## Summary Corrective Action Plan

The intent of this form is to assist departments in writing a corrective action plan summary for attachment to the settlement documents developed for the Board of Supervisors and/or the County of Los Angeles Claims Board. The summary should be a specific overview of the claims/lawsuits' identified root causes and corrective actions (status, time frame, and responsible party). This summary does not replace the Corrective Action Plan form. If there is a question related to confidentiality, please consult County Counsel.

Date of incident/event:	May 22, 2017
Briefly provide a description of the incident/event:	Plaintiff who was a resident at the Antelope Valley Rehabilitation Center (AVRC), was allegedly injured when a tree branch from 18 feet off the ground broke off, fell and made contact with him. Plaintiff also alleges that in running from the sound of the break, he tripped and fell to his knee. The actual incident was unwitnessed according to the Plaintiff.

1. Briefly describe the root cause(s) of the claim/lawsuit:

The Plaintiff alleges that the Department failed to provide adequate safeguards against a known dangerous condition to protect members of the public. The dangerous condition created a reasonably foreseeable risk of injury and the Department had both actual or constructive notice of the dangerous condition prior to the injury with sufficient time to have taken measures to protect against it. AVRC did not know about the alleged dangerous conditions; however, AVRC's landscaping and ground maintenance services did not include an expert Arborist to identify diseased or decayed trees. Prior to the incident on May 16, 2017, the landscaping contractor that conducted a visual inspection of all the AVRC and submitted a written proposal to AVRC to cut down 52 trees and prune 44 additional ones, did not recommend that the tree involved in the incident be cut down or pruned. The landscaping company did not have an Arborist in its team.

2. Briefly describe recommended corrective actions:  
(Include each corrective action, due date, responsible party, and any disciplinary actions if appropriate)

On 6/1/2017, AVRC requested that ISD's contractor expedite inspecting the grounds and/or remove diseased and/or decaying trees, in particular the Chinese elm tree allegedly responsible for Plaintiff's injuries. The tree was pruned, but not determined that it needed to be removed.

Since then, on an almost biannual schedule, tree maintenance services have been provided at AVRC by contracted services.

Since May 23, 2019, it became clear through expert examinations by Arborists hired by both Plaintiff and DPH Counsel that tree maintenance provided by ISD's contractor was not sufficient and that an expert Arborist needs to examine AVRC's trees for disease and decay to determine pruning and/or removal of trees. Ground level visual inspection by the landscaping services would not have been sufficient to detect any problems. The Substance Abuse Prevention and Control (SAPC), which oversees AVRC operations, has been working with AVRC management and the DPH Administrative Services Division to update the agreement to require that Arborists are included in contracted services. Meanwhile, these services are procured through purchase orders.

COVID-19 activities have impacted completion of the contracting process in addition to causing low admission rates at AVRC, which is planning temporary closure until further notice. AVRC is currently resolving logistical issues, such as reassignment of staff during the facility's temporary closure.

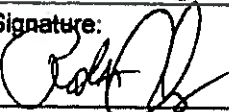

To avoid incurring potential liability costs in the future from similar incidents, DPH Facilities Management will work with Facility Administrators of DPH-owned facilities to implement scheduled tree inspections as part of their landscaping service contracts and/or purchase orders.

3. Are the corrective actions addressing department-wide system issues?

- Yes – The corrective actions address department-wide system issues.  
 No – The corrective actions are only applicable to the affected parties.

<p>Date of incident/event:</p>	
<p>Briefly provide a description of the incident/event:</p>	<p style="text-align: center;"><b><u>Evangelina P. et al. v. County of Los Angeles</u></b>                  Summary Corrective Action Plan 2020-18</p> <p>On September 24, 2018, at approximately 11:25 p.m., two uniformed deputy sheriffs assigned to East Los Angeles station, were driving their marked patrol vehicle near the intersection of De Garmo Drive and Meisner Avenue, City Terrace when they observed a silver Honda Accord parked adjacent to the north curb line facing south of 3609 Meisner Avenue.</p> <p style="padding-left: 40px;"><b>Note:</b> Near the point where the vehicle occupied by the decedent was parked, De Garmo Drive turns sharply and becomes Meisner Street. The street is hilly with winding roads located in a part of the City Terrace area of Los Angeles.</p> <p style="padding-left: 40px;">Meisner Street has multiple street lamps and security flood lights situated on the south side of the street inside an enclosed water tank utility facility. The combined lights illuminated the area, making lighting conditions very visible.</p> <p>Both deputy sheriffs observed three occupants (driver, front seat passenger, and rear seat passenger [decedent]) inside of the vehicle with all the windows of the vehicle down. Both deputy sheriffs became suspicious and curious as to their activity in the area.</p> <p style="padding-left: 40px;"><b>Note:</b> The area is well known to be frequented by gang members from Juarez Mara Villa, who often tag the area with graffiti and fire gunshots into the air. According to the residents, the gang problems in this area have gotten worse. The residents had requested the sheriff's department for additional patrol checks to address the area's issues.</p> <p>The first deputy sheriff, who was driving, and the second deputy sheriff, a passenger, attempted to contact the occupants in the vehicle to further investigate any possible illegal activity. Due to the narrow streets in the area, it was not easily accessible to complete a U-turn. However, the first deputy sheriff elected to stop his patrol vehicle just past the suspect vehicle, facing the opposite direction.</p> <p>The first deputy sheriff walked around the rear of the Honda Accord to the rear passenger side of the vehicle illuminating the interior of the vehicle with his flashlight. The first deputy sheriff observed the right rear passenger door of the vehicle slightly open. As the first deputy sheriff got closer, he observed the rear passenger, (decedent), appeared to be</p>

drunk, his eyes were glossy, and saw several beer cans in the rear seat of the vehicle.

To further investigate, the first deputy sheriff asked the decedent to exit the vehicle to conduct a drunk in public investigation. At the same time, the second deputy sheriff approached the driver's door and contacted the other two vehicle occupants (the driver and front passenger), while maintaining visual contact with both the occupants and the first deputy sheriff.

As the decedent exited the vehicle, the first deputy sheriff took control of both of the decedent's wrists behind his back in order to conduct a pat-down search for weapons. The first deputy sheriff ordered the decedent to place his hands together behind his back. The decedent did not comply with the first deputy sheriff's orders and began to shift his shoulders back and forth eventually allowing him to break free from the first deputy sheriff's grip. Due to the close quarters, the first deputy sheriff grabbed the decedent in a "bear-hug" type control hold and attempted to pin him against the vehicle in an effort to control his movements.

The second deputy sheriff heard the first deputy yell "deputy involved in a fight" and yelled to the second deputy sheriff to advise assisting units, via her portable radio. The first deputy sheriff felt the decedent reach towards his waistband. The decedent produced a handgun from his waistband and discharged one round into an unknown direction. The first deputy sheriff immediately felt the heat and recoil of the blast near his stomach area.

The first deputy sheriff, not knowing if he had been shot observed the handgun and continued to struggle violently for control of the gun. As the struggle continued, the second deputy sheriff ran to the rear of the suspect's vehicle in order to assist the first deputy sheriff. The second deputy sheriff bumped into the first deputy sheriff causing him and the decedent to fall to the ground. During the altercation, both the first deputy sheriff and the decedent struggled for possession of the handgun. At one point, the first deputy sheriff had placed his finger in between the trigger and the trigger wall in an attempt to prevent the decedent from firing the handgun.

During the struggle, the decedent pointed the handgun in the direction of the second deputy sheriff. Fearing for her life and the first deputy sheriff's safety, the second deputy sheriff fired three rounds from her duty weapon at the decedent at close range, striking the decedent three times and subsequently hit the first deputy sheriff once in the forearm.

The second deputy sheriff immediately advised, via her portable radio, she was involved in a shooting and requested medical assistance for the decedent and the first deputy sheriff. The second deputy sheriff removed a tourniquet from her gun belt and applied it to the first deputy sheriff's arm pending the arrival of medical personnel.

Additional units arrived on scene, including California Highway Patrol (CHP) who often monitors the Los Angeles County Sheriff's Department's radio frequency.

A third deputy sheriff assigned to East Los Angeles station arrived on scene and saw the first deputy sheriff bleeding from his right arm. Due

	<p>A third deputy sheriff assigned to East Los Angeles station arrived on scene and saw the first deputy sheriff bleeding from his right arm. Due to the street being so narrow, the third deputy sheriff knew numerous responding units would soon block the road. The third deputy sheriff formulated a plan to transport the first deputy sheriff to LAC-USC Medical Center with the assistance of CHP.</p> <p>The Los Angeles County Fire Department responded and rendered medical care to the decedent, who was subsequently pronounced dead at the scene at approximately 11:38 p.m.</p> <p>The other occupants of the vehicle were detained without further incident.</p> <p>A loaded Taurus 9mm semi-automatic handgun was recovered near the passenger side of the vehicle.</p> <p><b>Note:</b> Toxicology results determined the decedent had a blood-alcohol level of .137% at the time of the incident.</p>
--	--

1. Briefly describe the **root cause(s)** of the claim/lawsuit:

<p>A <b>Department</b> root cause in this incident was the tactical disadvantage and positioning of the patrol vehicle during the traffic stop of the decedent.</p> <p>A <b>non-Department</b> root cause in this incident was the decedent's failure to comply with the lawful orders of Los Angeles County deputy sheriffs. Instead of obeying the orders, the decedent assaulted the deputies, retrieved a firearm from his person, and fired it.</p>
--

2. Briefly describe recommended corrective actions:  
(Include each corrective action, due date, responsible party, and any disciplinary actions if appropriate)

<p><b><u>Criminal Investigation</u></b> The incident was investigated by the Sheriff's Department Homicide Bureau to determine if any criminal misconduct occurred. The results of their investigation were presented to representatives from the Los Angeles County District Attorney's Office.</p> <p>On September 24, 2019, the Los Angeles County District's Attorney's Office, Justice System Integrity Division, concluded the second deputy sheriff acted lawfully in self-defense and in defense of others. The District Attorney's Office indicated the case would be closed and they would take no further action in this matter.</p> <p><b><u>Administrative Investigation</u></b> This incident was investigated by representatives of the Sheriff's Department's Internal Affairs Bureau to determine if any administrative misconduct occurred before, during, or after this incident. The results of the investigation were presented to the Executive Force Review Committee (EFRC) for adjudication. On July 29, 2020, the EFRC determined the use of deadly force and tactics were within Department Policy.</p>
