

MOTION BY SUPERVISOR DON KNABE

May 6, 2008

Paradise Landscaping of Torrance recently donated to the Los Angeles County Department of Parks and Recreation a 3,700 gallon Koi pond to be installed at South Botanic Garden. The low-maintenance Koi pond features biological filtration, two skimmers to pick up leaves and other surface debris, two quiet submersible pumps, a center drain to provide better water flow and better water filtration, numerous waterfalls to provide beauty and water aeration, and an automatic fill valve to regulate the water level of the pond. The pond is constructed of rock and gravel to give the pond a natural look.

I, THEREFORE MOVE, that the Board of Supervisors of the County of Los Angeles hereby accept with thanks the donation of a Koi pond and its installation at the South Coast Botanic Gardens valued at \$25,000; and send a letter of appreciation to Paradise Landscaping for their generous donation.
