Budget	I am suggesting that LASD spend more money on "Community Policing", and less money on groups like "OSS". Bring back "Community Academies".	Robert Ray

Good afternoon

FTP FTP FTP FTP!!!

On item 2c the public needs to know the finding and investigation of the Inspector General in regard to the continued threat of LASD GANGS!!!!! An article was just published last week that a deputy filed a lawsuit because once again the East Los Angeles gang member station wanted to recruit this particular deputy and refused! People feel the same way! it seems that you are purposely giving this organization more and more money to do the same thing over and over again! This LASD gang member organization has not learned anything from Rodney King George Floyd and now Tyre Nichols! we are taxpayers are getting tired of the gang affiliation and killing of LASD deputy gangs because they are always afraid for their lives, but they have the guns the pepper spray et.,

Come out with the report fire and decertify those want to be gang member and that's it! why is it that the next big thing had to always come out to realize that this organization needs to change or abolish it! find alternatives to policing!!! get the report out and tell the public how many active or former gang members are a part of LASD gangs!

What is the update focusing on? the list of gang members patrolling our streets and violating constitutional rights plus the killing of mentally ill and the unarm! or is this organization going to finally stop flying their helicopters! for years I have said why is it that they fly their helicopters so much! who authorize this and what is the purpose of flying a helicopter! is this what the update is? or is it that they need more money to kill more innocent people because this gang is afraid of anything! The ordinary citizen who helps kkkops who are sometimes overpowered by actual killers jump to the rescue without thinking twice about risking their lives whether there is a gun present or a knife or a piece of metal! what is going on! if an ordinary citizen can jump to rescue a kkkop, why is it that mentally ill people and individuals with any unlethal weapon get killed because this is the way this gang is trained, and they are train like this all over the USA like in the Tyre Nichols case! Is the update going to be that they will start patrolling on bicycles without any lethal weapons, no guns and tasers? what is the update are they closing down? are they going to stop making traffic stops, because this gang should stop doing traffic stops! Did we finally find alternatives to Kkkops policing! let us know what the update is?!

The LASD gang organization should be held accountable for every tax dollar they mis use! I have said many times and continue to say it! only work on public safety issue! stop patrolling our streets! stop targeting individuals, harassing individuals, violating constitutional right of individuals, no more traffic stops! only concentrate on public safety issue! as public servants they have not learned that most of the public do not want police around! why because we know that police lie, kill, cheat, and their corruption is worse that an actual criminal!

The people are tired of paying the lawsuits this gang organization initiates! it's time that

it comes out of the budget you so freely give them! people are tired of the same thing day in and day out! most people don't need kkkops! I don't know how else to say it! Are you cutting LASD budget to focus on alternatives? what is going on? there is a point where you must start making this organization pay for whatever a gang deputy does! or a detective or a special unit gang member! 3b			
where you must start making this organization pay for whatever a gang deputy does! or a detective or a special unit gang member! 3b confinement of people will never work! this society is slowly increasing that people again will get tired of the same barbaric punishment that has never and will never change anyone nor control a society! again, this organization needs to come up with alternatives to confinement. Los Last week, the L.A. Times release an article entitled "New deputy 'gang' forming in L.A. County Sheriff's Department, lawsuit alleges." The fact that community members actively fear deputy gangs demonstrates that deputy gang members practice a warrior type of policing that doesn't focus on protecting community members' rights but violating them.
