December 7, 2015

The Honorable Edmund G. Brown, Jr.
Governor, State of California
State Capitol, Suite 1173
Sacramento, CA 95814

Dear Governor Brown:

We are writing to request that a resolution to fix the recent gas leak in the Porter Ranch area, located in the County of Los Angeles be expedited.

On October 23, 2015, a gas leak was discovered by crews working at the Southern California Gas Company's Aliso Canyon storage facility near Porter Ranch. Initially, the Gas Company indicated that the leak would be fixed within a few days or weeks. On November 24, 2015, officials with the Gas Company testified before the Los Angeles County Board of Supervisors that the leak could take up to three months to repair.

The ongoing leak of noxious gas is impacting the health of thousands of residents in the Porter Ranch area. The Department of Public Health reports that over 660 residents have complained of a rotten-egg smell, with some reporting symptoms such as nosebleeds, headaches and nausea. This critical public safety issue must be resolved for the safety of the community.

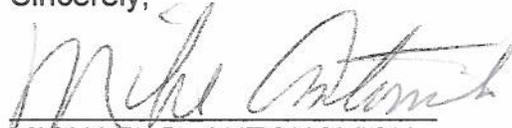

We respectfully urge your support and request that you intercede to ensure the safety of residents of Porter Ranch and surrounding communities, and request that you use your executive authority to direct the California Division of Oil, Gas and Geothermal Resources and other corresponding State Departments to take immediate action and work with the Gas Company to find an expeditious resolution to fix the gas leak.

Additionally, attached is the portion related to Item No. R-2 of the November 24, 2015 meeting transcript, which includes testimonies of the community members and the various departments that testified.

Mr. Michael Picker, President
California Public Utilities Commission
505 Van Ness Avenue
San Francisco, CA 94102

Dear Mr. Picker:

On October 23, 2015, a gas leak was discovered by crews working at the Southern California Gas Company's Aliso Canyon storage facility near Porter Ranch. Initially, the Gas Company indicated that the leak would be fixed within a few days or weeks. On November 24, 2015, officials with the Gas Company testified before the Los Angeles County Board of Supervisors that the leak could take up to three months to repair.

The ongoing leak of noxious gas is impacting the health of thousands of residents in the Porter Ranch area. The Department of Public Health reports that over 660 residents have complained of a rotten-egg smell, with some reporting symptoms such as nosebleeds, headaches and nausea. This critical public safety issue must be resolved for the safety of the community.

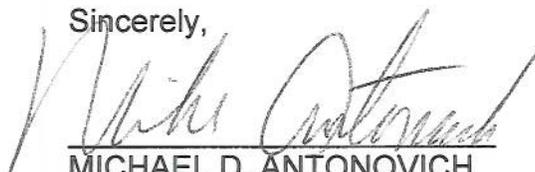

We respectfully request that you conduct an expedited review to determine if the Gas Company is in full-compliance with provisions of the Aliso Canyon Turbine Replacement Project in the Porter Ranch area.

Additionally, attached is the portion related to Item No. R-2 of the November 24, 2015 meeting transcript, which includes testimonies of the community members and the various departments that testified.
