SERVING THE UNINCORPORATED AREAS OF LOS ANGELES COUNTY AND THE CITIES OF:
PURPOSE OF RECOMMENDED ACTION:

Enclosed is the annually required resolution declaring hazardous brush, dry grass, weeds, and combustible growth or flammable vegetation, to include native and ornamental vegetation, in Los Angeles County a public nuisance. Declared improved properties will be inspected by the County of Los Angeles Fire Department to verify that said hazardous brush, dry grass, weeds, and combustible growth or flammable vegetation, including native and ornamental vegetation, have attained such a growth as to become a fire menace to the parcel or adjacent improved properties or are otherwise noxious or dangerous.

JUSTIFICATION:

Improved properties, found by inspection to be overgrown with weeds and brush, are determined to be a potential or existing hazard.

1. Said hazardous brush, dry grass, weeds, and combustible growth or flammable vegetation, to include native and ornamental vegetation, has attained such a growth as to become a fire menace to the parcel or adjacent improved properties or are otherwise noxious or dangerous.

2. The County of Los Angeles has a duty to protect the public safety and to take any and all actions necessary to abate a public nuisance.

FISCAL IMPACT:

There are no net County costs.
FINANCING:

The County of Los Angeles Fire Department will assess charges directly to private property owners of declared improved parcels if they fail to comply with two official notices to abate hazards that constitute a public nuisance as identified by the County of Los Angeles Fire Department. Private property owners of declared improved parcels receive their first notice via the Fire Department's "Improved Property Annual Brush Clearance Notice" which is mailed in early February. Their second notice is given via the Fire Department's "Official Inspection Report" which is issued when the local fire station conducts its annual inspection of the property. Costs for abatement enforcement services beyond the annual inspection program are recovered by assessments. The Auditor-Controller certified the abatement enforcement cost of $231 per parcel when it was established in 1996. The assessment amount has not been increased since it was established and based on the 101 non-compliant parcels found in 2003, the estimated cost recovery when reported to and confirmed by the Board of Supervisors will be $23,331.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS:

Notices to destroy hazardous brush, dry grass, weeds, and combustible growth or flammable vegetation, to include native and ornamental vegetation, will be mailed to the owners of declared improved properties in the form required by Section 14892 of the California Health and Safety Code after your Board approval. An affidavit of mailing will be returned to your Board when the mailing of notices as provided in Section 14896 of the Health and Safety Code has been completed. After the notices have been mailed, public hearings will be held in Arcadia and the
Antelope Valley, where owners of improved property, with objections or questions, will be heard and given due consideration. A summary of the concerns and questions of the improved property owners will be submitted in the Brush Clearance Referee’s Report to the Board of Supervisors prior to the public hearing at the end of March.

**IMPACTS ON CURRENT SERVICES:**

There are no impacts on current services.

Very truly yours,

P. MICHAEL FREEMAN
