MARINA DEL REY DESIGN CONTROL BOARD
AGENDA

Wednesday, December 19, 2018, 12:30 p.m.

Burton W. Chace Park
Community Building
13650 Mindanao Way
Marina del Rey, CA  90292

Audio

1. Call to Order, Action on Absences, Pledge of Allegiance, and Order of Agenda

2. Approval of the September 19, 2018 Minutes

3. Public Comment
   This is the opportunity for members of the public to address the Board on items that are not on the posted agenda, provided that the subject matter is within the jurisdiction of the Board. Speakers are reminded of the three-minute time limitation.

4. Consent Agenda
   The Chair may entertain a motion by a Board member at the beginning of the meeting to approve certain non-controversial agenda items as consent agenda items unless held by a Board member or member(s) of the public for discussion or separate action.

5. Old Business
   A. Parcels 10 & 14 – Neptune Marina Apartments – DCB #04-014-F – Consideration of new signage.

6. New Business
   A. Parcel 97 – Gold Coast Shopping Center LLC / Marina Beach Shopping Center – DCB # 18-017 – Consideration of renovation and sign program.

   B. Marina del Rey Design Control Board 2018 Annual Report – Approval needed.

7. Staff Reports
   A. Ongoing Activities Report
      • Board of Supervisors Actions on Items Relating to Marina del Rey
      • Regional Planning Commission’s Calendar
      • Coastal Commission’s Calendar
      • Future Major DCB Agenda Items
      • Small Craft Harbor Commission Minutes
      • Redevelopment Project Status Report
      • Marina del Rey Signage and Gateway Master Plan
B. Marina del Rey Special Events

8. **Adjournment**

PLEASE NOTE

1. **ADA ACCOMODATIONS:** If you require reasonable accommodations or auxiliary aids and services such as material in alternate format or a sign language interpreter, please contact the ADA (Americans with Disabilities Act) Coordinator at (424) 526-7752 (Voice) or (TTY/TDD) users, please call the California Relay Service at 711. The ADA coordinator may be reached by email at rstassi@bh.lacounty.gov.

2. The Los Angeles County Board of Supervisors adopted Chapter 2.160 of the Los Angeles Code (Ord. 93-0031 ~ 2 (part), 1993), relating to lobbyists. Any person who seeks support or endorsement from the Design Control Board on any official action must certify that he/she is familiar with the requirements of this ordinance. A copy of the ordinance can be provided prior to the meeting and certification is to be made before or at the meeting.

All materials provided to the Design Control Board Members are available for public review, beginning the Friday prior to the meeting, at the four Marina del Rey locations listed below. The Department of Beaches and Harbors website also provides all reports and audio files from current and past meetings. Electronic copies of project submittals for Business Items referred to in this agenda will be available online for a two-week period from the date of this agenda.

Please visit the Department of Beaches and Harbors Website Address at http://marinadelrey.lacounty.gov, or the Design Control Board Archive for more information.
Location of December 19, 2018 DCB Items

5A – Parcel 10/14, Neptune Marina
6A – Parcel 97, Marina Beach Shopping Center
6B – NA – Design Control Board Annual Report
DESIGN CONTROL BOARD MINUTES  
September 19, 2018

**Members Present:** Helena Jubany FAIA, Chair (First District); Jerome Stanley, Vice Chair (Second District); Steven Cho, Member (Fourth District); Tony Wong, P.E, Member (Fifth District)

**Members Absent:** None

**Department Staff Present:** Michael Tripp, Division Chief; Troy Evangelho, Planner; Kandyce Newton, Secretary

**County Staff Present:** Christina Angeles, County Counsel; Kevin Finkel, Department of Regional Planning

**Guests Testifying:** David Fernandez, Menemsha Architecture; Theresa Tiwari, Killer Shrimp

1. **Call to Order and Pledge of Allegiance**
   Chair Jubany called the meeting to order at 1:30 p.m.

   Mr. Wong led the Pledge of Allegiance.

2. **Approval of the July 18, 2018 Minutes**

   **Moved by Mr. Wong, seconded by Mr. Cho, the July 18, 2018 minutes were approved.**

   **Ayes: 4 – Chair Jubany, Vice Chair Stanley, Mr. Cho and Mr. Wong**

3. **Public Comment**
   None

4. **Consent Agenda**
   None

5. **Old Business**
   A. Parcel 50 – Caruso Affiliated / Shake Shack – DCB #08-015 - Consideration of building modifications and new signage

   Troy Evangelho presented the staff report.

   Vice Chair Stanley asked if there were any other neon signs in the shopping center.

   Mr. Evangelho replied that he could not recall any other neon signs in the shopping center and clarified that only the hamburger logos would be neon. The rest of the sign would include face lit and back lit channel letters.
Chair Jubany asked if the brick façade would be painted.

Mr. Evangelho replied yes, the brick facade would be painted grey.

David J. Fernandez, Senior Project Manager with Menemsha Architecture, introduced himself and thanked the Board for their previous comments which were taken into consideration during the project’s redesign. Mr. Fernandez described aspects of the project that were modified, such as the change of the rear and side building façades from metal to a stucco finish, in order to better fit in with the shopping center design, and the integration of the mechanical room as a feature that would blend in with the façade.

**Public Comment**
None

**Board Comment**
None

Moved by Mr. Wong, seconded by Mr. Cho, this item was approved as resubmitted.

Ayes: 4 – Chair Jubany, Vice Chair Stanley, Mr. Cho and Mr. Wong
Nays: 0

6. **New Business**
A. Parcel 30 – Legado Marina, LLC / Killer Shrimp – DCB #18-016 – Consideration of new awnings

Troy Evangelho presented the staff report.

Theresa Tiwari, Killer Shrimp’s representative, introduced herself, thanked the Board for their consideration of the project, and stated that the awning replacements would take about five days to complete from start to finish.

**Public Comment**
None

**Board Comment**
Vice Chair Stanley asked the applicant why the color black was chosen for the new awnings.

Ms. Tiwari replied that red and black are the company colors, are incorporated throughout the restaurant, and are encompassed in the company’s logo and signage on the outside of the restaurant; therefore, black awnings were chosen to keep within the company’s current theme.
Vice Chair Stanley stated that black was such a dark color for such a bright location and asked if the black and red potentially created any issues in terms of visibility.

Ms. Tiwari responded that the color black is consistent with the company’s theme and that the color red pops well against the black making it pretty visible.

Moved by Mr. Wong, seconded by Mr. Cho, this item was approved as submitted.

Ayes: 4 – Chair Jubany, Vice Chair Stanley, Mr. Cho and Mr. Wong
Nays: 0

B. Design Control Board Process Overview - Presentation

Troy Evangelho delivered the presentation.

Mr. Wong asked for clarification regarding the Design Control Board's purview of a project that has been denied by the Design Control Board, and subsequently approved by Regional Planning.

Mr. Evangelho replied that a project could come before the Design Control Board and be denied by this Board with a recommendation to Regional Planning to also not approve the project. If the project is reviewed and then approved by Regional Planning, it would return to the Design Control Board a second time for review of the final design concept. The project's scope, however, would not be subject to review by the Design Control Board.

7. Staff Reports
All reports were received and filed.

Chair Jubany proposed that future meetings begin at 12:30 p.m.

Staff stated that they would consider that option and report back to the Board.

Public Comment
None

8. Adjournment
Vice Chair Jubany adjourned the meeting at 2:03 p.m.

Respectfully Submitted,

Kandyce Newton
Secretary for the Design Control Board
TO: Design Control Board
FROM: Gary Jones, Director

SUBJECT: ITEM 5A – PARCELS 10 & 14 – NEPTUNE MARINA APARTMENTS – DCB # 04-014-F – CONSIDERATION OF NEW SIGNAGE

Item 5A on your agenda is a submittal from Neptune Marina (Applicant), seeking approval for new signage. The project is located at 14126 Marquesas Way.

PROJECT OVERVIEW
Background
On January 21, 2015, your Board approved the final design for development of the Neptune Marina Apartments, including the design of the buildings, promenade, landscaping, hardscape, lighting, colors, and materials. On October 18, 2017, your Board approved a revised landscape plan for this project.

Existing Conditions
The site is currently under construction for the complete redevelopment of Parcels 10 and 14, and will consist of a new 526-unit residential apartment complex on two separate parcels, two new waterfront pedestrian promenades, and an anchorage.

Proposed Project
The applicant is proposing new signage for the Neptune Marina Apartments and anchorage.

SIGNAGE
Signage Overview
The proposed project would include 11 sign types to be located throughout the apartments, promenade, and docks. The primary font type used would be Futura STD Heavy, and the secondary font type would be Futura STD Medium.

Building Façade
The main building façade sign, labeled as E1, would be approximately 129 square feet and measure 13'-11" wide by 9'-3" tall. This sign would be mounted on the apartments' main tower feature facing Marquesas Way, approximately 55' above grade. The sign would feature the Applicant's logo, a salmon-colored shield and trident, centered above blue aluminum channel letters reading "Neptune Marina". The "Neptune" letters would be 1'-10" tall, and the "Marina" letters 1' tall. This sign would use halo lighting.
Directional / Regulatory
The building address signs, labeled as E2, would be approximately 6 square feet and measure 5' wide by 1'-3" tall. The signs would be mounted on top of the awning at each street facing building entrance, and on the main tower at the intersection of Marquesas Way and Via Marina. The signs would use brushed aluminum channel letters and light strip uplighting.

The directional column signs, labeled as E5, would be approximately 10 square feet and measure 7'-6" tall by 1'-2" wide. The signs would be mounted to the ground and located at each driveway entrance and view corridor. The signs would consist of a 7'-6" tall navy blue aluminum column with a yellow band near the foot, and a 2'-6" tall white aluminum sign panel toward the middle. The Neptune Marina logo would be on the top of the column and the sign panel would include text and arrows providing direction to the public promenade, leasing office, and other amenities. The directional panel would use halo illumination.

The leasing identification sign, labeled as E11, would be 12.5 square feet and measure 5' wide by 2'-6" tall. The sign would be mounted onto the building façade next to the leasing office, five feet above grade. The sign would consist of a navy blue aluminum panel with the Applicant’s logo above white acrylic letters reading “Neptune Marina Leasing”. The company name and logo would be 10" tall with the “Leasing” letters 8” tall. This sign would be non-illuminated.

The parking identification sign, labeled as E3, would be approximately 6.5 square feet and measure 5' wide by 2'-6" tall. This sign would be mounted to the wall at each garage entrance, approximately 5' above grade. The sign would consist of a navy blue aluminum sign panel with white acrylic letters reading “Parking” and “Resident + Guest” separated by a gold line. The “Parking” text would be 8" tall and the “Resident + Guest” would be 4” tall. This sign would be backlit.

Other minor parking informational signs would include the garage clearance bar, parking space identification, and parking direction sign, listed as E4, E9, E10, respectively. Minor dock signage would include the dock gate sign, dock pile sign, and slip identification sign, labeled as E6, E7, E8, respectively.

Directional / Regulatory
All lighted signs would be illuminated from dusk until dawn every day.

STAFF REVIEW
Staff finds that the proposed project is consistent with the Marina del Rey Design Guidelines, and the Revised Permanent Sign Control and Regulations.

Staff recommends APPROVAL of DCB #04-014-F, subject to the following conditions:
1) The Applicant shall obtain approval from the Department of Regional Planning.

2) No change shall be made to the approved design, landscaping, hardscape, materials, or signage without written approval from the Department of Beaches and Harbors Planning Division staff.

3) No substantial change shall be made to the approved design, landscaping, hardscape, materials, or signage without the written consent of the Design Control Board.

GENERAL DESCRIPTION

- 13' - 11 5/8" wide x 9' - 3 1/8" tall x 3" thick aluminum project I.D. halo channel letters wall sign
- logo graphic piece painted to match PMS 178C
- internally illuminated with white L.E.D.s to produce halo illumination
- logo copy painted to match PMS 540C
- illumination time from dusk until dawn
- total sign area = 129.4 S.F.

MINIMUM 3/4" PLYWOOD BLOCKING BY CONTRACTOR / OWNER

ELEVATION: Project I.D. Wall Sign

scale: 1" = 1'-0"
GENERAL DESCRIPTION
- 13'' - 11 5/8'' wide x 9' - 3 1/8'' tall x 3'' thick aluminum project I.D. halo channel letters wall sign
- Logo graphic piece painted to match PMS 178C
- Internally illuminated with white L.E.D.s to produce halo illumination
- Logo copy painted to match PMS 540C
- Illumination time from dusk until dawn
- Total sign area = 129.4 S.F.

ELEVATION: Project I.D. Wall Sign
scale: 1/4" = 1' - 0"

SIDE SECTION: Project I.D. Wall Sign
scale: 1/2" = 1' - 0"

- Add 3/4" plywood blocking (minimum) by others / contractor
- Fire stop sealant and silicone for water proofing in wall penetrations
- L.E.D. transformer, photocell, disconnect switch, and power supply located outside of stairwell
- Low voltage wire
- Stainless steel or galvanized rigid 1/2" conduit with 10-24 all thread thru bolt in wall for letter attachment
GENERAL DESCRIPTION

- 5’ - 0” wide x 1’ - 3” tall x 3” deep painted marine grade aluminum letters painted Mathews Paint LRV68.2 Brushed Aluminum
- secure to awning with countersunk mechanical fasteners
- self-contained LED light strip to upright address numbers
- final determination of method of mounting after review of each location
- illumination time from dusk until dawn
- total sign area = 6.25 S.F.

ELEVATION: Address Numbers

SUBJECT: ITEM 6A – PARCEL 97 – GOLD COAST SHOPPING CENTER, LLC / MARINA BEACH SHOPPING CENTER – DCB # 18-017 – CONSIDERATION OF RENNOVATION AND SIGN PROGRAM

Item 6A on your agenda is a submittal from Gold Coast Shopping Center, LLC (Applicant), seeking approval for a renovation and sign program. The project is located at 510 Washington Boulevard.

PROJECT OVERVIEW

Existing Conditions
The 1.8 acre shopping center is located on Washington Boulevard, between Via Marina and Palawan Way. The center consists of seven single story commercial buildings with a surface parking lot fronting Washington Boulevard and alley access with parking in the rear. The buildings have a covered walkway arcade on the ground level and the roofs feature a stepped, decorative parapet leading to a faux tower in the center of each building.

Proposed Project
The project proposes a renovation of the site, which includes reconstructing the roofs on all buildings, updating the ground floor facades, adding new landscaping and lighting, and establishing a new sign program for the shopping center.

BUILDING DESIGN

All Buildings
All buildings would update the ground floor covered walkway arcade. The structural beams would be sand blasted to show the natural wood, and the columns would be stripped of their veneer and sand blasted to show the existing concrete columns. The existing roof features on all buildings would be redesigned with a rectangular parapet shape, with a variety of vertical accents. Each building features graphics and/or murals, which have not yet been finalized. The Applicant will return to the DCB for final design approval for the graphics and mural wall treatments.

Building One
This building’s upper and side façades would utilize black standing seam metal with a powder finish. The east end of the upper building façade would feature a perforated metal
panel with powder coated finish. The storefront façade would use a white stucco. The sides of the building would feature two wall graphics.

**Building Two**

Building Two would have two separate façade designs, one on the east end of the building and one on the west end. The upper façade on the east end of the building would feature a white finish with a custom painted graphic. The lower façade on the east facing elevation would feature an artificial living wall and custom mural.

The upper façade on the west end of the building would feature vertical metal sheet fins that extend above the parapet. The façade behind the fins would be painted medium grey. The upper façade on the west elevation would feature a metal sheet with an artificial living wall. The lower façade on the west elevation of the building would use a dark grey façade and wall graphics.

The rear of the building would feature a white stucco upper façade and dark grey stucco lower façade.

**Building Three**

This building’s upper front and side façades would utilize black standing seam metal with a powder finish. The façade above the storefront would have a recessed section with a white stucco finish and a wall graphic. The east and west elevations would feature a white stucco wall with graphic designs. The lower storefront façade would feature a white stucco finish.

**Building Four**

This building’s upper front and side façades would utilize black standing seam metal with a powder finish, covered by a perforated metal panel with a powder coated finish. The storefront of the building would be white stucco. The building sides would be white stucco with wall graphics.

**Building Five**

This building’s upper and side façades would utilize black standing seam metal with a powder finish, placed in a diagonal orientation, with panels painted in shades of grey and pink. The storefront of the building would be white stucco. The building sides and rear would be white stucco with wall graphics.

**Building Six**

Building Six would have two separate façade designs, one on the east end of the building and one on the west end. The upper façade on the east end of the building would have a white stucco finish with vertical articulation. The lower façade on the east facing elevation would feature an artificial living wall in a grid pattern and a custom mural.

The façade on the west end of the building would feature vertical metal sheet fins that extend above the parapet. The façade behind the fins would be painted medium grey with
artificial living wall panels. The lower façade on the west elevation of the building would use an artificial living wall.

The rear of the building would feature a white stucco upper façade and dark grey stucco lower façade.

Building Seven
The upper façade on the building would have a white stucco finish with vertical articulation. The upper façade on the sides of the building would have a white stucco finish with wall graphics. The ground floor façade of this building would be an artificial living wall. The corner of the building on the upper façade would feature a perforated metal panel with powder coated finish.

SITE DESIGN
Courtyards
There are six courtyards, with one located between each building. Each courtyard would be renovated to include potted plants, planter boxes, and bronze colored bollards to buffer the walkway from the parking. Suspended lighting would span the courtyards. Amenities would include dining tables, bicycle racks, and fuchsia colored benches. Certain courtyards would also include suspended fabric shade canopies.

Corner Park
The existing corner park would be renovated, with all the existing components being upgraded. The benches would be painted white and given a wood slat seat. The fountain façade would be enclosed with a rolled steel veneer and river rocks would be added to the perimeter. The existing pavers would be sand blasted and sealed.

Landscaping
The existing landscaping would remain. This consists of strip landscaping with shrubs and trees along the Washington Boulevard frontage, trees planted in the courtyards, and shrubs and palm trees at the corner park. New landscaping would consist of potted plants and planter boxes placed along the walkways as a buffer to the parking lot. A variety of succulents would be used in the planters and pots.

Lighting
The existing exterior wall sconces, flood lights, and corner park pole lights would be removed. The parking lot pole lights would remain. The existing under canopy down lights would be replaced. New wall wash downlights would be installed along the sides of the buildings facing the courtyards. Suspended lighting would span the courtyards. Linear grazer uplighting would illuminate the upper building facades. The corner park would be lit by tree mounted downlights.

SIGNAGE
Sign Program
The Marina Beach Sign Program would establish the types of signs allowed, the maximum sign size per tenant space, the rough placement of the signs, and standard informational signage for each tenant space.

Building Façade
For buildings one through six, one façade sign would be allowed per tenant space on the upper façade above each storefront entrance. On building seven, one sign would be allowed on the building front, and each of the two building sides, mounted to the upper façade.

Freestanding Column or Tower
The existing monument sign would be renovated. The sign would be 6'-2" tall by 21' wide. The side pilasters would be removed. The façade would be covered with a bronze-colored sheet metal veneer. The text would still read "Marina Beach" with the bird logo, however the font would be updated to use Sea Side Resort NF, using 1'-8" tall, backlit channel letters.

Informational
Each business would be allowed one small informational sign listing the hours of operation. This sign would be a maximum 4 sq. ft., with white laminate letters, and use the Seaside Resort font. The sign would be mounted to the storefront entrance, on either the entry door or display window.

Empty storefronts would be allowed one “coming soon” window graphic. The background would take up one window panel, and the text would be a total of 4 sq. ft. The sign would read “Coming Soon to Marina Beach” in seaside resort font.

Illumination
All signs would be allowed to use halo lighting and back lighting. The hours of illumination for all signs would be from dusk until dawn.

STAFF REVIEW
An ex parte meeting was held on November 14, 2018 with Department of Beaches and Harbors Staff, the project applicant team, and Design Control Board (DCB) members Helena Jubany and Steven Cho. The DCB members had the following comments on this project.

1. The facades are too busy, especially where they meet at the courtyards. Tone down the facades and graphics.
2. Each courtyard should have a cohesive design.
3. Ensure the uplighting of the façade avoids light pollution.

While the applicant did revise their project to address these issues, staff defers to the DCB to determine whether their comments have been adequately addressed.
Design Control Board  
December 13, 2018  
Item 6A  
Page 5

Staff finds the proposed project is consistent with the Marina del Rey Design Guidelines, and the Revised Permanent Sign Controls and Regulations.

Staff recommends **APPROVAL** of DCB #18-017, subject to the following conditions:

1) The Applicant shall obtain approval from the Department of Regional Planning.

2) The Applicant shall return post planning entitlement for final design review of all art work and wall graphics.

3) No change shall be made to the approved design, landscaping, hardscape, materials, or signage without written approval from the Department of Beaches and Harbors Planning Division staff.

4) No substantial change shall be made to the approved design, landscaping, hardscape, materials, or signage without the written consent of the Design Control Board.

5) All proposed light effects and color transitions shall occur at a gradual pace, so as not to create a hazard or nuisance, and shall be in conformance with Title 22 (e.g. flashing lights and red lights are prohibited).

DESIGN NARRATIVE

THE 80,483 SQUARE FOOT SITE IS LOCATED IN MARINA DEL REY ALONG WEST WASHINGTON BOULEVARD, BOUNDED BETWEEN VIA MARINA AND PALAWAN WAY WORKING WITHIN THE MARINA DESIGN GUIDELINES AND THE LIMITATIONS OF AN EXISTING BUILDING HEIGHT OF 38'-0". OUR RENOVATION PROPOSAL FOR THE EXISTING SEVEN BUILDING COMPLEX INTRODUCES A MORE DYNAMIC MIXTURE OF BUILDING HEIGHTS AND IMPLIED BUILDING MASSING. THESE CHANGES ARE IN CONTRAST TO THE CONSISTENCY OF BUILDING HEIGHTS AND VOLUME CURRENTLY EXISTING ACROSS THE SITE. IN ADDITION, THE NEW DESIGN PROPOSES TO REPLACE THEMATIC ORNAMENTATION WITH SIMPLE AND BOLD BUILDING ARTICULATION INTENDED TO CREATE INTERESTING AND ATTRACTIVE FACADES FACING THE STREET. DRAWING INSPIRATION FROM THE MARINA, VENICE BOARDWALK & NEARBY ABBOTT KINNEY COMMUNITIES, THE NEW FACADES INCORPORATE A PLAYFUL MIXTURE OF MATERIALS, TEXTURES, AND GRAPHIC PAINTED WALLS VISIBLY ENLIVENING THE PEDESTRIAN EXPERIENCE AND PROVIDING MORE ATTRACTIVE SERVICE HUB. THROUGHOUT THE PROJECT THE DESIGN PRESERVES AND ENHANCES THE EXISTING LANDSCAPE, AND CORNERS & ALLEYWAYS WILL FEATURE PATIOS WITH PLANTED WALLS, MEMORIALS, AND COLORFUL SITE FURNISHINGS TO CREATE INVITING COMMUNITY GATHERING SPACES. SITE LIGHTING WILL INCLUDE FESTIVE SUSPENDED LIGHTING ABOVE PUBLIC SPACES, REFRESHED ARCADE LIGHTING, AND SOFT YET VIBRANT WALL WASHING FACADE ILLUMINATION.

NEW FAÇADES

THE NEW FACADES FEATURE A PLAYFUL MIXTURE OF MULTI-TONED STANDING SEAM METAL, TEXTURED STUCCO, PERFORATED PAINTED METAL PANELS WITH ‘NATURE THEMED’ CUSTOM PATTERNS, AND WEATHERED STEEL METAL LOUVERS. AT THE STOREFRONT ARCADE LEVEL, WE PROPOSE TO ELIMINATE THE PRECAST CLASSIC FILIGREE OVER THE EXISTING ARCADE COLUMNS WHILE SANDBLASTING AND RESEALING THE EXISTING CONCRETE COLUMNS AND EXPOSED WOOD BEAMS TO INTRODUCE MORE RAW EARTHEN MATERIALS. TO COMPLEMENT THIS MODERN AND WARM PALETTE, WE PROPOSE GRAPHIC PAINTED WALLS AS WELL AS DEDICATED ‘BLANK CANVAS’ PLASTER WALLS FOR MURALS BY LOCAL ARTISTS.

LANDSCAPE: CORNER PARKS

THE GOAL FOR THE CORNER PARK IS TO INCREASE SAFETY AND VISIBILITY IN ACCORDANCE WITH THE MARINA DESIGN GUIDELINES. OUR PROPOSAL RESPECTS AND ENHANCES THE EXISTING PARK LOCATED AT THE CORNER OF VIA MARINA AND WASHINGTON BOULEVARD BY PRESERVING THE ORIGINAL TERRACOTTA PAVERS, PROVIDING NEW IPE WOOD DECKING OVER THE EXISTING BENCHES, AND RE-CLADDING THE EXISTING FOUNTAIN WITH HOT-ROLLED STEEL PLATES. LIGHTING STRATEGIES INCLUDE COLLAR LIGHTS AT THE EXISTING PALM TREES TO ILLUMINATE THE TREE CANOPIES AND STAKE MOUNTED ACCENT LIGHTING AT THE FOUNTAIN COURT.

LANDSCAPE: SITE PLANTINGS

THE NEW DESIGN AIMS TO PRESERVE ALL SIGNIFICANT SHRUBS AND TREES EXISTING ON SITE WHILE REFRESHING THE LANDSCAPE AESTHETIC THROUGH THE INTRODUCTION OF NEW STEEL ENCLOSURES FOR PLANTER TREE BOXES AND MODERN CONCRETE POTS FEATURING RELOCATED POTTED TREES. LOCATED AT THE THRESHOLD BETWEEN SURFACE PARKING AND THE CONTINUOUS STOREFRONT ARCADE ARE WEATHERED STEEL PLANTER BOXES CONTAINING SUCCULENTS AND DROUGHT TOLERANT GRASSES TO PROVIDE VISUAL INTEREST AND CLEAR VISIBILITY FOR RETAILERS AND PEDESTRIANS.

Mission Statement

The mission of the Marina del Rey Design Control Board (DCB) is to ensure that all new improvements and developments in Marina del Rey maintain a high quality of design that complements the water and boating, distinguishes the Marina as a premier waterfront visitor-serving destination, improves the perception of the Marina as a functioning harbor, embraces the right of the public to enjoy this recreational resource, and enhances opportunities for boating and recreation in the Marina.

Design Control Board Authority

The Design Control Board (DCB) reviews all projects that involve exterior modifications or improvements to properties in Marina del Rey. This includes new development, renovations, repainting, signage, landscaping, and other related activities. The DCB reviews a project’s site planning, architecture, landscaping, hardscape, and signage to ensure that Marina del Rey is maintained as a desirable location for County residents and visitors alike. Maintaining the Marina supports the County’s Strategic Plan Goal III under Strategy III.3.2: Manage and Maximize County Assets. Marina del Rey is owned and overseen by the County, and the DCB’s oversight protects the County’s asset by enforcing architectural and design standards.

The responsibilities of the DCB are to: (a) review and approve the architectural design and landscaping of improvements to be constructed in Marina del Rey; (b) advise the Department of Beaches and Harbors (Department) concerning the implementation of architectural design regulations and policies and related matters; and (c) perform such other duties as may be requested by the Board of Supervisors (BOS).

Makeup of the Design Control Board

The Design Control Board is made up of five members, each of whom is selected by a member of the BOS and appointed by the full BOS. The DCB is composed of two architects, one landscape architect, one land developer, and one member in the field of business management. Currently, the DCB is lacking a landscape architect from its membership.

Historical Background

On February 23, 1960, BOS adopted an order appointing the DCB “to assure conformity on the part of successful bidders who may construct improvements within the Small Craft Harbor.” This was followed in 1961 with the BOS approving and adopting the original “Specifications and Minimum Standards of Architectural Treatment and Construction for Marina del Rey.” In this document, the DCB was defined as “the Board appointed by the Board of Supervisors to review and approve the architectural design and arrangement of facilities constructed in Marina del Rey.” That document was revised in 1971, and remains in use to this day. Today the DCB reviews projects based on the parameters established in the 2012 Marina del Rey Local Coastal Program and the 2016 Marina del Rey Design Guidelines.
The DCB has reviewed all projects that were built in the Marina since 1961, when the harbor was first constructed. Some of the recent projects reviewed by the DCB include various apartment and hotel renovation and redevelopment projects. The DCB also reviewed park and public facility improvements conducted by the Department, such as Marina Beach, the Visitors Center, Burke Park, and the Boathouse. Other notable projects reviewed and approved over the last two years include:

- The “Marina del Rey Design Guidelines,” which provide guidance and standards for renovation and new development proposals.
- The development of Pier 44, a new, ground-up waterfront shopping center and boater-focused development.
- The Wetland Park restoration project, which will restore a degraded wetland, add public walking paths and observation areas, and provide educational signage to aid the public in enjoying this ecological resource.

Annual Work Plan

The DCB’s objective for the coming year is to continue to review architectural design and landscaping improvement projects for Marina del Rey properties. The DCB will continue to have scheduled monthly meetings to provide timely project reviews for applicants.

Prior Year Accomplishment

The DCB held six meetings from January to December 2018. Each meeting held was attended by three to four DCB members. During this period, the DCB reviewed and made recommendations on 20 projects, including signage, landscaping, and building renovations. For example, the DCB recommended approval of the renovation for a vacant waterfront building, along with improvements to its promenade, which would enhance access to and enjoyment of the Marina del Rey waterfront area. Additionally, the DCB approved numerous new façade improvements and signage requests from new commercial tenants.

Ongoing Long-Term Projects

The DCB will continue to review the Marina del Rey Signage and Gateways Master Plan, which aims to replace all County gateways and signage within the Marina to help create a better sense of place for the community.
December 13, 2018

TO: Design Control Board

FROM: Gary Jones, Director

SUBJECT: ITEM 7A - ONGOING ACTIVITIES REPORT

BOARD ACTIONS ON ITEMS RELATING TO MARINA DEL REY
On September 11, 2018, the Board of Supervisors instructed the Director of Beaches and Harbors, in consultation with County Counsel, to return to the Board in 120 days with recommendations regarding how rental units located on County-owned property in Marina del Rey should be addressed in a permanent rent stabilization ordinance, should such an ordinance be adopted at a future date.

On October 30, 2018, the Board of Supervisors approved an Option Agreement for an Amended and Restated Lease to extend the term of the existing Parcel 113 Mariners Village lease, in Marina del Rey, to allow for the renovation of the existing apartment buildings on the property. The project includes the renovation of the 981 existing units, the opening of the waterfront promenade to the public, and the conversion of 20% (196) of the existing units into very-low income units.

REGIONAL PLANNING COMMISSION'S CALENDAR
No items relating to Marina del Rey were on the September 2018, October 2018, or November 2018 Regional Planning Commission agenda. On December 18, 2018 the Hearing Office is scheduled to review a Coastal Development Permit application to demolish a building, restripe the parking lot, and improve the public promenade on lease parcels 45 and 47.

CALIFORNIA COASTAL COMMISSION CALENDAR
No items relating to Marina del Rey were on the September 2018, October 2018, or November 2018 California Coastal Commission (CCC) agenda. On December 12, 2018 the CCC is scheduled to review a Coastal Development Permit for the replacement of a 10,500 sq. ft. dock for the Sheriff and Fire department facilities, located at parcel 62.

FUTURE MAJOR DESIGN CONTROL BOARD ITEMS
There are no future major Design Control Board items at this time.

SMALL CRAFT HARBOR COMMISSION MINUTES
The August 8, 2018 and September 12, 2018 Small Craft Harbor Commission minutes are attached. The October 10, 2018 meeting minutes are pending approval. The November meeting was cancelled due to lack of new business.

Attachments (3)
SMALL CRAFT HARBOR COMMISSION MINUTES
August 8, 2018

Commissioners: Allyn Rifkin, Chair; David Lumian, Vice Chair; Dennis Alfieri (excused absence); Richard Montgomery; Nathan Salazar

Department of Beaches and Harbors (DBH): Gary Jones, Director; Brock Ladewig, Deputy Director; Steve Penn, Chief of Asset Management Division; Amir Tadros, Sr. Real Property Agent; Ivy Bordenave-Priestley, Sr. Real Property Agent; Natasha Robinson, Sr. Real Property Agent

County: Amy Caves, Principal Deputy County Counsel

Item 1- Call to Order and Pledge of Allegiance
Chair Rifkin called the meeting to order at 10:05 a.m. and read the Commission’s policy on public comment. The Pledge of Allegiance was led by Steve Penn.

Item 2- Approval of Minutes

Motion to approve June 13, 2018, Meeting Minutes by Vice Chair Lumian, seconded by Commissioner Montgomery, unanimously approved.

Ayes: 4 – Chair Rifkin, Vice Chair Lumian, Mr. Montgomery, and Mr. Salazar

Item 3 – Communication from the Public
Chair Rifkin limited the time to 2 minutes per person due to the high volume of speakers.

Captain Alex Balian expressed concern about the lack of maintenance on the buoys which is causing navigational issues. He also stated that the owners and operators of the standup paddle boarders should be required to brief renters on navigational safety.

Bob Atkins distributed a copy of the email that he sent to the Commissioners and spoke about Dock 55 being leased without public review. He suggested that the Commission void the agreement between Pacific Ocean Management and the County.

Craig Melone spoke on behalf of Marina Yacht Club and stated that while they are happy at their temporary location at Marina City Club, he is requesting a permanent home for the club.

Chérié Summers expressed concern about Wayfarer’s dock renovations, and the lack of available slips which is driving up market rates. She also expressed concern about Wayfarer’s intentions to pass on the electric and water bills to the boaters. She further stated that Wayfarer’s actions are not in compliance with their Coastal Permit and request that they be investigated.

Vice Chair Lumian inquired if she received a notice to vacate, and if it was a 30 or 60 days’ notice.
Cherié Summers replied that on August 1st, 2018, everyone on Basin D, including her, received a 30 days’ notice to vacate.

Vice Chair Lumian stated that at the last meeting, DBH staff provided information on how the public can file a complaint over increased slip fees and asked if she had done so.

Cherié Summers responded that she did file a complaint and that the issue should be on the agenda.

Vice Chair Lumian clarified that this item is already on the agenda.

Jason McMerty spoke about Wayfarer’s recent eviction notice, lack of vacancies for 40-foot vessels around the marina, and the lack of qualified dockmasters. He stated that last weekend he hired an independent dockmaster who noted 122 violations within Wayfarer’s marina. He also mentioned that he will be doing a documentary called “Kicked Out” and that “media requests” will be going out to everyone.

Yvonne Clark expressed concern about the lack of communication and support from Wayfarer and DBH.

Ben Mount, Legacy Partners representative, stated that over the last few months, Legacy Partners has listened to the boaters’ concerns and addressed them in a timely manner. He further stated that at the June 2018 meeting, he submitted a revised phasing plan with a clear explanation of the anticipated project timeline. He further explained that Wayfarer is moving forward with the plan which was presented at the June meeting.

Aaron Clark, Legacy Partners representative, stated that Tim O’Brien is out of the country but had asked him to attend the meeting on his behalf as he wants to resolve all concerns regarding this transition.

Commissioner Montgomery asked who the point of contact is when Tim O’Brien is not available.

Aaron Clark responded that Ben Mount is the contact person.

Ben Mount provided his contact information: Office number: (949) 930-7706.
E-mail: bmount@legacypartners.com.

Aaron Clark stated that reports of Legacy being out of compliance with the Coastal Permit are incorrect, and that they are, in fact, compliant with all their permits.

Vice Chair Lumian wanted to clarify that the 30 boaters which are impacted by the eviction were going to transition into AMLI as they open their docks.

Ben Mount responded that AMLI is waiting on approvals for their dockside utilities before they can open for business.
Vice Chair Lumian inquired if Wayfarer’s transition can be delayed until AMLI opens.

Ben Mount responded that there is not much flexibility at this point.

Vice Chair Lumian requested that Wayfarer considers delaying.

Aaron Clark replied that he will check with AMLI to see when they are going to open, and stated that the implication of delaying would cause a ripple effect.

Vice Chair Lumian asked about the allegation of amortizing utility costs for common use areas.

Ben Mount responded that there is a split fee for the sewer, electricity, and laundry room.

Vice Chair Lumian inquired about the utilities costs.

Ben Mount stated that utility bills will be split evenly by the number of slips, so the vacant slips would be paid for by Legacy Partners.

Commissioner Montgomery inquired about the concessions offered for seniors.

Ben Mount replied that when seniors and veterans return to their renovated slips, they would get one month of free rent.

Chair Rifkin inquired about DBH’s contact person for this project.

Gary Jones responded that the property agent for Parcel 28, Wayfarer, is Linda Phan, and that she has been working with the tenants who has contacted the Department.

Edward Bell spoke about his floating home, which has been in the marina since 1994, and inquired if he can have it stay in the marina when he sells it.

Vice Chair Lumian responded that currently he is prohibited from doing so, and that he had previously asked staff to give a presentation regarding this topic.

Steve Penn replied that there will be a presentation on this topic today.

**Item 4 – Communication with the Commissioners**

Vice Chair Lumian disclosed his communication with Steve Kern, who hopes to have dragon boat racing in the marina.

Chair Rifkin stated his attendance at the Los Angeles County Commissioners Network Forum and was briefed about the annual reports requirements which was developed by the Executive Board office.
Chair Rifkin asked that this item be presented at a future meeting in order to obtain public input and approval before the December deadline.

Gary Jones responded that recently the Executive Board Office who has oversight of all the County Commissions developed guidelines to assist the commissions to produce an annual reports. Essentially the report is a compile of all the meetings, items that was discussed, and actions taken. Mr. Jones proposed that staff provide a draft report to be presented to the Commission for review.

Chair Rifkin mentioned how this document could provide direction for the next chair.

Vice Chair Lumian asked to have the Beach Commission’s annual report emailed to the Commissioners.

**Item 5a – Marina Sheriff**
No reports were presented.

**Item 5b – MdR and Beach Special Events**
Carol Baker reported on a number of summer events, including the summer concerts series which has drawn 2,000 to 3,000 people per concert. Lalah Hathaway brought in 9,000 attendees.

**Item 5c – Marina Boating Section Report**
Michael Blenk reported that Anchorage 47 has 5 vacant slips. Parcel 77 power boat storage is full, and Mast-Up storage has 41 spaces available for sail boats up to 31 feet.

Chair Rifkin asked if he had a response to comments about not having available boat slips.

Michael Blenk replied that a lot of the boaters are having difficulty locating slips that are 30 feet and above.

Gary Jones responded that before any anchorage replacement project begins, there is a minimum number of available slips threshold that needs to be met in both the 30 foot and under, and the 31 – 35 foot category.

Michael Blenk clarified that his report was only for Anchorage 47.

Vice Chair Lumian asked who compiles the report.

Gary Jones replied that DBH is responsible for compiling the report.

Vice Chair Lumian stated that even if the numbers are allowed by the Coastal Commission, there is still a shortage of slips in the marina and further requested that the Department does whatever it can to assist boaters. He further inquired about the pump out stations at the public dock.
Gary Jones clarified that the pump out station which the constituent referred to was for the Wayfarer’s dock project, not the public docks.

Vice Chair Lumian stated he hopes to see more pump out station installed around the marina.

**Item 6a – March Night Meeting Public Comments Summary**

Steve Penn presented the report.

Chair Rifkin stated that he found the report very useful as it summarizes the goals set in the strategic plan. He suggested that the report be attached to the Commission’s annual report.

Gary Jones concurred and congratulated the Commissioners on undertaking the process.

Vice Chair Lumian expressed his appreciation for the night meetings and stated that there is a need to formulate a plan which addresses some of the common issues, specifically lack of boat slips and room to expand waterside businesses. He suggested that the discussion of the future use of the Palawan building be conducted at a night meeting. He also expressed concern about the SUP issue and suggested that the Department implements something similar to what Long Beach is doing.

**Item 6b – Water Quality and Access Improvements Presentation**

Penelope Rodriguez and Carol Baker provided the PowerPoint presentation.

Commissioner Montgomery stated that he liked the presentation and suggested that staff provide a contact information page at the end of the presentation.

Vice Chair Lumian inquired about the Sea Scout base, and requested a future tour.

Penelope Rodriguez replied that DBH is currently working on obtaining the final Certificate of Occupancy (COO) for the Boathouse. She further stated that once they obtain the necessary certificate, the building will be made available for event reservations.

Vice Chair Lumian request to have a presentation on the intended use of the building before it opens. He express that the building should be used for helping children and not for rentals.

Gary Jones stated that upon completion of the building, he will invite the commission for a tour or perhaps host the Commission meeting in the building, and at which time the presentation can be made.

Vice Chair Lumian asked if the Commission would have a chance to comment on the intended use before it goes into effect.

Gary Jones replied that the use of the building would be similar to how the community rooms are ran at Burton Chace Park. It will be a public meeting place that will be available for rent, County programs, and will be home to the WATER Program.
**Item 7a – Policy #27 (Controlled Price)**

Steve Penn reported that this item is in response to questions regarding slip rate increases, and what kind of mechanism is in place in order to determine whether the new slip rates are unreasonable and within the market range.

Natasha Robinson provided the PowerPoint presentation.

Bob Atkins spoke about artificially raising fair market value of slip rates.

Captain Darrell Steffey expressed concern about the 55% liveaboard fee, and the high costs of apartments and hotels rooms around the marina.

Captain Alex Balian expressed concern with the automatic 3% increases per year.

Vice Chair Lumian asked where the process to initiate a complaint and investigation can be initiated.

Natasha Robinson replied that DBH takes complaints directly from constituents.

Vice Chair Lumain suggests that there be a centralized place where the public can go to file a complaint. He further inquired about the outcome of recent investigations.

Natasha Robinson responded that a recent complaint DBH received was about an issue at Mariners Village.

Gary Jones informed the Commission that the Board of Supervisors established a work group that is looking throughout the County at tenant protection, specifically for renters. He reported that the Board put forth a motion which would establish a rent control mechanism to limit annual rent increases. He further stated that if a rent control ordinance is passed, it will apply to all apartments in Marina del Rey.

**Item 7b – County Ordinance of Unseaworthiness**

Steve Penn stated that staff will provide a brief summary of the current County Code and history of the County Ordinance.

Ivy Bordenave-Priestley provided the PowerPoint presentation.

Captain Darrell Steffey spoke about the lack-of-purpose of said ordinance and requested that the clause be reviewed.

Bob Atkins expressed concern with how the floating homes are being regulated.

Vice Chair Lumian suggested that the ordinance be reviewed to see if it is still fitting for the marina.
Chair Rifkin agreed with Vice Chair Lumian’s request.

**Item 8 – Staff Reports**
Motion to mend the agenda to have items under Item 8 Staff Report moved to the next month’s meeting by Chair Rifkin, seconded by Commissioner Montgomery; unanimously approved.

Ayes: 4 – Chair Rifkin, Vice Chair Lumian, Mr. Montgomery, and Mr. Salazar

**Adjournment**
Chair Rifkin adjourned the meeting at 12:13 p.m.
SMALL CRAFT HARBOR COMMISSION MINUTES
September 12, 2018

Commissioners: Allyn Rifkin, Chair; David Lumian, Vice Chair; Dennis Alfieri (excused absence); Richard Montgomery; Nathan Salazar

Department of Beaches and Harbors (DBH): Gary Jones, Director; Steve Penn, Chief of Asset Management Division; Amir Tadros, Sr. Real Property Agent; Don Geisinger, Lease Specialist; Linda Phan, Real Property Agent; Kristal Ghil, Management Fellow

County: Amy Caves, Principal Deputy County Counsel

Item 1- Call to Order and Pledge of Allegiance
Chair Rifkin called the meeting to order at 10:03 a.m. and read the Commission’s policy on public comment. The Pledge of Allegiance was led by Deputy Ramos.

Item 2- Approval of Minutes

Motion to approve August 08, 2018, Meeting Minutes by Vice Chair Lumian, seconded by Commissioner Montgomery, unanimously approved.

Ayes: 4 – Chair Rifkin, Vice Chair Lumian, Mr. Montgomery, and Mr. Salazar

Item 3 – Communication from the Public

Captain Alex Balian expressed concern about the safety of standup paddle boarders in the marina and suggested providing users with navigational safety training.

Captain Darrell Steffey, Deborah Fox, and Gerry Percell requested a review of the liveaboard surcharge fees, along with the unseaworthy ordinance which prohibits the sale of floating homes.

Chair Rifkin noted that the affordable housing issue would be discussed further down the agenda.

Tima Bell expressed concern about the increase of slip fees and the lack of affordable housing in Marina del Rey.

Robert Van de Hook spoke briefly about his background in Marine Biology, and suggested that DBH reaches out to the federal government in order to increase the sea lion population in the Marina del Rey.

Edward Bell expressed concern about the restriction placed on selling his floating home. He suggested that the commissioners review and overturn said ordinance, which will then give him the ability to sell his home to a buyer within Marina del Rey.
Vice Chair Lumian stated that he would like to see a presentation on the ordinance pertaining to the transfer of floating homes in order to better understand it. He further elaborated that said presentation will give the commissioners an opportunity to make comments and recommendations to the Board of Supervisors (BOS). He also expressed concern about the increased slip fees, and requested an update on the recent death of the kayaker in MdR.

Richard Montgomery inquired if Legacy Partners’ promise for seniors and veterans was solidified. He mentioned that at a previous meeting, Parcel 28’s Lessee, Legacy Partners, offered seniors and veterans one month free rent when they return to their slips. He further inquired if they would be willing to offer any additional concessions.

Vice Chair Lumian stated that other harbors, including Wilmington, San Pedro, and Long Beach, charge roughly $200 a month for liveaboard fees.

Gary Jones addressed the unseaworthy ordinance, and stated that DBH is willing to meet with floating homeowners to better understand their needs and give them a better explanation of the rationale behind the ordinance. He also discussed rent stabilization, and announced that the BOS passed a motion that directs various departments to report back within 60 days with a temporary rent stabilization ordinance for apartment rentals in unincorporated counties, which includes MdR. He further explained the BOS requested from DBH to report back within 120 days on a permanent rent-stabilization ordinance for MdR apartments. Said report will involve the collaboration of apartment owners, and various stakeholders, including the Small Craft Harbor Commissioners. Gary noted that once certain projects are completed, there will be approximately 7,000 apartments in Marina del Rey. Some of these projects were built at various times and under existing exemptions which has a major bearing on whether they will have to comply with rent stabilization. Gary also elaborated on the existing liveaboard surcharge of 55%, and clarified that the surcharge is a not a policy set forth by the department, but rather a fee which is implemented by the lessees.

Steve Penn stated that DBH does not set the surcharge fees, but rather the lessees are the ones who decide on the surcharge rate for liveaboards.

Gary Jones further explained that lessees are not required to provide slips for liveaboards, therefore, the lessees can be deterred from renting to liveaboards if they required to lower their rates. He also mentioned that Mr. O’Brien from the Wayfarer project did commit to allow existing liveaboards to return to the anchorage after construction is completed.

Vice Chair Lumian thanked the director for his input and asked if the rent stabilization can be extended to the liveaboards in the Marina.

Gary Jones replied that the current Board motion does not include liveaboards.

Vice Chair Lumian asked if DBH has received any complaints from slip tenants regarding rent increases.
Steve Penn stated that DBH did not receive any waterside complaints regarding slip fees; however, his office did receive some complaints from landside tenants.

Vice Chair Lumian inquired about DBH’s contact person for complaints.

Steve Penn replied that his office handles all complaints and offered his business card to the public.

Nathan Salazar suggested looking into rent stabilization for the boaters.

**Item 4 – Communication with the Commissioners**
Commissioner Montgomery disclosed his meeting with Captain Darrell Steffey and Edward Bell regarding the unseaworthy ordinance. He further pointed out that Supervisor Janice Hahn sent her DBH Deputy, Mr. Jayme Wilson, to assist anyone who wants to further discuss the liveaboard issues.

Commissioner Salazar invited everyone to attend the 2018 Los Angeles County Dragon Boat Festival, sponsored by Supervisor Hilda Solis, at Santa Fe Dam Recreation Area on October 6, 2018 from 8:00AM to 4:00PM.

Steve Penn reported that on Tuesday, September 11, 2018 during the BOS meeting, Supervisor Hahn reappointed Commissioner Richard Montgomery to serve another term on the Small Craft Harbor Commission.

**Item 5a – Marina Sheriff**
Deputy Sheriff Nichol presented the crime statistics and liveaboard report.

Vice Chair Lumian inquired about the death of the kayaker that occurred in MdR harbor.

Deputy Sheriff Nichol stated that he cannot answer any questions pertaining to this matter as it is currently under investigation by the Sheriff’s Homicide Division.

**Item 5b – MdR and Beach Special Events**
Carol Baker reported on a number of successful summer events. She also announced the upcoming Halloween event, “Spooktacular”, along with the environmental education campaign for children.

**Item 5c – Marina Boating Section Report**
Michael Blenk reported that Anchorage 47 has 3 vacant slips, while Parcel 77, Power Boat Storage, is completely full. Mast-Up storage has 38 spaces available for sail boats up to 31 feet. He also announced the upcoming Vessel Lien Sale Auction on Thursday, September 12, 2018, at Anchorage 47, beginning at 11:00AM.

**Item 5d – Marina del Rey Convention and Visitor’s Bureau Report (CVB)**
Janet Zaldua reported the hotel occupancy rate from January to July 2018 was 86.2%. The average daily rate is $276/night. She further announced that the “Freeride Shuttles” in MdR are doing well; however,
the shuttles are in need of sponsorships in order to continue their operation. She also mentioned “Marina Funday,” which is a promotion to attract inland patrons to come out to MdR.

Chair Rifkin inquired about the dock-less scooters, “Lime” and “Bird”.

Janet Zaldua responded that the CVB has not taken any official stance on the matter.

**Item 6a – Old Business**

None.

**Item 7a – Parcel 113 (Mariners Village) Option for Amended and Restated Lease**

Don Geisinger provided the staff report.

Chair Rifkin stated that when the project was initially presented to the SCHC a number of years ago, it was a controversial topic due to the request to add slips along the main channel.

Don Geisinger replied that the slips are no longer part of the proposal.

Michael Tripp mentioned that the current project is completely different than it was first presented. He explained that the previous proposal requested an installation of a seawall to have a 28ft-wide promenade, a lot of tree removals, and additional height to the parking structure; none of which are now happening. The main renovation will be to the interior of the existing buildings.

Don Geisinger further explained that he purposely did not mention the changes because it’s a completely different deal. He instead wanted the Commissioners to focus on the financial part of the project because it is driven by the affordable housing component.

Michael Tripp mentioned that the major difference between the current renovation plans and the prior plans is the addition of 20% affordable housing units. The original plan did not include any affordable housing units, as it was not a requirement at the time. Currently the affordable housing policy in Marina del Rey, which was adopted in 2008, requires projects that are complete tear downs & rebuilds to provide 15% of their units to be affordable. The breakdown is as follows: 5% of the units for very low income households, 5% for low, and 5% for moderate income households. For renovation projects like the previously presented project, no affordable house was required. He further explained that in November 2016 the BOS asked DBH to review the existing policy for improvement opportunities. After reviewing the policy, DBH reported back to BOS that renovation projects should be included in the affordable housing requirement with a 20% mixed income.

Commissioner Montgomery asked for further clarification on the 18-months option term, and the minimum rent amount of $2,186,598.

Don Geisinger explained that once the option is granted by the BOS, there is a term of 18 months, with five to six term extensions, for the lessee to satisfy requirements before exercise the option. He also
explained the $2,186,598 amount was negotiated in 2016; however, the current minimum rent will vary only in a small amount.

Vice chair Lumian asked for clarification on “very low income” households.

Michael Tripp stated that while he does not have the exact figures off-hand, he explained that the calculation is based on the median income within the county, which is approximately a maximum of $30K annually per person. The rent will then be reduced to 30% of their base income.

Don Geisinger stated that rent will be approximately $500 to $600 a month for “very low income” households.

Glenn Wasserman, representative for Parcel 113’s Lessee, stated that he is available to answer any questions regarding the transaction. He explained that the affordable housing rent is 50% of the area’s median income. He further provided an example of a 3 person household with a maximum annual income of $43k, their rent would be 30% of the $43K.

Gary Jones stated that the lessee will be holding a meeting to provide the residence with the opportunity to address any of their questions or concerns. The lessee will be contacting the tenants to provide them with that information.

Susan Gumming requested the postponement of any action on this item due to lack of public notice and public review.

Ellen Klugman spoke against the endorsement of item 7a, and urged the commissioners not to endorse said proposal.

Marcia Hanscom expressed concern about the removal of allegedly diseased and damaged trees, and suggested having a process to determine a trees health. She also requested additional time to review the project prior to endorsement.

Richard Harmel requested that the item be postponed to a future meeting in order to allow enough time for stakeholders to address any questions or concerns.

Francine Ringold stated that she, too, agreed with the last four speakers and urged the postponement of said agenda item.

Robert van de Hoek requested that the endorsement be postponed because the property is a historic site and should be preserved to the standards of the historic society. He further expressed concern for wildlife in the Marina.
Lamont Roberts stated that while he agrees with the previous speakers about postponing the agenda item, he believes there has been significant progress from the initial proposal. He further stated that the promenade needs to be reviewed by Mariner’s Village tenants prior to endorsement.

Gretchen Nordham spoke about the importance of preserving the natural habitat for the wildlife in Marina del Rey. She further requested the postponement of this item.

Paul Lunce expressed concern about the commission’s responsibility being transferred over to the director of DBH. He suggested deferring items 7a and 7c on the agenda in order to give the public enough time to research the scope of work.

Rebecca Crandall stated that the neighborhood enjoys the trees and the blue herons at Mariner’s Village. She requested additional time to review the new plans before the commission endorses the project.

Michael Tripp clarified that the project will still need to be reviewed by Department of Regional Planning (DRP), Design Control Board (DCB), and the BOS. He further emphasized that the public will have a number of opportunities to address their comments, questions, and concerns. He also mentioned that the limits for the “very low income” households is as follows: $34K annual income for 1 person, $39K for 2 people, and $43K for 3 people. The rent amount charged for the unit is based on the unit size, and base income. For a studio at Parcel 113, the rent would be $606, a 1 bedroom would be $693, and a 2 bedroom would be $780.

Commissioner Montgomery asked when the project was initially presented and if there were any plans for the public review.

Michael Tripp replied that the project was initially presented at the Design Control Board (DCB) meeting in 2013. He further elaborated that the current project which is being presented before the commission, is completely different than what was presented in 2013.

Commissioner Montgomery asked if there has been any community outreach or presentations since the changes from the 2013 designs.

Michael Tripp replied that the SCHC meeting is the first step in doing public outreach. The public will have a chance to voice any questions or concerns at a number of upcoming meetings, including the DCB, DRP, and the BOS.

Allyn Rifkin asked if this current project requires a National Environmental Policy Act (NEPA) or California Environmental Quality Act (CEQA) clearance.

Michael Tripp replied that the project is exempt from CEQA due to its moderate renovations.

Commissioner Montgomery asked if this project has any type of federal requirements.
Michael Tripp replied that this project does not fall within the NEPA guidelines. He further stated that typically the only NEPA projects are the Army Corps projects.

Amy Caves clarified that the project has not been determined exempt from CEQA. The recommendation will be presented to the BOS in the board letter for a finding of exemption, so it will be determined by them on the hearing day.

Commissioner Montgomery asked about DBH’s tree-replacement policy, specifically about dead or diseased trees.

Michael Tripp replied that DBH’s policy on tree removal and replacement is one to one. He further explained that if the lessee chooses to replace their own trees, they would have to go before the DCB for approval.

Vice Chair Lumian asked about the time line of the proposed project.

Michael replied that plans have been already been submitted to the DRP, which typically take two weeks to review.

Gary Jones replied that he had intended to present this project to the BOS in October.

Vice Chair Lumian asked if the BOS presentation would be before or after the DRP review.

Gary Jones replied that the BOS would review the project after the DRP has reviewed it. The DRP would have to give their input on CEQA exemption before presenting to the BOS.

Michael Tripp stated that after the BOS adopts the recommendation, the project would be heard by the DCB in the following couple months.

Gary Jones stated that this project’s primary focus is the inclusion of the affordable housing component. He further elaborated that the lease is coming to an end, so the 18-month option which is being presented gives DBH time to negotiate and finalize the transaction.

Chair Rifkin asked Amy Caves what department has the authority to process the notice of exemption for CEQA.

Amy Caves responded that the recommendation would be processed by the DRP and then the notice of exemption would be subsequently filed after the BOS adopts the recommendation.

Chair Rifkin asked if the SCHC needs to have the determination of exemption of CEQA before they take action.
Amy Caves replied that only the BOS needs the determination of exemption; however, the public will have an opportunity to comment today and at the BOS’ hearing, which meets the public comments requirement.

Commissioner Montgomery asked if the DBH’s arborist’s report is current and posted online.

Michael Tripp replied that every year the County hires an outside consultant to conduct a tree analysis and the report gets posted online.

Commissioner Montgomery asked P113’s representative, Glenn Wasserman, if the lessee has viewed plans for the promenade as suggested by an earlier speaker, and if the lessee is open to holding public meetings for the existing residents to keep them informed.

Glenn Wasserman stated that the lessee has not viewed any plans for the promenade, as they are currently focused on getting an approval for an extension so that plans can be prepared. He also stated that they will have an outreach to the community and residents for their input.

Chair Lumian inquired if the project will be returning to the SCHC.

Don Geisinger replied that the project will not be returning; however, it will go before the DCB and Building and Safety.

Commissioner Montgomery asked if a postponement is even an option because of the time constraint.

Amy Caves clarified that it is not within the SCHC’s jurisdiction to postpone anything. She further explained that DBH has the discretion to go before the BOS without their advisory opinion.

Nathan Salazar asked if there will be a meeting with the residents before it goes to the BOS.

Gary Jones replied that he cannot answer on behalf of the lessee; however, Marsha Hanscom mentioned a future meeting with the residence. He also added the DBH staff is available to answer any questions the public may have, and that staff will provide assistance to the lessee with resident notifications of their outreach meeting.

Commissioner Montgomery stated that he hoped Glenn Wasserman relays to the lessee all of the public’s concerns, including concerns for diseased and dead trees.

Motion to approve by Vice Chair Lumian, seconded by Chair Rifkin, unanimously approved.

Ayes: 3 – Chair Rifkin, Vice Chair Lumian, and Mr. Montgomery
Abstained: 1 – Mr. Salazar

Item 7b – Parcel 47 (Santa Monica Windjammer Yacht Club) Approval of Lease Extension Agreement
Kristal Ghil provided the staff report and power point presentation.

Commissioner Montgomery inquired about the current rent rate and proposed rate.

Kristal responded that the lessee will pay $2,125 per month, which is $25,500 annually.

Steve Penn explained that the purpose of the recommendation is to preserve the yacht club’s activities so they can continue providing their services to the boating community in Marina del Rey. He further explained that the yacht club is currently on a month to month agreement, and it is DBH’s desire to provide them with a longer term lease of at least 6 years.

Vice Chair Lumian expressed his pleasure of the recommendation and inquired about the option’s likelihood of succeeding.

Kristal Ghil replied that the only instance the option would be prevented would be if the BOS determines a better use of the premises or if it interferes with that of another use.

Vice Chair Lumian requested that staff provide a presentation, at a future meeting, on the County’s Strategic Plan Goals to allow the Commissioners better familiarity.

Steve Penn replied affirmatively.

**Motion to approve by Vice Chair Lumian, seconded by Mr. Montgomery, unanimously approved.**

**Ayes: 4 – Chair Rifkin, Vice Chair Lumian, Mr. Montgomery, and Mr. Salazar**

**Item 7c – Proposed Amendment to Title 2 of the Los Angeles County Code To Delegate Authority to The Director of Beaches and Harbor to Lease, sublease, License, or Permit Harbors and Beaches.**

Linda Phan provided the staff report and power point presentation.

Mr. Montgomery asked if this proposal will return before the SCHC for authorization every five years.

Linda replied affirmatively.

Mr. Montgomery asked if there are any properties that lease for $7,500 per month.

Steve Penn explained that the proposed amendment will grant the Director the authority to sign agreements for up to $7,500/month. The delegation itself is good for a period of five years.

Chair Rifkin asked staff to specify the change from prior year
Steve Penn explained that Director Jones already has the delegated authority and is asking for a renewal. In addition to that, the proposed amendment would allow DBH to lease a property for county use, up to $7,500/month.

Mr. Montgomery asked county counsel for clarification on how this request would affect the SCHC’s review.

Amy Caves explained that the SCHC’s purview and authority is established by a separate county code which is not being nor will it be affected by this. This is just to extend Director Jones’ current authority to handle the smaller leases, licenses, and permits. She further elaborated that the amendment adds authority for the director to sign leases for third party properties, up to $7,500/month. The current county code does not have that, so the proposed amendment includes said authority.

Susanne Cumming expressed concern about the effects of this proposal. She further expressed concern about the lack of time available for public feedback on the Mariner’s Village project.

Captain Alex Balian inquired about the effects this delegation may have on the Treasurer and Tax Collector’s issuance of business licenses for charter companies.

Marcia Hanscom expressed concern regarding the proposed delegated authority. She requested the postponement of endorsement until the amendment is carefully reviewed.

Gretchen Nordham expressed concern about giving one person the ability to make all the decisions, rather than first having public input.

Robert Van de Hoek expressed concern regarding the delegated authority, and further stated that if endorsed, the Director will have the ability to lease out the parking lots on Fiji way without public input.

Commissioner Montgomery asked for clarification from county counsel regarding the delegated authority. He also clarified that the proposed delegated authority does not diminish SCHC’s review.

Amy Caves explained that the Mariner’s Village project would still have to go before the BOS, because the lease is for more than 5 years, is greater than $7,500 per month, and requires CEQA compliance or exemption.

Vice Chair Lumian asked for examples of projects under $7,500 per month.

Amy Caves replied that special events, including the “Jam Sessions” from the Community and Marketing Services Division, is an example, as long as they are paying less than $7,500 a month.

Chair Rifkin asked Steve Penn how this would pertain to the parking lots located on Fiji Way.
Steve Penn explained that there is an agreement between the California Department of Fish and Wildlife and the Chief Executive Office. He further stated that while he is aware of the concerns about the usage of those parking lot, he is not prepared to address those concerns as it is not an agenda item.

Chair Rifkin asked if there was any language in the delegated authority request that would prohibit the Director from referring something that’s controversial to SCHC.

Amy Caves clarified that the proposed amendment does not authorize the Director to bypass any controversial items from the SCHC. She further stated that the Director always has the discretion to take any matter to the BOS if it is not within the bounds of the County code provision on SCHC. If an items is deemed controversial and is within the bounds of the SCHC oversight, then it would come before the commission for endorsement.

Vice Chair Lumian stated that he would like to hear more about the parking lot situation at a future meeting.

Chair Rifkin asked if the delegated authority had any impact on the business licenses for charter companies.

Amy Caves replied that there is no impact and that the licenses referred to in the delegated authority, as the stated authority is only pertaining to the real estate context and not on business licenses.

**Motion to approve by Vice Chair Lumian, seconded by Mr. Montgomery, unanimously approved.**

**Ayes: 4 – Chair Rifkin, Vice Chair Lumian, Mr. Montgomery, and Mr. Salazar**

**Item 8 – Staff Reports**

Captain Alex Balian spoke about the importance of the staff reports. He suggested moving said agenda item to the front of the agenda.

Scott Ganary spoke about pump-out stations in Marina del Rey. He reported that many of the stations are broken and in need of repair.

Steve Penn presented the staff report.

Vice Chair Lumian stated that the pump-out stations still need work and requested to have the topic agendized for a future meeting. He asked staff for the contact person whom the public can report complaints and issues with the pump-outs in Marina del Rey.

Steve Penn replied that the contact person depends on the location of pump-out, some are managed by DBH staff, and some are by privately managed by leaseholders. He further stated that his business car is available for anyone to contact him to make any reports/complaints.
Vice chair Lumian requested the Palawan building be placed on an agenda, preferably at a night meeting to discuss the future use of the building.

Adjournment
Chair Rifkin adjourned the meeting at 12:43 p.m.
