

MOTION BY SUPERVISOR GLORIA MOLINA

April 16, 2013

Established as a partnership between First District Los Angeles County Supervisor Gloria Molina and the LAC+USC Medical Center Foundation, the Wellness Center at the Historic General Hospital will house like-minded nonprofit organizations that have the vision of making Boyle Heights a healthier community. The Wellness Center at the Historic General Hospital will offer a comprehensive solution to maximize health and social service delivery for the community.

In the past year, the Wellness Center has been moving quickly to make space available for its new tenants. The Center is being developed with input from the community, non-profit organizations, and patients, to become a key component of the East Los Angeles regional integrated health care delivery system.

I, THEREFORE MOVE, that the Chief Executive Officer execute a funding agreement with the LAC+USC Medical Center Foundation for \$4.6 million from the Project Facility and Development Fund for the First Floor Improvements at the General Hospital for the Wellness Center.
