To ensure access to high-quality, patient-centered, cost-effective health care to Los Angeles County residents through direct services at DHS facilities and through collaboration with community and university partners.

December 20, 2012

The Honorable Board of Supervisors
County of Los Angeles
383 Kenneth Hahn Hall of Administration
500 West Temple Street
Los Angeles, California 90012

Dear Supervisors:

APPROVAL OF AMENDMENTS TO THREE DIAGNOSTIC AND THERAPEUTIC AGREEMENTS (5th SUPERVISORIAL DISTRICT) (3 VOTES)

SUBJECT
Request approval of amendments to extend the terms of three diagnostic and therapeutic service Agreements with various contractors for the High Desert Multi-Service Ambulatory Care Center and Olive View-UCLA Medical Center.

IT IS RECOMMENDED THAT THE BOARD:

Authorize the Director of Health Services (Director), or his designee, to execute Amendment No. 11 to Agreement No. H-210777 with Lancaster Cardiology Medical Group (Lancaster), Amendment No. 12 to Agreement No. H-210778 with Valley Tumor Radiation Medical Group (Valley Tumor), and Amendment No. 12 to Agreement No. H-210779 with RadNet Management, Inc. (RadNet), all effective upon Board approval, to extend the term of each Agreement for the period of January 1, 2013 through June 30, 2013, at the same rates of payment, for the continued provision of diagnostic, therapeutic and nuclear medicine services for patients served by High Desert Multi-Service Ambulatory Care Center (HD MACC) and Olive View-UCLA Medical Center (OV-UCLA MC). The contract sum for each Agreement will be increased during the extended term by $105,000 for Lancaster, $141,500 for...
Valley Tumor, and $180,000 for RadNet.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

Approval of the requested recommendation will allow the Director, or his designee, to execute three Amendments, substantially similar to Exhibits I, II, and III, to extend the term of each Agreement for six months to provide uninterrupted diagnostic and therapeutic services for patients served by HD MACC and OV-UCLA MC. The current Agreements are slated to expire on December 31, 2012 and additional time is needed to complete the competitive solicitations for successor agreements.

On March 15, 2010, DHS released a Request for Information (RFI) to identify qualified and interested agencies, in addition to the current Contractors, who might provide these services. The responses were due on April 12, 2010. As a result of the number of responses received, the release of separate Requests for Proposal (RFP) for nuclear medicine, cardiology imaging and radiation therapy oncology services were considered. However, due to the increase in patient volume, the Department determined that a Request for Statement of Qualifications (RFSQ) solicitation for a Master Agreement was the best approach to establish a pool of qualified contractors to provide these critical contract services. Delays were experienced with the finalization of the RFSQ due to the need to ensure that the procedure codes and the reimbursement rates are accurate for the services provided and also update the codes and rates that were effective January 1, 2012.

The Department reviewed the feasibility of expanding the RFSQ to include a Countywide solicitation process for radiation therapy services. However, this approach would have required significant revisions to the Statement of Work, therefore the decision was made to move forward with the RFSQ for the facilities of HD MACC and OV-UCLA MC initially, with plans to draft a Countywide solicitation specifically for radiation therapy services in the Spring of 2013.

The Department released a RFSQ on October 8, 2012 and the extension of the current Agreement terms is necessary to allow the time to complete the evaluation of the Statement of Qualifications (SOQ) and recommend qualified contractors for successor contracts to the Board for new multi-year Master Agreements for nuclear medicine, cardiology testing/imaging, radiation therapy oncology and other diagnostic/therapeutic services.

The range of services provided by the current Contractors includes cardiology imaging and testing; nuclear medicine, radiology services, radiation therapy oncology and various diagnostic and therapeutic services for County-registered patients at Antelope Valley Hospital (AVH) and patient referrals from OV-UCLA MC. All three Contractors agreed to maintain the same rates of payment during the recommended extension period.

Implementation of Strategic Plan Goals

The recommended action supports Goal 1, Operational Effectiveness, of the County's Strategic Plan.

FISCAL IMPACT/FINANCING

The maximum contract sum for each Agreement for diagnostic and therapeutic services for the period January 1, 2013 through June 30, 2013 is $105,000 for Lancaster, an increase to $1,312,500; $141,500 for Valley Tumor, that includes the projected costs of $125,000 for HD MACC and $16,500 for OV-UCLA MC, an increase to $1,300,250 and $180,000 for RadNet, an increase to $2,047,500. The projected costs for RadNet and Lancaster are associated with HD MACC only.
The contract term extensions bring the final total maximum contract sum for all three Agreements to $4,660,250 for the entire term of the Agreements. Attachment A provides a detailed breakdown of the costs.

Funding is included in the FY 2012-13 Final Budget.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

The current Contractors have been providing diagnostic and therapeutic services on a specialized basis as follows:

- Valley Tumor provides radiation therapy for oncology patients and invoices by individual patient with each invoice generally includes multiple dates of service for the same patient. The procedures include intensity modulated radiotherapy plans (IMRT), treatment delivery sessions, and 3-D treatment plans.

- Lancaster Cardiology provides cardiac testing and other radiology tests.

- RadNet provides MRI services, nuclear medicine, and also provides as-needed back-up for overflow for other radiology modalities like mammography, computed tomography (CT), fluoroscopy and ultrasound.

It has been determined that the Agreements are exempt from Proposition A contracting guidelines due to a lack of County staff to adequately perform the diagnostic and therapeutic services and the difficulty in recruiting and retaining qualified personnel to perform diagnostic and therapeutic services in the Antelope Valley (AV) for the period of time the services are needed.

The termination provisions of each Agreement allow for termination with or without cause with a 30-day advance written notice by either party.

All of the Board mandated provisions are included in the Agreements.

County Counsel has approved Exhibits I, II, and III as to form.

CONTRACTING PROCESS

Not applicable.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

Board approval of the recommended actions will ensure the continued provision of critically needed diagnostic and therapeutic patient services at HD MACC and OV-UCLA MC.
Respectfully submitted,
