

MOTION BY SUPERVISOR MICHAEL D. ANTONOVICH

JANUARY 24, 2012

Due to its lack of available storage space and to reduce its excess inventories, the Department of Defense is in the process of selling \$3 billion in inventory that includes trucks, tractors and forklifts among other equipment used for military operations in Iraq and Afghanistan. Additionally, some equipment including firefighting and medical gear will be given to local governments.

I, THEREFORE, MOVE that the Board of Supervisors direct the Chief Executive Officer to research the Department of Defense inventory and distribute a list to County departments that may have a need for the surplus equipment, including but not limited to industrial vehicles, firefighting and medical equipment.
