Be in the process of receiving an undergraduate degree	Xamarin	<b>Public Health</b> 3530 Wilshire Blvd. Suite 800, Los Angeles, CA 90010
1193	Parks and Recreation	Assist the Capital Project Group of the Planning and Development Agency with various project management tasks, including but not limited to: preparation of graphics, note taking at meetings, review of plans, product research, and the outreach/engagement for a playground project.	Landscape Architecture, Project Management or Construction Management	C Sharp	<b>Parks and Recreation</b> 1000 South Fremont Avenue, Alhambra, CA 91803
1194	Parks and Recreation	Assist the Landscape Architecture and Design Section of Planning and Development with various landscape architectural tasks, including but not limited to: site analysis, preparation of graphics, community meetings, review of plans, drafting and product research.	Landscape Architecture	.NET	<b>Parks and Recreation</b> 1000 South Fremont Avenue, Alhambra, CA 91804
1196	Capital Project Assistant	Assist the Capital Project Group of the Planning and Development Agency with various project management tasks, including but not limited to: preparation of graphics, note taking at meetings, review of plans, product research, and the outreach/engagement for a playground project.	Landscape Architecture, Project Management or Construction Management	Business Process Automation (BPM) or workflow solutions	<b>Parks and Recreation</b> 1000 South Fremont Avenue Alhambra, CA 91803
1197	Landscape Architecture	Assist the Landscape Architecture and Design Section of Planning and Development with various landscape architectural tasks, including but not limited to: site analysis, preparation of graphics, community meetings, review of plans, drafting and product research.	Landscape Architecture	Ability to provide simple hand graphics as needed. Ability to work with little supervision on tasks assigned by the Landscape Architecture and Design section. Excellent customer service skills required. Ability to assist with public meetings and workshops.	<b>Parks and Recreation</b> 1000 South Fremont Avenue Alhambra, CA 91804
1200	Department Facility Inspection App	The Department of Public Health's Risk Management (RM) Division is charged with developing, implementing, and enforcing occupational safety and health programs. As part of ensuring compliance with rules and standards established by the Division of Occupational Safety and Health (DOSH), RM is required to conduct periodic facility inspections to identify hazards present in the workplace and to analyze accident, incident, and injury data to identify trends and prevent re-occurrence. RC currently does not have an efficient way to track the corrective actions required on work sites in time to mitigate injuries and illnesses in the work place.  The purpose of the project is developing a Facility Inspection application to:  * Automate facility inspections process * Improve hazard evaluations and data analysis * User geographic information system services to visually represent hazard incidents and efficiently schedule inspections * Have an ability to review hazard findings and control for corrective actions timely, thus Worker's Compensation claims and incurred cost would be reduced * Have an ability to generate inspection and incident reports * Have ability to persist new inspection data (no editing of the existing records) when connectivity is not available and recall it for submission once connectivity is available	Fields related to Engineering, Computer Sciences or Information Technology	The following technology knowledge would be required: • ASP.NET MVC • C# • SQL (Transact-SQL)  The following experience would be required: • Development of a ASP.NET MVC web application • Basic knowledge (or willingness to learn) of map GIS service integration	<b>Public Health</b> 5555 Ferguson Drive Commerce, CA 90022
1221	Asset Migration Project	The Registrar-Recorder/County Clerk (RR/CC) is exploring the feasibility of migrating the departmental asset management system into the election devices asset management system. The RR/CC seeks the assistance of an academic intern to: • Identify and document the requirements of the department asset management system • Identify and document current workflows • Identify and document new workflows • Identify and documents all possible assets for migration • Identify and document estimated costs • Create analysis and recommendation document detailing the work required, estimate costs and ongoing maintenance if the RR/CC were to pursue the migration • Present findings to RR/CC management	Student must have a concentration in Computer Information Systems (CIS), Computer Science, or closely related concentration.		<b>Registrar-Recorder/County Clerk</b> IT Bureau 12400 Imperial Hwy. Norwalk, CA 90650
1222	Scheduling System Administrator	The Registrar-Recorder/County Clerk (RR/CC) currently uses a scheduling software to manage and schedule over 1,000 employees during the election. The academic intern would: • Document a workflow for effectively creating and updating user accounts • Create and manage user accounts across the department • Manage user registration portal • Configure system based on upcoming election information, including locations and sitewide settings • Manage scheduling and route uploads • Manage sitewide communications • Manage weekly timecards creations and approvals • Provide technical support as needed to department users • Provide departmental training sessions as needed • Create weekly reports for Human Resources and IT managements	Student must have a concentration in Computer Information Systems (CIS), Computer Science, or closely related concentration.		<b>Registrar-Recorder/County Clerk</b> IT Bureau 12400 Imperial Hwy. Norwalk, CA 90650
1223	Tenable Vulnerability Scanning Project	Tenable is vulnerability scanning software that the Registrar-Recorder/County Clerk (RR/CC) is implementing to scan the network and ensure the department is following security policies. The selected academic intern(s) will: • Deploy the security solution to the entire RR/CC enterprise • Identify and document all devices to be scanned • Scan devices on entire RR/CC network • Create report with action plans and recommendations for all devices that are in and out compliance, based on: o NIST Framework o Operating System o Asset types • Meet with system owners to review compliance report • Set timeline for compliance • Reassess through scan that recommendations for compliance were implemented • Create a scan schedule that will generate a report to identify service owners out of compliance • Document process and report to DISO/CIO/Chief Deputy • Post to RR/CC document repository	Student must have a concentration in Computer Information Systems (CIS), Computer Science, or closely related concentration.		<b>Registrar-Recorder/County Clerk</b> IT Bureau 12400 Imperial Hwy. Norwalk, CA 90650

Project #	Project Title	Project Description	Possible Major	Critical Skills	Location
1226	Agricultural Comm/Weights and Measures	The expansion and completion of existing web application to replace legacy applications. The project will complete several modules of the web application using: ASP.NET MVC, Bootstrap, React, MS SQL Server, Power BI Desktop, and Power BI Report Builder. This web application is a multiagency solution and will be deployed in a Production environment.  The web application expansion will include completion of several modules with revenue generating components. The new expansion will continue to ensure all development is reactive and will accommodate phone, table, and computer platforms using Bootstrap and React. The new expansion will be required to generate reports and maps both online and printed.  Investigation into deploying the application from a server hosted environment to an Azure hosted application will be required.			<b>Agricultural Comm/Weights and Measures</b> Telework (remote)
1229	Communications Intern	Intern with the Department of Consumer and Business Affairs' (DCBA) communications team and provide remote support to the County's consumers, renters, homeowners, business owners, immigrants, and litigants. You'll have an opportunity to utilize written, design, and multimedia skills to inform the public about DCBA's robust suite of services.  Through the Communications Team, our intern will work alongside DCBA's communicators to develop innovative and effective ways to reach out to the public in plain language. We seek communicators with a positive, people-first spirit who can share and develop their skills. We communicate through the written word, video, and audio, including graphic and web design, in multiple languages across several website and social media platforms.		<ul style="list-style-type: none"> <li>* Excellent writing and public-speaking skills</li> <li>* Graphic design, web design, video editing, and/or social media skills</li> <li>* Compassionate</li> <li>* Motivated</li> <li>* Bilingual English/Spanish is a plus but not required</li> </ul>	<b>Consumer &amp; Business Affairs</b> Telework (remote)
1230	Administration Tech Support	Technical knowledge of setting up and installing computers and laptops. Soft skills required are good communication skills, flexibility, patience and problem solving.		Technical knowledge of setting up and installing computers and laptops. Soft skills required are good communication skills, flexibility, patience and problem solving.	<b>Consumer &amp; Business Affairs</b> 500 West Temple Street, Room 8-96 Los Angeles, CA 90012
1233	Temporary Dentures for People Experiencing Homelessness	Dental school interns will be providing temporary partial dentures to people experiencing homelessness or people who are socioeconomically disadvantaged in Los Angeles County. In addition the interns will be providing them with oral health education and list of low cost and no cost dental clinics near the project location. The purpose is to bring the dental services to the population that is experiencing homelessness, where they are, instead of having them go to dental clinics. The temporary partials will only replace missing upper and/or lower anterior teeth to improve esthetics and possibly phonetics. Dental students will fabricate and deliver the temporary partial dentures at the site. Dental students must work under the supervision of a faculty dentist.	Doctor of Dental Medicine Students	Dental student who have knowledge of dental anatomy and some clinical dental experience. Must have the approval from a dental faculty.	14330 Telegraph Rd Whittier, CA 90604
1236	Violence Prevention!!	The Office of Violence Prevention (OVP) seeks interns to work on various programs and initiatives that support our Strategic Plan priorities focused on supporting children, youth and families, creating cultures of peace, fostering safe neighborhoods and building capacity for healing informed policies, practices and systems.  Project activities will fall under one of OVP's core functions: (1) health education, programming, and community engagement, (2) research and evaluation, (3) policy and advocacy, and (4) capacity-building training and technical assistance. Sample duties may include: conducting research, assisting with community assessments, supporting the efforts of regional violence prevention coalitions, conducting outreach efforts, assisting with training and capacity building efforts, writing reports and preparing presentations, and working with community residents including youth and survivors to better understand needs related to violence, trauma and healing.	Education or course work in public health, psychology, sociology, anthropology, or social work preferred.	Interns will play a critical role in supporting OVP staff and requires individuals who are critical thinkers, resourceful, well organized and detail-oriented. Additional skills needed include strong oral, written, listening, and communication skills and the ability to engage with diverse populations, manage multiple tasks, and possess basic analytical skills.	<b>Public Health</b> 1000 S. Fremont Avenue, Alhambra CA 91803 Community Work in each Service Planning Area
1237	Anti-Racism Diversity And Inclusion (ARDI) - Graphic Design	Academic interns will provide graphic design services for the purposes of establishing a campaign that aligns and elevates the County's Antiracist Diversity and Inclusion (ARDI) strategic plan and policy agenda. Specifically, project assignment will entail: <ul style="list-style-type: none"> <li>* Deigning advertisement and marketing collateral, including placement</li> <li>* Create an ARDI logo</li> <li>* Update the ARDI's website to inform visitors who we are, what we're doing, why we're doing it and how we're going to do it. This includes drafting, leading the design layout and implementation, as well as translation.</li> <li>* Collaborate with various ARDI workgroups</li> </ul>		Webpage Design, Graphic Design, Adobe, Photoshop, Illustrator, XD & InDesign	<b>Chief Executive Office</b> Telework (remote)
1242	Public Policy Analysis and Research	<ul style="list-style-type: none"> <li>* Provide public policy analysis and research services for the Countywide Anti-Racism, Diversity, and Inclusion (ARDI) Initiative in support of LA County's Racial Equity Strategic Plan, Anti-Racism Policy Agenda, and various departmental equity programs, policies, and initiatives. Specifically, work will entail:</li> <li>* Conducting public policy analysis, including gathering, reviewing, and assessing government policies, programs, and procedures at the federal, state, and local levels</li> <li>* Collecting and processing quantitative and qualitative data to understand inequality and inequity in LA County, including racial disparities and disproportionalities as well as systemic barriers to wellbeing</li> <li>* Analyzing and studying measures of wellbeing and life outcomes across geographies, service populations, and various life experiences</li> <li>* Assist in the development of metrics and indicators to prioritize and score potential programs based on their impact in addressing racial disparities and advancing equity</li> <li>* Conducting comparative analyses of potential and existing policies and programs, including studying academic studies and research</li> <li>* Analyzing County services, initiatives, and programs to evaluate the County's services and determine how they are impacting people's lives</li> <li>* Researching and identifying best practices for eliminating implicit and structural bias and racism in systems including social services, health, child and family wellbeing, homelessness, and other public agencies</li> </ul>	Desirable majors: Business Administration, Public Administration, Public Administration, Public Policy, Public Health.	Undergrad and Graduate	<b>Chief Executive Office</b> Kenneth Hahn Hall of Administration 222 N. Grand Avenue Los Angeles, CA 90012  <b>Project Period:</b> Ongoing and remote work with flexible work schedule. Minimum of 10 hours per week and up to 30 hours per week.  <b>Internship Hours:</b> 8:00 am – 4:30 pm Monday-Friday (Flexible)
1244	Launch Summer Programs	Assist DPR's Public Information Office in drafting and reviewing talking points and press releases, developing and maintaining a social media planner and tracker, creating and updating a media contacts list, taking meeting notes, review social media and marketing materials for accuracy of information.	Experience working with journalists and the media, drafting copy for different materials, including social media post copy, and proofreading documents..	Good customer skills. Interested students should have experience conducting independent research, creating written materials, communicating key findings both orally and in presentation formats, and working independently with minimal supervision.	<b>Chief Executive Office</b>

Project #	Project Title	Project Description	Possible Major	Critical Skills	Location
1269	MSW Internship	Children's Medical Services provides preventive screening, diagnostic, treatment, rehabilitation, and follow-up services to meet the specific health care needs of children and youth with special health care needs and provides related resources. We are seeking a Master of Social Work intern to perform multi-level practice work: individual, group, and systemic interventions. Intern will apply multiple treatment modalities and social work theory/ frameworks to gain perspective and insight on patient / family dynamics. Intern will get experience with assessment, diagnosis, treatment planning, intervention, outcomes evaluation, and termination. Apply social work practices to multicultural populations. Interns will work on advocacy, resource referral, community needs assessment, evaluation, and documentation. Internship will provide macro skill development such as advocacy, evaluation, fundraising and development, grant writing, and program development.	Current enrollment in the Masters of Social Work program		<b>Public Health</b> 9320 S. Tebular Ave. El Monte, CA 91731
1272	Lead Poisoning Prevention Materials Management	Support CLPPP Health Education Unit (HEU) in related tasks: attending outreaches (e.g., information booths at health/resource fairs, attending food distributions, door-to-door, etc.), materials development (i.e., updating/revising existing materials, creating new materials [physical, digital, video], translating existing materials), assisting in health promotion campaigns (e.g., developing campaign materials, project coordination); materials management (i.e., assisting with inventory, fulfilling material orders, preparing for outreaches/presentations); assisting with projects for current partnerships; assisting with presentations to community members and/or healthcare/childcare providers; assisting with CLPPP hotline through health education and/or Spanish/other language interpretations; and creating lab orders for Blood Lead Testing through Quest Diagnostics for EXIDE communities. Special projects in public health program planning, implementing, monitoring, and evaluation may also be explored, including updating curricula, and analyzing activity results. Other tasks: attending presentations to learn more about the other units in CLPPP (Case Management, Epidemiology, Environmental Health) and how HEU collaborates with them; administrative/clerical duties include assisting with data entry and tracking, and outreach coordination.		Strong organizational skills; strong communication skills; familiarity with Microsoft operating systems as well as MS Office Suite; graphic design skills (some familiarity with Canva, experience with photoshop a plus); interest in accessibility and equity in public health.	<b>Public Health</b> 6903 S. Compton Ave Los Angeles, CA 90006
1273	Community Health Education and Health Promotion – African American Infant and Maternal Mortality Initiative - Graduate Level	This unique internship opportunity would center around addressing health inequities facing BIPOC (Black, Indigenous and People of Color) communities in the Antelope Valley (Service Planning Area 1) and San Fernando & Santa Clarita Valleys (Service Planning Area 2). As a member of the Community Liasing Team, the intern would primarily assist the regional/DPH leads in the facilitation of the regional Community Action Teams (AV AAIMM CAT and/or SPSCV AAIMM CAT). As part of the megaSPA 1&2 approach to address health inequities, the intern will closely collaborate with both CATs' leads. The CATs are part of the countywide AAIMM initiative that focuses on reducing the black-white infant mortality gap that exists in LA County by 30% within 5 years (we currently 4 years in). The CATs reflect an equal partnership between government, community-/faith-based organizations, and residents. In association with the functions of the community action team, the intern would focus on: * Developing/maintaining evaluation tools * Collecting and analyzing data, presenting results * Supporting the DPH/Community leads in the development/operations of workgroup(s) * Coordinating and leading/participating in community events, workshops, support groups * Pursuing grant development and funding opportunities * Analyzing and discussing health policy Since this a broadly supported initiative, there would also be opportunities to interact with local political leaders, activists, and community leaders. Should there be any interest, there is additional opportunity to engage in public health equity work in relation to the other high-risk communities residing with SPA 1&2. NON-ESSENTIAL FUNCTIONS: Assist with other community engagement efforts and COVID-19, Monkeypox, and other related projects, as time and interest allow.	The student must be actively enrolled in an MPH/equivalent program or doctorate program.	Prior Work Experience: Highly desired – one or more years of working in/with a non-profit organization, government, healthcare setting or community service-based organization in a role that required coordinating a project or program and/or interfacing with a team and general public. Prior work experience could be a combination of paid employment, volunteer work and/or other internship experiences. Other Knowledge, Skills, and Abilities: Strong interpersonal skills; an openness to learn and grow; virtual platform experience; experience with Microsoft products including Word, Excel, Outlook, PowerPoint; graphic design programs (e.g., Publisher, Canva); strong knowledge of Word and Excel preferred; knowledge of social media. Additional Requirement: Access to personal laptop and internet connection in the event teleworking is necessary. Access to transportation.	<b>Public Health</b> Virtual/teleworking (remote) option will be available. Physical office locations vary upon candidate's geographic location, including Antelope Valley Health Center (SPA 1: 335-B East Ave K6, Lancaster, CA 93535; SPA 2: Zev Yaroslavsky Family Support Center, 7555 Van Nuys Blvd, Van Nuys, CA 91405).
1276	Risk Management-Safety/Emergency	Gain the knowledge and experience for compliance recognition to federal, state, and Cal-OSHA standards, policies, and regulations. Contribute to the progressive understanding of how to appeal before the Occupational Safety and Health Appeals Board and the OSHA legal process by defining the process for Cal/OSHA inspections, citations, and penalties. Facilitate providing safety awareness and the impacts of risk management by comprehending workers' compensation and risk management processes to achieve common goal setting and accountability between employee relations. Collaborate to continue developing and implementing an effective Injury & Illness Prevention Program (IPP) and its eight key elements. Provide the support in helping with the administration and the development of the Department's emergency plans, protocols, and training that can impact the Department's mission and goal to provide world-class services.	Candidates must currently be a student in a Community College, or pursuing a Bachelor's or Master's degree at a College or University. Interns will report to the Department Risk Manager, Human Resources.	Communications, technical writing, Speech, Fundamentals of Occupational Safety and Health, Risk Management, Safety Engineering, Emergency Management, Homeland Security, Intro to Terrorism. Experience working with Outlook, Word, Excel, and PowerPoint. Comfortable engaging all levels of management. Good social skills.	<b>Parks and Recreation</b> Alhambra Headquarters 1000 South Fremont Ave Alhambra, CA 91803
1278	Health Education Administration Unit	The HEA Unit promotes health through effective health education communications, an empowered health education workforce, and successful partnerships. As a result, HEA manages several department-wide initiatives including dissemination and coordination of speaking requests through the Speakers' Bureau, assuring the quality of departmental educational materials, coordinating community engagement opportunities through National Public Health Week and the Community Ambassador program, processing department-wide translation/interpretation requests and conducting plain language training. Each activity works to improve the health education of the public through SPA activities, print materials and increasing resources for Health Educators to share. HEA seeks a Community Engagement intern to support HEA's community engagement efforts. Duties may include one or more of the following: developing data gathering tools (e.g. online surveys, focus group guides); building databases using Access or other software; entering and cleaning-up data; analyzing data using statistical software and methods; writing reports based on resulting data, and reporting results to key stakeholders; assisting with the development of new educational materials.	Public Health	Experience with interviewing and/or communicating health information. Experience with coordinating/planning community-based programming. Experience using computer software and database programs, including MS Office (Word, Excel, PowerPoint, and Access). Experience with data management.	<b>Public Health</b> Remote/Hybrid 214 N. Figueroa St Los Angeles, CA 90012
1279	Sexual and Reproductive Health/Gender Based Violence	Contribute to programmatic work around education, advocacy, and planning related to sexual and reproductive health, including abortion and contraception, and/or interpersonal violence, including intimate partner violence, sexual violence, and human trafficking, and the intersections of these issues with other public health topics. Work with staff on health briefs, infographics/fact sheets, survey development, trainings, reports/manuscripts, and/or event/conference planning. Track and analyze legislative and policy changes related to these issues. Graduate students preferred. Must include a cover letter with a resume.	Graduate students preferred.	MS Word, Excel, PowerPoint, Out/Preferred strong writing skills	<b>Public Health</b> OWH office – 1000 S. Fremont Ave Building A-9 East 5 <sup>th</sup> Floor Alhambra CA 91803
1280	Food and Water Safety Unit	Student intern will join an interdisciplinary team (Acute Communicable Disease Control (ACDC) Food Safety Unit) to support diverse and dynamic activities including foodborne disease surveillance and outbreak management. Duties include, but are not limited to: Rapid assessment of potential clusters; support field investigations as appropriate; support local and multi-jurisdictional cluster investigations, including conducting CDC standard interviews; assist with data entry/analysis of data collected from interviews; the student intern will receive career mentorship in epidemiology and public health throughout their internship. Looking for Masters level students or those who already completed their MPH. Minimum commitment of 20hrs per week for at least 6 months.	Epidemiology and public health.	Basic epidemiology, infectious disease/pathology-type class (e.g. immunology, genetics, biochemistry, molecular bio, etc.).	<b>Public Health</b> Remote and field-based
1281	Domestic Violence Housing Supportive Services (DVHSS)	Assist the Office of Women's Health with the programmatic administration, growth and sustainability of the Domestic Violence Housing and Supportive Services (DVHSS) unit, which includes stakeholder engagement; assisting with communication strategies, projects, tasks, and research related to domestic violence issues affecting the health and well-being of individuals, women, and their dependent children. An intern will analyze and collect data, develop PowerPoints, and use other electronic media to express results. Data skills a must. Duties and responsibilities will include: 1. Contribute to the planning, development and facilitation of meetings and conferences 2. Assist in the design and publication of updates or status reports, to provide current and important information and resources identified to address service gaps for DV survivors and service providers 3. Assist with a variety of projects, tasks and research that may include collecting, analyzing, and presenting data, infographics and trend information related to DVHSS issues. 4. Outreach and engagement with the Domestic Violence Council, organizational and community partners to assist in the development and support of DV survivor-centered resources to address intimate partner violence. 5. Engage with DV Council, other County departments, stakeholders, and community partners to help identify and develop communication strategies to address priority programmatic and public health issues related to DVHSS.	Possible majors or coursework include Public Health, Intimate Partner Violence and supervised experiences related to the co-occurring mental health, trauma and substance abuse affecting DV survivors and other areas such as: Women Studies, Social Work, Clinical Psychology, Counseling, Marriage and Family Therapy, Public Administration, Communications. Experience and knowledge in family counseling is helpful but not required.	Ability to make interdisciplinary connections, generate and/or assess solutions, and ability to communicate effectively with County staff and community stakeholders. MS Word, Excel, PowerPoint, Outlook, Teams, and survey software is desirable. generate and/or assess solutions, and ability to communicate effectively with County staff and community stakeholders. <b>Must include cover letter with resume.</b>	<b>Public Health</b> OWH office – 1000 S. Fremont Ave Building A-9 East 5 <sup>th</sup> Floor Alhambra CA 91803
1282	Office of Planning, Integration, and Engagement (PIE)	Los Angeles County Department of Public Health's Office of Planning, Integration, and Engagement (PIE) is responsible for building and managing multi-disciplinary teams focusing on resource development, strategic planning and integration, and community engagement. Housed in the Executive Office, the Director reports to the Public Health Director and works collaboratively with Executive Leadership Team, Program Directors, and community stakeholders to establish, support, facilitate, and coordinate public health initiatives. PIE consists of five units: Planning, Integration, Community Engagement, Education Sector Partnership and Programming, and Resource Development.	Undergraduate and Graduate students.	Interns and volunteers will have the opportunity to work on a diverse set of evolving projects based on the PIE Unit's needs and the candidate's interest. Sample duties may include assisting with planning, implementing, and evaluating public health programs and activities such as conducting research and/or assisting with internal or external assessments; conducting community outreach and working with community residents, participating in internal/external committees and/or collaboratives; and providing grant writing and management support. Additional skills needed include strong oral, written, listening, and communication skills and the ability to engage with a diverse group of stakeholders.	<b>Public Health</b> 313 N. Figueroa St., Suite 708, Los Angeles, CA 90012
1287	Environmental Health – Division Support Branch	Interns will collaborate with EH programs to update public information and assist in the development of training plans, training presentations, and guidance materials. Interns may also conduct research or surveys of other jurisdictions; review the accuracy of information/data on EH websites and within inspection databases; or assist Environmental Health programs to develop workflows to improve efficiencies. Interns may also receive exposure to the oversight and enforcement of state and local regulations as it relates to EH inspections.	Life Science, Environmental Health, Environmental Engineering, Public Administration coursework.	Data analysis, spreadsheet management, graphic design, public communication, word processing software.	<b>Public Health</b> 5050 Commerce Drive, Baldwin Park, CA 91706
1289	Environmental Health –Environmental Protection Branch	Interns will assist with inventory investigations, data review and digitization, and updating industry and public information documents. The intern may also receive exposure to the oversight and enforcement of state and local regulations as it relates to EH inspections.	Undergraduate students.	Life Science / Environmental health / Environmental engineering coursework, public administration.	<b>Public Health</b> 5050 Commerce Drive, Baldwin Park, CA 91706
1290	Social Media Intern	The Communications and Community Relations Team is looking for a social media intern to help manage the Division of Chronic Disease & Injury Prevention's social media accounts. This internship includes creating new content, posting and monitoring social media posts, editing social media content, and advising Team on social media trends. The intern will work with one manager on the Team to check in weekly, draft and edit social media content, and assist in posting content and monitoring content for the Division's social media accounts.	Undergraduate students.	Health communications, public relations, advertising, marketing, crisis communications, communications research. Desirable academic experience in health care, public health, political science, psychology, sociology, or science-related fields.	<b>Public Health</b> 5050 Commerce Drive, Baldwin Park, CA 91706 Remote work
1295	Obtaining Justice and Equity for Black women and their infants	The intern(s) will closely work with African American Infant and Maternal Mortality (AAIMM) Prevention Initiative South LA/South Bay (SLASB) Community Action Team (CAT). The intern(s) will support the SLASB AAIMM CAT with building a robust network of partners and community members in SPA 6 and 8. Additionally, the intern(s) will support the SLASB AAIMM CAT in identifying gaps in services for Black families in SPA 6 and 8. The intern(s) will support SLASB AAIMM CAT in creating a foundational document(s) that narrates the history of AAIMM, where we are now, and where the initiative plans to be in the future. Lastly, in efforts to better prepare the SLASB AAIMM CAT, the intern(s) will work on creating a crisis management protocol document to support Black birthing persons during an emergency. This opportunity will give the student experience with developing protocols, community outreach, and health promotion. The internship can be carried out remotely with opportunity to be involved in many community events. Course-credit and career mentorship is available.	Undergraduate students.	Interested in health disparities, specifically in infant and maternal mortality. Proficient in Microsoft Word, PowerPoint, and Excel.	<b>Public Health</b> Remote work
1297	Chronic Disease and Injury Prevention	Interns will be involved in developing/implementing policies, systems, and environmental change strategies/programs supported by the Division of Chronic Disease and Injury Prevention and the community-based organizations it works with. Examples of duties and responsibilities include, but are not limited to, supporting field-based opinion surveys for smoke-free tobacco policies, designing nutritional evaluations for county detention facilities, delivering presentations on tree-planting strategies for physical and mental health, utilizing social media for promoting physical activity and access to wellness programs, and evaluating program impact. Specific projects are assigned based on intern rankings, performance on interviews, their skill sets, and what a program needs.	Must be a student in a doctoral training program in a healthcare field - MD, DO, DDS, PharmD, other equivalent discipline.	Ideal candidates should demonstrate strong interpersonal, verbal and written communication, critical thinking and problem-solving, and program assessment skills.	<b>Public Health</b> 3530 Wilshire Blvd, Ste. 800 Los Angeles, CA 90010

Project #	Project Title	Project Description	Possible Major	Critical Skills	Location
1300	Los Angeles County Medical Examiner Decedent Service Unit (DSU) Internship Program for East Los Angeles College students only	<p>The Dept. of Medical Examiner investigates and determines the circumstances, manner and cause of all violent, sudden or unusual deaths occurring within Los Angeles County, including the City of Los Angeles, 87 other municipalities, and its unincorporated areas.</p> <p>The DSU Internship program seeks to provide college students with hands-on experience and understanding in the handling, transportation, processing, and disposition (release of) human remains at the Forensic Science Center. Students will be exposed to a variety of death scenes including homicides, suicides, drug overdoses, unowned decedents, and traffic accidents.</p> <p>The mission of the program is to offer students practical work experience given by a department Forensic Attendant, Senior Forensic Attendant, Supervising Forensic Attendant, and/or Medical Examiner Investigator. Students will have an opportunity to observe, contribute, and rotate through different parts of the Decedent Services Unit. They will also be able to observe other divisions at work. The opportunities will afford the student career connections, mentorship, and networking opportunities. The training is hands-on, constructive, and gives on-going feedback for personal and professional development.</p> <p>This is an unpaid, 160-hour volunteer internship for which students will receive Direct Studies Course credit through East L.A. College (ELAC). Should an intern want to continue as an unpaid volunteer for the department at the end of their 160-hour commitment, requests to continue to volunteer will be considered on a case-by-case basis. Daily duties include but are not limited to:</p> <ul style="list-style-type: none"> <li>* Answering phone calls and assisting callers while in the Decedent Services Unit.</li> <li>* Riding out to hospitals and field calls in a county vehicle to observe and assist with decedent removal.</li> <li>* Processing of decedents including decedent movement, documentation of physical characteristics (eye/hair color, etc.), clothing removal, fingerprinting, photography, and crypt assignment.</li> <li>* Releasing of decedents to mortuaries.</li> </ul>	<p>Applicants must be currently enrolled in ELAC Criminal Justice Program. Application is open to candidates who have a passion for public service and death investigation and are not easily bothered by or unsettled by the end of a life, including varying stages of a decomposing body. This person must be self-motivated, be a hard worker and exhibit attention to detail.</p>	<p>This internship requires participants to be able to perform arduous physical duties, to include moving decedents in excess of several hundred pounds and respond to any part of the County of Los Angeles at any time of year. This can include mountainous terrain in poor weather. Applicants will be required to obtain medical clearance from a physician in order to be issued a fit tested respirator. Respiratory protection is mandated by OSHA and enforced by the Los Angeles County Dept. of Medical Examiner's own respiratory protection policy</p>	<p><b>Medical Examiner-Coroner</b> 1104 N. Mission Road Los Angeles CA 90033</p>
1301	Los Angeles County Department of Medical Examiner's Investigations Division Internship Program for California State University, Long Beach students only	<p>The responsibilities of the Department of Medical Examiner (DME) include inquiring into and determining the circumstances, manner, and cause of deaths which fall within its jurisdiction. Deaths that fall under the jurisdiction of the DME are investigated by the Investigations Division. The Identifications Section, Notifications Section, and the Reporting Desk are included in this division.</p> <p>The Investigations Division Internship Program desires to provide an opportunity to interns to learn about medicolegal death investigation through a variety of assigned duties that may be available. Duties may vary, depending upon the current operational needs of the Division and the intern's assigned section. These duties can include:</p> <ul style="list-style-type: none"> <li>- Assisting at the scene of death under the direct supervision of an investigator.</li> <li>- Assisting with data collection and/or analysis.</li> <li>- Assisting with screening incoming calls for service to determine if a death falls within the Department's jurisdiction to investigate.</li> <li>- Learning and reviewing records and reports to identify details most relevant to perform a death investigation.</li> <li>- Any other duties as requested by supervising personnel.</li> </ul> <p>Although this is an unpaid internship that does not lead to permanent employment or include employee benefits, the position offers participants an excellent experience in working within one of the largest medical examiner's or coroner's offices. Interns will also be provided an opportunity to explore various career options, gain knowledge and skills that complement their academic studies, build resumes, and network with professionals in the medicolegal death investigation environment.</p>	<p>Those applying for an internship with the Investigations Division are expected to currently be enrolled at the California State University, Long Beach (CSULB) prior to the start of the internship and must be pursuing or have completed a bachelor's degree with specialization in administration of justice, health/physical sciences*, or nursing.</p> <p>*A health/physical science includes degrees such as a Bachelor of Science in anthropology, biology, biochemistry, physics, and chemistry.</p>	<p>Applicants to the internship program are strongly encouraged to be familiar with basic death investigation principles and/or physiology/anatomy, must be comfortable while interacting with the public both in person and by telephone, and must understand the importance of providing compassionate and professional customer service. Specific skill requirements will vary depending upon available projects and assigned sections. Basic computer skills are required. Applicants must be able to work independently, or cohesively with others, on projects as assigned.</p> <p>At times, this internship may require participants to be able to perform arduous physical duties which include generally moving decedents weighing more than two hundred pounds, traversing through mountainous terrain, working in inclement weather, being inside of residences in hoarding conditions, etc. Applicants will be fit tested and issued a respirator. Respiratory protection is mandated by the Division of Occupational Safety and Health (otherwise known as Cal/OSHA), and it is enforced by the Department's own respiratory protection policy.</p>	<p><b>Medical Examiner-Coroner</b> 1104 N. Mission Road Los Angeles CA 90033 Internships require 8 or more hours per week, up to a maximum of 160 hours in its entirety for the internship program. Schedules may vary, depending on specific tasks and intern availability. Hours may be scheduled 7 days a week (including holidays and weekends), between 06:00 AM to midnight, depending on the assigned section.</p>
1303	Community Protection Branch Policy Development	<p>The project involves development of procedures and systems aimed at strengthening organizational capacity to expand/expedite/enhance services to people experiencing homelessness. The intern would assist with development of databases, outreach materials, internal training documents and assist with surveys regarding homelessness. Additionally, the intern would assist with development of educational outreach materials focused on land use, environmental justice, and health equity.</p>	<p>Environmental Health or related major coursework.</p>	<p>Proficiency with Microsoft Access.</p>	<p><b>Public Health</b> 5050 Commerce Drive, Baldwin Park, CA 91706</p>
1304	Workforce Development	<p>Interns will work with the LA County Environmental Health Division's Workforce Development program in collaboration with various Environmental Health (EH) branches &amp; programs to organize training references for virtual, in-person, and asynchronous trainings covering a variety of EH topics. Interns will receive exposure to advanced EH study materials and become oriented with ongoing initiatives within Los Angeles County. Interns will assist with developing systems that track training completion for newly onboarded personnel as well as Registered Environmental Health Specialists, Industrial Hygienists, and administrative team members. Interns will additionally help in the development of training presentations, guidance documents, as well as recruitment materials. Interns may also analyze training evaluation statistics to help determine supplemental training &amp; learning needs, review the accuracy of information on LA County websites, and assist EH programs with improving efficiency. Interns will also receive exposure to the oversight and enforcement of state and local regulations as it relates to EH inspections.</p>	<p>Environmental Health, Environmental Engineering, Occupational Health, Life Sciences, Public Health, Public Administration, Organizational Development, Organizational Psychology, Education, Instructional Design, or Human Resources Management.</p>	<p>Basic or intermediate skills with software such as Microsoft Word, Outlook, Excel, PowerPoint, or Adobe Acrobat. Experience with other database management, visualization, and design software such as Microsoft Access, Teams, Power BI, Stream, Visio, Power Automate, or Clipchamp is preferred but not required.</p>	<p><b>Public Health</b> 5050 Commerce Drive, Baldwin Park, CA 91706</p>
1305	Environmental Health Emergency Planning	<p>The project involves development of procedures and plans aimed at strengthening Environmental Health's capacity to prepare for, respond to and recover from public health emergencies. The intern would assist with development of databases, outreach materials, checklists, internal training documents and assist with need assessment surveys.</p>	<p>Environmental Health or related courses</p>	<p>None required - Training provided.</p>	<p><b>Public Health</b> 5050 Commerce Drive Baldwin Park, CA 91706</p>
1306	Environmental Health/Lead Prevention	<p>LA County Department of Public Health Community &amp; Field Services, Service Planning Area 7 (SPA 7) plays an important role in addressing environmental justice equity in communities disproportionately affected by environmental impacts. SPA 7 supports and engages with residents in communities affected by the release of lead and other hazardous materials from the Exide Technologies Battery Plant. Under the direction of the Exide HPA SPA 7 interns will be given the opportunity to give presentations on lead exposure and prevention information to community based-organizations and residents, assist in developing new strategies to increase promotion of lead prevention services and support to medical providers and communities, engage in outreach activities at community events to promote and facilitate service linkages to residents, and conduct internal assessments of project goals and outreach efforts. Desirable skills include analytical skills, problem-solving, strong communication, and ability to work as a team with public health staff from various disciplines.</p>	<p>LA County Department of Public Health Community &amp; Field Services, Service Planning Area 7 (SPA 7) plays an important role in addressing environmental justice equity in communities disproportionately affected by environmental impacts. 1317	Leadership Development Program Administration Internships	Los Angeles Health Services Organizational Development, Leadership Development Program (LDP) is seeking several Leadership Program Administration Interns to learn about and support the organizational development efforts that serve 2,300+ managers and supervisors within the workforce of the second largest public healthcare system in the nation.  The Leadership Development Program Administration Interns will work closely with the LDP team members and learn how to design, implement, evaluate, and improve program efforts, as well as gain exposure to working within a public healthcare system. Interns will have numerous opportunities to explore, experience, and gain/strengthen skills that by supporting the coordination and management of learning and development program activities, including but not limited to: * Event coordination and logistics * Data collection and analysis, provide reports and engage team members and stakeholders on insights and recommendations * Develop and maintain communications and marketing platforms and activities including the program's website and newsletter * Interact with program faculty and alumni to gather stories, recommendations, and resources * Participate in process improvement recommendations and implementation efforts * Research leadership development topics for curriculum development and instructional design * Participate and support team in-services * Opportunities to refine facilitation and presentation skills * And other program efforts and operations  The Leadership Development Program (LDP) is part of the LA Health Services Organizational Development Dept. whose focus is to transform the organization through people. As LA Health Services continues its journey of transformation, managers and supervisors are positioned right in the center of it all—driving success across the organization, through challenges and changes too complex to be met with policy changes and directives alone. Their key role is to help staff make sense of these forces of change and enlist their talents and insights in determining how to respond to them, producing results that affect everyone. LA Health Services' Leadership Development Program recognizes that empowered, committed team leaders are central to the long-term success of our healthcare mission, and is committed to supporting those who provide the care to our workforce, our patients, and our communities.  Mission: To grow and strengthen our community of LA Health Services team leaders who are collaborating to engage and mobilize the creativity, resourcefulness, and human potential of our workforce.  Vision: To be recognized nationally as a model health system leadership development program and culture change catalyst.  The Leadership Development Program Administration Interns will learn principles, mindsets, skills, and techniques of Transformational Leadership; workforce engagement	Must currently be a student in a Bachelor's or Master's degree accredited program of study with specialization in Organizational Psychology, Psychology, Education, Social Work, Learning Development, Sociology, Marketing, Organizational Development, Business Administration, Public Administration, Public Health, or Health Education/Community Health Education.  Required Courses or Relevant Experience: * Project management and organizational skills * Event coordination and management experience * Analytical and problem-solving skills * Written and verbal communication skills * Interpersonal skills to effectively build relationships and collaborate with a variety of employees and business partners on work assignments * Research skills to compile information in useful formats and derive relevant findings on a range of topics * Experience with MS Suite: Outlook, PowerPoint, Word, Publisher, SharePoint and Excel skills	Interested students should possess: basic to proficient administrative skills, good written and verbal communication skills; strong organizational ability and great attention to detail; ability to work independently and within a team; proactive learning; research skills, strong reading comprehension, report writing, and customer service abilities. Basic to proficient data collection and analysis abilities, and project management skills.	<b>Health Services</b> 1000 S. Fremont Avenue Alhambra, CA 91803
1320	County of Los Angeles Department of Medical Examiner's Media Relations Social Media Content Creator Internship Program	The Dept. of Medical Examiner investigates and determines the circumstances, manner, and cause of all violent, sudden, or unusual deaths occurring within Los Angeles County, including the City of Los Angeles, 87 other municipalities, and its unincorporated areas.  Last year, the Department completed the final steps to remove "coroner" from its name to reinforce its role as an independent investigative agency, separate from law enforcement.  This internship within Media Relations will focus on creating content for our social media sites (Instagram, Twitter, Vimeo) that aligns with our current rebranding efforts to reintroduce the public to who we are and what we do. Posts will also be used as a recruiting tool for opportunities within the Department. Duties may also include working on the internal newsletter.  Internships require 8 hours per week, up to a maximum of 160 hours in its entirety for the internship program. Hours may be scheduled 8 a.m. to 4 p.m., Monday through Friday, excluding holidays. Although this is an unpaid internship that does not lead to permanent employment or include employee benefits, the position offers participants an excellent experience in working within one of the largest medical examiner's offices and will provide examples to be used in a portfolio. Interns will also be provided an opportunity to explore various career options, gain knowledge and skills that complement their academic studies, build resumes, and network with professionals in the medicolegal death investigation environment.	The Dept. of Medical Examiner's Media Relations are expected to be pursuing a bachelor's degree with specialization in social media marketing.	Applicants to the internship program are strongly encouraged to be familiar with social media and current posting trends and Canva, knowledge of MailChimp a plus, and the ability to create and produce engaging social media content with minimal supervision.	<b>Medical Examiner-Coroner</b> 1104 N. Mission Road Los Angeles CA 90033
1321	County of Los Angeles Department of Medical Examiner's Media Relations Graphic Artist/Designer Internship Program	The Dept. of Medical Examiner investigates and determines the circumstances, manner, and cause of all violent, sudden, or unusual deaths occurring within Los Angeles County, including the City of Los Angeles, 87 other municipalities, and its unincorporated areas.  Last year, the Department completed the final steps to remove "coroner" from its name to reinforce its role as an independent investigative agency, separate from law enforcement.  This internship within Media Relations will focus on creating a new logo for the Department reflecting its new name, along with designing new merchandise for the Department. Additional responsibilities include designing flyers for Department events and helping to design the internal newsletter.  Internships require 8 hours per week, up to a maximum of 160 hours in its entirety for the internship program. Hours may be scheduled 8 a.m. to 4 p.m., Monday through Friday, excluding holidays. Although this is an unpaid internship that does not lead to permanent employment or include employee benefits, the position offers participants an excellent experience in working within one of the largest medical examiner's offices and will provide examples to be used in a portfolio. Interns will also be provided an opportunity to explore various career options, gain knowledge and skills that complement their academic studies, build resumes, and network with professionals in the medicolegal death investigation environment.	Those applying for an internship in Media Relations are expected to be pursuing a bachelor's degree with a specialization in graphic design.	Applicants to the internship program are strongly encouraged to be familiar with Adobe Creative Suite (Photoshop, Illustrator, InDesign), Canva and MailChimp; have knowledge of basic design and composition concepts; the ability to create and produce creative and quality graphic design artwork with minimal supervision and independently create and producing a wide variety of artwork.  If applicant is unable to come into the office due to the proximity of where they reside, intern would have to use their own equipment to complete the assigned tasks.	<b>Medical Examiner-Coroner</b> 1104 N. Mission Road Los Angeles CA 90033
1322	Coastal Development Program Internship	Tasks will include, but are not limited to, the following:  •Assist with Coastal Development Permit processing and exemptions, business licenses referrals, and zoning verification letters. •Research and report on various legislative bills, coastal projects, and guidelines. •Attend staff meetings, district meetings, hearing officer meetings, and/or Marina Del Rey Design Control Board meetings. •Shadow planners to learn and understand GISNet. •Offer front counter support at Calabasas field office and counsel customers per Los Angeles County Code Title 22. •Conduct various site and/or field visits as needed.	Currently enrolled in an undergraduate program for Urban/Regional Planning or closely related field.		<b>Regional Planning</b> Calabasas Field Office 26600 Agoura Road Calabasas, CA 91302 Headquarters: 320 W. 1324	Master's Level Intern (Registered Nurse)	This project will provide a unique opportunity for a master's level registered nurse who is interested in exploring career opportunities in community field services. The intern will gain valuable insight while completing an academic internship in the response to communicable diseases in the community. The intern will focus on the public health assessment, planning, implementation, and evaluation of community health outcomes related to public health issues in SPA 2. Some examples of the intern's roles include: * Receives infectious disease reports. Contacts individuals to encourage and ensure treatment within an established timeline and in according to PH nursing practice manual and	Nursing	Master's level nursing courses, strong communication skills, analytical, good understanding of communicable diseases, phlebotomy skills. Able to communicate with clients on the telephone and conduct face to face interviews.	<b>Public Health</b> SPA 2 Glendale Satellite Office 101 South First St. Suite 302 Burbank, CA 91201
1325	Perinatal Hepatitis B Prevention - Case Management and Hospital Compliance Visit	Intern will work with the Perinatal Hepatitis B Prevention Unit to assess birthing hospital's compliance with recommendations to prevent perinatal transmission of hepatitis B. Activities supporting this project include but are not limited to communicating with birthing hospitals, monitoring data transfers, data entry, creating final reports and educational materials for hospitals and patients. Other duties include: * Develop communications for prenatal providers and community groups supporting pregnant persons. * Develop trainings for prenatal care providers and birthing hospitals. * Assist with coordinating hospital visits. * Develop communications for pediatric providers and community groups supporting infants and children. Update content for Perinatal Hep B webpage. * Provide case management services pregnant women with hepatitis B; follow - up with prenatal care providers. * Provide follow-up for infants enrolled in the perinatal hepatitis B prevention program.	Bachelor's, Public Health, Health Education, Nursing, Health Science, Health Policy	Candidates should possess excellent organizational, written and oral communication skills; exhibit dedication and great attention to detail; work effectively in team settings; be able to conduct research on evidence-based practice; and be knowledgeable of Microsoft Office software applications.	<b>Public Health</b> SPA 2 Glendale Satellite Office 101 South First St. Suite 302 Burbank, CA 91201
1329	County Cadastral Landbase Update (Landbase 2.0)	The Los Angeles County Cadastral Landbase (Landbase) is maintained and updated by the Mapping and Geographic Information Systems (GIS) Services Section of Survey/Mapping & Property Management Division of the County Department of Public Works. The Landbase is the foundation for the Department of Public Works' GIS mapping and application development to support the delivery of a wide variety of County services and the operation and maintenance of County infrastructure (transportation, water supply, sanitation, etc.). Interns will perform technical GIS related tasks to update the Landbase, which consists of property lines, easements, city boundaries, and rights of way. The main tasks involve creating polygon features from existing line segments in the Landbase and updating the attribute fields with relevant information. They will research and review subdivision maps to extract relevant information for creating and editing GIS data using Esri's ArcGIS Pro and related software. Additional tasks may include assisting with the creation and update of street names and house numbers/addresses in the County. This internship offers students attending an accredited 4-year college an excellent opportunity to gain valuable hands-on GIS experience and boost their resumes by working with one of the largest GIS organizations in the nation, and help them develop connections with other GIS professionals.	Geography, Geospatial Science, GIS, or Minor in GIS.	Required: Working knowledge of ESRI ArcGIS Pro, Microsoft Excel, and database design. Highly recommended: Experience with GIS functions such as summarize, merge, clip, and dissolve. Desired: Experience with SQL (SQL Server or MySQL) queries and configuring websites.	<b>Public Works</b> 900 S Fremont Ave Alhambra, CA 91803
1330	County Agreements Mapping Project	Los Angeles County Public Works is one of the largest municipal public works agencies in the United States, providing vital 21st Century infrastructure and essential services to more than 10 million people across a 4,000-square-mile regional service area.  Survey & Mapping & Property Management (SMPM), a division in the Los Angeles County Public Works Department, is seeking to develop a GIS database for tracking various types of agreements between the County and various agencies and jurisdictions.  The GIS database will enable Public Works' personnel to locate, track, query, and retrieve agreements and related documents associated with County projects and assets. These agreements are currently stored in separate and disparate formats and locations.  This project will include the creation of GIS data and maps as well as the development of web applications. Additional tasks related to this effort may include GIS data development, management, and deployment. This work will involve collaboration and close coordination with other Public Works Departments.	Geography, Geospatial Science, GIS, or Minor in GIS.	Required: Working knowledge of ESRI ArcGIS Pro, Microsoft Excel, and database design. Highly recommended: Experience with GIS functions such as summarize, merge, clip, and dissolve. Desired: Experience with SQL (SQL Server or MySQL) queries and configuring websites.	<b>Public Works</b> 900 S Fremont Ave Alhambra, CA 91803
1332	Administrative Support Intern	We are seeking motivated administrative interns to join our dynamic and mission-driven team. We are the Anti-Racism, Diversity, and Inclusion Initiative (ARDI) for the nation's largest county government, County of Los Angeles.  By joining ARDI, you will have the opportunity to gain hands-on and in-depth experience while contributing to the implementation of ARDI's strategic plan in one of the most exciting and fast-growing areas of public policy in LA County. ARDI provides an excellent learning environment for graduate students interested in Business Administration, Public Policy, Public Administration, and alike majors.  Academic interns will be coached by ARDI's administrative lead, while being exposed to a broad range of learning opportunities depending on the priorities of the department, as well as the graduate student's professional interests. The interns will have the opportunity to learn about multiple major areas of administrative services that are universally applicable to all County departments and most other governmental agencies. Sample activities include:  •Researching and supporting business process improvement efforts •Recommending improved process flow maps •Assisting with the development and/or enhancing standards of procedures •Supporting the budget process and tracking of expenditures •Researching on grant opportunities and supporting efforts to draft proposals •Recommending administrative standards of procedure •Assisting with implementation of project management, planning, and tracking tools •Researching on streamlined contracting and procurement opportunities  Our internship also provides opportunities for professional development and learning through brunch-and-learns, community outreach events, trainings, and presentations that give you the opportunity to learn from our dedicated teams leads, as well as your fellow interns. This is an unpaid internship.	Business Administration, Public Administration, Public Administration, Public Policy, Public Health. Undergrad and Graduate		<b>Chief Executive Office</b> Kenneth Hahn Hall of Administration 222 N. Grand Avenue Los Angeles, CA 90012  <b>Project Period:</b> Ongoing and remote with a flexible schedule; minimum of 10 hours per week and up to 30 hours per week.  <b>Internship Hours:</b> 8:00 am – 4:30 pm Monday-Friday (Flexible)
1333	African American Infant Mortality Public Health	The African American Infant Mortality (AAIMM) Public Health Internship is a graduate-level opportunity dedicated to addressing health disparities affecting Black communities, specifically focusing on reducing infant and maternal mortality rates. The AAIMM internship offers a unique chance to collaborate with the African American Infant and Maternal Mortality (AAIMM) Initiative in the South Los Angeles and South Bay region. The internship will support the South Los Angeles/South Bay AAIMM Community Action Team (SLASB AAIMM CAT). Key responsibilities include conducting research, survey design, developing program strategies, event and meeting planning, and creating educational and advocacy materials to engage community stakeholders. The internship will provide an opportunity to work on initiatives designed to address systemic inequities and improve access to care for Black families. Preferred candidates will have one or more years of experience in non-profit or community-focused work, strong organizational and communication skills, and a commitment to health equity. Access to a personal laptop, vehicle, and internet connection is required. The internship is primarily remote.	Master's		<b>Public Health</b> 123 W. Manchester Blvd. Inglewood, CA 90301
1334	Tuberculosis Control Health Education Unit	Under the guidance and supervision of the Tuberculosis Control Program Senior Health Educator and Health Educator, the intern will assist with planning and collaboration efforts related to local Los Angeles County Tuberculosis outreach. The intern will have opportunity to collaborate with external partners from California Public Health Department, Centers for Disease Control and Prevention (CDC), CA TB Controllers Association (CTCA), Coalition for a TB Free California, and other local jurisdictions. The intern duties include conducting outreach to engage current members in Coalition, recruiting new members to join the Coalition, World TB Day planning, editing health education materials, developing and editing TB Control resources on TB website, and assisting in specific outreach to community providers and community members.	Public Health, Community Health, Population Health, Public Health Promotion, Community Education.	Spreadsheet management, Microsoft PowerPoint, Adobe Acrobat, Verbal and written communication skills, Social media skills.	<b>Public Health</b> 123 W. Manchester Blvd. Inglewood, CA 90301
1335	Pharmacy Community Engagement	The intern will assist with various activities related to pharmacy practice, public health, and community engagement. They will contribute to content creation for the Pharmacy Vaccine Provider Newsletter, assist in developing pharmacy-related job aids, and expand the network of providers and partners to ensure more pharmacists are familiar with vaccines and motivated to expand access. The primary goal is to develop a safe, competent pharmacy workforce that is well-versed in vaccine administration. The intern's responsibilities will include researching topics, writing content, designing visuals, and helping to organize resources aimed at improving public health initiatives. Additionally, the intern will assist in developing surveys for pharmacists to identify barriers to the implementation of programs at their site. They will also support outreach activities, collaborate with existing networks, and participate in learning opportunities related to vaccines, pharmacy practice, and public health, helping to ensure the workforce is well-prepared and informed. c. Activities: i. Create and research content for the Pharmacy Vaccine Provider Newsletter, including writing and designing visuals. ii. Develop pharmacy-related job aids, including summarizing existing information and creating how-to guides or FAQs. iii. Expand the provider and community network by identifying new opportunities and supporting existing collaborations. iv. Participate in outreach activities, including phone calls or other tasks to support the VPDC Program's goals. v. Attend regular VPDC learning tables, webinars, and other activities to stay informed on program developments. vi. Seek additional learning opportunities related to vaccines, public health, and pharmacy practice. vii. Assist in developing surveys for pharmacists to identify barriers to the implementation of vaccination programs at their sites.	The candidate should be pursuing a graduate degree in one of the following fields: Pharmacy/Pharmaceutical Sciences (PharmD)		<b>Public Health</b> 3530 Wilshire Blvd, Suite 700 Los Angeles, CA 90010 In-office and telework/remote schedule (hybrid)
1336	Unpermitted Street Food Vending GIS Tracking	This project focuses on the development and implementation of a Geographic Information System (GIS) to track and monitor unpermitted street food vending activities across Los Angeles County. The system aims to centralize data collection, streamline enforcement efforts, and provide actionable insights to Public Health and partner agencies. The intern would assist with identifying reported locations of unpermitted street food vending, gathering complaint data, and results enforcement activities.	Environmental Health, Life Sciences, Public health, Public Administration, Geographic Information Systems, Community Health, or other science coursework.	Skills with Geographic Information Systems, Database management, Microsoft Office proficiency.	<b>Public Health</b> 5050 Commerce Drive Baldwin Park, CA 91706 (Telework/remote is not available)
1337	PHN Intervention Project	The Child Welfare Public Health Nursing (CWPHN) Program seeks an intern to work on various program quality improvement initiatives. The CWPHN mission is to promote the health and well-being of children and youth involved in the Los Angeles County's child welfare system by providing comprehensive, continuous, high quality, outcomes focused care. One noted special project titled the PHN Interventions Project would be assigned to the intern. Intern duties will involve analyzing trends related to the visits conducted, entering data, and providing reports. Desired skills include the ability to use Microsoft systems (Excel, Adobe, Word, Outlook, Teams) with meticulous attention to details.	Health Science, Health Care Administration, Health Care Management, Public Administration, Nursing, Information Systems or related fields.	Critical thinking, Critical analysis, working with data sets. Operating systems: Microsoft based systems including Excel, Adobe, Word, Outlook, Teams.	<b>Public Health</b> El Monte, CA
1338	Mobile Vaccine and Testing Team	The Department of Public Health Mobile Vaccine and Testing (DPH MVT) team provides vaccines and testing services free of cost regardless of insurance status and eliminates the barrier by bringing services directly to where the people of Los Angeles County (LAC) live, work, play, and worship. The MVT team relies on various strategies for outreach like incentives, one-on-one engagement, and education. Our work offers an opportunity for interns to shadow field staff who engage with diverse populations daily including seniors, people experiencing homelessness, and other high-risk groups. Interns will have the opportunity to exercise public health practices and see first-hand some of our efforts in bridging gaps and increasing accessibility to health sources. Interns will also get the opportunity to see the work, logistics, and planning that takes place to run a mobile clinic that operates throughout the county.	Master's level: Public health, health sciences, pre-health, community health.	Candidates should possess excellent organizational, written and oral communication skills; work effectively in team settings; be knowledgeable of Microsoft Office software applications; exhibit ability to engage with diverse populations; demonstrate interest in accessibility and equity in public health; graphic design skills are a plus.	<b>Public Health</b> Remote and Field Based

1339	Youth Engagement Worksheet (YEW) Quality Improvement Project	The Child Welfare Public Health Nursing (CWPHN) Program seeks an intern to work on various program quality improvement initiatives. The CWPHN mission is to promote the health and well-being of children and youth involved in the Los Angeles County child welfare system by providing comprehensive, continuous, high quality, outcomes focused care. One noted special project titled the Youth Engagement Worksheet (YEW) Quality Improvement Project would be assigned to the intern. Intern duties will involve data processing and analyzing trends to determine the frequency of engagement between the client and the Public Health Nurse over a selected period of time to compare responses and PHN interventions. Skills required include the ability to use Microsoft systems (Excel, Adobe, Word, Outlook, Teams) with special attention to details.	Health Science, Health Care Administration, Health Care Management, Public Administration, Nursing, Information Systems or related fields.	Critical thinking, Critical analysis, working with data sets. Operating systems: Microsoft based systems including Excel, Adobe, Word, Outlook, Teams.	Public Health El Monte, CA
1340	Adult Immunization Quality Improvement for Providers (IQIP) Program	Description: The intern will assist with the implementation of evidence-based strategies to increase adult immunization rates, contribute to program development and evaluation, and collaborate with stakeholders with public health goals. Primary responsibilities will be to assist with the implementation and evaluation of the pilot Adult Immunization Quality Improvement for Providers (IQIP) Program. The Centers for Disease Control Program endorses IQIP to promote and support implementation of provider-level strategies designed to help increase vaccination of children and adolescents. The IQIP strategies call for quality improvement activities that focus on improvements to the vaccination workflow. Interns will also assist in other VPDC led projects, including but not limited to, provider outreach calls, updating resources and vaccine-related content, maintaining network of providers, and creating health education materials. Activities: 1. Assist in planning and conducting quality improvement visits with adult immunization providers. 2. Develop and organize educational materials tailored to adult immunization practices. 3. Support data collection, such as running provider specific CoCASA reports, to evaluate the impact of program activities. 4. Conduct outreach and follow-up with providers to ensure implementation of recommended strategies including a 6-month follow up visit and assess improvement in vaccination coverage. 5. Participate in meetings with stakeholders, including healthcare providers, community partners, and Vaccine-Preventable Disease Control teams. 6. Research best practices and policies related to adult immunizations and integrate findings into program recommendations.	The candidate should be pursuing a graduate degree in one of the following fields: Public Health, Medical/Biological Sciences, Health Administration, Health Policy and Management, Immunology, Nursing, Pharmacy/Pharmaceutical Sciences, and/or Epidemiology.	Program planning and evaluation, community health work, data management, project management, quality improvement.	Public Health 3530 Wilshire Blvd, Suite 700 Los Angeles, CA 90010 in office and elewworkite-work schedule (hybrid)
1341	Senior Programs Intern	The Senior Internship Program is designed for students currently enrolled in community college or university who are seeking hands-on experience working with the older adult community. This program provides an opportunity to develop professional skills while supporting initiatives that promote the well-being and inclusion of older adults. Conduct research to identify organizations that offer social services, programs, and resources for older adults. •Draft professional communications, memos, presentations, and other essential documents as needed. •Assist the team in implementing department-wide initiatives, trainings, and ensuring compliance with applicable policies. •Support the Assistant Regional Recreation Director in daily operations and assigned tasks. •Integrate principles of equity, inclusion, and belonging in all aspects of work, ensuring these values are embedded in program development, policy implementation, and organizational practices. •Collaborate with team members to enhance outreach efforts and improve services for older adults. •Perform other duties and assignments as needed to support the department's goals.®	Social Work, Sports Management, Administration, Gerontology	•Strong verbal and written communication skills. •Ability to conduct thorough research and synthesize information. •Proficiency in Microsoft Office Suite (Word, PowerPoint, Excel) and other relevant software. •Organizational skills with the ability to multitask and prioritize responsibilities. •Interpersonal skills to work collaboratively with diverse teams and stakeholders. •Ability to apply a lens of equity, inclusion, and belonging in all tasks and interactions.
