcher	
			Bobby Aversa	<p>The County of Los Angeles is inundated with crime, it is not safe for the average resident to go grocery shopping during daylight hours and this Board's main concern is an unconstitutional mandate regarding a "vaccine" that does not stop transmission of the Covid virus. A virus with a survival rate about the same as the common flu. A "vaccine" were its long term safety is not yet know.</p> <p>Unfortunately this format only allows 8,000 characters, which does not allow as comprehensive of a legal argument as one would make in a court of law. Let me remind you of this, or maybe in your limited vision you are not aware, you are breaking several laws. The one that should be your main concern is dereliction of duty. Your main responsibility as a elected body of government is the safety of the people you represent.</p> <p>With this act of wanting to fire 18,000 Los Angeles County workers that provide essential and life saving services to the residence in your districts your are failing to uphold the oath you took.</p> <p>You may not be aware this falls under jurisdiction of federal law. More clearly stated in layman's terms, it is a violation of a public oath by a public official, with foreseeable grave consequences. Which is a violation of established federal law.</p> <p>You may not be concerned with the fact that the taxpayers of this county and State of California will have to pay out 100's of millions of dollars in settlements because of your willful and intentional violation of the public oath you took. You may also want consider that you could rather easily be held liable by the State of California, especially after a federal investigations in to this matter.</p> <p>I urge you to reconsider and to be more closely aligned with the oath took and swore to uphold.</p> <p>Thank you for your time in this matter.</p>
			Bobby Hammers	End this Tyranny, if you continue down this dangerous path eventually the masses will reach a breaking point they will revolt against you. When people just want to be left alone and continue on with their life. Life continued after 1918, still millions don't get a flu shot and survive. Do what you all know is right in your hearts and seek God's forgiveness.

Agenda #	Relate To	Position	The following individuals submitted comments on agenda item:	
			Name	Comments
18.		Oppose	Brandon Chapman	Gross over reach of power OF THE BOS, the COVID vaccine has proven not to prevent infection and or transmission. Shall be the persons choice to receive the vaccine if they feel it is right from them.
			Brandon Counts	You have no right to tell others what experimental vaccine to put in their body! This will be my 15th year with LA County and unfortunately my last. I will be laterally to another county due to your crazy actions, and I'm surely not the only one leaving.
			Brandon De Medeiros	My body, my choice
			Brandon McConnell	
			Brandon Meyer	
			Brandon Moore	
			Brannon Terrell	The level of danger that you are willing to put the residents of Los Angeles County in is astounding. By threatening Sheriff deputies and sworn staff with termination if they do not comply with a mandate that has been ruled unconstitutional is absurd. It is immoral and probably illegal to vote yourself authority powers that are not given to you by the people.
			Brant Benun	Do not pass this! Preserve our freedoms
			Brant Botton	
			Breanna Brousseau	
			Breanna Weinhold	
			Breanne R DeMack	I OPPOSE. Do not force this on our workers.
			Breeanna Bush	Anyone who tries to make the LA County workplace unfriendly for our employees by threatening disciplinary action should be ashamed of themselves. Most of these employees have already had covid, which the science clearly shows offers at least as much protection as the vaccine. Those that haven't are a small percentage of the LA County workforce, so to bully them is to admit that we don't have confidence in the vaccine. They shouldn't be punished because the vaccine offers so little protection. If it does offer protection, then the public and coworkers don't need to be worried! If you are concerned about the immune-compromised, they will always have to avoid public places and take their own precautions because they were always and will always be at risk from a large number of diseases. Use logic, please!

Agenda #	Relate To	Position	Name	Comments
18.		Oppose	Brenda Conner	Due to the ongoing covid 19 illness that is still rampant in our world, despite high vaccination rates (look at Israel), there is no evidence to show that this will aid our county in fighting covid 19. Every employee, should have the right to choose what is put into his or her body. It is not the county's right. DO NOT REQUIRE THESE 18,000 EMPLOYEES TO GO AGAINST THERE OWN CONSCIENCE!!!
			Brenda Diaz	
			Brenda Mangan	I am an RN supervisor working County (OVMC L&D) for 30 years this June. I am vaccinated and received the booster but currently at home on quarantine due to Covid. Two years into the pandemic and even vaccinated individuals are getting Covid. Many great nurses within my department have been reassigned due to vaccine mandate, which we cannot afford and is severely jeopardizing patient safety. Two of my family members are Sheriff deputies. They have worked their whole lives to pursue a job in law enforcement risking their life every night to "serve & protect". Nurses, Sheriff Deputies and Firemen are all professionals that have strived to help, serve others and save lives. These professionals do not deserve to lose EVERYTHING they have worked so hard for based on their personal choice. As a healthcare professional myself, I absolutely ?? DISAGREE with the vaccine mandate.
			Brenda Meyer	
			Brenda Robles	These hard-working, honest HEROs that you are trying to terminate have one way or another, been putting their lives on the line for you and your families! Now because they choose to not inject themselves with an experimental vaccine, you are trying to make them lose their jobs and livelihood! That is wrong! Allow everyone the freedom to make their own medical choices!!!
			Brenda Serna	
			Brenda Tarvin	
			Brenda Velazquez	
			Brenda M Webb	You haven't secured our neighborhoods and communities from crime, theft, those who start up loud engines at 2:00 am, and now you want to limit protection for the general public in severing jobs for those that do what is needed. Shame on every one of you that if for this. God is not for this and He is invisible to you. This is not good for California or the residents of Los Angeles. Don't find out the hard way. Do what's right!
			Brendan Griffith	
			Brenna Brady	As a firefighters daughter of 36 years...these people are HEROS and this mandate is absolutely ridiculous!!! OPPOSE, OPPOSE....OPPOSE!!!!!! Wake up!!!

18.		Oppose	Brenna Rucker	
			Brent Borgese	
			Brent Gold	
			Bria Harpham	
			Brian Ballinger	
			Brian Clayton	This policy no longer makes any sense, and made no sense from the beginning. COVID-19 has fallen to a basic seasonal illness level and it has been shown and proven that the vaccination does not prevent infection, or spread among those vaccinated. People who fear A severe illness can still "choose" to be vaccinated and take any precautions they would like. There is also no evidence that this virus has ever been passed from public employee to a private citizen. Please follow the current "science" which is ever evolving. Healthcare choices this extreme shed always be an individual's choice. They shouldn't ever be made divisive, political or have a underlying agenda. Thank you for seeing the light and do what you want is best for your County employees and constituents
			Brian Costello	End all mandates for our first responders. We cannot survive this devastating loss. You cannot legally coerce someone into a medical experiment or procedure to keep their job. Deaths are up 40% in 18-64 year olds from this shot per the insurance industry.
			Brian Espin	The vaccine is an individual choice, even with the vaccine you can still contract and spread Covid.
			Brian Gardner	Vaccinated or not you can spread Covid or get Covid so it does not matter whether you are vaccinated or not to do your job as a sheriff. They are already stretched thin which is putting strain on the sheriffs and the community. There is a lot of crime in my city and without sheriff presence gangs will run our town and more death will happen if gangs are running the city. If this passes myself and many other people will leave the state of California due to the lack of safety that will be provided by the state.
			BRIAN HICKEY	Losing that many public safety personnel is just crazy. Bring a resident in the county area allready we have noticed a decrease in deputies and crime is going up. I do not live in a contract city and know the politics on how they take president over county resident, this can not happen. It would take several years to recruit deputies who "fit" your agenda and even more years to get them to the speed of what we have in the field now. I wouldn't want the blood shed on my hands, make the right decision and DO NOT pass this .
			Brian Huezo	This will negatively impact the safety of all in Los Angeles County.

Agenda #	Relate To	Position	Name	Comments
18.		Oppose	Brian Kari	
			Brian Lindsey	
			Brian Mundy	Stop the Covid mandates for LEO and fire
			Brian Neufeld	
			Brian Nichols	
			Brian Noble	It has been shown that the efficacy of these vaccines is not what we all originally had hoped for. Why are we making this a requirement to be employed in this county? Additionally, in this job market, it is more and more difficult to find employees with the right amount of experience to perform their duties. And, in this time of rising prices, people cannot afford to lose their jobs and try to start over again. Couple this with the rise in crime and the possibility of the Sheriff's office losing employees? Please consider the real safety and financial health of the people of Los Angeles County.
			Brian Powell	
			Brian Reaves	Law enforcement is already cut thin and hemorrhaging with the little numbers they do have. Coupled that with early retirements and budget cuts (defund the police movement) you want to fire more? You add today's environment with no one wanting to do the job, you think it'll be easy to replace them? And if so, how long will it take and what kind of experience are you losing versus gaining? What kind of future problems are you creating for the community(s) by the lack of experience these new officers will have? They've worked nonstop throughout the pandemic without therapeutics being exposed to all types of COVID-19 variants. They continued to show up and do their jobs. Most if not all have had some type of natural immunity due to the exposure (s). Crime is at an all time high and as a concerned citizen I'm worried about public safety. I feel the board is making the wrong decision on firing/letting go the police and civilian staff who have had the courage to show up do their jobs. These men and women have outweighed the risk of bringing home the virus to their family, friends and love ones to continue to serve the community. I strongly disagree with the board's vaccine mandate and encourage you to reconsider and oppose this decision.
			Brian Robinson	Stop using county employees as pawns for fulgent
			Brian Smith	
			Brian Stevens	
			Brian Van-Tuyl	Oppose

			Name	Comments
18.		Oppose	Brian Warren	Forced experimental medical procedures are illegal under the Nuremberg Code. Anyone that goes along with this will be held liable both civilly and criminally. You've been warned.
			Brian Whetsel	I "oppose" LA County enforcing vaccine mandate on their employees.
			Brian C Coutlangus	These people have risked their lives for us throughout the pandemic when there was no vaccine at all. Many have natural immunity, and many are simply willing to face the risk, seeing as Omicron is not as deadly, not to mention people with vaccines are getting it AND spreading it, so there's really no reason, especially at this point in the pandemic. Finally, it's morally wrong to hold someone between their job and a medical procedure of which they do not approve. It sets a bad precedent, for think of the multitude of things that could follow.
			Brian J Foster	
			Briana Brosnihan	I am newly married and my husband works nights and being alone with a crime that is going on in this town is unbearable!!! I don't even feel safe to get gas or go to the grocery store by myself!! We cannot afford to lose any more deputies in fact we need more!!!
			Briana Davila	
			Briana Davis	
			Briana Dunkirk	I oppose because these vaccines are not stopping the spread of the virus and its not working as well for the new variants cdc.gov/coronavirus/2019-ncov/vaccines/effectiveness/why-measure-effectiveness/breakthrough-cases.html Firing people would be an abuse of power.
			Briana Gruft	
			Briana Russell	
			Brianna Guzman	Compliance is never the answer let alone when it involves the violation of people's rights.
			Brianna Polgar	
			Brianna Stodgell	This is an unconstitutional measure removing power from who we elected to do a job. It is also endangering public safety at the taxpayer expense.
			Brianna Wiley	It should not be mandatory to impose a mandatory vaccination as a condition of employment. So long as studies show the vaccine does not prevent covid 19 as well as those vaccinated can still spread infection, there should be no urgency in enforcement.
			Brianne Carson	
			Brianne Easley

Agenda #	Relate To	Position	The following individuals submitted comments on agenda item:	
			Name	Comments
18.		Oppose	Brittany Patterson	As there is now little to no difference in transmission between vaccinated and unvaccinated, it is absolutely foolish to put the public safety of LA County at risk by taxing the reserves of an already depleted Sheriffs Department. Our hospitals are no longer overtaxed and there are treatments constantly coming out in our fight against COVID. Coercion via job loss by our public officials is appalling, and I call on this board to serve the best interests of public safety and vote no.
			Brittany Petersen	End all vaccine mandates. The vaccine does not prevent transmission or contracting Covid-19. It is only under emergency use authorization and should not be required. Requiring people to take an experimental shot violates the Nuremberg code along with our rights and freedoms as Americans.
			Brittany Rodriguez	
			Brittany Singleton	
			Brittney Melo	
			Brittney Nila	
			Brittnie Tapia	The people who protect us should not be reprimanded for their God given liberties!
			Broc Harmon	Unconstitutional
			Brock Flynn	
			Broderick Sauser	
			Brooke Berenbach	
			Brooke Deason	I 100% oppose the firing of LA County employees due to not being vaccinated. This is criminal. These employees worked and were heroes before there ever was an experimental vaccine. These shots are still not approved. They do not prevent illness/hospitalization or death. Look at the data from around the world. The vaccines are causing injuries and deaths. These are crimes against humanity and to be injecting children with these so-called vaccines is evil! Anyone pushing these vaccines should be prosecuted. STOP THE MANDATES!!! cnet.com/health/biden-administration-withdrawing-covid-19-vaccine-mandate-can-your-employer-still-require-it/
			Brooke Evans	How many lives will be on your hands when you fire qualified Heros? Already there's blood dripping from your hands.

Agenda #	Relate To	Position	Name	Comments
18.		Oppose	Brooke Morales	I am opposed for many reasons, but mostly due to the fact that this will increase strain on departments within LA County that are already struggling to maintain employees. This measure will create many more problems for our county that need to be considered. For example, is it better to have an unvaccinated nurse who is willing to help take shifts or not to have a nurse at all? Or a teacher who is unvaccinated who can teach students while supporting the other staff or no teacher at all? I ask you please to oppose this measure as the short-term and long-term impacts of this would be devastating to our county. I am so grateful we have employees who are willing to step up and meet the needs of the county regardless of their vaccination status. Please oppose this measure, our county really depends on it.
			Bruce and Kathy Narramore	Need our police for safety. Will remember this decision at voting time
			Bryan Beardsley	Oppose for the safety of all
			Bryan Campos	
			Bryan Cramer	The residents of LA County need all of their resources and can not afford to loose any. Please do the right thing by opposing this matter. I will be paying attention to how you vote!!
			Bryan Hamilton	Unlawful and inhumane
			Bryan Kaser	Please do not enact this. Public safety is at stake. LA county can not afford to lose so many experienced Sheriff, Fire and other employees. If these employees are fired, the already high crime rate will sky rocket even higher.
			Bryan J Del Aguila	
			Bryson Clark	I oppose this amendment due to its blatant suppression and denial of individual liberty/free choice. As an employee of Los Angeles county, I enforce the unbiased and fair laws which were enacted to make our community safer based on the illegality of one's actions. This mandate would be in stark opposition to the aforementioned "unbiased and fair" terms. The government has no right nor legal standing to mandate a biased and unfair decree. Per our constitution, individual liberty is of the highest priority of this nation. To pass this amendment would be to violate the Constitution and infringe on every person's liberty who would be mandated to be vaccinated against their choice. Each American, based on their rights bestowed by the Constitution, has the ability to choose how to live their life. Thank you for your time.
			Byron Patin	
			BYRON J BROOKS	
			C A	This is discrimination at its finest. Stop the mandates now.

Agenda #	Relate To	Position	Name	Comments
18.		Oppose	C B	
			C Bowman	I strongly oppose!! Vaccines should be a choice not a mandate. Our bodies, our choice!
			C Citizen	Why would one even want to consider firing someone for such a nonsensical and frivolous reason? This policy is absolutely ridiculous and to get rid of over 18,000 employees for not wanting to inject themselves with this "vaccine" says a great deal about how you feel about the constituents that elected you in the first place. This state is experiencing a great deal of trauma related to the covid crisis. It has been proven that the "vaccine" DOES NOT prevent someone from contracting covid or from spreading it. So why on God's green earth would the 18,000 people that did not get the "vaccine" be fired because of it? Politicians are always talking about jobs, jobs, jobs, now here you are wanting to take those same jobs that you scream about trying to create. This proposed amendment is extremely detrimental to this great city and I urge you to vote NO.
			C M	Can't wait until BOS is Voted OUT!!! YOU WILL BE HUGELY IN DEBT WITH YOUR IMMORAL COMPASS.
			Cadena Cruz	Do not agree. Vaccinated people spread it just the same. This is discrimination and will make my community UNSAFE
			Caitlin Gutierrez	This would be detrimental to Los Angeles. You have already frozen hiring with LASD being 2,000+ employees short and this would terminate 4,000+ more deputies. The ever rising crime in LA would just get higher and response times would become a joke. Please oppose this and do not force thousands of employees out of a job over a private medical decision.
			Caitlin Stump	
			Caitlin Wade	
			Caitlin J Hawkins	The first responders who daily put their lives on the line do not deserve to be criminalized for exerting their bodily autonomy. The BoS has routinely overstepped their reasonable powers by getting into a pissing match with the sheriff, and the citizens of LA county are the ones who are suffering. Please do not continue to make choices that directly harm our first responders and also our private citizens. I will personally hold the BOS responsible for any unnecessary response times to emergent situations due to a reduction in LASD staffing. If you do not live in an area patrolled by the LASD you should not be allowed to make decisions that negatively affect those who do.
			Caitlyn E McVey	
			CALEb Smith

18.		Oppose	Carlo Loffredo	
			Carlos Avitia	
			Carlos Correa	
			Carlos De La Torre	We have seen our men and women in public service sacrifice for us through thick and thin. You Board Member a out of everyone should know. You get personal body guards from sheriffs department. And now you want to cut them just like that ? Set aside your childish pride against Villanueva. This will affect the kids and families of these men and women you are trying to fire.
			Carlos Gonzalez	
			Carlos Herrera	
			Carlos Limon	
			Carlos Ramos	
			carlos D cuba	
			carmen abbott	
			Carmen Campos Pineda	No one should be out of a job for refusing a vaccine that does not prove to save anyones life!
			Carmen Mercado	This ridiculous.
			Carmen Petrillo	
			Carmen Reyes	I am a very concerned citizen and I strongly oppose item 18 on your agenda. Firing thousands of county employees for not getting the COVID vaccine would be not only discriminatory but also detrimental to the work force, considering that those employees have been essential workers and have been working throughout the pandemic. Knowing what we know now about the vaccines that don't prevent infection and don't stop transmission according to the CDC guidelines, it would be not reasonable at all. I feel very strongly about my position with regard to your possible decision.
			Caro Lisa	
			Carol Casino	
			Carol Clements	Please DON'T enforce masks or injections so many reasons why this is not beneficial and many other things needs addressing not this
			Carol Elliott	No one should deprive a another of their livelihood based upon the freedom of choice to oppose taking an experimental drug

18.		Oppose	Carol Hadjiandreou	This is outrageous. These amazing individuals have stood in the gap during so many crises. We are no longer in a pandemic, the vaccine does not work (there is plenty of evidence to support this) and how can a county be run with 18,000 less employees.
			Carol Puentes	
			Carol Shin	Opposing agenda 18
			Carol A DeBoer	Please allow everyone the freedom of choice and return the support by opposing this mandate! My family members have supported the county for well over 30 years. Please support them in return!
			Carol A Manley	Please work to get LA County back to normal like almost all of the country is now. Stop the madness with the vaccine mandates! It is really sad how LA County Board of Supervisors are treating the very people (first responders who helped them get through the pandemic) so poorly. You should follow the actual science that shows natural immunity is stronger than the Covid vaccines. The Covid vaccines do not stop transmission & are not effective against Omicron. No one should feel coerced to get these shots just to keep their job. It is unbelievable that a newly developed vaccine with no long term studies is mandated for what seems like political reasons. Please just understand why not everyone wants to be forced to take them.
			Carolina Del Rio	
			Carolina Medrano	
			Carolina Salazar	
			Carolina Campos Sheridan	Stop the vaccine mandates for public service- the vaccine does not stop transmission thus it is not related to public health; this is personal individual risk and a personal medical decision
			Carolina M Vaca	It's Our Body Our Choice ... Where's our freedom
			Carolyn Negrin	
			Carrie Lombardo	
			Carrie McCall	
			Caryldee I Takvorian	
			Caryn Kautz	
			Casey Lickhalter

Agenda #	Relate To	Position	The following individuals submitted comments on agenda item:	
			Name	Comments
18.		Oppose	Cassidy Buck	Health and vaccination status are the business of the individual, not some busy-body bureaucrat with a desire to dictate from a pedestal. Firing people based on attaining a vaccine that doesn't even work is the height of stupidity. Barring people from participating in society for the same is even worse and you should be ashamed with yourselves for considering it.
			Cat Vit	
			Catherine Bidon	for number 2 I oppose mandatory COVID tests, Vaccines, masks and all discriminatory policies intended to make life more difficult for the unvaccinated; specifically our children. for number 2 I oppose mandatory COVID tests, Vaccines, masks and all discriminatory policies intended to make life more difficult for, small businesses, employers and employees who have been impacted by unnecessary and unscientific policies and the unvaccinated; specifically our children!
			Catherine DiLeva	
			Catherine Garcia	Vaccination does NOT prevent the spread of covid. Most people have already been infected with covid, which now gives them natural immunity, proven to be better than the vaccine. This is science. Courts have halted these mandates at the federal level and for large corporations, so why are the LA BOS even still talking about enforcing this mandate? Let the blood of the community be on your hands if thousands of LEOs and firefighters are fired, resulting in a severe shortage of service and protection against crime, all for a mandate that does not follow the science.
			Catherine Greenberg	
			Catherine Grigorian	
			Catherine Hartwell	
			Cathie Dalton	
			Cathlyn Foss	
			Cathy Buerhaus	
			Cathy Dreger	Please do not discriminate against people because of their personal medical choices. This will cause loss of employment for thousands and we have seen the vaccinations are only partially effective against omicron. Vote no.
			Cathy Ganz	This is unethical. Freedom of medical choice should never be relinquished to government authorities. These workers deserve better than to lose their livelihood.

Agenda #	Relate To	Position	Name	Comments
18.		Oppose	Cathy M Partridge	I am vehemently opposed to this proposed code Amendment. Forcing our front line responders to receive experimental gene therapy (not a true vaccine) that has not been shown to prevent the spread and transmission of COVID is unethical and unconstitutional. It violates the Nuremberg Code and is a very slippery slope. The overwhelming majority of people recover swiftly from the omicron variant, which is the currently circulating strain. Many of our heroic police/fire men and women fearlessly protected us before a vaccine was even available. Many contracted and recovered from COVID and acquired natural immunity. We asked them to perform their jobs in the face of so much risk and uncertainty early in the pandemic. And they did!! It's unconscionable that you are now proposing to punish them for standing up for their rights and medical freedoms. Stripping them of their livelihoods and their ability to support their families!! Please stop perpetuating lies about the risk/benefit of the vaccine for otherwise healthy individuals. The notion that they are protecting other high risk individuals has been proven to be false. Triple vaxxed persons still can and do infect others. Crime is at an all time high in Los Angeles. People are fearful for their safety and runaway theft and lawlessness is the new "normal". It would be a disastrous time to reduce the number of officers on the streets and crush morale for those who are left to deal with the fallout. Bottom line: it is a reckless mismanagement of the public trust and a violation of individual civil rights.
			Cathy R Trope	I would have no issue with mandating a vaccine that had been tested for many years and that rarely had side effects. Neither is true of this one. Side effects are common and often severe. It's not fair to make someone choose their health or their job and it is against every basic principle of American freedom and bodily autonomy. Please oppose this draconian measure.
			Ce M	STRONGLY OPPOSE ITEM 18.
			Cece Smith	I oppose COVID mandate and want them ended in LA County effective immediately.

Agenda #	Relate To	Position	The following individuals submitted comments on agenda item:	
			Name	Comments
18.		Oppose	Cecilia Gomez	It is unbelievable that this is even in your agenda, you cannot say that you care about us, the residents when a vaccine is going to be the difference between having an office safe our lives or let us die. I do not care is the firefighter that is putting a fire down in my house is vaccinated or not, I don't care if the police officer that I call for an emergency is vaccinated or not. I want to be safe and they make me feel safe. Vaccination policy? please tell me what are the components of the vaccine, information that comes from the FDA or CDC not from Barbara who is not a medical professional. Don't forget that the vaccine was approved for emergency use only. Newsom and the mayor for months called CALIFORNIA and Los Angeles a City and State of emergency, yet it was okay to host a Super Bowl with over 80k+ people from all over the US. We are not in a state of emergency no more. Our Governor and our Mayor cannot follow their own rules. Stop closing your eyes to something that is obvious, stop using my children's health. Stop playing games. Leave LASD do their job. I trust Villanueva more that I trust you all. You can decide for our Sheriff but we, the Angelinos can decide for your positions.
			Cecilia Lara	
			Cecilia Villarreal	No to vaccine mandates!
			Cecilio Felix	
			Celena McMahon	My nephew wasn't Shot to death in Afghanistan and die for our country to have this pass and take away our civil liberties. These freedoms are given to us by God not tyrants. Plz hear we the people. Thank you!
			Celina Madrigak	
			Cesar Hinojosa	
			Cesar Valencia	
			Cesar Valiente	
			Chad Chebbi	Let people make informed decisions on their own
			Chad DeMartini	
			Chad Haarman	This is illegal and unconstitutional. 14th Amendment of the Constitution and 9th Amendment. All laws which are repugnant to the Constitution are null and void. No one should be forced or coerced to be injected with anything that has permanent injury or death as a possible side effect. Regardless of the illegality of these mandates, which has been upheld by the Supreme Court- the vaccine doesn't even stop transmission- it does nothing whatsoever toward it's stated purpose- so this cannot be said to be about safety when so many people are getting brain injuries, heart attacks, blood clots and even dying from this vaccine

Agenda #	Relate To	Position	Name	Comments
18.		Oppose	Charles Dinse	LA County Supervisors need to verify their science and review the Vaccination Adverse Effects Reporting System (VAERS) before making a decision to mandate vaccinations. Especially when Omicron is being described as a common cold or flu. Firing employees who're making informed decisions about their medical wellbeing is a form of EXTORTION, "Get vaccinated or else". The Nuremberg Laws will come back to haunt you if you vote for this, especially if you force someone to take the jab so that they keep their jobs but then have an adverse reaction. The persons being impacted the most by Covid-19 are those who're vaccinated suffering untreatable symptoms which are not being tracked properly by our government. People are becoming extremely sick and/or dying from the Covid-19 vaccinations. Take this as a warning that those who continued to mandate medical procedures without the informed consent of the patient will suffer the same consequences as those who forced medical treatments against those who suffered during the Holocaust. This isn't about science, it's about power and control from tyrants who are following the direct orders from the Elitists/Globalist to control/reduce the World's population.
			Charles Dixon	End these mandates!
			Charles Lemke	
			Charles Porter	
			Charles Quarto	
			Charles Weathers	
			Charles J Bauer	
			Chase Henrich	
			Chausa Nguyen	Stop all the mandates immediately. Let the kids play and unmasked like Gavin Newsom. Let people make their medical informed consent. Stop firing essential workers of LA county over a vaccine that may not be suitable for them and do not stop transmission. Stop shifting blames on the public and do your jobs, own your failures. Stop all mandates immediately!

			Chivas Fujimoto	
			Chloe Abrams	
			Chloe Ann	
			Chloe Barker	
			Chongsarid Hutayana	
			Chris Acosta	
			Chris Bajanov	
			chris c	please do the right thing. we are watching and god is watching.
			CHRIS DALONZO	
			Chris Garcia	Almost two years ago we called on our public servants, law enforcement, and healthcare professionals to continue to put their health at risk by providing unbroken service to the residents of Los Angeles County; they did just that without question, and we called them heroes. Today, even though medical science has proven that vaccinated persons can still be infected with and transmit Covid-19, this Board is attempting to terminate over 18,000 employees. Of the 18,000 employees, about 4,000 are sworn Law Enforcement officers. Terminating 4,000 law enforcement officers is a threat to public safety as we already have the highest violent crime rates. The fact that we have a District Attorney who fails to file charges as set forth by State of California voters and legislature. We cannot place the public at further risk just to place a checkmark in a box that says, "Hey look, our County employees are 100% vaccinated. Furthermore, making changes to the Civil Service rules in order to hold power over the Elected leaders who decline to push a vaccine on employees, without knowing the effects of the vaccine on the employee since every person has unique medical conditions is over-reach and a push to put a grip on the power you hold. I urge the Board to do the right thing, and OPPOSE item 18. Thanks you.

			The following individuals submitted comments on agenda item:	
Agenda #	Relate To	Position	Name	Comments
18.		Oppose	Chris Kusayanagi	The citizens voted for the Sheriff and to impose this motion is in direct opposition of their vote. People also need to have the right to decide what medical treatments they will put into their body. The studies are beginning to show the negative effects of the COVID shot and yet these mandates are moving forward in spite of the recent findings. And for the record, this does not only affect the Sheriff's Department but ALL county departments.
			Chris Matz	
			Chris Moore	Stop wasting money. Most employees already had covid, thus have antibodies.
			Chris Scotti	
			Chris Skippen	
			Chris Sotro	This is wrong on many levels. It is time to put an end to the overreach. Oppose vaccine mandates for all employees. The science does not support it.
			Chris Toussaint	COVID Vaccinations have failed worldwide. The People will not stand for these mandates any longer. Wake up, LA BOS.
			Chris A Meadows	DO NOT FIRE OUR HARD-WORKING COUNTY EMPLOYEES! LASD, LACOFD, DHS, ETC. THEY ARE ALL ESSENTIAL WORKERS.
			Christa Eastham	
			Christian Cisnero	
			Christian Figueroa	We need as much Law enforcement as possible out there working.
			Christian Hand	This issue should no longer even be on the agenda. I am personally vaccinated however it is clear that the vaccine does not prevent infection or transmission. For this reason there is absolutely no reason for a mandate and therefore no one should lose their job or have their career ended in this manner
			Christian Lopez	
			Christian Madrigal	
			Christianna Allen	I'm a resident of LA County and I strongly oppose the firing of unvaccinated county employees. These are the same people that worked the entire pandemic to keep the county functional. Firing people for a personal health decision during a period with a spike in crime and other huge problems will severely harm LA residents. If this is passed I will be, and encouraging people, to use their votes to make sure their voices are heard in the next election cycles.

18.		Oppose	Christie Bauer	
			Christina Gonzalez	
			Christina Jimenez	
			Christina Marquez	It's killing people and is against our right! Doctors and scientists are speaking out against it. Why is the media not telling the truth! It's because all the elites on all the corporations and the dictating the narrative by paying people off. This needs to stop now it's genocide.
			Christina Martinez	<p>If people get adverse reactions to these vaccine mandates, who is going to cover their medical costs directly? Will you be signing a contract that you will be proving additional coverage to county employees and their family's? It has been noted by the CDC that people are experiencing heart inflation and it makes people susceptible to heart attacks. Is my family going to struggle to pay for these costs?</p> <p>This is against our civil rights and we should have the right to make medical decisions for ourselves. Who will be held accountable when I have an adverse reaction and my fertility is jeopardized? Will you be held accountable when I can no longer conceive children?</p> <p>In America we also have Freedom of religion; therefore, how can the BOS require me to provide proof that I am religious and need a religious exemption for who or what I worship in order to decide if I should or shouldn't take a vaccine? Did you have to provide an explanation about your religion when you took office?</p> <p>Further, The Supreme Court ruled that OSHA cannot enforce/mandate vaccines for federal employees and private agency's. It is unfortunate that the BOS feel the need to continue to discuss dictating their employees to take the vaccine, and take the liability to having the county sued by several agency's so people can protect their civil rights. This money is being wasted to fight lawsuits and instead it can help improve our foster care system, hire much needed last deputies to protect our city from an increase in crime and combat the severe homeless crisis in la county. This vaccine does not protect you 100% and by forcing this vaccine, you allow your employee to take the risk of dying from adverse reaction in addition to COVID itself.</p>

			Claudia Castaldo	We should be more fearful of tyranny than a virus. These men and women choose to risk their lives to protect our city every day. They should be able to choose whether or not to inject an experimental vaccine that's proven to, at best, minimize symptoms. They can still spread the virus, if vaccinated. Support tyranny now, before long, it will come for you.
			Claudia Ferreira	
			Claudia Godoy	
			Claudia Hernandez	
			Claudia Vasquez	This will take away my freedom over my own body!
			Claudia B Cloward	
			Claudia E Ramirez	
			Claudia L Acosta	Our deputies are needed. We the people do not support firing these country employees that have so selfishly served their community. Even before the pandemic. They served this community and city without question with abs without the vaccine. Do not fire our deputies!! We need them. And we don't care what their medical choices are!! We care that they show up to work and protect us!!
			Cleo Khanlari	
			Clifton VonBuck	This has and is being used for political purpose. Causing division and a social animosity. Science and common sense dictates the mask does nothing except harm the wearer and our children. Nobody is dying. This is like the flu.
			Clint McClure	
			Clinton Sanchez	ronjohnson.senate.gov/2022/1/video-release-sen-ron-johnson-covid-19-a-second-opinion-panel-garners-over-800-000-views-in-24-hours
			Cody Crowley	The choice to or not to be vaccinated as well as wearing a mask is a private, individual freedom and NOT the say of Los Angeles County or any government for that matter. If the conduct of Eric Garcetti and Gavin Newsom at last week's football game is any indication, it is obvious that you all play by the "rules for thee, but not for me" game. We are tired and no longer going to comply. Give it up already, everyone knows you are all frauds.

Agenda #	Relate To	Position	Name	Comments
18.		Oppose	Cody Jordan	The disease has been spread and caught by everybody at this time, natural immunity is stronger than vaccination. Read most update reports, example would be from Jerusalem. If you fire these workers, who were recently deemed hero's by all for what they have done over the past 2 years, SHAME ON YOU. La county will face more crime and more death due to limited and less first responders. If you get the vaccine, you can spread the disease just like everyone else! The vaccine does nothing to protect others with the new variants. You are letting fear and politics rule over sound decision making for your constituents. Good luck hiring people if this goes through and for those citizens in LA county, get our while you can!
			Cody Lewis	Crime across the board is up. Response times are slower. Hospitals are short staffed. What good can come of firing 18k first responders? This jeopardizes the safety of the community and ruins the livelihood of 18,000 families. This is devoid of any logic or evidence to necessitate mandates and implement these types of destructive policies.
			Coertunay Krause	All workers have a choice to seek medical treatment for their own body. Forcing a medical procedure onto a worker is unconstitutional.
			Cole Clayton	Please discontinue any and all COVID-19 vaccination policies immediately. All new involving science has shown that the current vaccinations only lessen symptoms. They do not prevent infection and spread amongst the public of this now common illness. A choice should be giving for people to make on their own as to what level of health protection they want for them selves. Government and employers should never Hold employment as a blackmail tool to advance healthcare as a a political agenda. Thank you.
			Cole Eby	
			Cole Spurrier	
			Colette Hayslett	
			Coley Apsay	
			Colleen Davies	Do not pass this. Covid is not a threat and there are alternate treatments available that do not pollute your body.
			Colleen Follstad	My comments remain the same as outlined for the #2 item.
			Colleen Lindstedt	Strongly oppose enhancing compliance with the and enforcement of COVID 19 vaccination policy. Our frontline essentials workers should not terminated for not being vaccinated. COVID 19 Vaccinations can not be blanket protocol for every individual. Being vaccinated and understanding the science shows people who have had COVID 19 have no need to be vaccinated.
			Concerned Citizen

Agenda #	Relate To	Position	Name	Comments
18.		Oppose	Concerned Citizen	Cease the Vaccine Mandate as they jeopardize public safety. Science tells us the Vaccinated also spread and get COVID. Therefore, vaccinated or not, everyone can get the virus, can spread the virus, and are not immune. The BOARD can not mandate the vaccine and terminate those who choose not to get the vaccine. The attack on the unvaccinated is discriminatory and segregating. These policies are politically and power motivated vs a true believe on public health.
			Concerned Citizen	I strongly oppose any amendment that would cause any employee of the County to face disciplinary action, or lose their job because they have chosen not to be vaccinated. This could cause disastrous affects on our already struggling system. Crime has significantly increased and so has the need for our emergency personnel. I find it absolutely ridiculous that we would penalize the same people, whom we called hero's only a short time ago, for helping us all get through this pandemic. While the vaccine may help reduce symptoms, it is not a cure and does not prevent even fully vaccinated and boosted individuals, from catching or spreading the virus. We desperately need our Police, Fire Fighters, Healthcare workers etc. and they deserve to have a say in what medical treatment they receive. I strongly encourage opposition to this amendment. The only amendment I would support, would be to remove all COVID-19 related restrictions in L.A. County.
			Concerned Citizen	This county is already suffering from public safety because the county doesn't have enough first responders to protect us citizens. I am against this agenda and I am against mandating such an action. You can not fire people if they have not done anything wrong. This VACCINE DOESNT HELP.
			Concerned Citizen	This item is another social experiment intended to scare people into compliance and implement left-wing policies. This agenda item only aims to remove additional resources necessary for public safety without saying "defund the police", which I also do not support. This not only will do NO GOOD for the citizens you supposedly serve, but will increase the workload of those officers and staffers who remain to pick up the slack, without overtime, additional compensation, or resources, not to mention what this could do to the already-limited well-fare system and unemployment in our County. I oppose this measure wholeheartedly.
			Concerned Resident	It is a complete and utter travesty what you are doing. Your lack of respect for the human rights of all your constituents is unreal. Your continued persecution of a specific population is reminiscent of historical human rights abuses. You continue to prove to be on the wrong side of history. Do better. Do what is right!!
			Connie Beardsley	Please think of our safety - it is at risk and less deputies is harmful. We need more Please oppose this measure.

Agenda #	Relate To	Position	The following individuals submitted comments on agenda item:	
			Name	Comments
18.		Oppose	Courtney Edwards	Laying off our unvaccinated workers will cause. Crisis to our communities. Our first responders do not need to be vaccinated. Most have already acquired the virus. This vaccine is not stopping the transmission. Therefore it should be looked at as an optional personal choice. This is absurd that we are even considering such a reckless move. As the months have passed we have seen very clearly that these vaccines efficacy is failing not to mention they are not entirely safe for all. Will you foot the bill for our workers in the event that they are vaccine injured? The answer is no. I strongly oppose the mandate and I believe I speak for many many people within our community.
			Courtney Laponis	
			Courtney Murphy	
			Courtney OConnell	
			Courtney Sansone	We live in a free country, people should not be punished for not getting vaccinated. Look at how it's working out in the hospitals! They are extremely short staffed, doctors and nurses have to go into work with Covid because they don't have enough coverage. Thank you for your time.
			Craig Davis	Suck it!
			Craig Kvinsland	To force an current employee to make a health related decision with no liability is ridiculous. The cost to the County by the loss of good employees who don't accept this policy will be astronomical.
			Craig Stromsoe	VOTE NO on Agenda # 18, DO NOT TERMINATE OUR HEROS, NO VACCINE MANDATES
			Crhystal Almanza	This is a violation of our rights as humans. Vaccinated people can still spread COVID.
			Crisstopher Stodgell	
			Cristian Lucero	
			Cristina Cordoba	
			Cristina Limones	Oppose
			Cristina Ramirez	
			Cristina Sanchez	
			Cristina tovar	Crime is up and we need our deputies patrolling the streets. They did their job when vaccines were not available with no hesitation. It's their body their choice in what they put in it. STOP all these liberal laws.
			Cristobal Macias

Agenda #	Relate To	Position	The following individuals submitted comments on agenda item:	
			Name	Comments
18.		Oppose	Cynthia Kaplan	Stop this tyrannical behavior! You are putting the safety of citizens at risk! No one cares if an unvaccinated Firefighter comes to save their house. No one cares if an unvaccinated Sheriff comes to stop a home invasion. No one cares if an unvaccinated EMT comes to save a loved one. This is not about public safety, it's about control. STOP TRAMPLING ON OUR RIGHTS!
			Cynthia Martinez	
			Cynthia Martinez	I strongly OPPOSE this recommendation. As I vaccinated individual, I support choice for people to do as they see fit with their medical care. It is insane that as elected officials who are still trying to enforce this on employees rather than working on hearing what is really imp. to your constituents like crime, or the unhoused. At this point, everyone needs to do how they see fit with their health and family. As Supervisors you are failing us.
			Cynthia Martinez	I support health privacy and and individuals right to make informed medical decision. I don't agree with county employees being used as political pawns and forced vaccination. If you truly care about PUBLIC HEALTH please implement programs to help support and promote health literacy among your constituents at risk, or with chronic conditions.
			Cynthia Saddler	
			Cynthia Silva	
			Cynthia Valencia	We are already short, please understand this is not a good decision
			Cynthia L Lee	I just saw this on FB page! We are Not happy that you are putting these vaccine mandates on people. This is only to make money for medical companies. It's wrong. You will also lose a lot of good employees. And good help is hard to come by. I own a business and I know this first hand.
			D Bernard	
			D Clay	As a public health nurse with decades of experience, this policy of forcing vaccines on individuals for a disease that targets those with several comorbidities is misguided. Moreover, the current variant Omicron is not that responsive to the vaccines. History will not be kind to those who employ medical tyranny.
			D Geller	I oppose this passionately!
			D Marquez	I am a Los Angeles county registered voter and AGAINST amending the LA county code to enhance compliance with and enforcement of the county's Covid-19 vaccination policy. There is no logic in firing deputies and putting the public in greater danger. There is a staggering rise in crime and this over step will only benefit those committing crimes. I will be paying close attention to the outcome and will vote accordingly in the next election.

18.		Oppose	Dairenn Lombard	<p>This is in violation of the Nuremberg code that makes it illegal to either require or coerce people into undergoing a medical procedure to which they do not consent. By limiting access to businesses based on whether or not they have undergone a medical procedure, the county of Los Angeles is in direct violation of the civil and human rights of everyone who lives here.</p> <p>Anyone that either medically cannot or otherwise rejects, for religious or other reasons, to undergo a medical procedure being restricted from conducting ordinary, lawful commercial activities in the county are victims of their rights being denied. I would encourage any such disenfranchised individuals (especially those of us who are African-American) to consult their attorneys and pursue whatever legal action necessary to end enforcement of any rules going forward.</p> <p>The county can avoid expensive litigation outcomes by merely and simply doing the right thing, and ending any such policies like this one.</p>
			Daisy Ayala	
			Daisy Iniguez	
			Daisy Rosales	Oppose
			dale palmer	It is a Shame Once were HEROS now become Outcast. So much for FREEDOM
			Daleana Arguello Lopez	
			Dalila Salcido	I oppose Amending the Los Angeles County Code to Enhance Compliance with and Enforcement of the County's COVID-19 Vaccination Policy. It is a violation of a person's right to stick to their religious and moral convictions, as well as violating their right to heed advice from health care professionals of their choosing. Forcing employees to take any kind of medication against their will is tyranny and unconstitutional. We the people will not sit back and allow the government to make decision regarding our personal health, ESPECIALLY when we have hypocritical members of government seen in crowded, public spaces not heeding their own mandates, continually changing the narrative over the nature of this virus, not being transparent or forthright about the cases and death count, and continually moving the goal post. Leave our first responders alone! They've been on the frontlines and deserve to be respected in their own personal health decisions. I OPPOSE THIS UNLAWFUL MANDATE.
			Damien Hernandez	I live in LA County & I oppose this. With rising crime rates, it is irresponsible & unsafe to fire employees. As a voter, I will be monitoring this & I will keep track of those who are pushing this to pass.

18.		Oppose	Daniel Garcia	Good Morning Counsel, I am writing to you guys in opposing agenda #18. I am more concerned of public safety in my community then people being vaccinated or unvaccinated. Based on this called science, its very interesting how vaccinated or unvaccinated can spread the virus but yet only the unvaccinated are in the spot light in your eyes. With crime on the rise, why would it be a thought or question to hurt the communities with less deputies. Your vote should be based on community needs and not your personal option. You were voted in to do the best choices for the community and not your beliefs. Be a leader, lead by example, and not be a dictator. Thanks Daniel
			Daniel Garcia	Support LASD
			Daniel Goguen	
			Daniel Guerra	
			Daniel Lopez	
			Daniel Martin	
			Daniel Martinez	
			Daniel Martinez	OPPOSE! Ya basta! Por favor, decisiones de salud deben de ser privadas y individuales. El estado de vacunación de un empleado no debe de ser dictado por ustedes. Es muy hipocrita que esten enfocandose en esto cuando todos sabemos que estan preocupados por el COVID a su conveniencia. Hagan su trabajo y enfoquen
			DANIEL MENDEZ	
			Daniel Morales	Please do not give in to the politics of this issue. These are women and men who have continued to show up to work every day since the beginning of the pandemic and are doing their best to serve their community as well as what is best for their families. Please do not force thousands of families to be affected with loss of livelihoods over what should be a personal choice.
			Daniel Onder	Do not impose a vaccine mandate on our law enforcement professionals. Many have attained natural immunity or otherwise choose not to get the vaccine. Considering the vaccine does not prevent transmission I see no public benefit to a mandate.
			Daniel Puplava	I oppose the mandate. The vaccine does not prevent the spread of the virus and is therefore not effective at stopping transmission. Thus, it does not benefit the health of those who live in the county to require it of employees working with the public.
			Daniel Quirk

18.		Oppose	<div>Darby Koeritz</div> <p>Unacceptable, you shouldn't be allowed to force anyone to put things they don't want in there body, I thought the BOS was for freedom of choice but I guess it doesn't matter when all the supervisors want to do is coerce and manipulate people into getting a vaccine, that has been proven to not work against COVID at all, who are in fear of losing their job and not being able to support their families. I urge you to not push for this fascist type of agenda move, it would only hurt the county and its citizens. Please do not make the wrong choice, freedom of choice should never be stepped on.</p>
			<div>Darla Opava</div>
			<div>Darlene Arevalo</div>
			<div>Darlene Galvan</div> <p>How anyone can think this is ok is absolutely absurd. Firing people who are hard working tax paying career people just because they choose not to get a vaccine is beyond my comprehension. How many lives did they all save by being on the front lines these past two years???? It was perfectly ok then and they were hero's and now you have decided they need to be fired because they choose not to vaccinate! Especially since it has been proven that vaccinating does NOT stop this spread of this virus. We now have a means to treat it but that is rarely if ever mentioned. Many of them put their lives on the line everyday for complete strangers. And yes that includes you and your family too!!! If you choose to pass this YOU ALL will be putting the lives of our families friends EVERYONES LIVES in danger. You need to take a long hard look at what is happening all around you right now with all the shortages this pandemic has caused. If you think firing Law Enforcement FIREMEN TEACHERS DOCTORS NURSES because they simply choose to not be vaccinated is a good idea then you should not be in the position you are in. Because in my eyes you are clearly unable to make rational decisions for the good of the people. What I am asking is for you all to think very very hard today and do some deep down soul searching before you place your vote. Because you need to look outside your little world you have surrounded yourself in and live in because whether you want to admit it to yourself or not this is going to effect ALL OF US EVERY SINGLE PERSON! I pray that today you all make the right decision for humanity.</p>

Agenda #	Relate To	Position	The following individuals submitted comments on agenda item:	
			Name	Comments
18.		Oppose	Darrel P Windicott	I strongly urge the board to vote against the mandate. Seeing the benefits the vaccine might bring to a certain, defined group of people, mandating this is a step (or a few steps) too far. Evidence is mounting every day that mandates do not have the effect that is envisioned. This affect a group of people that by and large, co-morbidities aside, have little to fear from the disease. A mandate will do nothing to stop or hinder the transmittance of the disease, as vaccinated people still transmit the disease. At best it lowers the severity of the disease, although numbers show vaccinated people end up hospitalized just as likely as unvaccinated people. Mandating the vaccine for these healthy people does nothing to prevent or lessen the risks and/or chances of those at highest risk of the disease. A mandate violates the integrity of both the individual who is mandated and, quite frankly, the organization that requires it. The vaccine is right for those groups that need protection from the disease due to aforementioned underlying factors and co-morbidities. It does little, but lessen the severity, for healthy humans. Mandating the vaccine for people, as an requirement for employment or access to services/buildings, is a gross violation of the trust between government and its citizens and creates a tiered society. This should be a decision based on science and common sense, not on political expedience.
			Darren Verrette	Employee performance ought to determine retention and not taking a COVID vaccine that infringes upon employee self-autonomy and personal / religious convictions.
			Darriana humphrey	
			Darrin Offringa	
			Dave Norton	We know now Science has proven these Shits DO NOT STOP the spread of the virus as originally claimed. Leave our First Respdners to make their best choice for their body. We need these 18,000 professionals more now than ever before. Please do not harm our already broken emergency services further. Thank you
			Dave Reyna	A free country is not forced upon. Let's keep our heroes free to be free.
			Dave Wylie	
			David Alarcon	
			David Assil	Time to stop acting like Nazis....enough is enough
			David Avila	Honor religious freedom, vaccines aren't preventing spread, take into account natural immunity. Allow people to provide for their families.
			David Barlavi	
			David Byrne

			David Coppedge
			Please do NOT fire the HEROs who saved lives during the pandemic. They should be rewarded instead. The pandemic is virtually over now, so this is doubly outrageous.
			David Donner
			We must stop trying to enforce a mandated vaccination policy which coerces people into taking an experimental gene therapy injection described as a vaccine. The vaccine does not work to stop the spread or infection and there are many adverse events and risks. I oppose any further control by BOS to enforce a policy that is unconstitutional and ineffective.
			David Duarte
			Current studies show the vaccine is a therapeutic and should be treated as such. Recent studies show natural immunity is better than the vaccine. The vaccine should only be given to the elderly or those with comorbidities.
			David Duenas
			David Esparza
			David Fletcher
			David Fuentes
			This will create more issues in law enforcement and public health. It also puts more families in financial hardships.
			David Fujiki
			David Fuller
			The idea that the board believes they should have the power to impose their hypocrisy on other groups is unreal. I will do everything I can to get all of them out of office at the earliest opportunity.
			David Gamboa
			David Garcia
			David Gasparyan
			David Gusman

18.		Oppose	David Mohaber	Absolutely not. The vaccine does more harm than good. If it doesn't help prevent transmission and it does not help you not catching the disease then who are we kidding. Who are we protecting. Whoever that believes that it helps to protect them, by all means go ahead and protect yourself from not DIEING. You are forgetting or ignoring the fact that natural immunity is 7x more robust than any vaccine. So drop this ridiculous mandate policy. You are here to serve not dictate.
			David Parslow	
			David Pinheiro	This is total crap and you people know it
			David Roach	
			David Rodriguez	The justification and emergency that warranted the August 2021 action and mandates no longer exists. Please re-evaluate the policy and the science.
			David Rucker	
			David Sam	
			David Shemanski	
			David Shemanski	
			David Tebo	
			David Velasquez	
			David A Reynoso	Unconstituional
			David E Call	It is time to end the mandates regarding COVID-19. The vaccines don't prevent disease, they don't prevent the spread of disease, nor have they diminished the rate of death. COVID-19 is on the decline as a result of the natural sequence of events that all viruses follow. The masks are a very little value other than virtue signaling. Both vaccines and masking should be voluntary not compulsory. It is time to stop making people second class citizens who want to be responsible for their own health decisions. Please and all mandates related to COVID-19.
			David J Polak	
			DAVID M BACKUS	As a centrist Democrat, I am adamantly opposed to any action against employees who choose not to get vax'd for COVID-19 that affects careers/jobs. There are those that simply don't trust a hastily designed vaccine, and firing people for an ethical conviction, should be well beyond the reach of the BOS. Let's stop the divissive rhetoric, and respect choices. Vaccinated are no less likely to SPREAD COVID, than unvax'd. If they choose to put themselves at risk, Insurance companies can decide to NOT cover COVID related sickness. That's America.

18.		Oppose	David P Rose	The pandemic is virtually over, many of these individuals either already had COVID (and thus have stronger and more durable natural immunity) or are otherwise in the healthiest and least at-risk categories, the vaccinated can still readily spread COVID, and yet the Board is considering the anti-scientific measure of terminating the front-line heroes who have helped hold our community together during the past two years? This is shameful and wildly irresponsible. History will not look favorably upon you if this passes, and the Board itself will find out what being terminated feels like come the next election.

18.		Oppose	Deana Odonoghue	<p>Requiring the best first responders/protectors in the world to comply to a government extreme solution for a temporary problem which involves their bodily submission, eg., personal health and privacy, two years after they were our hero's is pathetic. Their personal right to deny is their right while the guise of protecting us from a virus which does and will expose all of us to increased crime, fire and future victim hood. A "potential" illness fix is a HUGE "if" while the rise in crime despite public notification is REAL. You expect us by way of unknown factors to believe the real threat is the hidden unknown while we will all feel and soon discover in the absence of these fine men and women aka fellow citizens who the real criminals are those in the street and elected officials. By your decision to remove the best in fighting crime, running our fire departments hospitals and schools YOU will be held accountable. An absence of these individuals in our county is an open invitation to those who will come and make victim/death of all of us especially our most weak and vulnerable you claim to be protecting.</p> <p>Healthy men, women and children are not safer when we have a re-imagine Los Angeles with less police. This is a magnet for crime. A delusional dream. This virus did not wipe out our homeless who do not socially distance, wash hand, use sanitizers or wear masks. Yet you don't treat the issues in their personal health risks but claim to be assisting the public by terminating good police, city workers, doctors/nurses and teachers not vaccinated just like the homeless aren't? Again somewhere the lie hides and TRUTH is coming to light. This "crisis" has been squeezed and not let go to waste but when we encounter people we'd never imagine know what's going on tell us of the lies...not even the best laid mandates will hold back an informed public. Two years have awakened those that we sleeping. STRONGLY OPPOSE</p>
			DeAnna Gonzalez	
			Deanna Saylor	Freedom of choice. We live in a free country. Needs to stay free. This order will risk public safety. This pandemic has caused a lot of damage & more people losing their jobs is not the answer. Please amend to cancel this agenda item to restore our freedoms & keep our streets safe.

			Deb Sanchez No one should lose their job because of refusing a shot that has not been fully tested over time. People are responsible for their own medical decisions and know the unique qualities of their own health. Many have had Covid without severe consequences and have natural immunity for future exposures. To be forced to take a shot against a person's conscience is against the rights in the 1st Amendment of the Bill of Rights.
			Debbie Jassom Why are we talking about shortening the police staff ove vax mandates? We have huge problems with crime and homeless here. Don't fire anyone please we need all the police force we can get!!
			Debbie Rocha
			Debbie Wood
			Deborah Ackenback No one has the right to demand they're employees get vaccinated. We all have the right to do as we wish with our bodies.
			Deborah Brown
			Deborah Cardoza
			Deborah Malcolm I oppose agenda item 18. If you fire all of your experienced public service employees, how are you helping your city? You are not!
			Deborah Urie
			Deborah E Gonzalez Vote no on Agenda 18
			Debra Burns STRONGLY OPPOSE
			Debra Davidian It is really horrible that the board of supervisors is going to vote to fire thousands of county workers, many of which have been on the front lines working throughout the entire pandemic. The states that do not have vaccine mandates are not falling apart with dead lining the halls of the hospitals. No. In fact their economies are growing and a lot you are going there to get away from the mandates here in Los Angeles. If you vote to pass this and fire thousands of your workers. I hope that you are all fired! I will always remember who you are and I will remind people of how you fired people for a mandate that does not even work to stop transmission. It does not stop a person from even getting Covid. And as time goes on it will be proven that you all are on the very wrong side of history. I don't have much faith that you will read this or even see it let alone consider any other diatribe than your preplanned agenda to wreak havoc on the entire county of la. Shame on all of you.

Agenda #	Relate To	Position	The following individuals submitted comments on agenda item:	
			Name	Comments
18.		Oppose	Deon Perlstein	These hero's have saved the lives of my father and my daughter. They shouldn't be penalized and lose their jobs for their personal health and medical choices. They may have natural immunity. They. May have medical contradictions. They may have religious beliefs that are in conflict with being vaccinated. Please don't make them chose between their lively hood and their health. Please don't take away their choice, especially since the vaccine will not eradicate this infection. Please don't punish them.
			Derek Dahl	
			Derek Harris	I believe people have a right to choose whether to be vaccinated or not and that this vaccination is in violation of the Nuremberg code.
			Derek Sykes	
			Derek Tryon	
			Derek Wilde	This is discrimination and vaccine status should not matter for any employee, but especially the men and women that put their lives on the line daily. All I care is that they do their job and are qualified and that's all anyone should care about too.
			Derrick Gates	
			Derrick Ligas	I'm strongly opposed to this code. This is in direct violation of the Nuremberg Code as well as infringes our constitutional rights.
			Derrick S Alfred	It's very disturbing to think the board can simply change the rules to fit their agenda. This power grab will not stop here. Time to stop the mandates and move on from the charade of this "emergency" and move on. The vaccinated are spreading Covid same as the unvaccinated.
			Des Dlc	
			Deseree Taylor	
			Deshaila Davis	
			Desire Manning	Saw this on my social media. This is out of control already. Say no to these mandates. Its completely unnecessary and makes you all look like dictators. I am vaccinated. And it was my choice. I can't believe you are trying to make these people choose between their jobs and their health freedoms. Im going to be sending this to my neighbors. We are keeping an eye on how you all vote.

18.		Oppose	Desiree Nordstrom	I strongly oppose agenda #18. You should give natural immunity as much weight as someone vaccinated.
			Desiree Stimson	
			Desiree Webb	
			Desiree Webb	Due to the fact that I was unable to say what I needed to in the conference call, I will make it known here. I just recently turned 19, I am very young, and I have had 2 years of my life taken away from me, going on three. Not only this, but I am just starting my life, trying to figure things out, make money and save up for a life of my own. But instead of being able to do this like every human being should have the opportunity to do, I am on the verge of losing my job with the city, my sister is in the same position, and it's because we decided to not allow the government and others to tell us what we can and cannot do with OUR bodies. My little sister, I've watched her struggle these past 2 years in school, being forced to get an education online and then not have much of a choice when it came to her being able to go back to school, under the condition that she be vaccinated or test weekly. It is immoral, and simply unfair, to allow those that decide to let themselves to be controlled by the government and get this vaccination, that I might add, DOES NOT WORK, to live their lives out and make their livings, while the rest of us are discriminated against for doing what we believe is best for our own bodies. I am not vaccinated, I will not be getting vaccinated, and within the past 2 years and change of this year, I have not caught covid. But I do know many, many, many, people that did catch it and that ARE vaccinated. I can't go to school and continue to get a normal education because I "have" to be vaccinated, I can't go out to a nice restaurant with my family and celebrate my birthday because we "have" to be vaccinated, even when complying with wearing face masks, we can't work and make money to even START up our lives because we "have" to be vaccinated. And if I want to work in the meantime, until certain decisions are finalized, I have to get tested twice a week, spend MY time and MY gas, with the money I am not allowed to make and am not making, and am being charged for by the paycheck. It doesn't make any sense and it isn't right. Living like this and FORCING humans to do something to their bodies, that they do not want to do, is quite literally, evil. Thanks.
			Desiree E Gonzalez	
			Desr De La Cruz	I oppose this action, each department should establish their own policy & employees should have the right to choose

Agenda #	Relate To	Position	The following individuals submitted comments on agenda item:	
			Name	Comments
18.		Oppose	Destiny Aldana	Critical staffing levels are already having a detrimental effect on the public's safety. With daily engines, trucks, and stations inoperable due to staffing (the public IS aware of this and will continue to be informed as staffing levels continue to drop), patients being transported in the back of engines and police cars, mass firing of the very employees who worked through the ENTIRE pandemic without inoculation - many of whom have verifiable T cell immunity- is a GRAVE threat to education, public safety AND TO PUBLIC HEALTH OUTCOMES. Any resolution that results in the mass firing of county employees can only occur with the amendment that the Board of Supervisors wholly and individually will be held accountable for the negative public health, law enforcement, and educational outcomes. As a community member, constituent, parent, and healthcare professional I vehemently OPPOSE.
			Destiny Moreno	
			Destiny M Webb	
			Devin Musil	I am very much opposed to firing 18,000 county employees over an unconstitutional experimental vaccine mandate. It has been proven time and time again that natural immunity, which comes from receiving the virus, is just as effective if not more effective than the vaccine, which has the possibility for future health problems due to the lack of long-term research. Vaccinated individuals can still transmit, receive, and be affected by the virus the same was unvaccinated people can. The new variants of the virus are not nearly as deadly and very much resemble the common cold. PLEASE do not fire 18,000 employees, including 4,000 law enforcement officers, in an extreme shortage of employment nationwide. Los Angeles County has seen an extreme rise in crime the last couple years, and firing thousands of experienced and trustworthy deputies will send the department and city into a downward spiral it will not be able to recover from..
			Diana Asherian	
			Diana Barnes	I strongly oppose the COVID vaccine mandates, and all discriminatory policies intended to make life more difficult for the unvaccinated, specially our children! People should have the right to choose if they want the COVID vaccine or not. They should not be mandated or coerce into getting a vaccine they do not want. People have the right to refused any medical procedure. These vaccines are not without risk, therefore there should be a choice, especially when there is no liability on the pharmaceutical manufacturer OR the employer who is forcing this vaccine. I don't support TYRANNY!
			Diana Fahrney	No mandates! This is the land of the FREE!
			Diana Gilbert	I oppose this item.

18.		Oppose	Diana Hanshaw	With all due respect I strongly advise this board to vote against Agenda #18 today which is a motion to terminate 18K County of LA employees for not being vaccinated. These are the same law enforcement professionals, medical, health care and mental health professionals who we called HEROS during the height of the pandemic just a short time ago. Many of them have had covid and have more immunity and antibodies than the vaccine provides. This board is taking their advice from Dr Ferrer who is NOT a medical doctor and is not following the science. And about the mask mandates that this board is proposing even after the 15th when the rest of the state will be able to go about w/o masks is despicable. I believe you all just don't want to give up controlling the behavior of we the people. I also want to say that you all work for us, we do not work for you. Our hard earned taxes go to pay your salaries and I don't think we're getting a good return on our money. Respectfully,
			Diana Miller	
			Diana Salazar	
			Diana Stewart	
			Diana Torres	It is anticonstitutional!
			Diana Vasquez	
			Diana Whitlach	I strongly oppose terminating any of our first responders, our HEROS for choosing to decline vaccinating. There will be many people watching to see how our Supervisors vote in this matter. Supporting this termination is a vote against your constituents. Please listen and make the best choice for our community!
			Diane Beasley	
			Diane Karol

18.		Oppose	Dianne Mulattieri	This should not even be up for consideration. Personal sovereignty and medical choice is a right of humanity. The vaccine does not prevent transmission nor prevent getting the virus. This is insane.
			Dianne Smith	
			Diego Sahagun	
			Dillon Campbell	
			Dillon Grap	Do not do this to our people.
			Dimitri Kermani	
			Dina GudinoMartins	This is an absolute disgrace that this is even on the table. They put their lives on the line ever minute they are on the clock! This is discrimination and goes against everything this country was built on, FREEDOM. When I call 911 and need help, I will not stop to ask if the person they are sending is vaccinated. This is absolutely unreal. The so called vaccine does not stop the spread. We just came out of an increase in cases after almost two years of jabbing people. If the "vaccine" worked, we would not have these increases in cases. Look at Israel's vaccine rate and case rate! Highest vaccine rate, highest case rate! It is not science! It does not make sense. Lastly, who will be held liable for your vaccine injury employees! This is not ok. Do not fire these employees. They deserve better.
			Dina Martinez	
			Dina Youssefmir	
			Dinorah G Maya	You want to mandate all Los Angeles County employees to get an experimental vaccine which has been proven NOT to prevent the infection of the Covid virus or prevent vaccinated people from infecting others this does not make sense to me. I respect someone's choice to get this vaccine if they want to but I also respect other's who do not want to receive any of these experimental vaccines. your employees have been there for you since the beginning of this pandemic not caring if they would contract this virus and die. Your County employees have put their lives and their families lives on the line for you and the public and now you want to terminate them for not wanting these vaccines which DO NOT WORK!! I am one of your employees and all I can say to you is that, you are all ingrates!!!
			Dolores Allchin	Any individual must have then bodily autonomy to choose and options what medical procedure, treatment or otherwise. I oppose city or board officials to choose for someone else's medical option.
			Dominic Agrusa	
			Dominik J Hernandez

Agenda #	Relate To	Position	Name	Comments
18.		Oppose	E B	I oppose this agenda as these employees were considered essential and risked their lives throughout the entire pandemic and it is unjust to not allow them the right to work for money to provide for their families. It is clear that vaccination status has no affect on HOW someone can perform their job and it is also clear that vaccination status is not something that actually stops the spread of covid. I oppose this agenda and I wish you all can see how much harm this is doing to the employees and their families and how much stress this is causing based on something that simply "lessens symptoms" and doesn't actually stop anyone from contracting the virus. The agenda is baseless
			E Kay	
			E T	
			Earvin Viernes	
			Ebony Clark	
			Ed Castillo	I strongly oppose Item 18 and believe that the so-called vaccine must be a personal choice since it is not really a true vaccination. Firing public service personnel will set this city on fire and will cost lives of those who may rely on emergency services. DO NOT PASS THIS ITEM!!
			ed mackeen	Shouldn't be fired for a dangerous "vaccine" that has killed 22,000 so far. This is ONLY 1 % that gets reported to VAERS so figure is in the hundreds of thousands. openvaers.com. Also it is ineffective "vaccine."
			Ed Preer	We need MORE law enforcement and MORE funds for their proper training.
			Eddie Mancillas	
			Eddie Perales	No enforcement is needed for the covid 19 vaccination policy, more enforcement is needed for these criminals running the streets, robbing and stealing from the innocent. Give our law enforcement more budget. Thank you!
			Edgar Castillo	Their choice
			Edgar Sanchez	99.8% survival rate.
			Edgar Sarkisyan	
			Edgar G Garcia	Completely opposed to forcing people to get a vaccine that CLEARLY doesn't work and they continue to spread covid. It is unnecessary and immoral.
			Edit Keshishyan	
			Edit Solymany	With the rise in crime , releasing public officers would be a disservice to LA county residents.

I AM ALLERGIC TO THE INGREDIENTS IN THE PFIZER AND MODERNA INJECTIONS, AND I HAVE A GENE MUTATION THAT MAKES ME HIGH RISK TO DEVELOPING BLOOD CLOTS. ACCORDING TO J&J I AM NOT A CANDIDATE FOR THEIR PRODUCT. IN SPITE OF ALL THIS I HAVE BEEN DISCRIMINATED AGAINST AND HAVE BEEN REASSIGNED. WE WERE TOLD WE COULD NOT DO PATIENT CARE, AND WAS MOVED TO STREET MEDICINE TO DO PATIENT CARE, WE WERE THEN SENT TO COMMERCE TO SIT IN A ROOM AND DO NOTHING ALL DAY FOR WEEKS ON END. WE THEN WERE MOVED TO SKID ROW TO SIT IN A ROOM AND DO NOTHING. AT THIS POINT I HAVE TAKEN A LEAVE. I HAVE ALREADY HAD COVID WHEN YOU WOULDN'T PROVIDE US WITH PPE. WE HAVE BEEN WORKING OUT OF RATIO TO CARE FOR PATIENTS WHEN YOU NEEDED US TO. NOW WE ARE EXPENDABLE. YOU WILL LOSE THOUSANDS OF HEALTHCARE WORKERS AND YOU WILL BE LIABLE FOR THE NEGLECT, INJURIES AND DEATHS THAT COME FROM THIS TERMINATION. AND CRIME IS GOING TO SPIRAL MORE OUT OF CONTROL THEN IT ALREADY IS. SHERIFF VILLANUEVA IS THE ONLY ELECTED OFFICIAL RIGHT NOW THAT STANDS TO BE RE ELECTED BY THE PEOPLE. WHO WILL CARE FOR YOU AND YOUR LOVED ONES IN HOSPITAL OR ON THE STREETS? YOU ARE NOT IMMUNE TO THE WIDE REACHING FALLOUT FROM A DRASTIC DECISION SUCH AS THIS. AND THE JOKE IS REALLY GOING TO BE ON THE COUNTY. THE PRIVATE HOSPITALS ARE RECRUITING US OFFERING EXEMPTIONS AND MORE THAT A \$20 DOLLAR PER HOUR INCREASE IN PAY. IT IS OUR IMPOVERISHED POPULATION THAT WILL SUFFER AS THE MAJORITY OF US ARE ALREADY VESTED AND WILL STILL RECEIVE COUNTY PAY OUT.AND COUNTY HAS NOT EVEN ADDRESSED THE EXEMPTIONS THAT WERE SUBMITTED LAST SEPTEMBER. HOW DO YOU TERMINATE REPRESENTED EMPLOYESS WITH OUT DUE PROCESS?

18.		Oppose	Elisabeth Cruz	
			Elisha Krauss	It is ridiculous and a privacy overreach for the city to hold such power over people's medical and individual liberties. What they choose to do with their bodies is none of the business of their employer and a violation of their personal autonomy. If you continue down this path today one day, city employees will lose all right when the wrong people are in power.
			Elissa Gannon	
			Eliza Laleian	
			Elizabeth Abrams	
			Elizabeth Angulo	These are people wanting to work, they aren't asking for assistance, using our system, they want and love their jobs, and are now being faced losing it all! It's sad!
			Elizabeth Carwardine	
			Elizabeth Estany	
			Elizabeth Fortner	
			Elizabeth Gonzales	
			Elizabeth Hernandez	
			Elizabeth Hitchcock	
			Elizabeth Mendoza	
			Elizabeth Molayem	
			Elizabeth Sanchez	
			Elizabeth Smith	Our health is our choice. The vaccine does not benefit or help anyone except the person choosing to get it; therefore people should be free to make that decision for themselves. This is an infringement on personal freedoms and inalienable rights and should not be allowed to pass. "Let's not only take away people's freedom over their own bodies, but also destroy livelihoods and hurt families who do not comply." The thought process behind this is absolutely insane.
			Elizabeth Snyder	This is unlawful. People still get sick with the vaccination.
			Elizabeth D Welle	Your attempts to subvert an elected officials control over his organization sets a terrible precedent and will result in many law suits. Stop acting like children.
			Elizabeth F Jouvenat	We need our county professionals healthy and well. Don't fire them!

Agenda #	Relate To	Position	Name	Comments
18.		Oppose	Ella Cristea	My dad has served the children and families of Los Angeles for more than 13 years. His health or vaccination status has never been an issue until now. He is healthy. He does a good job caring for these families in need. He shouldn't lose his job because you don't respect his religious beliefs. Getting a vaccine or testing weekly doesn't make him a better social worker. The children that need his help don't care about his vaccine status. They just need a hero to show up. My dad is a hero.
			Ellen Bowes	
			Ellen Carmona	NO. U Haul has already had a shortage of trucks for people leaving CA and LA due to bad political people and policies. Gavin Newsoms "First in Nation" ambitions are making CA "Worst in Nation," with San Francisco leading the way and Los Angeles catching up quickly. Anyone who wants a future in politics should seek to support constituents, not mindlessly follow dogma without questioning true right and wrong. The universe works in the way that whatever you do to others will ultimately be your personal experience, so please do positive things for yourself—thank you
			Elliot Granstrom	No way. We need to stop this madness.
			Elliot Yamini	
			Ellis Washington	
			Ellisa Kim	I oppose this unconstitutional policy! I oppose 18! Vaccination should be a choice, especially for our county workers who sacrificed so much for their communities.
			Elmar Park	End the all mandates! Vaccinated are still getting covid even after the 4 booster. Per CDC cloths and surgical masks don't work.
			Eloy Valdez	I don't agree in firing all these workers.
			Elsa Carrazco	
			Elsie M Serger	
			Elva Coats	I am an LA County voter and oppose the LA County code to enhance compliance with and Enforcement of the County's Covid-19 Vaccination Policy. With the rise in crime, releasing public service officers would be a disservice to LA County residents. I will be monitoring the outcome of this policy and will vote accordingly on the next election.
			emely castaneda	We've been consistently coming to work, upholding our duties as public servants this entire pandemic only to be forced and bullied into the getting a vaccine that clearly DOES NOT prevent the spread of COVID-19. With the alarming increase in crime this is really what the BOS's is highlighting? GOD HELP US ALL in LA COUNTY with this board.

			Please stop. Not only is Covid rapidly declining, not only is it proven that the vaccine doesn't prevent illness or transmission, but studies are showing natural immunity to be very effective. There is no justification for this. These are the same men and women who served at the peak of the pandemic when there was no vaccine available. They are heroes. Our county is hurting because of rampant crime surges, not Covid. With motions like these, It's no wonder so many people are fleeing this county and state.
			Emerald Salazar
			FREEDOM TO CHOOSE! YOU ARE VIOLATING CONSTITUTIONAL RIGHTS! POWER TON THE PEOPLE NOT THE GOVERNMENTS CHOICE WHAT WE PUT IN OUR BODIES!
			Emerson Ahsmuhs
			I oppose 18 because it does not make any sense! Why mandate something that most of the population has Ajay had. You're risking the safety of my county and the safety of our citizens because of your own agenda.
			Emigdio Salazar
			Emil Cerrato-Diaz
			Emilee Brown
			Stop this mandate!!!
			Emilee Rutten
			Emilio Quezada
			Emily Dunn
			Absolutely not! This is against our constitutional rights!
			Emily Frey
			Emily Martinez
			Emin Sarkissian
			Firing employees for not being vaccinated is unconstitutional, and puts public safety at risk!
			Emma Muradian
			Emma Pangelinan
			I was shown what LA County is voting on tomorrow. As an LA County resident I put in my two sense. If you live in LA County then please make a statement for item #18. Please share with your threads. We "oppose" LA County enforcing vaccine mandates on their employees.
			Emma Sanchez
			Enrique Gayosso
			Really as crime is skyrocketing in LA County how can you even propose this. We need our LASD deputies out here doing the lords work. Stop living in a damn box.
			Eric Bourassa
			Strongly oppose, studies have shown both masks and vaccines are in effective in controlling the spread. I already have had COVID and have been around several people infected since and not gotten sick a second time.

Agenda #	Relate To	Position	The following individuals submitted comments on agenda item:	
			Name	Comments
18.		Oppose	Erica Z	I urge Supervisor Hahn to oppose this motion. The COVID-19 vaccines do not prevent transmission. Individuals should have the right to discern for themselves what medical treatments they take or don't take. Individuals should not be in fear for their jobs or be coerced to take a vaccine and boosters that do not prevent transmission. I respectfully ask that you oppose this.
			Erich Schloegl	
			Erick M Letran	
			Ericka Navarro	
			Ericka Ramirez	
			Erik Arevalo	
			Erik Contreras	This won't help with the crime. I'm tired of this county.
			Erik Flores	Unbelievable that you are even considering terminating any county employee for NOT allowing foreign substance into their body. Shame on you and anybody who feels this is ok. You are going to terminate employees who just a year or so ago you called HEROES, not you want to fire them? Unreal
			Erik Saldana	
			Erika Aleman	The County COVID-19 Vaccination Policy is obsolete. According to the CDC, the COVID-19 vaccine does not stop infection, does not stop transmission. Vaccinated individuals can still get serious illness and die. Forced vaccination is wrong. Noncompliant employees are not being insubordinate. They simply are opting out of a treatment.
			Erika Carrillo	No vaccine should determine job status.
			Erika Cox	
			Erika Garcia	
			Erika Rodriguez	
			Erika J Alvarado	I will like to oppose this policy. Employees should have the opportunity to comply with weekly tests.
			Erin Bennett

Agenda #	Relate To	Position	Name	Comments
18.		Oppose	Erin Erickson	I have been a proud resident of Los Angeles County for 30 years, and now we are a national embarrassment. This is my home and I care enough about it to speak on matters that I feel are unjust and will have an immense negative impact on my community. In regards to Agenda Item #18, which proposes to terminate thousands of dedicated employees for lawfully choosing to remain unvaccinated. At this point in time we now have enough scientific information to prove that being vaccinated no longer protects you or others from contracting or spreading COVID 19 but is merely a measure to possibly aide the vaccinated individual with their own symptoms, therefore making this purely a personal choice that will only affect the person. Therefore to be vaccinated should be a personal choice as we now know that you are not saving anyone by becoming vaccinated. The baseless mandate for employers to require their employees to become vaccinated as a term of continued employment has already been deemed unconstitutional by the Supreme Court. What then is the reasoning and basis for terminating these employees? What then is the reasoning for subjecting the citizens of Los Angeles to the dangers that will come from losing these dedicated employees who worked throughout the entire pandemic? Heros today, disposable tomorrow. It's baseless and your citizens all know this. At this point this is excessive, unnecessary, unjust, illogical, and now per the Supreme Court, unlawful.
			Erin Ichikawa	
			Erin Jefferys	I am opposed to this and we need government overreach to be lessened!!
			Erin Lucan	
			Erin Toppenberg	There should be NO vaccine MANDATES for anyone. This is personal choice. The vaccines DO NOT work and have caused harm. Please do the right thing and stop punishing people for wanting to have bodily autonomy. This is THE most basic human right!
			Erin Wozneak	
			Ernest magana	
			Ernie Golphenee	Healthy employee should have a choice. After consulting with the own doctor a person can make that choice
			Ernie Serrano	Being vaccinated is not stopping people from catching the virus, therefore, the requirements should be no different than a flu shot. Optional!
			Esmeralda Macario	
			Esperanza Rojas	
			Estefania Ambriz	America is for freedom. That is why people love America and a mandate such as the vaccine should be optional to everyone.

Agenda #	Relate To	Position	The following individuals submitted comments on agenda item:	
			Name	Comments
18.		Oppose	Falisha A Clark	this is against constitutional rights and liberties. The fact that this department is willing to terminate high quality and hard working people that have served this department and their communities selflessly is absolutely unwarranted and unlawful!!! This department like many others across the nation has seen a huge increase in major crimes due to weakening laws and the constant release of violent offenders all the while this department is on a hiring freeze, academy class cancellations and major station shortages. As a community member who has known what it is like to have gun shot coming through your window, having to duck for cover as a drive by or shooting is happening outside our home. I've experience what is like to have multiple family members young and old be victims of these crime and the thought of you taking the only line of defense and protection and dwindling it to the point where help is non existent is absolutely idiotic. This is from a board of people who get to drive home to your save and quite residences knowing that you are protected. Most of you will never even drive past or down these types of areas and for you to think you have the right to make the make a choice that is not even going to effect you is out of control! Leave our officers alone and let them protect us because you wont!!!
			Farah Kreutz	We vote no!! The city has lost enough during the pandemic. Businesses have been destroyed and livelihoods taken.
			Favi Gonzalez	
			Felecia Johnson	No mandate
			Felice Minton	After the SC has knocked down the ruling for forcing vaccinations- your trying to pursue this? THE BOS will be sued - no doubt. Do not go through with this agenda. It's going to force issues that are already going away. Obviously if they wanted the vaccine they would've taken it. You will not change anything— except for 1 thing. We will get a new BOS as people will be enraged and vote differently next time!
			Felipa Villarreal	
			Fernando Lizarraga	
			Fernando Rodriguez	
			Fernando Valtierra	Do not fire unvaccinated workers! We are short staffed as it is and overwhelmed with work!
			Fiona David	
			fjb drain the swamp	
			Flor Burrola	End the mandates (like many countries and states are now doing). Time to stand together and move forward.
			Flor Ledezma

Agenda #	Relate To	Position	Name	Comments
18.		Oppose	Flora Azami	
			Flora Hernandez	Stop treating our first responders like disposable masks!!! They were there for. us at the beginning of this pandemic and we need them now more than ever.
			Floreen Silva	
			Floyd Flint	
			Franca Koeller	We don't want murderers in our neighborhood
			Franceil Masi	I do not agree with firing 4000 police officers for exercising their right to medical freedom. LA is already a pretty unsafe city and firing these officers will lead to increased crime and homelessness. Also firing nurses and LA employees not complying with the mandate will bring the city down. 5 people should not have the power to determine the fate of 18,000. We need a vote from the people. This is unfair, unjust and morally wrong. Power to the people. I am saddened that Sheila Kuehl who is an LGBT rights activist is heading the discrimination for Medical Freedom. As a member of the LGBT community I oppose this. Continuing testing and quarantining those who are sick. The vaccine doesn't prevent transmission. Vaccinating is a power play move to get people to succumb to the general narrative.
			Frances Arzola	I believe this will put the health and safety of all LA county residents in jeopardy
			Frances Mc Angus	
			Frances Nicolais	Since it is now known that the COVID-19 "vaccines" do not stop the spread of the virus, morally, there should not be a requirement for this shot for any reason. This is NOT a public health issue anymore - it is a private health issue.
			Frances Villavelazquez	
			FRANCESCA Milhoan	
			Francine Metcalf	I am in strong opposition to the firing of 4000 LA County Sheriff deputies/personnel. They have a right to personal decisions over their health as everyone else. Additionally, crime has risen dramatically all over LA County and we can not afford to lose any law enforcement. LA County personnel have been testing weekly and the Covid numbers all over have been going down. They have our backs every day and it is time we stand up and have their backs now. If you vote to fire them they all of the Board of Supervisors should NOT be allowed use of any private security. We are in this together and it is time we show that.

			Name	Comments
18.		Oppose	Francisco Sanchez	
			Francisco J Pasillas Flores	No one should be obligated, or be told that they have to put something in their body. Their body their choice.
			Frank Ag	Medical freedom and personal choice. Why would the city punish unvaccinated when both vaccines and unvaccinated spread the virus. If any damages came from the jab, would the city pay for disabilities?
			Frank Arellano	
			Frank Barrera	
			Frank Lara	You represent your citizens. Your voting is not with what the majority of people want for one. Secondly, the science research has changed since the beginning of the pandemic. Israel researchers have proven that natural immunity lasts 600+ days where as vaccines don't last even close. John Hopkins University had just finished research as well showing the vaccines are ineffective. Third point death rates hospitalizations rates and infection rates are all on a declining according to the LA County health own charts. And Fourth, why do you think it is ok to terminate people who protects our health and safety and take away their means of living and support to their families. Vaccinated pass the virus as do non-vaccinated. If you truly follow the science look at the updated studies and all scientist virologist etc.
			Frank Matias	This drug has already shown to not prevent infection or spread.
			Frank Ozuna	
			Frank Quichocho	I strongly oppose mandatory COVID testing, vaccines, masking, and policies designed to discriminate and discipline the unvaccinated. This is a personal medical decision and should be a personal CHOICE.
			Frank A Parze	
			Frank M Cosola	This is the utmost form of government overreach, I retired after a long career as a first responder and think this is ridiculous
			Frankie J Lujan	Lift compliance and mandates
			Frankie N Duckett	
			Fred Follstad	You need to support your staff members who have valid concerns and convictions. Don't terminate staff for this reason.
			Fred Rodriguez	
			G Barvoza	
			G Schmidt

18.		Oppose	Gabriel Aguilar	
			Gabriel Carrillo	
			Gabriel Chaidez	
			Gabriel Costea	Covid-19 vaccination status should not be enforced as a reason for employment. Let people choose whether to take an experimental vaccine. Vaccination does not prevent getting COVID19 and does not prevent transmission. Let we the people choose, not the government. Drop all vaccine mandates and restrictions.
			Gabriel Holguin	This is a unlawful move, that will increase crime in my neighborhood because good deputies will leave.
			Gabriel Martinez	
			Gabriel Portugal	How can it be that these firefighters and sheriff worked tirelessly during the height of the pandemic and now there's a vote to fire all of the unvaccinated?? What a malfunction of your leadership! I could care less if Someone has a vaccine or not when I call 911. I want the fire put out or the moron put in prison! What I see here is no wisdom or common sense at all .Most people have recovered from this virus just like any other virus. Put your efforts into making our county better. Hit the real issues. It's a disgrace the way LA county looks like a third world country. It's no surprise so many businesses and families have left these impoverished state. Clean up your filthy streets full of tents and trash. Take control of the crime, robbery instead of no bail and being able to steal almost a grand at a time. But it takes courage to tackle these true issues and you all definitely lack it. Look in the mirror before you decide to wreck these people lives, God has the last day in your judgement!
			Gabriela Beltran	
			Gabriela Guillen	
			Gabriela Kim	I oppose on agenda 18.

Agenda #	Relate To	Position	Name	Comments
18.		Oppose	Gabriella Klein	Absolutely NOT!!!! You have been voted on to "serve", not "rule" the people of this county. Which this board has done poorly. You should not have the authority to usurp the role of the duly elected sheriff of Los Angeles county. He was voted in to run the department and make decisions for the department. Covid numbers are down. And we now know vaccination does not stop anyone from getting or transmitting Covid. A now useless requirement
			Gagik Sardaryan	Please oppose this! So many people will lose jobs
			Gail Martin	
			Gail Mirliss	This is UNCONSTITUTIONAL !!
			Galina Karpman	More detrimental policies are being proposed that are pushing our education and safety even further to the state of degradation. I strongly appose this amendment.
			Garineh Shahnazari	
			Garrett Barker	
			Garrett Branch	It will be extremely reckless for you to vote this in. I along with a thousands of other first responders have worked throughout all of this pandemic despite being exposed to covid from the beginning and now you want to fire us for not getting vaccinated. You are abusing your power and your corruption is visible for all to see. Its not about our health its all about control. Do the right thing and let people have the choice in what they say. You shouldnt be threatening our jobs in the process, its not right and you all know it. The blood of many LA county will be on the BOS's hands because vitale parts of the community will be severely understaffed. Not everyone is rich and has the benefit of private security to keep themselves safe like those of you in the BOS.
			Garrett Corral	Irresponsible and unethical
			Garrett LaRue	I strongly appose and am against this and the unconstitutional vaccine policy nonsense.
			Garrett Maestri	
			Gary Akopyan	Counter-productive, illegal, abuse of power. bitchute.com/video/256KlyHOlxJV/
			Gary Basmagyan	
			Gary Jacob	This is counter productive, useless, and abuse of power. You should be ashamed of yourselves. You do not deserve the vote of the public. You are dictators and heartless power hungry persons.
			Gary Mc Angus

18.		Oppose	Gina Nader	Why, if the "vaccines" don't stop the spread?
			Gina Rodriguez	
			Gina Smith	<p>Crime is up. There are staffing shortages everywhere. Do NOT terminate thousands of employees with not complying with the vaccine mandate. This will have a detrimental outcome for our already struggling county. We will collapse.</p> <p>The vaccine has great risks for many. It should be a personal choice for each individual as to whether the risks outweigh the benefits or vice versa. The vaccine does not prevent COVID-19, nor does it stop transmission. We have already seen that. It MAY protect the person who has received it and therefore by a county employee NOT receiving it does that in anyway make them a threat to public health and safety. HOWEVER, by firing thousands of unvaccinated workers, you WILL be presenting a REAL threat to public health and safety. Also, because hospitals and medical offices have already terminated unvaccinated health care employees, we are now seeing the effects of that poor choice. It makes zero sense that COVID-19 POSITIVE VACCINATED workers can still care for patients, but an unvaccinated worker cannot. What have we become as a society? Where has the logic gone? We count on our county leaders to make decisions in the interest of the public. You NEED to take your Covid blinders off. Your choices are affecting SO MUCH MORE, in a NEGATIVE way. Please, listen to us. We cannot take anymore. Stop the overreach. Stop the mandates. Stop the termination of mothers, fathers, grandparents, husbands, wives, and all other hard working individuals just trying to provide for their families or themselves. This county is like a death sentence, or at the very least a prison. No one is thriving. We are barely surviving. We need to do better.</p>

			Stop using politics science over real science. Data has shown the vaccines do nothing to prevent exposure, getting covid or giving it. So it's now just a tool to lessen symptoms just like other therapeutics. Admit you were wrong and finally do something right. Nobody should lose their job over what should be a choice. Natural immunity should also be a factor if you truly believe in real science.
			Guillermina Granados
			Guillermo Alvarado
			Crime is higher than ever! The city is deteriorating, losing city employees and especially law enforcement is not the way to go! Unless you've lived in parts of Los Angeles and have seen these issues face to face I suggest you not enforce this!
			Guillermo Hinojosa
			Guillermo Martinez
			You have no right to tell us what to do with our own bodies. A year ago, we were heroes as praised by you and the community. Now you think you are God's above us. I hope for the sake of the community this stupidity goes away. I can't wait to vote. Against your reelection.
			Guillermo C Perez
			The officials of the city n county of LA dont have a clue on how to run a department head let alone their own jobs.stop acting like you feel you are a GODdo your job and that isnt to save people's lives.
			Guillermo D Rodriguez
			This is ridiculous! Look at the crime rate!! This would be a death blow to the people!
			Guyla Clayton
			Our lives have been stolen from us and this just makes it worse. In THIS country we make decisions for ourselves and our families. Our choice and our responsibility.
			Gwyn Carr
			Gyulie Barsumyan
			H Ervin
			Discriminates
			H Eva
			Forcing experimental vaccines that have not performed as promised on employees in order to keep their jobs is wrong. Also, such a policy amounts to medical tyranny and should not be done.
			H Theno
			Stop masking, testing, quarantining our kids!!!! Covid "vaccine" does not stop Covid 19, it is illegal to mandate this and/or discriminate those who do not take the jab. These are personal and medical decisions not government leader illegal mandates! We will not let the fearful control our lives any longer!
			Haesoon Nah
			Employees should not be forced to get vaccinated. They should not be fired based on vaccination status.

Agenda #	Relate To	Position	The following individuals submitted comments on agenda item:	
			Name	Comments
18.		Oppose	Harry T	With the current need to keep the people in LA county safe from the rising crime levels and the backlog of jobs that will/need to be filled, please do the responsible (and logical approach) by hiring more deputies, funding them properly and follow the most sane approach by allowing everyone an equal opportunity to be able to work and provide for their families. After all, isn't America the land of opportunity and to be able to provide food to live life an important one, while doing so safely in the city/state we all live in and love. Drop the non-sensical enforcement of a vaccine policy as it is no longer based on actual science and several countries are now living with the virus and have dropped their mandates. Both the vaccinated and unvaccinated can catch and transmit a respiratory virus and with the mild Omicron variant, it makes NO logical sense to have an enforcement that not only discriminates but also segregates hard-working Americans trying to live their lives. I would hope that you have some sympathy and be on the right side of history.
			harumi lucak	Vaccine does not stop the spread of infection, does not stop from getting infection, all you get is many adverse effects. Stop the vaccine mandate
			Harutyun Ketikyan	
			Hayley Cunningham	Gross over reach as every single data group on CDC and NIH prove the vaccine doesn't prevent infection or spreading.
			Heather Alexander	
			Heather Calka	
			Heather Cooney	End ALL Mandates
			Heather Grier	
			Heather Kautz	The Supreme Court settled this already, the states and counties need to get on board and stop with force on a vaccine that does not stop the virus.
			Heather Langdon	How out of touch with reality can you people be? This is a free country and we have freedom to decide what goes in our bodies regardless of what we do for a living. Those of you who vote for this, take note, the people will be voting you out as soon as humanly possible. This is the most backwards idiotic thing you can do with the crime rates skyrocketing no thanks to you. We the people are absolutely sick and tired of waking up every day to a new mandate, or attack on our freedom. This feels like we are on the receiving end in an abusive relationship and it needs to stop. It is disgusting the way you are treating the same people you called heroes a few short months ago. YOU are on the wrong side of history if you vote in favor of this.
			Heather MacDowell	
			Heather Mahlke	We cannot afford to loose so many public servants! If someone hasn't gotten the vaccine yet, they aren't going to. Stop pushing this mandate!

			Name	Comments
18.		Oppose	Heather Marshall	
			Heather Molina	My grandmother was vaccinated against Covid and just died yesterday. Your so-called lifesaving vaccine is not the miracle we were once told it was. Vaccinated people can spread this illness and get this illness, so it makes absolutely zero sense to punish those who haven't gotten it. You must drop this policy. It is unconscionable to do anything else and you will be known as wholly untrustworthy if you do not drop it. What a shame that these people put themselves at risk all during 2020 before the vaccine and now you are treating them worse than criminals. Actually, criminals were let out of prison so they wouldn't get Covid. Yet these brave men and women are being let go because they refuse an experimental drug that clearly doesn't work the way it was promised to work. This is America. We are not a communist country. Please remember that and drop this horrifying policy.
			Heather Owen	Covid-19 vaccine should NOT be mandated - it does not eradicate Covid-19, or even keep one from catching it. This vaccine is a like a flu shot, and those have never been mandated. The government has no right telling people what should go in people's bodies. To fire good, hard-working employees over their right to choose is ridiculous. If women have the right to abort their unborn babies, then every human should have the right to get the vaccine or not and shouldn't have to do it to keep their job. Thank you.
			Heather Patey	I'm moving out of state like everyone else if this were to pass!
			Heather Rozier	
			Heather Sanchez	
			Heather Sargent	
			Heather Shickle	
			Heather Wolford	
			Heather Zimmerman	I have lived in Santa Clarita my entire life, therefore LA County my whole life. I do not feel comfortable or safe with the rising crime and the BOS thinking it's ok to fire 4 thousand employees for something that should be a personal choice. They need to think about what they are doing putting the public in harm.
			Heather L McCullough	The vaccines have been proven not to be effective against variants and have serious side effects- even if rare, it should be the individual's choice.
			Heather M Chinchay	
			Heather N Bowen	I oppose this! We need to bring back all the firefighters that didn't get the covid shot. Most of them have natural immunity. LA city fire is dangerously understaffed.

Agenda #	Relate To	Position	Name	Comments
18.		Oppose	Helen Theno	<p>We must start living without fear and promoting fear. It is psychologically damaging to our children, more so than the virus itself. Parents have the option of masking and vaccinating their children, if they feel they also need to keep their children home, that is a choice they need to make for themselves and it should not be something forced on everyone. I will not have my children be subjected to the abuse of this psychological damage any longer, they have suffered enough.</p> <p>Science and studies show:</p> <ul style="list-style-type: none"> • vaccines are a therapeutic, nothing more. • children are not dying and being hospitalized in great numbers. • psychological damage has been done to our children during this pandemic. • masks do not prevent the spread of Covid. • vaccines do not prevent the spread of Covid. • Covid PCR or rapid testing is not 100% • learning loss is greater in children during this pandemic than the effects of the Covid virus. • mental health issues are greater in children during this pandemic than the effects of the Covid virus. • Natural immunity is the greatest protection of all. <p>We need to learn to live with and move on from Covid. Restrictions are not helping, but preventing us from doing so. Promoting continued fear is only increasing the damage being done to our children, and parents alike. Look at statistics in the rest of the country who never had these strict mask mandates. They are no worse off than we are, in fact they are doing better, the children haven't suffered like those here in LA County. Stop this insanity of fear and control! Masks are unnecessary in schools and elsewhere Covid "vaccine" is not a vaccine so stop calling it that, it does NOT prevent a person from catching and spreading Covid. What LA county is doing is illegal and it will catch up to those in charge sooner or later.</p>
			Helen J Tabor	These officers risk their lives daily for us. It is wrong to enforce them to get a covid shot if they feel that it is not medically necessary for them.

			Name	Comments
18.		Oppose	Hellen Arita Paz	
			Henry Flores	
			Henry Johnson	
			Henry Sanchez Jr	I'm a former Mayor and council member and I'm letting you know that I strong oppose this move by you the BOS to infringe on the right of your employees to choose what goes into their bodies.
			Herminia Mercado	
			Herschelle Baisa	
			Hiedi Alerich	
			Hilary Kautz	The employees of Los Angeles county are hard working individuals with families that have worked through the entire pandemic. There is no reason to fire them for exercising their freedom of choice by implementing a vaccine mandate . Testing is fair during spikes;however, forcing them to vaccinate is outrageous . If this mandate is enforced the county of LA will be in extreme danger without having the resources they need to stay safe. There is already a spike in crime. We have overcome the worst part of the pandemic and there is no reason to continue to force the vaccine mandate.
			Hilcia Alvarez-Castillo	Vaccines don't prevent transmission. Vaccinated individuals get sick and spread the virus. What information do you have that contradicts those facts?
			Hilda Balekjian	
			Hilda Ruiz	Stop trying to force us to get vaccinated.
			Hillary LaMont	This should not be mandated. This is against personal privacy and honestly - out dated with the timeline- these men and women have been working through this pandemic without why all the sudden? At the end of the day they should choose what's best for their bodies! They should choose! Not you not anyone else! I'm extremely disappointed that this county has bought in with the rest of the agenda and I am slowly losing faith in this county.

energy, and dedicated their every effort to defend the constitution of the United States and the ideals of freedom. We must continue to support the rights of the people of our great state of California and our country with all of our hearts. What we do here today, will either erode or strengthen the freedoms we enjoy as we move forward into the future as a state and as a country.

I fully understand striving to keep the community safe, as I would give everything I have to do so for the people of California and for the country, but in all of our actions we must do so supporting the foundations of freedom the United States was built on, this is imperative.

The employees of Los Angeles County have dedicated their lives to our community and their service is absolutely invaluable. These employees have served us through many trials and tribulations as California has grown into the fifth largest economy in the world, and we must not lose their proven dedication and investment of effort in our home and community. With the constitution and freedom in mind, we must trust that these people (our fellow citizens of California) through their proven service are capable of making the right decision for themselves, their families, and for us as a state.

Other states and cities within the United States are beginning to open up and reduce or remove COVID restrictions as the situation has become better understood and infection numbers are dropping. The situation at this junction does not require forced vaccinations as demonstrated by the Supreme Court's decision against vaccination mandates for employers with more than 100 employees. With the better understanding of COVID, and the risk of mortality rate being very low, countries worldwide are beginning to reduce or remove COVID restrictions.

With all factors being considered, our Los Angeles County Employees have already agreed to COVID testing protocol, and forced vaccinations are not warranted or required. We must support their freedom of medical self-determination, religion, etc., as presented to them by being citizens of our great country. The situation does not demand or require forced vaccinations in high population employment, as proven by decision of the Supreme Court of The United States.

Through the COVID pandemic, Los Angeles County employees have without question worked through the pandemic to ensure public safety and services even when the outcomes of the situation were completely unknown, we must support them now in continuing their livelihoods, investing in our community, and building our state and country. The many years of experience, the distinguished proven service, the successful outcomes and goals achieved in our state due to County of Los Angeles employees must not be lost. These individuals should be commended for a job well done, and have our full support.

Jackeline Andalon	
Jackeline Tierrablanca	
Jacki Smith	
Jackie Rockland	Mandates are not American. We are a free country. The vax is too risky to force on people.
Jacky Schiller	My body my choice!!!! No mandates!!!!
Jackylyn Artiga	
Jaclyn Pena	It's unconstitutional! We should have the right to chose what goes into our body!
Jaclyn Saenz	
Jacob Amaya	
Jacob Chutney	
Jacob Clare	
Jacob Dao	Firing people won't stop the spread of Covid.
Jacob Hailstone	
Jacob Manzo	Absolutely discriminating to base employment on vaccination status. If the purpose is to protect the public from la county employee's spreading the corona virus, the current vaccines are not the answer. It is well known by now that both vaccinated and unvaccinated persons can and do spread this virus via airborne vector. The cdc has acknowledged that vaccinated individuals spread this virus. There is no current studies that even show decreased spread among vaccinated individuals. Furthermore none of the current vaccines are actually vaccines. A vaccine will stop transmission to create herd immunity. Strong evidence and studies are showing that natural immunity is the best method to attain herd immunity and protect the public, specifically the 0.4% of people who are at highest risk of death. To proceed forward with this policy will undoubtedly result in wrongful discipline/termination that will yield costly lawsuits in which la county will easily lose. This is a horrible position for la county to pursue.
Jacob Milhoan	
Jacob Rizkalla	
Jacob Varat	I am writing you concerning the vote to potentially fire all LA County employees who will not take the vaccine. I find the situation incredibly disturbing and feel the need to speak out. I am 22 years old and live in Westlake Village. I have grown up in the Conejo Valley my entire life and consider myself fortunate to be able to reside here. The Los Angeles area has always been a place where people of all backgrounds can feel welcomed. Due to this politicized pandemic and other unfortunate social changes, that is no longer the case. I have never seen the amount of hatred expressed

	<p>towards a group of people as I have towards people who are unvaccinated. The city of Los Angeles has implemented a new Jim Crow by restricting access to public facilities to certain groups of people. These rules are even more absurd considering the well-known fact that the vaccine does not remotely stop transmission.</p> <p>History will not look kindly upon those who outwardly encouraged the segregation and dehumanization of a group of people. You may not agree with those who have declined the vaccine, but it does not give you or any other politician the right to take away their God-given rights.</p> <p>There has already been so much damage done in the name of Covid. Families have been torn apart, children have lost years of education and social interaction, the elderly are still locked down, and we as a society are more divided than ever. It is not too late to correct course, but voting to take away peoples' jobs, especially our first responders, over a controversial injection that carries health risks will bring us that much closer to going off a cliff. We were told that the vaccines would end the pandemic and bring us back to normal, yet the end of COVID is no closer than it was a year ago. Even if we had 100% of the population vaccinated, the disease would still spread and people would still die.</p> <p>Please consider the ramifications of this policy before making the vote.</p>
Jacob Williams	
Jacob Winter	
Jacob M Hill	
Jacob M Hurd	
Jacob R Underwood	<p>I am in opposition to the enforcement of the vaccine mandate. This will hinder public safety with emergency workers leaving due to the mandates across the country, we will see far more hazard to public safety from the rise in crime, lower hospital staffing. And slow medical and fire response then we will from a virus that has run its course and is breaking through the vaccines at astounding rates. I look forward to your vote and look forward to casting my vote in the election based on your decision</p>
Jacqueline Valdez	
Jacqueline Ayer	<p>This is a grotesque overreach and should not be approved</p>
Jacqueline Bartlett	
Jacqueline Cofer	<p>Our local hero's should not be terminated due to vaccination status. Without them our community will not be safe.</p>

	<p>policy would effectively terminate thousands of Deputies, fire fighters, and EMS, in a time when their very presence is more critical than ever. The absence of thousands of LASD employees would be the opening salvo of a crime wave that may not be contained. I already question my safety living in LA County, and if this board votes in favor of this measure, I would feel completely unsafe, especially in the Antelope Valley, where resources are stretched thin over a large area.</p> <p>Ten million people rely on LASD, LAPD, other LE agencies, LAFD, and EMS services each and every day, and terminating them based on their vaccination status is unforgivingly shortsighted.</p> <p>I would hope that the board would consider the impacts of enforcing this mandate and the public service vacuum it would open up here at home. This is a terrible decision, and it should be rejected. Please, please consider this.</p> <p>Respectfully,</p> <p>JG Palmdale, CA</p>
Jake J Zavosky	
James Crawford	Are you kidding me, you people have lost your minds..
James Furtsch	
James G	
James Ginsberg	
James Guerrero	
James Hill	<p>Imposing a mandate on staff of a vaccine that is a test is not for anyone to deal with. Your topic of a mandate and you not providing the data of adverse reactions or death isn't fare to anyone. As my family or friends have died hours after the provided test shot or booster. Many individuals have beaten covid with very little to no symptoms. Your imposed shot can and will impose future health issues in which you will or have not excepted responsibility to a change in ones life. Research data with cancer increased cases after the shot, along with increase in death insurance claims after the shot. Why don't you invite many outside panels who specialize in these areas in which I describe. Also look at requiring death certs to indicate if that person was vax. to provide data.</p>
James Mcfarland	<p>Bos are Nazis pos . It's illegal unconstitutional scotus ruled you're not above the law</p>
James Molen

	fire Sheriff Deputies!!! The blood of victims will be on your hands!
James Peterson	
James Thomas	
James Watson	This is absurd. Make your own health decisions and leave others to make their own decisions. The vaccines are not working and some recent studies are showing the vaccines are actually making people less protected. It's obvious the reason these mandates are being pushed is due to the political lobbying by the pharmaceutical companies. I challenge you to see do the simple search of "lobbying by industry" and you'll better understand what is going on.
James E Albrecht	What happened to my body, my choice? The leaders of CA, LA City, and LA County are so out of touch. Stop the nonsense and let people make their own medical decisions while NOT losing their jobs.
James E Sneed	
James J Cunningham	
Jamey Mon	If this affects the Sheriff's office and his domain, then NO !
Jamie Clack	
Jamie Cruz	
Jamie Fithian	
Jamie Horwedel	I come from a first responder family. My father was a fireman. My brother is a fireman. My father in law, my brothers in law are firemen. My sister in law is a nurse. We have all been greatly impacted by this pandemic, and the lack of support and acknowledgment that has been shown is shameful. Whether vaccinated or not, this enforcement of the vaccine has effected all involved and not for the better. Stop trying to drive a wedge into this community and those that proudly serve pandemic or not. Stop trying to use us like pawns in your game to push your narrative. It's disgusting.
Jamie Johnson	Leave personal medical decisions to the individual. Do not force the vaccine on your employees.
Jamie Nakkashian	
Jamie PalaL	Crime is already high are you people crazy
Jamie Sheehan	
Jamie Templeton	These people worked while everyone else was confined to their homes during the Pandemic. Now you want to fire these hero's? This is crazy and so unfair.
Jamie Van Ness	It is outrageous that this would be mandated for anyone and that anyone would lose their job. Jobs are base on merit and not vaccine status! You will be losing great people who are good at their jobs and who have earned the right to do it!!

Jamie Vorzimmer	Support first responders right to choose! The vaccine does not prevent infection or spread of Covid. If you fire first responders for not getting vaccinated you are not only violating their rights, you are putting the public in danger by not providing adequate staffing for Los Angeles first responders!
Jan Hambas	
Jan Owen	
Janae Cruz	If we lose so many law enforcement, we can no longer play in the park freely and without fear of crime.
Jane -	Enough with the tyranny - take time to actually read the overwhelming opposition. You know the truth and this is discrimination and harassment - stop now!
Jane Bleyl	
Jane Doe	
Jane Montejo	I strongly oppose item 18 of the agenda. It is unconstitutional. The Nuremberg Code prohibits any government from enforcing or coercing their constituents to participate in an experimental trial such as, what is occurring right now in LA County. This has affected the livelihood and health of LA County workforce and our family. We should be able to make our own decisions whether to accept the vaccine or not. This is unjust! Board of Supervisors it is your duty to protect the citizens of Los Angeles County. Make the right decision. May God Bless You All!
Jane Oh	We are not a Communist country!!!
Janel Law	I strongly oppose and will vote out anyone approving or in favor of this measure.
Janelle Aguayo	Enough!!!! this is crossing the line!
Janelle Caton	No human should be forced to inject themselves with a newly made "experimental" drug. Shame on you LA County for even considering firing any of these hard working firefighter heroes over making a personal choice to not receive the vax. These are the same men and women who spend countless hours and holidays away from their families to serve and protect LA County. If LA County can host the Super Bowl, this should not even be a topic of discussion anymore. Please, let's wake up now and be logical.
Janelle Yau	Please consider wisely how this would affect our county and community by doing this. Are you representing all people in our county? And would this really make our neighborhoods and communities safer by possibly terminating all these front line workers who have worked tirelessly throughout the pandemic and done everything they can with the resources they have to keep us safe? They are already extremely understaffed and are overworked. In addition, will this policy even make our cities safer if these workers can still get covid and transmit it to others? I understand your concern but to mandate something that does not ensure actual public safety or stop covid from spreading does not make sense.

Janet De Santiago	We should not be forced to get a vaccine in order for us to keep our jobs ... the vaccinated and unvaccinated are both under the same category .. that vaccine may work for some but not for all . Those that have a healthy life style and have immunity from actually getting covid shouldn't be pushed and threatened to get the vaccine . Just let it be .. it's their body, their choice. End the vaccine mandate... it's causing more harm then good. What happened to freedom of choice especially when it's your own body and what we choose to put in it ... please just end this non sense vaccine mandate and let our county start stabilizing .
Janet Garcia	
Janet Mendoza	
Janet Palomares	
Janet Pulowski	
Janette Valle	
Janice Chitjian	Absolutely not
Janice Van Wig	All people should have the right to choose what goes into their bodies. No one should be threatened the loss of their job for not choosing to put a toxic chemical into their body that may have horrible side effects or even death!!
Janice Vendo	
Janice Wilson	Crime is already at an all time high thanks to the DA. Seems counterproductive to terminate employees for not taking a vaccine that clearly doesn't work based on the amount of vaccinated people that have gotten it. How about we treat this as it is, a flu, and get on with life!
Janie Washburn	You are insane to fire all those employees over a shot that doesn't stop you from getting or spreading the virus. Freedom of choice!
Janine Almazan	
Janine Medina	
Janis Servin	UNCONSTITUTIONAL MANDEMIC, END THIS NOW!
Janisa Z Partida	It isn't right to force these type of vaccinations on people. A person shouldn't be judged by their vaccination status but by the type of work they do and their contribution to the community. I know several vaccinated people who have contracted Covid. If the vaccination were truly a good thing to do I would have done it already. I'm up to date with every other vaccination that has been required throughout my life. That should count for something. Please exercise logic not money making emotions.
Janny Thomas	
Jaqueline Estrada	
jared brisson	The only reason the BOS are pushing this agenda is that the county will be able to receive BILLIONS in federal dollars if they can get worker vaccine

	status up to 90%. Fire the unvaccinated and you instantly have 100% compliance with worker vaccine status. We have been going through this pandemic for two years and are on the down turn, and with a less deadly variant. You are planning on destroying the lives of fireman and deputy's that have been around Covid + people every day for two years and help them no matter who they are or whether they are vaccinated or not. Please do not ever again say you support us or call us Hero's when we die. Do not attend our memorial services, do not speak publicly about us or about how much your heart grieves for our family's lose. You are willing to destroy thousands of dedicated county employees lives and their families for billions of dollars that you will just waste. I guess the supervisor who said she would be happy to fire any deputy or fireman that refuses to get Vaccinated will finally get her wish.
Jared Mattison	
Jared Riggs	
Jared Ripley	
Jared J Smith	
Jarome Washington	
Jasen Lara	OPPOSE the firing of unvaxxed County employees
Jasen Razo	
Jasmin Bovy	
Jasmine I	Absolutely not!! The vaccine has not stopped transmission and any such order would be unscientific. We do not need fake theatre being implemented throughout our city under the guise of "safety." LA county health department has lost all credibility with its covid protocols and outdated restrictions that proved to fail! End ALL requirements immediately. Unmask OUR KIDS AND FIRE FERRER!!
Jasmine N Margetts	
Jasna Gillis	
Jason Acevedo	This will be disastrous. Think long term. This will not enhance public safety.
Jason Bunce	
Jason Elkins	
Jason Estrada	
Jason Ford	Deep heartedly oppose this motion. If passed, this would turn Los Angeles County into the likes of a third world country. Crime would skyrocket exponentially beyond the current rise and many people will die to lack of medical care.

Jason Hamed	
Jason Harrison	
Jason Horton	Mask mandates and COVID vaccines and lockdowns don't work. Look at Isreal. Highest vaccine numbers and high cases of covid hospitalizations and deaths. This is wrong. These are the things that communist countries are doing. You need to respect peoples health choices. It's not the Government job to protect us.
Jason Hurd	
Jason Hurd	To impact the staffing of our first responders by terminating them for exercising their rights is plain WRONG! And for a vaccine that doesn't work and only causes significant harm is absolutely disgusting. Shame on you! This is a disgrace.
Jason Lloyd	This is pure politically driven tyranny. You are willing to put your constituents at risk solely because we disagree with your decision to force a vaccine into us. We have worked under pandemic conditions for more than 2 years and now we are disposable to you.
Jason Manly	Strongly oppose. How ridiculous of a thought is it that you can force the injection of a drug across the board regardless of previous medical history, pre-existing conditions or other unknown variables. Just stop it already. If you weren't trying to ram it down people's throats they might be more inclined to consider it. Have a blessed day.
Jason Tamayo	
Jason W	
Jasper Wood	
Javier Diaz	I will not want a decrease of law enforcement because of damn vaccine our streets are unsafe and this is not fair to us the community.
Javier Montes de oca	
Javier Tafoya	I am a LA county voter and oppose to the LA county Code to enhance compliance with and enforcement of the county's Covid 19 vaccination policy. With the rise in crime, releasing public service officers would be a disservice to LA county residents. I will be monitoring the outcome of this policy and will vote accordingly on the next election.
Jay Backer	This is an authoritarian power grab. What is the point of having Department heads if the Board will just override their authority to impose their own agenda? Make no mistake, this is not about safety or compliance, this is a personal vendetta against the Sheriff and and the the employees of LA County who are trying to keep this sinking County afloat.

	The BOS has shown their true head, they don't want to work with any department heads, they want total control. This is not democracy, it is absolute tyranny, and it won't stop here.
jay biranbaum	NO MANDATES
Jay Cee	
Jay OC	CA also mandated healthcare workers get vaccinated and fired thousands of healthcare workers. Omicron hit and guess what we had a major shortage of healthcare workers so people died. So they let healthcare workers work WITH COVID and ridiculous hours instead. So okay to work in a hospital with covid just not unvaccinated? Now you want to do this with police and firefighters?! Our crime is already thru the roof and out of control. and I am pretty sure we are the fire capital of the United States. But you want to do the same thing with police and firefighters? This is shear insanity. Stop with these draconian mandates that do nothing but put our lives in jeopardy.
Jaycob Kelsey	
Jaylene Davidson	we the people have constitutional rights and you do not get to discriminate or cause division, which is what you have been doing. This is the reason for all the litigation which has been found in favor of the people, I might add! Vaccinated people are catching Covid and spreading it actually at a higher rate than unvaccinated. You are sending sick vaccinated people to work while keeping others out that test negative and are healthy just because you say they have been exposed. If vaccinated people can still catch Covid and spread, it than you need to fire them as well if you are going to fire healthy unvaccinated people. We all see the Governor, the mayor, other representatives running around without masks enjoying themselves while you are still trying to force individuals to wear masks. Is this virus so intelligent that it knows the difference in 6 ft. with a mask as opposed to without? Yet I digress; Let's talk about all our heroes before the vaccine that are now still putting their life on the line daily but now being threatened and discriminated against. You are asking people to take an experimental SHOT, that has deadly side effects, and telling them they don't have a choice. That is not Moral or legal. If you were in need of an operation or any meds, they would tell you all the risks and advantages and then you get to make that decision for yourself for the consequences are yours to live with. The only people sadly that I know who died from Covid went to the hospital, all those who didn't are well and fine. So, is it Covid that is killing people are the protocols you have set up? this virus is got a 99.9% survival rate. Are you actually telling me if your house was on fire and you, and your family were trapped you would care if the person who rescued you was vaccinated or not? If so, that is insanity! same as if your life was being threatened at gun point, you just need an officer vaxxed or not to rescue you. Our crime rate is starting to look like Chicago. we need more officers not less same with firefighters, truckers, teachers, nurses, all are essential! We are not China, North Korea, or Germany we are a Free USA that lives in a Democratic, Capitalist, Country. Many sacrificed and gave their lives for it to be like this. We do not want to live under Socialism, or Communism, or Tyranny. If you vote in favor of this,

	you are showing the people who elected you that you don't care about us this is just about trying to have control over the people. It is my prayer that you still realize that we all are held accountable to our Creator and the decisions you make you will have to answer for in a much Higher court. Please do the right thing and stand with the people and uphold the Constituion of the United States!
Jayne Elliott	
Jean Fontayne	This is a law suit ready to happen for medical malpractice and discrimination. You have no right to ask citizens for private medical information, this is against the California Constitution.
Jean Gilliam	
Jeana Balestino	
Jeanette Azcue	
Jeanette Fisher	
Jeanette Hill	
Jeanette Macias	I oppose the vaccine mandate!
Jeanette Miller	
Jeanne Gillette	
Jeanne Harrison	
Jeannie Kim	
Jeannine Galvan	Stop wasting money time and resources on policies that jeopardize our freedom and medical decisions! My body my choice! The vaccine has been proven ineffective if it has not stopped the spread!!
JEFF CASE	You cannot force a vaccine requirement on employees of this county. They have a right to make their own decisions as to what is best for them and their family. It's way past time to stop all of this and get back to normal. Stop trying to run people's lives.
Jeff Crowder	People have the right to make their own decision regarding vaccines. Government should not be making that decision. Terminating first responders for this reason is a terrible idea and should not be done
Jeff Davidson	
Jeff Eastman	These men and women you are proposing to fire, have given so much to the communities they serve. They are the best of the best. They have sacrificed self, family and friends to keep up safe! The idea you would think about firing them is treasonous. You must take into consideration natural immunity and where we are with the new strain of the virus. The vaccines don't help with the new strain. Look at all the new science and not through political lenses. We cannot afford to lose these people and many of the people they serve will be hurt. You, as our leaders, need to give these individuals thanks for there

	rights for medical freedom, but think about the detriment it would be to the county of Los Angeles. The homelessness in La County and crime rates since COVID-19 are only going up, so your solution to this problem and to the residents of the Los Angeles is terminate our public safety officers and first responders? Thus, response time to calls and service will only be increased due to lack of staffing. Because why? You are requiring a vaccine for a virus that has a 99.98% survival rate and 99.5% survival rate for those over 50? This simply defies basic human logic. Many of these deputies and civilians tirelessly serviced the county through the course of the "pandemic" and continue to service the county day in and day out, please do the right thing and OPPOSE Agenda Item # 18. Thank you.
Jenna Danelo	
Jennie Wong	This mandate is ridiculous. The county will suffer immensely if the BOS votes in favor of this. Crime is at an absolute high abs without deputies patrolling, we are victims laying in wait!
Jennifer Argo	Free citizens should be FREE to make their own medical decisions, free from coercion. Stop trying to control people and focus on the issues affecting the county most.
Jennifer Azevedo	
Jennifer Beltran	
Jennifer Blackburn	
Jennifer Bolander	
Jennifer Boyd	
Jennifer C	Medical professionals deserve the right for Body autonomy. Taking the vaccine for job assurance landed me in the hospital with unending medical issues, and a medical professional I can attest the vaccine is not for everyone and should not be FORCED to keep jobs.
Jennifer Contreras	
Jennifer Cooke	
Jennifer Daniels	
Jennifer Figueroa	
Jennifer Frasca	Bodily autonomy is a right granted to every person to have the right to control what are the things to be or not done to their own bodies. We are entitled to the right of choice.
Jennifer Grigsby	People deserve to chose what they put into their bodies! This is wrong and you would be affecting thousands of families who have served the County diligently for years!
Jennifer Hale	
Jennifer Hall	Strongly oppose

Jennifer Hill	
Jennifer Jaken	Firing 18k people will make hold time longer for cops and fire fighters to show up and help us! It will causing more theft, robbery, murder, death and destruction. Plus the huge homeless problem. Who cares if they didn't get Vaxxed. As long as we got it we are fine according to the CDC. Don't let their stupidity of not getting Vaxxed put us at risk. We need them too much!
Jennifer Jayne	
Jennifer Kasabian	
Jennifer Kline	
Jennifer Kroell	<p>If you care about your community, county employees and frontline workers then you will vote NO on motion #18.</p> <p>As the Board of Supervisors you represent the community and it is important that you listen to the concerns raised by your community and county employees because ALL eyes are on you as our elected politicians. No one should interfere with each individual's right to make life altering decisions and jeopardize individual's livelihoods. We live in a free society in America and each individual has a God given and natural born right to choose what is best for their own life. Please keep in mind that pushing the county vaccine policy on county employees and frontline workers will have a negative consequence if you continue to enforce it without allowing county employees their right to choose what is best for them. It will greatly impact our communities who need their frontline workers if the board continues enforcing punitive policies that will greatly affect county employees' livelihoods. Keep in mind that in LA County poverty is increasing due to people losing their jobs over this vaccine mandate across the board which may result in homelessness which is currently an issue that needs a solution and crime continues spiking due to lenient laws put in place and the list goes on and on.</p>
Jennifer Larkins	
Jennifer McCammon	Having the "vaccine" you can still get it and still spread it! Check your facts, please. This is needless and authoritarian.
Jennifer Monsibais	<p>This is a joke. None of you people on the board care about the people of Los Angeles County. In a time where a vaccine is not preventing people from getting the virus and you still opt to force this personal medical decisions on our law enforcement officers, medical professionals, and firemen? The people are suffering more from crime than from Covid. Take a look around. The streets are filled with drugs, robberies, carjackings, and skyrocketing murders. How does firing these very men and women who served us all through it all make any sense do you? Why is this even on the agenda? There is a staffing shortage already in all of these professions and the BOS believes this is in the best interest of the public? No one believes that because that thought process is ridiculous. There is no logic behind this agenda item and definitely not in the best interest of the public. Please serve the county of Los Angeles and not your foolish pride. We deserve better from all of you.</p>

Jennifer Mustin	
Jennifer Norman	This is not the elected officials place to mandate a vaccine. Medical injections are a personal choice, not a mandate. A year ago you were calling our sheriff deputies hero's and now you want to terminate them because of something they are choosing not to get. This is a personal choice, not the governments to make. Time to wake up and look at the REAL data (as you refer to it as "science") vaccinated and unvaccinated people are all getting Covid. Don't do this. We can not afford to loose the 4,000 deputies we desperately need to keep our county safe.
Jennifer Powell	No firing of school employees for an experiment
Jennifer Reagan	
Jennifer Shank	
Jennifer Tomasevic	
Jennifer Uribe	
Jennifer Villarico	
Jennifer A Krause	Remember these people were our HEROES 2 years ago! If I call 911 I could care less if these public workers are vaxxed or not. Eliminating all these jobs will pose a huge threat to public safety! Don't make people take medicine (aren't your curious why some in this field don't want the vax) they're not comfortable taking. BE LEADERS! Also, drop the indoor mask mandate! Enough already!
Jennifer A Lopez	I strongly oppose any mandates for the LACounty Sheriff Department or LA County Fire department. All agencies should not be mandated for a vaccine. Especially one that doesn't prevent anything. They have a constitutional right to choose.
Jennifer B Pineda	This is unethical and wrong. People should not be forced to get a vaccine that has no long term studies.
Jennifer K Chou	
Jennifer L Chavez	
Jennifer L Kelly	Enough is enough! You al need to stop this. It's a virus everyone will get. Let it run its course and tell people how to get early intervention! You do not paint yourselves in a very good light regarding this!
Jennifer M Vasquez	How is this even a topic of discussion among you "supervisors"? These men and women that you continually go after are the ones that risk their lives every day to protect everyone, including YOU AND YOUR FAMILIES! Where is the "science" that shows there has been transmission from a first responder to a public citizen?! Where is the "science" that shows this "vaccine" actually works? The true definition of vaccine before this "pandemic" was that it PREVENTED illness or your contraction of a sickness. Suddenly, the definition has changed to fit this narrative! When everyone was a child, you got vaccines like Measels, Polio...and nobody got those diseases! Now, you

	get the "Covid vaccine" but it doesn't prevent you from CONTRACTING OR TRANSMITTING the virus! This far into this "pandemic" and we now have mask mandates being rescinded and even vaccine mandates falling! One police department IN LA County has rescinded its vaccine mandate! It's time for YOU, the board of supervisors, to stop this mad power grab you're on and finally recognize the job well done these first responders have provided us instead of trying to rid them and their families of their careers (which are not easy to obtain in the first place!) and their livelihoods along with depriving the public of departments that can sufficiently meet the demands without total collapse without them! Stand behind YOUR first responders! Do not oppose them! I, along with my entire family, STRONGLY OPPOSE this issue! C.S. Lewis wrote "Integrity is doing the right thing even when no one is watching". This is Los Angeles...everyone is watching! Will you finally do what is right!? Or has common sense escaped you...AGAIN!?
Jenny Fowler	
Jenny Layne	
Jenny Strote	
Jenny Taller	The Director of the CDC, Rochelle Walensky, has stated on numerous occasions that ANYONE can spread the Covid 19 Virus and it's variants REGARDLESS of their vaccination status. That's the reason EVERYONE is wearing masks in public settings. Terminating or punishing county employees who don't wish to get vaccines are unnecessary and completely illogical. Moreover, if this order is implemented, it will expose the county to enormous financial liability stemming from class action lawsuits and other litigation.
Jeremiah Johnson	
Jeremiah Owen	I oppose firing employees who have made the personal choice to not vaccinate.
Jeremiah D Clark	
Jeremy Beau	I AM IN STRONG OPPOSITION
Jeremy Benns	Oppose, this mandate will affect public safety for all those living in LA County in a negative manner.
Jeremy Carlisle	Whole heartedly disagree with this bullying move. No one should be forced to take a shot that is not a true vaccine. I personally see "fully vaccinated" individuals test positive for covid and potentially expose others. Only having unvaccinated employees submit to weekly testing already is discriminatory at its core. This amendment would do nothing more than continue that clear goal of the majority of the Board of Supervisors, to bully unvaccinated into submission. With current studies and information being released by the CDC, this in no way should be a mandate that over rides an individual to freely make a personal health decision. Having only "vaccinated" deputies that will still contract and potentially expose others with covid will change nothing, except for leaving the public YOU serve even more vulnerable and severely underserved when they need law enforcement. Put aside your personal

Jessica Gandlin	These mandates have harmed enough people when it comes to making a difficult decision between providing for family and keeping their job or accepting medical intervention that they and possibly even their doctor do not see a need for. Stop imposing your personal fears on others. If someone is vaccinated they are also getting and spreading Covid. This has to come to an end
Jessica Gutierrez	Let department heads make decisions for their own departments. They know far better than BOS whether it is worthwhile to fire experienced workers in critical areas like DCFS where vulnerable children will be out at more risk, fire, lastly when crime is spiking, etc This shows zero concern for the safety and welfare of the people of the county you are to represent.
Jessica Hart	
Jessica Hernandez	This policy is illegal and violates our constitution, title 7, informed consent, nuremberg code, and various other laws. As the board of supervisors and government representatives it is your duty to protect the people you serve. The CDC makes it very clear that the COVID 19 vaccine does not stop the transmission of COVID or stop people from getting COVID. Why are you supporting this illegal policy that is only reeking havoc on Los Angeles. Stop the Mandate, Stop the County's COVID 19 Vaccination policy, Stop the harassment, Stop the division, and Stop destroying LA.
Jessica Jeffery	
Jessica Johnson	It would be foolish to terminate employment of LA County employees due to their vaccination status. The county needs employees to function, and there is NO discernible difference in transmission rates between vaccinated and unvaccinated employees. There is no need to put the county into a state of extreme understaffing and upend thousands of lives over something that effectively means NOTHING. Please do not move forward with this. We need our county to be safe and running smoothly. Mandating vaccines doesn't do either.
Jessica Lugo	
Jessica Mackay	This is ridiculous! Please stop this. We need good, strong police officers!
Jessica Martinez	Our county employees should not be subject to vaccine mandates. These same employees worked all through the pandemic and many if not all have had COVID and now have a better immunity to COVID than those vaccinated. Moreover, the recent studies done with Kaiser show that the incidence of life altering side effects including myocarditis is much higher than the risk posed by contracting COVID. Is the county willing to accept all liability for exposing healthy people who are at no or little risk to lifelong injuries and possibly death? The number of people who are vaccinated should satisfy your quota of vaccinated. Right now, in areas where the highest number of vaccinated people are located also have highest number of cases, ex. Israel. So if these public employees want to forgo vaccination, based purely on their willingness to work with the risk of civil, they should be allowed to choose whether or not to be vaccinated. Lastly, there are alternative treatments that are effective.

Jessica Massarotti	
Jessica Odonnell	
Jessica Perales	Oppose!!!!
Jessica Quinones	How dare you try to enforce something when data and statistics show that Covid-19 is not an actual problem in Los Angeles county. Due to the "Defund the Police" movement crime, homelessness, and over all public safety has been noticed more and continues to increase. Police officers are more important than ever in Los Angeles county. If this passes you are putting more people in danger of being killed, robbed, sexual assaulted, or kidnapped. Not only that, the livelihoods of families of the people who chose a career to protect this county is going to be impacted. These men and woman deserve to keep their jobs or be accommodated just like teachers and nurses have been. How dare you try to impose something at a time when the majority of people are more likely to die of an actual career criminal than of Covid. Do NOT pass this.
Jessica R	At this point in time, almost every employee has either been vaccinated or has had Covid 19. It is time to honor antibodies, no matter the source. Enforcing a covid 19 vaccine policy for this vaccine, which does not prevent the spread of covid 19 and does not prevent a person from getting covid 19, does not make sense and is harmful. It is also appalling to know the Board of Supervisors are willing to even consider this enforcement as the number of employees who will be affected by/ terminated is very high and LA County and its citizens will suffer enormously based on this decision. There are already staffing crises in many of your county departments and response times will be incredibly harmful to the public. Are you willing to let this happen? Covid19 now has prevention medication and treatments that have been proven to work. Mandating and enforcing a faulty vaccine is one the worst decisions that could be made for LA County.
Jessica Ramuno	Given the spread of Covid regardless of vaccination or booster status, any mandate imposes severe government overreach and violates bodily autonomy
Jessica Rucker	
Jessica Salazar	As a resident of Los Angeles County. I would like to ask the County of Supervisors to please re-instate ALL of our dismissed Firefighters. There is NO reason to fire the individuals that risked their lives during the supposed pandemic and shut downs. And now we have abandoned them because the County of Supervisors would rather side with an experimental vaccine for a supposed cold. If we can hold a superbowl, there is NO pandemic. This is Medical Tyranny at its best. Please choose to be on the right side of history. This vaccine is causing segregation and division. By not supporting your Firefighters you are causing the same harm. There is no justification for the implementation of this ridiculous mandate. As you can see our Governor and Mayor don't take it as serious. So why should we at the convenience of the City of Los Angeles.

Jesus Guerrero	How dare you even consider this action. We live in a sanctuary state that prides itself on "my body my choice", and "I do not consent". Yet you are willing to terminate employees who have worked tirelessly for LA County for many years over an experimental drug that was granted for emergency use. I live in a country that is built on the foundation of being free, forcing a vaccination with the threat of termination is the complete opposite of freedom. I 100% oppose this agenda item and the thought of giving one appointed individual who was not elected freely to a position of power that can enforce county policy at his direction is the definition of a totalitarian state, not democratic.
Jesus Mendez	
Jesus A Sahagun	
Jill Alexander	
Jill Austin	
Jill Golphene	Do not punish la county employees Our streets are already at risk, loss of employees enhances that risk.
Jill Hall	These workers were our hero's during the pandemic, now your going to "kick them to the curb" for not complying with your vaccine mandate. Stop this madness, you are going to make this an unsafe place to live! You are not going to save lives with this, you are going to cost lives!!!!
Jill Samm	
Jill Sammetinger	
Jill Warren	
Jim Bracci	This is an experimental shot. It is not FDA approved. I am not an experiment. Police and fire will be decimated and the county will be thrust into chaos. Do the right thing and shut down this unconstitutional mandate.

Jim Fernandez	
Jim Johnson	Eat shit & die
Jim ODonoghue	Since early 2021, when they first became available, we have learned much about the vaccinations - what they do and what they do not do. We know now that Vaccinations DO NOT keep the vaccinated from infection nor transmission. This is not just opinion, it is fact that has been verified and supported by the CDC. When the mandates first became a possibility, the belief was that vaccinating those who have direct contact with the public (nurse, law enforcement, etc.), would keep the public safe. Certainly this was a noble goal. However, given what we now know about the vaccinations, the science, the statistics, the expert opinions, the CDC's own words, we now know that vaccinating anyone does not keep the public safe. It neither prevents infection nor transmission. The public is no less safe from a vaccinated civil servant or an unvaccinated civil servant. Let's be clear - vaccinated employees will still get COVID and they will still transmit COVID. The virus a vaccinated employee transmits to the public is no different from the virus that an unvaccinated county employee might transmit. The risk to the public DOES NOT change when a vaccination is introduced. Since the County BOS is tasked with creating policy to keep the public safe, the County BOS can no longer rely on vaccinations to do so. In fact, the evidence is now so overwhelming that if the BOS continues down the vaccine mandate course, the result will eventually be massive amounts of lawsuits that the County will not be able to win. The inevitable lawsuits will cost the citizens of LA County SIGNIFICANT amounts of money - not to mention an unprecedented spike in crime and reduced County services once you've terminated the 18,000 unvaccinated employees. The science regarding vaccinations has evolved and the results of the studies has defeated any argument for mandated vaccinations. LA County can no longer make any legitimate public safety argument surrounding mandating a vaccine and the BOS must also evolve and end all discussions in favor of vaccine mandates.
Jimmy Gonzalez	If we can host a super bowl our first responders are not an imminent threat
Jimmy Guzman	I oppose section 18
Jin Kim	This will put me and my family that live in Santa Clarita in great danger. I have already seen a great increase in crime and homelessness. If you want to see more, I will be more than happy to send all the homeless people and criminals to your house and neighborhood.
Jinny Gamboa	
JJ Neese	Bodily autonomy is critical to freedom here in America. To force our sheriffs to get a vaccination that does not eliminate or even decrease the risk of contracting Covid is absolute insanity. Our county and state need more and not less law-enforcement right now with the rise in crime, drug addiction, and homelessness. Shame on you for even considering taking it out those who keep our cities safe.
Joan Bowser	The crime has never been worse in LA, no one is safe! Our first responders responded when no one else would. The DA's and their liberal beliefs are

	letting the criminals out and drugs and guns are rampant not to mention murders, car jackings, theft, and the list goes on. I lived in the Antelope Valley for 30 years and felt safe. Now I am terrified when I go down there. It is pure anarchy. The Omicron version blatantly demonstrated the vaccines do not work nor do masks. This is just a political ploy. Our personal physicians should be advising what is best for us. Fauci has never treated patients and everything he had said had been wrong. The States without the mandates and shut downs are doing much better than other states. Why do you think everyone is moving out of California for the first time in history. Covid deaths are higher now than they were before the vaccine!
Joan Garnett	It's ridiculous to require a vaccine when the survival rate is 99.8%. COVID IS OVER! Let's get back to normal and not sacrifice our good men and women participating in our most needed services. Please let this mandate go!
Joan Lewis-Arciga	
Joan Raimo	According to the CDC where you appear to get guidance from - the jab does NOT protect against getting the virus or spreading the virus. Therefore ALL employees are in the same situation. By firing these workers you put us ALL in greater danger with less police, less firemen and women, less educators, etc. It does a disservice to ALL citizens in the county.
joana aranda	
JoAnn Ledesma	This is suppose to be the land of the Brave & Home of the Free! Our Law Enforcement have lived up to their oath to protect & serve & everyday are asked to be Brave ! How can you all think you have the right to take away their freedom by wether they choose to get the Vax or not ! Were not in Cuba , although you seem to be running a Dictatorship in L.A. Are you going to be responsible for covering their medical expenses , when you have multiple claims for stress relief, paying their debts because you caused loss of income, paying for & providing adequate housing when kids go homeless & hungry ? When you start to enforce your way of thinking on descent hard working people with no logic or ethical proof you have the right to terminate them is dumbfounded !! you need to think of the longterm effect this will have on everyone ! Stop your insanity & stop stressing out our first responders & let them get back to what they took their oath to do ! Your not God ! You have families who have roofs over their head & food in their bellies & yet you have no conscience that these enforcement officers have families too. Your punishing the entire family when you strip them of their jobs !! Does that make you proud ?? Do not vote yes on 18 !!
Joanna Hernandez	
Joanna Lau	
Joanna Z Centeno

Jocelyne Farah	This should be rejected.
JoDee Roth	
Jodi Skelton	
Jody Rudd	Unconstitutional
Joe Anaya	With the rising crime I can't believe that this is even on the agenda. Not to Longo these workers were all essential and some were deemed heroes, but now they will be terminated if they do not comply with the vaccine mandate. I am so fearful to imagine the crime rates if public safety switches deputies and fire department amongst others are terminated. For the safety of my family, my neighbors and his community, I strongly oppose item number 18 and will vote accordingly at the next election based on this outcome. This is and will be my number one priority.
Joe Anonymous	Firing employees for not taking a failed vaccine is not right. Studies have shown that vaccination does not stop people from contracting or transmitting the virus. You will be destroying people lives for the ever changing "science".
Joe B	
JOE BANNAN	I oppose firing good people based on a medical treatment. It's their bodies and their choice what they do with it, not yours. It would be foolish to fire people for this because we just watched the virus blow through the vaxxed and the un-vaxxed. The science does not support your narrative! STOP destroying peoples lives for political reasons.
Joe Cabote	
Joe Cormack	<p>Time has proven that the SARS-CoV-2 Vaccine is ineffective at reducing transmission and reception of more modern mutated strains of COVID. There is also evidence of long term side effects, such as myocarditis and blood clots, potentially causing heart attacks and strokes. In light of these serious risks and the fact that the unvaccinated do not pose any more of a threat to coworkers or the public served than the vaccinated, employees should have the right to weigh both potential benefits and risks before making their own medical decision, without the threat of losing their careers.</p> <p>abcactionnews.com/news/coronavirus/doctors-see-more-covid-19-breakthrough-cases-with-omicron-say-vaccines-still-help</p> <p>ahajournals.org/doi/10.1161/CIRCULATIONAHA.121.056135</p>

Agenda #	Relate To	Position	Name	Comments
			Joe Elias	If we can host a super bowl our first responders are not an imminent threat
			Joe Guzman	I strongly oppose requiring vaccines for public workers. Public Workers have been on ground zero serving our citizens without PPE and a vaccine for over a year. They did this with bravery. I ask that you all vote based on the very human rights you all sat you fight for. Please don't make this about politics. They got nothing in return for continuing to keep us safe and kept the county going. I say this as a citizen of Los Angeles County. Don't put my family in jeopardy over a vaccine requirement.
			Joe Marsik	
			Joe Marsik	It is the right of people to decide what healthcare treatments they get or don't. The state is lifting regulations and you are trying to fire people who have been working the front line this hole time. They were essential when there was no "vaccination" and now you want to fire them because they don't believe what you do. Violent crime and all crime are at a high this is not the time to be getting rid of first responders. This is against the constitution and wrong. It will lead to many lawsuits down the road and end up costing the county millions of dollars if not billions.
			Joe Mireles	
			Joe Perez	The county is already unsafe enough
			Joe Samm	
			Joe Santa Maria	Unconstitutional
			Joe Wilhelm	
			Joe C Peterson	Mandatory vaccinations under threat of being fired are a violation of the constitution. Furthermore, they will result in over 4,000 LASD employees being fired. The results of firing that many from LASD will be a disaster. Let people choose to be or not be vaccinated. The "Science" no longer shows that vaccines are either effective or safe. The vaccine was prepared for the Alpha variant of Covid-19 which is long extinct. We are now on Omicron and it will be a long while before a vaccine comes out for that. So long in fact that Omicron likely won't exist when it does. It is madness to push vaccines further especially given the widespread horrific side effects. Thank you.
			Joel Carlos	
			Joel Gamboa	The Omicron variant is 140x more transmissible than the original virus. Masks are useless against it and we all know that you can still contract COVID even if you are vaccinated. The virus is here to stay unfortunately, I wish that were not the case, but it is. It's time to go back to normal.
			Joel LOPEZ

Agenda #	Relate To	Position	The following individuals submitted comments on agenda item:	
			Name	Comments
			Joel Sherreitt	It is concerning that the board of supervisor is willing to fire over 10,000 employees for not being vaccinated. The CDC has said the natural immunity it's just as effective as vaccination. Many of the 10,000 people have already contracted COVID-19 and have recovered that's having natural antibodies. Through other states and countries of the world the contract rates of Covid and death rates between people who are vaccinated and unvaccinated are similar. This item item 18 seems to be a motion to strong arm individuals into getting vaccinated which is fundamentally against what our Constitution is about.
			Joel slaughter	Please consider the long term effects of what your trying to do. This is unprecedented. Knee jerk reaction to a mandate that has been to political to actually make a difference. Your the only county in the country if not world making such drastic decisions.
			Joel E Melendez	
			Joey Danelo	
			Joey Mendelsohn	Strongly against forcing someone to choose between bodily autonomy and losing their job. Let's all get along and not segregate people who have their own unalienable rights of freedom to choose what does in their bodies.
			Joeylynne VanGinkel	
			Johan Sloan	
			Johanna Hamilton	Opposed to firing unvaccinated first responders. Police and fire have been there for us since the beginning. How dare you Threaten their jobs.
			Johanna Rodriguez	We can't afford to lose more first responders
			John Aliano	
			John Blanco	
			John Debay	We need our deputies!!
			John DelMastro	To force the people who protect us to get vaccinated is unacceptable. They chose to protect us and put their lives on the line every day, the least we can do is let them choose what they want for their body. Their body, their choice. With a survival rate of close to 99%, it's not statistically significant enough to force people to get vaccinated.
			John Demel	
			John Desley	
			John Dirks	Freedom of choice. Its why we all call each other Americans. Generations of people have faught and died for the right to have the freedom and right to choose.

			John Do	
			John Doe	
			John Evans	Are you in America or Communist China? Masks don't work and the mrna therapy doesn't address weak nothing burger variants. You're death cult monsters covering for your corrupt policies. There is a special place in hell for those who feign ignorance while doing evil. You will reap what you sow. That this is even on the agenda demonstrates that evil has taken over your bureaucracy.
			John F	This is ludicrous and detrimental to the county of Los Angeles. Potentially losing upwards of 10,000 first responders, deputies, fire fighters, EMT's, and medical professionals, all because of misguided ideologies. There are hundreds of medical journals across this country and abroad that have proven natural immunity is just as good if not better than any vaccine could provide. But this isn't something you care to accept or even willing to research. Point being, there are thousands of employees who have contracted Covid-19 and cleared it naturally the way their immune system was designed to do. You do not know what's best for any of these people or their families. It is not your job to make people conform. The governments job is to protect the people from terror both domestic and foreign, not to oppress them and take away their civil liberties. Vaccinated or not, both are equally transmissible..... So what are we really talking about here?
			John Freeman	This is a violation of basic human rights. Government has NO right to inject anything into people against their will. Evil agenda.

			John Williams
			All covid mandates should stop. Vacines and masks are available to all people. If people choose not to do either, is at their own risk. Masked and Vaxed people do not run a higher risk around those who are not. Anyone who disagrees is stating vaxines and masks do not work.
			John Yacovone
			John W Perry
			I strongly urge you to oppose Agenda Item 18. At a time when many cities, counties, states and countries are lifting restrictions and allowing people to make their own health choices, moving forward on this issue helps no one and further creates divides in our country. The vaccine has shown that it does not protect the vaccinated or unvaccinated from either getting or transmitting the virus, as recently stated by the CDC and The Who. Thank you.
			John-Patrick Sheffield
			This is America, the land of freedom. We shouldn't punish our first responders for their beliefs.
			Johnna Furesh
			This mandate makes absolutely no sense as we saw everyone vaccinated get covid and spread it. I oppose the complete coercion happening to people just to put food on their tables.
			Johnny Bao
			Johnny Bernal
			Johnny G
			Johnny Garcia
			Johnny Sandoval
			I oppose this agenda as these employees were considered essential and risked their lives throughout the entire pandemic and it is unjust to not allow them the right to work for money to provide for their families. It is clear that vaccination status has no affect on HOW someone can perform their job and it is also clear that vaccination status is not something that actually stops the spread of covid. I oppose this agenda and I wish you all can see how much harm this is doing to the employees and their families and how much stress this is causing based on something that simply "lessens symptoms" and doesn't actually stop anyone from contracting the virus. The agenda is baseless

			Jon Anderson
			Not fiscally responsible to loose so many officers who have already been protecting us for 2 years in COVID. Imagine the overtime and public safety issues???
			Jon Delling
			I think we've seen over time, vaccines are not effective in preventing the spread of Covid, have higher than average vaccine injury rates, and do not have lasting effects for the limited protections they do provide. A mandate, which would potentially cost LA County residents the protection of thousands of Sheriff's Deputies and the services of thousands of other LA County employees seems completely unreasonable. Additionally, I think it would be counter to the mission of the BOS to enforce such a mandate given the negative effects it would have on residents. Negative effects, which would far outweigh the exaggerated risks, unvaccinated persons allegedly pose to others. With time, I believe such mandates will be proven to be extremely careless and wrong. I believe the BOS is legitimately trying to act in the best interest of the public, but has been led astray by persons acting out of fear and unsound rationale. Please do not consider significantly reducing our services, which are provided by personnel with experience that can't be replaced. The lasting effects would be detrimental to the county for years and years.

			Jose Chavez	I am against this amendment. Why do you need to terminate county workers who have worked during the pandemic. At this point even the vaccinated can pass covid to others. This vaccination was not required when they got hired, and it shouldn't be forced on them. It's not the governments(local, federal) duty to dictate and give health information. Please stop forcing medical decisions onto people. Thank you.
			Jose De La Cruz	
			Jose Diaz	
			Jose Garcia	
			Jose Melgar	
			Jose Ramirez	
			Jose Ramirez	
			Jose S	
			Jose Salmeron	OPPOSE!!!
			Jose Valencia	
			Jose Valle	We are over it. Leave the people that don't want to take the vaccine alone. With the last strain we found out that no matter, if you took the vaccine and booster, you can still get and pass it on to other people.
			Jose Zambada	Freedom of choice. At this point if you're still pushing mandatory vaccinations — you're simply ignoring the data that they do not prevent infection or transmission. Please STOP with these mandates. They do not work. We cannot mandate ourselves out of Covid. Stop pushing a false narrative.
			Jose C Gomez	
			Jose F Murillo	
			Jose H Escamilla	My brother in law is a Sheriff. And so is our neighbor. He told us about this. And although we are considered democratic independents, we do NOT like these mandates. We strongly oppose them.
			Jose T Ramirez	
			Josefina Gonzalez	If we can host a super bowl our first responders are not an imminent threat

			Joseph Branca	I support medical privacy and see no reason to terminate employees based on vaccination status when the vaccinated can transmit covid as well. It literally makes no sense and it is wrong. Be on the right side of history. We beg you. This is our communities families on the line. The very employees that have sacrificed and taken risks throughout the pandemic. This is a cruel way to thank them.
			Joseph Cisneros	
			Joseph Gonzalez	
			Joseph Grant	
			Joseph Lamantia	
			Joseph Lisuzzo	Our first responders were there before there was even a vaccine. They risk their lives for us and should not be punished or fired for not having the vaccine now when they didn't have it back then and yet risked their lives for us. Oppose this!
			Joseph Lovercio	
			Joseph Moore	
			Joseph Pebley	
			Joseph Puplava	I oppose the mandate. The vaccine does not prevent the spread of the virus and is therefore not effective at stopping transmission. Thus, it does not benefit the health of those who live in the county to require it of employees working with the public.
			Joseph Sanchez	
			Joseph Tuminaro	
			JOSEPH WASEK	Please do not punish/terminate the employment of our Los Angeles County dedicated civil servants who have devoted their lives and careers to our community. It will take too many years to replace their invaluable knowledge and experience. A decision to terminate their jobs violates the freedoms this country was founded on. Please vote NO!

			<p>Name</p> <p>Joseph A Gorrindo</p> <p>Joseph J Placencio</p> <p>Joseph R Carter</p> <p>Josephine Vieira</p> <p>Josephine G Garcia</p> <p>Josh Berry</p> <p>Josh DeVore</p> <p>Josh Diaz</p> <p>Josh Hernandez</p> <p>Josh Mendez</p> <p>Josh Smilor</p> <p>Joshua Atkinson</p> <p>Joshua Brakefield</p> <p>Joshua Bray</p> <p>Joshua Delfin</p>
			<p>Comments</p> <p>This is a no brainer. Receiving the covid shot and/or booster is 100% a personal decision either way and not up for employers nor elected officials to mandate. Ordering people to augment, perform or receive ANY medical procedure is far beyond over reach. Shame on you for not admitting it's lack of efficacy and working to move forward. Nothing wrong with admitting something is wrong and going back to the drawing board, but moving forward and choosing to die on this hill while forcing your troops (labor force) to go down on that hill with you is not democracy. It's what the Nazi's did when when they knew Berlin was doomed to fall. Please do not gamble with the lively hood of your employees for the sake of pride. Let them make personal medical decisions for themselves!</p> <p>Unconstitutional</p> <p></p> <p>Should be one's choice. I got it and regret it because I get sick more often and have lost more than half my hair. I only did it because I felt pressured and scared to lose my job since I'm a single income household</p> <p>This is discrimination and unconstitutional! I'm not an county employee however I greatly oppose. If this does pass I will be voting accordingly in the next election. I'm in the 4th district.</p> <p>I strongly oppose the county's vaccine mandate. It should up to the department heads to make the decision</p> <p></p> <p></p> <p>SKW survived the spanish flu, polio, HPV and the hot years all without a stinking vaccine. Do you know what his vaccine was? A hearty bowl of STFU washed down with black union coffee. As a tin knocker SKW lost his hair, his finger, and his first wife. The old man bounced back and bought himself a boat,a Jeep and a river house (Bigger that Cry-Z's). All the while, Pinky gets a paper cut and runs and gets vaccinated.</p> <p></p> <p></p> <p></p> <p></p> <p></p> <p></p>

			Jules Agdeppa	
			Julez H	
			Juli Hull	
			Julia Bach	My first comment registered as in favor, but I oppose. Don't fire first responders.
			Julia Harmon	I am opposed to the COVID-19 vaccine mandate. Because of the mandate, healthcare workers who were "HEROES " working through the first COVID surge are being threatened or actually being fired from there jobs leaving them unable to maintain basic needs of food and shelter. Some of these healthcare workers have also gotten COVID therefore receiving natural immunity. Some have gotten the vaccine by coercion/force others refuse. I am not anti-vaccines, but this is bullying!
			Julia Jordan	It's a crime to punish those who want to protect themselves and their own safety.
			Julia Rendon	
			Julia Ruelas	I'm pro vaxx but anti mandate!
			Julian Calderon	
			Juliana Anjos	
			Juliana Bozeman	You all virtue signaled while 300k marched for anarchy in the streets. Marched for the end of police. But you sit there on your throne of bones and claim your tyrannical mandates are "for the greater good." That's not just hypocrisy that's Volksgesundheit. Straight out of 1932 Germany every one of you. Supporting the burning of businesses for an entire YEAR but forcing children into abuse and depression "for their safety". Every one of you should stand trial for crimes against humanity. You KNEW this was an experimental gene therapy. You KNEW this was no vaccine. You KNEW masks cause hypercapnia, blood poisoning, sepsis, mental decline. But your power trip was more important. The only trip you should be taking is to Nuremberg 2 Trials. You all deserve the death penalty that you handed down to our children, their parents, their grandparents, their friends, their business, their favorite restaurant, their sports, their joy, happiness, weddings, funerals, holidays. You stole it all. We despise you. We will NEVER trust you. We want every one of you gone forever as badly as the teachers unions. In your silence + complicity, you are all Barbara Ferrer. Unqualified CLOWNS with no medical training. You are despicable. We want you GONE FOREVER from this city. Banished like the plague that you are!

			Juliana Martinez	
			Julianne Hartman	
			Julianne K Sherreitt	
			Julie Behrens	Quit politicizing and manipulating public employees out of your personal preference instead of recognizing we live in a democracy and freedom of bodily autonomy must be protected- it is an overreach beyond measure to tell someone what to put inside their body And threaten their employment if they do not comply.
			Julie Brashear	Stop adding regulations to public and private entities. This is causing more harm than good.
			Julie Darby	The vaccinated and unvaccinated alike are getting COVID-19. I have had COVID-19 and it's no more then the flu. I am opposed to being mandated to get a vaccine for a virus that I have a 99% chance of recovering from. I am opposed to the ingredients (aborted fetus) in the vaccine and the fact that it has not gone under any long term clinical studies. The makers of the vaccine take no responsibility if the vaccine causes serious side effects or even death. If vaccinated people are protected from the virus, why does it matter if others chose not to get the vaccine? I am opposed to putting something in my body that could cause serious side effects, goes against my religious beliefs and has proven ineffective in protecting against contracting the virus.
			Julie Hernandez	This is medical tyranny. You will not get away with this. Crimes against humanity.
			Julie Johnson	Hello I came from communism I came to this country for the American dream and this is what you wanna do to my daughter... You should be ashamed of yourself!
			Julie Liubicic	No enforced vaccine mandates, please. The vaccine does not prevent transmission. Every person should have the right to choose whether or not to protect themselves with the vaccine.
			Julie Long	
			Julie Petrelli cramer	LA County Board of Sups is equivalent to the Nazi party of Germany. Do not forget history. This is what the Nazis did to the Jews in 1938! You are dividing the people of Los Angeles, not bringing them together! We are against your mandates! We will show you at the voting polls! Remember we put you in office. We will vote you out!

			Julie Prouty	The city is already in a state of despair with crime rate sky rocketing and fire stations understaffed . This will collapse the system. The vaccines don't work. You still get covid with the shot so what's the difference between getting the shot and getting covid or not getting the shot and getting covid?. Your argument doesn't stand. But if you fire all the men and woman that don't get it. The city will fall apart. Do you want that blood on your hands? fire people for a shot that doesn't work? This is nothing more that political bullshit that is destroying people lives and put the city in danger.
			Julie Smith	Do not vote this is horrible!!!!strongly oppose
			Julie Whitaker	
			Julie Wilson	
			Julie A Canizales	Mandating a "vaccine" when the CDC has announced months ago that it does not stop transmission or contracting COVID. People need to be able to make their own risk/benefit analysis and the county may lose valuable employees that serve Los Angeles residents.
			Julie A Phineas	I personally worked for the past 2 years short staffed, covering 2 different bureaus' vacancies in my department due to vaccination side effects & vaccinated staff infected with covid. We know today that vaccinated individuals can still become infected & pass on the virus. No reason to fire the men & women that have been protecting this county for making their own personal medical decisions.
			Julie L Morrow	I am opposed to vaccines mandates and should be our personal choice.
			Julieta Roberts	
			Julio C Martinez	
			Julisa Bernardez	My son is 26. He wants to apply for an LA county job. And to see that you are trying to fire those that want health freedoms is a good way to lose good applicants. We are all watching. My son and his colleague are both watching how you are running our county. We voted for you and donate!!! Maybe not so again. I think you need to scrap these mandates. Neighboring counties will get good applicants like our son. Per CDC these vaccines don't protect or stop transmission of COVID19.
			Jun Garcia	
			June Thome	
			Justen Holm	This is unconstitutional and you will further the downfall of Los Angeles county. Public safety will be cut in half with criminals running free and the public becoming victims more frequently.
			Justin Calzada

			Justin Perez	
			Justin Raden	
			Justin Smith	
			Justin Spegel	From a state government that is increasingly making it harder on law enforcement to do their jobs enforcing laws you want them to be required to obey useless and discriminatory requirements? Sounds about right!
			Justin W	I'd like to know how the people that are in favor of firing those that risk their life every day without question, sleep at night? This isn't a left vs right issue, this is of the highest human experience decree. How can one side preach about unity and collectiveness, be perfectly ok with firing and ruining the livelihood of thousands. This is not just a do what we say or be fired, this is also going to ruin families and dreams. Why is it ok for some and not for others? This has gone on too far, and I believe everyone needs to take a step back and realize, this is enough. We are all in this together, and not just COVID, we're all connected beings having a human experience, no one person is above the other.
			Justin Wade	
			Justin K Lewis	There should be NO vaccine mandates at all. These shots I recieved still gave me COVID. And didn't prevent my family from getting it. Also I'm going to a funeral in Las Vegas this week for a vaxxed family member. Stop all these silly mandates. Or no more donations from this Lewis household.
			Justin K Smith	You swore an oath to the US Constitution not a person. Your obligation is to the people and a 2 year "emergency mandate" is beyond unconstitutional. Our jobs and careers are our lives. Please do what is right and stop the mandates.
			Justine Kragen	It is irresponsible, unethical, and not scientifically justified to fire LA County employees who are not vaccinated for COVID-19. It is widely understood that both vaccinated and unvaccinated can get and transmit the virus and terminating the unvaccinated would not actually reduce community transmission. In addition to being discriminatory and futile, it would create a serious public safety crisis by greatly reducing the number of available highly skilled first responders.
			K Theno	Stop the fear and control of mask and Covid "shot" mandates! It's mentally harming our children. It's personal choice, but we will not let the fearful control our lives any longer!!!
			Kabrina Borbon	
			Kaci Harris	People deserve the right to choose! We are FREE and must have medical freedom! No one should be forced into an experiment!!!!

			Karen E Jensen	
			Kari Probst	Constitutional rights are of the utmost priority and must be upheld by our governing bodies. To pass this motion will abridge thousands of persons lives, unconstitutionally. As a grandmother and lawyer, our LASD family should have gainfully employed, honorable fathers and mothers, healthy, and proudly wearing their badges as they protect the LA community. This motion is an oppressive political agenda. The government has no place in our doctors' offices, whether it be a virus or cancer; and no place mandating risky life threatening procedures on employees. This is oppressive, extreme, wrong.
			Kari Sebalj	My spouse puts his life on the line every single shift along with countless others in this department. These men and women have EARNED and deserve the right to have choice on how they choose to handle their own personal health and decisions in this matter, period. No one person or group reserves the right to make personal health decisions for any group of people especially when it effects their faith, families, health and livelihoods. Please do NOT subject our spouses and their families to these illegal and unjust requirements that have zero science or efficacy behind them.
			Kari Shaw	
			Karime Carrillo	
			Karina Andrade	It should be up to the employees if they wish to be vaccinated or not! You cannot force anyone inject their bodies. Please oppose this bill.
			Karina Cervantes	
			Karina Harutunian	
			Karina Mayorga	Stop trying force people to take drugs they don't want to take. Everyone who wants it has had an opportunity to get double and triple jabbed. For free! Saying something is safe and effective over and over doesn't make it safe and effective, and it's certainly not effective... and they don't know how safe it is—long term. That's why it's experimental and there's no liability. Don't give our first responders an ultimatum that will result in further breakdown of our infrastructure as we have seen with health care workers.
			Karina E McAhren	We will lose a lot of great sheriffs that we need
			Karine Vardanyan	
			Karl E Bistline	This is a democracy, not an autocracy. This would be unconstitutional.

Agenda #	Relate To	Position	The following individuals submitted comments on agenda item:	
			Name	Comments
			Karla Maravilla	I oppose on this non sense "mandate", the heroes that worked since the beginning of this pandemic should maintain their jobs regardless of covid vaccination status. They have given their much precious time and life during this time of chaos, to serve our communities, and help anyone in need. We need them in our communities as they need to keep their jobs, to fulfill their duties, to maintain their careers, families and themselves. They should not be forced to resign.
			Karla Rosa	Why is the freedom to choose what medical recommendation someone should make. Losing sheriff, fire dept, social workers, mental health workers is going to destroy Los Angeles County.
			Karlie Goldstein	
			Karly Treacy	We should all have medical freedom. Especially with a drug that we do not know long-term safety or side effects. Long-term being more than 10 years like all other vaccines on the market.
			Kasib Thomas	These people work and continue to work during this time. The vaccine is not only under EA only but it is a flawed vaccine that doesn't even prohibit transmission, hospitalization or death. You will ruin the city if you fire more front line workers but we know your agenda so just continue to ignore facts.

Agenda #	Relate To	Position	Name	Comments
			Katherine L Mc Donald	<p>Comments</p> <p>Position</p> <p>You the LA County Board of Supervisors once called these men n women Heroes. You are now going to fire them! You are willing to sacrifice the safety of all LA Co residents, because these HEROES will not comply w/this vax that is being proven to not work! You are going against what you swore as members of this board and that is to protect the residents of LA County. With crime statistic exploding Nation, State n County wide, you are willing to make this situation worse! Like the upcoming midterms, if you sacrifice LA Co employees over this vax issue and jeopardize the safety of every LA Co resident, we will replace you with someone who actually stands by their words and protects its employees and its residents!</p>
			Katherine M Ahlers	STRONGLY opposed to this. We need our workers working, especially first responders. They know how to work safely in adverse conditions and should be allowed to continue to do so. The pandemic is winding down, and we've seen with the Omicron variant that it affects vaccinated as much as non-vaccinated. It seems there's no reason for this mandate to stay in place.
			Kathleen Blue	This should be a personal medical decision. We are NOT a in a state of emergency anymore. See attachment please!
			Kathleen Miller	It does not protect others. Where there is risk there should be choice. Vaccine injuries are real not rare.
			Kathleen Mueller	
			Kathleen Pomroy	This is just wrong. Our servicemen protect our freedoms day in and day out. Let's protect theirs.
			Kathleen Schaefer	These mandates are unconstitutional, violate HIPAA laws and don't follow any science. Vaccinated people still get and transmit Covid. So, what does it matter if they are vaccinated? And, these vaccines are proving to be dangerous for some. You should consider that mandating them makes you personally responsible for any harm they incur from them.
			Kathleen Terrazas	
			Kathleen Wood	Do not support any amendment requiring vaccination!
			Kathleen Zapata	
			Kathleen V Sibert	
			Kathryn Bui	
			Kathryn Maldonado

			Kathryy Cayem	
			Kathy Castro	
			Kathy Ponce de Leon	
			Kathy Puplava	I oppose the mandate. The vaccine does not prevent the spread of the virus and is therefore not effective at stopping transmission. Thus, it does not benefit the health of those who live in the county to require it of employees working with the public.
			Kati Carroll	This is an injustice and can be an abuse of power
			Katie Marsh	
			Katie Moresi	OPPOSE!
			Katie Nelson	End the mandated
			Katie Pope	
			Katie Tidball	
			Katlin Walters	
			Katrina Chavez	
			Katrina ODonnell	Your feud with the Sheriff's Department is expensive and counter-productive. Your constituents deserve better. Additional reductions in services at the expense of the people dependent on the county to provide adequate support is not the answer. Other counties have worked WITH their employees to maintain services and protect both their employees and the public. It is embarrassing my county has chosen instead to put the constituents last because of personal agendas. Not only do you continue to create a hostile work environment for your employees, you leave the residents of Los Angeles County without support at a time they need it most. You should be ashamed of yourselves.

			Katrina M Rebueno	I'm an LA County employee and resident. Item#18 will greatly affect me, my family and the rest of my fellow 18,000 county employees who are now at risk of losing our jobs to these unlawful mandates you've all been trying to push. We are civil servants who have dutifully sworn to serve the public and community around us. Now, we are at risk of being removed from our posts because we choose to uphold our medical and religious freedoms? Where is the justice, fairness and equality that LAC has for years, tried to inculcate in us over and over again? How is this fair? How is this move, just? We are capable, responsible public servants. We are not a threat to the public we have sworn to serve and protect.
			Kayla Jesu	
			Kayla Knutson	Please please hear our cry and not mandate the vaccine. Let the people choose what's best for their bodies. We have had covid twice in our home the past two years and want the right to choose to be vaccinated. It is simply unconstitutional. Thank you!!
			Kayla Walker	
			Kaylaa Arthur	
			Kaylee Franck	These men and women have risked their lives and sacrificed time with their loved ones their whole careers. They have showed up to every day these past two years and a half years and it's disgraceful that they are now facing losing their jobs due to a personal medical decision.
			Kaylee Kirk	
			Kaytlin Yost	Strongly oppose
			Keeley Bonnet	
			Keeton Sessions	No it's unconstitutional to do this stand up for the first responders who save your life
			Keith Ellis	
			Keith Giles	No county employee should be fired for refusing the vaccine mandate
			Keith Horner	
			Keith Robinson	This would be terrible for the County as a whole. Crime will go even higher and wait times for medical help will be extended. Do not enforce the vaccination policy.
			Keith Stires	
			Kelley Barnes	
			Kelley Forgatch

			Kelli French	
			Kelly Bleyl	
			Kelly Brown	
			Kelly Burroughs	These County Employees took calculated risks going to work and serving their communities at the very beginning of this pandemic, before we even knew what Covid-19 was capable of. Now, more medical information is coming out, which sometimes contradicts what was originally accepted as right. Getting this shot should be up to the individual it is effecting. The county certainly isn't going to cover these folks medical issues who have adverse effects from this shot in the future. Unvaccinated and vaccinated both can infect others with this virus. By all accounts, this vaccine is supposed to help the individual survive if they catch it, God forbid. Look at the science and how other countries in the world are handling this now. Firing these dedicated employees with years of experience would be disastrous to LA County as a whole. New hires need these folks to teach them their trades. Especially Fire, Police, Medical Professionals and trades like electrical works and the like. Please do not just discard these people like trash who have given up a good portion of their lives serving their community. If this was such a problem we wouldn't be hosting a Super Bowl here or having concerts either. Just look to the supreme court in their recent decisions involving this topic.
			Kelly Donahue	
			Kelly Follstad	Please don't enforce this. Our community is already suffering from loss of sheriffs deputies. The victims of these crimes don't care about the vaccination status of first responders when they are being held up by thugs or attacked by a homeless person that is too high to know what is they are doing. Our communities are hurting from all of these inefficient Covid policies and this will only make us life worse for us.
			Kelly Hannegan	I'm OPPOSE anyone being fired for not taking the COVID-19 shot. Nobody should be coerced into taking a experimental "" vaccine". At one point our police firemen health providers mental health providers etc. were our heroes and now you are making them the villains. This is ethically and morally wrong to fire someone for choosing not to put an experimental drug in their body. I urge you to do the right thing, please do not fire anyone for not taking the Covid vaccine. Let's support each other as free people in this country and not divide us. Thank you

			kelly waltz	I oppose item 18 of the agenda because it violates Basic Human Rights. My body is My property and not the property of the government. Per law I am given the right to informed consent. The COVID 19 vaccination policy prohibits individuals the Right to choose whether they want to participate in the experimental trials of the COVID 19 vaccine. The voluntary consent of the constituents you serve is absolutely essential. The Nuremberg Code prohibits any government from forcing or coercing their constituents to participate in an experimental trial such as, what is happening with the COVID 19 vaccine. I strongly oppose the continual enforcement and disciplinary actions intended by this item and the board of supervisors. It is your right and duty to protect your constituents from harm and from illegal enforcements of policies that violate our fundamental rights as free and autonomous individuals.
			Kelly A Farmer	
			Kelly K Toneman	
			Kelly M Gamboa	
			Kelsea Cho	This is complete Discrimination! You cannot afford to lose this many essential workers. If you go through with this, the judgement of the Lord will be on your heads. Choose Wisely.
			Kelsey Rountree	
			Kelsey Van Deventer	
			Kelsie Gigandet	
			Kelsie D Pate	
			Ken Barnes	This is in violation of the Nuremberg code, signed by our country after WWII.
			Ken Gerardi	
			Ken Price	No reason to mandate and experiment that doesn't stop the spread. Vaccination only helps the individual and it should be an individual choice.
			Kendall Jensen	This is absolute insanity. Fire first responders when our city so desperately needs their services? Our city is already a mess of crime and fires ravage our state every year- we need these brave men and women.

			You would have to be insane to fire employees for not taking an experimental medical procedure. Especially, our first responders! I want to know a first responder is capable of doing their job when I need them. Not whether they took a shot!
			Kenneth Kith
			Kenneth lessley
			Kenneth Petty
			Kenneth F Hill
			Kenneth M Cunningham
			Please remove the mask mandate on February 15th. There are numerous studies that prove masking and social distancing have done nothing towards slowing the spread of covid, while there is significant evidence in the detrimental social and economic impact these mandates have caused.
			On top of that, why are we still measuring covid metrics in case numbers when omicron is significantly more mild than the previous strains of covid? Why are we not changing to hospitalizations and deaths? We are robbing our children of a normal childhood by forcing them to be masked in school. England just scrapped ALL covid-19 related mandates and LA country should do the same.
			It's time to move on.

Agenda #	Relate To	Position	Name	Comments
			Kevin Montano	Please reconsider the vaccine mandate. There are other medicinal alternatives widely available which are effective and do not require individuals to inject themselves with something they do not want. New studies reveal that natural immunity is as effective as vaccination, and was more effective in fighting off the Delta variant. It has also been discovered that the vaccine is not nearly as effective at protecting people from symptoms from the Omicron variant. The virus is ever-evolving, and so should our approach to mandating a vaccine. If the virus is mutating into variants which cause less-severe symptoms, then there's no need to force people into taking a vaccine. Please consider everything, and reconsider mandating a vaccine. Thank you for your time.
			KEVIN OBANION	I oppose the BoS intent to allow Director of Personnel to change civil service rules in order to terminate employees who are unvaccinated. There is ample evidence the vaccines, by CDC admission, the vaccines do not reduce transmission or spread rendering vaccine mandates null and void
			Kevin Pacheco	
			Kevork Abechyan	
			Khachik Grigoryan	
			Khanh Tran	
			Khashak Stepanain	
			Khatija Dadabhoy	I oppose stricter measures for compliance with vaccination policy, particularly measures that include terminating employees for being unvaccinated. No one should be forced into this position between livelihood and bodily autonomy/choice. Thank you.
			Kiana Johnson	
			Kile Barrett	
			Kim Hoover	STRONGLY OPPOSE any vaccine mandates agenda that would fire all of the deputies, fire fighters, and county employees who don't get vaccinated. We need these workers that are in short supply already, and both the vaccinated and unvaccinated can get infected with Covid and transmit Covid. The UK and Denmark and others are dropping vaccine mandates, and so should LA for its workers.

			Kimberly Bosch	I am opposed to this 100%! This should be an option not a mandate. We can not terminate good people and hard workers for not wanting to inject THEIR bodies with this experimental drug. This is America the land of the FREE and home of the BRAVE which is what law enforcement, fire professionals, and medical and health professionals have been doing since the start of all of this and risking their lives and putting countless hours They are the HEROS and it's up to us up to this board to save them now from losing their job and what they love doing the most.
			Kimberly Brunson	What about natural immunity which the science has proven to be far superior to the vaccines? What a waste of tax payer money when you consider the costs to hire and train these employees. Crime is already at an unacceptable level and now you would fire thousands of deputies? The stupidity of even considering this blows my mind. If you vote for this I hope you never get elected to office ever again. Didn't you make an oath to uphold the Constitution?Doesn't this violate the Nuremberg Code? Won't the County get sued, likely lose, costing the Country millions for wrongful termination settlements? Think for Gods sake and do the right thing!
			Kimberly Cabunoc	
			Kimberly Calzada	
			Kimberly Davidson	
			Kimberly Diaz-Gutierrez	
			Kimberly McBride	
			Kimberly Mendoza	This is absolutely the stupidest thing I have ever seen. If you terminate 4000 deputies, all the blood will be on your hands. The citizens will suffer immensely and crime will skyrocket. All of you need to be voted out who are not retiring. The vaccine doesn't work and natural immunity is far better.
			Kimberly Waldman	
			Kimberly Williams	
			Kimberly I Spencer	We are testing weekly as instructed and wearing our masks. Being full vaccinated does not save you, but puts you more at risk. The county is already running short and in many areas on fumes and now the counsel wants to fire employees means the counsel doesn't want care for the people or our safety, or well being.

			Kimberly T Gonzalez	I oppose this County Code since it infringes too much on everyone's personal choice, to vaccinate or not vaccinate. This Code fogs the ability for all to decide if vaccination is good for them and their families. Many people look at public officials as a leader figure and faithfully trust their decisions. However, this Code is not your decision to make for the rest. Every individual has the right to decide what is best for them. Mandating this vaccine will not only negatively effect individuals choosing not to vaccinate but will have an all around negative effect businesses, families lives, and our community. I implore you to due away with this ridiculous code.
			Kira Alger	
			Kirk Tsuye	
			Kirsten Hollander	
			Klaris Ovanisyan	
			Kourtney M Kingsmore	
			Krista Doeding	
			Kristal Vasquez	Oppose
			Kristen Bondarczuk	In light of the fact that it's been proven that natural immunity is better than the protections the vaccines offer, and further the fact that those who are vaccinated can still get Covid, still spread Covid, still wind up in the hospital with Covid, and can still die of Covid, it's being required for "safety" seems to be an argument one can't even argue any longer. Drop the requirements!
			Kristen Kobzeff	They were just heroes a few months ago. Being vaccinated does not stop the spread.
			Kristen Kramer	
			Kristen Krofina	Stop this social experiment!
			Kristen Owen	Forced vaccination is wrong. Each individual deserves to do what is in their own best medical interest.
			Kristen Tanji	I know police officers and firefighters who are loyal to the public whom they serve and they also value freedom of choice and protecting the individual's right to freedom of choice when it comes to medical status and care.
			Kristen Williams	I oppose mandatory Covid tests, vaccines, masks and all discriminatory policies intended to make life more difficult for the unvaccinated.

			Kristen J Gorrindo	Forcing the vaccination upon anyone is wrong. It should be a personal choice and not made a mandate while holding our law enforcement deputies jobs over their heads. What you all are doing is wrong. The vaccine has not proven that it is effective against contracting or transmission of the virus, so therefore, it is experimental and cannot be a solution. Let them all make their own medical decisions and stop the government overreach!
			Kristi Davis	
			Kristi Glowski	
			Kristi Mayer	
			Kristi Navarro	This is extremely unconstitutional and a violation of civil rights. If the unvaccinated (no MRNA shot) employees are to be tested then the employees that have subjected themselves to getting the MRNA shot need to be tested as well. It has been proven that even these injected people spread the virus and still get extremely sick from it as well as people that don't have the injection. Stop trying to force the stuff on the citizens that vote for you because when the election time comes you're not gonna get as many votes. It's painfully obvious that this injection does not provide any type of protection and can cause serious harm healthwise. Start following the science like you keep telling everybody.
			Kristi Sturgeon	
			Kristian Jeffers	
			Kristiana Maldonado	
			Kristie Christie	
			Kristin Harmon	
			Kristin Harrison	Why would we force someone to take something that should be a personal medical decision? We shouldn't.
			Kristin Montero	Strongly oppose!!!
			Kristin Studt	
			Kristina Adams	
			Kristina Bacelic

			Kristina Svachova	Shame on you for pushing this disgusting communistic agenda to pocket dirty money and pseudo power that temporarily comes with! Karma is a bitch and when YOU or your family need help from these ppl who actually saved lives in real danger and real emergencies, there might be none or not enough and it's already happening because of your sick actions! Drop everything immediately, resign and hide in a hole before it all bites you hard!!!
			Kristine Labarda	
			Kristine Takhmazyan	
			Kristine M Hennessey	You cannot force people to take an experimental medical procedure to keep their job. It's illegal. Did you know deaths among 18-64 year olds is up 40%. Even 10% would be considered a catastrophic event only happening every 200 years.
			Kristine M Ward	
			Kristofer Schroeder	The vaccination mandate has done more harm than good. Many businesses which fired individuals for not getting vaccinated are now hiring them back after realizing that being vaccinated does not keep you from getting or spreading Covid. That the county is still considering firing people who are not vaccinated shows that the mandate was never about protecting the public. The vaccinated can spread the disease just like the unvaccinated. And those who have not been vaccinated but have had the disease have robust immunity against reinfection. We need to get rid of the vaccine mandate completely. Firing people for not getting a medical procedure that Carrie's risks and consequences and does not protect the public is dumb and wrong.
			Kristopher Graham	
			Krystal Bonilla	
			Krystaline McCullough	
			Krystina Castillo	I cannot believe this is even something that is being proposed. Shame on you!!
			Kurt Koerth	Strongly oppose this measure where police are stripped of their rights to determine what goes into their body that has been shown to NOT even protect in all circumstances.
			Kurtis Gruoner

			Kyle Bistline	The fact that this is even coming up to a vote shows the mindset of the Board as tyrannical and authoritarian. It is as though we are moving to a Communist China philosophy that wants all Supreme power. Very concerning. Do you want the State of California over reaching into your sovereignty? Or Washington DC to do the same to your board. The State of California is moving to remove face mask mandates on Feb 15th, yet the board of supervisors is sovereign and will continue to have mask mandates. How would the board feel to have the State mandate you get rid of your mask mandate too. Dark dark times as our government slowly slips from being a government for the people and by the people to a government of a few.
			Kyle Eden	This should not be something that the BOS needs to get involved with. Let the departments run them selves. The obvious want to overstep the leadership of the sheriff is insane. Stay in your lane and let the departments handle the issues themselves.
			Kyle Sommer	
			Kyle J Hanlin	
			Kylee Martin	I oppose the firing of unvaccinated county employees. Some are out there putting there lives on the line for us and now you want to force them into something. It should be a choice.
			Kymburly Vance	
			L Ausmus	
			L Gutierrez	I oppose amending the County Code to enhance compliance with and enforcement of the County's COVID-19 vaccination policy.
			L P	County employees are being required to obtain the vaccine that does not serve what the policy indicates as the vaccines do not prevent transmission nor getting COVID-19. It does not reduce side effects hospitalizations or deaths as ones publicly stated. As of January 21, 2020 to the VAERS report list 22,607 deaths 100,021 hospitalizations 11,500 heart attacks and 40,000 permanently disabled due to the Covid vaccines. These are roughly estimated. The policy violates health and safety section 2331 Subdivision 802 code 21 of federal regulations and section 50.23. All vaccines currently available are still under EUA use.Per the FDA under section 564 (E) (1) (A) (II) ,recipients have the option to accept or refuse products and of any consequence of refusing administration of product. The policy violate state and federal laws including privacy as employees religious exemptions are being outright denied for not registering into Fortune which also violates state/federal laws including LA County charter and LA County employee handbook in addition to departmental policy manuals.

			Lacie Pinheiro	I oppose all vaccine mandates as a condition of employment. You do not follow the latest research with these mandates and offer absolutely no recognition of immunity from natural infection. These mandates were created to protect the public from a potentially Covid positive infected employee. We know that they do not do that, especially with the latest Omicron variant. Use common sense. Allow LA County employees to make an informed consent and make the best decision for their personal health. The vaccines are no longer a public health concern but a private health concern.

			Lana Martin	<p>I am a medical provider for LA county. I also have a psychology degree. I support Villanueva and I feel he has done an outstanding job of supporting truth. I agree with his opinion regarding the act of firing his employees, it would be detrimental to public safety.</p> <p>To address Agenda#18, I strongly oppose it. 18K employees should not lose their jobs, nor should they be segregated and discriminated against. Most of us have been on the frontlines combatting this crisis, fighting and surviving our own Covid infections acquired at work. We have proven natural immunity. After 5 months of waiting to hear about exemption results, we have heard absolutely nothing. Yet we had time constraints regarding submitting them.</p> <p>We have been punitively reassigned which has resulted in schedule changes affecting our family and medical needs, forced to use sick time since we have no week days off to attend doctors appointments. Our schedules have been rearranged so that we receive less money, removing all over time and shift differential pay.</p> <p>LA county has clearly made this political, it's not about health at all. We sit in a classroom while CHS has the entire facility come into that very room to collect gift bags and free lunches. Inmates are not forced to mask or be vaccinated, nor are other personnel within our own facility.</p> <p>I went an entire month without pay, illegally and without good reason. Likely, as another form of punishment. I would like it addressed. I contacted the union, EEOC and the Labor Board. There is a grievance meeting pending.</p> <p>Covid is no longer a state of emergency or a health crisis. Studies from Israel have proven natural immunity is 6 time greater protection than vaccinations. When will true medical science be recognized? Mandates are not laws. Creating and then forcing a new policy on employees for chemical rape is unconstitutional. This virus has a 99.8% survival rate. Israel National News headlined yesterday data indicating 80% of serious Covid Cases are within fully vaccinated patients. We need to remove all mandates for EVERYONE, not just the vaccinated. This is discrimination and violates the Constitution. I/We (this group being discriminated against) represent a large community and will watch how you vote and consider it when we vote in the future.</p>
			Lana Riley	
			Lance Kelly	This is an abuse of power designed to fire the unvaccinated. The mandates need to end and employees allowed to make their own medical decisions. Quit this socialist/Communist madness and let's get back to a true American normal based on individual freedoms.

			Lashawn Latrice	
			Latesha Knight	
			Laticia Merrell	If you enforce this you are taking away people's liberty and freedom to choose what to put into their bodies. This will impact the citizens of Los Angeles by making it more difficult to be seen in hospitals due to low staffing and help in time of need (police department and fire department)! These men and women have been hero's and on the front line helping and supporting us! Please do not strip them of their rights and hurt the rest of us by doing so! NO on Agenda #18!
			Laura Chenelia	
			Laura Chiate	
			Laura F	Please let all employees work. The vaccine does not prevent transmission or contraction. Please let employees keep their jobs, without repercussion!
			Laura Finn	I strongly oppose item 18. The firing of unvaccinated sheriff deputies is far more dangerous than leaving them on duty. Crime has skyrocketed. How dare the city council propose such an action which will put US, the tax paying public, in greater harm's way. Especially while council members and high ranking officials enjoy armed security. Talk about disconnected and tone deaf. Additionally, these unvaccinated deputies and county employees will no doubt pursue legal action, further wasting taxpayer money. Do not waste my taxes by firing trained deputies, or ANY county employee for that matter. Thanks to the city council, mayor and DA, I'm far more likely to be a VICTIM of a crime than catching COVID. Lastly, I would like to take a moment of silence for Mr. Robert Mosca, who holds the distinction of first murder of 2022, only one hour and thirty-five minutes into the new year. Unfortunately, he will not be able to celebrate a birthday this year.
			Laura Frazier	We need our first responders to respond way more than we need them vaccinated with a vaccine that doesn't even prevent spread. This is madness. If my house is on fire I do not care if the people who come to help have chosen to take the vaccine or not. I care if they show up—which is much harder for them to do if there are fewer of them.

Agenda #	Relate To	Position	Name	Comments
			Laura Javier	END THE MANDATES! You are threatening peoples livelihoods as well as the public's well-being. The unvaccinated test weekly, the vaccinated do not. The vaccinated can come to work (in healthcare) while sick! While healthy unvaccinated workers can't help patients. END THIS NONSENSE! Do you hate us? Please. End the mandates. Both vaccinated and not can get sick and transmit. If you get 100% compliance, people will still get Covid. Follow the science! Look at Gibraltar. You are playing with Los Angelenos lives. We beg you to end the mandates for County workers and stop burdening LA County residents! We'd rather be helped by an unvaccinated worker than a Covid positive vaccinated worker!!!!
			Laura Leon	By firing so many first responders you are making an already volatile and unsafe environment for residents worse. Think of the residents whose best interest you need to uphold before your own.
			Laura Lott Fuson	I vehemently oppose Agenda Item #18. It is inhuman and heartless to consider terminating dedicated first responders for not getting a vaccine that should be a personal choice. These people were out on the frontline when there was a perceived threat of harm. Passing this would be a gross abuse of power. Ask yourself who will come to your house if it is robbed or on fire.
			Laura Machado	People have a right over their own body!
			Laura McCann	
			Laura Paulescu	Review 2008 ACLU "Pandemic Preparedness" document here: aclu.org/sites/default/files/pdfs/privacy/pemic_report.pdf "The all-hazards (one-size-fits-all) approach fails to take into account essential specifics of the nature of the virus or bacteria, how it is transmitted, and whether infection can be prevented or treated. Following this flawed logic, several state-based proposals have sought to address any "public health emergency," ignored effective steps that states could take to mitigate an epidemic, such as reinvigorating their public health infrastructure, and instead resorted to punitive, police-state tactics, such as forced examinations, vaccination and treatment, and criminal sanctions for those individuals who did not follow the rules.? The notion that we must "trade liberty for security" is both false and dangerous. It is false because coercive actions are seldom conducive to public health protection. It is dangerous because it provides a never-ending justification for the suppression of civil liberties while failing to safeguard public health.?" Vaccination against COVID-19 does not stop transmission, and should therefore be a personal health decision. It is essential for us to protect that medical right and not seek to "discipline" or punish those who do not choose to receive a COVID-19 vaccine.

			Laura Roper	You all better think long and hard before voting yes on agenda 18. The repercussions will be enormous and you will not be on the right side of history.
			Laura Rubalcaba	I urge you to oppose this policy. The injections have not been able to to what it was intended to do. 1st. Was stop infection from COVID-19, then it was reduce hospitalization which it hasn't. It already causes heart issues in many young boys and girls. Information is on VAERS. You are violating Numburg on injections that are being experimented on children. Thank you for your time.
			Laura Twiss	
			Laura M Velazquez	
			Laurel Evans	
			Lauren Eden	The vaccine has proven it cannot prevent illness from Covid 19. How is discipline for the unvaccinated justified? Hospitalizations and deaths are extremely low. Where is the sense? This coercion is shameful.
			Lauren Garcia	
			Lauren Natividad	STRONGLY!! Oppose.
			Lauren Roubian	Do not fire front line workers. The county is already falling apart and this will only make things worse. The rest of the country is thriving without mandates but LA refuses to wake up and do what is best for its citizens. Firing workers is the worst possible option. Imagine the lawsuits that will be coming your way if you pass this. Imagine the higher amounts of crime if you pass this. Completely wrong on all levels. Please do what is right and vote no on #18.
			Lauren Zummo	Is anyone paying any attention to what's going on in the world? This covid vaccine doesn't prevent transmission or infection so this mandate is pointless! Countries all over the world are beginning to drop all their mandates as data is coming in from the UK and Scotland and others that this vaccine is doing more harm than good. How could this board and county be so out of touch that you are considering terminating 18k employees over this useless and dangerous shot? Please get a clue and reject this mandate. I truly believe this is approaching career suicide and YOUR jobs are on the line if you do not open your eyes to what is happening in the world right now.
			Lauren M Ruelas	My body my choice !! Where there is Risk there must be choice !
			Laurie Cali

			Laurie Gutierrez	I am writing to strongly oppose this policy. You have NO RIGHT to tell anyone or force anyone to do or take something against there will. How dare you threaten a person's livelihood just because of what they will or won't do. Some of the people who don't want this vaccine have been an employee of LA for a very long time, some are single parents, some are taking care of there parents. This has got to stop you have forced your hand way to much and the time to loosen up is now. I'm not sure why, after so much evidence is coming out, not only in the US but other countries as well, that these injections DO NOT WORK. They DO NOT STOP hospitalizations, they DO NOT STOP transmission. THEY DONT WORK. Do your research, open your minds to looking out of your comfort zones and talk to people you normally wouldn't. You will see that there not so bad and they won't bite. We need to get back to a place where both sides can talk again. Those were good days I miss those days. Please for the Love of God, do NOT FORCE any employee or person to decide JAB OR JOB.. Thank you for listening.
			Laurie Henry	
			Laurie Kline	
			Laverne Schumacher	
			Lawrence Gallagher	I oppose the motion to fire the unvaccinated. It is illogical and will create a public safety crisis that will result in harm and death to the citizens of the county. Stop this foolishness.
			Layla Jasco	We oppose this 100 times over we need our police vaxxed or not. The vax doesn't protect you from dying of covid nor does it stop you from transmitting. So please don't fire anyone for not choosing this medical procedure that has no long term studies
			LC Chen	I am fully vaxxed and boosted. Please stop all mandates and restrictions on the unvaccinated. This policy will disproportionately harm our Black and Brown residents who are the lowest vaxxed groups in the County, per LACoDPH. This is not the way to convince people to become vaccinated and people should have a right to choose what they do with their own bodies. As a vaxxed/boosted person, I do not need to fear those who are unvaccinated because I know I am protected. We need a return to normal We need to stop these divisive and ineffective tactics. Please stop politicizing this issue.

			Leah Childers	You should NOT fire (or feel comfortable) firing others because of their health choices. Some have had Covid, some have religious reasons & some have health reasons that make the vaccines dangerous for them. This is wrong. Please don't fire your fellow Americans.
			Leah Simpson	I support freedom of choice. I am both vaccinated and boosted. But I chose to be. These first responders deserve the right to choose what they put in their bodies!
			Leah Wissink	No!!! We all have the right to bodily autonomy.
			Lee Jose	
			Lee Lizotte	
			Lee Ann Schertz	Absolutely not.
			LEEANNE CLOKEY	NO to ALL MANDATES! It's unconstitutional!!! Our Country needs to go after the criminals that released this biological weapon and hold them responsible. Not take away the RIGHTS of the PEOPLE!
			Leigh-Anne Alexander	
			Lena G Lopez	These shots don't work. I just moved to LA CA from the east coast. And I'm seeing that maybe some LA politicians seems to have a death wish for us. These vaccines don't stop COVID or transmission. So why are we getting rid of our 1st responders? Terrible idea.
			Lenore Schroeter	
			Leo Garcia	Support our heroes
			Leo Martinez	
			Leo Miranda	
			Leo M Salazar	
			Leonard Martinez	
			Leroy Jackson	
			Les Taller	The Director of the CDC, Rochelle Walensky, has stated on numerous occasions that ANYONE can spread the Covid 19 Virus and it's variants REGARDLESS of their vaccination status. That's the reason EVERYONE is wearing masks in public settings. Terminating or punishing county employees who don't wish to get vaccines are unnecessary and completely illogical. Moreover, if this order is implemented, it will expose the county to enormous financial liability stemming from class action lawsuits and other litigation.

			Liani K	As an LA County resident who is not vaccinated I am appalled that the Board of Supervisors is even considering firing unvaccinated employees. Bodily autonomy is so important and it should be up to an individual person to decide what they want to do with their body, not the government and not the Board of Supervisors. These vaccines are still under clinical trials, so why are you guys trying to force them onto LA County employees. I have seen and heard of so many people injured and killed from these vaccines, as per VAERS with over a million adverse reactions from the vaccines. So where is the logic and science with forcing this onto people, it should be up to individual choice. People should not have their jobs taken from them for not wanting a shot. Countries like Israel and Gibraltar have some of the highest vaccination rates in the world, yet they have the most cases ever. Vaccines are not the answer to this, since this shows that it clearly doesn't work. Mandates have no place in a free society, and if this is voted through the people of LA County will not forget those who voted for this evil and vote them out.
			Liberty J Ramos	
			Lidia C	
			Lila Davis

Name	Comments		
Lilith M Haas	These so called 'vaccines are a total failure and cause more harm than benefit. We have a year of data now proving that these new experimental mRNA shots are causing severe adverse reactions, disabilities and fatalities. The all cause mortality is up for 2021 from 40 to 100%. These shots should not be mandated, but stopped immediately. Anyone who advocates them, as this Board seems recklessly willing to do, will probably be held legally responsible for the wrongful termination of employees or medical expenses of those forced to get these shots in future lawsuits. Open our county, stop these harmful restrictions and let us all heal & get back to normal. Thank You		
Lily Man	Your acts are unconstitutional and ridiculous. Your threats and harassment of hard working public workers and first responders are out of control. We no longer can tolerate your non sense bureaucracy and malicious acts. This item cannot be even discussed.		
Lily Muntean			
Lina Valencia	Dear BOS, it's wrong to discipline or terminate anyone over a medical choice. This is a private decision between a person and their doctor or family. We don't have a vaccine that stops spread or transmission so why would we fire first responders or county workers? We know natural immunity is strong. We know there are medicines and precautions people can take to avoid getting sick. So please respect the employees choice to make their own medical decision. Thank you.		
Lina Vie			
Linda Cangelosi	Please consider the damage to public safety if this policy is enacted. The science does not support this position. Naturally acquired immunity must be considered. Firemen, sheriffs, healthcare workers are the fabric that holds our society together. This cannot be undone once enacted. I respectfully request you reconsider this position, thank you		
Linda Chaman	It is unconscionable that this is even up for discussion. Please stop this corruption.		
linda Davaris	Do NOT fire these employees. We need them, and there are not enough trained experienced personal to replace them. Furthermore at this point everyone should not be worried about what others do. We have treatments available. The shot shot be a personal choice not a mandate to continue working.		
Linda Desrosiers	Lift the mandate. Get rid of Gascon. He supports the criminals, not the victims. Join the RECALL OF GASCON!		
Linda Elihu			
Linda Kenoyer			
Linda Montana

			Lisa Corbett	These men and women were there for us when we needed them. Please Don't take away their right to make medical choices. We can't lose all these experienced people. Politics aside, we now know they are not spreading covid.
			Lisa Dabovich	Do not terminate our heros!!!! Our city is already under chaos and distress and you want to fire them?? Heartless! They were there for us and now it's time to support them!! Allow for weekly testing?? To terminate is evil. If your family member was being terminated...how would you feel? Thank you and I pray you reconsider.
			Lisa Dabovich	Listening to my fellow Angelinos regarding items 2 & 18 speak with such passion and heart has been so powerful and sends chills up & down my spine and only makes me stand even more firmly in my beliefs. Item 18: As for our City and County employees – during 2020 and into 2021 and now, these hard working individuals showed up day in and day out to protect & service our City – while we were “safe” in the confines of our home offices, they were out doing their job. Can't catch a bad guy, keep our streets clean or put out a fire from a home office! They showed up and now their fate is in your hands – disgusting to think you want to terminate them because they are refusing to get vaccinated. These are healthy strong many young individuals....many have already had covid. Let the workers work. These are our heroes....remember?!! Heroes one day and now there are being painted as grandma killers and selfish individuals because they won't do as you say. It's tyranny....I think you need to look up the meaning of the word to remind yourself of what is taking place here. What happened to taking weekly tests? Our city is already in a state of chaos and under distress; don't make it worse. Something to think about....in the 90 minutes that I was on hold to speak; not 1 person spoke in favor of Item 2 or 18. Doesn't that say something?!! DO THE RIGHT THING.
			Lisa Hannifin	
			Lisa Hebert	I oppose any further action against unvaccinated employees of the county of Los Angeles. They've been able to perform their job duties to the full extend of what's required without the vaccine. Their colleagues whom are vaccinated have been no more healthy, in fact it has not stopped them from contracting or transmitting the virus. Stop the ridiculous mandates now and let these public servants go back to their jobs caring for the communities they serve without the worry of losing their jobs. Stop the discrimination now.

Agenda #	Relate To	Position	Name	Comments
			Lisa Hennessy	Everyone can get covid and everyone can spread covid, regardless of vaccination status. Why would you enforce a vaccine policy if the shots don't prevent you from getting covid or spreading it? If the shots DID work, those who are vaccinated would be protected, so there would STILL be no need to force others to take it. We worked through the pandemic and most of us already had covid. We know there are treatments that work and we don't live in fear. Why do you continue to push policies that don't work? We are already short-staffed. How does firing law enforcement and fire personnel help LA County residents? Make it make sense!
			Lisa Howard	NO MANDATES. You cannot legally force people to take part in a medical experiment. Omicron evades the vaccine. The vaccine fades too quickly to be an effective public policy measure. Vaccinated people get and spread covid just like the unvaccinated. STOP with the firings and discipline.
			Lisa Kalnas	I'm afraid to even walk my dog alone at anytime and you want to get rid of more deputies? It's a crime in this city has risen so much we cannot afford to lose anymore Deputies!! And I'm tired of hearing gunshots all the time and I live in a very nice neighborhood!!!
			Lisa Mann	
			Lisa Nichols	
			Lisa OBrien	The Supreme Court of this nation struck down mandatory vaccination, they are proving to be ineffective against new variants and we are past the point of needing this. Natural immunity and a mostly vaccinated population is adequate. Stop bringing policy to the table that is immoral, illegal and dangerous, jeopardizing thousands of county workers who's services we need! Mandatory vaccination, especially of an experimental drug, as the approved drug isn't available for use to the public, is immoral, dangerous and will put YOU on the wrong side of history. I pray God implores you to make the right choice!
			lisa ortega	This will put an undue hardship on our law enforcement, health , mental health departments and put all la county resident in danger.
			Lisa Pike

			Lisa Sendewicz	In light of the COVID 19, the science does not support the fact that unvaccinated people are spreading this virus any more than anyone who is vaccinated. We do not have enough health care workers, first responders, law enforcement, fire fighters etc., as it is right now. You are putting the people of Los Angeles County in jepordy by even thinking you will remove 18,000 people who are not vaccinated. We elected you to follow the law NOT A MANDATE WHICH IS NOT LAW. We elected you to keep us safe, this will not be the case if you dismiss these people. You will have death and blood on your hands when emergencies cannot be addressed. If we have an earthquake, you will have death on your hands their will not be enough responders to assist. If there is a riot, you will and don't have enough police officers to handle the situation. It's time you get back to working for ALL the people of Los Angeles not just the woke side or the sheep side.
			Lisa Simmons	Let our fireman work and do away with these ridiculous Covid restrictions. Its over. Stop trying to hold onto power using Covid as your excuse.
			Lisa Thornton	
			Lisa Vasquez	
			Lisa Wirsig	The proposed amendment to the Los Angeles County Code to enhance Covid-19 vaccine compliance is unscientific and unethical. Policies and their enforcement and compliance mechanisms should be based on a careful weighing of costs and benefits, balancing of civil liberties, responsibilities, individual rights, ethical principles, and the least restrictive principle, or the idea that the least restrictive method to achieve a given aim should be chosen over alternative methods that seek the same aim but are more restrictive, as the more restrictive a policy or method is, the more likely it is to have more and greater negative consequences that outweigh any potential benefit. In this case, the proposed amendment does not acceptably satisfy any of these criteria, as supported by evidence attached, thus it should be rejected.
			Lisa A Carter	
			Lisa L DeSon	Wthecck are you thinking? No. Undermine your service staff for what purpose? They are SERVING YOU. SUPPORT THEM. Stop stripping Them or their rights.
			Lisa M Chavez	This is grossly unconstitutional and EVERY politician receiving monies to enforce these illegal policies from any of the 3 companies making these"vaccines" need to be arrested, tried and sentenced to prison for corruption.
			Lise M Biggerstaff	Stop the mandate now. Personal choice, medical freedom and religious freedom. Do not fire your employees for vaccine mandate. You will cost the city and county so much money. Stop the madness. The Governor state and county officials ruining lives. It's not based on science.

			Lisel Quijas	
			Lisette Larez	No more masks no more lockdowns
			Lisha Palomino	This should be a personal choice. You should not have this much control over someone's livelihood. Crime rate has skyrocketed and we need all hands on deck. Same with healthcare workers, you're pushing away the people we need most as a community. You're hurting this community by asking for this much power over peoples lives.
			Lissa Chesnoff	
			Liviu Lee Muntean	Violation of our freedom liberties.
			Liz Bates	Discrimination against unvaxed people is against the law Ample evidence exists now that vaccine doesnt protect one from covid and, indeed, causes many adverse effects. With survivability at 99% for a majority of the population, there shouldnt even be an wmergency order or an EUA. Vote no on 18, teeminating unvaxes employees!
			Liz Howard	
			Liz Kozakowski	How do these five people have the right to tell people whether they need to be vaxed or not? In December of 2021 everyone that I knew who had covid were all vaxed except for one person! What's wrong with that picture? Stop trying to take away our freedom of choice. We should disband the board of supervisors and leave it to the people to choose what we want and don't want to do. Fire all of them!!!
			Liz Krueger	
			Liz Ocampo	
			Liz Verduxco	Stop the mandates
			Liz Weick	
			Liza F Alcantar	Please do not let go of your employees due to them not being vaccinated. They were heros at the beginning of the pandemic and now they are not good enough. The vaccinated staff are still getting sick because this vaccination doesn't not protect anyone. Follow the science, natural immunity is better then any vaccines that is man made. Please I need this job to support my family. I am a hero!
			Lizet Lopez	Shouldn't be mandated to get a vaccine for a virus with high recovery rate. Those who want it can have it those who don't shouldn't be forced.
			Lizet Velazquez	
			Lizette Rodriguez

			Lori Noel	Do you all remember when this was not going to be forced on anyone??? And now, all of that has been reversed and people are being pressured into compliance due to the fact it will destroy their livelihoods, ability to provide for their families, and their physical and emotional well-being. There has been so much anxiety which is known to affect present and long term health. This should be a personal choice. Other places are lifting mandates and I can only hope that will be the case here. We are not repressive like other totalitarian countries. We are a free nation and our government entities need to start acting like it. We also can not afford to lose that many employees. There are already many who have fled and shortages abound. Please oppose the amendment.
			Lori Quirk	
			Lori Saldana	
			Lori Whitcomb	The vax does not prevent transmission or spread, nullifying mandates. You are destroying people's lives if you pass this.
			Lori D Carrizosa	
			Lorraine Torsney	Should not be within your reach
			Louis Creten	The vaccine is not working and if you fire these employees you are only hurting the citizens of LA County
			Louise Cernansky	Repeal vaccine mandate. Illegal.
			LOUISE T SAADIAN	
			Luann Larkin	Medical autonomy must be upheld. These hero's served when it was unknown to protect us, now we know the facts and data. Each individual should be able to consult their physician and make the best decision for themselves.
			Lucas Kimble	Violation of my constitutional rights
			Lucia Francisco	
			Lucy Camello	
			Lucy F	Please follow the science. There should be no covid-19 vaccination policy, since everyone can transmit and contract Covid. Thank you.
			Lucy Parker

			Lusine M	I wanted to express my deep concern regarding the unfair decision to terminate 18000 great County employees who were deemed heroes just a year ago. These people participated in exams, got hired, gained experience and risked their lives in the middle of a pandemic to serve their communities. This decision will have a devastating impact not only on these 18000 people and their families, who have already suffered under the pressure of the pandemic economically, mentally and psychologically, but this will also negatively impact the communities you were elected to serve. The County already experiences severe staff shortages in most of the departments affecting public health and safety, so by terminating these employees, you will create a bigger gap which will take years and millions of taxpayers' dollars to fill. Clearly, the consequences of your decision will outweigh the benefits, especially taking into account that the termination will be over a vaccine which has proven to be ineffective in preventing the spread of the virus and has, in fact, made people more susceptible to other illnesses. You have already violated employees' rights by discriminating the unvaccinated employees and making them get tested weekly when, in fact, we all know that both vaccinated and unvaccinated people can get and spread Covid. So I am urging you to stop these discriminatory practices and make a positive change for your constituents. Instead of using your power to enforce politically motivated decisions, use it to the benefit of all LA County people you were elected and are getting paid to serve.
			Lusine M	If you get sued for your decisions, you should pay out of your own pockets so you learn next time to be responsible instead of wasting County's money... So crazy.... All these great County employees took exams, had interviews, got the job, had various trainings, gained experience, risked their lives many times serving the public to be later terminated by this incompetent board of supervisors over a vaccine that doesn't even work but makes people more susceptible to various other illnesses. The board must have a share from these pharmaceutical companies to be so motivated to use their power to enforce it!
			Luz Beas	
			Luz Padilla	
			Luz Palacio

Agenda #	Relate To	Position	The following individuals submitted comments on agenda item:	
			Name	Comments
			Lydia Barillas	I am an LA County voter and oppose to the LA County Code to Enhance Compliance with and Enforcement of the County's Covid-19 Vaccination Policy. With the rise in crime, releasing public service officers would be a disservice to LA County Residents. I will be monitoring the outcome of this policy and will vote accordingly on the next election.
			Lydia Law	
			Lydia McMains	
			Lydia Medina	Please reconsider the termination of county employees. Our city depends on our local sheriff's and fire departments and all other personnel. Such eliminations of personnel would greatly impact the safety of citizens in all areas. Please consider the consequences of these decisions and the livelihood of the every person affected because of your vote today. Thank you.
			Lydia Runkle	This is corruption. Coercion does not equal choice. I oppose this firmly! The BOS does not and should not have the authority to do this!
			Lynda Balcorta	
			Lynda Whitney	A YES vote on this would create more harm than any COVID exposure. COVID numbers are going DOWN. This board would be penalizing the very people who were first responders when this county was a Covid disaster. Do you seriously want to exchange the COVID nightmare for a criminal nightmare? The repercussions will be much higher if you vote yes. Vote No! Reminder: you are representing the citizens who voted you into office. I, for one, will be making note of the voting - I'm quite sure I'm not the only one. Vote No!
			Lyndsay McAngus	I opposed this matter! The rights should stay within the departments.
			Lynette Ann	This county is not safe. Lets focus on crime and not the unvaccinated law and fire heroes in la county. Most of them have had covid and have natural immunity. The vaccine doesnt keep them from catching or transmitting covid. Body autonomy matters. End the mandates. It is a sad time when california is way behind other states and la county is not following the available and irrefutable facts. Stop or you will not be on the right side of history.
			Lynette Hinman	"Our body, our choice" there was no vaccine when the pandemic started and our Los Angeles county healthcare workers, police and firefighters worked overtime to do their jobs and keep us healthy and safe.
			Lynette Marcia

Agenda #	Relate To	Position	The following individuals submitted comments on agenda item:	
			Name	Comments
			Lynn Crosier	I vehemently oppose the firing of employees due to their personal medical decision not to take an invasive medical product being called a "vaccine". This is a tyrannical move that stomps on personal medical freedom. The board needs to educate themselves on the Constitution as well as the REAL science & reality of what these injections are doing to people on a grand scale. Listen to the 5 hrs of testimony given at the Senate hearing hosted by Sen. Ron Johnson recently. America is a FREE COUNTRY!! Act like it!!!
			Lynn Sansone	As we continue to understand the nature of this long term illness and options for treatment and natural immunity . I am tremendously opposed to requiring vaccination . It is a personal right ... to choose and false to mandate . I support Law Enforcement and our Sheriff
			Lynn D Trevino	
			Lynne Bodge	
			Lynnette Robb	Stop the mandates
			Lyudmila Grigoryan	
			M J	
			M W	
			M W	This is a cruel attempt to get people to oblige themselves with your personal beliefs. It will only cause people to lose faith in you, and you will have the lives of those who will suffer from the increased crime to contemplate as you try to sleep at night.
			Mackenna Vegh	
			Madalina M Lapustea	
			Madeline Klovstad	I absolutely oppose this agenda item. The vaccine has yet to be tested properly and it is injuring professional athletes and children every day. Myocarditis and pericarditis are not reversible. Please do not enforce this policy
			Madeline Thompson	
			Madison Lee	Crime is so out of control, please do not do this. The safety of our children would be so compromised.
			Madison Matz	Every station will shut down over this decision. VACCINATED CAN STILL SPREAD THE VIRUS. Let people stand for medical freedom.
			Madison Mead

			Manuel A Estrada	I was not able to speak during the public speaking section as the 90 minutes ended. I strongly oppose motion #18. The front line heroes (including our Deputies, fire, & health care workers) of LA County that protect & serve us and were there all during this pandemic should not be forced to receive a medical intervention/shot in their bodies with a biological agent they do not want. This should be a personal health care decision that is not forced or mandated. Loosing more deputies and first responders would create even more chaos, crime and lack of essential services in our county. I support our Sherriff's - Mr. Villanueva's position on item 18. Please see the recent findings in the John Hopkins study that stated the mandates are not working to help prevent spread of the Covid virus. This proposed motion is completely unconstitutional and is detrimental to the County & City citizens you are paid to represent and protect. Please carefully check the data, your conscience and do the right thing.

Los Angeles County Board of Supervisors

Re: Covid19 Vaccine Mandates and Item Numbers 2, 18, and
Public Comment on Today's Agenda for your Meeting Today

Dear Los Angeles County Board of Supervisors:

We are Los Angeles County residents. We oppose the Covid19 vaccine and mask mandates, and it is our duty to let you know. With respect to Items numbers 2, 18, and public comment on your agenda for today's meeting before you, please do not force or vaccines on the children, the Sheriff department, other first responders, or any other person. The Covid19 vaccine and mask mandates are Unconstitutional, at both the Federal and State levels. Please protect our children and the public and vote against Items 2 and 18.

We ask that the Board of Supervisors not impose the Covid19 vaccine mandates against anyone, including the children in schools. The three "vaccines" that are currently available in the United States are the Pfizer, Moderna, and Johnson & Johnson (J&J) injections. People, including children, may have severe adverse reactions after being injected with the Covid19 vaccines being coerced by your mandates. The CDC VAERS website lists hundreds of thousands of severe adverse reactions in the U.S. after people have been injected with the Covid19 vaccine, including thousands of deaths and permanent disabilities, yet you fail to let the public know. We have searched the CDC VAERS website in November 2021 for permanent disability and learned that as of November 5, 2021, the severe adverse reactions were listed on approximately 393 pages. Some of the doctors speaking out about the severe adverse reactions include Dr. Peter McCullough, Dr. Robert Malone, Dr. Carrie Madej, Dr. Christiane Northrup, Dr. Sherri Tenpenny, Dr. Lee Merritt, Dr. Zev Zelenko, Dr. Larry Palevsky, Dr. Stella Immanuel, etc. Have you not heard of the young, healthy boys who have acquired heart injuries after receiving the Covid19 vaccines?

Where you are considering mandating the Covid19 injections into children and adults, it is imperative that you disclose all of the ingredients in the Pfizer, Moderna, and J&J injections and the potential severe adverse reactions, so that the parents of the children in our schools may be able to say "yes" or "no" to the Covid19 injections. You, as government representatives, are not providing the children and/or their parents with informed consent when you are coercing them into getting the Covid19 injections without informing them of every single ingredient in the Covid19 vials and the potential severe adverse reactions, which include death and permanent disability. If you are unable to fulfill your government responsibilities because you are afraid of other government officials, then please step down from your position. As government actors, you must be able to protect our children and the public.

Recently, doctors and scientists in the U.S. and other parts of the world have been studying the contents of the Pfizer, Moderna, and J&J vaccine vials, and the poison in the vaccine vials is being disclosed to the public by these doctors and scientists. These doctors and scientists are speaking about the contents of the shots, such as aborted human fetal cell tissues, parasites (which may be a hybrid of gene-altered and non-gene altered hydra vulgaris and/or other parasites), graphene oxide, graphene hydroxide, etc. In addition, last year, a Pfizer whistleblower in Kansas leaked emails demonstrating that human embryonic kidney cells were used in the Pfizer vaccine testing, which was not being disclosed to the public.

In August 2021 and September 2021, we sent emails and faxes to you asking questions about the Covid19 vaccines and letting you know that we oppose Covid vaccine mandates. You did not respond. If you are mandating the Covid vaccines and masks, then you should know all of the ingredients in the Covid injections and the harms from the vaccine ingredients and masks.

The vaccine mandates are against our U.S. Constitution, including the Bill of Rights, against our California Constitution, and against our inalienable God-given, human rights, among other things. If a person does not want the vaccine poison injected into him or her self or their children, then the person should be able to say, "no."

Maria Mejia called the public comment number on your agenda today, a county representative asked her for her name, the items she was speaking on, and whether she was in favor or opposed to the items. Ms. Mejia told the representative that she was speaking on items 2 and 18 and that she was opposed to them. After being on hold for over 1 hour, the county suddenly closed public comments and stated we could submit the comments in writing. Ms. Mejia was not allowed to speak or submit her verbal comments. This is a violation of our due process, both procedurally and substantively, including a fair hearing and the opportunity to be heard.

We applaud Sheriff Alex Villanueva for giving people a choice regarding the Covid19 injections, trying to preserve our Constitutional rights, and speaking out against your tyrannical mandates.

Thank you for your time and attention.

Sincerely,

Maria Mejia
Oscar Mejia

Maria Navarro	Freedom of Choice this is America! Our city will perish if you fire those against the mandate!!
Maria Negrete	Force does not suit well in a democratic country, people honestly do have religious beliefs that should be respected, others are seeking the right to informed consent. The truth is that the idea that 100% vaccination will stop Covid is incorrect if we want to move forward as a county, state, and country is time to admit that the vaccine is not the answer since it does not stop transmission stop coercing people into vaccination. Vaccination may be use as a layer of protection for those that wish to take it because it is their right to do so as it is peoples right not to take, you are not dictators you live in a democratic country. There are many families that will be severe impacted by this decision. Please I ask that you take into consideration that thousands of people will be left without employment, you should not threatened people with their jobs that is not right, everyone should have a choice as to what goes in their body. 18k jobs at risk, people are being punish for exercising what this country represents freedom, freedom of informed consent, medical freedom, and freedom of religion.
Maria Ponce	
Maria Reynoso	
Maria Romero	
Maria Ross	
Maria Saenz	
Maria Sanchez	It should be everyone's choice whether or not to get vaccinated. I can understand it if getting vaccinated proves you won't get Covid, that you won't have a severe case of Covid, that you won't die from Covid, but it hasn't been proven. Folks that have been vaccinated are still getting it, and are still dying from it. Should people become disabled, partially disabled, or die from the vax, are you the BOS going to be responsible for the medical bills, the funeral, their families? Its sad what you are doing to the county by supporting division and medical tyranny, and for what money and control.
Maria Stubbs	
Maria Walters	
Maria Walters	Strongly oppose!
Maria A Salom	You should be ashamed! The same people that were our HEROS prior to your agenda are now pending termination. You are discriminating and dividing our country. This discrimination will bring lawsuits and the downfall of our community. Also your Termination and/or NOT re-election! Masking / Vaccination has become Your Political agenda Not a Public Benefit. Who are you working for? Not US.

mark S wall	Their body their choice. Get the vaccine if you want. If you don't want it, that is your choice. The supreme court has ruled against mandatory vaccines for all but medical workers. Which segregating medical workers is not fair at all. My daughter is pro vacation and is suffering a very bad reaction to the booster shot. When she went to see her doctor the doctor said she had the same reaction and it has taken over 2 months to start getting better. I also had a healthy man drop dead at work. So I am very opposed to mandatory vaccines for covid.
Mark W Chavez	
Marlas Morgan	STRONGLY Oppose
Marlene Widawer	LA County employees must NOT be fired for not choosing to take the Covid vaccine. The vaccine does not prevent the spread of Covid. It should remain a personal choice of the employee. This is bad policy and we cannot afford to lose so many employees, ESPECIALLY in the Sheriffs department.
Marlyn Garcia	Highly oppose as it would burden other workers with more clients and cases to handle. Clients are already expressing that their cases are not being tended to timely due to staffing shortages and firing workers unnecessarily would make matters worse.
Marshall Lawrence	
Marta Guzman	In the beginning of this pandemic health workers, government employees, and other frontline workers provided services to their communities without being vaccinated. Since then, many of them have contracted covid-19, recovered, and developed natural immunity which is proven to be more effective than the protection offered through the Covid-19 vaccines. The covid 19 vaccines have not prevented anyone from contracting Covid-19 as we were ones told(See lasting immunity PDF attachment).Like any human being ,service workers have the right to decide whether or not they want to participate in this experimental treatment. As we now know, the side affects of the covid-19 vaccine are irreversible. We already have a compromised health system that cannot afford more long term patients. In order for our communities to thrive we need to respect each other. Many of us have lost vaccinated and unvaccinated loved ones. We know the vaccine is not the solution.It takes years of research to truly understand a disease and its treatments. Terminating 18k employees for choosing not to accept an experimental vaccine will only cause danger to our communities and cause the malfunctioning of our local and state institutions. Many of these workers have moral values that go against the nature of the fetal cell lines used in the making of the Covid-vaccine as is stated in the County Of Los Angeles Public Health document attached.There are numerous cases in Federal

	courts that indicate that the states have no authority over such mandates nor do their institutions .(See CMS attachment.) I urge you to please consider all the affects that voting in favor of amending the LA county code to enhance compliance will cause to many families that need the economic support of their parents, our front-line workers.
Marta S Singleton	
MARTHA AGUILERA	ITEM 2-End all mandates. There is no reason to have them. Freedom of choice, freedom of making your own medical decisions for yourself and your child- medical autonomy and informed consent are a part of our Constitution. There IS NO STATE OF EMERGENCY, AS CLEARLY INDICATED BY THOSE WHO enforce it. The blatant hypocrisy isn't unusual for politicians and is not the sole source for this argument. The FACT is that if these people all TRULY BELIEVED that this pandemic was so dangerous, and that is was truly in the interest of public health- they would not need to be reminded to follow these rules of their own. But because they have all of the information- they make an informed decision, accept the risk, and live their lives. We the parents, and the people have the same right to assess risks and choose. There is no state of emergency or the only football games getting canceled wouldn't be the ones at K/12 schools. There would be no superbowl-
Martha Elizarraras	My kids have dedicated over twenty years to Los Angeles County. Missing holidays, missing birthdays, missing special events. That was their choice going into the profession. Yes their CHOICE. Please continue to support freedom.
Martha Gamez	It is extremely unethical to put working Americans in such a position as they have served through the entire pandemic. These hard working men and women have a livelihood that is being threatened due to a complete disregard for actual accurate scientific information aka vaccinated people and the chances of them transmitting / also testing positive for Covid. Please do the right thing.
Martha Gorrindo	
Martha Martinez	People have dedicated their lives to their jobs and worked hard for years and this is how you want to pay them back by firing people? You should be ashamed of yourselves.
Martha Steele	# 18 Strongly Oppose I am a HR Professional. Never in my career have I seen this blatant discrimination against the new protected class, the unvaccinated. It is discriminating to term 18,000 LA County employees; police officers, sheriffs, fire fighters, doctors, nurses, educators and many others. The vaccine mandate is unconstitutional and the Supreme Court spoke. What you are doing is unconstitutional. Period. In addition, the vaccinated and unvaccinated get this dwindling Omnicron variant, flu. It will be the downfall of LA County and the countless services this men and women provide. Lawsuits will come you way.

Matteo Hernandez	
Matthew Beauregard	
Matthew Cinquanta	It is obvious to any reasonable person of sound mind that an approval by the BOS to amend this code would be disastrous to the Health and Safety of all who reside in Los Angeles County, as well as the health, safety and livelihoods of those who actually are serving the public. A BOS approval of this agenda item will also serve as a very clear statement by the Board itself that the sole intention of it's members, knowingly and in their official capacity, IS to cause such disastrous harm to the Health and Safety of it's community and public servants of the LASD. I strongly urge the LA County Board of Supervisors to refrain from engaging in such insidious conduct.
Matthew Deagon	These men and women worked tirelessly for you during the deepest darkest parts of the pandemic. They served indiscriminately. They served regardless of color, creed, religion, sexual orientation, medical condition, and vaccination status. A lot of them contracted the virus stayed home took care of themselves and got right back in the fight. And now you want to discriminate them? Because you believe they are the lesser, they are not equal to the vaxxed, who still contract and spread the virus might I add. Please do the right thing and rethink your proposed plan. These people have families too.
Matthew Lane	
Matthew Malczynski	
Matthew McCall	
Matthew Prasch	Stop forcing the outcome you want. Stop with the mandates. Stop threatening.

Mayra Duarte	Unconstitutional. I am an AF veteran. I fought for freedom for each individual and this country. I did not enlist and go to Iraq for people to have their jobs threatened like this. Our heroes that put their life on the line when the pandemic and other emergency's such as riots and fires occur. They have been the first ones there. They did not retreat, without question, they went and did their job.
Mayra G Batalla-Casillas	
McKenna Braun	
Meadow C	This proposed amendment is immoral and unethical. Further there is no scientific support for forced or coerced medical treatments. These county workers pose no threat to public health, on the contrary this amendment would put our entire county in jeopardy by losing thousands of workers essential to keeping our communities safe and functioning properly. Please oppose this amendment.
Megan Berenbach	
Megan Costic	
Megan Deschamps	
Megan G	I am opposed to agenda item 18 and do not support the LA County employee vaccination policy. At the start of this, we praised, applauded and supported the numerous County employees that responded to our calls, whether it was for emergency aid or rendering some other type of service. Now because of a piece of paper, this Board wants to grant authority to the powers that be to 'discipline' those who do not comply with what you believe is just and fair. Is it right for you to uproot numerous employees who have been doing their duty on the job, regardless of their own vaccination status and the status of those they serve and help? Not only will you uproot the numerous employees, but you will set off a domino effect within the communities that these employees vow to serve and aid. These County employees have established and built a rapport amongst the residents, your constituents and the communities. To remove them from these areas would cause an incredible disservice to the community you claim to want to protect and preserve. At the start of this pandemic, these employees continued to work around the clock in call centers, vaccine pods, tending to clients and community members. They showed up. Let the County employees do their jobs, regardless of a piece of

	paper or belief, ideology, or principle. Because truth be told, they will show up time and time again for the community, because of the very principles and values that they hold dear and that which you seek to do away with, by granting this policy.
Megan Gibbons	
Megan Maestri	
Megan Marion	You would rather risk the safety of the public over a vaccine. You can still get and transmit covid while vaccinated . There is no reason to force your views on everyone. We are not safer by having our sheriffs and firefighters vaccinated. We are safer by funding them so they have the tools to do their jobs. I can't believe you guys are even debating this. So let's let criminals do what the want but strip our communities only protection.
Megan Martinez	Lunatics! You all scream "my body my choice" but force a shot that doesn't work on to people. It's PROVEN you can catch Covid still and you CAN pass it! Oh but it lessens symptoms, let ADULTS choose if they want symptoms "lessened." You are hosting the super bowl, leave people the heck alone!! And if all else fails, unvaccinated can just hold their breath like the wonderful mayor of LA. He did say ZERO transmission rate when you do that!!
Megan McCormick	
Megan Swanson	This is absolutely asinine. The board of supervisors has become a dictatorship. They should not have absolute rule over millions of people, their bodies, their health decisions. Each department has their own set of standards and should be able to enforce them as they see fit. If the Director of Personnel is given the authority to punish members of every department for this, where does it end. There will be no department autonomy, which is critical for each department. The vaccination shouldn't even be a mandate, there is no end in sight for the number of booster shots that will be required. You are signing people up for a lifetime of not making their OWN medical decisions.
Megan E McElroy	
Megan M Schultz	I'm vaccinated, but believe it should be a choice as we are a FREE country!
Meghan Simpson	
Meirav Goren	The vaccines are much less effective than originally believed. There is no reason to mandate a vaccine that does not prevent COVID infections nor does it stop transmission. If it is only somewhat effective at preventing hard illness it should be up to the individual to make their own risk assessment and decide whether they want to risk taking the shot or getting COVID. In any case, children should not be forced to be injected with a still experimental vaccine. It is not a disease that's dangerous to children. I want my children to be able to breathe without restrictive masks, I want them to have a normal life (not the "new normal"!), I do not want to be forced to vaccinate my children with a still-experimental vaccine, for a disease that doesn't pose any danger to them, with a vaccine that doesn't prevent

	<p>infections.</p> <p>??At what point will we realize here in Los Angeles that we got it wrong?? That we are the backwards ones?? Many many states and countries around the world are dropping mandates and re-strategizing to live with COVID since it's not going away (two weeks to flatten the curve, remember??).We need to look at the picture as a whole. How about the kids' mental health? Their social skills? Building their immune system? How many more suicides are there since the beginning of the pandemic? More than the death toll of COVID for that age group. We need normal life to resume. We need our children to be able to breathe and have normal childhood. One where it's ok to hug people, have birthday parties, go to school, meet friends and family, hug grandparents. Enough is enough!</p>
Melani Jana	
Melanie Deakins	
Melanie Field	Let them make their own choices for their health
Melinda Borrett	
Melinda Demaria	Everyone now has the tools to keep themselves safe from Covid if they so choose, there should be NO mandates.
Melinda MEndez	
Melinda Stevenson	
Melisa Grijalva	
Melissa Allgood	
Melissa Berry	Medical choices are personal and not one-size-fits-all. Let our heroes choose what is best for them. Vaccinations should never be mandated and always optional.
Melissa Brhel	<p>I work for LA county as an ER nurse at LACUSC. I love what I do and where I work. We are so short staffed that DHS just approved "double pay" through April to help with the shortage. Along with hiring travel nurses at over 100+ an hour. All the while having capable nurses who are unvaccinated (with exemption notes) working in the basement of general hospital. Even if the exemption is approved they are not allowed to return to the bedside. Those with no exemption have already received their suspension letters. Those who have exemptions should be allowed to work on the units and where they were hired to work. These nurses did not get hired at the county just to do audits. It is wasting their skills.</p> <p>Other hospitals throughout Los Angeles are accepting medical exemptions and allowing their staff to work at the bedside. They have approved those medical exemptions. I do not understand why the county isn't following suit. Please let those with exemptions return.</p> <p>I know a few weeks ago DHS released a statement saying they have a 3</p>

	<p>phase approach to help with the staffing shortages and that we are currently in phase 2. Phase 3 would bring back those who are unvaccinated. However, after seeing multiple overtime emails, seeing your email requesting staff to switch shifts to help out the department and now the county is granting staff double time to work overtime, I wonder when DHS and the county will recognize there is a critical shortage. I worry that this jeopardizes patient safety. Being at ED sat (over capacity) before the pandemic was dangerous with adequate staffing. Now having the department at ED sat, while surging and also being so short staffed is truly jeopardizing patient safety. I would hate to see an adverse effect happen to a patient due to all this. Please let them return!</p> <p>Have you actually gone to Lacusc and seen just how bad the staffing issues are? Or how overcrowded the ER waiting room is due to the department containing to close beds due to staffing? It's very unsafe.</p> <p>The county is spending more money to have travelers, hire new untrained staff and paying overtime and double time. When instead they could allow those who have medical or religious exemptions to return to work. Again many other hospitals have already implemented it.</p> <p>Thank you for your time</p>
Melissa Bunce	
Melissa Cambra	Follow the science, COVID vaccines do NOT stop the spread nor prevent COVID. Mandating a vaccine that does not make the public safer is dumb. Stop passing laws based on unfounded fear and stop being terrible to others that have an opposing opinion.
Melissa Engstrom	
Melissa Gallardo	The vaccines have been proven NOT to be effective against variants. These vaccines also have serious side effects - although rare - the longterm safety trials have not been published. Immunity from contracting covid are not being considered although it's superior to the vaccine. Because of this, it should be the individual's choice.
Melissa Heredia	
Melissa Houston	I am opposing this forceful amendment of LA County Code to change the Enhanced Compliance of the COVID-19 Vaccination Policy.
Melissa Jordan	No US citizen should be forced, mandated or threatened to be medicated or vaccinated in any manner. Firing public workers and government employees will create something even worse than covid. Wake up people!
Melissa Joy	
Melissa Legorreta	Let them keep their jobs without these enforcement!
Melissa Mann

	for a living. Those of you who vote for this, take note, the people will be voting you out as soon as humanly possible. This is the most backwards idiotic thing you can do with the crime rates skyrocketing no thanks to you. We the people are absolutely sick and tired of waking up every day to a new mandate, or attack on our freedom. This feels like we are on the receiving end in an abusive relationship and it needs to stop. It is disgusting the way you are treating the same people you called heroes a few short months ago. YOU are on the wrong side of history if you vote in favor of this.
Micahel Oswaldo	I oppose of this item #18. I'm a father of 3 healthy daughters 13,11 & 7 year old, that just had their physicals and the results are top notch. NONE of them have taken any Covid-19 experimental medical injections or tested for covid-19. My kids don't "Need" or want this as a pass for the god given right to education. If this becomes part of the policy for my kids to attend k-12 public schools. Then I will immediately put their schools on notice that I will be removing them from school permanently and find another way to give them education without having to please this unlawful policy.
Michael Adams	
Michael Avila	
Michael Baker	How can you enforce a mandate to force employee to get vaccinated when it has been proven that people with the vaccination and current booster are still getting COVID?
Michael Banh	
Michael Berdrow	
michael borys	
Michael Contis	Let them vaccinate or not vaccinate in accordance with there own right to do so.
MICHAEL COURTIAL	Let department heads handle their own discipline
Michael Cozzie	
Michael Deans	
Michael Deschamps	It's ridiculous to think that just because you don't like the Sheriff and others in LA County, that you just wanna bend the rules in order to call the shots. Doesn't sound very democratic to me. You CANNOT force people to inject themselves with a vaccine, which is STILL the emergency use vaccine by the way. COVID craze is over... There is NO pandemic.
Michael Dodds	
Michael Ellsworth

Michael Saragueta	This is discriminatory and unconstitutional. I'm not a county employee. I am a registered voter, Fifth District and will vote accordingly next election if this passes. I vehemently oppose.
Michael Stillman	
Michael Stumbaugh	Please do not support this I am opposed to firing or laying off all of these police and first responders that a year and a half ago were heroes for working. I'm opposed to the vaccine mandates.
Michael Thompson	
Michael Trinidad	
Michael Webb	
Michael Willis	
Michael C Mueller	
Michael D Fletcher	
Michael J Yourg	Unconstitutional and discriminatory. Citing personal sovereignty, medical freedom, and fear tactics.
Michael S Hambas	I'm vaccinated and I've had COVID. This policy does nothing to help public health.
Michael T Spagnola	If transmission, death or hospitalization is still possible vaccinated or not, why are we still keeping this in place? Your "science" has changed and the goal posts have been moved frequently since March of 2020. Time for this whole to be a thing of the past.
Michael V Peterson	It was reported on January 10th that the CEO of Pfizer had said that being double vaccinated offers little to no protection against infection from the Omicron variant. He further stated that you must be boosted or double boosted, this leads me to question, when will this end? From the looks of it, we will constantly be chasing the "new" variant like a dog chasing its tail. The argument that vaccination "stops or slows the spread" is now a dead, if the new argument for being vaccinated is to "prevent hospitalization" then the choice becomes a personal choice because it does not directly affect the general public. I have served on the front lines of the pandemic since the beginning and have myself tested positive for Covid twice, the first time I lost my sense of smell for 5 days, the second time I was asymptomatic. Additionally, many of my coworkers, vaccinated and unvaccinated tested positive and regardless of vaccination status, experienced similar symptoms. The mildness of my symptoms, coupled with the fact that I could still contract and transmit the virus, led me to make my decision. I implore the Honorable Board of Supervisors, do the right thing and return the choice to the people, where it rightfully belongs.
Michaela Chapman	Hello and good morning to all of the Board Members for your time. I am addressing the opposition of item #18 and general public comments.

	<p>I am a social worker and dependency investigator for the Department of Children and Family Services for LA County. I have a Masters Degree in Social Work and I am currently striving for my Licensed Clinical Social Work Degree. I have been a proud and loyal worker of LA County for 8 years.</p> <p>As social workers, we are already working with limited staff, limited resources and limited funds. Since the start of the pandemic, we have been working tirelessly to serve our families in need. Edelman's Children's Court nor Lancaster Children's Court in LA County did not stop nor the daily phone calls coming into the Children's Protection Hotline to report child abuse, or neglect, during this pandemic. We still had to see our foster children on a monthly basis, we still had to detain children from unsafe situations and work with law enforcement to serve warrants. By the way, we were given the "heroes pay" of a one-time payment of \$1500; however, this payment will split in two different payments and taxed at 40%.</p> <p>Through my work place, I requested for a medical exemption in order to be approved for not taking the vaccine in order to continue working. I was seen by a licensed physician and completed all of the proper documentation, and submitted all of these items before October 1st, 2021. 5 months later, I still have not heard from our Human Resources about my request.</p> <p>I have been in compliance with the indoor mask mandate at my work place. I have been in compliance with the weekly testing mandate that has also been imposed at my place of business to only get letters of non-compliance from Human Resources. I've even offered to show all of my negative Covid tests for the past several months even though I do not have to, given this is a violation of HIPPA.</p> <p>Terminating the hard workers of LA County for their personal beliefs regarding the vaccine is discrimination no matter how you view this matter. I, myself, am a good worker- there are grievances or marks upon my name. Getting rid of 18,000 workers will do absolutely nothing for our public health and for our public safety.</p> <p>Thank you.</p>
Michaelangel Caraveo	
Michal Amir-Salkin	<p>I am writing to oppose the firing of unvaccinated LA County employees. I work at LAC+USC medical center. If you fire all the unvax'd workers, there will not be enough people to keep our hospital running effectively — this will have a terrible impact on health care in Los Angeles.</p> <p>I am sure that the same is true for police officers & their support, firefighters & their support, city maintenance staff & their support, etc.</p> <p>Los Angeles is already struggling — we need every person we have to keep our city & county & state livable.</p>

	DON'T CUT OFF YOUR NOSE TO SPITE YOUR FACE!
Michale R Chase	
Michele Brown	This is outrageous that you want to fire people for not taking an injection. This is wrong on so many levels. I strongly oppose this and you should too.
Michele Higgins	I oppose amending any county code surrounding ding covid-19 unless it is to vanquish it altogether. ALL covid-19 county codes have been established without full consent/vote by the communities it affects. These type of county codes should not be put in place without the public voicing their positions on them AND the body attempting to establish them taking the information presented to them and applying it to the final decision. This process has not been honored by a good portion of the boards over the past two years.
Michelle Baker	<p>CIVIL CODE - CIV DIVISION 1. PERSONS [38 - 86] (Heading of Division 1 amended by Stats. 1988, Ch. 160, Sec. 12.) PART 2. PERSONAL RIGHTS [43 - 53.7] (Part 2 enacted 1872.) 52.1. (a) This section shall be known, and may be cited, as the Tom Bane Civil Rights Act. (b) If a person or persons, whether or not acting under color of law, interferes by threat, intimidation, or coercion, or attempts to interfere by threat, intimidation, or coercion, with the exercise or enjoyment by any individual or individuals of rights secured by the Constitution or laws of the United States, or of the rights secured by the Constitution or laws of this state, the Attorney General, or any district attorney or city attorney may bring a civil action for injunctive and other appropriate equitable relief in the name of the people of the State of California, in order to protect the peaceable exercise or enjoyment of the right or rights secured. An action brought by the Attorney General, any district attorney, or any city attorney may also seek a civil penalty of twenty-five thousand dollars (\$25,000). If this civil penalty is requested, it shall be assessed individually against each person who is determined to have violated this section and the penalty shall be awarded to each individual whose rights under this section are determined to have been violated. (c) Any individual whose exercise or enjoyment of rights secured by the Constitution or laws of the United States, or of rights secured by the Constitution or laws of this state, has been interfered with, or attempted to be interfered with, as described in subdivision (b), may institute and prosecute in their own name and on their own behalf a civil action for damages, including, but not limited to, damages under Section 52, injunctive relief, and other appropriate equitable relief to protect the peaceable exercise or enjoyment of the right or rights secured, including appropriate equitable and declaratory relief to eliminate a pattern or practice of conduct as described in subdivision (b). Attorney General pursuant to subdivision (b) also may be filed in the superior court for any county wherein the Attorney General has an office, and in that case, the jurisdiction of the court shall extend throughout the state.

(e) If a court issues a temporary restraining order or a preliminary or permanent injunction in an action brought pursuant to subdivision (b) or (c), ordering a defendant to refrain from conduct or activities, the order issued shall include the following statement: VIOLATION OF THIS ORDER IS A CRIME PUNISHABLE UNDER SECTION 422.77 OF THE PENAL CODE.

(f) The court shall order the plaintiff or the attorney for the plaintiff to deliver, or the clerk of the court to mail, two copies of any order, extension, modification, or termination thereof granted pursuant to this section, by the close of the business day on which the order, extension, modification, or termination was granted, to each local law enforcement agency having jurisdiction over the residence of the plaintiff and any other locations where the court determines that acts of violence against the plaintiff are likely to occur. Those local law enforcement agencies shall be designated by the plaintiff or the attorney for the plaintiff. Each appropriate law enforcement agency receiving any order, extension, or modification of any order issued pursuant to this section shall serve forthwith one copy thereof upon the defendant. Each appropriate law enforcement agency shall provide to any law enforcement officer responding to the scene of reported violence, information as to the existence of, terms, and current status of, any order issued pursuant to this section.

(g) A court shall not have jurisdiction to issue an order or injunction under this section, if that order or injunction would be prohibited under Section 527.3 of the Code of Civil Procedure.

(h) An action brought pursuant to this section is independent of any other action, remedy, or procedure that may be available to an aggrieved individual under any other provision of law, including, but not limited to, an action, remedy, or procedure brought pursuant to Section 51.7.

(i) In addition to any damages, injunction, or other equitable relief awarded in an action brought pursuant to subdivision (c), the court may award the petitioner or plaintiff reasonable attorney's fees.

(j) A violation of an order described in subdivision (e) may be punished either by prosecution under Section 422.77 of the Penal Code, or by a proceeding for contempt brought pursuant to Title 5 (commencing with Section 1209) of Part 3 of the Code of Civil Procedure. However, in any proceeding pursuant to the Code of Civil Procedure, if it is determined that the person proceeded against is guilty of the contempt charged, in addition to any other relief, a fine may be imposed not exceeding one thousand dollars (\$1,000), or the person may be ordered imprisoned in a county jail not exceeding six months, or the court may order both the imprisonment and fine.

(k) Speech alone is not sufficient to support an action brought pursuant to subdivision (b) or (c), except upon a showing that the speech itself threatens violence against a specific person or group of persons; and the person or group of persons against whom the threat is directed reasonably fears that, because of the speech, violence will be committed against them or their property and that the person threatening violence had the apparent ability to carry out the threat.

Michelle Puplava	I oppose the mandate. The vaccine does not prevent the spread of the virus and is therefore not effective at stopping transmission. Thus, it does not benefit the health of those who live in the county to require it of employees working with the public.
Michelle Sanford	There is no evidence vaccination stops the spread of covid. Also, there is no accommodation for people that have had covid and recovered. This is another power grab.
Michelle Schumaker	
Michelle Sena	
Michelle Snemis	
Michelle Soomekh	
Michelle Villanueva	Do not take peoples freedom of choice away!!
Michelle Wade	
Michelle Wright	
Michelle Zabatta	
Michelle A Wilson	A vaccine doesn't stop you from getting covid. It's not right to force a vaccine on someone.
Micolette Cole	Read the Nuremberg Code. Firing people for not taking the vaccine is wrong!!! People should not have to lose their jobs because they choose not to be part of an experiment. This is America!
Miguel Franco	
Miguel Garibay	
Miguel Rodriguez	Medical freedom. My body my choice.
Miguel Valdovinos	
Miguel A Jimenez	
Mihai Surd	
Mike Barraza	
Mike Beal	Unconstitutional violation of individual rights and freedoms. Stop the mandates!
Mike Cowan	We strongly oppose a mandate for vaccination in order to remain a Los Angeles County Sheriff's Deputy. Our Sheriffs, vaccinated or not, are essential to the safety and stability of this County. DO NOT TERMINATE ANYONE BASED UPON THEIR VACCINE STATUS! That is insane.
Mike Gomez	
Mike Kitchens	The current vaccine options do not prevent the spread or transmission of Covid-19. Per CDC website natural immunity is being reported as a stronger

	<p>is wise.</p> <p>We must be free to choose what we put in our bodies. This is not your choice. This decision must be made by the individual. You are not qualified, nor do you have the authority to decide that LA County employees must either take your medicine or lose their jobs. So it appears your answer is to make a new amendment to give yourselves more authority. Splendid answer for dictatorial supervisors. No. Please no.</p>
Minke Gonzalez	<p>To do this to people like my good neighbor and our other 1st responders and county workers who has saved lives is a disgusting display of your panel! Do the right thing and get rid of this vaccine mandate. These vaccines don't prevent COVID.</p>
Mir Port	<p>No amendment needed</p>
Miranda Ament	
miranda carvalho	
Mireya Moran	
Mireya Olivares Chavira	<p>I don't believe it is right nor fair to enforce the vaccine mandate on employees. The fact that employees can be fired for being unvaccinated is completely barbaric and uncivil. Most people have religious beliefs and getting vaccinated is going against that belief they cherish.</p>
Miriam Martinez	
Miriam Mizuha	<p>The Covid 19 vaccination policy is the most unfair policy ever enacted. People want equality, how is this treating people like equals?? Remove all Covid 19 policies and let these heroes work!!</p>
Miriam Sandoval	
Miriam Surtees	
Mister F	<p>Please do not approve this motion. It is now obvious, and more broadly accepted, that vaccines do not prevent infection or transmission. It is now obvious, and more broadly accepted, that natural immunity is equivalent (if not better) than vaccination. It is now obvious that vaccines do indeed still pose some risk, even if small. Where there is risk, there should be choice. While vaccination rates are not where desired, they still exceed what experts initially said should suffice for herd immunity. Please trust your citizens and employees to take other precautions to best protect themselves, their loved ones, and their coworkers. Please honor the importance and integrity of this type of choice.</p>
Misty Carone	
Misty Martinez	
Misty Rios	<p>Why are we claiming that the reason for forced vaccination is to keep the public safe when in fact, vaccinated people can still spread the virus without</p>

	<p>knowing it? At this time, the vaccine only protects the individual receiving it. It does NOT stop the spread of the virus to others. So why are we continuing to force it on individuals under the guise of public health safety when it does not protect the public? Also, terminating employees over this? After the Supreme Court ruled against large corporations requiring vaccinations? So all of the money spent training them...just wasted over a mandate that literally isn't stopping the spread of anything. While other vaccines have been mandatory, they were well used over years and had data on long term effects. They also PREVENTED the disease. This vaccine does not, was only approved under emergency status and should not be required for anyone.</p>
Mitchell A	<p>If California can host the Super Bowl and Newsom, Garcetti, and those in power can be mask-less and violate their own "rules" not once but multiple times then there is no need for a state of emergency and no need to push people into getting something that they don't want. Let people make their own decisions and stop dictating what people want to put in their bodies.</p>
Mohamed Bina	
Molly Rabbanian	
Mona Moussa	<p>I am against firing the employees that won't get vaccinated. It is their own body and choice. The mandate needs to stop. We need to appreciate the employees and keep them especially with the horrific unsafe situation our city is in now. Thank you for our sheriffs hard work Do not take their jobs away! The vaccine doesn't stop covid. That is reality and we all know it. We are not stupid. U can't force it.</p> <p>Our city has gone extremely downhill. Major violent crime. You can't walk in the streets anymore without being scared of being held up. My parents were victims just last week someone broke into their apartment. These people are roaming the streets and We live in fear. This is not acceptable. We value our safety and deputies.</p> <p>Why is everyone being blind. La county is going down the drain. We need our freedoms back. We need our safety back. We need our rights back.</p>

	county employee choose their risk tolerance. I highly oppose this!
Morgan Chiate	
Morgan Herr	
Moses Vargas	Scientific evidence has shown that the vaccine is ineffective against transmission and immunity. The evidence is out there. You are direct violation on civil rights. Courts cases will rule against you.
Myesha Sherrer	
myriah gallegos	
Myriam Silva	
Na Sanchez	There is no reason to en"FORCE" anyone to take an unapproved vaccine that does more harm than good. And to do it to our frontline workers undermines & destroys the strength, health & freedoms of the people in LA County. You are suppose to represent the people of this county & to do good & not harm. You will be accountable for your choices ... Choose wisely!
Nadia Alvarez	
Nadine Brock	
Naira Grigoryan	
Nakuma Scott	Firing any LA County worker at this point of the pandemic will not serve to make ANYONE in the County substantially safer. Vaccination status is the personal health attribute least likely to indicate whether a County employee will be able to faithfully execute their duties. Anyone, regardless of vaccination status, can become ill and miss work due to COVID. Let them work.
Nancy Escobar	I am an LA County voter and oppose the LA County code to enhance compliance with an enforcement of the counties COVID-19 vaccination policy. With the rising crime releasing public service officers would be a disservice to LA County residence. I will be monitoring the outcome of this policy and will vote accordingly on the next election.
Nancy Gillette	
Nancy Grace	
Nancy Hayes	
Nancy Lidamore	
Nancy D Lopez	
Naomi deLeon	
Nasha Ruiz	We should not be forced to get vaccinated that's unconstitutional. Some of us have health issues that the vaccine can compromise yet because there isn't enough studies on that specific health issue physicians aren't issuing exemptions.

Natalia Rudiak	
Natalie Behfarin	
Natalie Bush	
Natalie Dillow	Oppose!!!
Natalie Downey	There should be no enforcement to vaccine mandates as this vaccine remains emergency use. Furthermore, the lawsuits that will ensue if Vaccines are enforced will cost the city millions of dollars in unnecessary expenditures. Los Angeles cannot afford the loss of any of its police force, particularly due to vaccination policy that has proven completely ineffective.
NATALIE LAHIJI	It would be devastating to our safety if our HEROES were fired. This is still AMERICA and grown adults can make their own choices.
Natalie Ravera	
Natalie Simo	
Natalie Tserunian	
Natalie Vuoso	There is no question that first responders do not know what they are dealing with in regards to Covid 19. As people that devote their lives to advocating for patients and individuals that need help I am confident they are well informed of risk and benefits of the vaccine and must be allowed the freedom to choose what is best for them and their family. Right now we need first responders more than ever and they need our support!
Natalie D Romero	
Natally Sanchez	
Natasha Katzaroff	
Natasha Majano	The employees of La County have families. Many have complied due to fear of losing their livelihood. It is cruel to treat LA County Employees in this manner. The public needs every LA County Employee to do their job without having a daily reminder that they may lose their job. The productivity of each LA County employee has diminished due to the psychological malice you have imposed on them. Stop these policies that do not benefit the community.
Natasha Serrano	
Natasha c Mueller	
Nathan Cook	I appose.
Nathan Fleisher	This is ridiculous and we are not your social experiments! Stop this non sense and threats!
Nathan Lindenmayer	Forcing employees to choose between medical freedom and putting a roof over their families heads is nothing short of tyranny. We now know that the "vaccinated" can catch it and spread it. We know that it has an almost 99% survivability rate and that natural immunity is real. How could you even

	consider this? If you terminate the employees that chose medical freedom and common sense, history will not be kind to you.
Nathan Mackey	To fire 18,000 county employees is ridiculous. To think 4,000 sheriffs employees would be fired, many probably sworn, would place millions of good people in danger. Do not approve this agenda item. Allow medical freedom and safety to continue!
Nathan Palmer	Enforcement of these policies shall reside with the Fire Department, the BOS are over stepping by attempting to take complete control over compliance, enforcement and disciplinary actions
Nathan Welford	
Nathan J Villareal	Saw this mandate on FB. This is ridiculous. When I call for simple services its terrible. My tax dollars pay for the already slow service and folks are rude. So firing all these people, is it going to make services better? Or will production get slower? I'm sure the employees left will be overworked. Vote no!
Nathaniel Bender	I oppose having men and women fired for exercising their human, religious and medical RIGHTS. May God judge and punish the criminals. ALL POWER TO THE PEOPLE!!!!
Nayereh Khankhanian	The whole CA will be mask free. Why not LA county. UNMASK kids and adults as well. IT IS PROVEN THAT IT DID NOT WORK!!
Nazik Saghari	
Nazzy Nik	
Neal Oku	End these unconstitutional mandates. You are jeopardizing our safety by your unamerican behavior. Ultimately you will cost us even more money when anyone fired sues. The science does not back ANY restrictions.
Neil Anderson	
NEIL CARTHEW	
Nellya Lekht	No masks and no vaccine mandate for kids.
Nena Gates	
Nicholas Burkhardt	
Nicholas Cody	
Nicholas Hernandez	
Nicholas Saylor	Given CDC's own admission that the vaccine neither prevents an individual from contracting or from transmitting Covid, termination of employees for refusing to take an experimental therapeutic is unethical. Most of the employees who are unwilling to take the vaccine have already contracted and survived Covid, obtaining natural immunity, also now beginning to be recognized by the CDC (already recognized around the world). These employees worked throughout the pandemic when everyone else was allowed to stay home. To terminate these doctors, nurses, deputies,

	firefighters, and other county employees will only endanger the citizens of Los Angeles County and further degrade our quality of life.
Nicholas I Chacon	I think it's wrong to let go of the deputies that refuse the vaccine. Not only is it wrong but against their constitutional rights.
Nick Iskhan	
Nick Liddi	
Nick Moresi	
Nick Snowden	Everyone should have a choice if they want to be vaccinated or not. Everyone is aloud freedom of choice. Fentanyl in our streets is a bigger problem than a vaccine shot
Nick Y Frech	
Nicole Ahten	This is a danger to public safety and ability of the county to function efficiently. Employees should have the right to choose what they do medically. With all the vaccinated cases and with the vaccinated also spreading Covid this is no longer a valid argument.
Nicole Barthelmess	
Nicole Chavez	In case you haven't noticed the constant need to control people isn't working. If you're not vaccinated by now you probably already had Covid which turns out has better protection anyways.
Nicole Cressman	
Nicole Dean	
Nicole DeRosa	
Nicole Dijkstra Araghi	As I said no idea for side affect, so let's try it out on kids!!?!?! I'm trying to see how you guys are thinking? Taking parents rights! Not going to work! Thinking that the mask or vaccination will help you are kidding me! You just maid the air Pollution worse why won't you us history and work with material like copper?! Easy to clean in school no bacteria can set on it and oil so ?? clean surface forever...
Nicole Eggert	
Nicole Felis	Firing these workers will further exacerbate already critical staffing shortages.
Nicole Flood	As a lifelong LA County resident and 26 -year employee of this County, I am VEHEMENTLY OPPOSED to Agenda Item 18. This proposal to change the County Code would allow this Board of Supervisors to "crown" themselves as Department Heads so they can fire essential County Workers & First Responders who will not inject themselves with Experimental Covid shots when there are safer alternatives. Ironically, this proposal is being brought by Supervisor Sheila Kuehl who rushed to dine at her favorite restaurant Il Forno AFTER voting to shut down restaurants due to the "dangers" of Covid in Nov. of 2020. The Board must not forget that these are EMERGENCY USE AUTHORIZED VACCINES, which legally means that the patient must give

	<p>VOLUNTARY INFORMED CONSENT to the treatment. Threatening our First Responders and County employees with termination of their jobs UNLESS THEY RECEIVE AN EXPERIMENTAL TREATMENT IS COERCION and subjects the County and its residents to LAWSUITS. PLEASE FOLLOW THE SCIENCE! These EUA Covid vaccines DO NOT STOP infection NOR Transmission of COVID-19 AND ITS VARIANTS! Just take a look at what is happening in ISRAEL, which is suffering significant Covid infections despite the draconian Covid vaccine mandates they forced upon their citizens. I know too many people who have suffered adverse events from these experimental shots including Death, Bells Palsy, Heart conditions, serious illness, etc. I also know from personal experience that there are alternative medications that are effective against Covid - 19 - they are hydroxychloroquine, ivermectin, and azithromycin. Yet these medications are now impossible to obtain BECAUSE EUA vaccines cannot exist if there are reasonable alternatives. You have also overlooked natural immunity of those who already had Covid-19 and have no need for these questionable EUA vaccines. Have you forgotten the lessons of history during WW II, which resulted in the Nuremberg Code that addressed scientific experimentation upon human subjects? The Nuremberg Code specifically states that "voluntary consent of the human subject is absolutely essential" and that the human subject "be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, over-reaching, or other ulterior form of constraint or coercion..." AGENDA 18 would give this Board power to enforce scientific experiments with these EUA Covid shots upon unwilling constituents in violation of the Nuremberg Code. It will also result in a loss of thousands of County First Responders and employees at the detriment of Los Angeles. Please VOTE NO to Agenda Item 18. Thank you.</p>
Nicole Freeth	<p>America, the land of the free and the home of the brave. That's the America I grew up but it's not the America my kids get to experience, especially not in LA and CA. For over 2 years now, our children have been perpetually masked for over 7 hours/day. My children have never known a normal school experience. My child really are suffering everyday psychologically, developmentally, and medically. And why? Please show me a study that shows any of this works. You can't because it doesn't exist. What you can find are plenty of grass roots studies- people who have put these masks on and using vaporizing tools, have shown that the airborne vapor breath we breathe out simply escapes from all crevices of all of these useless masks. Has Barbara Ferrer done this experiment herself? The fake Dr. responsible for the negative effects imposed on our children should be fired immediately. She has continued to harm our children and is doing it all without any evidence or science. Think about this- you're attempting to force a medical treatment on your residents and their children that neither prevents transmission nor infection, however, does come with very real and scary potential serious adverse effects, up to an including death. Which on of you will be responsible if a government employee or child dies at the hand of a forced vaccine? Anyone? I didn't think so. Thank you Sheriff Villanueva and Supervisor Barger for being the only two elected officials on this line asking questions, taking a stand, and defending our freedoms. We will remember</p>

	you and we will remember all the others who have held their public positions in cowardice at the polls.
Nicole Garsner	LA County needs all the help it can get in police/sheriffs dept, fire dept, medical staff at hospitals. LA is already hurting with more and more people becoming homeless, that have lost their jobs, that can't get the help they need and now you are about to set more people on that same path. Not ONLY that, the crime on the streets is increasing. You are not walking the streets daily. There are more and more areas that as a woman, I do not feel safe getting out of the car. There have already been budget cuts which caused layoffs that LA could not afford and NOW, again, you are going to enforce a vaccine that is to prevent the individual from having to be hospitalized. Do you realize that many people have had Covid and not needed to go to the hospital, barely had issues and did just fine? Do you realize how many VACCINATED people are still getting and spreading Covid? So if those vaccinated are still part of the problem, why do they get to continue to work and others that are not vaccinated have to lose their jobs even though they mask up, they wash hands and they are PROTECTING OUR PEOPLE ON THE STREETS, SAVING LIVES IN THE HOSPITALS, SAVING HOUSES/PEOPLE FROM FIRES, but they are not good enough when not too long ago, they were everyone's HEROES! Our public safety matters and until you are on the streets or in these areas all the time, you truly don't know what you are doing to the public. Putting so many people at risk because you are mad people won't follow your rules. WELL GUESS WHAT?! 1) OUR LEADERS CANT EVEN FOLLOW THEIR OWN RULES AND LEAD BY EXAMPLE 2) WE ARE NOT YOUR SOCIAL EXPERIMENT! 3) Crime is going to sky rocket even more since no one is being punished for crimes they are committing. DO NOT VOTE IN FAVOR OF THIS!!
Nicole Goodfellow	As a tax paying citizen of LA County, I strongly oppose any and all efforts to mandate vaccines or terminate the employment of any county employee for refusing the covid vaccine. I value our county employees and thank them for their service during the pandemic. We called them heroes for showing up to work when the world was shut down, long before vaccines were available. Many of them got and recovered from covid and came back to work. The thanks they get is to now be fired over a vaccine mandate is truly disgraceful. None of this makes sense. This is not the will of the people, but the madness of bureaucrats looking to avoid liability. Threatening the livelihoods of 18,000 people is a mistake that can still be avoided. I urge you to reconsider.
Nicole Hale	
Nicole Hanlon	If thousands of our Frontline heroes are laid off, it will be devastating for Los Angeles. Angelinos will lose confidence in our government and our safety.
Nicole Hart	
Nicole Martinez	We need to focus on providing more security and safety, not terminating those who are keeping of safe. Pay attention to the innocent people being victimized everyday.
Nicole Montoya

	consent is not possible without the trials being completed, therefore it is immoral to mandate their use in the general population!!
Nina Leach	
Nina N Withers	I cannot even believe this is a topic for voting. This is absurd and insane that you would force people out because of their vaccine status. YOU are going to destroy what is barely left of struggling LA County. We will be the next Chicago.
Nita Neal	
Noah D Southworth	
Nolan Patterson	
Norm Chapman	Are the BOS and office Exempt from their own mandate, if so why? The Covid vaccine has proven to be inadequate in protecting from infection and transmission. Keep LA proud of its freedom to choice. End the mandate.
Norma Husoen	
Norma Monroe	
Norma Santoyo	it has been proven by CDC and all the current case#s that covid is transmissible to and from vaccinated people. Stop the mandates!
Norma Silva	Oppose
Norma J Winfield	There are other ways to protect ourselves and it's everyone's right. Losing LA COUNTY EMPLOYEES will still effect the Angelino's via fire, theft, murder, care chase, protection, just to name a few. Save their jobs. . . PLEASE
Norman Olpindo	
Norverto Ramirez	
Norvin Alvarez	
Nune Gipson	If BOS passes this bill they will destroy our county and cities. Stop the illegal enforcement of these unconstitutional mandates. You all are putting public safety and security in jeopardy including your own families. Hilda Solis needs to be fired and arrested for putting the citizens of LACO in danger for her own gain. I oppose this item.
Nvard Kazanchyan	
Nydia Villagran	I'm opposing this, to fire this many deputies is a detriment to our public safety. We need our deputies out there patrolling.
Obadiah Mesa	
Obed D Evis	Unbelievable that you would vote to segregate people based on their medical decisions and have people lose their jobs. The science isn't on your side. Multiple studies have shown that masks don't work, natural immunity is more effective than vaccines, vaccines don't stop the spread and mandates are causing depression/anxiety, suicide and many other health concerns.

	Do the right thing.
Octavio C Martinez	I strongly the release of law enforcement personnel for not being vaccinated. This action will further increase crime and lawlessness. I will monitor the outcome of your decision and will remember it for the next election.
Odalis Martinez	
Odilia Mendez	
Olga Hernandez	I oppose of removing any employee of their position and no employee should be fired for not getting the vaccine
Olga Robles	The Covid 19 vaccination policy is inhumane and unconstitutional! Give these heroes back their jobs and treat them like the good human beings they are!!!
OLGA ULLOA	
Oliver Penchansky	All who comply with this corruption, proven by the Department Of Defense, will pay.
Olivia P Gonzalez	
Omar Camacho	
OMAR CAPACETE	Freedom to choose
Omar Lechuga	
Ophelia Apar	This is text book definition of tyranny
Ophira Levant	No mandates. My body, my choice.
Orlando Saldana	Although I am vaccinated myself, I oppose any further discipline to those who choose to be partially vaccinated or not vaccinated. This infringement on the freedoms of citizens is detrimental to a free society. I am appalled by the fact I do n to have to test weekly, although I can get Covid and transmit it to others. All the while, my unvaccinated co-workers have to test weekly. I am certain you see this hypocrisy in your everyday lives. I pray you find the correct balance for the vulnerable population and those LA County employees who work and serve faithfully who choose not be vaccinated.
ORLANDO A MARTINEZ	
Orva Johnson	
Orzalla Sulaimankhil	Oppose
Oscar Almaraz	It's unconstitutional. God gave us free will. How can the government try to take that away?
Oscar Chavez	Violation of our personal freedom. Vaccination already proven to not work as intended.

Patricia Alfaro	Everyone should have the right to make it their own choice to be vaccinated or not. I did get it but regret it. Now I suffer of ongoing fevers. Which makes them at work ask me to quarantine. Just not right.
Patricia Bolanos-Gonzalez	Individuals should not be forced or coerced to receive a vaccine. Forcing an individual to choose between their job or getting a shot that has proven to be ineffective and that is actually harmful is wrong. Furthermore forcing them to agree to a separate contract/terms and conditions and privacy policy with a "monitoring/testing company is also wrong. Share the details of the meeting with FBI re: Fulgent. Mandate is wrong- end all vaccine related mandates.
Patricia Carmichael	Absolutely not and stop the overreach . The people who last year were our 'heroes ' are now FIRED! Way to go LA. Maybe we need a few thousand more people and jobs to leave this county and state for you to see what you're doing
Patricia Carrillo	
Patricia Ghadimi	
Patricia Gonzales	In a county in which we have crime that is spiraling out of control coupled with poor policy and law in keeping these criminals in jail, it is disgusting you would even consider firing Law Enforcement Officers over a illegal mandate. The virus is now a cold and everyone e needs to move in from it. It is unjustified to fire American, sovereign people for a pseudo sense of security. The data does not support the actions. Stop putting the citizens at risk of real crime and murder for a virus that has a 99% survival rate. STOP YOUR NONSENSE!!! KEEP THE CITIZENS SAFE FROM CRIME!
patricia gonzalez	You should not mandate LA employees to get vaccinated. This has gotten way too political. Our city is already bad as it is now you want to continue to destroy it.
Patricia Levin	This mandate is no longer necessary. Follow the science - ALL science, not just what suits your narrative. The Board appears to be more concerned with power than with what is best for our County.
Patricia Moss	This is ridiculous. We need these people. They are our heros

Pedro Cruz	
Peggy Malpee	Stand for medical freedom
Peggy TenEyck	
Peggy S Landy	
Perlita M Nevarez	Do not fire our healthcare workers
Peter Gould	
Peter Weilbacher	
Peter A Burgess	
Peter G Conner	<p>It is now proven that the COVID vaccines do not prevent someone from getting COVID or from spreading COVID. The only thing the COVID vaccine might do is prevent someone from becoming seriously ill from COVID, maybe. People are still dying after being fully vaccinated from COVID. It is also a proven fact that natural immunity to COVID, (that's someone who has had COVID and recovered) is far superior and longer lasting than any vaccine induced immunity. In light of these facts, why on earth is the board even considering firing 18,000 unvaccinated county workers? Many of whom, I'm guessing, have already had COVID and have natural immunity. Among these 18,000 are 4,000 County Sheriff Staff in the midst of a crime wave and an already under-staffed sheriff's department. This will only further endanger citizens and current sheriff deputies. I am against vaccine mandates for anyone. It should be an individual's right to make their own health decisions and whether or not they will have a job because of a decision they make is not a fully autonomous decision. There is no purpose to mandate vaccines for county workers. Unfortunately, and not as originally promised, the vaccines do not prevent you from getting COVID, spreading COVID or dying from COVID. Therefore, any original, however well-intentioned reasons for forced vaccinations of county workers, is completely moot.</p>
Peter M Contis	
Philip Jesu	
Philip Sywulka	<p>We do not believe that Covid-19 vaccine mandates are warranted for the following reasons:</p> <ol style="list-style-type: none">1. It appears that vaccines are not effective in preventing spread.2. The level of natural immunity in the population is rapidly increasing. Our understanding is that natural immunity is superior to the immunity provided by the current vaccines against the current variants. Thus, this may soon be a mute issue.3. It looks like the omicron surge is rapidly attenuating.4. People are legitimately concerned about adverse reactions. It may be the case that the national agencies responsible for tracking adverse reactions have been neither diligent nor transparent in fulfilling their obligations.

Rachel Smith	Medical freedom - this narrative needs to change. The world over is making a change because it knows that it can't be controlled. Stop using people as experiments , their body their choice.
Rachel Whitaker	
Rachel Wilson	Unconstitutional, harassment, and discrimination
Rachel A Wiegel	STRONGLY OPPOSE ITEM 18!! Firing this many first responders, sheriffs, and public servants will have a huge impact on LA county. LA residents' safety is at risk if we significantly decrease the total number of public servants who are there to protect and help us. These employees are heroes who sacrifice their safety for fellow citizens every single day and they deserve better than to be discriminated against over a shot that doesn't even stop the spread. Please vote no on 18, for the sake of the safety of every LA county resident and visitor.
Rachel M Melamed	Repeal mask mandates, vaccine cards and vaccine mandates!
Rachelle Paniccia	By voting yes you will be making it mandatory for a medical treatment which has been proven by the CDC to not stop the spread of covid. You will be pushing an medical procedure with unknow long term side effects on people which is in direct violation of the Nuremberg code which are crimes against humanity. This will result in legal action taken against LA County and cost tax payers millions of dollars. So your yes vote is admitting you know you it will cost tax payers money and you still proceeded.
Racquel Tristan Weinstein	
Raelene Farnes	
Rafa Gonzalez	If we can host a super bowl our first responders are not an imminent threat
Rafael Dumas	No one should be forced to do anything against their will. We live in a free country.

Ralph Siu	Covid-19 vaccine is not a vaccine, it doesn't prevent you from being infected with the Covid-19 virus just ask Colin Powell. Current statistics show hospitalization are the same for vaccinated and unvaccinated. You are debating terminating unvaccinated county employees but your superiors are inviting anyone who wants to illegally cross the border without requiring vaccines, can you say HYPOCRITE. 80% of this country does not want communism. You are far outnumbered.
Ramez Bishara	
Ramon Topete	Oppose
Ramona Bilancsuk	
Randy Austin	
Randy Hill	
Randy Leaf	I urge you to strongly oppose mandating County Employees to be vaccinated to keep their jobs, especially the Sheriff's Department. It is very difficult to recruit and retain qualified applicants, and firing hundreds of Deputies for not being vaccinated will create a massive staffing and safety problem and will result in higher crime rates and less crimes being solved. Firing employees for not getting vaccinated is a BAD idea and WILL result in more anarchy in the streets.
Randy Leaf	I was on the phone for 90 mins and didn't get a chance to speak - I hope you were listening to the overwhelming response that this mandate is a BAD idea. People care more about Public Safety (crime and feeling safe) than having employees vaccinated. If the Federal Government is not requiring Illegal Immigrants caught crossing the border to be vaccinated before being relocated across the USA, then maybe vaccinations are not as important as some people think. Firing Deputies for not being vaccinated will devastate public safety. Public SAFETY is your most important RESPONSIBILITY, please don't take it lightly. It is very difficult to recruit qualified applicants to become Deputy Sheriff's and the training takes nearly 2 years - the cost (financial and crime victims) to replace fired employees is unthinkable. Please put your misguided efforts toward solving the Homeless Crisis and the Mental Health Crisis. The Vaccine does not prevent people from contracting or spreading COVID-19, it only reduces the likelihood of serious symptoms.
Randy Spurrier	What happen to freedom of choice?

I believe that these health mandates are not ethical or legal. As a nurse I took an oath to do no harm and to be my patients advocate. A patient has the right to refuse any medically advised treatment. They have the right to bodily autonomy. I am fighting for the same right I would fight for any patient. Nothing more. How is coercion being allowed? Having to choose between my career, my livelihood or my Personal health is absurd. That is so called "consent" being forced under

	duress. Natural immunity is not even considered. Testing was not offered as an option. The nursing shortage has been long standing way before covid, and yet all these hospitals and other agencies are able to fire thousands of nurses or other employees. Contributing to the shortage even more. After 16 years I'm forced to look for another job. Now my husband our sole provider is in jeopardy of the same fate. I stress to my kids how actions speak louder than words. As grown adults and leaders of this county. I'm begging you to do what is right and stop these health mandates. Your actions speak for you. Thank you for your time.
Raquel Padilla	
Raul Garcia	
Raul Macias	Our public servant heroes have put their lives for us the public. Do Not punish them for standing up to their believes . If they are terminated who will protect us —will you recruit unethical candidate to replace them .STOP VOTE NO
Raul Moreno	
Raul Palacios	
Ray M	
Ray Martin	
Ray Rios	
Ray Rios	I oppose this as this will be detrimental to the residence of Los Angeles County. The county can't afford to lose this tenure of service of these employees and the county has invested a lot of time and resources. Residence already feel unsafe with current laws and imagine how they will feel after this. Please do the right thing and oppose this. Thank you
Ray L Schiller	
Raymond Johnson	
Raymond Valadez	Vaccines with the recent omicron surge have been proven to be ineffective and unnecessary. We had the highest number of cases this past month and that is with a majority of the population vaccinated. Please discard the in favor vote by the same name, Raymond Valadez. That was a mistake
Rebecca Araujo	Very concerned about increased crime in my area for lack of law enforcement and sheriff dept.
Rebecca Buczinski	
Rebecca England	Vaccine mandates are unconstitutional
Rebecca Fillmore	This is a disgraceful agenda and completely wrong to terminate anyone for exercising their personal freedoms to determine what is right for them medically. To undermine the safety of our communities by removing the very ones who maintain our safety over an illness that has a 99% recovery rate is criminal.

Ricardo Ortiz	This is inhumane and do not agree or support this.
Ricardo Ramos	
Rich Ramirez	
RICHARD CEJA	
Richard Garcia Garcia	
Richard Lester	
Richard Masom	
Richard ONeal	In regards to measure 18. This is against the constitution of the United States, and against the California constitution, the sheriff is an elected official, empowered by the people of his county to enforce the law. Taking power from him and his ability to run his department infringes on our constitutional rights to empower those elected officials. It is also infringing on our right to equal protection under the law, as this radical motion would jeopardize public safety. The people spoke when they elected the sheriff, and if they do not like what the sheriff is doing with his department, they can elect a new. It is not the board of supervisors position or authority to take over an elected officials position when they do not like his leadership, or what he was entrusted to do by the people of the county of Los Angeles. It is also disturbing, that with our deputy sheriffs who have served this county with their lives for decades, are now disposable by the whim of a radical Board of Supervisors who chooses to infringe on the voting rights of the constituents of this county. These deputy sheriffs have served, and been loyal to this county, serving public

	grievous overreach of power to force a medical treatment on anyone and couple that with threatening their livelihood.
Robbie Neman	
Robert Alt	The covid vaccine doesn't prevent transmission or infection so this mandate is un necessary. Countries all over the world are dropping all mandates. Please reject this mandate.
Robert Apodaca	
Robert Baker	
Robert Ballard	
Robert Barnett	
Robert Borden	The Nuremberg Codes state rules for humanity after the greatest genocide in history. It said "If there is risk, there must be choice". To pressure through loss of job an experimental medical procedure breaches this sacred code, and if voted in, constitutes another crime against humanity with which you will become complicit. Not to mention the vaccine is worthless against the current variant, and natural immunity is greater than vaccine immunity- a fact. Use your heads and your conscience, and don't be fooled by the so-called health authorities who haven't a clue about Covid.
Robert Bray	
Robert Chavez	
Robert Coats	I am an LA County voter and oppose the LA County Code to Enhance Compliance with and Enforcement of the County's COVID-19 vaccination policy. With the rise in crime, releasing public service officers would be a disservice to LA County residents. I will be monitoring the outcome of this policy and will vote accordingly on the next election.
Robert Cofer	It is absurd to terminate officers who are not vaccinated. Crime is at an all time high and they have and will continue to protect our community. I remember only a year ago these same individuals were deemed hero's and the fact that we would even consider firing them now is disgusting.
Robert DeRosa	
Robert Frazer	
Robert Garrett	This matter has been heard by the Supreme Court and has been ruled that it is not in line with the Constitution of the United States of America. Any dissent from this ruling would be an absolute power grab and overreaction in a time when public safety is needed most. Please do not force Forst line workers to choose between a shot that does not stop the transmission of a virus and working for a living. I would never support something that does not allow for employees to make a choice for themselves. I am a tax paying resident of Los Angeles county and will be selling my home and leaving my job if this continues. Just thought you should know this because apparently money is the only thing that sways votes.

Robert J Garcia	This has the look of a massive political power grab. County agencies have leaders in place that know their people and unique situations. This will lead to mass issues, lawsuits, and disposal of people who have endured hardships for the people of the county. Too much power for an individual. You need to deny this political power grab
Robert K Nelson	
Robert L Bourget	
Robert S Monaghan	
Robert W Preston	
Roberta K Weber	Please do not pass this amendment!! With the nonsensical defunding of law enforcement and the subsequent frightening increase in crime throughout LA, the absolute last thing our county needs is to lose anymore of our first responders!!! As a CA resident who blindly followed the mass es and got fully vaccinated for Covid only to now realize the vaccination does not work— it is insanity —and wrong— to force Covid vaccination on anyone. Ironically, It is now clear that true full immunity to Covid is achieved through being exposed to the virus and building up one's on natural immunity! Thank you in advance, for opposing this amendment!
Roberto Franco	Strongly Oppose
Roberto Martinez	
Roberto G Duran	
Robin Colette	This is tyranny and overreach of authority. It's a disgusting attempt at forcing compliance with a medical "mandate". What's happening to freedom of choice and bodily autonomy? Might as well tell me what I can and can't eat or drink. It's past ridiculous and needs to stop now.
ROBIN Gregg	The Sheriff is an ELECTED OFFICIAL. By the PEOPLE! This is completely illegal and unethical. These are experimental shots and not even approved. These are crimes against humanity and you will be held accountable!
Robin Orefice	I am an LA County voter and oppose the LA County code to enhance compliance with an enforcement of the counties COVID-19 vaccination policy. With the rising crime releasing public service officers would be a disservice to LA County residence. I will be monitoring the outcome of this policy and will vote accordingly on the next election.
Robyn Hosge	Medical choice should remain the best solution for all. Coerced and threatening requirements create distrust in the government, the health department, and the medical system as a whole. All information regarding the vaccine, including negative side effects should be made public and easy to find so that a truly informed decision can be made. Lack of reporting this information makes it look to the public as if things are being deliberately hidden. That is not how to get people onboard. I feel as though we are two years into this now, and we know more, we have better data about deaths and transmissions, we have a better understanding of those that died of/with

	prevent people from still getting infected and still transmitting the virus. The vaccines have mostly proven that infected individuals have a lower chance of dying from Covid-19 if immunized. This should not be a community or government overarching decision, but a decision made by each individual. Whether one decides to eat well or not, exercise or not, smoke or not, remove something from one's body or not, inject something into one's body or not — to increase or decrease one's chance to live — this should be a personal choice. The America I have known is where personal freedom and liberty triumphs. Please, I implore you, let freedom of choice reign. Stop the Covid-19 vaccine mandate.
Ronald Jacobus	I submitted my public comment: I am an LA county voter and oppose the LA County Code to Enhance Compliance with and Enforcement of the county's COVID-19 Vaccination Policy. Rosa Munoz	
Rosa Perez	
Rosa Rebamontan	
Rosa Rivera	
Rosa E Ramirez	
Rosa M Comparan	We all have the right to choose what is right for our bodies. I'm oppose to firing unvaccinated county employees.
Rosalie Hinojosa	
Rosalina Gomez	No
Rosalina Harris	
Rosangela F Kenney	Stop this nonsense for an experimental vaccine!
Rosanna J Salazar	
Rosario Ramirez	
Roscoe Williams	
Rose Johnson	As a person who has medical issues and cannot get the Covid-19 vaccine, this is unfair. Why would enforce it? If people want to get the vaccine, they will get it. If people can't or don't, they won't. What's the problem here? It's a choice and it seems like we can make our own choices. You have no right to interfere with that choice.
Rose OConnor	Why would you risk the lives of the people of Los Angeles County by forcing a dangerous vaccine on county employees and emergency personnel? You are terrorizing this entire community with your masks, your shots, and the destruction of our economy to the point of causing depression, drug and alcohol abuse and suicide all for your political power. You have pushed good citizens out of this state and destroyed families with your totalitarian, medical tyranny. I know that you all know this vaccine has near zero benefit and very high incidence of catastrophic side affects. Why would you wish harm to our employees? Anyone who forces or coerces people to take a vaccine that ends up hurting them should be held personally responsible under the Nuremberg Code.

	contract the virus and spread either way. The Supreme Court struck down the Biden Administration mandate to have large businesses require their employees to be vaccinated, the result will be no different if and when your decision reaches litigation. As a taxpayer of this county and state I do not want my money going to fight this ridiculous vaccination policy.
Rosio Morales	
Rossie Bonilla	
Roubina Khanlari	
Roxana Ortega	
Roxanne Smith	Strongly oppose
Roxanne B Hoge	Do not fire people for not taking a vaccine that doesn't stop the spread of an illness most of them had and recovered from.
Roxanne H Hoge	Not only are vaccine mandates unconstitutional and immoral, they are also wrong on scientific grounds and very bad public policies. Our law enforcement, fire, medical and health care professionals should have the rights to bodily autonomy, and firing the very people who stood on the front lines before they got a vaccine, and who likely have natural immunity, will harm LA County even more than it already has been.
Roya Sulaimankhil	
Ruben Pastran	Where does the control stop? People have freedom of choice.
Ruben Sanchez	
Ruby Kazmirski	
Ruby Piazza	It should be the choice of the person to be vaccinated!
Ruiz Frank	It's time to end all covid related mandates
Rumina Khachomian	
Rupertino Nepucemo	I oppose this agenda as these employees were considered essential and risked their lives throughout the entire pandemic and it is unjust to not allow them the right to work for money to provide for their families. It is clear that vaccination status has no affect on HOW someone can perform their job and it is also clear that vaccination status is not something that actually stops the spread of covid. I oppose this agenda and I wish you all can see how much harm this is doing to the employees and their families and how much stress this is causing based on something that simply "lessens symptoms" and doesn't actually stop anyone from contracting the virus. The agenda is baseless
Rushelle Izzo	The Covid shot is something that people should have a right to choose based off of their medical history and discussions with their private doctor. You don't have the right to dictate what people put into their bodies. Especially since evidence shows, the shot does not prevent everyone from catching Covid or

Sara Hanna	This would be detrimental to our already skyrocketing crime! If LASD is forced to terminate 18,000 employees for not being vaccinated I will fear greatly for my family's safety and will have to reconsider staying in this state and contributing substantial amounts of income tax and property taxes. I cannot imagine what havoc this would impose on any already understaffed department. Furthermore with the vaccinated still getting and transmitting this virus how can anyone consciously feel that everyone should be forced to receive this shot?!?!?
Sara Harooni	
Sara Harrison	Our first responders are beings heavily discriminated against. Please, do not usurp them based on their medical decisions. This is highly discriminatory and should not be tolerated in America.
Sara Huelskamp	Staff and level of care go hand in hand, let people go and quality of care for the citizens will drop.
Sara Khansari	
Sara Larquier	
Sara Larquier	Please do not force compliance in order to maintain jobs. I am a registered nurse and this forced compliance has been devastating for staff and for patients! Everyone is suffering. Short staffing and long wait times does not help promote health and wellness. Additionally, everyone should have the autonomy over their own bodies. Please, do not pass this for the sake of LA, for the sake of those who do not want this injection, for the sake of medical freedom.
Sara Ramsey	
Sara Rodriguez	
Sara Tate	
Sara W	
Sarah Black	
Sarah Brock	
Sarah Castro	Many will lose their jobs and it will effect community safety
Sarah Caughell	I am opposed to this action. Vote no.
Sarah Clayton	
Sarah De La Cruz	
Sarah DeSisto	There are 6 agenda items listed above discussing rewards for homicide victims. That is 6 too many. If we can't solve crimes without incentivizing the public with a monetary reward, how can you justify terminating our public safety officers and first responders? Sounds like we need all the help we can get. Termination of our "heroes" over a vaccine that does not stop the spread

	of this virus is absolutely ridiculous. Individual choice!! Let them do their job.
Sarah Ehram	Our front line workers have carried the brunt of the COVID burden since the pandemic started. Being on the front lines they have seen the effects of the disease. If they choose for whatever reason not to get the vaccine, that should be their choice! The purpose of the vaccine was to lessen the severity of the disease when someone gets it and to prevent hospitalization. As we've seen it does not annihilate the virus. The virus is already mutating to be less deadly. In a time where the effects of the lockdowns: unemployment, mental health issues, increased crime, etc, cry out for more public servants, it would be wrong to take them away for something that is not essential to their service. Vote no on agenda item 18 and support the civil servants who have supported our communities tirelessly and in the face of much opposition these past 2 years.
Sarah Francis	
Sarah Hermano	Don't force police officer to vaccinate. Medical freedom should always be the way to go and no one should be forced to do a medical procedure or lose their job. We already are flooded in crime and shortage of worker and we shouldn't lose police officers or any other worker over a personal decision.
Sarah Johansson	
Sarah Kettelkamp	Oppose
Sarah Kim	
Sarah Martinez	
Sarah Miles	How can the BOS try to change the La County Charter and try to take away employees rights and their protections to do whatever they want to ruin the lives and livelihoods of all these loyal county employees who simply want to have the freedom to chose what's right and best for their bodies??? What the Board is doing is tyrannical and against our democracy!!! How do you sleep at night knowing you're abusing your powers??? How much are you losing with Fulgent if employees don't register? Why was their no bid contract. Why trust a company who clearly states they can not guarantee our personal health information to be concealed and not shared with 3rd parties? Have the BOS even read the privacy policy on Fulgents Site???
Sarah Owen	They shouldn't be FORCED to do something to their body that they don't feel comfortable with.
Sarah Phillips	Given LA is hosting mega events, the emergency is over. Let the workers work. Let them decide what is best for their bodies. Stop the mandates.
Sarah Salazar	
Sarah Spicer	
Sarah Sulentor	Please oppose this item as it only further exacerbates the public health and safety services shortage that we are experiencing in Los Angeles county. Terminating the 18,000+ public servants does not improve public health outcomes, many of whom have natural immunity and know how to take the

	<p>not based in reality. The requirement of a vaccine that has been proven ineffective in preventing infection is unnecessary and quite honestly appears be being pushed merely out of spite for what you, the board, seem to think are incorrigible employees. And to you Ms. Kuehl, your singling out of the Sheriffs department is very obviously out of disdain for Sheriff Villanueva and the statistics you provided are being misrepresented to support your opinion, not facts.</p> <p>I'll close my statement with a request for you to vote to oppose this item. If not for what I and other constituents have said, please look back at item 5 (a significant child abuse) and items 8, 12, 13, 14, 15 and 16 (a total of 7 unsolved murders) and item 17 (report of a significant be fire). Are less cops, medical personnel, fire fighters and social workers helping LA County residents?</p>
Scott Coker	
Scott Guire	We are not your property. I do not belong to the state. You belong to we the people and the simple fact that you think you can enact a fascist medical apartheid in this country just shows that you are the embodiment of everything you say you are against. You are a criminal regime and need to repent NOW for your transgressions against humanity. I will pray for your salvation.
Scott Jerzek	Follow the science, Covid is a seasonal flu
Scott Sal	
Scott Stevenson	This is completely against the departments policy of equality and feels like a punishment for a difference of opinion. Not to mention the BOS is way over stepping by even thinking they can grant themselves what ever power they want. I am very disappointed with our BOS!
Scott Viers	
Scott I Bastian	Wake the hell up and do NOT do this!!!
Sean Casey	The County employees who refuse COVID vaccination should be terminated. No jab no job.
Sean Crane	Long term effects of Covid -19 vaccines are unknown and could be putting people at risk. It encroaches on fundamental freedoms of the people while the vaccine is not as effective as initially described. With the research behind Natural immunity developing and more effective treatments to the virus people have the right to decide what is best for them. In the world we have all lived through these last few years with COVID government has done nothing to curb the pandemic so why do they think now will be any different?

Sean Matthews	
Sean McNamee	
Sean Momi	This vaccine needs to be optional to everyone and not mandated especially while under the experimental stage of the vaccine.
Sean Monroy	
Sean Sorrow	
Sean Walton	firing so many would leave the county short on not only medical professionals in a pandemic. But with the high crime rate there wouldn't be enough police to keep people safe
Sean C Michaud	I do not want our Deputies or any one els punished for their vaccination status.
Sean W Mullaney	Time to scrap ALL COVID-19 restrictions and end all enforcement of COVID-19 restrictions, including any vaccine mandates. It is time for LA County to come into line with Finland, Sweden, Denmark, and more than 40 states and drop all mask mandates, vaccine mandates, etc. It is clear the interventions, "public health orders" and other measures have practically no effect in reducing transmission of COVID-19. All the measures should be repealed as states, cities, and countries all around the world are doing. I also believe it is time to fire Barbara Ferrer. She has provided bad advice to the Board of Supervisors and LA County residents for too long. If her advice were effective LA County would have fewer cases than Orange County but it turns out Orange County has done better with COVID than LA County has.
sebastian j terzoli	how dare you ppl try and terminate our workforce totally unacceptable these ppl were all being praised in beginning of pandemic and now you want to destroy their livelihood for an experimental vaccine.100%WRONG AND DISGRACEFUL
Seda Z Greaves	I full-heartedly oppose firing anyone exercising their right not to get this vaccine. This is outrageous.

Sergey Kovalenko	
Sergio Marquez	This is the United States of America where we have the freedom to choose what is best for our health and not have the government tell us what is. Our body our choice!
Sergio Martinez	
Sergio Otanez	
Sergio Venegas	Covids vaccine is not effective. I received a Covid shot through LA county to keep my county job and received adverse reaction to my heart. I had submit a VARS report through the government to keep track of this data. How do I sue LA county to my new heart condition and future medical issues
Seth Hall	<p>In my humble opinion, COVID vaccination policy has proven to be untenable. It appears on the surface to be a legitimate response to a public health threat, but, when you take human beings nature, the mixed messaging the public has gotten, the moving goalposts in terms of what it means to be effective, as well as looking at the data on adverse reactions to the vaccine-it becomes evident that each person should absolutely have the right to choose their own risk. The public understands that yes, we do have free will in terms of what we put in our bodies, which should not be punishable by loss of livelihood (County workers are typically heart-centered, caregiving driven people, to let them go would twist the fabric of an already teetering Los Angeles).</p> <p>Everyone I know knows SOMEONE who had an adverse reaction to the vaccine-which is unusual and casts serious doubt especially given that the vaccine did not keep us from getting COVID, nor did it keep the vaccinated out of the hospital. I know someone triple vaxxed who is currently on a ventilator in Simi Valley hospital. I understand that 99 percent of behaviors have a positive intention. Even the Mother or Father who yells at or beats their child believes they are teaching them a lesson or protecting them. However, these same children end up at my office steps processing and working through the trauma many years later.</p> <p>Be well, Be healthy, and speak to the heart of humanity,</p> <p>Respectfully,</p> <p>Seth T Hall</p>
Seth Hill	
Seth Homdish	So much crime in LA and you think firing unvaxed will help? Your going to have uncontrolled mobs with less cops. Please stop thinking politically with this vax and protect our people. We should not be firing anyone for not choosing a medical procedure that has no long term studies
Seth Klindworth	This is absolute retaliation. The author has absolutely no regard for the people of Los Angeles county. The fact that you want to put the safety of the citizens of LA county at risk over enforcing a "vaccination " that does not prevent the spread of a virus is absolutely insane.

Shannon Rinaldo	
Shannon Wooton	
Shant Akopyan	
Shareef Hall	Vaccination mandates that allow the county to fire 18k public employees including 4k LASD employees will cause public safety issues. Violent crime is up due to bad policy and LA County wants to double down and continue to pass bad policy which will cause public safety issues. Our representatives will be totally responsible for the devastation to the public and damaging the careers of 18k professionals who were on the frontlines before the vaccine mandate. The cowards behind the desk are throwing out the heroes. The dictators continue to rule and ruin California.
Shari Graber	
Sharie Abajian	
Sharis Nazari	
Sharon K	As an LA County employee who is not vaccinated I find this absolutely evil that the Board is even considering firing unvaccinated employees. Bodily autonomy is so important and it should be up to an individual person to decide what they want to do with their body, not the government and not the Board of Supervisors. Most of the people in my office who are out sick right now are vaccinated, and the ones who aren't vaccinated are not out sick. So where is the logic and science with that. People should not have their jobs taken from them for not wanting a shot. Countries like Israel and Gibraltar have some of the highest vaccination rates in the world, yet they have the most cases ever. Vaccines are not the answer to this, since this shows that it clearly doesn't work. Mandates have no place in a free society, and if this is voted through the people of LA County will not forget those who voted for this evil and vote them out.
sharon rizzi	It is scientifically, medically, and morally wrong to coerce and bully a person into getting an experimental injection against their will in order to keep their job and their ability to provide for their family. According to the CDC, the vaccinated and unvaccinated can catch and transmit at near-identical levels. So why force someone to get an experimental injection? It makes zero logical sense. If you were truly keeping up with science, you would admit that this make zero logical sense? Remove a mandatory covid injection policy. Please show the employees that have dedicated their life to serving the citizens of Los Angeles that you are a fair and caring employer to all. No segregation, no discrimination. My City. My staff. I am grateful for what they do for us each and every day. Let them work free of threat and coercion.
Sharon Tour	
Shauna Stokes	Per CDC natural immunity was SIX times stronger than vaccination against Delta. Full vaccinating including boosters DOES NOT prevent the spread of Omicron.

	Why are employees forced to comply with a medical procedure that doesn't even work and is less effective than natural immunity? Strongly oppose!
Shaunna Lofgren	This is an unconstitutional measure removing power from who we elected to do a job. It is also endangering public safety at the taxpayer expense."
Shawn Felis	
Shawn Kerkhoff	If you pass this and terminate first responders and ANY others, you are committing political suicide. You need to stop and think real hard about the consequences of your actions taken out of FEAR, COWARDICE, and POLITICAL PRESSURE. This is a make or break moment for each and every one of you. Don't be tyrants.
Shawn Milligan	
Shawn T Chapman	People should be free to choose what they put in their bodies.
Shayleen Mallick	I don't think it's ok to fire our first responders. They have been working through this whole pandemic before their ever was a vaccine. They put their lives on the line everyday for us and this is no way to repay them. At this point the vaccine is not even stopping the spread of the virus. Many of these first responders have even caught COVID while working on the job and have immunity to it. Why is that not even being considered? There are other illnesses that people catch and they are not expected to go get the vaccine after? Lastly, I am concerned for our public safety. Who will protect us? What chaos will ensue if all of these officers are fired? There are more important issues and we need to prioritize safety especially during these unstable times.
Sheena Lee	
Sheila Patterson	
SHEILA PRINCE	
Sheila Yogapan	No mandates at all - lift all illegal and draconian mandates and vaxx passports now!!!
Sheldon A Carter	
Shelley Bachelder	I oppose the firing of thousands and thousands of people who are our First Responders. Last year they were hailed as heroes, and this year if they don't get an injection they'll be fired? Ridiculous. We've got a far greater chance of needing their help than of getting sick by one of them. Stop being afraid and use your common sense.
Shelley Kresan	They were heroes before the vaccine, and now because they want to have bodily autonomy and make their own health decisions, you want to just throw them away. Crime is already horrible in Los Angeles County and upholding this disaster will make it worse. Don't you care about your constituents? Let our first responders keep their jobs.
Shelley Samuels	LA County Dept of Public Health and ALL state and local government agencies are taxpayer funded which means that they work for We the People, therefore we are NOT required to comply to unlawful lockdown orders,

	<p>mandates or requirements! We are required to follow the law!</p> <p>? There is no code of law or regulation that gives authority to a business to coerce individuals into providing private and protected medical information as a condition of commerce. No one is legally allowed to know if you have had any "vaccine". Federal laws protect our individual medical rights, not guidelines!</p> <p>? You can NOT ensure the health or safety of any individual under the illegal assumption that an individual is spreading an infectious disease. You have to prove that in a court of law. Under California Legislative Law, Civil Code 46 this is considered slander which is a crime and you can be served notice.</p> <p>The CDC is a corporately funded private organization that has convinced governments they are the authority over our health and well being. They have clearly shown inconsistencies and confusion regarding the efficacy of the medical interventions they have forced on us. Emergency orders and covid-19 measures are unlawful and illegitimate. They are in direct conflict with existing laws.</p>
Shelly Revere	
Shelly Sowers	
Sheri Huggins	Follow the science. Allow people to choose what they would like for their own bodies.
Sheri Olson	Enough is enough!!! Stop the madness!!! Support LEO even if they don't want or need the shot!
Sheri Pistone	
Sheri Stimson	<p>These are the same law enforcement professionals, fire professionals, medical & health care professionals, mental health professionals, and others who we called HERO's just a short time ago. Stop the mandates!</p> <p>#PublicSafetyMatters</p>
Sherri Gorham	
Sherry Harvey	Choice only.. This mandate is overreaching and not ethical. Support the Sheriff to support his employees. Protocol is in place for safety.
Shervin Molayem	
Sheryl Amster	
Shirley Agam	Vaccines do not prevent transmission. Those who wish to be vaccinated have that option available, and the virus' severity is attenuating. Have sufficient qualified emergency responder staff is infinitely more important and valuable that imposing an unnecessary mandate for an early-stage vaccine that wanes over time. How foolhardy it would be of you to follow through on this.

Stacey Marcus	This is entirely abhorrent. In California- we have always been "my body, my choice" state. If we don't have choice of what pharmaceuticals are injected into our bodies in order to keep our jobs and livelihood, we don't have choice. This is not the direction for California or America.
Stacey Payne	I STRONGLY OPPOSE #18 If this passes it will only increase the dangers of our streets and neighborhoods as well as being detrimental to people who need medical assistance or any form of help from first responders. We can afford to lose any first responders. Also, please be reminded that this vaccine is not stopping the transmission of this virus.
Stacey J Briones	
Staci Roth	
Stacy Hidalgo	
Stan Jassom	We need more police not less. Stop messing with our saftey over the BS politics .
Stefanie Chapa	
Stefanie Foulds	
Stefanie Vine	
Stelian Martinez	
Stella Sarkisyan	This is a gregarious infringement on personal rights, we cannot afford to lose the personnel!
Stella Sharbonow	
Stella Souza	This is so shameful! You are evil horrible people if you fire these individuals who have dedicated their lives to saving others. Quite sure your parents would be so disappointed in your actions!
Stephanie Allende	<p>I strongly oppose the termination of over 18,000 employees. You will be putting millions of LA county residents live at a greater safety risk if we lose this many first responders. Crime will skyrocket. 911 calls will be dramatically delayed if we lose this many deputies and firefighters. Hospitals will be overwhelmed if we lose even more nurses and doctors. These professions are already short-staff.</p> <p>The CDC stated the vaccine does not prevent or stop transmission. The Supreme Court deemed these mandates unconstitutional. The state is already at a 65% decline in cases and continues to rapidly decline. This is unethical.</p> <p>I assure you if you do this, you will be putting lives at an even greater safety risk.</p>
Stephanie Breault	
Stephanie Burkhart	Absolutely not!! We need to treat Covid 19 like flu and not like Ebola. There are plenty of studies regarding Covid symptoms and that they are 90 percent

	survivable with early and prophelatic treatment
Stephanie Buzo	
Stephanie Cardenas	By terminating all those people you deemed hero's during the hardest part of the pandemic and now terminating them after they put their health and their families health on the line is a true travesty. Not only will this affect public safety and health service among other vital areas in our communities, financially this would also be devastating to them and us by having more people on unemployment. Being vaccinated does not stop the spread of the virus, so as a vaccinated person I am at just as much at risk to contact covid as any unvaccinated person but I am protected. If they choose to not get vaccinated, the risk they are taking is on themselves. It's a no higher of a risk then coming to work during the peak of the pandemic when PPE was sparse and the the virus was so unknown. Forcing someone to take a vaccine is a violation of their constitution rights. The very thing that makes America who we are Land of the free. These people are all a vital contribution to make society safe and should be worrying about doing the jobs they have been hired to do not worried if they will be jobless after all the hard work they have put in.
Stephanie Carlson	
Stephanie Dacay	May God direct your hearts and minds as you make your decision.

Stephanie Smith	The evidence that the vaccine is useless is overwhelming. EVERYONE, whether vaccinated or not, is catching COVID. Requiring LA County employees to receive a shot that will neither protect them nor the public from catching COVID is asinine. I would ask the board to set their personal opinions of the vaccine aside and look at the matter objectively. If this vaccine has no power to protect or prevent contraction or transmission of COVID, then there can be NO reason to impose it on anyone. Thank you for your consideration.
Stephanie Sotomayor	Oppose
Stephanie Thompson	
Stephanie Thompson	Amending the code will cause severe problems for public safety. The Sheriff shall be the only one to enforce compliance. Stop the elitist control that is proving to not work.
Stephanie L Byrne	
Stephanie L Pellegrini	This is unlawful and tyrannical-- and soon you will see the illegality in it. drtrozzi.org/2022/02/07/reiner-fuellmich-grand-jury-to-stop-the-global-mass-murder/
Stephanie M Felix	I feel that each individual has a right to choice of what is put into there bodies. My son in law showed up when others were sick and he worked extra to make sure the public was safe. Taking away his right to choose, takes away from his family and children. We should not enforce this....
Stephanie R Sallinger	
Stephany Potze	This is madness - oppose!!
Stephen Aguayo	We called these people heroes not too long ago and they should have their rights and freedom of choice preserved. They were heroes yesterday, they are heroes today, and will be heroes tomorrow. I whole heartedly think it is sickening what is going on. Forever strong!!
Stephen Baker	The government's job is not to punish the citizens that have elected them into power. Their purpose is to protect them. Forcing vaccinations does not protect the citizens as a whole. The only harm that comes from someone not being vaccinated is theirs to bear alone. Being unvaccinated is not a danger to others, it is solely a danger to the unvaccinated individual. Destroying careers and taking away the livelihood of THOUSANDS of LA county workers is WRONG. Allow adults, parents, and their children to retain their right to consent to medical care and make the choices that they deem to be in their best interest.
Stephen Jackson	
Stephen Lane	
Stephen Mann	This is an extreme abuse of power by power hungry individuals. This is a democracy your extreme over reach of your power as ELECTED officials is disheartening.

Steve Campana	
Steve Deans	
Steve Horton	
Steve Isokane	
Steve Montoya	Stop the mandates, this is wrong to force people
Steve Rappoldt	
Steve Reigel	Absolutely disgusting you would fire quality people over a dated vaccine
Steve Trager	
Steve Yoder	natural immunity has been proven to be stronger than that given from vaccines. It is a fact that the vaccines target the alpha variant which is extinct and therefore there is no reason to even give that vaccine anymore it is useless against current strains. This subject has been politicized. Why terminate faithful employees?
Steven Aikman	
Steven Brefka	Overreach. Against US constitution and Nuremberg Code, insufficient time to evaluate vaccine efficacy to risk
Steven Jones	Can we just finally look around and realize that there is no difference in transmission whether someone has the vaccine or not? Is it really time to let people go over politics and not science? Isaiah 5:20
Steven Pivovarov	I strongly oppose this action. Public Safety versus crime and burglary will be jeopardized. A person shouldn't have to be forced to take this COVID shot if they don't wish to. It has not proven to prevent COVID and people who are vaccinated are still getting the virus and getting sick. The last 18 months, the Employees have worked and served the community. What happened to "My body, my choice" do some of you hold onto that belief? How can you now deny others that right?
Steven Resendez	
Steven Sansone	Awful. Do not release law enforcement willing to work from an already understaffed state.
Steven L Robbs	I am against the requirement of a COVID vaccine requirement for LA county employees. 1. COVID is not a lethal disease. The percentage of people who die out of the total population is less than 1 percent. 2. The FDA rushed the approval of COVID-19 vaccines. Normally it takes 10

	15 years for the agency to review safety data but the mRNA COVID vaccines were approved in less than 2 years. 3. There have been thousands of cases of adverse events from COVID-19 vaccinations reported to the Adverse Event FDA site. 4. The vaccines do NOT prevent contracting the Corona virus. In fact people who are vaccinated are getting the disease more than the people who are not vaccinated. 5. Natural immunity is better than the vaccine.
Steven O Guerrero	
Steven S Sansone	This is outrageous. If you pass this you will lose 18,000 LA County Employees, including 4000 members of the Sheriff's Department. You will cripple Services and Safety in LA County. Do not succumb to the politics of this issue. Rather stand for individual liberty and allow each person to make their own personal choice regarding their health and medical needs. Do the right thing here. Vote No on this item.
Sue Seo	Do NOT FIRE OUR CITY AND COUNTY WORKERS! Los Angeles is already strained. WhT is wrong with this picture!!! Make sure to give everyone a damn choice this vaccine is a big ass failure!!!
Sulay Rodriguez	
Summer Bailey	
Summer Parker	
Summer Peachey	If I have been able to work in the jail environment during the pandemic, I should be able to choose whether I have to be vaccinated.
Summer Whiteside	No person should be forced to get something they don't believe in to keep their job. My body my choice should apply here as well. The vaccine doesn't prevent transmission or infection therefore it should not be mandated
Sung Nah	
Sung Woong Lee	I oppose on agenda 18.
Surena White	
Susan Barnes	
Susan Cosola	Let the employees retain their rights to choose or NOT choose to take a vaccine.
Susan Dominguez	
Susan Evon	I strongly oppose the vaccine mandate as unconstitutional and stand for every citizens right to choose how they manage their own bodies. Those that go against the Constitution go against the law of the land as written by our founding fathers. We are not a socialist system with tyrants running our country. Please adhere to these principles and protect the rights of Sheriff Alex Villanueva and his staff. We need good police in LA.
Susan Gilpin	Public safety will be at risk!!

Susan Graves	Unconstitutional Punishing our heroes is wrong!!! It's not a one size fits all decision!
Susan Herrick	I oppose!!!! Vaccinated people are contracting Covid and spreading it!!! There should not be a mandate for ANYONE to receive a vaccine that is not preventing the spread!!!!
Susan Kampff	I oppose mandatory vaccination as a condition for employment for anyone, especially since the Omicron virus is very mild. At a time when most counties are lifting their mandates you seem to be doubling down on terminating our much needed law enforcement, fire, healthcare and other county workers. This would be devastating to public safety and public health because of increased crime and shortage of healthcare workers. Considering we are now dealing with a much milder virus. These mandates need to END!
Susan Kilpatrick	This is a disgrace. Let the members work. They are no bigger threat than their vaccinated coworkers. Read the actual science
Susan Lang	I just got a text from my nephew. Hes worked at DTLA For LA county 22 years. He said that he will not be employed if you pass this. I speak with our Walnut City council. And believe me they will hear about these mandates. Many of us vote and have money to donate. But to take away people's choice in their health is wrong. Maybe you are getting rich and donations from Vaccine companies. Is this why you are pushing them? Something isn't right. We all know vaccines don't stop COVID or from people passing COVID. Me and my wife are vaccinated and we still passed to eachother. They dont work. Vote no.
Susan Lindgren	Where there is risk there must be choice.
Susan Luong	
Susan Nila	
Susan OConnor	COVID infection rates and positivity rates have dropped considerable over the last week; the winter surge appears to be ending. Now is not the time to require vaccines for county workers when COVID is moving from pandemic status to endemic status. We need all our county workers working now, especially those in the Sheriff department to protect people from high crime rates. Please oppose implementing changes to the compliance and enforcement of the vaccine polity, in light of recent improvements of COVID infections and the near-term change of COVID to endemic status.
Susan Oda	Please stop the forced vaccinations, and testing . I am strongly opposed to this forced medical experiment. It is discriminatory against people who want choice and those who are not able to get the vaccines for medical / religious reasons. People are getting fired from their jobs or cannot find work because they made a choice not to get vaccinated. This is unconstitutional. The vaccine does not stop the spread and will not protect others per CDC. Many

Tanya Emrani	
Tanya Torres	
Tara Buenrostro	
Tara Fuller	Unacceptable and unethical!!
Tara Haggiag	We the people vehemently oppose this bill that jeprodizes the livelihood of the very people who put their lives on the line for us all during the early stages of the pandemic and throughout each of our lives. It is dispicable that such bills are even being contemplated and those associated with them shall be remembered and held accountable.
Tara Rice	
Tara Vero	History will not be on your side to force medical treatment that carries known risk. This is a momentous time in our history and forcing people to choose between their health and their job is exactly what this mandate does. Stop this madness. Clearly these injections are not helping with Covid transmission or contraction of the virus. True and accurate hospitalization rates are also not being helped by this injection. Stop the lies. Choose humanity.
Tatiana Gomez	Every individual has the right to chose. They don't need to be vaccinated to work! Stop this craziness!!!!
Tavi Martinez	
Taylo Conzelman	We must end this. We are no longer in a state of emergency when we are holding the super bowl. No one is taking this seriously at all and the fact that we could potentially lose 4,000 police officers due to this unhinged mandate should be of much more concern to whoever is currently in charge of this dystopian hellscape. This used to be the best city in American, and those in charge are hellbent on sending it on a death spiral.
Taylor Coleman	
Taylor Graham	A person should not have to choose between their livelihood and something they may not agree with or are unable to take. At this point it is clear the vaccine doesn't stop transmission plus the variants are continuing to become weaker as is what naturally happens with a virus. This will only harm more people by taking away their jobs and ability to live life
Taylor Portesi	
Taylor N Karp	
Tennille Greenfield	
Terah Madrid	
Teresa Chavez	
Teresa Husoen	
Teresa Monroy	Remove all mandates

			Terrence Dick	Mandating injections that have no completed long term studies is immoral! No mandates!
			Terrie Coats	
			Tess Goodrich	You are doing our community a huge disservice by firing good workers who serve our communities. Their body, their choice for what they put into it! With the amount of adverse health events occurring because of this vaccine, these amazing workers have every right to practice bodily autonomy and refuse to take it! Firing people who are not vaccinated and only allowing vaccinated people to work is DISCRIMINATION. Equal opportunity employment requires that employers do not discriminate based off of sexual orientation, racial, or medical reasons. You have no right to take away people's jobs. If only vaccinated people are allowed to work, there will be no one to cover for them when they get covid and then you will have people coming into the work place and spreading the virus you supposedly wish to get rid of. This is backwards, unethical, and ineffective leadership. Please oppose this. It will backfire and sick people will be working simply because they are vaccinated while healthy people won't be allowed to work because they aren't. This doesn't make sense!
			TESS Yu	
			Tessa Dautremont

Thomas Faulker	overstepping on our health choices. This is a virus. No vaccine, no mask mandates and no lockdowns are going to stop this. Do the right thing and vote this down.
Thomas French	
Thomas Greek	
Thomas Guzman	We relied on these employees to serve us during the worst of the pandemic, and now the BOS wants to discipline them? That is disgusting.
Thomas Harper	This attempt to undermine the authority of each departments ability to handle their own business should be seen as a tyrannical over step of authority. What would happen if the State did not agree with your decisions and voted to take your authority away in your own county. If you don't like the decisions of the Sheriff, find someone to beat him in the next election. This is how democracy works. Not a tyrannical power play!
Thomas Schilling	
Thomas Song	
Thomas Sosa	
Thomas Thornton	This is a bad call.
Thomas J Onyshko	I am opposed to this motion as you should as well. As we saw with the delta and omicron variants vaccinations failed to prevent individuals who were considered vaccinated from contracting and from passing the virus. The latest studies continue to suggest that natural immunity is higher then ever. And as with the latest omicron variant subsiding significantly. As stated by Governor Newsome and Dr. Fauci, this is now a period to transition towards an endemic. There is no need for tighter compliance / enforcement regulations. We need to move back towards a life where this is now an infection that we will have to live with. Have information campaigns but we need to allow individuals their right to choose what they feel is best for themselves.
Thomas M Spagnola	
Tiana Harrelson	
Tiffani E Zinner	
Tiffany Atkinson	
tiffany behfarin	
Tiffany Felis	
Tiffany Johnson	
Tiffany Maloch	This is ridiculous we live already in a very unsafe county, and your answer to safety is to fire city workers who choose to come to work and want the right, which is god given already, to choose what goes into their bodies.

Tiffany Rotteau	Oppose
Tiffany Smith	This hinders the safety of the county tremendously .
Tiffany Wampler	
Tiffany Yu	Agenda #18. I strongly oppose any mask, test or vaccine mandate and support individual choice. How can we possibly terminate thousands of law enforcement, fire fighters, medical health care professionals and others during a time when their services are desperately needed? Furthermore, it is now widely known that both vaccinated and unvaccinated can catch and spread COVID, and we should not force vaccinations. These professionals are the same "heroes" we thanked and should continue to have our support and freedom of choice.

Tiffany D Buccini	This is an absolute attack on public safety and those that need it the most in emergency situations. This is only going to cause loss of life and destruction of city safety. The increased liability that this will cause will be catastrophic!!
Tim Bidon	for number 2 I oppose mandatory COVID tests, Vaccines, masks and all discriminatory policies intended to make life more difficult for the unvaccinated; specifically our children. for number 2 I oppose mandatory COVID tests, Vaccines, masks and all discriminatory policies intended to make life more difficult for, small businesses, employers and employees who have been impacted by unnecessary and unscientific policies and the unvaccinated; specifically our children!
Tim Burns	
Tim Carlson	
Tim Hanna	I oppose this as it would be detrimental to the safety of our community and the surrounding communities. The local crime rate is continuing to get worse. If LASD is forced to terminate 18,000 employees for not being vaccinated, you can sure bet that the safety of families in these communities will be gone. No one should be forced to get a shot that does not stop the spread or transmission of covid. As covid dwindles there should be no reason that anyone in any career should be forced to get a shot. Please keep our officers on the streets and the people of the communities safe.
Tim Maurer	
Tim OQuinn	
Tim Toton	
Tim Wolford

Tracee Miller	stared COVID in the face since day one! They couldn't call in sick, take vacations, work from home, or hide in the homes like everyone else. When we knew nothing about COVID, they risked their lives and they served their communities like heroes. Stop these ridiculous mandates!!!!
Traci Carpenter	
Tracy Gamboa	County employees should not be forced to get vaccinated. Vaccines were meant to protect the individual against sickness and disease. Not to protect others from you. So if someone wants to take that risk, they have that right.
Tracy Harkins	Firing employees based on their vaccination status would be irresponsible and scientifically unjustified. There is risk inherent to every medical intervention. There is no long term data available on the Covid-19 vaccine. Some individuals have experienced adverse reactions (serious in some cases) to the Covid-19 vaccines. Per the CDC, the Covid-19 vaccines are not able to prevent transmission or infection. Los Angeles needs all available public safety personnel on hand and ready to work. We need more experienced public safety personnel, not fewer. It would be wasteful, unethical, irresponsible, and in complete disregard of current factual data to dismiss personnel based on Covid-19 vaccination status. Furthermore, long term safety data take years and years to compile and many times risks come out years after medical interventions are FDA approved. Privacy and freedom are important safeguards and should not be disregarded. Finally, in light of available facts, dismissing individuals based on Covid-19 vaccination status, would open the county to enormous legal liability, legal bills, and is not in the best interests of the county as an organization, and is not in the best interests of the residents of Los Angeles County. Please oppose.
Tracy Harris	
Tracy Rivera	
Travis Braun	End the mandate. I worked the front lines for the past two years... I have seen ALOT of covid... I have tested over 30 times... Always negative. One can't even call It a vaccine, it should be called a therapeutic. A vaccine means you don't get the virus. A therapeutic diminishes the symptoms. Many vaccinated people are still contracting the virus. Therefore it should not be mandated.
Travis Calka	
Travis Studt	
Travis Studt	No forced vax mandate.
Travis Vasquez	
Travis C Sharbonow	No
Travis T Berenbach	
Trevor Bell

Trevor Mustin	
Trevor White	Being vaccinated should be a choice not a mandate. These individuals have put the community first since the very beginning and now you're trying to tell them they don't have a choice. Let them have it.
Trini Hue	
Trinity Ocampo	
Trinity M Belville	
Troy Anderson	
Troy Bowser	I strongly oppose the totalitarian enforcement of unwanted medical procedures , especially something that is proven to be an effective as people are still getting sick and transmitting covid 19. Of the large number of LA county sheriffs who have contracted covid 19, many of them are also among the vaccinated. Allowed them to continue testing and maintain public safety as well as protect the other county entities from this unnecessary unnecessary amendment. This appears to be nothing more then a new and different way of attacking the LA County Sheriff who is knowingly disliked by the Board of Supervisors. If this was about science the natural antibodies would be taken into account for which many County employees who are unvaccinated have already infected and successfully recovered.
Troy Huskey	Our front line heros don't deserve this they have been working with covid day one and most if not all have gotten COVID twice now and stronger natural immunity than the ineffective vaccine. I strongly oppose this and ask you find a different solution
Tuesday DeJong	
Tyla Donnell	I oppose this policy.
Tyler Bleiberg	I oppose
Tyler Koester	First of all this is an over reach of power, secondly you are trying to enforce vaccination policies for a "vaccine" that is not effective in preventing infection and has harmful and deadly side effects that are being covered up. Your decision to fire hardworking people that should have their own rights to their own medical decisions is unacceptable.
Tyler Shook	Vaccines should be a choice. Especially, for those that have already had COVID. Studies have already proven that natural immunity is better than the vaccine. We cannot afford to loose any of our public safety members.
Tyler A Milton	
Tyler J Marshall	
Tylor Cavallo	The right to hire/suspend is to stay within the body of the fire dept.
unanimous unanimous	
V T	America is built on freedom of choice, let's leave it that way

Vadim Rozengurt	Firing these amazing people would be a catastrophe for LA County. They are no less healthy and no less safe. Civil rights, human rights and common sense should be the guiding lights of this decision.
val paniccia	see attached document
Valentin Zuniga	Bad policy
Valentina Grigoryan	
Valentina Grigoryan	These political games need to come to an end. Yesterday's HEROs, who unconditionally devoted to their jobs, putting themselves and their families at risk, worked tirelessly to save lives. Today, they are at risk of losing their jobs. Many other States and Counties have stopped the mandates. LA County BOS needs to put a stop to this social injustice, controlled by the politics. What happened to our freedom? Where's my right to make my own medical decisions? Why is my religious beliefs not taken into consideration? It feels like prisoners have more freedom than I do. Leave us alone, it should be my decision whether I choose to be protected against the virus or not. If the vaccine is so effective, then whoever choses to get vaccinated should only worry about themselves and feel protected and keep on getting boosted. Good for them! No one can take my rights away, it is my right if I want to get flu vaccine or not, this should be an option too. LEAVE US ALONE!!!!!!
Valerie Carrillo	We have seen time and time again that the vaccine does not stop the spread of Covid-19. There should be no punishment for the people who have chosen to wait to get the vaccine.
Valerie Cripps	I am in OPPOSITION to this bill I OPPOSE this deplorable idea to get rid of the people who support us. NO NO NO.
Valerie Franco	
Valerie J Poertesi	
Valvina Mejia	
Vanessa Barriga	
Vanessa Black	
Vanessa Bryan	
Vanessa Calvillo	
Vanessa Cherry	At a time when staffing is problematic our county should not be terminating good and experienced employees! Furthermore, CDC, scientists and researchers around the world have determined that a vaccinated employee is just as much at risk for spreading Covid as an unvaccinated person so that cannot be your rationale for this decision. If you're concerned about the employee's individual health and perhaps the consequence of that to the business in general, then you're dealing with discrimination and you should go back and look at all your labor laws addressing employees private medical information.

	<p>unconstitutional and a violation of civil rights. People have the choice of medical freedom in this country and you are violating their basic human rights in which our country was founded on. You do not "mandate" your employees to have any other "vaccinations" as a condition of their employment, so why is this "shot" any different than the flu shot, or any other vaccination?</p> <p>This is nothing short of a political ploy and it's a disappointment to not only the people who serve your county day in and day out, but to the citizens in which they serve (who will suffer the most with longer response times and more crime). Most of these employees served the County during the height of the "pandemic" without being vaccinated and they continue to serve today, unhindered by their personal choices.</p> <p>Please do the right thing and oppose Agenda Item #18.</p> <p>Thank you for your time.</p>
Wendy Aguilar	
Wendy Arrington	
Wendy Dodson	People are getting covid and spreading it whether they are vaccinated or not. Employees are complying to the weekly testing...let them keep doing that. Do not fire unvaccinated heroes!!!!
Wendy Fraire	Do not risk public safety by terminating public servants due to vaccination policy. They have been there since day 1 in the unknown on the frontlines without vaccines then. Do not do this. This is very wrong.
Wendy Ramirez	
Wendy C Reeves	Dr. Fauci has stated publicly that vaccinated and non vaccinated people carry the same viral load and contract and spread at the same rate. There is no scientific reason to segregate and fire employees. This would be an illegal action. This action puts our city at great risk while understaffed.
Wes Schroeder	
Wesley Jun Kim	I saw this on DB Vote. We do not agree with firing these good people. Supervisors if you don't vote down these mandates we will be losing many good long time employees. I really hope we don't lose good police. We like the service we get in Diamond Bar/Walnut. Asians are always targeted. And LASD makes us feel safe.
Whitney Campbell	
Whitney Contreraz	
Whitney Dungey	We live in a free country! Stop trying to strip your citizens rights to freedom
Will Koby	This is wrong. These were the same people you used to laud as hero's. Shame on you for trying to fire them. This isn't about protecting the public. There has not been a single case of a first responder transmitting CoVid to the public. As humans, they have the right to choose what they put inside

Yasmin Porro	
Yasmin Porro	The children need to be UNmasked. Why should the least at-risk population be forced to muzzle themselves when the politicians aren't required to follow their own bogus legislations?
Yeranui Stambulyan	You have not enforced it until now, why start now when numbers are declining and majority of the population has contracted it thus developing natural immunity
Yesenia Cruz	
Yesenia De La Cruz	
Yesenia Haberman	
Yesenia Segura	We need police officers! We need firefighters and nurse! They have the right to choose the medical choices.
Yesenia Verjan	
Yesenia G Olvera	I think this will put LA county citizens in danger of more crime and less law enforcement presence. We need more officers in LA county not to fire them. There are other ways to keep the citizens safe with the Covid-19 Vaccine policy.
Yi Zhang	The experimental Covid vaccine can't stop transmission and it doesn't have long term data to support its safety. It is criminal to mandate covid vaccine.
Yissel Saltos	I oppose this bill. And reconsider as to NOT pass this Bill
Yolanda Estrada	
Yolanda Mead	It is unconstitutional for ALL PEOPLE!
Yolanda Rodriguez	I oppose mandates.
Yooka Liong	Vaccine mandate is illegal.
Young Sook Lee	I oppose on agenda 18.
Yoxana Crouch	
Yumiko Bonilla	The public is dealing with a crises of higher crime rates. If voted to terminate employees you are putting the city at risk of more increases in crime rates. Also adding it would be discriminating to terminate the unvaccinated when the vaccinated are also contagious to the public. For example during the 2021-2022 wave of Covid majority were vaccinated who got onnicron/ Covid . Please view vaers under the cdc to see the data. If you vote this in then I feel the public that are not vaccinated should not receive any assistance as well since you would only keep the vaccinated, so why get them near the unvaccinated since you are planning to terminate the unvaccinated. You will definitely see big issues. It's unfairness and discriminating when both sides can be affected no matter what. Also want to add your vote will also affect

	those with medical severe allergic reactions in which your county has said they are considered unvaccinated. Very unfair.
Yuna Shi	
Yuridia V Alvarado	
Yvette Camacho	
Yvette Mattes	
Yvonne Davis	
Yvonne Esqueda	I oppose the termination of employees that are unvaccinated. When Covid began and no one had vaccines, these people put their lives on the line each day to protect and serve. Now the the board wants to vote to terminate them because of their choice to not get the vaccine and this makes no sense. For those who are fully vaccinated it will be more difficult to do their job with less help which puts them in more danger. I have several family members in law enforcement in Los Angeles County that are vaccinated but I strongly oppose the termination of those who are not. I don't agree with their choice but that is their choice. Terminating these employees puts employees and the public in danger especially with the crime rate rising and less penalties for those committing crimes. I believe in the vaccines and I am fully vaccinated and boosted. I urge the board members to oppose this.

	Candice Van devender	We need to stop reverse the compliance and enforcement for the Covid vaccination policy. The shot is not working to stop the spread. Everyone around us who has gotten repeatedly sick has been vaccinated. How can you enforce a shot that FDA AND Pfizer has yet to provide the Release of COVID Vaccine Safety Data and requested 75 years to release? A federal judge denied the delay and must provide this year.
	Christina Adam-Martinez	Our county is in more danger when short staffed, than it is with unvaccinated people working. As vaccinated people can still get and spread covid, these vaccine mandates are nothing but tyrannical overreach.
	Claudia Villegas	The policy needs to be canceled completely. The policy is too drastic for a virus with mild cold symptoms. My family all recovered in less than 5 days and all we had was a simple headache. Plus it's known that vaccinated people also transmit the virus just as equally. So being vaccinated doesn't stop the spread.
	Dawn Ver Steeg	Unmask kids
	Delmy Portillo	I say keep people employed wether vaccinated or not. If they have had covid aren't they protected anyway?
	Emily L Barsh	Forced drugging of people with neither want nor need said drug is criminal. Further, you know full well that neither of the mRNA shots currently available to the public have FDA approval. The ones that do are on the shelf for the future, and will likely never see the light of day. Remember when they were available and optional? Yeah, exactly. As discussed by mainstream public health officials, there is no public health benefit. The benefit is private/personal, should one choose to take the shot. Hospital numbers -- by your own admission -- are high because of people who test positive. And that's because -- as documented in mainstream media -- there's a financial incentive. Thanks!
	Gavine Nusome	Unmask The Kids!!
	Genevieve M Clavreul	While I'm a supporter of encouraging all who can get vaccinated should do so, I'm not in support of the mandating it. I strongly feel that the Board should try to pursue the carrot versus the stick method and I would hope that the County should explore these options more vigorously.

Janet Kings	No disciplinary action
Javier Villegas	So many other nations have declared that covid is no longer classified as deadly or worth any more restrictions. We should all move on from this state of emergency already.
Jennifer E Crafts	I am vaccinated and boosted. When data showed that vaccines drastically reduced transmission vaccine mandates made a lot of sense. However they no longer do, unfortunately. The EU is starting to drop their vaccine mandates and we need to move that way as well. Individuals have the tools to protect themselves. But I am not any more protected by vaccinated people, nor are they protected by my vaccine. Vaccine mandates only further separate and exclude people of color and children. Education and outreach is far more effective than punitive measures.
Kathleen Gambarelli	End indoor mask mandates for all individuals!!
Leslie De Vries	Unmask the kids
Linda Isai	UNMASK THE KIDS! Drop the mask mandates.
Marita Kakuk	Let people make their choice and do not force mandatory vaccinations for any of the county employees (or for anyone in general). Many of our hero's are forced to quit because of this policy and we really can not afford to lose them. The vaccine is ineffective in preventing Covid and long term effects are still not known. Let people make their own medical decisions.
Megan Minnema	Unmask the kids
Nicole Marr	Vaccine should be a choice and not a mandate!
Noah McLaughlin	Unmask the kids!!
Oana Isai	End the mandates. Vaccination should be a choice, not a mandate. The Covid vaccine hasn't stopped transmission nor infection. We now have treatments.
Patricia Ortiz	I hope you all will make a decisions not to contribute to the unemployment of county employees. Looking at it from both sides and coming to a resolution would be in the best interest for both parties. A win-win situation. I am concerned that if the termination of these employees goes into effect this will cause safety issues and other problems within the county of Los Angeles. Thank you for your time.
pouyan broukhim	Our children have not had a normal school year since 2019. For two years we have written to this Board begging for relief for our children. For two years, you have put the unions and special interests ahead of our children. Experts around the world and our own US Surgeon General have sounded the alarm of a mental health crisis in our children due to the pandemic school closures and continued restrictions. Our children are in crisis, and YOU continue to ignore it. Not a single message from LA County Public Health addresses the social, emotional, and mental harm done to our children. This is an epic failure by this Board and the Public Health Department. Our children were locked out of their schools and sports for over a year. Now

				<p>that the school doors opened, our children are distanced from friends, masked for 7+ hours a day, with no parties, field trips or fun. Children are being forced to wear masks to run, exercise and play sports, even outdoors. Children are made to believe that people would get sick and die from the simple act of them breathing. None of these restrictions are imposed on adults.</p> <p>We will not let you ignore us anymore. We will not let you harm our children no longer. The testing, quarantining, and masking of our children needs to end now.</p>
			Rudy Melendez	<p>medical mandates VIOLATE Human Rights (Natural Rights)</p> <p>Any effort this board takes to fire LA County employees by religious, medical or personal belief discrimination will haunt you all for the rest of your days on this earth.</p> <p>Communism kills. Don't be on the wrong side of history.</p>
			Samantha Ortiz	Unmask the kids
			Sara Medrano	
			Stephanie MARTINEZ	Stop the mandates.. our body let us choose
			Veronica Griffith	Do not terminate our county workers for wanting a choice in their medical matters. You are supposed to represent us and we can vote you out. Do not fire all these county employees.

February 6th, 2022

Dear Los Angeles Board of Supervisors,

As a very concerned parent of two teen girls at Palos Verdes High School, a long time resident of Palos Verdes, good standing tax payer, and single working Mom I am very disappointed to see these Covid-19 related mandates continuing due to the "state of emergency" ordinance still in effect at our schools.

The long term detrimental social, academic, and mental health effects that mask wearing, vaccine identification and excessive testing, discrimination and humiliation has on our children is awful contributing to a massive spike in suicide rates and depression in teens. It is the responsibility of our state to make their safety as just as a high priority than a possible risk of COVID among kids that have an extremely low likelihood of contracting the virus and even lower rate of any serious side effects.

Why are we under a state of emergency?

- My understanding that attendance in my school district alone is stable at 95%!
- The governor, politicians, and celebrities have appeared at major public events, e.g., the most recent Rams game unmasked while our children are subject to these daily mandates.
- Los Angeles is hosting the Super Bowl! How could anyone with any logic believe we are in the state of an emergency when we are hosting 100,000 people alone at that stadium.

Please consider this as a plea and share my concerns with the appropriate decision makers and take the following actions:

- Put an end to mask mandates in school
- End asymptomatic testing of school staff and students (most of those tests are made in China, the origin of the pandemic)
- End unfair and excessive unfair quarantine practices intended to humiliate and make life more difficult for those who cannot or do not need the vaccine
- And by no means move forward with any mandatory vaccines for children to attend schools that that rightfully should be allowed to get an education causing further division, discrimination

I hope you embrace this with the spirit which is intended – we need to protect our children!

Kind Regards,

Kathleen Blue

From: Los Angeles County Professional Peace Officers Association (PPOA)
188 E. Arrow Highway
San Dimas, CA 91773

**Re: Agenda Item #18 Amending the Los Angeles County Code to Enhance Compliance
with and Enforcement of the County's COVID-19 Vaccination Policy**

Dear Board of Supervisors:

PPOA objects to the recommendation as submitted by Supervisor Kuehl to instruct County Counsel, in consultation with the Chief Executive Officer and Director of Personnel, to submit at the March 15, 2022, regular Board meeting amendments to the Civil Service Rules that would provide the Director of Personnel overriding authority to discipline the employees of any County Department for noncompliance with the County's Policy or directives related to the COVID-19 Vaccination Policy (Policy).

PPOA submits that any attempt to usurp the authority of the appointing authority, namely the Sheriff, is violative of established legal precedent limiting the power of a BOS over the appointing authority as well as the protections afforded on the Peace Officer's Bill of Rights (POBR).

The expansive authority of the Sheriff extends explicitly from the County's Charter, which describes the Sheriff as an elective County officer (County Charter Article IV, Section 12) that "shall have the powers and perform the duties now or hereafter prescribed by general law, and by this Charter..." (Article VI, Section 25). In addition, the California Government Code prescribes further instructions for how the responsibilities of the Sheriff, as an elected County Officer, are shared along with the County Board of Supervisors.

California Government Code Section 25303 provides that:

“The board of supervisors shall supervise the official conduct of all county officers, and officers of all districts and other subdivisions of the county, and particularly insofar as the functions and duties of such county officers and officers of all districts and subdivisions of the county relate to the assessing, collecting, safekeeping, management, or disbursement of public funds. It shall see that they faithfully perform their duties, direct prosecutions for delinquencies, and when necessary, require them to renew their official bond, make reports and present their books and accounts for inspection. *This section shall not be construed to affect the independent and constitutionally and statutorily designated investigative and prosecutorial functions of the sheriff and district attorney of a county.* The board of supervisors shall not obstruct the investigative function of the sheriff of the county nor shall it obstruct the investigative and prosecutorial function of the district attorney of a county. Nothing contained herein shall be construed to limit the budgetary authority of the board of supervisors over the district attorney or sheriff.”

Any attempt to take over the Sheriff’s ability to oversee the disciplinary process for his employees, it is submitted, would certainly not survive legal scrutiny by the Courts who would likely find the BOS exceeded their authority under well-established legal principals. Such supervisory control by the BOS would directly conflict with the admonition that ‘the board has no power to perform county officers’ statutory duties for them or direct the manner in which duties are performed...’ (*Hicks v. Board of Supervisors* (1977) 69 Cal.App.3d 228, 242; see also *People v. Langdon* (1976) 54 Cal.App.3d 384, 388-390 [county clerk].) Consistent with the *Hicks* rationale, the Supreme Court has ruled that the supervisory authority of a board of supervisors over the county assessor is limited to ensuring the faithful performance of the duties of that office, and does not permit the board to control, directly or indirectly, the manner in which the duties are performed. (*Connolly v. County of Orange* (1992) 1 Cal.4th 1105, 1113, fn. 9).” (emphasis added) *Id.* at 87-88. Accordingly, the BOS inserting themselves into the personnel decisions of the Sheriff, whether or not to discipline his employees, is a direct attempt to “control” the manner upon which the Sheriff wishes to deploy his employees whether it be while wearing masks and being tested on a regular basis, or be fully vaccinated. Both of which are consistent with State and Federal law.

Moreover, Government Code section 3301 (POBR) provides that:

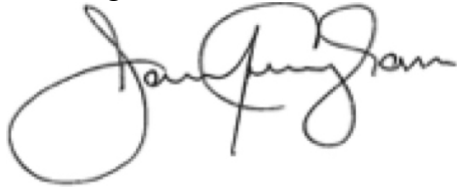

“The Legislature hereby finds and declares that the rights and protections provided to peace officers under this chapter constitute a matter of statewide concern. The Legislature further finds and declares that effective law enforcement depends upon the maintenance of stable employer-employee relations, between public safety employees and their employers. In order to assure that stable relations are continued throughout the state and to further assure that effective services are provided to all people of the state, it is necessary that this chapter be applicable to all public safety officers, as defined in this section, wherever situated within the State of California.”

Nowhere in the Government Code, nor in the State Constitution, is there any authority for the notion that a BOS could substitute themselves into the role of the “employer” and or avoid the mandates and protection afforded by POBR for all sworn personnel. To do so would upend

decades of legal precedent confirming the sole authority to discipline its sworn employees rest solely with the appointing authority (employer).

PPOA respectfully requests that the BOS not pursue any amendments to the Civil Service Rules that would provide the Director of Personnel overriding authority to discipline the employees of any County Department for noncompliance with the County's Policy or directives related to the COVID-19 Vaccination Policy (Policy).

Janice Hahn, Kathryn Barger, Celica Savala, Holly Mitchell, Hilda Solis, Shelia Kuehl: I want to state my disgust of this item #18. I believe we live in America where a person has the right to chose for themselves what they put in their body. These amazing men and women of the LASD have not questioned rather to respond to a call or not. They have not questioned who should get help and who shouldn't. At a time when crime is out of control, you members of the LA Co. Board of Supervisors want to reduce our first responders? LASD and all those who have done their jobs? You all disgust me and I am telling you as a LA Co. tax payer and as a voter, none of you will receive a vote from me and I will influence as many people as possible.

Why don't you do your job of taking care of what you take care of and let the Sheriff's Department do what they are trained to do, along with all other LA Co. workers who for whatever reason, has chosen for themselves to not be vaccinated. It is a personal choice. This is AMERICA why don't you act like you live here?

I don't mean to be disrespectful, but you all have been doing and saying things that have really been off base for some time. I have let it go, but now that you want to destroy LA Co's ability to protect its citizens by letting go of 4000 LASD and other first responders...you've gone to far.

This item #18 is awful. It has no place and is a waste of time and resources. I say no on item #18!!!!

LA Co. resident and tax payer.

Subject: February 8th Agenda - Item #18
Date: Monday, February 7, 2022 9:53:49 PM

To L.A. County Board of Supervisors,

Regarding Agenda Item #18:

I think it is wrong to terminate County of Los Angeles employees for not being vaccinated. If they have complied to testing once a week while attending work, then they deserve to keep their job. I work for a school district with employees not vaccinated. These employees were tested once a week. Ironically, in January more teachers that were vaccinated and boosted caught COVID more than unvaccinated.

These are the same medical and health care professionals, mental health professionals, law enforcement professionals, fire professionals and others who we have called HERO's during the pandemic.

They should not lose their job!

Debra Davis

Subject: 2/8/22 Agenda item 18. Amending the Los Angeles County Code to Enhance Compliance with and Enforcement of the County's COVID-19 Vaccination Policy
Date: Monday, February 7, 2022 4:29:51 PM

Dear Board of Supervisors,

As a life long resident of Los Angeles County, and a retired L.A. County District Attorneys Office employee of over 32 years, I respectfully ask you to REJECT the 2/8/22 Agenda item 18. I AM fully vaccinated and boosted for Covid 19, and I firmly believe in vaccines. However, I object to this amendment to the County Code as it would result in subjecting a large number of competent, professional and essential County employees, (whose views may differ), to discipline and/or termination when their service is critically needed, particularly for public safety. Crime has increased and our safety has diminished. Please vote NO on Agenda item 18 and help keep our communities fully staffed with law enforcement personnel and other essential employees.

Thank you for your consideration.

This application claims priority to U.S. Provisional Patent Application No. 62/993,345, titled "Method of Treating and Preventing COVID-19 Infection," filed Mar. 23, 2020, U.S. Provisional Patent Application No. 63/022,371, titled "Method of Treating and Preventing COVID-19 Infection," filed May 8, 2020, U.S. Provisional Patent Application No. 63/002,494, titled "Method of Using Vitamin C, Vitamin D, Zinc, and Optionally Hydroxychloroquine, to Prevent COVID-19 Infection," filed Mar. 31, 2020, U.S. Provisional Patent Application No. 63/022,368, titled "Method of Using Vitamin C, Vitamin D, Zinc, and Optionally Hydroxychloroquine, to Prevent COVID-19 Infection," filed May 8, 2020, and U.S. Provisional Patent Application No. 63/001,161, titled "Method of Using Aerosolized Hydroxychloroquine, Vitamin C, and Zinc to

Treat Covid-19 Infection,” filed Mar. 27, 2020, the contents of which are incorporated by reference in their entirety.

BACKGROUND

COVID-19 is a novel betacoronavirus that originated in bats in the city of Wuhan, China. This disease has rapidly spread to become a worldwide pandemic, as declared by the World Health Organization (WHO). Symptoms of COVID-19, including fever, myalgia, coughing and shortness of breath, may appear from 2 and 14 days after exposure. Approximately 20% of patients progress to severe illness, including pneumonia, respiratory distress, and even death. Cases in the US have increased five-fold over the last week, alone. The disease is spreading rapidly, and a cure is desperately needed.

Nucleotide analogues, protease inhibitors and altered cellular bonding due to pH change will maximize host protection by: optimizing levels of gamma interferon and reducing the level of pathogenic microbes in the airways, especially in ‘at risk’ patients.

It is known that single anti-viral agents work poorly when used alone in other chronic viral infections such as Hepatitis C or HIV infection. Therefore, the greater the number of anti-viral agents used in combination, the greater the cure rate.

Thus, there is a significant unmet need for preventing and treating this viral infection. The present invention addresses this need.

SUMMARY

In a first embodiment, the invention herein is directed to my method of preventing COVID-19 infection in an individual. The method of prevention comprises the steps of providing an individual that is not infected with COVID-19; administering four antimicrobials to the individual, wherein the antimicrobials comprise: chloroquine or hydroxychloroquine; vitamin C; vitamin D; and zinc; and monitoring the individual's condition over a pre-determined amount of time to determine the individual does not become infected with COVID-19.

Optionally, the method of prevention comprises administering hydroxychloroquine in a daily dosage range of 20 mg to 2,000 mg; administering vitamin C in a daily dosage range of 250 mg to 10,000 mg; administering vitamin D in a daily dosage

range of 1,000 mg to 100,000 mg; and administering zinc in a daily dosage range of 5 mg to 100 mg.

Optionally, the method of prevention comprises administering, on day 1: two doses of 200 mg of hydroxychloroquine; one dose of 3,000 mg of vitamin C; one dose of 3,000 mg of vitamin D; and one dose of 50 mg of zinc; and administering on day 2: one dose of 3,000 mg of vitamin C; one dose of 3,000 mg of vitamin D; and one dose of 50 mg of zinc.

The step of administering on day 2 can be performed for as many days as a supervising physician deems necessary.

The antimicrobials can be administered orally in the form of an aerosolized spray.

The two doses of hydroxychloroquine can be administered as a single daily dose.

In a second embodiment, the invention herein is directed to my method of treating an individual infected with COVID-19. The method of treatment comprises the steps of: providing an individual infected with COVID-19; administering five antimicrobials to the individual, wherein the antimicrobials comprise: chloroquine or hydroxychloroquine; azithromycin; vitamin C; vitamin D; and zinc; and monitoring the individuals condition over a pre-determined period of time to determine whether the individual is no longer infected with COVID-19.

Optionally, the method of treatment comprises administering hydroxychloroquine in daily dosage range of 20 mg to 2,000 mg; administering azithromycin in a daily dosage range of 250 mg to 500 mg; administering vitamin C in a daily dosage range of 250 mg to 10,000 mg; administering vitamin D in a daily dosage range of 1,000 mg to 100,000 mg; and administering zinc in a daily dosage range of 5 mg to 100 mg.

Optionally, the method of treatment comprises the steps of: administering, on day 1: two doses of 200 mg of hydroxychloroquine; one dose of 500 mg of azithromycin; one dose of 3,000 mg of vitamin C; one dose of 3,000 mg of vitamin D; and one dose of 50 mg of zinc; administering daily, on days 2 to 5: two doses of 200 mg of hydroxychloroquine; one dose of 250 mg of azithromycin; one dose of 3,000 mg of vitamin C; one dose of 3,000 mg of vitamin D; and one dose of 50 mg of zinc; and administering daily, on days 6 to 10: two doses of 200 mg of hydroxychloroquine; one dose of 3,000 mg of vitamin C; one dose of 3,000 mg of vitamin D; and one dose of 50 mg of zinc.

The antimicrobials can be administered orally in the form of an aerosolized spray.

The two doses of hydroxychloroquine can be administered as a single daily dose.

The method of treatment can further comprise administering daily, on days 6 to 10, administering one dose of 250 mg of azithromycin.

BRIEF DESCRIPTION OF THE DRAWINGS

Further advantages of the present invention may become apparent to those skilled in the art with the benefit of the following detailed description of the preferred embodiments and upon reference to the accompanying drawings in which:

FIG. 1 is a flow chart depicting the steps of a method of preventing infection of an individual with COVID-19;

FIG. 2 is a flow chart depicting the steps of a method of treating an individual infected with COVID-19;

FIG. 3A is a graphical representation of whole genome alignment of SARS-CoV-2 in patient 1 of Example 6;

FIG. 3B is a graphical representation of whole genome alignment of SARS-CoV-2 in patient 3 of Example 6;

FIG. 3C is a graphical representation of whole genome alignment of SARS-CoV-2 in patient 4 of Example 6;

FIG. 3D is a graphical representation of whole genome alignment of SARS-CoV-2 in patient 6 of Example 6;

FIG. 3E is a graphical representation of whole genome alignment of SARS-CoV-2 in patient 8 of Example 6;

FIG. 3F is a graphical representation of whole genome alignment of SARS-CoV-2 in patient 10 of Example 6;

FIG. 3G is a graphical representation of whole genome alignment of SARS-CoV-2 in patient 11 of Example 6; and

FIG. 3H is a graphical representation of whole genome alignment of SARS-CoV-2 in patient 12 of Example 6.

DETAILED DESCRIPTION

As used herein, the following terms and variations thereof have the meanings given below, unless a different meaning is clearly intended by the context in which such term is used.

The terms “a,” “an,” and “the” and similar referents used herein are to be construed to cover both the singular and the plural unless their usage in context indicates otherwise.

As used in this disclosure, the term “comprise” and variations of the term, such as “comprising” and “comprises,” are not intended to exclude other additives, components, integers ingredients or steps.

Referring now to the drawings, wherein like reference numerals designate identical or corresponding features throughout the several views. Further, described herein are certain non-limiting embodiments of my pipeline filter assembly for pool filtering and maintenance.

The following discussion describes in detail multiple embodiments of the invention with several variations of those embodiments. This discussion should not be construed, however, as limiting the invention to those particular embodiments. Practitioners skilled in the art will recognize numerous other embodiments as well.

In a first embodiment, the present invention is directed to a method of preventing COVID-19 infection in an individual. The method involves administration of chloroquine or hydroxychloroquine, Vitamin C, Vitamin D, and Zinc. Both methods are discussed in greater detail below.

Referring now to FIG. 1, there is shown the method of prevention. The method of prevention comprises administering four different antimicrobials. The four antimicrobials comprise: chloroquine or hydroxychloroquine, vitamin C, vitamin D, and zinc.

Day 1 the individual takes the following, ideal, regimen outlined in Table 1:

TABLE 1 Drug AM Dose PM Dose Hydroxychloroquine 200 mg 200 mg Vitamin C 3000 mg — Vitamin D 3000 mg — Zinc 50 mg —

Optionally, the method of prevention can comprise administering on day 2: 3,000 mg of vitamin C; 3,000 mg of vitamin D; and 50 mg of zinc.

Hydroxychloroquine is administered only on day 1. The half-life of hydroxychloroquine is up to 32 days, thus treatment with this drug for one day should be sufficient. However, should the need to prevent the infection or disease last longer than 32 days, repeat dosing can be considered. Accordingly, if necessary, the cycle of day 1 followed by day 2 can be repeated weekly, 2nd-weekly, every 3 weeks, 4 weeks, 5 weeks, 6 weeks, 7 weeks, or 8 weeks.

Vitamin C is administered at 3,000 mg per day ongoing. This 3,000 mg can be broken up into two 1500 mg doses, one taken in the morning and one taken at night.

Vitamin D is administered at 3,000 mg per day ongoing. This 3,000 mg can be broken up into two 1500 mg doses, one taken in the morning and one taken at night.

Zinc is administered at 50 mg per day ongoing. This 50 mg can be broken up into two 25 mg doses, one taken in the morning and one taken at night.

Chloroquine or hydroxychloroquine can be administered in a daily dosage range of 20 mg to 2,000 mg. The above amounts recited in the tables are not limiting.

Vitamin C can be administered in a daily dosage range of 250 mg to 10,000 mg. The above amounts recited in the tables are not limiting.

Vitamin D can be administered in a daily dosage range of 1,000 mg to 100,000 mg. The above amounts recited in the tables are not limiting.

Zinc can be administered in a daily dosage of 5 mg to 100 mg. The amount of Zinc can be reduced to 25 mg per day if gastrointestinal upset occurs.

Zinc, Vitamin C and D help in numerous aspects of viral protection through cellular metabolism, including catalytic activity of enzymes, and play roles in immune function, protein synthesis.

The chloroquine or hydroxychloroquine can come in various forms: as a pill, liquid solution, lozenges, topical treatment such as a cream or oil, or any other means of

delivery. Hydroxychloroquine prevents cytokine release, and cytokine release is what causes anaphylactic flush. Optionally, the hydroxychloroquine is sprayed directly on the users tongue.

In the method of prevention described above, all, or any combination of, the four antimicrobials disclosed above can be administered in the form of a single small atomizer. The patient sprays the atomizer towards the back of their throat. The spray is administered at least once a day, but preferably twice a day when coughing starts. Use of the atomizer continues as directed by the supervising physician.

In a second embodiment, the present invention is directed to a method of treating an individual with infection or disease with five different antimicrobials. The five antimicrobials comprise: hydroxychloroquine, azithromycin, vitamin C, vitamin D and zinc. Referring now to FIG. 2, there is shown the method of treatment.

Day 1 following positive test (isolation), the individual takes the following regimen outlined in Table 2:

TABLE 2	Drug	AM Dose	PM Dose	Hydroxychloroquine	200 mg	200 mg	Azithromycin
				500 mg	—	Vitamin C 3000 mg	—
				Vitamin D 3000 mg	—	Zinc	50 mg
							—

On Day 2-Day 5 the individual takes the following regimen outlined in Table 3:

TABLE 3	Drug	AM Dose	PM Dose	Hydroxychloroquine	200 mg	200 mg	Azithromycin
				250 mg	—	Vitamin C 3000 mg	—
				Vitamin D 3000 mg	—	Zinc	50 mg
							—

On Day 6-Day 10, the individual takes the following regimen outlined in Table 4:

TABLE 4	Drug	AM Dose	PM Dose	Hydroxychloroquine	200 mg	200 mg	Vitamin C
				3000 mg	—	Vitamin D 3000 mg	—
				Zinc	50 mg		—
							—

Hydroxychloroquine is administered daily, at 200 mg twice daily for days 1-10.

Azithromycin is administered daily, at 500 mg on day 1, and 250 mg days 2-5. Optionally, azithromycin can be administered at 250 mg per day for 5-10 days with a loading dose of 500 mg×day 1 or simply 250 mg on day 1. Azithromycin may be substituted with doxycycline at a daily dosage range of 25 mg to 800 mg, for those unable to take azithromycin.

Vitamin C is administered at 3,000 mg per day ongoing. This 3,000 mg can be broken up into two 1500 mg doses, one taken in the morning and one taken at night.

Vitamin D is administered at 3,000 mg per day ongoing. This 3,000 mg can be broken up into two 1500 mg doses, one taken in the morning and one taken at night.

Zinc is administered at 50 mg per day ongoing. This 50 mg can be broken up into two 25 mg doses, one taken in the morning and one taken at night.

Chloroquine or hydroxychloroquine can be administered in a daily dosage range of 20 mg to 2,000 mg. The above amounts recited in the tables are not limiting.

Vitamin C can be administered in a daily dosage range of 250 mg to 10,000 mg. The above amounts recited in the tables are not limiting.

Vitamin D can be administered in a daily dosage range of 1,000 mg to 100,000 mg. The above amounts recited in the tables are not limiting.

Zinc can be administered in a daily dosage of 5 mg to 100 mg. The amount of Zinc can be reduced to 25 mg per day if gastrointestinal upset occurs.

Concurrently with the above treatment, the individual is self-quarantined per CDC recommendations.

Optionally, for the method of treatment noted above, as the dosages of the hydroxychloroquine, vitamin C, vitamin D and zinc remain the same throughout treatment, all four of those antimicrobials can be administered in the form of a single small atomizer. The patient sprays the atomizer towards the back of their throat. The spray is administered at least once a day, but preferably twice a day when coughing starts. Use of the atomizer continues as directed by the supervising physician.

For all protocols provided in this application, vitamin C dosage can range from 250 mg to 10,000 mg per day, vitamin D dosage can range from 1000 IU (mg) to 100,000 IU (mg) per day, zinc (which can be any form or type of zinc) dosage can range from 5 mg to 100 mg per day, and hydroxychloroquine dosage can range from 50 mg to 2,000 mg per day for a treatment period of 1 to 10 days treatment. Optionally, hydroxychloroquine can be administered once as single dose. For all protocols provided in this application, when a dosage range is provided, any dosage amount that is included in that range can be administered. Accordingly, the invention is not

limited to the dosage ranges disclosed, and includes all dosage amounts contained in those ranges.

Optionally, the above protocols can include selenium, copper and other vitamins that are deemed acceptable supplements for vitamin C, vitamin D or zinc or to counteract the negative depletion of certain vitamins, which is why copper or selenium are typically used.

Treatment can be for one day or consecutive or repeated in 2 weeks, 1 month, 6 months or 1 year, or weekly for 6 months.

The above protocols can be used to treat other viruses (not just COVID-19), including other flu and various respiratory viruses, including more benign coronaviruses and rhinoviruses.

The above protocols can also be used to treat Autism, Parkinson's, Alzheimer's and other neurological diseases.

EXAMPLES

Example 1: Hydroxychloroquine, Vitamin C, Vitamin D, and Zinc for Prevention of COVID-19 Infection

Objective:

To determine whether treatment with hydroxychloroquine, vitamin C, vitamin D, and zinc in combination will prevent infection with COVID-19 and to assess the safety and tolerability of hydroxychloroquine, vitamin C, vitamin D, and zinc in healthy, high-risk individuals without hypertension, and no evidence of COVID-19 infection.

Procedure:

Day 1: Prescription of study drugs and home health monitoring equipment. The study drugs are hydroxychloroquine 200 mg twice a day for 1 day only, vitamin C 3000 mg per day ongoing, vitamin D 3000 mg per day ongoing, and zinc 50 mg per day ongoing per day. The home health monitoring equipment is an electrocardiogram (EKG) which synchs up with a smartphone

Days 2-7: Patient collects the EKG once during this week using the home health equipment

Weeks 1-23: Patient provides an assessment of any COVID-19 symptoms and continues to collect EKG weekly throughout the remainder of the trial

Week 24: Patient undergoes confirmatory COVID-19 testing which consists of nasopharyngeal (NP) and oropharyngeal (OP) swabs collected according to CDC (Center for Disease Control) protocol. The swabs consist of synthetic fiber swabs with plastic shafts. NP swabs are collected by insertion of a swab into the nostril parallel to the palate. The swab is left in place a few seconds to allow it to absorb secretions. OP swabs are inserted into the oropharynx parallel to the palate, avoiding the tongue. The swab is left in place a few seconds to allow it to absorb secretions. The swabs are then immediately placed in sterile tubes with 2-3 mL of viral transport media. The tubes are placed in biohazard bags then boxes and couriered to the local Public Health Lab.

Table 5 provides a schedule of events for Example 1.

TABLE 5	Screening	Weeks	Week Assessment (Day 1)	Day 3	1-23	24	In-formed consent
	and demographics	X	Review of prior and concomitant medications	X	EKG at home	X	
	X	Prescription of Hydroxychloroquine, vitamin C, vitamin D, and zinc					Provision of
	home health EKG and pulse oximeter	X	Update list of prior and concomitant medications	X	X	X	Ask about any adverse events and any serious adverse events
	X	Evaluation of COVID-19 symptoms	X	X	COVID-19 testing	X	Blood draw for future testing
	X	Vitals in-clinic	X	Physical exam	X		

Regarding Table 5: Vitals at home to include EKG and O2Sat, future testing will require separate informed consent and could possibly include antibody or cytokine testing, and vitals in-clinic to include height, weight, blood pressure (following 5 minutes sitting) pulse, respiratory rate, temperature, and oxygen saturation.

Example 2: Randomized, Double-Blind, Placebo-Controlled Phase IIA Study of Hydroxychloroquine, Vitamin C, Vitamin D, and Zinc for the Prevention of COVID-19 Infection

Objectives:

Prevention of COVID-19, Lack of COVID-19 symptoms, and assessment of safety and tolerability

Procedure:

Screening Period (Days -5 to -1): Prescription of home health monitoring equipment that includes a thermometer, a pregnancy test if applicable, and a daily diary. There are two groups being studied: Arm 1 and Arm 2.

Arm 1 is prescribed the following antimicrobials: hydroxychloroquine 200 mg twice a day for 1 day only, vitamin C 3000 IU per day for 12 weeks, vitamin D 3000 IU per day for 12 weeks, and zinc 50 mg per day for 12 weeks. The zinc can be reduced to 25 mg if GI upset occurs.

Arm 2 is prescribed the following antimicrobials: Placebo twice a day for 1 day only, vitamin C 3000 IU per day for 12 weeks, vitamin D 3000 IU per day for 12 weeks, and zinc 50 mg per day for 12 weeks. The zinc can be reduced to 25 mg if GI upset occurs.

Day 1: Patient is called to teach them how to use the diary in the EDC, discuss the medication regimen, and answer any questions they may have. Patient takes pregnancy test if applicable, collects a temperature reading, completes their diary, and takes the prescribed treatment regimen. Table 6 outlines the prescribed treatment regimen for Day 1.

TABLE 6 Drug AM Dose PM Dose Hydroxychloroquine (or placebo) 200 mg 200 mg
Vitamin C 3000 mg — Vitamin D 3000 IU — Zinc 50 mg —

Day 2: Patient collects a temperature reading, completes their diary, and is called on the phone for assessment of any adverse events or serious adverse events, assessment of any COVID-19 symptoms, the list of prior and concomitant medications is updated, any questions the patient has are answered, and the patient takes their prescribed treatment regimen. Table 7 outlines the prescribed treatment regimen for Day 2.

TABLE 7 Drug AM Dose PM Dose Vitamin C 3000 mg — Vitamin D 3000 IU — Zinc 50 mg —

Days 3-10: Patient collects a temperature reading, completes their diary, and takes their prescribed treatment regimen. Table 8 outlines the prescribed treatment

regimen for Days 3-10.

TABLE 8 Drug AM Dose PM Dose Vitamin C 3000 mg — Vitamin D 3000 IU — Zinc 50 mg —

Day 14: The patient is called for instruction on how to collect a nasal swab and package for shipping, assessment COVID-19 symptoms, updating their list of prior and concomitant medications, and answering any questions they may have.

Weeks 3-11: The patient is called weekly for assessment of any adverse events or serious adverse events, assessment of any COVID-19 symptoms, updating their list of prior and concomitant medications, and answering any questions they may have. The patient takes weekly temperature readings, completes their diary, and takes the prescribed treatment regimen. During Week 4 the patient is reminded to collect a nasal swab. The prescribed treatment regimen for Weeks 3-11 is shown in Table 9.

TABLE 9 Drug AM Dose PM Dose Vitamin C 3000 mg — Vitamin D 3000 IU — Zinc 50 mg —

Week 12: The patient presents to the clinic for evaluation that includes assessment for adverse events and serious adverse events, updating their list of prior and concomitant medications, a physical exam, nasal swab collection and COVID-19 sample collection.

Samples for COVID-19 testing are collected using synthetic swabs with plastic shafts. Nasal swabs are collected and immediately placed into a sterile vial with 2-3 mL of viral transport media. The vials are placed into biohazard bags, boxed up, the box sterilized, and picked up for shipment to the central laboratory. Samples are tested by RT-PCR.

Table 10 presents the schedule of events for Example 2.

TABLE 10 Day Day Day Day Weeks Month Month Month Assessment Screening 1 2 3-10 14 3-12 1 2 3 Informed Consent & Demographics X Initial Review of Prior X and Concomitant Medications Medical Records review, X including baseline EKG Randomization X Prescription of X Hydroxychloroquine or placebo, vitamin C, vitamin D, and zinc Provision of daily diary, X thermometer and pregnancy test Pregnancy Test if applicable X Temperature at home X X X X X X X X Complete daily diary X X X X X X X X Hydroxychloroquine 200 mg X Vitamin C 3000 mg X X X X X X X

Regarding Table 10: The Zinc may be reduced to 25 mg if GI upset occurs, phone/video calls to the patient occur weekly during Weeks 2-11, and vitals in-clinic include height, weight, blood pressure (following 5 minutes sitting) pulse, respiratory rate, temperature, and oxygen saturation.

Statistical Analysis:

The treated patients in this study are compared to the placebo group. Measurements include PCR test results, presence or absence of symptoms, and symptom severity.

The change of these measurements from the end to the baseline (post-pre) are used as the primary outcome, for example, $\mu_e = \mu_{e1} - \mu_{e0}$, where μ_{e1} and μ_{e0} are the outcome of patients from the treatment group at the end and at baseline, respectively.

$H_0: \Delta \leq \delta_0$ against $H_a: \Delta > \delta_0$ where δ_0 is a clinically meaningful threshold to measure the disease symptoms. In this study, that meaningful threshold is calculated as mean change in clinical symptoms as recorded in the diary, from baseline through week 12. Each category in the diary is assigned a number, 0 for None, 1 for Mild, 2 for Moderate and 3 for severe. Each category is analyzed independently and as a group.

Categorical variables are summarized by presenting the number (n) and percent (%) of subjects in each category. All Statistical tests for the analysis are performed using the $p < 0.05$ level of significance. All confidence intervals are one-sided.

Since these are healthcare workers who are exposed to COVID-19 at every shift, efficacy is determined by RT-PCR testing, as well as the presence or absence of symptoms as recorded in the patient diary via EDC.

Example 3: Use of Hydroxychloroquine, Azithromycin, Vitamin C, Vitamin D, and Zinc to Treat COVID-19 Infection

Objectives: test the efficacy of hydroxychloroquine, azithromycin, vitamin C, vitamin D, and zinc in the treatment of patients with COVID-19 infection and to assess the

safety and tolerability of this treatment in patients with COVID-19 infection.

Procedure: First, the patient is determined to have COVID-19.

Day 1 following positive test (isolation): The patient takes prescribed regimen outlined in Table 11.

TABLE 11 Drug	AM Dose	PM Dose
Hydroxychloroquine	200 mg	200 mg
Azithromycin	500 mg	—
Vitamin C	3000 mg	—
Vitamin D	3000 mg	—

Day 6-Day 10: The patient takes the prescribed regimen outlined in Table 13.

TABLE 13 Drug	AM Dose	PM Dose
Hydroxychloroquine	200 mg	200 mg
Vitamin C	3000 mg	—
Vitamin D	3000 mg	—
Zinc	50 mg	—

Follow-Up Period: Month 1 (outpatient only AFTER negative test): vital signs are taken that include blood pressure, heart rate, respiratory rate, oxygen saturation, temperature), the patient is assessed for adverse events and serious adverse events, and swabs for PCR are taken.

Month 3 (outpatient): vital signs are taken that include blood pressure, heart rate, respiratory rate, oxygen saturation, temperature), the patient is assessed for adverse events and serious adverse events, and swabs for PCR are taken.

Month 6 (outpatient) vital signs are taken that include blood pressure, heart rate, respiratory rate, oxygen saturation, temperature), the patient is assessed for adverse events and serious adverse events, and swabs for PCR are taken.

Month 9 (outpatient) vital signs are taken that include blood pressure, heart rate, respiratory rate, oxygen saturation, temperature), the patient is assessed for adverse events and serious adverse events, and swabs for PCR are taken.

Month 12 (outpatient) vital signs are taken that include blood pressure, heart rate, respiratory rate, oxygen saturation, temperature), the patient is assessed for adverse events and serious adverse events, and swabs for PCR are taken.

COVID-19 sample collection procedure is as follows: nasopharyngeal (NP) and oropharyngeal (OP) swabs are collected according to CDC protocol. The swabs comprise synthetic fiber swabs with plastic shafts. NP swabs are collected by insertion of a swab into the nostril parallel to the palate. The swab is left in place a few seconds to allow it to absorb secretions. OP swabs are inserted into the oropharynx parallel to the palate, avoiding the tongue. The swab is left in place a few seconds to allow it to absorb secretions. NP and OP swabs are immediately placed in sterile tubes with 2-3 mL of viral transport media. The tubes are placed in biohazard bags then boxes and couriered to the local Public Health Lab. Table 14 outlines the schedule of events for Example 3.

5000 mg	Daily	Zinc	50 mg	Daily	

Example 4: Randomized, Double-Blind, Placebo-Controlled Phase IIA Study of Hydroxychloroquine, Azithromycin, Vitamin C, Vitamin D, and Zinc to Treat COVID-19 Infection

Objectives: Test the efficacy of hydroxychloroquine, azithromycin, vitamin C, vitamin D, and zinc in the treatment of patients with COVID-19 infection and to

assess the safety and tolerability of this treatment in patients with COVID-19 infection.

Procedure: First, the patient's diagnosis of COVID-19 infection is confirmed.

Screening Period (Days -3 to -1): Prescription of home health monitoring equipment that includes a thermometer, a pulse oximeter, a pregnancy test if applicable, and a daily diary. There are two groups being studied: Arm 1 and Arm 2.

Arm 1 is prescribed the following antimicrobials: Hydroxychloroquine 200MG BID for 10 days; Azithromycin 500 mg on day 1, 250 mg day 2-5; Vitamin C 3000 mg for 10 days, then 1500 mg for 20 days; Vitamin D 3000 IU for 10 days, then 1500 IU for 20 days; and Zinc 50 mg for 10 days, then 25 mg for 20 days.

Arm 2 is prescribed the following antimicrobials: Placebo for Hydroxychloroquine BID for 10 days; Placebo for Azithromycin to be taken 2 the on Day 1, then 1 on Days 2-5; Vitamin C 3000 mg for 10 days, then 1500 mg for 20 days; Vitamin D 3000 IU for 10 days, then 1500 IU for 20 days; and Zinc 50 mg for 10 days, then 25 mg for 20 days. Table 16 outlines the prescribed antimicrobials discussed above.

TABLE 16 Treatment Method Medication Dose Frequency Quintuple

Vitamin C	3000 mg	Daily	Vitamin D	5000 mg Daily
Zinc	50 mg	Daily		
Placebo	Placebo 1 tablet BID	Placebo 2 tablets day 1, then 1 Daily tablet day 2-5		
Vitamin C	3000 mg	Daily	Vitamin D	3000 IU Daily
Zinc	50 mg	Daily		

Treatment Period: Day 1 following positive test (isolation), the patient is video called to ensure they have all study materials and the following is discussed: Use of home health equipment, Subject will take baseline measurements at this time and record it in the diary, Diary and how to transmit its contents, Medication dosing, Subject will take pregnancy test if applicable, Subject will use provided equipment to measure vital signs such as EKG, Oxygen Saturation, and Temperature. The patient takes prescribed regimen outlined in Table 17.

TABLE 17 Drug AM Dose PM Dose Hydroxychloroquine (or Placebo) 200 mg 200 mg Azithromycin (or Placebo) 500 mg — Vitamin C 3000 mg — Vitamin D 3000 IU — Zinc 50 mg —

Day 2: The patient completes the AM and PM diary entries, the patient uses the provided equipment to measure vital signs such as EKG, Oxygen saturation, and temperature, and the patient takes the prescribed regimen outlined in Table 18.

TABLE 18 Drug AM Dose PM Dose Hydroxychloroquine (for Placebo) 200 mg 200 mg Azithromycin (or Placebo) 250 mg — Vitamin C 3000 mg — Vitamin D 3000 IU — Zinc 50 mg —

Day 3: The patient is called and asked if they are experiencing any difficulties with swab collection, whether there have been any adverse events and/or serious adverse events, the list of prior and concomitant medications is updated, the patient is asked about symptom resolution or progression, the patient is instructed on how to collect nasal swabs, and the patient then collects the first nasal swab. The patient completes their AM and PM diary entries, and collects their vital signs such as EKG, oxygen saturation and temperature. The patient takes the prescribed regimen outlined in Table 19.

TABLE 19 Drug AM Dose PM Dose Hydroxychloroquine (or Placebo) 200 mg 200 mg Azithromycin (or Placebo) 250 mg — Vitamin C 3000 mg — Vitamin D 3000 IU — Zinc 50 mg —

Day 4: The patient completes their AM and PM diary entries, collects their vital signs, and takes the prescribed regimen outlined in Table 20.

TABLE 20 Drug AM Dose PM Dose Hydroxychloroquine (or Placebo) 200 mg 200 mg Azithromycin (for Placebo) 250 mg — Vitamin C 3000 mg — Vitamin D 3000 IU — Zinc 50 mg —

Day 5: The patient completes their AM and PM diary entries, collects their vital signs, collects a nasal swab, and takes the prescribed regimen outlined in Table 21.

TABLE 21 Drug AM Dose PM Dose Hydroxychloroquine (or Placebo) 200 mg 200 mg Azithromycin (or Placebo) 250 mg — Vitamin C 3000 mg — Vitamin D 3000 IU — Zinc 50 mg —

Day 6: The patient completes their AM and PM diary entries, collects their vital signs, and takes the prescribed regimen outlined in Table 22.

Drug AM Dose PM Dose Hydroxychloroquine (or Placebo) 200 mg 200 mg Vitamin C 3000 mg — Vitamin D 3000 IU — Zinc 50 mg —

Day 7: The patient is called and asked whether there have been any adverse events and/or serious adverse events, the list of prior and concomitant medications is updated, the patient is asked about symptom resolution or progression, and the patient then collects a nasal swab. The patient also completes their AM and PM diary entries and collects their vital signs. The patient takes the prescribed regimen outlined in Table 23.

TABLE 23 Drug AM Dose PM Dose Hydroxychloroquine (or Placebo) 200 mg 200 mg Vitamin C 3000 mg — Vitamin D 3000 IU — Zinc 50 mg —

Day 8: The patient completes their AM and PM diary entries, collects their vital signs, and takes the prescribed regimen outlined in Table 24.

TABLE 24 Drug AM Dose PM Dose Hydroxychloroquin (or Placebo) 200 mg 200 mg Vitamin C 3000 mg — Vitamin D 3000 IU — Zinc 50 mg —

Day 9: The patient completes their AM and PM diary entries, collects their vital signs, and takes the prescribed regimen outlined in Table 25.

TABLE 25 Drug AM Dose PM Dose Hydroxychloroquine (or Placebo) 200 mg 200 mg Vitamin C 3000 mg — Vitamin D 3000 IU — Zinc 50 mg —

Day 10: The patient is called reminded to decrease dosage of vitamins C, vitamin D, and zinc tomorrow. The patient is asked whether there have been any adverse events and/or serious adverse events, the list of prior and concomitant medications is updated, and the patient is asked about symptom resolution or progression. The patient also completes their AM and PM diary entries and collects their vital signs. The patient takes the prescribed regimen outlined in Table 26.

TABLE 26 Drug AM Dose PM Dose Hydroxychloroquine 200 mg 200 mg or Placebo Vitamin C 3000 mg — Vitamin D 3000 IU — Zinc 50 mg —

Day 11 to Day 13: The patient completes their AM and PM diary entries and takes the prescribed regimen outlined in Table 27.

TABLE 27 Drug AM Dose PM Dose Vitamin C 1500 mg — Vitamin D 1500 IU — Zinc 25 mg —

Day 14: The patient is called and asked whether there have been any adverse events and/or serious adverse events, the patient is asked about symptom resolution or progression, and the patient then collects a nasal swab. The patient also completes their AM and PM diary entries and collects their vital signs. The patient takes the prescribed regimen outlined in Table 28.

TABLE 28 Drug AM Dose PM Dose Vitamin C 1500 mg — Vitamin D 1500 IU — Zinc 25 mg —

Day 15 to Day 30: The patient completes their AM and PM diary entries and takes the prescribed regimen outlined in Table 29.

TABLE 29 Drug AM Dose PM Dose Vitamin C 1500 mg — Vitamin D 1500 IU — Zinc 25 mg —

Follow-Up Period: Month 1 (outpatient only AFTER negative test): Vital signs are taken (BP, HR, RR, oxygen saturation, temperature), the patient is assessed for adverse events and/or serious adverse events, and EKG is administered as well as physical exam and a blood draw for CBC/Complete metabolic panel/C-Reactive Protein. The list of prior and concomitant medications is updated and a nasal swab is collected.

Month 2 (outpatient): Vital signs are collected (BP, HR, RR, oxygen saturation, temperature) the patient is assessed for adverse events and/or serious adverse events, and EKG is administered as well as physical exam and a blood draw for CBC/Complete metabolic panel/C-Reactive Protein. The list of prior and concomitant medications is updated.

Month 3 (outpatient): Vital signs are taken (BP, HR, RR, oxygen saturation, temperature), the patient is assessed for adverse events and/or serious adverse events, and EKG is administered as well as physical exam and a blood draw for CBC/Complete metabolic panel/C-Reactive Protein. The list of prior and concomitant medications is updated and a nasal swab is collected.

COVID-19 Sample Collection Procedure is the same as that outlined above in prior Examples. Table 30 outlines the schedule of events for Example 4.

Statistical Analysis: The treated patients in this study are compared to the placebo group. Measurements include PCR test results, presence or absence of symptoms, and symptom severity. PCR results will be compared between the groups as positive or negative

In this study, the meaningful threshold is calculated as mean change in clinical symptoms as recorded in the diary, from Day 1 through week 12. Each category in

the diary is assigned a number, 0 for None, 1 for Mild, 2 for Moderate and 3 for severe. Each category is analyzed independently and as a group. Ultimately, efficacy is determined based upon reduction and/or progression of symptomatic days, reduction of symptom severity, as well as analysis of the subject's RT-PCR testing per protocol. These data are compared to an existing database of de-identified Subject data.

The change of these measurements from the end to the baseline (post-pre) are used as the primary outcome, for example, $\mu_e = \mu_{e1} - \mu_{e0}$, where μ_{e1} and μ_{e0} are the outcome of Subjects from the treatment group at the end and at baseline, respectively.

Categorical variables are summarized by presenting the number (n) and percent (%) of subjects in each category. All Statistical tests for the analysis are performed using the $p < 0.05$ level of significance. All confidence intervals will be one-sided

Sample size was calculated as follows:

$$n = \log \beta / \log \rho$$

Where

β = the probability of a Type II error _ ρ = the proportion of the population NOT affected

The proportion of the population affected by COVID-19 is 0.005 percent, thus 0.995 percent aren't affected

The probability of a type II error is 0.05

Thus:

$$n = \log 0.05 / \log 0.995 \quad n = 597.647$$

A sample size of 600 was used.

Example 5: Successful Treatment of COVID-19 Infected Outpatients and Prophylaxis of Immediate Associates

Objective: to successfully treat COVID-19 infected outpatients and prophylaxis of immediate associates.

Procedure: Prospective COVID-19 infected individuals were diagnosed using a Pangea DNA/RNA Shield™ Collection Tube to obtain a nasopharyngeal swab and PCR +ve patients were entered into the study. They were immediately commenced on a 10 day course of Hydroxychloroquine (200 mg, twice a day, for 10 days), Azithromycin extended release (500 mg on day 1, then 250 mg a day for days 9-10), zinc (50 mg a day for days 1-10), Vitamin D (3000 IU a day for days 1-10) and Vitamin C (3000 mg a day for days 1-10). Some individuals lived alone, otherwise immediate partners and family deemed to be most exposed were given a prophylactic which comprised hydroxychloroquine 200 mg twice a day on day 1 only with Zinc, Vitamin C and Vitamin D for given at the same doses as above for days 1-10.

Results: In 11 families a total of 21 family members were identified to be PCR COVID-19 positive index cases and were treated with the above treatment protocol while 22 exposed associates with negative PCR were given the above prophylaxis protocol. This is shown below in Table 31. All 21 index cases were cured of COVID-19 infection as judged by the repeat swab PCR on day 10 and accompanying symptom resolution. None of the 22 highly exposed associates developed COVID-19 infection when retested on day 10 (day 14 in Family 10) in spite of close co-habitation with the infected index cases. TABLE 31: Results from families received 10-day course of daily HCQ (200 mg bd), AZ extended release (500 mg day 1, then 250 mg), zinc (50 mg), Vitamin D (3000 IU) and Vitamin C (3000 mg)

Myopericarditis reports to VAERS

Focusing analysis on reports of myocarditis and myocarditis with pericarditis (myopericarditis) following COVID-19 vaccination

- As of August 18, 2021, total of **2,574** reports in all ages/age groups
 - Myopericarditis: 1,903 reports
 - Pericarditis alone: 671 reports

Preliminary myopericarditis reports to VAERS following COVID-19 vaccination by dose number (data thru Aug 18, 2021)

Manufacturer	Reports after dose 1	Reports after dose 2	Reports after unknown dose
Pfizer-BioNTech (n=1,282)	169	922	191
Moderna (n=557)	133	339	85
Janssen (n=49)	33	1	15
Not reported (n=15)	2	9	4
Total (N=1,903)	337	1,271	295

- Includes total preliminary reports identified through VAERS database searches for reports with myopericarditis MedDRA* codes and pre-screened VAERS reports with signs and symptoms consistent with myopericarditis; **excludes reports of solely pericarditis**
 - Follow-up, medical record review, application of CDC working case definition, and adjudication is ongoing or pending

* Medical Dictionary for Regulatory Activities <https://www.meddra.org/>

Characteristics of preliminary* myopericarditis reports to VAERS following known mRNA COVID-19 vaccination† (data thru Aug 18, 2021)

Characteristics	Dose 1 (mRNA only) (n=302)†	Dose 2 (n=1,261)†
Median age, years (range)	26 (12–94)	20 (11–87)
Median time to symptom onset, days (range)	3 (0–71)‡	2 (0–98)‡
Sex (%)		
Male	218 (72%)	1,034 (82%)
Female	78 (26%)	220 (17%)
Not reported/not available	6 (2%)	7 (1%)

* Includes reports identified through VAERS database searches for reports with myopericarditis MedDRA codes, with signs and symptoms consistent with myopericarditis, and with dose number documented; and pre-process VAERS reports with follow-up, medical record review, and application of CDC case definition for myopericarditis

† Excludes 33 reports after Janssen, and 2 reports that did not specify manufacturer after Dose 1; excludes 1 report after Janssen and 9 reports that did not specify manufacturer after Dose 2

‡ Four reports after Dose 1 had onset >71 days; five reports after Dose 2 had onset >98 days

Expected vs. Observed reports after **mRNA vaccination** dose 2, 7-day risk period (N=765)*

Age group, years	Females		Males	
	Cases of myopericarditis, expected	Cases of myopericarditis, observed	Cases of myopericarditis, expected	Cases of myopericarditis, observed

Moderna vaccine not authorized in 12-17 y/o

* As of Aug 18, 2021; assumes a 7-day observation window, with 216 of 765 reports after mRNA vaccines occurring during Days 0–6 after vaccination; counts among 12–29 years from reports meeting case definition for myopericarditis; expected estimates for females 12–29 years adjusted to reflect reduced incidence in this age group

Care and outcomes

Care and outcomes of preliminary myopericarditis cases reported to VAERS after COVID-19 vaccination in persons ≤ 29 years old (N=1,339) (data thru Aug 18, 2021)

1,339 total preliminary reports

- **742** met CDC case definition* of myocarditis or myopericarditis
- 494 under review

Of 742 meeting case definition:

- 701 were hospitalized
 - 667 discharged
 - **515 (77%) known to have recovered from symptoms at time of report**
 - 18 still hospitalized (5 in ICU)
 - 16 with unknown disposition
- 27 were not hospitalized (seen in emergency dept., urgent care, outpatient clinic, not specified)

Investigating myocarditis health effects after COVID-19 vaccination

Enhanced surveillance for myocarditis outcomes after mRNA COVID-19 vaccination in VAERS case reports*

- Assess long-term functional status and clinical outcomes among individuals reported to have developed myocarditis after mRNA COVID-19 vaccination (among reports that met CDC case definition)
- A two-component survey intended to assess outcomes at least 90 days after onset of myocarditis symptoms
 - Patient survey: Ascertains functional status, clinical symptoms, quality of life, and need for medication or other medical treatment
 - Healthcare provider (e.g., cardiologist): Gather data on cardiac health and functional status
- Timeline: data collection ~ August 2021-November 2021

* <https://www.cdc.gov/coronavirus/2019-ncov/vaccines/safety/myo-outcomes.html>

Enhanced surveillance for myocarditis outcomes after mRNA COVID-19 vaccination in VAERS case reports* (cont.)

- Preliminary implementation data
 - As of August 18, 2021, VAERS has received 742 reports of myocarditis or myopericarditis after COVID-19 vaccination that met case definition
 - Of these, 253 patients are at least 90 days post-myocarditis diagnosis
 - Data collection is currently underway

* <https://www.cdc.gov/coronavirus/2019-ncov/vaccines/safety/myo-outcomes.html>

Summary

Summary

- 2,574 reports of myopericarditis or pericarditis to VAERS (as of August 18, 2021)
 - 1,903 myopericarditis, 671 pericarditis
- Epidemiology of myopericarditis following COVID-19 vaccination similar to previously reported updates
 - Primarily in younger males, after dose 2 mRNA vaccination, symptom onset clustering within several days of vaccination,
- Limited follow-up information in VAERS case reports suggests most patients (77%) recovered from symptoms at time of report or follow-up
- Observed vs. Expected analysis with VAERS reports
 - Males: Observed > Expected in age groups through 49 years
 - Females: Observed > Expected in age groups through 29 years
- Enhanced surveillance for myocarditis outcomes after mRNA COVID-19 vaccination in VAERS case reports is ongoing

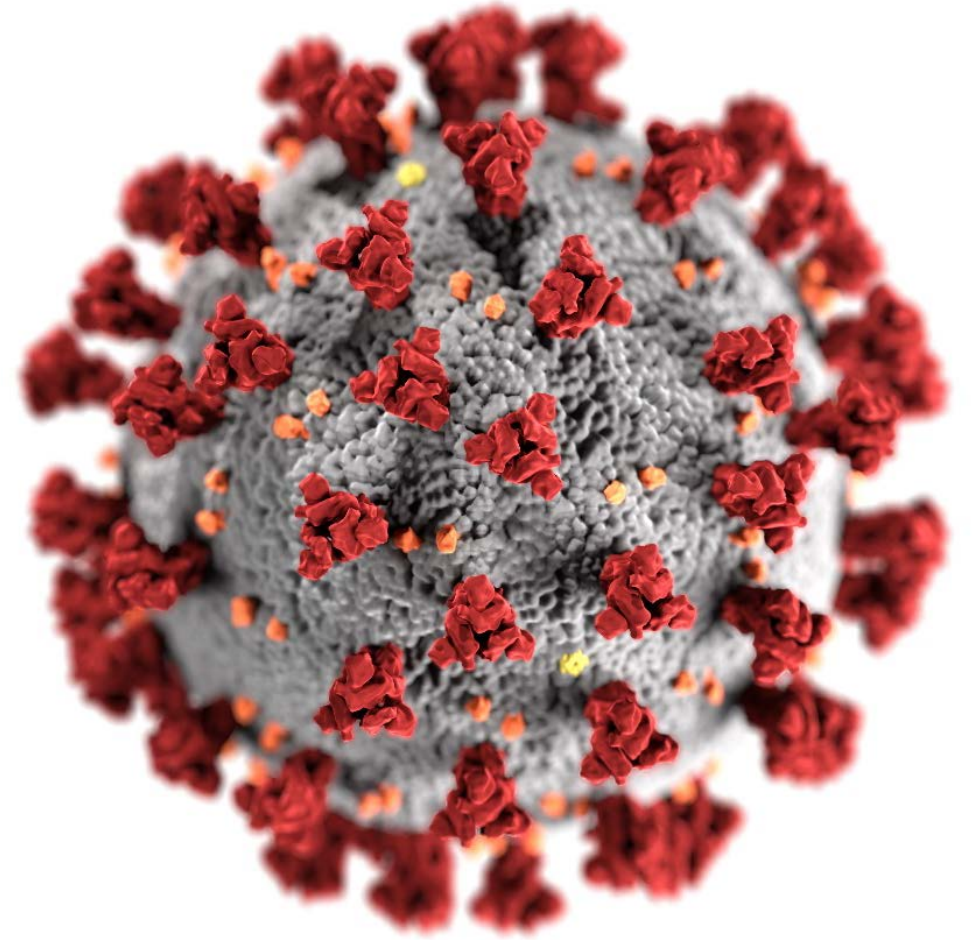

Acknowledgments

Thanks to the many people who made analysis of these data possible:

- **VAERS Team**
 - VAERS TTS abstraction team
 - VAERS Myopericarditis abstraction team
 - VAERS Data team
- **Clinical Immunization Safety Assessment Project**
- **COVID-19 Vaccine Task Force Data Monitoring and Reporting Group**
- **FDA/Center for Biologics Evaluation and Research**

To DMH/HR

Our organization has filed multiple lawsuits contending with the vaccine mandate policies, one is against Los Angeles County representing thousands of our members, including personnel in your department. Our legal team has been notified and made aware of disciplinary actions initiated by your department including suspensions, multiple suspensions, terminations, and notice of intent to discharge. Your department is in direct violation of the County Policy, The Mayor's Memo, Ordinance No. 187134, and promises assured to employees by the County's own legal counsel. Our legal team has been assured that **"NO DISCIPLINARY ACTION"** will be taking place including suspensions and terminations related to the "vaccine mandate."

However, your department is guilty of unnecessarily and inappropriately disciplining public employees and violating their full due process of rights.¹ Not only are you violating the County Counsels advice and the Mayor's memo on Skelly packets², but you are also violating the County's own "Vaccination Policy."

The Los Angeles "Covid 19 Vaccination Policy" specifically states that NO disciplinary action or corrective action should occur until exemption requests are *DETERMINED*. The *Los Angeles County Health Order* also states people may be exempt based on religious beliefs and medical reasons.³ On multiple pages, the policy says unequivocally that NO CORRECTIVE ACTION will take place *until* religious and medical accommodations are determined.⁴ In addition, if an accommodation is denied, the employee has the right to appeal this decision and STILL no **disciplinary action should occur** until the accommodation is determined. Unfortunately, your department has prematurely initiated suspensions and disciplinary action.

We are also aware your department is directly violating numerous protocols in place for public employees regarding disciplinary action. Public employees have a unique and specially protected due process before discipline and termination may even *begin* to take place. Including Skelly⁵ Rights⁶, City Charter disciplinary procedures, Fire Fighters Bill of Rights, and POBAR. Each employee is further protected under The California Constitution, The United States Constitution, Privacy Rights⁷ (including bodily integrity), State and

⁴ <https://employee.hr.lacounty.gov/vaccinationsmandate/> (pg 4, 13, 16)

⁵ Bostean v. Los Angeles Unified Sch. Dist., 63 Cal. App. 4th 95, 110 (1998)

⁶ Skelly v. State Pers. Bd., 15 Cal.3d 194, 206 (1975)

⁷ Hill v. Nat'l Collegiate Athletic Assn., 7 Cal.4th 1, 39-40 (1994)

Federal Discrimination Laws⁸, EEOC guidance, Emergency Use Authorization Laws including- the right to refuse⁹, Genetic Laws, and The Medical Experimentation Act.¹⁰

Your department cannot arbitrarily discipline employees based on their right to refuse a medical treatment.

The California Supreme Court has declared it is a *basic and fundamental right* that cannot be overridden by medical opinion. California laws further protect individuals in the Medical Experimentation Act.¹¹

To be clear, your department is directly violating the California Constitution which states unequivocally, “constitutional right of privacy guarantees to the individual the freedom to choose to reject, or refuse to

consent to, intrusions of his *bodily integrity*.” *Id.* at 531-32 A competent adult has the right to refuse medical treatment, “even treatment necessary to sustain life.”¹² All employees have fundamental liberties protected by

the United States Constitution that extends to “personal choices central to individual *dignity and autonomy*.”¹³

The County Ordinance No. 187134 is in direct violation¹⁴ of the Constitution and civil rights¹⁵ and “a legislative act contrary to the constitution *is not law*.”¹⁶ Each employee has the *Right of Autonomy, Privacy, and*

Personal Liberty. Any person so engaged in such enactment and enforcing of the unlawful Ordinance and its discriminatory or punitive measures is conspiring to interfere with civil rights and is violating: 42 U.S. Code § 1983, 42 U.S. Code § 1985, and 42 U.S. Code § 1986

The County and your department do not have the power under the CESA or any other law to require County employees to get a vaccine as a condition of employment. For example, CESA, allows County officials to impose “curfews” to preserve public safety, but not to impose “mandatory,” intrusive, medical procedures.¹⁷

The California Constitution further protects individuals from the County’s requirement that employees upload their confidential medical information through the Fulgent app, an app that has been rumored to have ties to the Chinese government. Public statements of serious concern and warning have been voiced by both Los Angeles and Ventura County Sheriffs. The California Constitution protects the “dissemination or misuse of sensitive and confidential information,” including medical records.¹⁸ All employees are protected against all governmental invasions of the sanctity of *aman’s home and the privacy of life*¹⁹

Any disciplinary action from your department is irrational considering it is indisputable that both the vaccinated and the unvaccinated can *contract and transmit* COVID-19. As the Omicron variant has swept through America this winter, even the *federal government* has acknowledged this saying, “the duration of vaccine effectiveness in preventing COVID-19, reducing disease severity, reducing the risk of death, and the effectiveness of the vaccine to prevent disease transmission by those vaccinated *are not currently known*”²⁰....”²¹

The CEO of Pfizer, Dr. Albert Bourla, recently stated, “We know that the two doses of the vaccine offer very limited protection, if any.” He then stated that three doses offer “less protection against the infection.”²²

¹⁷ Cal. Gov’t Code § 8634

¹⁸ *In re Yahoo Mail Litig.*, 7 F. Supp. 3d 1016, 1041 (N.D. Cal. 2014) (quoting *Hill*, 7 Cal. 4th at 35)

¹⁹ U.S. Supreme Court, *Griswold v. Connecticut*, 381 U.S. 479 (1965)

²⁰ 86 Fed. Reg. at 61,615 (Nov. 5, 2021)

²¹ *State of Missouri v. Biden*, Case No. 4:12-cv-01329-MTS, Opinion Dated November 29, 2021

²² <https://news.yahoo.com/covid-19-vaccine-covers-omicron-144553437.html>

Current evidence suggests that vaccination is not protective against Omicron infection “at any point in time.”²³ The shots may not provide any effectiveness in preventing infection, transmission, hospitalization, or death. There is no further rationale to discipline your employees particularly since vaccination does not accomplish what it intended to.

There is no disputing, “the right to bodily integrity is a fundamental right,” which limits what your department can and cannot enforce. The traditional police powers of the state in the context of public health measures have *significant limitations* under the federal and state Constitutions. *Privacy Rights* of minors are even recognized in abortion cases.²⁴ If a situation is considered “extreme peril,” the State *must still* stay consistent with individual rights and liberties.²⁵

“The Constitution of the United States is a law for rulers and people, *equally in war and in peace*, and **covers with the shield of its protection all classes of men, at all times, and under all circumstances** No doctrine, involving more pernicious consequences, was ever invented by the wit of man than that any of its provisions can be *suspended* during any of the great exigencies of government.”²⁶

We hope you immediately remedy the situation in your respective department by reversing the disciplinary actions and cease them immediately. If this cannot be remedied, we will have no choice but to explore further legal action in order to protect the employees in your department. Your department has exceeded its authority. You do not have the authority under any state law to mandate or enforce a mandate on your employees. However, by enforcing unlawful mandates and violating actual laws, your department has opened itself to substantial liability. In addition, the County vaccine mandate also “exceeds the County’s authority under state law” and is not necessary or the “least restrictive means of response” to the spread of COVID-19.

Our organization has already won favorable court rulings and we expect to continue. We will not hesitate to take legal action against your department, individuals in authority, or department heads who unlawfully and illegally suspend and terminate employees. However, instead, we encourage you to swiftly modify your policies into alignment with the State and Federal Laws, including the California Constitution, and immediately cease disciplinary action against all employees. Your disciplinary actions will only further the staffing shortages and permanent loss of exceptionally hard-working employees.

Sincerely,
Amy Bohn

EMERGENCY USE AUTHORIZATION (EUA) SUMMARY

Fulgent COVID-19 by RT-PCR TEST
(FULGENT THERAPEUTICS)

For *In vitro* Diagnostic Use
Rx Only

For use under Emergency Use Authorization (EUA) only

INTENDED USE

The Fulgent COVID-19 by RT-PCR Test is a real-time RT-PCR test intended for the qualitative detection of nucleic acid from SARS-CoV-2 in anterior nasal, nasopharyngeal, and oropharyngeal swab specimens from individuals suspected of COVID-19 by a healthcare provider, and anterior nasal swab specimens from individuals without symptoms or other reasons to suspect COVID-19.

This test is also for use with anterior nasal swab specimens that are either (1) self-collected using the Picture COVID-19 Home Collection Kit at home or in a healthcare setting by individuals, 18 years of age and older, including individuals without symptoms or other reasons to suspect COVID-19, when determined to be appropriate by a healthcare provider, or (2) collected using the Everlywell COVID-19 Test Home Collection Kit when used consistent with its authorization.

Testing is limited to laboratories designated by Fulgent Genetics which are also certified under the Clinical Laboratory Improvement Amendments of 1988 (CLIA), 42 U.S.C. §263a, and meet the requirements to perform high complexity tests.

Results are for the identification of SARS-CoV-2 RNA. SARS-CoV-2 RNA is generally detectable in upper respiratory specimens during the acute phase of infection. Positive results are indicative of the presence of SARS-CoV-2 RNA; clinical correlation with patient history and other diagnostic information is necessary to determine patient infection status. Positive results do not rule out bacterial infection or co-infection with other viruses. The agent detected may not be the cause of disease.

Negative results do not preclude SARS-CoV-2 infection and should not be used as the sole basis for patient management decisions. Negative results must be combined with clinical observations, patient history, and epidemiological information.

Laboratories within the United States and its territories are required to report all results to the appropriate public health authorities.

The Fulgent COVID-19 by RT-PCR Test is intended for use by qualified clinical laboratory personnel specifically instructed and trained in the techniques of real-time RT-PCR and in vitro diagnostic procedures. The Fulgent COVID-19 by RT-PCR Test is only for use under the Food and Drug Administration's Emergency Use Authorization.

DEVICE DESCRIPTION AND TEST PRINCIPLE

The Fulgent COVID-19 by RT-PCR test is a real-time reverse transcription polymerase chain reaction test. The methods described in this application have been adapted from the “CDC 2019-Novel Coronavirus (2019-nCoV) Real-Time RT-PCR Diagnostic Panel” document effective March 30, 2020. This test uses two SARS-CoV-2 primer and probe sets to detect regions in the N gene of SARS-CoV-2 in respiratory specimens from nasal, nasopharyngeal, or oropharyngeal swab samples. A third primer and probe set that detects human RNase P (RP) is used as an internal control. RNA is isolated from nasal, nasopharyngeal, or oropharyngeal swabs and reverse transcribed to cDNA. Amplification and detection of the SARS-CoV-2 markers and control targets are performed using the QuantStudio 6 and QuantStudio 7 Real-Time PCR System.

Zymo RNA Extraction Method

Nucleic acids (RNA) are isolated and purified from 200 µL sample input from nasal, nasopharyngeal, or oropharyngeal swabs using the Zymo *Quick*-RNA Viral Kit RNA Extraction Kits. Final extracted RNA is eluted into 50 µL of elution buffer.

The purified nucleic acid is reverse transcribed using TaqPath 1-Step RT-qPCR Master Mix, followed by the target amplification and fluorescent probe detection in the same reaction vials. Fluorescence intensity is monitored at each PCR cycle by the QuantStudio 6 or QuantStudio 7 Real-Time PCR System and the QuantStudio Real-Time PCR Software.

Apostle RNA Extraction Method

Nucleic acids (RNA) are isolated and purified from 200 µL sample input from patient specimens using the Apostle MagTouch 1000 Viral RNA Extraction System. Final extracted RNA is eluted into 85 µL of elution buffer.

The purified nucleic acid is reverse transcribed using TaqPath 1-Step RT-qPCR Master Mix, followed by the target amplification and fluorescent probe detection in the same reaction vials. Fluorescence intensity is monitored at each PCR cycle by the QuantStudio 6 or QuantStudio 7 Real-Time PCR System and the QuantStudio Real-Time PCR Software.

Instruments

The Fulgent COVID-19 by RT-PCR test is to be used with the Zymo Quick-RNA Viral Kit RNA Extraction Kits or Apostle MagTouch 1000 Viral RNA Extraction Automation System and the QuantStudio 6 or QuantStudio 7 Real-Time PCR System.

Sample Collection Kits

This assay can be used with the Everlywell COVID-19 Test Home Collection Kit. Everlywell has granted Fulgent Genetics a right of reference to the data supporting use of this authorized home collection kit. This assay can also be used with the Picture COVID-19 Home Collection Kit manufactured by Fulgent Genetics.

Fulgent Therapeutics- COVID-19 by RT-PCR Test
EUA Summary– Updated June 22, 2021

Reagents

The primary reagents used in this assay, including primer and probe designs, are adapted from the “CDC 2019-Novel Coronavirus (2019-nCoV) Real-Time RT-PCR Diagnostic Panel” document effective March 30, 2020.

Reagents used with the Fulgent COVID-19 by RT-PCR Test

Kits and Reagents	Manufacturer	Catalog #
Viral RNA Isolation Fast Kit	Apostle	A200619-6144
Zymo Quick-RNA Viral Kit RNA Extraction Kit	Zymo	R1034/R1035

Fulgent Therapeutics- COVID-19 by RT-PCR Test
EUA Summary– Updated June 22, 2021

Sample Stability

Sample stability follows Interim Guidelines for Collecting and Handling of Clinical Specimens for COVID-19 Testing from CDC (<https://www.cdc.gov/coronavirus/2019-ncov/lab/guidelines-clinical-specimens.html>). Store respiratory specimens at 2-8°C for up to 72 hours after collection. If a delay in testing or shipping is expected, store specimens at -70°C or below.

Sample Shipping Stability with the Picture COVID-19 Home Collection Kit

A study was performed to test the stability of anterior nasal specimens collected with the Picture COVID-19 Home Collection Kit under simulated summer and winter shipping conditions. The study was conducted with 20 COVID-19 spiked samples at 2x LoD (low positives, 10 copies/μL), 5 COVID-19 spiked samples at 5x LoD (high positive, 25 copies/μL), 5 COVID-19 spiked samples at 10x LoD (high positives, 50 copies/μL), and 10 negative samples (to monitor for false positives). An aliquot was removed to test for T = 0 hr. The remaining anterior nasal samples were placed in the incubator and cycled through the Winter and Summer shipping conditions shown in the tables below. After 56 hours elapsed, the samples were removed from the incubator to room temperature, and then tested according to the Fulgent COVID-19 by RT-PCR Test SOP.

Summer Profile

Temperature	Cycle Period	Cycle Period (Hours)	Total Time (Hours)	RNA Extraction and qRT-PCR
40°C	1	8	8	-
22°C	2	4	12	-
40°C	3	2	14	-
30°C	4	36	50	-
40°C	5	6	56	Performed

Winter Profile

Temperature	Cycle Period	Cycle Period (Hours)	Total Time (Hours)	RNA Extraction and qRT-PCR
-10°C	1	8	8	-
18°C	2	4	12	-
-10°C	3	2	14	-
10°C	4	36	50	-
-10°C	5	6	56	Performed

Results shown in the table below demonstrate similar Ct values observed in the control group the summer profile and the winter profile.

Sample Stability Summary Table

	Control Group		Summer Profile		Winter Profile	
Low Positive, 2xLoD, 10 copies/μL	N1 Ct	N2 Ct	N1 Ct	N2 Ct	N1 Ct	N2 Ct
Mean Ct	36.11	38.04	36.49	38.14	36.35	37.83
SARS-CoV-2 Positive Call Rate	20/20	19/20	19/20	20/20	19/20	20/20
	100%	95%	95%	100%	95%	100%

Fulgent Therapeutics- COVID-19 by RT-PCR Test

Ordering of the Picture COVID-19 Home Collection Kit and Clinical Oversight

The Picture genetics testing platform is closely integrated with PWNhealth (www.pwnhealth.com), a national clinician network. While all laboratory processes are run by fulgent genetics, all medical interactions are handled by PWNhealth. This includes clinician review and approval of each test ordered, oversight of all materials produced, and contact with patients after testing is completed.

Ordering is restricted to adults (18 years and older) living in the United States. Each individual intending to order a test must first complete an eligibility screener. This screener is intended to ensure that Picture COVID-19 Home Collection Kits are provided only where testing is most needed and most responsible. In addition, the screener collects necessary information on exposure, symptoms, and risk. Screening guidelines are based on the most current CDC guidelines on COVID-19 testing and are strictly enforced. Individuals who are experiencing severe symptoms to the point of requiring medical attention are not eligible for testing but are advised to seek immediate medical assistance.

Upon confirmation of eligibility, users are directed into an order flow where they will order the test and complete additional relevant personal and demographic information which is passed to PWNhealth for review, documentation, and approval. Upon approval, kits are shipped to users using FedEx 2-day shipping.

When a patient's report is ready, they are notified via email that their report is accessible via their private Picture genetics portal. Patients may receive positive, negative, or indeterminate results. Patients with indeterminate results will be encouraged to retest. Positive and negative reports include self-quarantine/isolation guidelines as well as resources such as the CDC and WHO (supplementary: sample positive report; isolation and quarantine guide). Negative reports also include information on the risk of false negatives (supplementary: sample negative report). This content is reviewed and approved by the independent clinician network at PWNhealth. PWNhealth shares updated content requirements weekly based on the latest requirements and recommendations from the CDC. Should there be any new guidelines coming from the CDC to be implemented immediately, PWNhealth will inform picture genetics directly.

Fulgent Therapeutics- COVID-19 by RT-PCR Test
EUA Summary– Updated June 22, 2021

Every patient is informed of the opportunity to speak with a health professional at PWNhealth about their test results, regardless of whether their result was positive, negative, or indeterminate. PWNhealth reaches out to positive patients directly to discuss results. PWNhealth also reports relevant results and information to the appropriate public health authorities.

CONTROLS TO BE USED WITH THE FULGENT COVID-19 BY RT-PCR TEST

1. A “no template” control (NTC) serves as a negative control and is included in every assay plate to identify specimen contamination. Molecular grade, nuclease free water is used as the NTC.
2. A positive template control (2019-nCoV_N_Positive Control) is included in each assay plate to ensure the reagents and instruments are performing optimally. The positive control is a synthetic DNA plasmid containing the entire sequence of gene N of the COVID-19 virus. Two markers in gene N, as defined by the “CDC 2019-Novel Coronavirus (2019-nCoV) Real-Time RT-PCR Diagnostic Panel” document effective March 30, 2020, will be targeted and detected by the primer and probe sets, COVID-19_N1 and COVID-19_N2.
3. An internal control (Hs_RPP30 Positive Control) targeting human RNase P mRNA (RP) is used to verify optimal RNA extraction, amplification, and the presence of nucleic acid in the samples.
4. Negative Extraction Control is a previously characterized negative patient sample. It serves both as a negative extraction control for any extraction cross contamination as well as an extraction control to validate extraction reagents and successful RNA extraction.

Sample Accessioning

A detailed laboratory protocol (SOP) has been submitted and reviewed by FDA.

Home collected samples received at the laboratory will be checked for the following criteria before entering the lab workflow. Samples with the following issues will be rejected and may require user follow-up and re-sampling:

- No sample collection tube included with the kit
- No barcode identifier attached to the sample collection tube
- Sample collection tube leaked resulting in no sample for testing
- Kit not registered/activated on the Picture platform
- Accession date is greater than 48hrs from the specimen collection date

INTERPRETATION OF RESULTS

a. Expected RT-PCR Results for Controls

Fulgent Therapeutics- COVID-19 by RT-PCR Test
EUA Summary– Updated June 22, 2021

Other than controls, each individual sample is examined for data quality based on raw signals and adjusted signals. The samples that pass the quality control are interpreted using rules specified below. The samples that fail the quality control are reported as assay failure.

Result Interpretation for Controls

Controls	Control Target	Expected Results
Negative	NTC	Ct Not Detected for N1, N2, and RP
Positive	2019-nCoV N Positive Control / N1	Ct<40
Positive	2019-nCoV N Positive Control / N2	Ct<40
Internal	Human RNase P (RP)	Ct≤35
Negative Extraction	Human RNase P	N1 and N2: Ct Not Detected RP: Ct≤35

- NTC controls should not have detectable readouts for N1 or N2. False-positive readings, growth curve cycle thresholds (Ct) less than 40, indicates contamination of the assay or reagents.
- Positive controls should exhibit fluorescence growth curves for N1 and N2, respectively, that cross the threshold line and have Ct<40.
- Internal controls should exhibit fluorescence growth curves that cross the threshold line and have Ct≤35.
- Negative Extraction Control should not have detectable readouts for N1 or N2. False-positive readings, growth curve cycle thresholds (Ct) less than 40, indicates contamination of the assay or reagents.
- Any deviations from the expected results shown in the table above invalidates the entire assay. All samples from the run must be repeated starting from extracted RNA.

b. Interpretation of Clinical Samples

Assessment of clinical sample test results must be performed after the positive and negative controls have been examined and confirmed to be valid. If the controls are not valid, the customer results cannot be interpreted. Patient Results are interpreted as follows:

Result Interpretation for Clinical Samples

N1 [Ct<40]	N2 [Ct<40]	RP [Ct≤35]	Interpretation/Protocol	Report/Follow-Up
+	+	+ / –	SARS-CoV-2 detected	COVID-19 Positive
If only one of two targets are positive		+/-	- Inconclusive result - Repeat assay	Inconclusive
–	–	+	SARS-CoV-2 not detected	COVID-19 Negative

Fulgent Therapeutics- COVID-19 by RT-PCR Test
EUA Summary– Updated June 22, 2021

N1 [Ct<40]	N2 [Ct<40]	RP [Ct≤35]	Interpretation/Protocol	Report/Follow-Up
–	–	–	- Invalid result - Repeat assay	Invalid/QNS, request new sample

- When all controls exhibit the expected performance, a clinical specimen is considered positive for COVID-19 if the N1 and N2 marker growth curves cross the cycle threshold line and Ct<40. In this scenario, the COVID-19 positive result is still valid regardless if the RP target is or is not detected as described above.
- When all controls exhibit the expected performance, a clinical specimen is considered negative for COVID-19 if the N1 and N2 marker growth curves do not cross the threshold line. The RP target growth curve must cross the threshold line of Ct≤35 for the COVID-19 result to be valid.
- When all controls exhibit the expected performance, but the growth curves for the N1 and N2 markers and the RP target DOES NOT cross the cycle threshold line, the result is invalid. The extracted RNA from the clinical specimen must be re-tested. If residual RNA is not available, re-extract RNA from residual specimen and re-test. If a second invalid result occurs, a new specimen from the patient is needed.
- When all controls exhibit the expected performance and the cycle threshold growth curve for any one marker (N1 or N2), but not both, crosses the threshold line, the result is inconclusive for COVID-19. Re-extract RNA from residual specimen and re-test.

PERFORMANCE EVALUATION

1) Limit of Detection (LoD) - Analytical Sensitivity

a) Zymo Extraction Method

The tentative LoD was identified by extracting and testing 10-fold serial dilutions of the control plasmid (2019-nCoV_N_Positive Control), which contains the whole sequence of the SARS-CoV-2 N gene. Serial dilutions of the positive control template were tested in triplicates. The lowest concentration at which all three replicates were positive was treated as the tentative LoD for each test.

Confirmation of the final LoD was determined using 2-fold serial dilutions of viral RNA (5 copies/μL and 2.5 copies/μL) in 20 extracted replicates. The final LoD of each test was determined to be the lowest concentration resulting in positive detection in 100% of the replicates (20/20). As shown in the summary table below (Summary of the Limit of Detection Confirmation for COVID-19 by RT-PCR Test), the final LoD determined for this test is 5 copies/μL.

Summary of Confirmatory LoD Study (Zymo Extraction Method)

Fulgent Therapeutics- COVID-19 by RT-PCR Test
EUA Summary– Updated June 22, 2021

Concentration (Copies/μL)	# of Valid Results	Rate of Positive Results	N1 Gene		N2 Gene	
			Detection Rate (%)	Mean Ct (SD)	Detection Rate (%)	Mean Ct (SD)
5	20	100% (20/20)	100% (20/20)	33.24	100% (20/20)	35.93
2.5	20	75% (15/20)	85% (17/20)	34.85	85% (17/20)	37.4

b) Apostle Automated Extraction Method

The tentative LoD was identified by extracting and testing 10-fold serial dilutions of inactivated virus (BEI) spiked into nasopharyngeal swab matrix. To provide comparability of the two extraction methods with the same material the preliminary LoD study was performed for the Apostle automated extraction in parallel with the previously authorized Zymo extraction method. Serial dilutions were tested in triplicates. The lowest concentrations at which all three replicates were positive for both N1 and N2 targets, 1.8-18 copies/μL, was determined to be the tentative LoD.

Summary of Preliminary LoD Study (Zymo and Apostle Extraction Method)

Concentration (Copies/μL)	Apostle					Zymo				
	Rate of Positive Results	N1 Gene		N2 Gene		Rate of Positive Results	N1 Gene		N2 Gene	
		Detection Rate (%)	Mean Ct (SD)	Detection Rate (%)	Mean Ct (SD)		Detection Rate (%)	Mean Ct (SD)	Detection Rate (%)	Mean Ct (SD)
1800	100% (3/3)	100% (3/3)	27.03	100% (3/3)	27.09	100% (3/3)	100% (3/3)	25.24	100% (3/3)	26.24
180	100% (3/3)	100% (3/3)	29.98	100% (3/3)	30.06	100% (3/3)	100% (3/3)	28.92	100% (3/3)	29.68
18	100% (3/3)	100% (3/3)	32.2	100% (3/3)	33.09	100% (3/3)	100% (3/3)	32.15	100% (3/3)	33.4
1.8	67% (2/3)	100% (3/3)	36.13	67% (2/3)	38.68	100% (3/3)	100% (3/3)	35.36	100% (3/3)	37.14
0.18	0 (0/3)	0 (0/3)	N/A	0 (0/3)	N/A	0 (0/3)	0 (0/3)	N/A	33% (1/3)	37.56
0.018	0 (0/3)	0 (0/3)	N/A	0 (0/3)	N/A	0 (0/3)	0 (0/3)	N/A	0 (0/3)	N/A

Confirmation of the final LoD was determined using serial dilutions of inactivated virus (9 copies/μL, 8 copies/μL, 7 copies/μL, 5.4 copies/μL) in 20 extracted replicates (Final LoD Study (Apostle)). The final LoD of each test was determined to be the lowest concentration resulting in positive detection in 100% of the replicates (20/20) for both targets (N1 and N2). As shown in the summary table below (Summary Final LoD Study (Apostle)), the final LoD determined for this test was 8 copies/μL.

Fulgent Therapeutics- COVID-19 by RT-PCR Test
EUA Summary– Updated June 22, 2021

Summary of Confirmatory LoD Study (Apostle Extraction Method)

Concentration (Copies/μL)	# of Valid Results	Rate of Positive Results	N1 Gene		N2 Gene	
			Detection Rate (%)	Mean Ct (SD)	Detection Rate (%)	Mean Ct (SD)
9	20	100% (20/20)	100% (20/20)	33.88	100% (20/20)	35.23
8	20	100% (20/20)	100% (20/20)	34.28	100% (20/20)	35.75
7	20	90% (18/20)	100% (20/20)	34.56	90% (18/20)	35.24
5.4	20	85% (17/20)	95% (19/20)	34.47	90% (18/20)	35.54

Final LoD by Extraction Method

Extraction Method	Final LoD
Apostle	8 copies/μL
Zymo	5 copies/μL

2) Inclusivity (Analytical Sensitivity):

An *in-silico* inclusivity analysis was performed by aligning each of the primer and probe sequences to all 1298 complete (>29kb), "high coverage only" hCoV-19 sequences submitted to GISAID (<https://www.gisaid.org/>) as of March 26, 2020 ("hCoV-19" is the name GISAID uses instead of SARS-CoV-2). All primers and probes have perfect identity to >99% of the 1298 sequences (see table below).

Identity of Primers and Probes to GISAID hCoV-19 Sequence Submissions

Primers & Probes	Sequences Aligned	Count (#) or Percentage (%) of hCoV-19 Aligned with Identity			
		# <100%	% <100%	# at 100%	% at 100%
COVID-19 N1-F	1,298	3	0.2%	1,295	99.8%
COVID-19 N1-P	1,298	10	0.8%	1,288	99.2%
COVID-19 N1-R	1,298	6	0.5%	1,292	99.5%
COVID-19 N2-F	1,298	0	0.0%	1,298	100.0%
COVID-19 N2-P	1,298	1	0.1%	1,297	99.9%
COVID-19 N2-R	1,298	2	0.2%	1,296	99.8%

No major issues were identified on the inclusivity of the primers and probes of the Fulgent COVID-19 by RT-PCR test for currently circulating virus strains as of May 2021.

No impact on the performance of the assay is expected for detecting recently emerging variants (South Africa variant 501Y.V2, lineage B.1.351; UK variant VOC202012/01, lineage B.1.1.7, and Brazilian variant B.1.1.28.1, lineage P.1) as the primers and probes do not overlap with the variant sequences.

3) Cross-Reactivity (Analytical Specificity)

The Fulgent COVID-19 by RT-PCR test uses the sequence provided by the CDC per the “2019-Novel Coronavirus (2019-nCoV) Real-Time RT-PCR Diagnostic Panel” document effective March 30, 2020. The *in-silico* analysis for primer and probe design has been performed by the U.S. CDC and published in the IFU for the 2019-Novel Coronavirus (2019-nCoV) Real-Time RT-PCR Diagnostic Panel. The sponsor performed a similar *in-silico* analysis and confirmed that there are no significant homologies with the human genome, other coronaviruses, or human microflora that would generate potential false positive test results.

In addition, an *in-silico* exclusivity analysis was performed by aligning each of the primer and probe sequences to all 77,943 complete genome sequences in the viral sequences division ("vrl") of GenBank as of March 27, 2020, including all human coronavirus reference genomes but excluding SARS-CoV-2 sequences. The SARS-CoV-2 N2 forward primer was found to be 100% homologous to the reference sequence for SARS-Coronavirus (ref[NC_004718.3| SARS coronavirus]). However, since SARS-CoV is not circulating at this time and the reverse primer and probe are not homologous, there is no risk of false results.

4) Clinical Evaluation:

a) Orthogonal Performance Validation

A total of 94 clinical specimens, 30 positives and 64 negatives, were used to evaluate the performance of the COVID-19 RT-PCR test. Clinical samples were a mix of upper respiratory swab samples including NP, OP and mid-turbinate swabs. The concordance of positive and negative COVID-19 status was 100% for the Fulgent COVID-19 by RT-PCR test compared to a validated molecular SARS-CoV-2 assay.

b) Inter-laboratory Performance Evaluation

An inter-lab study was performed with an EUA authorized test to independently confirm Fulgent's COVID-19 results. Five COVID-19 positive and five negative samples were used in this study. Results demonstrate 100% concordance of the COVID-19 results between the two laboratories. Clinical samples were a mix of upper respiratory swab samples including NP, OP and mid-turbinate swabs). Positive and negative percent agreement to expected result was 100% for the known patient samples. Results of positive and negative clinical specimens were also confirmed by secondary testing.

Inter-laboratory Comparison Study

		EUA Authorized Comparator Test		
		Positive	Negative	Total
Fulgent (RT-PCR)	Positive	5	0	5
	Negative	0	5	5
Total		5	5	10
Positive Percent Agreement (95% CI)		100% (56.6%-100%)		
Negative Percent Agreement (95% CI)		100% (56.6%-100%)		

c) Performance Evaluation of Specimens from Asymptomatic and Symptomatic Individuals

A prospective study was performed to evaluate the performance of the Fulgent COVID-19 by RT-PCR test in an all comer population including symptomatic subjects and subjects without symptoms or other reasons to suspect COVID-19 infection. A total of 12,644 nasal swab samples were collected in a 10-day collection period (10,835 subjects were asymptomatic, 950 subjects were symptomatic, and for 859 subjects the symptomatic status was unknown) and tested using the Fulgent COVID-19 by RT-PCR assay. Samples were tested with the Fulgent COVID-19 by RT-PCR test and results were compared with results obtained with a highly sensitive EUA authorized comparator test.

Asymptomatic Individuals

There were 10,835 samples from asymptomatic subjects (141 samples with positive Fulgent COVID-19 results and 10,694 samples with negative Fulgent COVID-19 results). Positivity rate of Fulgent COVID-19 results was 1.3% (141/10,835). Eighty-five (85) samples were randomly (blinded) selected from the positive cohort of 141 samples and 114 samples were randomly selected from the negative cohort of 10,694 samples. These samples were sent for testing with an EUA authorized highly sensitive comparator test. Nine (9) of the asymptomatic positive samples (10.6% of the total positive samples tested and 30% of the 30 samples with the highest Ct values) were low positive by the comparator test (i.e., within 3 Cts of the average Ct value at the comparator test's LoD). A summary of the results is shown in the three tables below:

Summary of Clinical Validation in Asymptomatic Population

		FDA Authorized Comparator RT-PCR		
		Positive	Negative	Total
Fulgent (RT-PCR)	Positive	83	2	85
	Negative	0	114	114
	Total	83	116	199
Positive Percent Agreement (95% CI)		100% (95.6%-100%)		
Negative Percent Agreement (95% CI)		98.3% (93.9%-99.5%)		

This validation demonstrated 100% positive percent agreement 98.3% negative percent agreement compared to the EUA-authorized comparator test for the asymptomatic population.

Two samples that were positive by the Fulgent COVID-19 RT-PCR test (EUA200156) and tested negative by the EUA comparator test had high Ct values with the Fulgent test indicative of low viral loads around the test's LoD.

Ct Values of Discordant Samples with the Fulgent COVID-19 RT-PCR test

	Fulgent (RT-PCR)		
Sample	N1 Ct	N2 Ct	RP Ct
1	34.57	34.17	27.54
2	34.93	33.34	31.01

Fulgent Therapeutics- COVID-19 by RT-PCR Test
EUA Summary– Updated June 22, 2021

Since only a fraction of the collected positive and negative samples were randomly selected and tested and the proportional fractions were different in relation to the total number of positive and negative specimens collected, the performance estimates were statistically adjusted based on the positive and negative likelihood ratios (PLR and NLR) likelihood ratios that were considered as ratios of two independent binomial proportions (StatXact):

PLR = +Infinity, 95%CI: (29.81; +Infinity)

NLR = 0.02353, 95%CI: (0.006458; 0.082)

For calculation of the confidence Intervals for PPA and NPA, positivity rate was assumed to be constant across the time the sample cohort was selected. Tables with the adjusted clinical data and performance estimates are provided below:

Adjusted Sample Number in Asymptomatic Population for Calculation of Adjusted Performance Estimates

		FDA Authorized Comparator RT-PCR		
		Positive	Negative	Total
Fulgent (RT-PCR)	Positive	138	3	141
	Negative	0	10,694	10,694
	Total	138	10,697	10,835

Performance Estimates of Testing Asymptomatic Subjects

	Performance Estimate	95%CI
PPA (adjusted)	100% (138/138)	(28.2%; 100%)*
NPA (adjusted)	99.97% (10,694/10,697)	(99.89%; 99.99%)*
PPV (not adjusted)	97.6% (83/85)	(91.8%; 99.4%)
NPV (not adjusted)	100% (114/114)	(96.7%; 100%)

*95%CI for PPA and NPA were adjusted because only 85 out 141 Fulgent (RT-PCR) test positive subjects and 114 out of 10,694 Fulgent (RT-PCR) test negative subjects had the comparator test results.

Symptomatic Individuals

There were 950 samples from symptomatic subjects (123 samples with positive Fulgent COVID-19 results and 827 samples with negative Fulgent COVID-19 results). Positivity rate of Fulgent COVID-19 results was 12.9% (123/950). Fifty-eight (58) samples were randomly (blinded) selected from the positive cohort of 123 samples and 9 samples were randomly selected from the negative cohort of 827 samples. These samples were sent for testing with an EUA authorized high sensitivity assay as the comparator test. A summary of the results is shown in the three tables below:

Fulgent Therapeutics- COVID-19 by RT-PCR Test
EUA Summary– Updated June 22, 2021

Summary of Clinical Validation in Symptomatic Population

		FDA Authorized Comparator RT-PCR		
		Positive	Negative	Total
Fulgent (RT-PCR)	Positive	58	0	58
	Negative	0	9	9
	Total	58	9	67
Positive Percent Agreement (95% CI)		100% (93.8%-100%)		
Negative Percent Agreement (95% CI)		100% (70.1%-100%)		

This validation demonstrated 100% positive percent agreement 100% negative percent agreement compared to the EUA-authorized comparator test for symptomatic population.

Since only a fraction of the collected positive and negative samples were randomly selected and tested and the proportional fractions were different in relation to the total number of positive and negative specimens collected, the performance estimates had to be statistically adjusted based on the positive and negative likelihood ratios (PLR and NLR) likelihood ratios as described above for the asymptomatic population. Tables with the adjusted clinical data and performance estimates for symptomatic individuals are provided below:

Adjusted Sample Number in Symptomatic Population for Calculation of Adjusted Performance Estimates

		FDA Authorized Comparator RT-PCR		
		Positive	Negative	Total
Fulgent (RT-PCR)	Positive	123	0	123
	Negative	0	827	827
	Total	123	827	950

Performance Estimates of Testing Symptomatic Subjects

	Performance Estimate	95%CI
PPA (adjusted)	100% (123/123)	(33.0%; 100%)*
NPA (adjusted)	100% (827/827)	(99.1%; 100%)*
PPV (not adjusted)	100% (58/58)	(93.8%; 100%)
NPV (not adjusted)	100% (9/9)	(70.1%; 100%)

*95%CI for PPA and NPA were adjusted because only 58 out 123 Fulgent (RT-PCR) test positive subjects and 9 out of 827 Fulgent (RT-PCR) test negative subjects had the comparator test results.

5) Picture COVID-19 Home Collection Kit Self-Collection Validation Studies

A self-collection study for nasal swab specimens was performed for 24 participants. After acknowledging consent for testing, the participants were each given 2 tubes of saline-based

Fulgent Therapeutics- COVID-19 by RT-PCR Test
EUA Summary– Updated June 22, 2021

transport media and 2 nasal swabs and were shown the sample collection instructional video. Each participant provided 2 self-collected samples. After sample collection, one sample from each participant was spiked with a known COVID-19 positive clinical sample in the laboratory. Each sample was then packaged and shipped back to the lab via FedEx Overnight (according to established packaging and shipping protocol). Upon arrival at the lab, the samples were unpacked and tested following the Fulgent COVID-19 by RT-PCR test. This study evaluated the users' ability to properly collect a nasal swab sample as well as the packaging/shipping protocol while samples were in possession of FedEx. The results of the self-collection validation were consistent with expected results. All positives (24/24) remained positive after shipment. All negative samples (24/24) remained negative for COVID-19. All 48 samples showed positive detection for the internal Human RNaseP control, which implies successful sample collection.

Summary of Usability Study

Participant	Original Samples				Inactivated COVID-19 Spiked Samples			
	N1 (Ct)	N2 (Ct)	RP (Ct)	COVID-19 Status	N1 (Ct)	N2 (Ct)	RP (Ct)	COVID-19 Status
1	-	-	29.08	Negative	33.64	34.87	26.41	Positive
2	-	-	28.67	Negative	34.72	36.63	24.96	Positive
3	-	-	25.45	Negative	33.72	34.78	24.08	Positive
4	-	-	31.20	Negative	32.98	34.85	27.22	Positive
5	-	-	34.31	Negative	32.35	33.95	28.61	Positive
6	-	-	30.25	Negative	33.91	35.96	24.85	Positive
7	-	-	28.33	Negative	32.77	35.02	26.57	Positive
8	-	-	28.98	Negative	34.01	36.50	25.17	Positive
9	-	-	31.12	Negative	33.15	34.87	27.97	Positive

6) FDA SARS-CoV-2 Reference Panel Testing

The evaluation of sensitivity and MERS-CoV cross-reactivity was performed using reference material (T1), blinded samples and a standard protocol provided by the FDA. The study included a range finding study and a confirmatory study for LoD. Blinded sample testing was used to establish specificity and to confirm the LoD. Extraction was completed using the Quick-RNA Viral Kit RNA Extraction Kit (Zymo Research) and RT-PCR was performed on the QuantStudio 6 (ThermoFisher Scientific). The results are summarized in the following Table.

Summary of LoD Confirmation Result using the FDA SARS-CoV-2 Reference Panel

Reference Materials Provide d by FDA	Specimen Type	Product LoD	Cross- Reactivity
SARS-CoV-2	Nasal Swab	3.6x10 ³ NDU/mL	N/A
MERS-CoV		N/A	ND

NDU/mL = RNA NAAT detectable units/mL

N/A: Not applicable ND:

Not detected

LIMITATIONS:

- The clinical performance has not been established in all circulating variants but is anticipated to be reflective of the prevalent variants in circulation at the time and location of the clinical evaluation. Performance at the time of testing may vary depending on the variants circulating, including newly emerging strains of SARS-CoV-2 and their prevalence, which change over time.

WARNINGS:

- This product has not been FDA cleared or approved; but has been authorized by FDA under an Emergency Use Authorization (EUA) for use by authorized laboratories.
- This product has been authorized only for the detection of nucleic acid from SARS-CoV-2, not for any other viruses or pathogens.
- The emergency use of this product is only authorized for the duration of the declaration that circumstances exist justifying the authorization of emergency use of in vitro diagnostics for detection and/or diagnosis of COVID-19 under Section 564(b)(1) of the Federal Food, Drug and Cosmetic Act, 21 U.S.C. § 360bbb3(b)(1), unless the declaration is terminated or authorization is revoked sooner.

**Right to Opt Out and Revoke Authorization of Fulgent Genetics
Genetic Information Privacy Act**

I have not been sufficiently provided the appropriate or adequate option to opt out and revoke authorization. I have a right to privacy as stated in Article 1, Section 1 of the California Constitution¹. You cannot, therefore, require that I disclose anything outside what a normal person should know. I also do not have to give up rights in exchange for other rights. I, Amy Allen, give the following notice in writing, as required by law. I will officially submit this request to HR, or appropriate "persons" as defined in The Genetic Information Privacy Act. I do not consent or give authorization to be placed in any kind of database with Fulgent Genetics or Picture Genetics. I do not authorize any "persons" outside myself, to obtain, analyze, retain, or disclose my "*genetic samples, genetic test, genetic characteristic, or genetic information.*" I am explicitly protected by the **Genetic Information Privacy Act**². As stated in California law, I have "*the right to control the use of my genetic information that I give to you.*"³ Under no circumstances, does the law state my employment or "persons" may control the genetic information I give, unless I authorize it. The law clearly states that if I do consent, I may revoke that authorization at any time. I revoke any previous authorization.

*"The person shall permit an individual to **revoke an authorization** signed pursuant to subdivision (g) **at any time.**"⁴*

Fulgent Genetics Inc. offers three covid tests. All three tests operate under an Emergency Use Authorization and neither the test nor the collection kit have been approved or cleared by the FDA. "Picture Genetics," Powered by Fulgent, is an at-home testing service that offers at-home COVID-19 testing solutions nationwide. In the EUA approval letter for Fulgent Tests, it clearly states, "This product has **not been FDA cleared or approved**, but has been authorized for emergency use by FDA under an EUA⁵ for use by authorized laboratories. Currently, authorized under Section 564(b)(1) of the Act, 21 U.S.C. § 360bbb-3(b)(1). In addition to my right to privacy in the California Constitution and The Genetic Information Privacy Act, it is also illegal to not allow me "the option to accept or refuse" an EUA product.

Under 21 U.S.C. § 360bbb-3, "Authorization for medical products for use in emergencies":

*(ii) Appropriate conditions designed to ensure that individuals to whom the product is administered are informed — (I) that the Secretary [of Health and Human Services] has authorized the emergency use of the product; (II) of the significant known and potential benefits and risks of such use, and of the extent to which such benefits and risks are unknown; and (III) of the option to **accept or refuse** administration of the product, of the consequences, if any, of refusing administration of the product, and of the alternatives to the product that are available and of their benefits and risks.*

In addition, Title II of GINA, the Genetic Information Nondiscrimination Act⁶, makes it illegal for employers to use a person's *genetic information* when making decisions about hiring, promotion, and several other terms of employment. Title I of GINA prohibits discrimination based on genetic information in health coverage.

"Genetic Information" is protected by the right of privacy, *pursuant to Article I of Section 1 of the California Constitution* notwithstanding subdivision (c) of Section 56.10, or any other law, shall not be obtained, analyzed, retained, or disclosed without the written authorization of the individual *to whom the information pertains*. Each violation of this section is counted as a separate and actionable offense, with penalties associated. I do not authorize any "persons" outside myself to obtain, analyze, retain, or disclose my "*genetic samples, genetic test, genetic characteristic, or genetic information.*"

⁶ <https://www.govinfo.gov/content/pkg/PLAW-110publ233/pdf/PLAW-110publ233.pdf>

Genetic Information Privacy Act is understood in the following excerpts.

CHAPTER 2.6. Genetic Privacy 56.18

- (3) “Genetic characteristic” includes a gene, chromosome, or alteration thereof that may be tested to determine the existence or risk of a disease...
- (6) “Genetic test” means a test for determining the presence or absence of genetic characteristics in an individual or the individual’s blood relatives, including tests of nucleic acids such as DNA, RNA, and mitochondrial DNA, chromosomes, or proteins in order to diagnose or determine a genetic characteristic.
- (7) “Person” means an individual, partnership, corporation, association, business, business trust, or legal representative of an organization.

CHAPTER 2.6. Genetic Privacy 56.19

- (a) Genetic information is protected by the right of privacy *pursuant to Article I of Section 1 of the California Constitution*, and, notwithstanding subdivision (c) of Section 56.10, or any other law, shall not be obtained, analyzed, retained, or disclosed without the written authorization of the individual *to whom the information pertains* pursuant to subdivision (g). *A separate written authorization is required for each separate disclosure of an individual’s genetic information.*

Any employer, (“persons”) who negligently or willfully violates my genetic information is subject to fines, civil penalties, and a possible misdemeanor for each offense. You, “persons” at my employment, and Fulgent Genetics, are not an “authorized person” *to obtained, analyzed, retained, or disclose any of my genetic samples, genetic test, genetic characteristic, or genetic information. I revoke any authorization that I unknowingly authorized.*

“DNA sample” means any human biological specimen that is obtained or retained for the purpose of extracting and analyzing DNA to perform a genetic test. “Genetic Test” explicitly mentions DNA, RNA nucleic acid tests, including the PCR- test provided Fulgent Genetics. “Genetic Characteristic” includes a gene, chromosome, or alteration thereof that may be tested to determine the existence or risk of a disease. “Genetic information” *as “obtained from the genetic tests of the individual.”*

Fulgent Genetics explicitly states, it checks for RNA genetic material. Under frequently asked questions, Fulgent states no DNA is extracted, but instead RNA is⁷. “Picture Genetics,” Powered by Fulgent, states on their website that “samples are discarded after testing.” However, the privacy policy⁸, terms of agreement⁹, and notice of privacy practices¹⁰ documents state otherwise. See direct quotes below:

- Under certain circumstances, we may use or **disclose** your Protected Health Information for research purposes.
- We may contribute **de-identified genetic** variants that we have **observed**...
- **Services** to publicly available databases.
- We may use or **disclose** de-identified patient information for general research purposes. This may include research collaborations with third parties, such as universities, hospitals, or other laboratories, including commercial collaborations with private companies, ...and we may present or publish such information.
- We may **collect**, “The **sample** material involving **genetic data**.”

“Picture Genetics,” Powered by Fulgent, and Fulgent Genetics are best be understood as a “Genetic service” as it clearly refers to “obtaining, interpreting, analyzing, sampling, and assessing genetic information.” The intent of “persons” at my place of work is to require me to sign up for Fulgent Genetics. By signing up both my workplace and Fulgent Genetics gain authorization to **obtain** my “Genetic Information,” by **analyzing** my “DNA Sample,”

⁷ <https://www.fulgentgenetics.com/covid19/molecular>

through a "Genetic Test," **retained** by Fulgent Genetics, and **disclosed** to "persons" in my employment, affiliates, corporations, hospitals, and researchers. I "revoke authorization" to Fulgent Genetics and "persons" at my employment, even if authorization was previously unintentionally given. **I do not authorize or consent** for any "persons" outside myself to obtain, analyze, retain, or disclose my "*genetic samples, genetic test, genetic characteristic, or genetic information.*"

I do not authorize, nor consent to the use of my "Genetic Characteristic" to "determine the existence of risk of a disease," such as Covid 19. **I do not authorize, nor consent** to a "Genetic Test" as the means for determining the existence of "Genetic Characteristic" including tests as defined in the law, of "nucleic acids such as DNA, RNA, and mitochondrial DNA, chromosomes, or proteins," as is offered by Fulgent Genetics, Picture Genetics (Powered By Fulgent Genetics), or any other genetic testing company, platform, or database.

I expect immediate acceptance, as I "revoke authorization." I am stating, in writing, no other "persons" besides myself has authorization. It is my right to opt out of Fulgent Genetics. They are not authorized "persons" regarding my genetic information. I do not authorize, nor consent for you (Los Angeles County) to obtain, analyze, retain, or disclose my "*genetic samples, genetic test, genetic characteristic, or genetic information.*"

Please refer me to my original employment contract, where it states, I am required to sign up with Fulgent Genetics, "A Pioneer in genetic testing." Please refer me to my original employment contract, where I am required to consent to frequent genetic testing, samples, in order to obtain, analyze, retain, or disclose my "*genetic samples, genetic test, genetic characteristic, or genetic information.*" Please refer me to my original employment contract, where it's a condition of my employment to authorize my employer and Fulgent Genetics to obtain, analyze, retain, or disclose my "*genetic samples, genetic test, genetic characteristic, or genetic information.*"

If retaliation follows, the following Federal and State Laws continue to ensure my protection; including against genetic discrimination.

Americans with Disabilities Act (ADA), Rehabilitation Act (including the requirement for reasonable accommodations and non-discrimination, based on disability, as well as strict rules about employer-mandated or employer-led medical examinations and inquiries), Title VII of the Civil Rights Act (which prohibits discrimination based on race, color, national origin, religion, and sex, including pregnancy), Genetic Information Nondiscrimination Act, and Unruh Civil Rights Act

There shall be no retaliation, including lowered wages, being furloughed, or laid off, and no intervention or any element of force, fraud, deceit, duress, coercion, or undue influence on my decision. I am protected from retaliation through both State and Federal Laws such as the Genetic Information Nondiscrimination Act¹¹. Title II of GINA prohibits discrimination based on genetic information in **employment. Any "persons," including employers,** that choose to "not comply," the **Genetic Information Privacy Act**, "*any person who willfully or negligently violates these subdivision*" will be assessed civil penalties, fines, and a possible misdemeanor for "*each violation a separate and actionable offense.*"

COUNTY OF LOS ANGELES

HALE OF JUSTICE

ALEX VILLANUEVA, SHERIFF

November 29, 2021

Please read!

The Honorable Board of Supervisors
County of Los Angeles
383 Kenneth Hahn Hall of Administration
500 West Temple Street
Los Angeles, California 90012

Dear Supervisors:

COMPROMISED FULGENT REGISTRATION/TESTING SYSTEM

This letter is to inform you the Los Angeles County Sheriff's Department (Department) will not participate in COVID-19 registering or testing with Fulgent Genetics Corporation (Fulgent), due to the fact the DNA data obtained is not guaranteed to be safe and secure from foreign governments and "will likely be shared with the Republic of China."¹

On November 24, 2021, I was contacted by the Federal Bureau of Investigation (FBI) Weapons of Mass Destruction Coordinator, who shared with me the FBI's need to brief Los Angeles County (County) leaders as to "very concerning information" they learned regarding the COVID-19 testing of County employees by Fulgent.

On November 26, 2021, I attended a briefing at the FBI Los Angeles Field Office, as did Los Angeles County Counsel Rodrigo A. Castro-Silva and Chief Executive Officer Fesia Davenport. An invitation was also extended to each of you and the head of the Department of Public Health.

The FBI stated the purpose of the meeting was to inform County leaders of the serious risks associated with allowing Fulgent to conduct COVID-19 testing of County employees.

I was shocked to learn Fulgent had strong ties with BGI², WuXi³, and Huawei Technology⁴, all of which are linked to the Chinese Academy of Medical Sciences, the

¹ FBI briefing, November 26, 2021, "Safeguarding the Bio-Economy"

² <https://www.bgi.com/global/>

Peoples Republic of China (PRC) State Council and are under the control of the PRC. I was even more shocked to learn Fulgent made no attempt to disguise the fact they will use the genetic information obtained in future studies. On the Fulgent public website, the following statement can easily be found, *"I also give permission for my specimen and clinical information to be used in de-identified studies at Fulgent and for publication, if appropriate."* Additionally, the 2017 China Cyber-Security Law⁵ makes it legal for PRC to seize any data stored within China, or stored outside of China by an entity which has a presence in China, and that organizations and network operators submit to government-conducted security checks.

This is further explained recently in a New York Times article from October 22, 2021, *U.S. Warns of Efforts by China to Collect Genetic Data*. This article explained, *"Chinese companies are collecting genetic data from around the world, part of an effort by the Chinese government and companies to develop the world's largest bio-database."*

I am deeply concerned as to the vetting process which either failed to discover this, or discovered it, but chose to ignore it. A simple internet search would have uncovered all of the above facts. On or about October 19, 2021, our Department reached out to the County's Department of Human Resources liaison of Fulgent, Mr. Ben Kempner, to ask him to respond to the questions stated in the news article, *L.A. first responders ordered to turn over personal and genetic data to China-linked company or face firing*,⁶ but we were provided no response. I am equally concerned by the inclusion of an "equity survey" to the mandatory Fulgent database registration process. How can one provide informed consent when participation is mandatory, under penalty of discipline?

Entering into a no-bid contract with Fulgent Genetics and allowing them to have the DNA data obtained from mandatory COVID-19 testing, for unknown purposes, has shattered all confidence my personnel have in this entire process under the County mandate. Many personnel have long suspected this information was being used in an unnecessary manner due to a rushed mandate that we now know will have long-term unintended consequences that will not be fully known for some time.

The FBI felt strongly enough regarding Fulgent being used to test County personnel that they held an emergency briefing to disclose their concerns. I trust you will take steps to immediately assess and mitigate any further risk before any personnel are disciplined under the mandate for refusing to subject their information to the Fulgent system. The Board of Supervisors needs to determine the risk to the County as a whole to correct

⁴ <https://www.huawei.com/en/>

⁵ <https://fortune.com/2021/09/01/china-data-security-law-beijing-management-regulation-internet/>

⁶ <https://www.lawenforcementtoday.com/i-a-first-responders-ordered-to-turn-over-personal-and-genetic->

this issue, as well as inform the collective bargaining units of this new information in order for us to move forward in light of this information.

The Department will remove itself from working with Fulgent and continue with our own proprietary registration system. The Department will continue to work with properly vetted testing companies with no association to Fulgent.

Should you have any questions or would like to discuss further, please feel free to contact me at (213) 229-3000.

Sincerely,

To **ALL** Los Angeles County Supervisors

- Hilda L. Solis. First District
- Holly J. Mitchell. Second District
- Sheila Kuehl. Third District
- Janice Hahn. Fourth District
- Kathryn Barger. Fifth District

Dear Supervisors,

I am submitting my comments for today's Board meeting.

Agenda Item #8:

I **Support** Net Zero Energy building requirements for all new commercial and residential developments. Thank you Supervisor Barger for recommending this study.

Agenda Item #18:

I do **NOT Support** the termination of any employee for Covid-19 vaccination status. We are the land of the free, and what we as individual beings choose

to put in our body's is a personal private choice. These are the same people who have risked their lives for the citizens of our communities and have been called heroes. I don't require a person to be vaccinated to put out a fire in my neighborhood or home. I do not require a person to be vaccinated to stop a criminal from harming me or my loved ones. I do not require a person to be vaccinated to give life-saving medical care to me or my loved ones. I do not require a person to be vaccinated to continue to put their lives on the line to save others, and I do not suggest this distinguished Board of Supervisors require it either.

Respectfully submitted,

Abigail DeSesa

Public Comments:

Item 2: Masks on children

It has been demonstrated, worldwide, that masking children is not only ineffective at controlling the spread of COVID, and that children are inefficient vectors of the disease, but more important that masks have had serious detrimental effects on the physical, psychological and developmental health of children. Children, in the aggregate have not suffered serious illness and death from COVID, but they have suffered serious injury as a result of the NPI's imposed on them in this County.

Whether by incompetence, malevolence or cowardice, children have been oppressed by the mask mandates, and the continued imposition of such draconian measures on them constitutes institutionalized and state-sponsored child abuse.

Item 18: Vaccine mandates for County employees

Abandon any plan to fire, layoff or otherwise punish any County employee who refuses the experimental "vaccines", especially peace officers. In a time where crime is high and rising, largely the result of irrational decisions re. redefining serious crime, defunding the police and the abandonment of civilized social norms, firing peace officers is the ultimate example of cutting of your nose to spite your face.

A vaccine mandate, especially with omicron as the dominant variant, is scientifically irrational and defies common sense. Around the world the vaccines have been shown to be ineffective against omicron, a milder, less lethal disease.

But you could invite a world of ADE trouble by vaccinating into the middle of a pandemic with a non-sterilizing targeted vaccine, whose target is NOT omicron, especially when the survival rate with omicron is so high, and when surviving omicron could provide durable immunity to future variants.

Thank you.

Thomas O'Neill, Los Angeles County resident since 1958

Subject: Change the "mask mandate"
Date: Wednesday, February 9, 2022 7:42:22 AM

Dear Supervisors:

I urge, plead, beg you to STOP the mask mandate in LA County now. Let people make their own choices instead of forcing mandates on us. This virus is here to stay. We have to accept that and deal with it - it is time to allow us to decide how we want to live with it - masked or unmasked. The mask mandate should also be dropped for ALL schools in LA County - children are the least affected group and must be allowed to breathe and smile.

Thank you Supervisor Barger for stepping up to lead this change. It is time we trust people to do what they feel is right and stop with the mandates.

Dear Los Angeles County Supervisor(s),

We, (the electorate) hire you to administer our collective. The threatened firing of law enforcement (or any county employee) for refusal to submit to an invasive medical procedure is a breach of the trust we put in you.

It has been proven these “vaccines” are of limited value for the majority of people. (Likely due to the fact only a small fraction of people are actually at risk for severe illness or hospitalization.)

The risk/benefit inures to individual freedom to choose.

Subject: Fire Barbara Ferrer - Unscientific and Unaccountable .
Date: Tuesday, February 8, 2022 3:52:54 PM

Janice,

Here is another shout in a sea of voices: either fire Barbara Ferrer and end the vaccine and mask mandates which are crippling our county and sowing discontent, or resign and let somebody with principles do it.

Dr. Ferrer has set completely unrealistic goals for the removal of masks, and opposes one of the most like-minded states, California, in doing so. You have supported Dr. Ferrer's unscientific and backward positions throughout the course of this pandemic since your election in March 2020. If you do not do what is right, this will be your last term. The people of your district have had enough of the one-sided dictates and wholesale dismissal of our positions. You serve us. A simple Google search reveals the wave of support of removing mask and vaccine mandates (<https://file.lacounty.gov/SDSInter/bos/supdocs/165995.pdf>) which has gone unnoticed. The winds of change are blowing across this country, state, and county, and soon you will have to decide which way you're going to go.

The continuance of the mask mandate in the faith of the wealth of data is unscientific and illogical. First, any way you look at the data, masks have done nothing to influence the flow of this virus FROM THE BEGINNING. You may recall in March 2020, when you started your term of service, that masks were discouraged (except N-95s by health professionals) - then encouraged when politically expedient. The data was never provided to support them, and it still doesn't exist. One need only look at LA COUNTY and our rate of spread to see that all the vigorous mask and vaccine mandating has done nothing good to Slow the Spread.

Dr. Ferrer's policy reflects the definition of insanity: doing the same thing over and over yet expecting a different result. The mask mandates didn't work when the Alpha variant initially spread; they certainly don't stop Omicron or any other forthcoming variants. Looking at the results of your Health Department's past 2 years, they literally could not do anything worse. Spread and death rates matched all projections despite our attempts at interventions. It's time to try something new, and that is to take ourselves and our children out of the masks IMMEDIATELY. Not in a week, or when cases are less than 2,500 in a county of over 10,000,000 (an impossible goal), or when the stars align; NOW.

And the mask mandate needs to be across the board. The CDC, FDA, drug companies, and governments across the world ALL ADMIT that the vaccines do no Stop the Spread. We also all know that masks, aside from specific medical grade masks in specific circumstances, do not Stop the Spread. So the vaccination status of the individual should have NO BEARING on if they wear a mask or not. An unvaccinated person not wearing a mask can spread COVID just as easily as a vaccinated person wearing the mask. If you disagree, I encourage you to Follow the Science and look it up. The CDC agrees.

By imposing the mask mandate on a minority population and segregating them by their medical status, you invite discrimination and discord among your constituents. I can think of few ways to divide people more than forcing one group that you disagree with to wear a sign of that on their face at all times. If you do pursue that, perhaps you can have the county distribute the masks, and color them yellow to be more distinct. A star emblazoned across the front will mark all the wearers as *extra special* for immediate recognition and avoidance.

TLDR: end the mask and vaccine mandates NOW, or update your CV for when you look for a new job in 2024.

Subject: Firing for vaccination status
Date: Wednesday, February 9, 2022 9:27:12 AM

Hello, I'm still confused about all this.

You're going to fire 4,000 people for refusing to take an experimental injection with no long term studies with MRNA tech never been used in humans. Not only that you will violate the Nuremberg code which is recognized world wide for atrocities committed by nazi scientists and Japanese scientists of camp 700. Which simply put you can't experiment on people with our informed consent nor can you coerce them into taking medical treatments by any means necessary. So you firing them for not taking a shot...coercion. So you are willingly and knowingly violating Nuremberg. I look forward to your executions.

Subject: Mandatory vaccines

Honorable Board of Supervisors for LA County:

As a former (retired) LA County Deputy Sheriff's Sergeant of over 30 years, I respectfully ask you to open your minds to what your control over the lives of so many mean. The Sheriff's Department has a huge area and population to serve and protect, including security for county employees such as yourselves plus a large number of judges.

Of those long time professionals serving in after years of experience, many may be lost if the Board insist on them giving up their right to choose what medical procedures they accept for their own well being. Many will retire or go to other counties such as Riverside and San Bernardino that have not mandatory requirement.

Importantly, do you not believe that free Americans have a Constitutional right to choose what substance we put in our bodies? The COVID vaccine protects us if we get sick and may make our chances of recovery better, but DOES NOT KEEP US FROM GETTING SICK! Many of us take flu shots as different variants have occurred but we still have a chance of getting the flu, no different than the COVID variants.

Masking may have a positive affect on not spreading a disease and possibly should be used when approaching others on routine calls. Some degree of common sense needs to be used in educating others and encouraging appropriate safe guards, but DO NOT ORDER someone to care for themselves, THAT IS A PERSONAL THING!

I no longer live in LA County and would welcome any LA Deputy that desires to leave, to please consider Riverside County where our Sheriff and County Council allows for voluntary vaccinations. I think most do follow the safe guidelines that is encouraged, but it is their choice. At the young

age of 84 I am fully vaccinated including the flu shot. My choice! I ENCOURAGE THE LA COUNTY BOARD OF SUPERVISORS TO USE EDUCATION AND ENCOURAGEMENT, ...NOT MANDATES to gain the results desired.

Respectfully,

***John W. Jackson

Subject: Mask/vaccine/testing Mandate

To ALL of the LA County Board of Supervisors,

Please reconsider your position on the mask/vaccine/test mandate before the final decision of March 15.

I am one of the fourth generation to live in the Antelope Valley in Lancaster. My family arrived here as farmers in about 1911 -- a ways back before it was suburban! My grandfather moved people from the San Fernando Valley in the 1920's up here in Lancaster by horse and wagon! I am invested in living here and have no intention of moving. That said, these have become very, very troubling times for the Antelope Valley. It is the perfect storm, so to speak.

First, the four of you (except Supervisor Barger) are out of touch with the needs and the services of the Antelope Valley. I realize this is her district, but you all are making decisions that affect this area, too!

Secondly, we have a DA (Gascon) who won't prosecute the criminals, who as a result, repeat the same crime within the same day. I don't need to recite the crime statistics to you -- which by the way, are not the fault of LASD...those statistics lay directly at the feet of Gascon.

Thirdly, we have a two-faced dictatorial Governor who has no concept of suburban living -- and the unique distances we travel because of that suburbia/rural living. The distance between crime and cop-to-help is immense.

Finally, which is the pointed reason for this email, you, the Supervisors (four of you, anyway) appear more like Mean Girls trying to push around Sheriff Villanueva at the expense of those of us who are trying to work, live, raise children, and enjoy grandchildren. Your manner appears more similar to junior high school girls bullying the boys. It's petty. It's not well-reasoned. Pretty soon, only the dead (by the hands of criminals and not COVID) will have masks -- and only the criminals will have guns!

I'm asking you to PLEASE reconsider your position on the mask/vaccine/testing mandate for employees (in particular the LASD). And please get out of the business of requiring testing for these, the essential workers. Just let them do their "impossible" jobs! Quit handcuffing them and get them back to work. Do you realize we still have a marijuana problem up here? And several catalytic converters and more cars are being stolen every single night!? HELP!

Sincerely,

Jill Tanner

So you and your board have failed the city of LA with your leftist politics and agenda's. So now you push to fire some 11,000 county employees and sheriff's.... Sounds like another recipe for disaster for a struggling city like LA. You already allow criminals to run your town in many areas. You should ask be taken from your posts. You have failed. You should answer to that. There also should be a FULL audit of the money. Which so called non profits you give money to and take money from. You do not have authority over any individual. You may think so in your warped mind. But NO man controls another. I hope your punishment is swift. Drop your mandates for these unapproved,unproven shots that are killing people and making them sick.

Thanks,
Dave Mayle

Date: Tuesday, February 8, 2022 2:29:13 PM

My family is shocked and dismayed by Barbara Ferrer's decision to not lift the mask mandate in line with neighboring counties. Angelenos have lived under the strictest conditions for almost two years ago and even though these measures appear to have done nothing to prevent covid spread - we still have higher numbers than places with fewer restrictions! - still these draconian policies remain.

My children are suffering as a result of having to wear masks in non-air conditioned public school classrooms all day, My TK student cries and doesn't want to go to school. My 6th grader says his asthma is induced by being masked for long periods (and he gave up sports when you insisted, anti-scientifically, that kids wear masks outdoors).

My three kids have all have Omicron (one picked it up at school, despite being masked/distanced, and the others caught it from her at home). Not ONE of the children experienced a single symptom, neither did any of their friends who also contracted it at the same time. To treat them like walking pathogens when this illness does not even impact them is akin to child abuse. As a vaccinated adult I only experienced mild symptoms, and it is up to adults to protect themselves with the myriad vaccines and treatments now available.

Enough is more than enough. I cannot stand by and allow you to make my children suffer any more. Lift the mask mandates NOW.

Our children have not had a normal school year since 2019. For two years we have written to this Board begging for relief for our children. For two years, you have put the unions and special interests ahead of our children. Experts around the world and our own US Surgeon General have sounded the alarm of a mental health crisis in our children due to the pandemic school closures and continued restrictions. Almost every major publication has published a story in the last few weeks about the harmful effects of masking our kids and the lack of science behind it. Our children are in crisis, and YOU continue to ignore it. Not a single message from LA County Public Health addresses the social, emotional, and mental harm done to our children - all damage that is a lot more serious for most kids than the side effects of Covid. This is an EPIC failure by this Board and the Public Health Department.

Our children were locked out of their schools and sports for over a year. Now that the school doors have opened, our children are distanced from friends, masked for 7+ hours a day, with no parties, field trips or fun. Children are being forced to wear masks to run, exercise and play sports, even outdoors; meanwhile this same city is hosting the Super Bowl with over 80k. Children are made to believe that people would get sick and die from the simple act of them breathing yet see on television and in other places that adults are living in a different world with no masks and social distancing as none of these restrictions are imposed on adults. We will not let you ignore us anymore. We will not let you harm our children any longer. The testing, quarantining, and masking of our children needs to end NOW. You are all elected officials and will not be supported in the future by any parent if you continue the hypocrisy.

Subject: RE: Vaccine Mandate for City Employees
Date: Wednesday, February 9, 2022 4:36:21 PM
Importance: High

Dear Board of Supervisors,

I learned in the news that you plan to start enforcing the Vaccine Mandate, via bypassing Sheriff Villanueva's decision. Frankly, Mr. Villanueva's stance on vaccine mandates is much more reasonable than your Board's, and I fully agree with our Sheriff's decision not to enforce it.

Your decision to start firing city employees -- is an **act of lunacy**, to say the least. Your move is not only highly unethical and immoral, but it's also **Unconstitutional and Illegal**.

Please be realistic! -- The pandemic is ending. Many other countries are loosening and/or lifting the restrictions & mandates entirely. Likewise, many states in the U.S. do not even have the mandates, to begin with -- and their situation is even better than in California. Which just proves, these vaccine mandates are totally unnecessary and ridiculous.

I work in the Medical industry, and know first-hand that this so-called "Covid Vaccine" is generally ineffective, but moreover -- lots of people that I know suffered serious Side Effects; many people have also died directly as a result of the vaccine (mostly because of a blood clot / stroke); in a relatively young age. All in all: **The vaccine has not been properly tested, has potentially serious side effects, and is overall very dangerous**. Your forceful mandating this "experimental drug" is reminiscent of Nazi Germany dictatorial regime. Excuse my bluntness...

You keep using the old, banal, stamped phrases "*Vaccines Safe Lives*", which is nothing more than propaganda and senseless clichés. You obviously lack sufficient knowledge to even make such statements!

If you do decide to move forward with your decision, rest assured: our City employees will not go down without a fight. The City and/or the County might be taken up to the Supreme Court, where undoubtedly your decision will be blocked! (just like president Biden's mandate on vaccinating large companies was recently blocked by the Supreme Court).

I still hope that you will use common sense - and will do what's right.

Do not implement (or enforce) the mandate!

Thank you.

Mike.

Supervisor Be Advised

Comes now, before these Worthy Parties, Notice, Knowledge, Facts and Opinions such that may affect their deliberations and behavior.

Recognizing that Rank and Position bring along with them Isolation and Control by underlings and minion via information control, We, the People, present you with information critical to your thinking.

Times Have Changed – .

Time changed when the CCP released the covid bioweapon in 2019. The People are learning the facts.

1. Fauci is toast.
2. CDC has lost all credibility. NIH is not far behind.
3. Sotomayor, attempting to support the covid narrative with disinformation (lies), is costing the Supreme Court in its credibility. The People will not accede to a corrupt decision.
4. The release of the CDC information shows that CA State had NO pandemic. It can now be established scientifically in court that all the measures taken by CA State, County and Local governments had no positive effect on the bioweapon/disease and are negatively impacting the citizens and businesses of CA State and Los Angeles County. Litigation en masse is expected as a result, both against individuals and government agencies. You must move to lift all restrictions now. Claims to ignorance will not shield you from the coming reckoning. Only actions in defense of We the People and our constitutional rights will

protect you and your future. Connections to the CCP are expected to pierce the veil of protection for government employees and elected officials. (See Devolution below).

5.

Devolution

As the CCP released a bioweapon in 2019, the USA is at War. This Act of War changed all status, legal, perceived, and real, on that day.

It is assumed by We, the People, that, as a Legislator/Supervisor, your understanding of our common, shared, reality is controlled by the minions who 'serve' you. Your handlers have likely NOT shared the Devolution information with you.

Here is a link to encapsulated description of Devolution that may assist your thinking for the Immediate, and long term future. We are at War. Every action and decision and Vote will have significant and serious consequences.

Date: Wednesday, February 9, 2022 1:44:24 PM

My name is Craig Campbell and I'm requesting LA County First Responders NOT be forced to take the Covid vaccine. My entire family has already had COVID and we all have robust immunity and the studies continue to show that natural immunity is superior to vaccinations. And I can only imagine that MANY of these young men and women who don't want the vaccine have already had the virus and have that same robust immunity, as well. These are the same young men and women who put their lives at risk for exposure early on in the pandemic when there was NO vaccine available. How could you forget that heroism so soon? Many of them have contracted the virus and suffered illness and now you're mandating they get the vaccine regardless of their immune status? It doesn't make any sense.

Secondly, we are a strong Catholic family. We know that an aborted fetus's cells were used in the testing of this vaccine. We believe this to be grounds for exemption for anyone who has a personal conviction because of this. Someone's faithful convictions cannot be compromised by our government - this is America. I think the First Responders should be given the same consideration because it is their right as an American to practice their faith.

Lastly, this pandemic appears to be ending per Dr. Fauci today. This entire pandemic is nearly over, why the fight now? Please show respect and gratitude to our First Responders by NOT mandating this vaccine for those who do not want it. Freedom is not free. Those who do such an amazing job putting their lives on the line every single day to keep us safe and make sure we get emergency medical care when we need it deserve to make their own personal decision regarding the vaccine.

Thank you for your consideration,

Craig Campbell

Subject: Unmask our children
Date: Tuesday, February 8, 2022 10:15:07 PM

This is ridiculous! Our Governor and Mayor were maskless at an indoor stadium (as were most other attendees), but my 9-year-old daughter has to wear a mask at school 7 hours a day, including outside (recess & P.E.).

If Los Angeles can host the Super Bowl, things can't be as dire as Barbara Ferrer consistently claims. Why are K-12 schools being lumped in with "mega" events? Schools vary in size, but I can assure you most do not have the same capacity as Dodger Stadium, Sofi, or the Coliseum. It makes no sense. The Los Angeles Board of Supervisors should be ashamed of themselves.

Masking young children for the past two years has caused immeasurable harm. Many are depressed, socially stunted, and have never seen their teacher's or classmates' entire faces. Children are not adults. Their brains are not fully formed, this damage will be long-term, and no one seems to care. The lack of empathy for children during this pandemic has been shameful.

Date: Monday, February 09, 2021 12:08:00 PM

Dear Leaders of the Community,

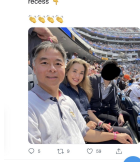

I have BCC'd every Principal in our Local School District, every School Board Member in PPUSD and local Assemblymembers and County Supervisors because I know you care deeply about the safety and wellbeing of children. I am writing to you today to encourage you to be courageous leaders and let the children know they can now take off their masks if they choose to do so.

On September 8, 2020, the Los Angeles Rams Owner/Chairman E. Stanley Kroenke completed the construction of the most expensive stadium ever built. And, just yesterday on February 12, 2021, over 70,000 people, including PPUSD School Board Member Rick Phillips and his wife, hundreds of celebrities and our State and Local elected Public Officials packed the newly built SoFi Stadium.

View 2 more

Victoria Fox @victoriafox · 3h
Great to see @Deadline also supports equal standards for adults and kids and the unmasking of kids at it's outdoor settings like recess 🙌

SoFi, a five billion dollar project, was constructed during the Pandemic while our Government forced kids into in-home isolation and massive amounts of surveillance. Newsom and Garcetti, under guidance by Los Angeles County Public Health Official Barbara Fennar, gave The Supercell the green light to go on. Meanwhile, they forced our kids to wear their faces while Death Row Rapier, Sleepy Dugg, and Dr. Dre dry hump on a stage in front of thousands of screaming fans.

CALIFORNIA

Newsom wants to end school masks, but teachers say not yet

Decisionists are caught in the middle of school re-opening wars, and some blue states are flying the white flag.

The re-opening debate continues for schools. (Lara Denney/Getty Images)

After being controversial by the press about being unmasked, Garcetti said, "I was holding my breath." While I am not in the business of telling people how to feel, I do hope you are disgusted, enraged, and ready to protect our children from ongoing abusive tactics by bureaucrats who are using children for pharmaceutical profits.

All eyes are on you now, and we were hoping you could lead the charge to protect our kids from mandates that are not for their health but for profit and power.

All schools received millions of dollars in COVID money. California, in total, was awarded \$5 billion dollars to test our kids for COVID and get them all vaccinated. Per the contract School Districts signed with the State, they received millions of dollars to use COVID testing as part of the promotion of vaccines. **Please do not let us be between 30,000 and 100,000 in earnings for 2021 because they are counting on parents and people not to think and do what they are told.**

The majority of school districts have the agenda to shoot money and let nothing to do with our kids' health.

Our Schools took prize money to condition children to believe their innate immune system doesn't work, and therefore, they must rely on a new vaccine that has now caused over 750,000 injuries and 10,000 deaths in the USA alone. Studies show that typically only about 10% of vaccine injuries get reported because most Physicians disown them as "coincidental" and not as causation. (reported to CDC VAERS). The overwhelming amount of evidence does not support any view that children need vaccines for their own safety, but rather, the alleged goal of vaccinating children is to protect unrepentant older adults who are still vulnerable because they are older adults.

Please take a stand for our children and stop enforcing COVID mandates.

Lift all mask mandates today.

Encourage Teachers and Staff not to pull at our children or punish them for pulling down their masks to breathe, take sips of water, and a big ask is for you to announce today that no child has to wear a mask at school.

There is no urgent need for children to have a sense of normalcy now?

As leaders in the community, you have the power and authority to make decisions at a local and personal level. And, you have the microphone to announce for all to hear that it is safe to breathe, especially inside.

In the Court Case between Let Them Breathe and The State of California, the State admitted that testing, quarantine, and masking were only recommended by the State and not mandatory. The State of California did this to hold themselves harmless and avoid the trial that would have proven substantially that masks have caused significant learning loss and an increase in multiple emotional and physical ailments. Judge Pedraza ruled that because the State had disavowed its testing for the virus in schools and questioning its recommendations that school districts are free to use at their discretion, the State could not be sued. And as such, Schools and caring Administrators, such as yourself, have the choice to determine how they implement guidelines.

I understand you are following the Los Angeles County Public Health Department Guidelines. However, guidelines are flexible. Given the whole show of faces at the Superbowl, including State and Local Politicians and Celebrities, it is cruel and immoral punishment to force all children to continue to bear the burden of the Pandemic. Anyone still enforcing this charade will go down on the wrong side of history because the truth always comes to light, and that time is now.

Keeping kids home from school was never for their safety and had everything to do with Politics and Profit. Not only should our kids have been back in school in the Fall of 2021, but they should have gone back after spring break in 2020.

In April of 2020, business owners and people from all over California began to protest the Stay-At-Home Order. I was one of them, and I still haven't managed to "catch covid." The Media called us Superpandemic and started an all-out smear campaign to blame us for the increase in cases that never were. And, then just as more and more people got suspicious because, in April of 2020, there was reason in the hospitals all throughout California. The only real hospital surge happened where most coronavirus cases were happening, in New York City. If you would like the Hospital Data, I will send it to you for evidence.

In late March 2020, The [USNS Mercy](#) — one of the Navy's two 1,000-bed hospital ships docked in Los Angeles to assist with what was supposed to be a flood of dying people who required hospitalization. After two months, The City Of Los Angeles did not need emergency relief from the Navy, so in May 2020, they sailed away. And then, there was a series of racially charged murders that went viral online, one right after the other.

We witnessed the largest protest in the history of America and a month of riots and people burning down buildings in Santa Monica. The media made propaganda statements like the one from The Times, "90% of BLM Protesters were peaceful." They blatantly ignored the 1% whose gasoline was poured on Police Officers and set on fire. "90%, our public health officials explained, "COVID didn't spread during Black Lives Matter Protests," but every Trump Rally was a Superpandemic.

More people died during the riots than at the "Shooting at the White House." Still, the media barely touched on the massive increase in crime, homicides, and domestic abuse that directly resulted from lockdown policies.

Politicians claim that asking anyone to show identification to vote at the polls is racist, however, the same Politicians are now demanding evidence of COVID-19 vaccination to participate in society. This insanity and double standards must stop.

I have witnessed the Teachers Union using kids as bargaining tools to get raises, defend the police and get more vacation time. I have seen Teachers, and School Staff retaliate screaming at kids to cover their noses as if they are carrying lice by emotionally abusing the kids. No child should at this point continue to have to tolerate this type of insanity.

As leaders in the community, I hope and pray that you can see what is happening is wrong, and I beg you to please help correct the mistakes of the past to ensure our children are safe in the present.

The international, psychological, and mental risks of face coverings, home isolation, mandatory vaccinations, and frequent COVID-19 testing far exceed any benefits to the child and the community. In a two-year study done by John Hopkins, researchers concluded there was only a 2% reduction in total mortality rates throughout COVID mandates.

There was never any scientific evidence suggesting that the SARS-CoV-2 virus was a significant threat to children. And while the virus can be deadly to some, most COVID-related deaths were in people over the age of 65 and with four or more preexisting conditions, making COVID-19 a personal health issue related to internal chronic diseases.

The American Academy of Pediatrics publishes a weekly report titled, "Children and COVID-19: State-Level Data Report." As of today, Valentine's Day, the CDC has tracked 12,042,870 total child COVID-19 cases.

It is of great significance that the term "case of COVID" is grossly misused. A case indicates only that the presence of the SARS-CoV-2 virus has been discovered either in the mouth or a child's saliva. The PCR tests use primers that match a virus's genetic material segment and then photograph it.

Genetic analysis requires significant amounts of a DNA sample. Researchers can't isolate the SARS-CoV-2 virus without PCR amplification. PCR Tests do not give us essential metrics such as the level of infection, whether or not one is contagious or if a person is even ill or requires treatment. A person who does not have symptoms such as a fever, body aches, or low oxygen levels does not require any treatment and does not have COVID-19.

There is a significant difference between HIV and AIDS.

And, there is a substantial difference between the SARS-CoV-2 Virus and COVID-19. HIV is a virus combined with Autoimmune Deficiency Syndrome.

However, people can have autoimmune deficiency syndromes without HIV. Autoimmune Deficiency Syndrome is a disease in which the body's immune system attacks healthy cells. Examples of autoimmune deficiency syndromes include but are not limited to:

- Rheumatoid arthritis
- Lupus, celiac disease,
- Multiple sclerosis
- Polyarthritis rheumatica
- Type 1 diabetes
- Scurvy
- and COVID-19.

According to the American Academy of Pediatrics Weekly Report, in the context of COVID-19, of the total 12,042,870 child COVID-19 cases, 8.1%-1.5% of all their child COVID-19 cases resulted in hospitalization. In states reporting, 0.0%-0.01% of all child COVID-19 cases resulted in death.

Governor Newsom declared The State of Emergency on March 4, 2020, to ensure hospital care for, as Governor Newsom explained, The Vulnerable, The Elderly, Prisoners, And, Homeless People.

- WHEREAS **personal protective equipment (PPE) is not necessary** for us by the general population but appropriate PPE is one of the most effective ways to preserve and protect California's healthcare workforce at this critical time and to prevent the spread of COVID-19 broadly; and

Consequently, per Newsom's Declared State of Emergency, he slashed the prices of everything, including construction costs.

- The time limitation set forth in Penal Code section 198, subdivision (b), prohibiting price gouging in time of emergency is hereby waived as it relates to emergency supplies and medical supplies. These price-gouging protections shall be in effect through September 4, 2020.

Our children have done enough to save older adults, and I ask that you now protect the truly most vulnerable from corporate greed and government corruption, the children.

In the spirit of Valentine's Day, and to quote the epic words from the movie V for Vendetta, please remember the truth, "You wear a mask for so long, you forget who you were beneath it."

HOW LONG WILL WE HIDE OUR KIDS' SMILES AND JUSTIFY IT AS IF WE THAT IS SAVING THEM?

Beneath these masks, we are all Americans and as Americans. It is our Civic Duty to defend our children against a tyrannical Government.

Zip Code: 91387

Message: Please keep the mask mandates in place for LA County. Transmission rates, as well as deaths, are high. The local Santa Clarita conservative rag, The Signal, has organized a one-click letter-writing campaign to end the mask mandates. Most Santa Claritans are in favor of keeping the mandates in place; most of us don't read the Signal. But we don't have any one-click letter-writing campaign asking for the maintenance of the mask order. If we eliminate masks, all we have are waning vaccines -- it's like one layer of Swiss cheese with a lot of holes in it. Keep the masks until the CDC posts metrics for removing them. Then make sure we meet those metrics.

Thank you,
County of Los Angeles Board of Supervisors

Subject: LA County Mask Mandates - Comment
Date: Monday, February 14, 2022 10:45:11 AM

Hello,

I would like to send the following email to reach all of the Board members.

Please let me know if this is the correct email address or if there is another email address that it should be forwarded to.

Thank you.

Dear Members of the Board of Supervisors,

I hope that this email finds you all well, safe, and healthy.

I am member of the community with a comment regarding mask mandates.

I think that there needs to be some clarity from public officials regarding indoor and outdoor mask mandates within LA County.

After watching yesterday's SuperBowl, I think it raised more questions regarding the mandates. While SoFi Stadium's website clearly states that mask mandates are enforced, anyone who saw yesterday's event clearly could see they were not.

It's not just the SuperBowl, though. I have been in places within the past two weeks where I have seen persons being allowed to walk around without masks indoors. I don't know if it's "fatigue" or what, but there needs to be a clear statement on mask mandates.

Either they need to still remain in force or not. It really is confusing when places have mask signage everywhere and post mandates on their website, and then no one does anything if someone is not wearing a mask.

Thank you for reading my email.

Sincerely,

Stacy S.

Subject: LA County's Health Order on masking to align with the state.
Date: Friday, February 11, 2022 2:58:25 PM

We need LA County's Health Order on masking to align with the state.

The County's masking requirements are constantly changing without clear evidence that these guidelines are even effective measures. With the goalposts continuously being pushed back, these provisions can last in perpetuity.

Businesses and residents want clarity; keeping different measures when the rest of the state has moved on will only confuse and continue to hinder public trust.

Kindly,

Subject: Termination of Sheriff Office Workers for No Vaccination
Date: Monday, February 14, 2022 9:57:50 AM

Dear Board,

I was shocked to hear of the recent decision to move forward with termination of employees for not getting vaccinated against Covid. It is now clear that vaccination, even a boost, does not preclude against contraction / symptoms / transmission - what problem statement is the Board attempting to solve for with the decision to enforce vaccination? Vaccinated and unvaccinated alike can transmit Covid, which has now been reduced to its mildest form, yet, so it is unclear why the Board would take such a decision. I'd be curious to understand what data is being used to implement the decision.

Conversely, terminating that many employees would be detrimental to the safety and wellbeing of residents and visitors of LA county. The high crime, vandalism and homelessness have been blowing up the news outlets in recent months - again, I'd be curious to know what criteria or data points are being used to determine that terminating such a large portion of the force would be of benefit to anyone. Recruitment rates are also widely acknowledged to be at historical lows, so I wouldn't anticipate there being a large pool of people ready to fill those positions any time soon.

I strongly urge the Board to please reconsider the decision. Thank you for your time,

Message: The County Supervisors are losing me. And im a member of the democrat Party. Barbara Ferrer's decision to not allow at least some easing of the la county mask mandate is disgustingly self serving. She came across in the tv news walking interview as actually arrogant about it. While she is not directly elected the County Supervisors appointed her. Look out because the fault is going to fall somewhere and likely on you. And if your losing me, a democrat, then your support is rapidly crumbling.

Thank you,
County of Los Angeles Board of Supervisors

From: [Christopher Evans](#)
To: [ExecutiveOffice](#)
Subject: Concerned constituent re: LADPH
Date: Friday, February 11, 2022 11:38:25 AM

Dear Board of Supervisors,

I am a resident of Los Angeles and very concerned about actions taken by LA Department of Public Health.

News today about Pfizer postponing their FDA request for vaccine approval for 6 month-4 year old children is disappointing for multiple reasons. Barbara Ferrer establishing vaccine availability for children under age 5 as a stipulation for removing indoor mask mandate was a bad decision as it was, but now it is outrageous. With Pfizer now saying they will no longer even seek approval until early April, and Ferrer decreeing 8 weeks of vaccine availability for children under 5 as a requirement for unmasking, we are now in a position where LA will be masked at minimum until summer. This indefinite masking is completely absurd, anti-scientific, and out of alignment with the rest of the state, the country, and the world.

I am imploring you to push back against Ferrer and LADPH on these mask rules, especially for children. Without even a timeline, goalpost, or metric established for unmasking two-year-olds (!!!), LADPH's cruelty is eroding every last modicum of credibility they may have had remaining. Please stop letting this happen. Ferrer is unelected and unaccountable to the public, but you have the ability to push back. Please do the right thing.

Christopher Evans

The men the American people admire the most extravagantly are the most daring liars: the men they detest most violently are those who try to tell them the truth. - H.L. Mencken

CVHOAX.COM

**Take Off Your Mask And Get Off Your Knees ! COVID-19 IS FAKE !
Unquestioning Gullibility And Obedient Compliance
Are Unbecoming Of A Patriot !**

FACT : Thousands of highly credible and qualified doctors and scientists from around the world are adamantly insisting that Covid-19 is either completely fake or practically harmless and are being deliberately and systematically censored by the Mainstream media and governments. (Numbers Correspond To Links In CVHOAX.COM)

2,3,7,8,9,11,14,17,32,33,34,35,36,40,44,55,59,60,61,62,63,69,76,80,82,83,86,90,104,147,157.

FACT : Covid-19 has never been scientifically proven to exist because it has not met any of the four criteria of Koch's Postulate which is known as the Gold Standard of proof of a virus's existence. The scientific study of germs is known as Germ Theory because it's a THEORY ! Germs have never been proven to be the cause of contagious disease yet have been used to sell vaccines for over a hundred years. Exosome Theory is far more plausible. If you don't know what Koch's Postulate and Exosomes are then you're not as smart or as well informed as you thought you were. This is an opportune time to drop your know it all attitude and open your ears.

4,5,6,10,11,13,16,17,32,37,43,49,73,78,79,86,87,94,110,111,112,115,116,117,118,136,137,138,143,145,147,157.

FACT : The creator of the PCR Test used to detect Covid-19 said it was never intended to detect any virus. Every Covid-19 death was caused by something else and falsely attributed to Covid-19. Do you believe hospitals would be tempted to claim that a patient who died of the Flu had instead died of Covid-19 if the Government gave them \$50,000.00 to say so ? Dr. [Genevieve Briand](#) MS, Assistant Director for Applied Economics at Johns Hopkins University, has proven that there has been no more deaths

in 2020 than there were in 2019. There were no Influenza deaths recorded in 2020 because they were falsely labeled Covid -19 deaths, as well as cancer and car wrecks etc. (157 !) 12,23,24,29,40,94,103,120,122,130,135. 9,10,16,17,27,56,88,89,96,117,118,129,143. 21,25,30,67,68,72,84,150,151. 37.

FACT : Wearing a mask is utterly ineffective at blocking a virus. A virus can pass through a mask as easily as swimming under the Golden Gate Bridge. Prolonged mask wearing causes brain damage and respiratory illnesses. The first step to overcoming your mask fetish is to admit you have one. Do you wear a mask in your vehicle or outdoors when no one is near you ? Until recently it was common knowledge that constant hand sanitizing and isolation inhibits one's immune system while exposure to dirt and filth and other people strengthens one's immune system. " Mask Mouth ". If the Mainstream Media and Government could convince you to do the Hokey Pokey they most certainly would. Unconstitutional and criminal mask mandates are a mass Asch Conformity Experiment. If you're worried about getting sick, then suffocating yourself is probably not a good idea. Any person wearing two or more masks is actively engaging in Natural Selection. 40,57,59,70,(71),78,79,87,95,101,102,132,139,140.

FACT : The Covid-19 'pandemic' was planned years in advance and has been surreptitiously introduced into the public consciousness through popular culture. Many news articles reporting on Covid-19 are bizarrely coded with strange numbers. 19,20,38,42,46,47,48,52,53,54,56,77,121. 22,39,47,48,52,156.

FACT : Unconstitutional and criminal lockdown laws are destroying your freedom and your economic livelihood and your future. Unconstitutional and criminal lockdown laws are causing the starvation deaths of millions of people in poor countries and soon in formerly wealthy countries. Is it wise to inject yourself with a drug falsely labeled as a vaccine, designed to alter your DNA and sterilize you, to prevent a virus that has never been scientifically proven to exist ? Is it wise for the U.S. Military personnel to be injected with this 'vaccine' ? A perfect analogy to comprehend the social dynamic surrounding the public's enthusiastic willingness to embrace the Covid-19 narrative without question can be seen in the video titled "Key & Peele, Pegasus Sighting". Simply change the word "Pegasus" to "Covid-19". Orson Welles' War Of The Worlds broadcast also comes to mind. Throughout history rulers have used human being's deep desire to feel like they're contributing to the greater good to manipulate the public to act against their own best interests. "A soldier will fight long and hard for a bit of colored ribbon." - Napoleon Bonaparte. The Emperor wears no clothes. Educate yourself or perish. 105,126,127,146,149,154,155. 18,50,51,65,74,75,85,92,100,106,107,108,113,114,119,128,134,149,152,153,158,159,160,161.

FACT : Lawsuits are currently being pursued against governments and other players that deceived the public to accept unconstitutional and criminal lockdown laws based on a fraudulent test to detect the nonexistent Covid-19. 58,59,64,91,124,131,141.

FACT : Four out of five Stanley Milgrams surveyed recommend critical thinking for their patients who want to live in reality and not blindly follow orders from whomever they consider to be an authority. 147,157,162.

FACT : Decades of thorough documentation of placebos and nocebos conclusively and irrefutably prove that human beings can both heal and sicken themselves with their thoughts and feelings alone. Ray Charles. Thalidomide. Catherine Austin Fitts: Planet Lockdown, the missing 21 Trillion Dollars and FASAB 56. (163).

SEE THE PROOF AT: CVHOAX.COM

Will your ego allow you to examine the proof that Covid-19 is fake ?

Although, the thought of the Mainstream Media and Government lying to this extent is frightening, your denial of this deceit is absolutely terrifying.

Subject: LASD mandate

Dear Supervisors,

Regarding Supervisor Kuehl's quote that she "will not permit county lives to be jeopardized by an individual decision".

Have you four individual supervisors not considered the fact that firing LASD employees will CERTAINLY jeopardize county lives? Those county lives are made up of victims of crimes while you bicker like juveniles! These deputies have been on the job as essential workers for two years! Some of these were out for one or two days with Covid already and after the appropriate quarantine went back to work (unappreciated, I might add). They are fine. They are healthy because they have to be to do their jobs well. They are putting in long hours protecting and serving a district you don't oversee! Firing them is just irresponsible.

Think. Reconsider.

Subject: Mask and Vaccine Mandates

Dear County Supervisors

As the county is constantly changing their stances on various issues need I remind you of your letter to me that. (See below) I ask the board to give us one single piece of evidence , scientific piece of evidence that 1) Masks work. 2) Experimental Emergency Use Vaccines work and are safe. Los Angeles County has more restrict measures than the State and now Los Angeles County is about to host the Superbowl under a State of Emergency and draconian mandates. Even the Governor of Nevada has lifted all mandates on anyone. And does not want to hold the economy back or force workers to check on vaccination status.

Our health officer, Ms. Ferrer, (not even a medical doctor) comes up with these arbitrary numbers to be able to lift restrictions. How doe she know what number is going to be effective. You provide no time limit for providing an answer. You want to keep us in a perpetual state of emergency just like the state assembly just voted 48 to 15 to keep the state of emergency with the state.

Why don't you ask her about talked about [the John Hopkins study](#) showing the public interventions have virtually no effect on the pandemic, but had a huge negative effect on the public wellbeing. In short, this study, which was extremely well done, make it crystal clear that Ms. Ferrer caused enormous amount of harm for no benefit. The point he makes is pretty simple: if Ms. Ferrer is worried about infecting the public, she should just order if you are

symptomatic, you stay home, regardless of vaccination status. Period. This is because, as Dr. Fauci has pointed out, the main driver of spread is symptomatic people

And now you just voted to fire 4000 unvaccinated Sheriff's officers. That is a real smart idea in this day with all the increase in crime and we are trying to recall our District Attorney. Someone's informed consent decision on THEIR health should not affect their job. You would not fire an officer or other country workers if this tested positive for HIV. That would be discriminating and against several state and federal laws.

"As I have expressed throughout the COVID-19 pandemic, Los Angeles County should align with the State of California on all health officer orders that impact residents, businesses and local organizations. The public deserves clarity and transparency when government officials make decisions that will impact the lives of our residents. I wish that the Department of Public Health had provided its proposed masking guidance during the July 13th Board of Supervisors meeting so that the public could have had the opportunity to listen to the decision-making process. By deviating from the State, we create confusion and disagreement at the local level, which hinders public trust and takes away from our primary messaging which should be to encourage individuals to get vaccinated with urgency given the spread of the Delta variant."

I urge you ladies to take a really hard look at what you are doing to the public. And the majority of the people are not happy. Barbara Ferrer and the board votes are ruining thousands of lives. I'm sure most people are thinking, but are too polite to verbalize. You don't want to be labeled incompetent for not interpreting the data correctly. Having restrictions so we can lift the restrictions is ludicrous.

Subject: Mask Mandate to be effective 7/17/21

Dear Board of Supervisors:

I am sure you are aware of the court case in Florida Justin Green vs. Alachua County, ID 1D20-1661

The right to be let alone by the government does exist in Florida, as part of a right of privacy that [Florida's Supreme Court has declared to be fundamental. ... [The Supreme Court] has construed this fundamental right to be so broad as to include the complete freedom of a person to control his own body," the [ruling added \(pdf\)](#). "Under this construction, a person reasonably can expect not to be forced by the government to put something on his own face against his will. Florida's constitutional right to privacy, then, necessarily is implicated by the nature of the county's mask mandate."

The right to be left alone in the State of California and the right of privacy is a fundamental one expressed by the California Constitution and any law that implicates it ‘is presumptively unconstitutional’ and noted that “if a challenged law implicates a privacy right, the burden shifts to the government ‘to prove that the law further[s] a compelling state interest in the least restrictive way.’”

The judge also argued that “the threat of government-sponsored shaming was not an idle one” while noting that “until recently,” the face mask mandate “seemed like it might never end.”

This is precisely what the Board of Supervisors of Los Angeles County are doing. But, unfortunately, this very small spike in cases does not warrant a countywide mask mandate for indoor, especially for vaccinated people.

The county needs to get out of the health business and back to real business. And give up this local emergency health order that allows the county to draw funds from the state and federal authorities.

Subject: Vaccine mandates

As almost all of the United States is backing off from covid mandates, you despots are pushing harder. Screw you and your tyranny. Leave your employees to live their lives. None of you were elected to be dictators. But you have some mental illness that makes you look just like Hitler. Resign now.

Subject: ITEM AGENDA 18
Date: Thursday, February 10, 2022 2:30:46 PM

I ASK BOARD TO VOTE NO ON SUCH ITEMS ON SEVERAL REASONS.

1. NOT EVERYONE CAN RECEIVE THE VACCINE.
2. PEOPLE ARE STILL DYING AND ACQUIRING COVID AFTER RECEIVING VACCINE
3. VACCINE NEEDS MORE TRIALS
4. ETHICALY BIASED
5. NOT ALL REASONS FOR MEDICALLY NOT RECEIVING VACCINE IS NOT INCLUDED IN THE VACCINE EXEMPTIONS. THIS IS TAKEN AWAY TO MAKE SURE ALL WERE VACCINED. NOT TAKING INTO ACCOUNTS THEY MAY DIED
6. PEOPLE HAVE DEDICATED THEIR WORKING YEARS TO THE County of Los Angeles and have done so in a fashion that is beyond their job duties in an effort to make the County of Los Angeles a better place to live and work.
7. Objecting to Person religious beliefs is Un American and a disgrace to all religions.

I ask the board of supervisors to implement a plant to keep its workers those vaccinated and unvaccinated. Remember so person can not be vaccinated under such reason that are not covered your reasons.

I urge the Board of Supervisors to plan on keep its unvaccinated employee.

Subject: It's too hot for LA kids to wear masks!
Date: Thursday, February 10, 2022 1:25:18 PM

Kids are getting sick at school due to wearing masks while outdoors in the LA heat while they play on black asphalt. In your attempt to keep kids safe, you are actually causing our children serious harm. My own child has been suffering from bloody noses every day since the cloth masks were banned and he has had to use the fibrous surgical masks -- he misses at least 30 minutes of class time per day while he cleans up his bloodied clothes and face.

PLEASE have some mercy on these children and at the very least, relax the mask rules in hot weather.
