

MOTION BY SUPERVISOR DON KNABE

July 21, 2015

The Small Business Initiative creates a unique opportunity for us to determine specific ways in which the County can be a help to small businesses. Among the concepts identified from the focus groups and surveys include fee waivers, tax breaks and more streamlined permitting processes. I believe that we should also explore ways in which local businesses can provide more goods and services to the County.

I THEREFORE MOVE that the Small Business Initiative workgroup also look at the feasibility of establishing a Local Vendor Preference Policy and include their findings in the report due to the Board on January 12, 2016.
