Supervisor Burke made the following statement:

“Each year, National Public Works Week serves as a reminder of the value of public works in our community life. As part of this celebration, public works officials across America strive to increase public awareness and appreciation of their profession.

“From the design, building, and maintenance of our public works infrastructure, to promoting water quality and stewardship of the environment, public works is a substantial and vital part of our daily lives. Truly, the very health, safety, and comfort of our residents depends upon the efficient delivery of quality public works services.

“The mission of the County’s Department of Public Works is ‘Enhancing Our Communities Through Responsive and Effective Public Works Services.’ That charge is demonstrated through the service-oriented resolve of our Public Works employees, from administrators and support staff to the crews out in the field. We all owe a great debt of gratitude to the dedicated personnel who staff our Public Works Department.”

Therefore, on motion of Supervisor Burke, seconded by Supervisor Knabe, unanimously carried (Supervisors Molina and Antonovich being absent), the Board proclaimed May 18 through 24, 2008 as “National Public Works Week” throughout Los Angeles County; and encouraged all citizens and civic organizations to acquaint themselves with the challenges involved in providing public works services and to recognize the contributions that public works officials and employees make every day to our health, safety, comfort and quality of life.
