GAIL FARBER, Director

ADDRESS ALL CORRESPONDENCE TO:
P.O. BOX 1460
ALHAMBRA, CALIFORNIA 91802-1460

April 27, 2010

The Honorable Board of Supervisors
County of Los Angeles
383 Kenneth Hahn Hall of Administration
500 West Temple Street
Los Angeles, California 90012

ADOPTED

BOARD OF SUPERVISORS
COUNTY OF LOS ANGELES

#23 APRIL 27, 2010

Sachi A. Hamai
SACHI A. HAMAI
EXECUTIVE OFFICER

Dear Supervisors:

**AUTHORIZE THE DIRECTOR OF PUBLIC WORKS TO CONTINUE TO NEGOTIATE
EMERGENCY CONTRACTS FOR THE AUGUST/SEPTEMBER 2009 WILDFIRES
AND THE RESULTING DAMAGE FROM THE 2010 WINTER RAINSTORMS
(ALL SUPERVISORIAL DISTRICTS)
(4 VOTES)**

SUBJECT

This action is to authorize the Director of Public Works to continue to negotiate emergency contracts, without advertising for bids, for repair and construction projects necessary to mitigate the August/September 2009 Wildfires and the resulting damage from the 2010 winter rainstorms and prepare and execute these contracts in the form previously approved by County Counsel on behalf of the Los Angeles County Flood Control District and the County of Los Angeles.

IT IS RECOMMENDED THAT YOUR BOARD:

Find that actions, repair and construction projects, needed to respond to the August/September 2009 Wildfires and the resulting damage from the 2010 winter rainstorms are statutorily exempt from the California Environmental Quality Act.

2. Find that there is a need to continue to authorize the Director of Public Works to negotiate emergency contracts, in an amount not to exceed a total of \$25 million and without advertising for bids, for repair and construction projects necessary to mitigate the August/September 2009 Wildfires and the resulting damage from the 2010 winter rainstorms pursuant to Section 22050 of the Public Contract Code and prepare and execute these contracts in the form previously approved by County Counsel on behalf of the Los Angeles County Flood Control District and the County of Los Angeles.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

On September 8, 2009, your Board authorized the Director of Public Works (Director) to negotiate and execute emergency construction contracts, without advertising for bids, for repair and construction projects necessary to mitigate the August/September 2009 Wildfires and the resulting damage from the 2010 winter rainstorms. In accordance with the Public Contract Code, your Board must review the necessity of these emergency contracting procedures every 14 days. The recommended action is to authorize the Director to continue to negotiate and execute the necessary emergency contracts.

Implementation of Strategic Plan Goals

The Countywide Strategic Plan directs the provisions of Operational Effectiveness (Goal 1) and Community and Municipal Services (Goal 3). This action will result in the expedited repair of the Department of Public Works' (Public Works) facilities damaged by the wildfires and the resulting damage from the 2010 winter rainstorms whereby the residents of the County will benefit and their quality of life will be improved.

FISCAL IMPACT/FINANCING

There will be no impact to the County General Fund.

Funding for the emergency contracts is available in the Fiscal Year 2009-10 Road Fund and Flood Fund Budgets. Public Works is seeking reimbursement under Federal and State disaster assistance programs for the work. The estimated total cost associated with the August/September 2009 Wildfires and the resulting damage from the 2010 winter rainstorms is \$171.4 million of which we have expended or encumbered \$36.0 million through April 10, 2010. We have used \$10.8 million of emergency contract encumbrance authority and plan to use an additional \$2 million in May 2010.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

The Station, Morris, and Rancho Palos Verdes Fires caused significant damage to facilities and roads throughout the County of Los Angeles (County), primarily within the Angeles National Forest. On August 28, 2009, Governor Arnold Schwarzenegger declared that a State of Emergency exists within Los Angeles County and the Chief Executive Officer (CEO) of the County proclaimed and declared that a local emergency exists within the County. At its meeting on September 1, 2009, your Board ratified the CEO's declaration of a local emergency.

On September 8, 2009, Agenda Item 61-A, your Board adopted a motion and resolution finding that an emergency situation existed that required immediate measures be undertaken to repair the damage, restore access to homes and businesses, and prevent and reduce potential flooding and damage due to mudflows. Your Board also authorized the Director to negotiate and execute emergency construction contracts for damage repairs in an amount not to exceed \$25 million. In accordance with Section 22050 of the Public Contract Code, your Board must review the necessity of these emergency contracting procedures every 14 days. Rainstorms in the burn areas have created a continuing need to enter into contracts on an emergency basis to repair the damage, restore access to homes and businesses, and prevent and reduce potential flooding and damage

due to the mudflows. The aforementioned motion also required that Public Works provide written reports to the Board every two weeks concerning the status of all projects and the amount of funds expended. Enclosed is the latest status report for your reference.

ENVIRONMENTAL DOCUMENTATION

The actions, projects, and repairs needed to respond to the August/September 2009 Wildfires and the resulting damage from the 2010 winter rainstorms are statutorily exempt from the provisions of the California Environmental Quality Act (CEQA) pursuant to Sections 21080 (b) (2), (3), and (4) of the California Public Resources Code, which exempt emergency repairs, actions necessary to prevent or mitigate an emergency, and projects arising out of a state of emergency declared by the Governor.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

This action will allow the Director to continue to negotiate contracts for the repair and construction of projects necessary to mitigate the August/September 2009 Wildfires.

CONCLUSION

Please return an adopted copy of this letter to Public Works, Programs Development Division.

Respectfully submitted,

GAIL FARBER
Director

**DEPARTMENT OF PUBLIC WORKS
RECOVERY REPORT FOR THE AUGUST/SEPTEMBER 2009 WILDFIRES AND
JANUARY/FEBRUARY 2010 RAINSTORMS
APRIL 13, 2010**

DAMAGE ESTIMATES AND EXPEDITURE INFORMATION

August/September 2009 Wildfires

The cost estimates for damage repair and hazard mitigation activities are currently \$10.3 million and \$8.6 million, respectively, as shown on Attachment A. At this time, it is estimated that \$10.4 million of the damage repair and hazard mitigation expenditures will potentially be reimbursed by the California Emergency Management Agency, the Natural Resources Conservation Service, and the Federal Highway Administration. The current list of emergency contracts totaling \$13.8 million is shown on Attachment B. Expenditures as of April 10, 2010, are as follows:

Total Expenditures (including overtime)	\$ 12,345,493
Total Encumbrances	2,112,079
<hr/>	
Total Expenditures and Encumbrances	\$ 14,457,572
Total Overtime	\$ 910,500

January/February 2010 Rainstorms

The cost estimates for damage repair and hazard mitigation activities are currently \$17.5 million and \$135.1 million, respectively, as shown on Attachment C. At this time, it is estimated that \$138.5 million of the damage repair and hazard mitigation expenditures will potentially be reimbursed by the California Emergency Management Agency, the Federal Highway Administration, and the Federal Emergency Management Agency, since this storm event has now been declared a Federal disaster. Expenditures as of April 10, 2010, are as follows:

Total Expenditures (including overtime)	\$ 12,793,357
Total Encumbrances	8,771,070
<hr/>	
Total Expenditures and Encumbrances	\$ 21,564,427
Total Overtime	\$ 1,640,073
