Proposed Project

The Bicycle Master Plan proposes a vision for a diverse regional bicycle system of interconnected bicycle corridors, support facilities, and programs to make bicycling more practical and desirable to a broader range of people in the County. It is intended to guide the development and maintenance of a comprehensive bicycle network and establish a set of programs throughout the County's unincorporated communities for the next 20 years.

Environmental Document

The County of Los Angeles, as the lead agency through its Department of Public Works, has completed the Draft EIR for the Bicycle Master Plan and issued a Notice of Availability on August 9, 2011. **The County previously extended the public review and comment period for this Draft EIR which started on August 9, 2011, through November 10, 2011.** The Draft EIR is available for review at the Department of Public Works, Programs Development Division, 900 South Fremont Avenue, 11th Floor, Alhambra, California 91803.
