AGENDA

Meeting of the Beach Commission
January 25, 2017
9:30 a.m.

Burton Chace Park Community Room
13650 Mindanao Way
Marina del Rey, CA 90292

1. CALL TO ORDER AND PLEDGE OF ALLEGIANCE

2. APPROVAL OF MINUTES

November, 2016

3. OLD BUSINESS

- A. Venice Lifeguard Headquarters Status (DISCUSSION)
- B. Election of Chair and Vice Chair (ACTION)

4. NEW BUSINESS

- A. Heal The Bay (PRESENTATION)
- B. Measure H/Homelessness Initiative (PRESENTATION)
- C. Beach Commission Meeting Topics (DISCUSSION)

5. STAFF REPORTS

- A. Ongoing Activities Report (REPORT)
Board Actions on Items Relating to Beaches
- B. Beach Special Events/Activities (REPORT)
- C. Operational Services Division Report (REPORT)

*Rosie Dagit, Chair
Jeffrey Sallee,
Vice-Chair*

*Thomas Barnes
Thomas Brewer
Walt Dougher
Jeff Duclos
Keren M. Goldberg

Regarding Beach Maintenance
D. Lifeguard Report

(VERBAL REPORT)

6. COMMISSIONER COMMENTS

7. COMMUNICATION FROM THE PUBLIC

8. NEXT MEETING DATE & LOCATION

Wednesday, February 22, 2017, 9:30 a.m. at Burton Chace Park Community Room,
13650 Mindanao Way, Marina del Rey, CA 90292.

9. ADJOURNMENT

PLEASE NOTE:

1. The Los Angeles County Board of Supervisors adopted Chapter 2.160 of the Los Angeles Code (Ord. 93-0031 § 2 (part), 1993), relating to lobbyists. Any person who seeks support or endorsement from the Beach Commission on any official actions must certify that he/she is familiar with the requirements of this ordinance. A copy of the ordinance can be provided prior to the meeting and certification is to be made before or at the meeting.
2. The agenda will be posted on the Internet and displayed at the following locations at least 72 hours preceding the meeting date:

Department of Beaches and Harbors' Website Address: marinadelrey.lacounty.gov

	Department of Beaches and Harbors Administration Building 13837 Fiji Way Marina del Rey, CA 90292	Marina del Rey Information Center 4701 Admiralty Way Marina del Rey, CA 90292
Library	Burton Chace Park Community Room 13650 Mindanao Way Marina del Rey, CA 90292	Lloyd Taber – Marina del Rey 4533 Admiralty Way Marina del Rey, CA 90292

Si necesita asistencia para interpretar esta informacion llame al (310) 305-9546.

ADA ACCOMMODATIONS: If you require reasonable accommodations or auxiliary aids and services such as material in alternate format or a sign language interpreter, please contact the ADA (Americans with Disability Act) Coordinator at (310) 305-9538 (Voice) or (TTY/TDD) users, please call the California Relay Service at 711. The ADA coordinator may be reached by email at rstassi@bh.lacounty.gov.

**COUNTY OF LOS ANGELES BEACH COMMISSION
MINUTES OF NOVEMBER 30, 2016 MEETING**

Kenneth Foreman, Division Chief, Operational Services Division
Carol Baker, Division Chief, Community & Marketing Services Division
Michael Tripp, Division Chief, Planning Division
Ismael Lopez, Facilities Planner II, Planning Division
Cesar Espinosa, Planning Specialist, Planning Division

GUEST SPEAKERS

MEETING LOCATION

Burton W. Chace Park Community Room

1. CALL TO ORDER AND PLEDGE OF ALLEGIANCE

Chair Dagit called the meeting to order at 9:46 a.m. She requested that Commissioner O'Donnell lead everyone in the Pledge of Allegiance.

2. APPROVAL OF MINUTES

Chair Dagit asked for approval of the October 26, 2016 minutes. Motion to approve by Commissioner Dougher, seconded by Commissioner Ward.

The minutes were unanimously approved by the Commissioners.

Ayes: 15 - Chair Dagit, Vice Chair Sallee, Brewer, Dougher, Duclos, Kruger, Levy, Liban, Milam, Raymond, O'Donnell, Oschin, Powell, Sachs, Ward.

3. OLD BUSINESS

A. VENICE LIFEGUARD HEADQUARTER STATUS

Chief Moseley stated that there were no updates to report from the Lifeguard Division.

B. MEASURE A / PARKS FUNDING INITIATIVE

Ms. Baker informed the Commission that Measure A passed with over 73 percent support. She also noted that Ms. Jane Beesley from Regional Parks and Open Space District (RPOSD) wanted to congratulate and thank the Commission for its role in actively getting the word out about beaches specifically, and now the RPOSD is working on their next steps to gather data and calculating private property parcel taxes to be reflected on 2017-2018 property tax bills. Revenue will begin to be collected in late 2017 and will be available for allocation beginning the 2018-2019 fiscal year. Ms. Beesley believes that the Maintenance and Servicing allocations will be available in July 2018 and the competitive grant proposal will be available beginning January 2019. There is no sunset for this tax. The Department will present periodic updates to the Commission, but RPOSD will also post updates on the rposd.lacounty.gov website, along with Facebook, Twitter, and Instagram. The Department will receive \$1.5 million for Maintenance and Servicing and the Capital Projects allocation will have \$3 million annually but will also be eligible to apply for other grants. Mr. Kelly referenced a presentation made to the Commission on beach needs assessment prior to the measure going on the ballot which had a summary list and a detailed list of beach needs prioritized by Supervisorial District. The Department's goal is to present to both 3rd and 4th Supervisorial District a prioritized list of projects that they can review and validate before the funds becomes available so that the Department is in the position to deliver those projects once the funds come in. Vice Chair Sallee asked about a funding gap between when the current funding ends and when the new funding picks up. Mr. Kelly confirmed that there will be a gap and that there will always be a gap

to some extent due to the scaled back version of the Measure that was placed on the ballot. But anything helps and there's flexibility in what was written into the Measure that allows the Department to renovate and refurbish projects. Ms. Baker clarified that the Department operates at a \$12 million deficit annually for Beach operations. Measure A funding will help with capital projects and maintenance of some DBH buildings, but there's still a gap that the Department is getting general fund dollars to bridge. Commissioner Levy asked if DBH has thought about grants the Department may want to apply for. Mr. Kelly responded that the Department is always looking at different grant opportunities, but has yet to strategize on which projects can be split with grant monies and Prop A funds, but that will be examined when the opportunity presents itself. Chair Dagit thanked Ms. Baker for putting together the press release on Measure A so quickly.

4. NEW BUSINESS

A. COUNTY COMMISSIONS ASSESSMENT

Chair Dagit stated that on November 10, 2016 she had a phone call with Camille Townsend from the County's Executive Office of the Board regarding the recommendation to merge the BC with Small Craft Harbor Commission (SCHC), and although she didn't have time to discuss her personal point of view with DBH staff, she shared her perspective based on her 20 years on the Commission that the BC has a very different set of concerns and geographic areas of interest than the SCHC. Chair Dagit expressed that she thought it was a very bad idea, and that it would really dilute both efforts because, while the BC doesn't often have a lot of public participation, when there is public participation, it is for a reason and the Commission creates a forum for that to happen. Chair Dagit stated she would hate to see those beach issues get subsumed into the minutia of dealing with the Marina del Rey harbor issues. Chair Dagit requested Ms. Baker add this item to the agenda in case someone had a different opinion, and she wanted to share with the Commission because the Executive Office has not yet finalized their recommendations and they were still in fact-gathering phase. If the Commissioners feel differently they can contact Camille Townsend with the Executive Office and provide their perspective. Commissioner Ward asked what the primary differences were between the SCHC versus the BC. Ms. Baker explained the SCHC is solely focused on MdR and there are five commissioners, DBH also has a Design Control Board (DCB) which is also solely focused on MdR. The focal point of these two commissions are very different. Chair Dagit stated that while it is unwieldy to have 20 commissioners, of which many seats are vacant and people have erratic attendance, overall it provides a very broad geographic representation for coastal communities. The issues that you see on particular beaches, you don't see in other areas, and by having a broad span of commissioners that represent a particular geographic area, it has been positive because it gives a larger perspective to the Department and it provides them with a lot of input over a broad area. Vice Chair Sallee asked if there was a time constraint. Ms. Baker responded yes the time constraint is 90 days from October 04, 2016 for commissioners to weigh in as individual

commissioners to the Executive Office. Vice Chair Salle expressed that it is important to know what the direction and strategy of the new Supervisor-Elect would be before the Commission makes any recommendation(s). Commissioner Milam stated that after reading the summary findings of the Commissions Assessment report he felt that the summary findings are not correct. Commissioner Levy seconded, as some of the conclusions were not really accurate. Mr. Kelly stated that with SCHC there's high interest in the balance between the five Supervisorial Districts whereas the BC is heavily loaded between the Third and Fourth District, and if they merge, the likelihood of having the broad representation among the various beaches in the Third and Fourth districts will probably be brought down to a balance of the five districts, rather than a number of representatives for the two beach areas.

B. MARINA DEL REY COPPER TMDL

Mr. Tripp presented a PowerPoint presentation covering the Marina del Rey harbor's Total Maximum Daily Load (TMDL), a figure that was established by The Regional Water Quality Control Board, The State Water Control Board and the EPA on the maximum amount of pollutants that can go into a body of water. Originally, Marina del Rey had a toxic pollutants TMDL for the three back basins, and the concern was the pollutants that were coming in from the watershed to the harbor. Mainly, the TMDL established in 2006 was looking at the sediments and looking at legacy pollutants like DDT and lead. In 2014, the TMDL was re-opened and included two revisions, load allocations for copper in the water column and an expansion to cover the entire Marina. The revision include a new requirement for an 85 percent reduction of copper leaching from boat hull paints by 2024. To meet this reduction the Department had to convert four thousands boats to non-copper paint. Also the Department has done educational outreach to the public such as hull paint workshops, TMDL information booths at our major Marina events, flyers, fact sheets, and periodic updates to the MdR Lessees' Association. The Department also has participated in State agencies' forums on stakeholder outreach. Currently, DBH is working on a webpage, and has developed a boater outreach program, "Dockwalking," where staff goes out to the docks and educates boaters on best practices.

C. UPDATE ON SEA LEVEL RISE

Mr. Lopez presented a PowerPoint presentation on Sea Level Rise (SLR). Greenhouse gases and emissions continue to impact global climate. As the atmosphere becomes warmer, polar ice sheets and glaciers melt, water makes its way to the ocean, oceans are getting warmer and expanding, and as the ocean expands, it causes sea level to rise. An assessment was completed in May 2016 on how to prepare and adapt to SLR, which DBH has shared with other agencies locally and nationally to spread the word and help each other understand the potential threats. The Department knows the vulnerability of its assets to coastal hazards which are defined by ground elevation, proximity to shoreline, and exposure to erosion. Once these factors are known, the Department can work on strategies which are classified as short-term, future, and long-term. Chair Dagit asked for copies of the Sea Level Rise report. Mr. Lopez stated that he can provide them

and also informed the Commission that the report and assessment can be found on the DBH website at bh.lacounty.gov. Vice Chair Sallee expressed that builders and constituents should know what they are up against, especially when building along the coast. He also commented on the need for the Department to share its strategies with the cities within our coastal area. It was noted that coastal communities with beachside development have a growing awareness of climate-related challenges. Mr. Kelly stated that SLR in itself is not the primary problem. It's also a combination of high tide with the storm surge that causes devastating damages. He also stated that the sand berm program is specifically from November through March.

D. NOMINATION OF NEW CHAIR & VICE CHAIR

Chair Dagit announced that this meeting was her final full meeting as Chair and that Vice Chair Sallee will proceed as Chair beginning January 2017. Ms. Baker explained the nomination process for the Vice Chair and invited Commissioners to be part of the nominating committee.

E. MDR DREDGING PROJECT

Mr. Espinosa presented a PowerPoint on the MdR Dredging Project. The U.S. Army Corps of Engineers will undertake the MdR dredging project in a few weeks. The dredging area will be at the north entrance of the Marina. Placement of 240,000 cubic yards of clean sand will be placed near shore at Dockweiler. The material will be dredged from MdR's north entrance. It's all clean and tested material. The results are presented to the Contamination Task Force, which is composed of all regulatory agencies including the Coastal Commission, EPA, Water & Quality Control Board, and other local environmental interest groups. This will be a four-month project, 24/7 hour operation at the cost of \$2.69 million, which is federal funded.

5. STAFF REPORTS

A. ONGOING ACTIVITIES REPORT

Ms. Baker presented the written report and highlighted the County Commissions Assessment report as previously discussed. She also gave an update on the summer youth license process. She explained that the summer operators are able to reapply for another three to five years because their prior term has expired. The Department had outside reviewers review the applications and tentatively scored them, which the Department is currently reviewing. The Department is aware that some desirable locations were not submitted for bidding or were not bid upon. Mr. Jones has decided to put those locations out again for a bidding process. Once operators have been notified of their awards, they will be notified of other available locations if they are interested.

B. BEACH AND MARINA DEL REY SPECIAL EVENTS

Ms. Baker presented the written report and highlighted the holiday events, Winter Wonderland, Snow Wonder, Boat Parade, New Year's Eve fireworks displays. Ms. Baker also invited the Commissioners to the Administration Office to watch the Boat Parade on December 10, 2016.

C. OPERATIONAL SERVICES DIVISION REPORT

Mr. Foreman presented the written report and passed along information related to SLR and the repairs that the Department is working on. He indicated that the areas that are being worked on are not subject to inundation in the near future. Also, on November 7, 2016, DBH started the berm construction which has now been completed. The Department now have them in place to protect County property, including at Zuma and Dockweiler, and are prepared for any storms that may come occur in the next couple of months. Chair Dagit asked about the Zuma showers and restroom replacement and why they are separated into two different contracts instead of one. Mr. Foreman responded that it was because of the funding and the way the project is being scoped.

D. LIFEGUARD REPORT

Chief Moseley was not available to provide a report.

6. COMMISSIONER COMMENTS

Commissioner Powell invited the Commissioners to attend the 28th Annual City of Manhattan Beach Fireworks event on Sunday, December 11, 2016 starting at 4:00 p.m. He also thanked Supervisors Knabe and Antonovich for their years of exemplary service. Chair Dagit thanked the Commission and DBH staff. She also thanked Commissioner Sachs for providing lunch for the Commission.

7. PUBLIC COMMENTS

Ms. Saro, inquired about the contact information for the Venice Lifeguard Headquarters, Ocean Front Walk, and beaches to discuss related issues.

Mr. Mitchell, spoke on sea level rise and adapting a management plan at the time of need.

The next Beach Commission Meeting is scheduled for February 22, 2017 at **BURTON CHACE PARK COMMUNITY ROOM, 13650 Mindanao Way, Marina del Rey, CA 90292.**

ADJOURNMENT

Chair Dagit adjourned the meeting at 12:11 p.m.

Respectfully Submitted,

Maria Wong, Acting Secretary

SUBJECT: **ITEM 4A – Heal the Bay Presentation**

Matthew King and Rita Kampalath of Heal the Bay (HTB) will present on their organization's new beach water quality forecasting tool, HTB's position on the proposed desalination plant in El Segundo, and HTB's interests in and efforts toward reviving a countywide funding measure for smart-water initiatives, including stormwater capture and treatment.

PRESENTERS:

Matthew King, Communications Director, Heal the Bay

Matthew King is responsible for communicating Heal the Bay's mission and activities to the general public. He oversees branding, public messaging, pro-bono advertising, and public and media relations. Before joining Heal the Bay, he served as a vice president of The Hollywood Reporter and as an editor at the Los Angeles Times. An avid surfer, Matthew sneaks out to El Porto and Bay Street as often as he can.

Rita Kampalath, Science and Policy Director, Health the Bay

Rita Kampalath oversees Heal the Bay's rigorous science and policy work, including programs that seek to improve water quality and water supply throughout Southern California. She has a B.S. in Chemical Engineering from Columbia University, as well as an M.S. in Chemical Engineering and a Ph.D. in Civil Engineering from UCLA. Before joining Heal the Bay, Rita focused on stormwater quality projects at Geosyntec Consultants

SUBJECT: ITEM 4B – Measure H/Homelessness Initiative Presentation

Measure H, the “Los Angeles County Plan to Prevent and Combat Homelessness,” is the March 7, 2017 ballot measure focused on ending homelessness for over 45,000 people across Los Angeles County, including women and children, veterans, seniors, foster youth, and the disabled. The proposed measure would authorize an additional 0.25 percent LA County sales tax for 10 years, estimated to generate \$355 million annually. Measure H would fund programs to combat homelessness including:

- Homelessness prevention services
- Comprehensive supportive services, like mental health care and job training
- Long term solutions like permanent housing

The number of individuals and families estimated to be experiencing homelessness in Los Angeles County in January 2016 was 46,874, an overall increase of 2,515 people (6 percent) from 2015 and 19 percent more than in 2013. The number of people living in encampments, tents and vehicles increased by 20 percent from 2015 to 2016 and 123 percent from 2013 to 2016.

Currently, the unmet need for homeless housing and services are estimated to be \$450 million per year, not counting construction costs. The LA County Board of Supervisors previously approved one-time funding of \$100 million.

PRESENTER:

Jerry Ramirez, Chief Executive Office, Los Angeles County

Jerry has worked on various special projects including serving as the program coordinator for the County's census outreach, Airport Monitoring under the Special Projects Unit for the CEO's office and County/Film Industry Coordination Committee.

SUBJECT: ITEM 5C – OPERATIONAL SERVICES DIVISION PROJECT REPORT

Item 5C on your agenda provides the Commission with a listing of the Department's projects that are either planned or in progress. There were 65 service requests placed with the County's Internal Services Department to perform work that was considered too large for our internal staff to handle. Shown below is a brief list of those projects that exceeded \$10,000.

- Establish new sewer connection – White Point – estimated cost \$500,000
- Relocate and replace water main – Royal Palms – estimated cost \$325,000
- Expand staff parking at maintenance yard – Dockweiler Beach – estimated cost \$40,000
- Renovate restroom – Topanga Beach – estimated cost \$98,000
- Renovate restroom – Malibu Surfrider – estimated cost \$179,000
- Replace water line – Zuma Beach – estimated cost \$1,500,000
- Replace showers- Zuma Beach – estimated cost \$475,000
- Renovate restrooms – Zuma Beach – estimated cost \$467,000
- Replace water line – Dockweiler Beach – estimated cost \$645,000
- Replace stairs – Nicholas Canyon – estimated cost \$200,000

Establish new sewer connection – White Point – \$500,000

This project will connect the public restroom at White Point via 500 lineal feet of the force main to a nearby trunk sewer. The former sewer line was disconnected due to a landslide that occurred in the area in November 2011.

Status: The scope and drawings are being developed currently with an anticipated start date of Summer 2017.

Relocate and replace water main – Royal Palms – \$325,000

The scope includes abandoning the existing 400 lineal feet of the main water line from the meter to the restroom, and adding new water lines in an alignment within our beach parcel to a new meter.

Status: The installation of the water line and new water meter was completed in December 2016.

Expand staff parking at the Dockweiler Beach Maintenance Yard – \$40,000

The scope includes removing some of the landscape planters and expanding the current parking area to accommodate extra staff and shift overlaps.

Status: Project is currently in bid review and is scheduled to be completed in February, 2017.

Renovate restroom at Topanga Beach – \$98,000

The scope includes replacing old plumbing fixtures with modern, more efficient fixtures; replacing the partitions; adding hand dryers; replacing the tile; and painting the interior and exterior of the building.

Status: Project has started with the exterior of the building. The interior renovations are scheduled to start in January 2017 once the fixtures are received.

Renovate restroom at Malibu Surfrider – \$179,000

The scope includes replacing old plumbing fixtures with modern, more efficient fixtures; replacing the partitions and benches; adding hand dryers; replacing the doors and tile; repairing the damaged sewer laterals; refinishing the floors; and painting the interior and exterior of the building.

Status: Project is scheduled to start in January 2017 once the fixtures are received.

Replace Zuma Beach water line – \$1,500,000

The scope of work includes abandoning the existing water line; adding a new line with modern materials for the nine restrooms; and installing a new backflow device.

Status: Project is scheduled to start in February 2017.

Replace Zuma showers – \$475,000

The scope of work includes replacing the existing floor and wall tiles, installing new shower fixtures, new ADA benches, and grab bars for the showers located at the nine restrooms.

Status: Project started in December 2016.

Renovate Zuma restrooms – \$467,000

The scope of work includes replacing the existing floor and wall tiles, installing new toilet and sink fixtures, installing new ADA benches, and grab bars as required for ADA compliance. Only three (3) of the nine (9) restrooms will be addressed at this time.

Status: Project started in December 2016.

Replace Dockweiler Beach water line – \$645,000

The scope of work includes abandoning the existing water line and adding a new line with modern materials, a new water main, and a second meter for the RV Park. The new water main will serve the Lifeguard station, the entrance kiosk, and the irrigation system from the existing meter to the facilities.

Status: The Department is in the process of developing engineered drawings for pricing. The drawings are at 75% review and are scheduled to be completed in January 2017.

Replace Nicholas Canyon stairs – \$200,000

The scope of work includes developing a set of plans, removing the existing stair structure, and installing new stair structure with compliant steps and landings with stainless steel handrails.

Status: Project plans have been approved and are in the bid process. Project to be completed by March 1, 2017.
