

I THEREFORE MOVE that the Board of Supervisors:

- 4) Direct ISD and CIO to carry out a thorough network and bandwidth utilization assessment for each County location prior to any videoconference equipment implementation to ensure usability and reliability of the service;
- 5) Direct ISD and CIO to follow the International Telecommunication Union (ITU) standards for videoconferencing protocols and audio/video compression to maintain compatibility across County and worldwide systems;
- 6) Direct ISD and CIO to provide adequate training for County employees and create user-friendly training materials available online and offline: and
- 7) Mandate the use of videoconference equipment when possible as an alternative for participants to physically attend meetings.
