MEETING LOCATION

Burton W. Chace Park Community Room

1. CALL TO ORDER AND PLEDGE OF ALLEGIANCE

Chair Jeff Duclos called the meeting to order at 9:37 a.m. and led everyone in the Pledge of Allegiance.

2. APPROVAL OF MINUTES

Chair Duclos asked for approval of the March 28, 2018, minutes. Commissioner Al Lay so moved; Commissioner Laura Emdee seconded.

The minutes were unanimously approved.

Ayes: 15 – Chair Duclos, Vice Chair Oschin, Bartlett, Beutler, Darling, Emdee, Furey, Lay, Levy, Olpe, Raymond

3. ANNOUNCEMENTS

Community and Marketing Services Division Chief Carol Baker announced that there were still opportunities available to attend the Quality and Productivity Commission's annual Leadership Conference on May 16, 2018. The topic is Censors and Sensibility - Leadership in an Age of Advancing Technology.

4. OLD BUSINESS

A. Offshore Oil/Gas Drilling

Ms. Baker introduced presenter Jocelyn Enevoldsen, Ocean Policy Analyst from Heal the Bay, to discuss the impacts of offshore oil and gas drilling along the California coast. She also noted the Commission's thank you letter to the Board of Supervisors acknowledging the Commission and the Board's stance against offshore oil and gas exploration.

Ms. Enevoldsen gave a PowerPoint presentation about the executive order by President Donald Trump to direct the Bureau of Ocean Energy Management to create an America First Energy Strategy—a plan to open up leases in federal waters for offshore drilling. She talked about potential damage to the marine ecosystem from seismic air gun blasting to tapping oil reserves and possible oil spills. She emphasized the likely negative impact of new drilling leases to the state's ocean economy versus the minimal positive effects.

Chief Deputy Director Kerry Silverstrom asked about the 43 active oil leases. Ms. Enevoldsen explained since the leases were acquired at different times, they would expire at different times. The new leases would be in different locations than the current ones.

Commissioner Robert Bartlett asked if the new drilling platforms would be placed further out than Catalina Island. Ms. Enevoldsen stated that the proposed plan is for federal waters, which are from 3 miles to 200 miles from the coast.

Chair Duclos asked if much had been discussed regarding the transport of the fuels from

the federal to state areas using tankers. Ms. Enevoldsen said that it is not an economical choice for the oil companies to use tankers to bring huge quantities of fuel to shore.

Commissioner Anthea Raymond asked what the timeline was for building a platform and infrastructure 150 miles offshore. Ms. Enevoldsen said that it would take about 10 years for production to start, but could be delayed.

Commissioner Bartlett voiced concerns about the effect of sonic air blasts on the California gray whales and the fishing industry. Ms. Enevoldsen said the air blasts are a more pressing threat than construction of oil platforms.

Ms. Enevoldsen urged the Commissioners to write letters supporting California Assembly Bill 1775 and California Senate Bill 834.

B. GLADSTONES UPDATE

Chief Property Manager Michael Rodriguez from the Asset Management Division gave an update on the request for proposals (RFP) process for the Gladstones property. He said that the Board approved the recommendation to enter into exclusive negotiations with PCH Beach Associates. He also stated that the Exclusive Negotiating Agreement is being drafted and an economic consultant will be brought in to assist with those negotiations.

Commissioner Raymond asked for more information about the search for the economic consultant, as well as any community outreach process concerning the design of the site. Mr. Rodriguez said the recommended proposer plans to do community outreach, but it is too early to start the process. Ms. Silverstrom said the Department's economic consultant will protect the County's interests in negotiating lease terms, and the proposer would hire a community outreach consultant.

C. VENICE BEACH CURFEW

Ms. Baker informed the Commissioners that the advocacy letter to the Coastal Commission regarding the Venice Beach curfew was completed. The item will be heard by the Coastal Commission in August. Chair Duclos plans to speak at the meeting. Ms. Baker said that Division Chief Michael Tripp from the Planning Division will also be attending. She invited Beach Commissioners to speak at the meeting as well. Beach Commissioners will receive more details when the item is placed on the Coastal Commission's agenda.

D. MEASURE A UPDATE

Executive Assistant Stefan Popescu provided an update on Measure A. He said that Measure A is in litigation, and the implementation committee's last meeting is scheduled for June. The appeals process for Measure A is expected to last two years. There will be no competitive grant cycle during the appeals period. The Regional Park and Open Space District will make the annual allocations available, but funding must be returned if the District loses the lawsuit.

The Competitive Grants scoring rubrics item is critical in determining who gets the funding, and has come back to the committee for the third time for review, with recent discussions involving community engagement requirements for projects, among others.

Ms. Silverstrom said the Department is not opposed to community engagement, particularly with park projects; however, she noted significant differences between park projects and beach facility projects. With beach facility projects, community engagement may result in unnecessary additions to projects that would be difficult to maintain. She noted that the Commission's engagement will assist the Department as it considers individual projects. She concluded by saying the beachgoers should have what they need—plain, basic, sustainable facilities that can be easily repaired.

Commissioner Raymond asked if money for line items in Measure A will be delayed for three to five years due to the lawsuit. Mr. Popescu said only the competitive grant funding will be delayed; however, if the Department receives any Measure A money and the lawsuit is lost, the Department must return the money. Commissioner Raymond asked if they were getting the line items now. Ms. Silverstrom said that the Department is not asking for funds now—it does not want to risk having to return the money. She said the Department has identified project priorities and will meet with the Board to discuss what projects can move forward using the Department's own resources. She noted that rent and parking revenue in Marina del Rey increases added a surplus of \$3.2 million to the current year's budget. The Department has asked for \$1.7 million back in order to start the design and scoping processes of the White Point/Royal Palms project.

Commissioner Raymond asked if using the Department's own money eliminates the community engagement process. John Kelly replied that the Department does community engagement on all projects that affect the community.

Commissioner Peter Olpe asked if unspent funds that are held for two years will become available in the third year. Mr. Popescu replied that if the District prevails in litigation, the funds will accumulate.

5. NEW BUSINESS

A. DESALINATION PLANT EIR

Ms. Baker introduced Erick Owens, Technical Resources Department Manager for the West Basin Municipal Water District, to discuss the Ocean Water Desalination Project.

Mr. Owens presented an overview of the Ocean Water Desalination Project Environmental Impact Report (EIR). The project calls for the construction of a desalination plant at the NRG El Segundo Generating Station. The plant would remove salt from ocean water, allowing for clean drinking water, and discharge the excess brine back into the ocean. Mr. Owens provided information about the EIR and planned public outreach meetings.

Commission Erin Darling asked if the discharged brine would be picked back up by the intake. Mr. Owens explained that the discharge and intake areas are far enough away

from each other that discharged waters return to ambient conditions by the time they arrive at the intake point or the shoreline.

Commissioner Raymond asked if there has been much pushback on the potable water aspect of the project. Mr. Owens said no. Unlike for recycled waste water, there is a state regulatory pathway for operating an ocean water desalination plant.

Commissioner Margaret Levy asked to hear more about the EIR's significance determination regarding the plant's impact on the marine life. Mr. Owens explained that only larvae smaller than one millimeter could enter the facility through the intake. A mitigation measure detailed in the EIR calls for funding projects that would make up for the loss of larvae. Additionally, the discharge area would have higher salinity levels, which could affect some marine life. Mitigation measures include financial contributions to recoup the lost productivity in the area. Mr. Owens also noted that per California Environmental Quality Act (CEQA) requirements, mitigation measures in the final EIR must be followed.

Commissioner Bartlett asked where any financial contributions resulting from impacts due to higher salinity levels would go. Mr. Owens replied that it remains to be determined, and the implementation will be worked out on a case-by-case basis with the state regulatory commissions and Coastal Commission.

Vice Chair Francine Oschin asked if West Basin had presented at the Board of Supervisors. Mr. Owens said that he has not talked with the Board; however, he is not opposed to communicating with the supervisors.

Ms. Baker asked about the impact of the output on the ocean discharge. Mr. Owens replied that the discharge is returned to ambient ocean conditions within 100 meters. Zita Yu, the Project Manager for the Ocean Water Desalination Program, added that hydro-dynamic modeling conducted found that the plume size for the return flow was well within the State's requirement of 100 meters. Using diffuser technology, the return flow would return to ambient conditions within 70 feet from the point of discharge.

Commissioner Darling asked what percentage of West Basin's portfolio would be produced by the plant. He also asked how West Basin would recoup their investment. Mr. Owens replied that the 20 million gallons produced per day would be 11 percent of the South Bay's water supply. The project would be paid for by ratepayer dollars; local, state and federal grants; and low-interest funding.

Chair Duclos expressed concerns regarding the proposed location. Mr. Owens replied that West Basin is aware of potential long-term, problematic issues regarding sea level rise and is looking forward to the Coastal Commission's comments regarding the issue. Ms. Yu added that under CEQA, the project proponent is required to evaluate the project's impact on the environment—not possible environmental effects on the project. Nevertheless, with sea level rise, there is a risk of potential flooding at the site during storms. The EIR recommends the site be evaluated for coastal erosion.

Commissioner Raymond asked when the impact of sea level rise will be seen. Ms. Yu

replied that published data is for a 100-year period; the project's service lifetime will be 30 years. Mr. Kelly clarified that sea level rise is a rising curve. Projects will be designed based on predictions and requirements imposed by the Coastal Commission.

Sgt. Brent Carlson, Harbor Master from the Los Angeles County's Sheriff's Department, asked if the EIR for the Poseidon Water facility in Carlsbad was available for review. Mr. Owens said that the Carlsbad facility was developed by a private developer, Poseidon, and permitted before the adoption of the Ocean Plan Amendment. Since then, Poseidon has released a supplemental EIR for its Huntington Beach facility. West Basin utilized public comments on that project to better inform its draft EIR.

Ms. Enevoldsen asked where the extra salt goes during the desalination process. Mr. Owens explained that when the ocean water goes through the reverse osmosis process, the salty leftover solution is discharged back into the ocean.

6. STAFF REPORTS

A. ONGOING ACTIVITIES REPORT

Ms. Baker submitted the written report.

B. BEACH AND MARINA DEL REY SPECIAL EVENTS

Ms. Baker submitted the written report. She highlighted the recent Earth Day event at the Dockweiler Youth Center and noted the upcoming Discover Marina del Rey and MarinaFest Boat Show events.

Vice Chair Oschin asked if people doing a beach cleanup would have to pay for parking. Ms. Silverstrom replied that usually the Board of Supervisors would approve a fee waiver. Coastal cleanup is considered a community service event, so the Director of the Department has delegated authority to reduce parking fees by 50 percent; however, a complete waiver would need to be approved by the Board.

C. BEACH PROJECTS REPORT

Division Chief Kenneth Foreman submitted the written report. Mr. Foreman said four beach projects will be completed within the next 30 days; any remaining projects will be carried over to the new fiscal year because the Department does not perform scheduled repairs during the busy summer months. He said that additional staff and shifts will be added for the summer months in order to help keep the beaches and restrooms clean for beachgoers.

Commissioner Bartlett asked about progress on the Royal Palms projects for the road and speed bumps, as well as repairs to the Point Fermin stairs. Mr. Foreman said that repaving the road will be included in a larger project that has not yet been scheduled. Regarding the Point Fermin stairs, Mr. Foreman said the Department has identified needed repairs and is coordinating with the City of Los Angeles.

D. LIFEGUARD REPORT

Assistant Chief Fernando Boiteux reported that all Lifeguard towers will be moved into place in preparation for Memorial Day Weekend. Also, Lifeguards participated in planning meetings to prepare for upcoming events such as Fiesta Hermosa and the Fourth of July. He added that the Junior Lifeguard program enrollment is up to 3,500 participants. Three more testing dates are scheduled, with one new location added in the City of Commerce.

Commissioner Bartlett asked if transportation for inner-city children is provided for Junior Lifeguards. Chief Boiteux said that transportation is provided where most needed in each District.

Ms. Silverstrom said that the Department has a contract with the Lifeguards for the Water Awareness Training Education and Recreation (W.A.T.E.R) program, which is specifically for children in underserved areas. Additionally, the Department works with the Board offices to select 50 children from their districts for District Days in the Marina on select weekends. Sailing programs are also available for the children. The Department is working on expanding programs into underserved areas and has contacted the Department of Children and Family Services and the Probation Department for potential partnerships.

Ms. Baker added that the Department runs the W.A.T.E.R program five days per week for school field trips, providing water safety education to about 6,000 children per school year.

7. COMMISSIONER COMMENTS

Commissioner Lay asked why the Department tore down the metal fencing at Surfrider Beach. Mr. Kelly explained that after many years of damage, the damaged chain-link fence was removed and will be replaced by black vinyl fencing.

8. COMMUNICATION FROM THE PUBLIC

There was no communication from the public.

The next Beach Commission Meeting is scheduled for May 23, 2018, at **BURTON CHACE PARK COMMUNITY ROOM located at 13650 Mindanao Way, Marina del Rey, California, 90292.**

PARKING CONTRACT'S MYSTERY SHOPPER PROGRAM**

The Department's contract with Modern Parking, Inc. (MPI) to provide parking lot management services at County beaches and in Marina del Rey includes a performance/customer service based incentive using a Mystery Shopper Program. MPI can earn up to \$25,000 annually based on the cumulative average score of six monthly mystery parker visits at various parking lots.

MPI earned 100% of the incentive bonus for the first, shortened, eight-month contract year that ended on March 31, 2018, receiving an average score of 95% from 48 mystery shops performed by vendor Servimer. MPI received a prorated amount of the annual available \$25,000 incentive in the amount of \$16,667.

BOARD ACTIONS ON ITEMS RELATING TO BEACHES

On April 24 2018, the Board approved the appointment of Candace Nafissi to the Los Angeles County Beach Commission.

On April 24, 2018, the Board waived \$4,400 in parking fees for approximately 100 vehicles for a walkthrough on May 12, 2018, and 100 buses and 300 vehicles for May 24, 2018, at Dockweiler State Beach, excluding the cost of liability insurance, for the Malibu Foundation's "Kids Ocean Day Adopt-A-Beach Clean-Up."

On May 1, 2018, the Board waived the \$10,575 gross receipts fee, which is 15 percent of the estimated gross receipts, at Manhattan Beach, excluding the cost of liability insurance, for the LA FOOD Bowl sustainable seafood event hosted by Outstanding in the Field and the LA Times on May 24, 2018.

On May 1, 2018, the Board authorized settlement of the matter entitled Atziri Olivo, et al. v. County of Los Angeles, et. al., Los Angeles Superior Court Case No. BC 502 929 in the amount of \$985,000 and the settlement warrant to be issued by Auditor-Controller from the Department of Beaches and Harbor's budget. This lawsuit arose from injuries sustained by a toddler when she stepped into a fire ring on Dockweiler Beach.

On May 8, 2018, the Board waived the \$250 permit fee and \$70 in parking fees for 10 vehicles, at \$7 each, at Veterans Park in Redondo Beach, excluding the cost of liability

insurance, for the Pregnancy Help Center's 31st Annual Walk for Life event on May 19, 2018.

On May 15, 2018, the Board authorized the Director of Beaches and Harbors to award and execute master agreements with Culbertson, Adams & Associates, Inc.; Dudek, Environmental Intelligence, LLC; and Michael Baker International, Inc., for As-Needed California Coastal Commission Consultant Services, for an initial three-year term with four one-year extension options, effective upon execution, at an annual aggregate amount not to exceed \$140,000 or a maximum amount of \$980,000.

SUPERVISORIAL DISTRICT 3

Nicholas Canyon Beach Bluff Stabilization Concept Design – \$110,000

The project includes development of a concept plan to remove the existing facilities at the end of Nicholas Canyon Beach, including the restrooms and septic system, and picnic area adjacent to restrooms; and slope stabilization.

Status: The Department is reviewing the revised concept plan. Once concurrence is reached, funding to develop the plans and perform construction will be sought.

Zuma Beach Water Line Replacement – \$1,500,000

The scope of work includes abandoning the existing water line; adding a new line for the eight restrooms and a parking kiosk; and installing two new backflow devices.

Status: Project is scheduled to be completed in May 2018.

Zuma Beach Restrooms Renovation (#6 and #8) – \$1,000,000

The scope of work includes repairing the damaged block; removing and installing a new tile roof; replacing the existing floor and wall tiles; installing new toilet and sink fixtures; and installing new partitions with benches and grab bars to comply with the Americans with Disabilities Act.

Status: Project is scheduled to begin fall 2018.

Zuma Beach Sewer Liners Installation – \$82,000

The scope includes installing liners in the sewage lines from restrooms #1 – #9 to the septic system.

Status: Project to be reviewed by CEO for funding and approval.

Zuma Beach Concession Window Covers Repair – \$200,000

This project is to replace three (3) metal roll-up window covers; swamp cooler equipment; and doors for two (2) food concession buildings.

Status: Project to be reviewed by CEO for funding and approval.

Point Dume Beach Restrooms Replacement (#1 and #3) – \$1,000,000

The scope of work includes demolishing existing buildings; installing new prefab restrooms; and tie into existing utilities.

Status: Project is scheduled to begin winter 2019.

Dan Blocker Fence Replacement – \$80,000

The scope of work includes removing existing fence fabric; replacing all posts with poly-coated posts; and installing new poly-coated fence fabric to help protect beach patrons from entering the parking lot from steep terrain.

Status: Project is scheduled to be completed in June 2018.

Malibu Surfrider Restroom Renovation – \$179,000

The scope includes replacing old plumbing fixtures with more efficient fixtures; replacing the partitions and benches; adding hand dryers; replacing the doors and tile; repairing the damaged sewer laterals; refinishing the floors; and painting the interior and exterior of the building. Compliance with the Americans with Disabilities Act will be addressed during the construction.

Status: Project is scheduled to begin fall 2018.

Malibu Surfrider Fence Replacement – \$88,000

The scope of work includes removing existing fence fabric; replacing all posts with poly-coated posts; and installing new poly-coated fence fabric to help protect beach patrons from entering the parking lot from steep terrain.

Status: Project is scheduled to be finished in May 2018.

Topanga Beach Restroom Renovation – \$150,000

The scope includes replacing old plumbing fixtures with more efficient fixtures; replacing the partitions; adding hand dryers; replacing tile; and painting the interior and exterior of the building.

Status: Project has been completed but has punch list items due to be completed this month.

Topanga Beach View Pier Stairs Replacement – \$125,000

The scope of work includes developing a set of plans; removing the existing stair structure; and installing a new one.

Status: Project is scheduled to begin fall 2018.

Venice Beach Lifeguard Headquarters Feasibility Study – TBD

Project involves development of feasibility study to determine the scope for the lifeguard tower and refurbishment of building.

Status: Project is currently on hold until funding is identified and secured.

SUPERVISORIAL DISTRICT 4

Dockweiler Beach Water Line Replacement – \$645,000

The scope of work includes abandoning the existing water line and adding a new line, a new water main, and a second meter for the RV Park. The new water main will serve the Lifeguard station, the entrance kiosk, and the irrigation system from the existing meter to the facilities.

Status: The County's Internal Services Department (ISD) is preparing the documentation required by the County's CEO staff, and the project is scheduled to begin fall 2018.

Dockweiler RV Park Expansion – \$1,965,000

Project includes expansion of RV Park to provide campervan campground spaces, including ADA accessibility.

Status: A hearing with the Coastal Commission will be set within the next two to three months for the project's coastal development permit approval.

Redondo Beach Restroom Renovation (Topaz) – \$275,000

The scope of work includes repairing the block; removing and installing a new tile roof; replacing damaged fascia; replacing the existing floor and wall tiles; installing new toilet and sink fixtures; and installing new partitions with benches and grab bars to comply with the Americans with Disabilities Act.

Status: Project is scheduled to begin fall 2018.

Torrance Beach Restroom Renovation (Burnout) – \$250,000

The scope of work includes removing and installing a new tile roof; replacing vent grid; replacing the existing floor and wall tiles; installing new toilet and sink fixtures; and installing new partitions with benches and grab bars to comply with the Americans with Disabilities Act.

Status: Project is scheduled to begin fall 2018.

Torrance Lifeguard Station Restroom Renovation – \$300,000

The scope of work includes repairing the damaged block; removing and installing a new tile roof; replacing the existing floor and wall tiles; installing new toilet and sink fixtures; and installing new partitions with benches and grab bars to comply with the Americans with Disabilities Act.

Status: Project is scheduled to begin winter 2019.

White Point Sewer Connection – \$820,000

This project will connect the public restroom at White Point via 500 lineal feet of the force main to a nearby trunk sewer. The former sewer line was disconnected due to a landslide that occurred in November 2011.

Status: Construction documents are currently being developed by County Department of Public Works. Construction is anticipated for winter 2019.

White Point Park General Improvements – \$41,000

Project involves development of a concept plan that will include replacement of existing walkways, refurbishment of existing restrooms, replacement of landscape area, new lighting, new signage, and parking lot improvements for ADA compliance and storm drain upgrades.

Status: Concept plans are currently being developed by County Department of Public Works. A revised concept plan is due to DBH by the end of May 2018.
