

MOTION BY SUPERVISOR DON KNABE

April 20, 2010

Sexually violent predators pose a serious threat to our society and children in particular as was the case with Chelsea King. We need to strengthen our protections for all children and for society at large so this needless act is never repeated.

Chelsea’s Law, AB 1844, has been introduced by Assemblymember Nathan Fletcher. This proposed legislation increases penalties for sex crimes against children, lengthens the time sex offenders remain on parole with GPS monitoring and establishes “safe zones” to limit where offenders spend their time.

Unfortunately, our current laws do not adequately protect children, so this new piece of legislation should be enacted.

**I, THEREFORE, MOVE** that the Board of Supervisors support AB 1844 (Fletcher) and notify our delegation of our support for this important piece of legislation.
