2.4)

■ great clinical experiences with the students at LAC+USC MC.

2.13) Please enter explanation for rated items that scored below 4.

■ Really loved working with second sem. colleagues and sensitive and strong coordinator in my earlier years. Enjoyed third sem. colleagues and had a sensitive weak sem. coordinator but it may be due to her being treated unfairly. Enjoyed first semester colleagues and had a not so sensitive but strong sem. coordinator but perhaps not so sensitive due to short relationship and recognized favoritism especially with one colleague probably due to long established relationship.

2.20) What did you like most about working here?

■ Working with people who were genuinely caring and watching students grow with their competencies.

2.21) What did you like least about working here?

■ Seeing favoritism sometimes not only directed toward one individual but even toward a certain semester.

2.22) Is there is anything else you want to share with us? Please enter it below.

- Would be nice to see problems with personnel that need immediate correcting at person level instead of ignoring and/or side stepping the issue and attempting to correct the problems by involving other personnel who may even be not creating any issues that may need immediate correcting.
